## MOTIF

### **RAMANATHASWAMY TEMPLE, RAMESWARAM**

Rameswaram, the holy Island in the Gulf of Mannar, is a major Hindu pilgrim center of the country. Rameswaram is hallowed by the Epic Ramayana. A devout Hindu who visits Varanasi in the north is expected to visit Rameswaram also for the culmination of his quest for salvation. Rama sanctified this place by worshipping Lord Siva after the war against Ravana of Sri Lanka. Therefore, it is held sacred by Saivites and Vaishnavites as well.

As per legend Hanuman was sent by Lord Rama to bring a Lingam to worship at an appointed auspicious hour. As Hanuman's arrival was delayed, Sita, Rama's spouse, molded a Lingam out of sand for Rama's timely worship. This Lingam is the main deity being worshiped as Ramanathaswamy in the temple. The disappointed Hanuman was later consoled by Rama by installing the Lingam brought by him a little north of Ramanathaswamy temple and decreed that the Hanuman's Lingam should have precedence over the Lingam made out of sand by Sita in all honors and worship.

Ramanathaswamy Temple, situated close to the sea on the eastern side of the Island, is known for its magnificent structure, long corridors and aesthetically carved pillars lining it. The corridor is the longest one in Asia. The temple is 197 meters long on East-West and 133 meters in length on South-North. The entrance of the temple is adorned with a 38.4 meter high Gopuram.

This temple was built by different rulers of south India from 12th Century onwards. The temple complex is constructed in an area of 52800 sq. m. Swami Vivekananda offered prayers at this temple in January 1897.

## FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup> phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup> July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural

Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri S. Gopala Krishnan, IAS, Directorate of Census Operations, Tamil Nadu. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

## PREFACE

Publication of the District Census Handbooks (DCHBs) was initiated after the 1951 census and is continuing since then with innovations/modifications after each decennial census. This is the most valuable district level publication brought out by the census organization on behalf of each State Government/Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts.

The District Census Handbook has two segments: Part A and Part B. Part A primarily deal with village and Town Directory and Part B contains Primary Census Abstract of each village and town of the District. The 2001 Census data presentation both in Part A and Part B of this book was the transition from traditional presentation at Taluk level to CD Block level and this pattern continued in 2011 census as well.

The District Census Handbooks are being made available in electronic format. The DCHB is the joint collaboration of the Census Directorate and the Government of Tamil Nadu. On behalf of the Government of Tamil Nadu, this Directorate has prepared the manuscript of this book. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)-Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)-Industry & Banking, and (vii)- Civic & other amenities in Slums respectively.

The data being presented in this publication have been collected and compiled by Shri M.R.V. Krishna Rao, Joint Director and Dr. D. Venkatesan, Deputy Director with the assistance of Smt/Shri R. Gyanashekar, Deputy Director and V. Jegatheesan, C. Raghu and J. Chithra, Assistant Directors. For the preparation of manuscript of this book, I received wholehearted co-operation from all the Heads of Departments, Heads of offices of the District / Taluk / Corporation / Municipal / Town and Rural Administration and a number of dedicated and experienced Census staff of this office. I am grateful to all of them for their valuable contribution in the accomplishment of this task of national importance. I must place on record the co- operation extended to me by the press media and electronic media to make the census taking a great success in the state.

I am deeply grateful to Shri Dr. C. Chandramouli, IAS, Registrar General and Census Commissioner, India, New Delhi for the valuable guidance and advice at every step till the finalization of this handbook. I also express my thanks to Dr. Pratibha Kumari, Assistant Registrar General (Social Studies Division), ORGI, New Delhi for preparing the set of instructions for the compilation of the Village and Town Directory and other inset tables etc. being inserted in this District Census Handbook.

In particular, it has to be mentioned that the write-up portion was coordinated by Shri M.R.V. Krishna Rao, Joint Director and finalised by Dr. D. Venkatesan, Deputy Director with the assistance of other members of the staff whose names have been acknowledged herein.

## HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity'

manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

-----

## BRIEF HISTORY OF THE DISTRICT

Ramanathapuram district was formed in 1910 by clubbing portions from Madurai and Tirunelveli districts. During the British period, this district was called "Ramnad." The name continued after independence. Later the district was renamed as Ramanathapuram.

In the early 15<sup>th</sup> Century, the present territories of Ramanathapuram district comprising of Tiruvadanaï, Paramakudi, Kamuthi, Mudukulathur, Ramanathapuram and Rameswaram were included in Pandyan Kingdom. For a short period, this area was under the Chola Kings when Rajendra Chola brought it under his control in 1063 AD. In 1520 AD, the Nayaks of Vijayanagar took over this area from the Pandyan dynasty for about two centuries. The Marava chieftains, Sethupathis, who were under the Pandyan Kings reigned over this part during 17th century. At the beginning of the 18th century due to family disputes over succession. Ramanathapuram was divided with the help of the King of Thanjavur in 1730 AD. One of the chieftains disposed Sethupathy and became the Raja of Sivaganga. Acting upon the weakness of the Nayak rules, the local chieftains (Palayakars) became independent. The Raja of Sivaganga and Sethupathy of Ramanathapuram were prominent among them. In 1731 Chanda Sahib captured Ramanathapuram. In 1741, the area came under the control of the Marathas and then under the Nizam in 1744 AD. Chieftains were unhappy with the Nawabs' rule. They declared the last Nayak as ruler of Pandya Mandalam in 1752 AD. By that time the throne of Carnatic had two rivals-Chanda Sahib and Mohamed Ali. The British and French supported Chanda Sahib and Mohamed Ali respectively. It paved the way for a series of conflicts in the southern part of the continent.

In 1795, the British deposed Muthuramalinga Sethupathy and took control of the administration of Ramanathapuram. In 1803, Mangaleswari Nachiyar was made the Zamindar of Sivaganga. After the passing away of the Queen, the Marudhu Brothers took charge paying regular revenue to the East India Company. In 1801, the Marudhu Brothers of Sivaganga, revolted against the British collaboration with Kattabomman of Panchalalamkurichi. Colonel Agnew captured Marudhu Brothers and put them to death by hanging. They installed Gowri Vallbha Periya Udaya Thevar as Zamindar of Sivaganga. After the fall of Tippu Sultan, the British took control and imprisoned the Nawab. In 1792, the Zamindari system was abolished and a British Collector was appointed for administration.

In 1985, Ramanathapuram was trifurcated as (1) Pasumpon Muthuramalinga Thevar district which consisted of Thiruppattur, Karaikudi, Devakottai, Sivaganga, Manamadurai and Ilaiyankudi Taluks, (2) Kamarajar District consist of Srivilliputtur, Virudhunagar, Thiruchuli, Aruppukottai, Sattur and Rajapalayam Taluks and (3) Ramanathapuram District, which consist of Tiruvadanaï, Paramakudi, Kamuthi, Mudukulathur, Ramanathapuram and Rameswaram Taluks , as per the order issued by the Government of Tamil Nadu (G.O.Ms.No.347, dated 8.3.1985).

## ADMINISTRATIVE SET-UP

There were some jurisdictional changes which occurred in Ramanathapuram district from time to time. One village (Emaneswaram) of Ilayankudi taluk in Sivaganga district was transferred to Paramakudi taluk in Ramanathapuram and Rameswaram sub-taluk was upgraded into full- fledged taluk. The erstwhile Mudukulathur taluk was bifurcated as Mudukulathur and Kadaladi taluks (as per GO.Ms. No.277/Revenue Department, dated 15.3.1985); 23 Revenue Villages of Tiruvadanaï taluk in Ramanathapuram district were transferred to Devakottai taluk in Sivaganga district (as per GO.Ms.No.698/ Revenue Department, dated 21.8.1998) with effect from 1.9.1998. One Revenue Village (Valanai) of Tiruvadanaï taluk in Ramanathapuram district was transferred to Sivaganga district (as per the GO.Ms.No.874/ Revenue Department, dated 29.10.98) with effect from 20.2.99.

There are 2 Revenue Divisions (Ramanathapuram and Paramakudi), 7 Taluks, 11 Community Development Blocks, 4 Municipalities, 7 Town Panchayats and 6 Census Towns. There are 393 Revenue Villages in this district. Out of this, 383 villages are inhabited and 10 uninhabited.

Sl. No.	Name of Taluk	Towns	Sl. No.	Name of CD Blocks	No. of Villages	Inhabited Villages

## **DISTRICT HIGHLIGHTS - 2011 CENSUS**

- Ramanathapuram district ranks 25<sup>th</sup> place in terms of population from the highest in TamilNadu.
- Population density of the district is 330 persons per sq km.
- The decadal population growth during 2001 - 2011 is 14.0%.
- Ramanathapuram district share urban population of 30.3% to the total district population.
- The district has returned the sex ratio of 983, as against the State sex ratio of 996.
- The district has recorded the literacy rate of 80.7%.
- Paramakudi taluk has the highest number of inhabited villages (93) while Rameshwaram taluk has the lowest number (1) of such villages.
- Pamban village (L.C. no. 01532400) in Rameswaram taluk is the most populated village (37819) and Alikudi village (L.C. no. 01496500) in Tiruvadanai taluk has returned the least number of persons (17) in the district.
- S. Tharaikudi village (L.C. no 01524400) in Kadaladi taluk has the largest area of 4036.43 hectares and Sippikulam village (L.C. no 01525200) of Kadaladi taluk has the least area of 15.59 hectares among the villages in the district.
- Proportion of Child population (in the age group of 0-6) to the total population of the district is 10.4%.
- Scheduled Castes population in the district constitutes 18.4% to its total population.
- Work participation rate of the district is 44.6%.
- Power supply and improved drinking water facility is much impressive. It is available in almost all the villages.
- The southernmost tip of India is called Dhanushkodi situated in this district. It was completely washed away by a cyclone in 1964.
- Rameshwaram is the holy island in the Gulf of Mannar, a major Hindu pilgrim center of the country.

## **Section - I**

# **Primary Census Abstract (PCA)**

## **BRIEF NOTE ON PRIMARY CENSUS ABSTRACT**

### **Introduction:**

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

## **2. Population Enumeration - Census 2011:**

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 alongwith a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing& Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing& Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

## **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their States/UTs. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population

enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is an important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

## **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## **6. Area Figures:**

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

-----
