## MOTIF

### Deodhani Dance

It is well known that Assam is the home of various tribes, cultures, folk dances and music. One such Folk Dances of Assam is the famous Deodhani Dance. The Darrang District reflects this folk dance form in a popular and significant manner. This dance can be performed as solo or group of 3 or 4 females, on the occasion of the worship of Devi Manasa, the Snake Goddess or Maroi. In this dance, the songs sung by the OJAPALI are known as SHUKNAMNI. This dance is related with a very famous folk tale of Assam, based on Behulaa and Lakhindar (Characters from PADMA PURANA) who were spouses. It is said that, when Lakhindar (Husband of Behulaa) died, the wife Behulaa had to dance before the Goddess Manasa to get back her husband's life.

In this dance, the dancer wear Mekhela made of Muga (Traditional dress of Assam) with Red Blouse, different traditional jewellerys and leaves their hair open. Also they take swords and shields displaying a virile war dance during the performance.

## FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1<sup>st</sup> phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15<sup>th</sup> July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management

Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Prateek Hajela, IAS, Director of Census Operation, Assam. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)  
Registrar General &  
Census Commissioner, India

New Delhi.

Dated:- 16-06-2014

## Preface

The District Census Handbook (DCHB) was first introduced in 1951 Census. This is a publication containing both Census and Non-Census data. The DCHB is a publication where data is sourced both from State Government as well as from the office of the Directorate of Census Operations.

In a DCHB, district wise data at village and town/ Ward level is presented at Community Development Block wise. In DCHBs of earlier Censuses only Primary Census Abstract data was presented alongside the Village directory/Town Directory data. However, during 2011 Census it was decided to bring out two publications of DCHB as Part A and Part B for each district. The Part A will contain various inset tables based on Village Directory/Town Directory data, Part B shall comprise mainly of Census data pertaining to Primary Census Abstract (Rural & Urban) as well as House listing data arranged CD Block wise for each district. This is the first time that the DCHB is coming up with the House listing data in its publication.

The main purpose of DCHB is to disseminate data up to the lowest administrative level of villages in rural areas and wards in urban areas to facilitate micro level planning and development at the grassroots.

The Census Operation in Assam was conducted under the able guidance and supervision of Shri R.K.Das, IAS. I had assumed office as the Director of Census Operations in February, 2014 and by this time collection and compilation of Village and Town Directory schedules for the 26395 villages and 214 towns, including 126 Census Towns had painstakingly been completed. An important aspect of this publication of DCHB is that unlike other Census publications where villages are presented only Revenue Circle wise, this publication of the handbook is presenting villages CD Block wise. For this purpose, the information on CD Blocks was collected from Panchayat and Rural Department of the state Government to arrange the villages accordingly.

The work of collection of Village and Town Directory schedules was done under the supervision of Dr.D.K.Dey, Joint Director and Sri G.R.Saikia, Deputy Director. However, after transfer of Dr. Dey from DCO, Assam, Smt Bharati Chanda supervised the work of compilation, validation and finalization of Village and Town Directory data. Smt Nijora Sharma, Asst. Director guided and co-ordinated the entire staff engaged in the various aspects relating to compilation of the DCHB. Shri J.Ghosh, Sr.Supervisor greatly helped in cross checking and validation of the entire data. Smt. Salma Sahin Laskar, SI-II and Shri Satadal Dutta, DEO also have contributed significantly in bringing out this publication of DCHB by meticulously scrutinizing the data and preparing the manuscripts.

I would like to thank Shri O.M.Singh, Research Officer (Map) and his dedicated team of the Map section for preparing the maps presented in the DCHB.

I am grateful to Dr.C.Chandramouli, IAS Registrar General & Census Commissioner of India for his valuable guidance and his constant encouragement to complete the work within the time frame. I would also like to specially thank Shri A.K.Arora, Joint Director, D.P.Division and his team for their constant technical guidance and co-operation.

## HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses.

In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

-----

## Brief History of the District

The erstwhile undivided Darrang district was an old administrative unit of Assam. The district of Sonitpur was initially bifurcated from Darrang. Later the new Bodoland Territorial Area District (BTAD) of Udalguri was carved out with major part of Darrang and some part of Sonitpur. The name of the district appears to have originated from the term Darrang Raja, a branch of Koch Kings. Dharmanarayan was known as the founder of the dynasty of Darrang Rajas. The present Mangaldoi area was at that time known as Darrang Desh, even after annexation of Assam by the British in 1826. It is also believed that, the word Darrang might have been used by the aboriginals of this district, who were of the Tibetan stock. This name may have been borrowed from the Daflas or the Bhutias, whose main duar or pass for coming to the plains from Himalayan ranges lay along the course of Barang river. They called it Duar-ganga, which after corruption to Duaranga may assume the present form of Darranga or Darrang. However, Lt. Mathic, in his report on Darrang district (1835), has observed that Darrang means land of flood and is derived from Dur and Rung possibly Ahom words.

This district, which once formed a part of the ancient Kamrupa was ruled by three dynasties viz., the Varmans, the Salastambhas and the Pals. Pushyavarman, who was the first important ruler of Varman dynasty, is quoted to be flourished in the middle of the fourth century A.D. and this dynasty ruled over Kamrupa for about three hundred years. Of this dynasty, Bhaskar Varman (594-650 A.D.) was the greatest monarch even among the most remarkable rulers of ancient India.

The dynasty of Salastambha family is believed to have commenced after the end of Bhaskar Varman's rule. This family was called as Bhaumas of Haruppesvara, which is identified with Tezpur.

The kingdom of Kamrupa, after the death of the last king of Salastambha dynasty towards the end of the 10<sup>th</sup> century, passed into the hands of Brahmapala, the founder of the Pala family and this line of Pala Kings ruled for about one hundred fifty years. The last king of this dynasty was Jaya Pala, who expired in 1138 A.D. Darkness descends on the history of Kamrupa after the fall of the Pala dynasty and next successors.

According to records, the Ahom king Suhungmung alias Dihingiya Raja (1497-1539 A.D.), occupied the territories on the north bank of the Brahmaputra in 1505 A.D. when Bar-Bhuyan was ruling there in small principalities. They defeated the Chutiyas in 1523 A.D. The Ahom territory was soon exposed to the Koch and the Muslim invasions. The Muslims invaded the Ahom territory thrice and many decisive battles were fought in Darrang. Soon after this, Biswa Sinha, the first Koch king conquered Darrang and rose to power in about 1515 A.D., where the Bara-Bhuyan still had some semi-independent principalities in several parts of this district.

After Biswa Sinha's death in 1540 A.D, his eldest son Malladev, who assumed the name of Naranarayan, took the throne and his brother Chilarai was appointed as the commander-in-chief. The reign of Naranarayan represents the Zenith of Koch power. They invaded the Ahom territory in 1546 A.D. and rulers of Manipur, Jaintia, Tipperah, Shylet, Khynim and Dimarua, were all brought under subjugation, besides the Ahom king who was also subdued by the Koches. Thereafter, Suklenmung (1539-1552 A.D.) regained the lost territory in Darrang from Koch in a great victory.

Naranarayan captured this territory again in 1563 A.D. The entire territory north of the Brahmaputra remained in the hands of Koches. The Ahom king Sukhampa (1552-1603 A.D.), the successor of Suklenmung made vigorous attempts to recover their lost territories. After his death in 1603 A.D, Pratap Sinha ascended the Ahom throne.

After Naranarayan's death in 1584 A.D., quarrel began between his son Laxminarayan and Chilarai's son Raghudev. Raghudev was succeeded by his son Parikshit, who soon became involved in hostilities. Laxminarayan sought the help of Nawab of Dacca to subdue Parikshit and Parikshit approached Ahom king Pratap Sinha for help but no avail. In 1619 AD., the Mughals defeated Parikshit and his kingdom was annexed to Mughal Empire. Parikshit's brother Balinarayan sought shelter under Pratap Sinha. In 1616 A.D. Pratap Sinha inflicted a crushing defeat on the invading Muslims on the banks of Bharali and appointed Balinarayan as the protectorate king and the tributary Raja of Darrang in 1616 A.D. with a title Dharmanarayan.

The history of Darrang after Balinarayan, centers mainly round the Ahom kings, who began to strengthen their hold on the Darrang Rajas. The struggle between Muslims and Ahoms for capturing each other's territory started after 1617 A.D. But in 1637 A.D., the Muslims, who were advancing towards Kajali, defeated Ahoms. In the counter offensive, the war ended with a treaty between Muslims and Ahoms, specifying each other's boundaries.

Dharmanarayan succeeded by his son Mahendranarayan, and after his death in 1643, Chandranarayan succeeded him. Chandranarayan shifted his capital to Mangaldoi and successfully resisted the onslaughts of Bhutias. After his death in 1660 A.D., Suryanarayan became the Raja of Darrang under Ahom king Jayadhwaj Sinha, successor of Pratap Sinha.

Mir Jumla, the Governor of Bengal made an attack on Assam on 4<sup>th</sup> January 1662 and captured Gauhati. Jayadhwaj Sinha died in November 1663 and he was succeeded by Chakradhvaj Sinha (1663-1669 A.D.). In 1667 A.D., he recaptured Gauhati and extended their territory to the Manas river and regained Darrang. On hearing this, Aurangzeb sent a big army against Ahom, which reached Rangamahi in February 1669 A.D. and advanced up to Tezpur. But Ahoms gained a decisive victory over Mughals in 1671 A.D. during the reign of Udayadithya, the successor of Chakradvaja Sinha. Mughals retreated to Rangamati. Udayadithya was succeeded by Gadadhar Sinha (1681-1695). The zenith of Ahom power was reached during the reign of Rudra Sinha (1695-1714 ), who succeeded Gadadhar Sinha. But his son Siva Sinha (1714-1744 A.D.) was a weak prince. Indranarayan was the king of Darrang during this period and Ahoms greatly curtailed his powers. Most of the area placed under the direct administration of Ahoms.

During the period of Kamaleswar Sinha (1795-1810), who succeeded the Ahom throne in 1795, there was a series of insurrections in several parts. The Daflas and Moamarias rose in rebellion. Burmese invaded Ahom and intruded upon British territory, which led to British intervention. Soon after a war between British and Burmese, the treaty of Yandaboo took place on February 24, 1826, which led to the eventual annexation of Assam to the East India Company and Darrang became part of it. This was tagged with Lower Assam and administered from Gauhati till 1833, when it was separated and erected into a district known as Darrang with head quarter at

Mangaldoi. In 1835, the headquarter of the District was shifted to Tezpur. In 1983, when a new District of Sonitpur was created comprising the area of Tezpur Sub-Division, Tezpur became the District headquarter of Sonitpur district and Mangaldoi became the headquarter of Darrang district.

## **Administrative Set Up**

The Deputy Commissioner of the District is the overall in charge of the administration of the entire district. He also acts as the Collector in case of Revenue matters, as a District Magistrate in case of maintenance of Law and Order and General Administration, as a District Election Officer in case of conduct of Election, as a Principal Census Officer while conducting Census, and so on. A number of Officers, like Additional Deputy Commissioners, Sub-divisional Officers, Extra Assistant Commissioners and others assist the Deputy Commissioner in looking after administration of the district.

At present the district Darrang has only one sub-division named Mangaldoi. The districts consist of 6 revenue circles. All the Revenue circles comprise a total of 561 villages. The name of Revenue Circles are Mangaldoi(Pt), Sipajhar, Patharighat(Pt), Dalgaon(Pt), Khoirabari(Pt) and Kalaigaon (Pt). The district possesses 3 towns (2 statutory towns and 1 census towns) and 7 Community Development Blocks. The district covers an area of 1,585 Sq.Km out of the State total areas of 78,438 Sq. Km The rank of the district in term of area is 22<sup>th</sup> among the district of Assam. After Census, 2001, 780 villages, Tangla TC and Udalguri TC of Darrang district was carved out for the formation of the new district of Udalguri and 1 village from Pathorighat RC of the district was included in the new district of Baksa.

## District Highlights 2011 Census

- In Darrang there are 6 Revenue Circles and 7 CD Blocks which comprises 561 villages including 9 uninhabited villages.
- In the district, Dalgaon (Pt) Revenue Circle is the most populous having 473585 persons while Khoirabari (Pt) is the least populous Revenue Circle having 8398 persons.
- Among the CD Block, Sipajhar (Part) CD Block has the highest number of population with 221556 whereas the lowest is found in Khoirabari (Part) CD Block with 8398.
- The district comprises three (3) towns: 2 Statutory Towns and 1 Census Town. Mangaldoi (MB) is the most populous with 25989 persons while Gerimari Chapori (CT) is the smallest in population with 11004 souls.
- While the highest number (180) inhabited villages is found in Sipajhar (Part) CD Block and lowest inhabited villages (7) is found in Khoirabari (Pt) CD Block.
- The largest village by population is Baghpuri Chapori with 9927 persons under Pub- Mangaldoi (Pt) CD Block and the smallest village is Mahariadal with 1 person under Sipajhar (Part) CD Block.

## Important Statistics

		State		District		
Number of Villages	Total		26,395		561	
	Inhabited		25,372		552	
	Uninhabited		1,023		9	
Number of Towns	Statutory		88		2	
	Census		126		1	
	Total		214		3	
Number of Households	Normal		6,387,047		187,429	
	Institutional		16,131		305	
	Houseless		3,293		49	
Population	Total	Persons	31,205,576		928,500	
		Males	15,939,443		475,273

## **Section - I**

# **Primary Census Abstract (PCA)**

## Brief Note on Primary Census Abstract

### Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

### 2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28<sup>th</sup> February, 2011 along with a revisional round from 1<sup>st</sup> March, 2011 to 5<sup>th</sup> March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand

states that remain snowbound in February. In these locations the population enumeration was done from 11<sup>th</sup> September, 2010 to 30<sup>th</sup> September, 2010 along with a revisional round from 1<sup>st</sup> October, 2010 to 5<sup>th</sup> October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28<sup>th</sup> February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

### **3. Quality Assurance:**

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and

monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

#### **4. Primary Census Abstract:**

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

#### **5. Level of Presentation of PCA data in District Census Handbooks:**

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

-4-

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## 6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

---
