**VILLAGE AND TOWNWISE  
PRIMARY CENSUS ABSTRACT**

Director of Census Operations, ANDHRA PRADESH

## Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

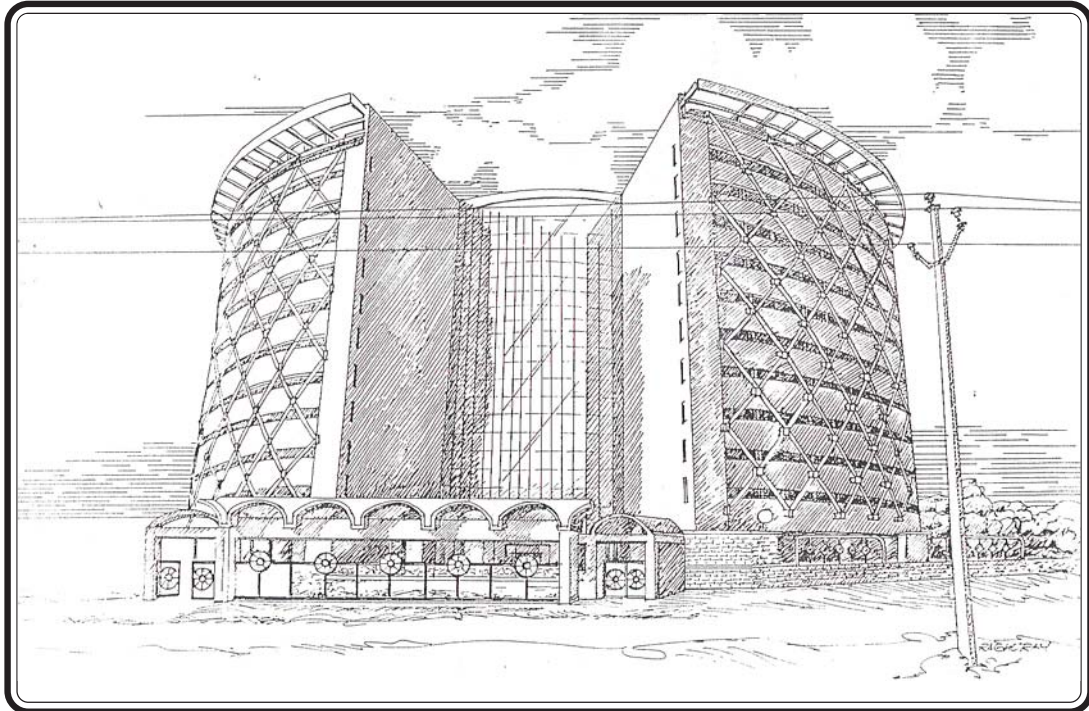

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

## Hi-Tech City

The Motif chosen for Rangareddy Handbook is "Hi-Tech City", Hyderabad Information Technology and Engineering Consultancy.

The Hitech-City is located very near to Hyderabad city in Madhapur village and is spread over an area of 63.2 hectares (158 acres) of land. The project has been taken up as a joint venture by Larsen & Toubro Limited and Andhra Pradesh Industrial Infrastructure Corporation Limited at a total cost of Rs. 150 crores keeping in view the International Standards. It provides impetus to software, Hardware, Engineering and Financial Service Industries. It has become a major hub of activity for Information Technology related activities in India.

Hitech-city is offering a one stop solution to high tech companies for all their business and social needs and will be an integrated township with all infrastructural facilities.

The 'Cyber Towers' in the Hitech-City was built as part of the Projects' Phase-I and developed in 6 acres of land for full fledged business operation. It comprises of a ten storied cylindrical structure offering 5.25 lakh sq.ft. of World Class IT infrastructures. This Phase-I building was inaugurated by the then Hon'ble Prime Minister of India, Sri Atal Behari Vajpayee on 22nd November, 1998.

Presently the Cyber tower is hosting International IT Giants like IBM, Microsoft, Oracle, Pentafor, Motorola, GE Capital, Metamor etc., and has become a symbol of Man's capacity and skill in the ever expanding frontiers of knowledge.

## Preface

The District Census Handbook (DCHB) containing Primary Census Abstract and data on “amenities” for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Handbook is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Handbook is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls’ High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Handbooks has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidance, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in "Acknowledgements". I am grateful to all of them.

I hope that the data users will find this publication very useful.

## District Highlights - 2001 Census

1. Rangareddy District stands 20<sup>th</sup> rank in terms of area size and ranks 9<sup>th</sup> in terms of population in the state.
2. Rangareddy district stands 2<sup>nd</sup> rank in terms of urbanization with a total Urban population of 1,937,837 forming 54.2 percentage to the total district population.
3. The sex ratio of the district is 944 against 941 in 1991 Census showing upward trend.
4. The density of the district is 477 against 341 in 1991 Census, showing increase over the decade.
5. Medchal village, PLC No. 00512900 is most populated with a population of 21,730 and Langerguda village, PLC No. 00575500 is the least populated with a population of 13 in the district.
6. Saroornagar Mandal is most populated with a population of 391,358 and Bantwaram Mandal is the least populated with a population of 34,121 in the district.
7. Kukatpally Municipality is most populated with a population of 292,289 and Vicarabad Nagar Panchayat is the least populated with a population of 42,410 in the district.
8. Out of 100 workers 40 are engaged in Agriculture sector, 3 in Household industry and 57 in other economic activities. Thus showing the predominance of others Sector.
9. Out of 100 Male workers in the district 30 are engaged in agricultural sector.
10. Out of 100 Female workers in the district 64 are engaged in agricultural sector.
11. There is decrease in the proportion of main workers of the district in the decade ( 39.7 percent in 1991 to 35.4 percent in 2001).
12. There is decrease in the proportion of Male main workers of the district in the decade ( 52.1 percent in 1991 to 49.1 percent in 2001).
13. There is decrease in the proportion of Female main workers of the district in the decade ( 26.5 percent in 1991 to 20.8 percent in 2001)
14. The Rangareddy district is famous for mechanical parts.
15. Saroornagar Mandal has the lowest number of inhabited villages (8) and the highest number of inhabited villages (38) are found in Shamshabad Mandal .
16. Gandeed mandal has largest area of 5,955.51 hectares under irrigation, followed by Doma mandal with 4,548.80 hectares in the district. The mandal with lowest area 4.05 hectares under irrigation is Shabad Mandal.
17. Shabad village bearing PLC No.00573400 has the largest area (6,605 hectares) and Sankepalle (Paiga) village bearing PLC No.00507500 has the smallest area (1 hectare) among the villages of the district.
18. Female work participation rate is less than that of the Males (53.4) in the district is (26.3).

## (i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was re-started in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The idea of compiling the District Census Handbooks was pioneered by Sri. R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bounded together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up

printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel, planners, industrialists, electoral authorities, and other data users, also for efficient public administration by the state.

### Pattern at 2001 Census :

The present District Census Handbook of 2001 Census, like the previous Censuses, are brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part-B Primary Census Abstract. At the out set an analytical note is given which depicts a general background on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts, major characteristics with reference to economic resources, administrative setup during the past decade, few Appendixes etc..

### Part A –Village and Town Directory :

The Section- I i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, income and expenditure of the village and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (Kms.) from the

nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of the other state is also given.

The Section-II i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance( receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities, Statement-VI Trade, Commerce, Industry and Banking etc., Statement-VII Civic and other amenities in Slums and an Appendix showing towns with OGs and their population. The reference period for the above statements is 1998-99 and the data is

covered for all the statutorily notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

#### **Part-B : Primary Census Abstract :**

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers etc., are presented in those Abstracts.

## (ii) History and Administrative Set up of the district

### **Brief History of the District :**

Rangareddy district which was formed on 15th August, 1978 by carving out some portion of Hyderabad urban taluk and the merger of the rural and urban areas of the remaining taluks of Hyderabad district. Therefore the history of Rangareddy is no other than the history of Hyderabad which is detailed here. In the initial stage, the name of the district was Hyderabad (Rural). Later it was changed as Konda Venkata Rangareddy district and then as Rangareddy district. It was named after the doyen freedom fighter, patriot and late Deputy Chief Minister of Andhra Pradesh, K.V.Rangareddi who hailed from Pedda Mangalaram village in Moinabad Revenue Mandal of the District.

The history of the district was inextricably bound up with the rise and fall of various kingdoms which flourished in the Deccan during the medieval and modern times. The Kakatiyas of Warangal were the first important rulers of this part of the country between 1150-1323 A.D. Muhammad-bin-Tughlak who broke the Kakatiya power in 1323 A.D. held sway for sometime after which the royal court of the Bahmani Sultans held the Deccan for about two centuries. On their decline, the Barid Shahi Kingdom rose to power which, for unknown reasons, dwindled by about 1609 A.D. Then came the famous Qutub Shahis of Golconda (1512-1687) whose rule opened a glorious chapter in the annals of Hyderabad. It was in the reign of the fifth descendant of this dynasty, Muhammad Quli, that the nucleus of the Hyderabad city, renowned for its magnificent mansions, had been laid in 1589 A.D. However, towards the close of the 17th century the fortress of Golconda fell to the sword of Aurangzeb (1687) who made it a part and parcel of the Mughal Empire and nominated Chin Kalich Khan (Asaf Jah) as Subedar of the Deccan, who in turn, made himself the master of the Deccan after inflicting a signal defeat on Mubarez Khan, who was

secretly instructed by the Mughal Emperor, in the famous battle of Shakarkheda fought on the 11th October, 1724. This battle which was renamed Fathkhera by the Nizam-ul-Mulk marks the establishment of the Asaf Jahi Dynasty and with it the establishment of an autonomous Deccan. It also marks the end of the Medieval period in the history of the Deccan and the commencement of the Modern period which was identical with the end of the Mughal hegemony and the definite establishment of the Asaf Jahi rule. The State and the dynasty so founded by Asaf Jah I had witnessed many eventful things in the evolution of the Hyderabad State. He also instituted the title of the Nizam which had become since then the hereditary and dynastic title of the successive rulers of this State and thus he became the founder of the house of the Nizams (1724). Thereafter, the district remained a part of the Nizam's Dominions until it became a part of the Indian Union in 1948. It was finally merged in the enlarged State of Andhra Pradesh on the 1st November, 1956 when the Sovereign, independent Republic of India implemented the States', Reorganisation Act with a view to redrawing the political map of India, delimiting and alienating the boundaries of the States so as to weld together the people speaking the same language.

The early history of the Deccan of which the district formed a part is given below:

**Early Hindu Period :** In pre-historic times the great Dravidian race occupied Southern India including a major portion of the Deccan Plateau. It is uncertain when the Aryans invaded the Deccan. The empire of Asoka (273-231 B.C), however, seems to have had control over the whole of Berar and a considerable portion of the Deccan plateau. The Andhras were the next kings who ruled the Deccan. They are mentioned in the Asokan inscriptions but their rise to power dates from about 220 B.C. Gradually extending their sway from Krishna delta,

they soon possessed an empire reaching to Nasik. This dynasty seems to have come to an end in the third century A.D. But the reasons for the collapse are little known. The Pallavas who ruled South of Krishna might have extended their power to this region. The next dynasty of importance is that of the Chalukyas who rose to power in Bijapur district by about 550 A.D., and founded an empire spreading east and west across the Peninsula with their capital at Kalyani. Pulakesin II (608-642 A.D.), ruled practically the whole of India south of Narmada river and even came into contact with Harsha Vardhana of Kanuj. Throughout their period of supremacy the Chalukyas were at war with the Pallavas. In the middle of eighth century the Chalukyas were displaced by the Rashtrakutas of Malkhed in Gulbarga district. About 973 A.D., the Chalukyan dynasty was restored and for nearly 200 years maintained its position, in spite of fierce struggles with the Cholas and Hoyasalas of Dorasamudra. The Chalukya power fell about 1189 A.D. to the Hoyasalas and Yadavas, the latter of whom established themselves at Deogiri. The Yadavas were the last great Hindu rulers of Deccan, for Vijayanagar Kingdom which was founded half a century later after the advent of the Muhammadans, never acquired much sway in the Deccan proper.

**Muhammadan Period :** Alla-ud-din Khilji led the first Muhammadan expedition into the Deccan in 1294 against the Yadava ruler of Deogiri and coerced him into submission. In 1296 A.D. he assassinated his own uncle and seized the throne, and sent an expedition to Deogiri. His first expedition was dispatched in 1303 A.D. against the Kakatiya Kings of Warangal, who had established themselves there since the middle of the 12th century. This having failed he sent a second expedition under Malik Kafur in 1309 A.D, which resulted in the submission of the Raja who agreed to pay tribute. Muhammad bin-Tughlak conducted a later campaign against Warangal and finally broke the Kakatiya power in 1323 A.D. In 1310 A.D. Malik Kafur was sent against the Hoyasala Raja of Dorasamudra (Helebid in Mysore). In 1318 A.D. when Harpal, the Deogiri ruler rebelled, he was defeated and put to death and with him the Yadava dynasty ended. When Muhammad-bin-Tughlak ascended the throne in 1325 A.D. at Delhi the Muhammadans were masters of the Deccan from

North to South, the Chief Rajas of Telangana acknowledged their sway and paid tribute. He changed the name of Deogiri to Daulatabad and made it his capital. A few years later the imperial Governors of the Deccan revolted resulting in the establishment of the Bahmani dynasty. Zafar Khan, who styled himself as Ala-ud-din Hasan Shah Gangu founded this line and having taken possession of the Deccan provinces including Bidar and Gulbarga, he made the latter place his capital and commenced to reign from 1347 A.D. The Bahmani Kingdom extended from Berar in the north to the left bank of the Tungabhadra in the south and from Dabal on the west coast to Telangana tracts in the east. After the fall of this dynasty the Barid Shahi dynasty came into power. Amir Barid who assumed sole charge of the affairs of the Bahmani kingdom after the downfall of the Bahmani dynasty had many vicissitudes and constant wars with the rulers of Bijapur and Berar and he died in Daulatabad in 1538 A.D. He was succeeded by his son Ali Barid who was the first to assume the title of Shah. In 1565 A.D. he marched along with the other Deccan kings against the Rajas of Vijayanagar and in the memorable battle of Tallikota the Vijayanagar ruler was defeated and his fate sealed. Ali Barid died in 1582 A.D. and he was succeeded by three other kings. The Qutub Shahi dynasty next came into prominence. Qutub-ul-Mulk Sultan Kuli, a Turk of noble family, who was Governor of the Golconda province under the Bahmanis took advantage of the distracted state of the kingdom under Muhammad Shah of the Barid Shahi dynasty and declared his independence establishing the Qutub Shahi dynasty which reigned from 1512 to 1687 A.D.

When the Mughals invaded the Deccan, the local rulers formed an alliance against them, but after defeating the invaders they fell out among themselves, enabling the Mughal troops to subdue the country. Shah Jahan after rebelling against his father fled from Burhanpur and was welcomed at Golconda by Abdullah Qutub Shah. In 1635 A.D. Shah Jahan who had then become the emperor, sent a farman to Golconda which was well received. Mir Jumla, the King's minister, appealed to Aurangzeb for help against his master in 1655 A.D. and this afforded a pretext for Aurangzeb to invade the territory. Hyderabad was plundered, but Abdullah sued for peace and paid

arrears of tribute. He died in 1674 A.D. and was succeeded by his nephew Abdul Hasan also called Tana Shah. After the fall of Bijapur in 1686 A.D. Aurangzeb turned his attention to Golconda which was taken in the following year. Tana Shah was made a prisoner and died in 1704 A.D. and with him the Qutub Shahi line ended. This dynasty was followed by Asaf Jahi dynasty to which the present Nizams belongs. The Asaf Jah dynasty was founded by Asaf Jah, a distinguished General of Aurangzeb, a Turkoman by descent. After a long service under the Delhi emperor he was appointed as Subedar or Viceroy of the Deccan in 1713 A.D. with the title of Nizam-ul-Mulk which has since become the hereditary title of the family. The Mughal empire at this period was on the verge of decline owing to internal dissensions and attacks from without. Amidst the general confusion Asaf Jah had little difficulty in asserting his independence against the degenerate and weak occupants of the throne of Delhi, but he had to repel the inroads of Marathas who were harassing the west of his newly acquired territory. His independence was the cause of much jealousy at Delhi and the court party secretly instructed Mubariz Khan, Governor of Khandesh to oppose him by force of arms. A battle was fought at Shakarkhelda in the Buldana district of Berar in 1724 A.D., when Mubariz Khan was totally defeated and lost his life. This battle established the independence of Asaf Jah who annexed Berar and fixed his residence at Hyderabad and established his dominions. The Hyderabad district along with the rest of the Telangana came under the control of the Asaf Jahi dynasty.

After the death of Asaf Jah, Nazir Jung, his second son and Muzaffar Jung, his grandson by one of his daughters, strove for the succession. At this time the English and the French were contending supremacy in the East and each of the claimants secured the support of one of these powers ; Nazir Jung's cause was espoused by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prisoner to his uncle, but on the assassination of Nazir Jung , Muzaffar Jung was proclaimed the sovereign. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan Chiefs and the French then selected Salabat Jung a

brother of Nazir Jung and son of Asaf Jah as ruler. Ghazi-ud-Din, the eldest son of Asaf Jah, who, it was alleged had relinquished his claim at first now appeared as a claimant, supported by the Marathas, but his sudden death put stop to further struggles. The English and the French were then contesting for power and influence in the Deccan, but the victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened and to leave Salabat Jung to shift for himself. Nizam Ali Khan, the fourth son of Asaf Jah at this juncture obtained the support of the English on the promise of dismissing French from his service. Salabat Jung was dethroned in 1761 A.D. and Nizam Ali Khan was proclaimed ruler.

In 1766 A.D. the Northern Circars were ceded to the British on the condition that the Nizam was to be furnished with a subsidiary force in time of war and received 6 lakhs of rupees per annum when no troops were required, the Nizam on his part promising to support the British with his troops. This was followed by the treaty of 1768 A.D. by which the East India Company and the Nawab of Carnatic engaged to assist the Nizam with troops whenever required by him on payment. In 1790 A.D., war broke out between Tipu Sultan and the British and a treaty of alliance was concluded between the Nizam, the Marathas and the British. Tipu, however, concluded peace and had to relinquish half of his dominions which was divided among the allies. In 1798 A.D. another treaty was concluded between the Nizam and the British. On the fall of Seringapatnam and the death of Tipu Sultan, the Nizam participated largely under the treaty of Mysore in 1799 in the division of territory and his share was increased because of the withdrawal of the Peshwas from the treaty. In 1800 a fresh treaty was concluded between the Nizam and the British by which Nizam ceded all the territories which had accrued to him under the treaties of 1792, and 1799 i.e., Cuddapah, Kurnool, Anantapur and Bellary districts known as the Ceded districts of Madras. Nizam Ali Khan died in 1803 and he was succeeded by his son, Sikandar Jah. On the death of Sikandar Jah in 1829, his son Nasir-ud-Doula succeeded. Nasir-ud-Doula died in May, 1857 and he was succeeded by his son Afzal-ud-Doula. In 1869 on the death of Afzal-ud-Doula his son Mir

Mahbub Ali Khan Bahadur became the ruler. As he was only three years old then, a regency was constituted for the administration of the country, with Salar Jung-I as Regent and Nawab Shams-ul-Umara as Co-Regent, the British Resident being consulted on all important matters concerning the welfare of the State. On the death of the Co-Regent in 1877, his half brother Nawab-vikar-ul-Umara was appointed as co-administrator but he also died in 1881, Sir Salar Jung remaining sole administrator and Regent till his death in 1883. In 1884, Mir Mahabub Ali Khan having attained majority was installed as ruler by Lord Rippon. On the death of Mir Mahbub Ali Khan, in 1911 Mir Osman Ali Khan ascended the throne. In 1947 when the country attained independence the princely states were given the choice either to remain independent or to join the Indian Union. The Nizam's Dominions became part of Indian Union in 1948 as a Part 'B' State. In 1956 during the re-organisation of States the Hyderabad State was trifurcated and the nine predominantly Telugu speaking districts of Mahbubnagar, Hyderabad, Medak, Nizamabad, Adilabad, Karimnagar, Warangal, Khammam and Nalgonda known as the Telangana region were transferred to Andhra Pradesh. Major portions of the predominantly Kannada speaking districts of Raichur, Gulbarga and Bidar were transferred to Mysore State while the Marathwada comprising the five districts of Aurangabad, Osmanabad, Bhir, Parbhani, Nanded and portion of Bidar which is predominantly Marathi speaking was transferred to Maharashtra State. These changes were effected on the 1st November, 1956.

Hyderabad, as the State Headquarters district since the heyday of the Nizams' rule, had occupied a central position both geographically and politically. The district was known for long as the Atraf-i-Balda district meaning "Suburbs of the City". It comprised the Sarf-i-Khas Illaqas that were situated around the city of Hyderabad and formed into a district and was placed under a Talukdar Subject to the direct control and supervision of the Sarf-i-Khas Secretary. This district plus other Crown lands spreading all over the dominions constituted the personal property of the Nizam. They came to be regarded as a State within a State and remained territorially unaltered since the turn of the century though numerous changes were

noticed in regard to other districts over decades. It was only in the decade 1941-51 that the district had undergone a radical territorial change when both the Atraf-i-Balda district and the district of Baghat were abolished and the Hyderabad district was created. Subsequently, the district passed under the Central Administration (1948) and ceased to be the ruler's personal property. The subsequent changes have been presented in the Administrative set-up given below.

**(ii) Administrative Setup :**

**(a) Region of the state where the district is located :**

The district is located at the heart of Dakshinapatha or the Deccan plateau of the Indian subcontinent. This district is primarily the rural hinterland for Hyderabad city, feeding the powerful commercial centre with various raw material agricultural produce and finished products.

This district is bounded on the north by Medak district, on the East by Nalgonda district, on the south by Mahbubnagar district, on the west by Gulbarga and north-west by Bidar districts of Karnataka state.

**(b) Total number of Revenue Divisions and Mandals :**

In 1985, the then existing 11 Taluks were re-organised into 37 Mandals corresponding to the Revenue Mandals. Mandal Parishads were also formed which are coterminous with Revenue Mandals, in all cases except Uppal mandal. The statutory towns are not included in the jurisdiction of the Mandal Parishads. Taking villages from two erstwhile taluks has formed the 11 mandals. Each of the remaining 26 mandals has been formed by taking villages exclusively from each of the erstwhile 11 taluks (i.e. without including villages from second taluk). While comparing the number of villages at 2001 Census with that of 1991 census, certain difference is noticed in total number of villages i.e. 923 villages in 2001 and 927 villages in 1991. 63 uninhabited villages in 2001 and 62 uninhabited villages in 1991. The difference is due to the villages Kuntloor, Injapur, Jillelguda becoming Out growth to L.B.Nagar(M) and Nadergul becoming partly Out Growth to L.B.Nagar(M) and the village Meerpet has treated as a census town. The village

Narsingi has also become census town. The village Girgetpalle of Vicarabad mandal which was included in Vicarabad(NP) in 1991 census has been declassified and similarly the village Maqta Bahadur Ali of Shamshabad mandal which was included in Shamshabad(P) in 1991 census, has been declassified in 2001 census. The number of census towns is 5 in 2001 census whereas the number of census towns was 3 in 1991 census. There are 12 statutory towns, and 5 census towns in the district during 2001 census as listed below.

Statutory towns i.e.

1. Hyderabad M. Corp (Portion)
2. Serilingampally
3. Kukatpally
4. Qutubullapur
5. Alwal
6. Malkajgiri
7. Kapra
8. Uppal
9. L.B.Nagar
10. Rajendranagar
11. Vicarabad
12. Tandur and

Census towns i.e.

1. Ghatkesar
2. Omarkhan Daira
3. Meerpet
4. Gaddiannaram
5. Narsingi

The Revenue Division-wise Mandals are given below.

**1. Hyderabad East Division :**

Qutubullapur  
Medchal  
Shamirpet

Keesara  
Ghatkesar  
Uppal  
Hayathnagar  
Saroornagar  
Maheswaram  
Ibrahimpatnam  
Manchal  
Yacharam  
Kandukur

**2. Chevella Division :**

Shankarpalle  
Serilingampally  
Balanagar  
Malkajgiri  
Rajendranagar  
Moinabad  
Chevella  
Shabad  
Shamshabad

**3. Vicarabad Division :**

Marpalle  
Mominpet  
Nawabpet  
Vicarabad  
Dharur  
Bantwaram  
Peddemul  
Tandur  
Basheerabad  
Yalal  
Doma  
Gandeed  
Kulkacherla  
Pargi  
Pudur

### (iii) Physical features of the District

#### Location and Size :

The district lies between 16<sup>o</sup>.19' and 18<sup>o</sup>.20' of the Northern latitude and 77<sup>o</sup>.30' and 79<sup>o</sup>.30' of the Eastern longitude. The district is bounded on the North by Medak district, on the East by Nalgonda district, on the South by Mahbubnagar district and on the West by Gulbarga district of Karnataka State. The district headquarters is Hyderabad. It is connected by road and rail. The Geographical area of the district is 7,493 sq.kms. and has 3,575,064 population as per 2001 Census. The density of Population is 477 per sq.km. Among 23 districts in the State, Rangareddy ranks 20<sup>th</sup> in terms of area and 9<sup>th</sup> in terms of population. The total population of the district is comprising 1,637,227 rural and 1,937,837 urban as per 2001 census. The Scheduled Castes population in the district forms 14.6% of the total population while Scheduled Tribes accounts for 4.1%. Of the 210 towns in the state, 17 are situated in the district.

#### Physiography :

Rangareddy district comprises of plains, but is mostly criss-crossed with some rivers, seasonal rivulets and small streams.

#### Drainage :

The principal river flowing in the district is Musi. It rises in the Ananthagiri hills near Sivareddipet which was included in Vicarabad(M). It flows from west to almost due east passing through middle of Hyderabad city and joins river Krishna near Vadepalle of Nalgonda district. Osman Sagar and Himayath Sagar are the

two reservoirs across Musi and its tributary which are situated at a distance of 19.3 kms. and 9.7 kms. from Hyderabad respectively to supply drinking water exclusively for the twin cities. The next largest tributary of river Bhima called Kagna rises in Vicarabad mandal and drains Vicarabad and Tandur areas. The third water source for the district is Manjira, a tributary of river Godavari, but the area under irrigation is very limited.

#### Hills :

The district is mostly hill area with some woods. The general slope of the land is from west to east and southeast. The Rajkonda hill runs in a southeastern direction up to Devarkonda mandal of Nalgonda district. The Ananthagiri hills traverse the district from the south in Mahbubnagar to the north up to Dharur. A large portion of this range is composed of high-grade laterite. Isolated granite hills are also found here and there.

#### Climate :

The climate of the district is characterized by a hot summer and generally dry except during the south west monsoon season. The summer season starts in the district by about the middle of March and continues till the first week of June. The heat in April and May is very severe. The southwest monsoon season begins in the first week of June and extends up to the end of September. Northeast monsoon season forms from October to December while January to February is the winter season in the district.

Table (a)  
Month-wise Temperature for the year, 1999

Range	Jan	Feb	March	April	May	June	July	Aug	Sep	Oct	Nov	Dec
Maximum	29.2	32.2	36.7	39.9	37.6	33.3	31.3	30.1	30.2	31.1	30.9	29.0
Minimum	14.0	18.6	21.6	24.7	25.1	23.2	22.4	21.9	21.7	20.3	16.6	14.2

Source: Chief Planning Officer, Rangareddy District

The mean daily maximum temperature is about 32.6° and a mean daily minimum 20.3°, is experienced during the summer. With advance of southwest monsoon by about middle of June there is an appreciable drop in temperature. By October, the day temperature begins to increase slightly, but the night temperature steadily decreases. After November, both day and night temperature decreases rapidly. Winds are generally light to moderate with some increase in force during May and southwest monsoon season. During the post-monsoon season winds are very light and variable in direction in the mornings and mostly northeastern in the afternoons. During the later half of the cold season and in March and April morning winds continue to be light and variable in direction, while the afternoon winds are being mostly eastern to south western. Winds from western direction begin

to blow from May and in the southwest monsoon season; winds are mainly from western to northwestern direction.

### Rainfall :

The district has a normal rainfall of 781.0 mm., the bulk of which is received through the south west monsoon during the period from June to September. Storms and depressions, which originate in the Bay of Bengal during September and Post-monsoon months, move in western and north western direction, across the peninsula. Some of these depressions affect the weather over the district causing widespread to heavy rain and winds. Thunderstorms occur during summer season and towards the end of the south west monsoon and early part of the post monsoon seasons.

**Table (b)**  
**District Average Rainfall Season-Wise And Month-Wise (Mm)**

Sl.No	Year	South west monsoon					North east monsoon				Winter period		
		June	July	August	Sept.	Total	Oct.	Nov.	Dec.	Total	Jan	Feb	Total
1	2	3	4	5	6	7	8	9	10	11	12	13	14
	Normal	104.0	183.0	172.0	128.0	587.0	98.0	30.0	5.0	133.0	5.0	3.0	8.0
1	1998-1999	68.9	219.7	285.9	225.1	799.6	226.1	17.8	--	243.7	--	3.4	3.4
2	1999-2000	72.9	190.8	135.7	106.6	506.6	38.2	0.4	--	38.6	--	20.4	20.4

Sl.No	Year	Hot weather period				Total for the year	
		March	April	May	Total	Normal	
1	2	15	16	17	18	19	
	Normal	7.0	15.0	31.0	53.0	781.0	
1	1998-1999	3.8	1.9	80.3	86.0	1,132.9	
2	1999-2000	--	3.0	66.7	69.7	634.7	

Source: Chief Planning Officer, Rangareddy district

The above table reveals that the district has received more rain fall during 1998-1999, when compared with 1999-2000.

### Soil:

Red soil is predominant in the district followed by black cotton soil. The mandals where more than 50% of the villages have red-chelka soils as the predominant soils are in Medchal, Shamirpet, Qutbullapur, Keesara, Hayathnagar, Saroornagar, Uppal, Ghatkesar, Rajendranagar, Pargi, Doma, Shamshabad, Serilingampally, Malkajgiri, Balanagar, Kulkacherla and Gandeed. Dubba soils are largely

found in Ibrahimpatnam, Manchal, Yacharam, Maheswaram and Kandukur mandals besides red-chelka soils. The mandals where the soils are predominantly black are Chevella, Shabad, Vicarabad, Nawabpet, Dharur, Pudur, Tandur, Peddemul, Yalal, Basheerabad, Marpalle, Mominpet and Bantwaram.

### Flora and Fauna:

The flora of the district exhibits xerophytic adaptations because of its moderately hot and dry climate. About 47.7% of the land in the district is under cultivation. Some sort of greenery generally covers the

uncultivated patches, the hills and slopes. The inland flora that are commonly seen are *Acacia Arabica* (Nalla Thumma), *Acacia Sunda* (Sandra), *Barassus Flabellifer* (Peddalta) and *Phoenix Sylvestris* (Ita). Groves of Mango, Tamarind and Guava are commonly found in and around villages. *Ficus Bengalensis* (Marri) is a very common roadside tree. Other common indigeneous floras with their botanical names are *Azadirachta Indica* (Vepa), *Bombax Malabaricum* (Burugu), *Moringa Oleifera* (Munaga), *Melia Axadirachta* (Vepa), *Feronia Elephantum* (Velaga), *Aegle marmelos* (Maredu) and *Anona Squamosa* (Seethaphalam).

It is on record that in 1900s, the district with its low shrub forests was the home of carnivore like Leopards, Bears, Hyenas and occasionally Tigers. Before the merger of the 'Nizams' dominions with the India union, these forests were preserved for the members of the royal family for their exclusive enjoyment. But now, the forests receded into narrow and small pockets in the midst of habitations and traversed by cart tracks and roads. The advent of modern weapons and other means of hunting have made wild life very scarce and almost put an end to the growth of wild life. Members of the deer family like Black Duck, Chita or Spotted Deer and Sambar can still be seen in the interior forests of Rangampalle, Tirumalapur, Rasam, Anantagiri and Goka Fasalwad. Wild Bear, Jackal and Fox are found in small numbers. Birds like Peacock and Jungle Fowl are seen in Anantagiri block. In cold season the aquatic birds such as wild duck, teal and snipe can be seen in the small and large tanks of the district.

The district cannot boast of any important timber yielding forests. This is because of the low rainfall and in-hospitable soil conditions. The inferior type of forests yields only thorn, fuel and small timber which the soil can sustain. In the eastern portion of the district, the forests are mostly restricted to isolated hills while in the western portion they are confined to the slopes of the hillocks and plateau. The forest area of the district forms about 9.1% of the total geographical area. The location of the state capital in the midst of the district and the high density of population leave great bearing on the development of these forests in the district. The forest have therefore needed and generally restricted to hills and slopes where the plough cannot work easily.

The total area of the forests controlled under 3 forest divisions in the district, i.e., 1. East Division 2. Chevella Division 3. Vicarabad Division.

**Table (c)**  
**Forest Revenue during 1999-2000**

Sl.No.	Name of the product	Revenue (Rs. in Lakhs)
1	Timber	114
2	Firewood and Charcoal	132
3	Beedi leaves	1,320
4	Bamboo	--
5	Miscellaneous	2,683

Source : Chief Planning Officer, Rangareddy District

### Agriculture :

The variation in the fertility of the soils is the main cause for the difference for the cropping pattern of the eastern and western regions in the district. While white sandy loams occur in the eastern region (Hayatnagar and Ibrahimpatnam), black cotton soils predominant in the western region (Chevella, Pargi, Vicarabad, Marpalle and Tandur). The main crops of the district are Jowar, Paddy, Ragi, Castor and Pulses. Food crops account for 82.3% and the remaining non-food crops account for 17.8%. Grape cultivation makes the district occupy a distinct place in the state. The following data provides the particulars of land put for different purposes for the year 1999-2000.

**Table (d)**  
**Land use particulars, 1999-2000**

Sl. No.	Category	Area in Hectares
1	Forest	69,407
2	Barren and Uncultivable land	42,892
3	Land put to Non-agricultural use	87,653
4	Cultivable waste	26,464
5	Permanent pastures and other Grazing lands	46,096
6	Land under miscellaneous tree crops and groves not included in the net area sown	7,413
7	Current fallows	117,917
8	Other fallow land	63,723
9	Net area sown	295,243
<b>10</b>	<b>Total Geographical area</b>	<b>756,808</b>
<b>11</b>	<b>Total Cropped area</b>	<b>320,541</b>
<b>12</b>	<b>Area sown more than once</b>	<b>25,298</b>

Source : Chief Planning Officer, Ranga Reddy District

As already stated that the Jowar is the main crop in the district followed by Paddy, Ragi, Castor and Pulses. Some crops are raised in Kharif and Rabi seasons, while some in one season according to cropping season.

**Table (e)**  
**Area Under Principal Crop During The Year 1999-2000**

Sl. No	Name of the Crop	Area (in Hectares)	Out turn (in Tonnes)	Yield (Kgs)
1	2	3	4	5
1	Jowar	77,039	51,740	672
2	Rice	53,249	116,222	2,183
3	Red Gram	37,400	17,802	476
4	Green Gram	15,875	11,811	744
5	Black Gram	7,299	5,657	775
6	Ground nut	6,821	7,082	1,038
7	Castor	11,407	2,316	203
8	Cotton (yield in bales of 170 kgs. Lint)	18,346	19,101	177

Source : Chief Planning Officer, Rangareddy district.

The above statement gives the information on area under principal crops, out turn and yield for the year 1999-2000.

### Irrigation :

Gross irrigated area in 1999-2000 is 233,625 acres which form only 29.5% of the gross cropped area. Though, two good rivers traverse through the district, there are no irrigation projects. River Musi rounds through the district untapped for irrigation until it feeds the Himayatsagar and Osmansagar tanks mainly for drinking water purpose. The water of Kalinga have been utilized by a medium project known as Kotpalle project, which has an ayacut of 9,200 acres in Vicarabad, Marpalle and Tandur mandals. The ayacut at kokat would irrigate 1,700 acres in the district. Two more medium projects namely Lakhnapur project in Pargi mandal and Jutpalle project in Yalal mandal have ayacuts of 1,059 hectares and 833 hectares respectively. Wells form the principal source of irrigation in the district. An estimated number of (40,956) wells with pump sets exist in the district at present.

**Table (f)**  
**Area irrigated by source, 1999-2000**

Sl.No.	Irrigated by source	Area (in hectares)
1	Canals	1,529
2	Tanks	2,858
3	Tube wells & Filter Points	51,902
4	Other wells	36,097
5	Lift irrigation	804
6	Other sources	1,395
7	Gross Irrigated area	94,585
8	Net area Irrigated	75,898
9	Area irrigated more than once	18,687

Source : Chief Planning Officer., R.R.District

The major crops which irrigated during the year 1999-2000 are furnished below.

**Table (g)**  
**Area of different crops irrigated during the year 1999-2000**

Sl.No	Name of the Crop	Area irrigated(in Hectares)
1	Rice	51,603
2	Wheat	2,110
3	Maize	551
4	Chillies	892
5	Turmeric	7,293
6	Sugar Cane	3,200
7	Fruits	3,094
8	Vegetables	10,867
9	Groundnut	5,406
10	Flowers	746

Source : Chief Planning Officer., Rangareddy district.

According to the survey conducted in 1993, the district possessed 61,715 wooden ploughs. For irrigation purpose 1,386 diesel engines, 21,272 electric pumps and 934 tractors were accounted. 190 sugar cane crushers were also used.

### Natural wealth :

Quartz and Felspar are the principal minerals in this district. Fuller's earth and Lime Stone is also available in this district.

### Quartz :

The extensively exploited Quartz Veins are in the mandals of Medchal, Maheswaram, Rajendranagar, Malkajgiri and Pargi.

### Felspar :

Felspar is available in the mandals of Medchal, Hayatnagar, Maheswaram, Rajendranagar and Malkajgiri around the district head quarters.

### Fuller's earth :

Fuller's Earth is available in Chevella, Vicarabad and Tandur mandals.

### Lime stone :

Lime stone is available mostly in Tandur and Marpalle Mandals. In Tandur mandal, quarries of Lime Stone are extensively developed and the lime is sold locally. Lime kanker is also available in the villages of Ibrahimpatnam mandal and it is used as Lime mortar for building purposes.

**Clay :**

Clays of different type are also available in Tandur area and these are presently being used in the ceramic industry.

**Table (h)**  
**Production of Principal Minerals during the year 1999-2000**

Sl. No	Major Minerals	1999 - 2000	
		Production (in Tonnes)	Value (Rs. in Lakhs)

**Animal Husbandry :**

Rangareddy district, which encircles Hyderabad city, leads other districts of A.P. in commercial poultry. In the municipal areas around Hyderabad city, dairy farming is taken up on commercial lines. To cater the needs of health cover and breeding aspects of the livestock, 227 veterinary institutions are functioning in the district. The district stands first in artificial insemination in the cattle in Telangana region of A.P. 36 voluntary veterinary workers have been trained in veterinary first aid and artificial insemination to render veterinary services at the doorstep of the farmer. As a part of cattle development, fodder activities are being taken up by supplying perennial fodder slips and fodder seeds. Rangareddy district stands first in fodder production in the Telangana region of A.P. Veterinary Biological and Research Institute, Shantinagar, Hyderabad (A state unit) takes care of disease investigation, as there is no separate clinical laboratory for the district. It also supplies vaccine to field units. In order to break

the inbreeding among sheep and to improve their meat yielding capacity, a scheme is being taken up to provide breeding Rams on 50% subsidy with the financial assistance from the district rural development agency, Rangareddy district.

**Table (i)**  
**Live stock particulars, 1999-2000**

Sl.No	Name of the Live stock	Populations
1	Cattle	350,000
2	Buffaloes	218,000

<b>Total :</b>		<b>227</b>	<b>209</b>

Source : Regional Joint Director, Animal Husbandry, Hyderabad

**Fisheries :**

Rangareddy district has no seacoast or major river for fishing activities. During the year 1998-1999, out of the production target of 57.50 lakhs of seed (fry) 42.47 lakhs of fish seed were produced and supplied in the tanks of various fishermen co-operative societies of Rangareddy district and released an amount of Rs.1,40,892. There are 207 departmental water sources in the district. 199 water sources were disposed to fishermen co-operative societies and released an amount of Rs.3,37,900. There are 113 fishermen co-operative societies, 3 fisherwomen co-operative societies and 1 district level fishermen co-operative society. 35 fishermen were imparted fish culture training.

Source: Directorate of Fisheries, Andhrapradesh.

**Industries :**

Rangareddy district has the large number of agro-based industries. It plays an important role in the development of industries in the State because of its proximity to Hyderabad city. The district is in most advantageous position for setting up of industries as the location is nearer to the market and also the easy availability of required technical manpower. This district has a strong industrial base with public sector undertakings like BHEL, ECIL, IDPL, HCL, HAL, HMT Bearings, NFC etc. There are about 230 large and medium scale industries existing in the district as on March, 1999 with an investment of Rs. 2,530 crores, providing an employment to 55,672 persons. These industries manufacture variety of products like Steel, Telephones, Solar Photo Voltaic Modules, Computer Stationery, Polyester & Cotton Yarn, Telecommunication Cables, Plastic Products, Cement, CNC Machines, Automobile Components, Castings, Drugs and Pharmaceuticals and Jelly filled Optic Fibre Cables etc.

There are 14,753 small-scale industries with an investment of Rs.54,375 crores providing employment to 94608 persons as on 31-3-1999. In small scale sector, the products like Fans, Fan Components, Welding Electrodes, Air Conditioners, Drugs and Pharmaceuticals, Engineering items, Castings, Wooden furniture, Steel Re-rolling products, Ms.Ingots, Extraction of oils, Corrugated boxes, Battery Equipment, mineral Water, Plastic Products, Printing, Textile printing greases and Dying, Slabs & Granite cutting and polishing etc. are manufactured.

**Leather Industry :**

The Hyderabad Tanneries Limited is the only leather industry unit worth the name in the district situated at Dargah Hussain Shahwali was transferred to Leather Industries Corporation of Andhra Pradesh (LIDCAP) in 1973. The product, finished leather used in the manufacture of footwear and leather goods is sold to individual artisans in the field.

**Food and Agro Processig Industry :**

The Andhra Pradesh Child Nutrition Council, now called R.E.P.T.R.O.N was set up at Nacharam with the help of CARE during 1977 to provide midday meals for school going children, pregnant women in Rangareddy district.

**Cement Industry :**

The Cement Corporation of India Ltd. was established during 1982 at Karankote near Tandur. Some important research and development institutions are also located in Rangareddy district. They are,

1. DMRL- Defence Metallurgical Research Laboratories.
2. DRDL- Defence Research Development Laboratory.
3. DERL- Defence Electronics and Research Laboratory.
4. RR Labs- Regional Research Laboratories.
5. A.P. Engg. Research Laboratory at Rajendranagar.

There are 21 Industrial Estates/Industrial Development Areas existing in the district. These industrial areas are endowed with infrastructure facilities like roads, water supply and availability of power. As per the orders issued by the Government, the industrial units can file a common application form for getting approvals of Pollution Control Board, Town and Country Planning Department, Factories, Andhra Pradesh State Electricity Board, Hyderabad Urban Development Authority in District Industries Centre and they can avail the clearances with in one month under single window scheme.

As stated earlier, there are about 230 large and medium scale industries in the district as on 1999-2000 and their particulars are given below.

**Table (k)**  
**Large and Medium Scale Industries**

Sl. No.	Name of the Industry	Installed Capacity	Units	Investment (Rs. in Crores)	Total Employees
1	Pegasus Pineplast Ltd.	3,770	Tons	5.91	73

### Transport and Communication :

The position of Rangareddy district presents a comparatively better picture in road network. The National Highways passing through the district and other major roads maintained by different agencies (i.e) Under State Highway 260 kms. Major district roads 1,140 kms., and Panchayat Raj 3,594 kms., account for 4,994 kms. of total road length.

The District Head Quarters (i.e) Hyderabad is connected by road with all mandals while 11 mandals, viz., Malkajgiri, Ghatkesar, Medchal, Serilingampally, Shamshabad, Shankarpalle, Dharur, Vicarabad, Marpalle, Basheerabad and Tandur are connected by rail also.

There are 18 railway stations on broad gauge and 7 railway stations on meter-gauge and 10 railway stations on Broad gauge / Meter-gauge in the district with 192.12 kms. of Broad gauge, 8.54 kms. of Meter gauge and 11.15 kms. on Broad gauge / Meter gauge. About 43% of the villages are having postal facilities.

The number of different motor vehicles that are plying in the district are here under as on 31.3.2000.

**Table (p)**  
**Particulars of different types of Motor Vehicles**  
**1999-2000**

#### **(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade.**

During the decade major Administrative Developments have not taken place. Regarding Cultural aspects, Ocean Park and Business School of Management have been inaugurated by the President of India, apart from Afro-Asia Games held at Balayogi Stadium at Gachibowli recently.

As regards Social activities, the Government has issued strongest measures to prevent Child labour. Social security schemes have been instituted through Janmabhoomi, Cheyutha and Spandana programmes are worth mentioning. Apart from these activities, the Industrial Tribal Development Corporation has

instituted several programmes such as encouraging tribals to collect forest produce and through Industrial Tribal Development Corporation outlets, their produce has been pushed through various marketing agencies and thereby providing economical status to these tribes for their betterment. Their living conditions have become Socially uplifted on par with other communities in the Society.

The South Central Railways has also introduced Multi Model Transport System (MMTS), connecting most of the areas of the Rangareddy District. They are being run with Electricity.

## (v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

Places of Religious, institutions (Temples) and Mutts, Charitable Institutions and Institutions of Historical or Archaeological importance in the district are presented in the following statement.

Sl.No.	Name of Town/Village	Mandal	Name of the Monument/Temple/Mutt
1	2	3	4
1.	Keesara	Keesara	Sri Ramalingeswara Temple, Keesara Gutta site (belong to Medieval period)
2.	Edulabad	Ghatkesar	Ranganayaka Swamy Temple
3.	Karmanghat	Saroomagar	Veeranjaneya Temple
4.	Nandivanaparthi	Yacharam	Nandi (Bull)
5.	Maheswaram	Maheswaram	Akkanna Madanna Sarai
6.	Chilkoor	Moinabad	Lord Venkateswara Temple
7.	Attapur	Rajendranagar	Ugadi Shyamdas Mutt
8.	Gundal	Chevella	Megalithic Burials
9.	Shabad	Shabad	Sakkari Matam
10.	Ketireddipally	Moinabad	Pre-Historic Burials
11.	Tolkatta	Moinabad	Arti Facts (Neolithic Site)
12.	Alampally	Vicarabad	Alampally Mutt
13.	Shapur	Moinabad	Megalithic Site
14.	Junt palle	Yelal	Sri Ramachandra Swamy Temple
15.	Shamshabad	Shamshabad	Dharmagiri (Sri Saibaba Temple)

### **Keesaragutta :**

Keesara a famous pilgrim center with a glorious past is situated at a distance of about 32 kilometres from Hyderabad city in the Northeast direction and 10 kilometres from Ghatkesar Railway station. The Village derived its name from Sanskrit word Kesari (Hanuman) and in course of time it became Keesara. An interesting and peculiar feature of the temple is that it faces West. The God is Sri Ramalingeswara Swamy, in the form of a Sivalingam on a 400 feet high hillock. There is a stone pillar on the top of this hillock. The carvings on the stone pillar depicting the first three incarnations of Lord Vishnu, Viz., Mathsyas, Kurma and Varaha. Vigneswara and Anjaneya are a special attraction. It is believed that Sri Rama visited this place after slaying the demon king Ravana. This being a sacred place, Lord Sri Rama desired to install 101 Sivalingas to absolve himself of the sin committed

by slaying the great Siva Bhakta Ravana and ordered Hanuman to bring 101 Sivalingas from Varanasi. The idol of Goddess Bhavani was installed specially in this place. On the day of Mahasivarathri, 6 days utsavam takes place in this temple. Fasting and Jagarana are observed. Large number of devotees attend this utsavam irrespective of Caste or Creed.

### **Edulabad :**

Ghatkesar Ranganayaka Swamy temple is situated in Edulabad village.

### **Karmanghat :**

The famous Veeranjaneya temple is located at Saroomnagar mandal of Rangareddy District.

### **Ibrahimpattam :**

The place derived its name from Ibrahim Qutub

Shah who ruled the Golkonda Kingdom from A.D.1550 to 1580. In this place Ibrahim Qutub Shah constructed a big tank. It irrigates over 480 hectares of cultivable land.

#### **Rangapur :**

The well-known Astronomical Observatory in India is situated in Rangapur village of Manchal mandal. It is reported as the largest Telescope in South-East Asia.

#### **Rajendranagar :**

All important picnic resort centers are situated in this mandal. Viz., Kidwai Garden, Gandipet, Himayat Sagar and Osman Sagar. The famous Husseni Alam Darga and Agricultural university are located in Rajendranagar mandal. Attapur village in this mandal is famous for Ugadi Shyamdas Mutt.

#### **Vicarabad :**

Vicarabad mandal is situated at a distance of 83 kms. from Hyderabad and Vicarabad is a railway station on the Secunderabad- Bombay broad gauge line. This place serves as a tourist center in summer season on account of fine weather. There is a T.B. Sanitorium center at this place. Alampally village in Vicarabad mandal is famous for Alampally Mutt.

#### **Yelal :**

It is believed that Yelal had been a Buddhist center in the past. It is a place of confluence of the rivers Kagna and Kakaraveni.

#### **Shamshabad :**

Shamshabad lies at a distance of 21 kms. from Hyderabad and it is the only major town in the taluk. The place has become very famous for the large extent of Anab Shahi Vineyards especially after the formation of Andhra Pradesh in 1956. Husseni Alam Savari Darga is an important place of worship in the locality. Dharmagiri, close to Shamshabad is famous for Sri Saibaba temple.

#### **Ramoji Film City :**

No one misses to visit Ramoji film city, which is situated at a distance of 25 kms. from Hyderabad. It is a great boon to Hyderabadis from Sri Ramoji Rao after whom the city was named. It is full of big settings, which are useful for film shootings. The Hyderabad cinema industry is greatly blessed to have this film city here. Now-a-days most of the films are

shot in this film city only. It is such a beautiful place, which everybody likes to visit. It has three and five star hotels providing food for the workers there and also outsiders. On every new year day, programmes are conducted here. There are very big auditoriums. It is providing employment to thousands of un-employees.

#### **Chilkur :**

The Balaji idol at Chilkur is said to have been discovered by an ardent devotee, Madhav Reddy, in an ant hill some 500 years ago. As old age prevented him from making his yearly pilgrimage to Tirupati, the Lord is said to have manifested himself at Chilkur for his devotees sake. When the idol was being dug out, the toolbar caused the idol to bleed at the chest and over the left eyebrow. One can see these marks existing on the idol to this day. There is also a small Shivalaya in the temple complex.

As per the local legend, anyone desirous of seeking a wish fulfillment from Chilkur Balaji must first make 11 pradakshinas at the temple and after it is granted, one must return to perform 108 pradakshinas as a way of expressing gratitude. And by the look of it, wishes are granted aplenty here. Those doing the rounds at almost a frenzied pace to reach the 108 target far out number the first timers who amble along at a more relaxed pace.

There is a Shivalaya by the side of Balaji temple. It is also a very old one like Balaji temple. Long ago, a monk prayed for Lord Shiva and Lord Shiva appeared before him. The monk received a boon that whoever worship Lord Shiva with devotion, their desires will be fulfilled. People believe this and offer prayers at this place to Lord Shiva.

#### **Himayatsagar :**

This huge lake is situated at a distance of thirteen kms. from Hyderabad and the area surrounding the Himayatsagar is now known as Rajendranagar. The lake presents a picturesque scenery and is a picnic spot.

#### **Kidwai Gardens :**

These botanical gardens are at Rajendranagar and they are under control of the state Agricultural Department. The place is a picnic spot and a holiday resort for many.

#### **Chevella :**

Chevella, the Headquarters of the mandal of the

same name, is situated at a distance of 42 kms. from Hyderabad city and 31 kms. from Vicarabad railway station. The temple of Venkateshwara is the important place of worship here. The Netherlands foundation for child welfare has sponsored the establishment of an integrated child care project in India and it is gratifying to note that Chevella block has been selected for locating this project. This project came into existence in April, 1969. The project aims at providing care to the expecting mothers and total care and welfare to the child from birth to its adult age. The Headquarters of the Director, Indian Bureau, Indo-Dutch project for child welfare, is however located at Hyderabad.

**Shabad :**

Shabad lies at a distance of 16 kms. west of Shadnagar railway station. Shabad is famous for the stones useful for flooring. A big tank known as the Pahalwan Talab, which irrigates nearly 202 hectares, is a place of attraction in the village. The most important festival celebrated at the place is the Urs of Pahalwan Shah Dargah, where a large number of Muslims and Hindus Congregate. Sakkari Matam is also a well known matt in Shabad village.

**Anantagiripalle :**

This village lies at a distance of four kms. from Vicarabad. It was thus named because it lies on the Anantagiri range of hills. The river Musi takes its birth near Sivareddipet and after flowing through three taluks of Hyderabad district and the city it joins the Krishna near Vadapalle in Nalgonda district. On both side of the road there are big mango groves and a thick forest surrounds the village. Because of the bracing weather and salubrious climate, T.B. Sanitorium was constructed at the place. Anantagiripalle is considered important on account of the existence of the famous temple of Anantaswamy. The peculiarity of this temple is that there is no idol inside the shrine. The hill is considered as sacred as the Seshadri, the abode of Venkateswara. It is believed to be the tail-end of the hill range commencing at Ahobilam in Kurnool district.

**Tandur :**

This place was a small Jagir, prior to the creation of Hyderabad district, in Kodangal Taluk in Gulbarga district. It is a noted business center, especially for the famous shabad stone slabs.

**Juntpalle :**

Sri Ramachandra-swamy temple of Juntpalle village of Yelal mandal is very famous.

**Places of Tourist Interest in the Town :****(a) Shilparamam :**

Shilparamam is one of the worth seeing places in Hyderabad which is in Madhapur. It is a very big seat for cultural programmes, painting exhibitions, cookery competitions etc. Every week- end evenings are very pleasant here with some activity or the other like music or dance performances by veteran artists. It is a great attraction for people to spend their holiday evenings here with some programme or the other. On every Gokulastami, there is a fete arranged. Children between the age group of 3-8 are dressed like Lord Krishna with flute in their hand and Peacock feather in their hair make people feel as if they are in the heavenly abode.

**(b) Gandipet :**

This village is situated at a distance of 19 kms. to the west of Hyderabad. The village was founded in connection with the construction of the Osmansagar dam across the Musi river in 1919-20. The catchment area of the dam is 738 sq.kms and the total length is 3,108 metres. The dam was designed to control the floods in the Musi and supply drinking water to the residents of Hyderabad and Secunderabad. The pleasant and beautiful gardens, the comfortable rest houses and the placid expense of water have made this place a tourist attraction and become the resort for picnics.

**(c) Ocean Park :**

Ocean Park is a Water based Amusement Park modelled on International standards. An amusement park that you haven't seen the likes of yet in India. Forget about going to Disneyland or Sea World. We've brought international style family fun to you right at your doorstep. Ocean Park is a member of World Water Park Association and also a member of International Association of Amusement Parks and Attractions.

Ocean Park is situated at Gandipet just 15 kms. from Hyderabad offers a spectacular mix of Internationally popular Water Rides and Amusement Rides for all age-groups and provides full day entertainment to all its patrons.

## **(vi) Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district**

Ranga Reddy District was formed on 15th August 1978 by carving out and deleting the twin cities of Hyderabad and Secunderabad and a few surrounding urban settlements of the erstwhile Hyderabad district which formed the urban core and renamed as Hyderabad district.

Ranga Reddy district is named as Ranga Reddy, the Father-in-law of the ex-Chief Minister Dr. Marri Chenna Reddy. The district is bounded by Nalgonda district on the East, State of Karnataka on the West, Mahbubnagar district on the South and Medak district on the North. The significant item in this district was the river Musi, which rises in Ananthagiri Hills. It flows from West to East passes through Hyderabad city and flow towards Nalgonda district.

The historic events in the district are, Air Force Training Center at Dundigal, Sardar Vallabh Bhai Patel National Police Academy at Rajendranagar Municipality, Ramoji Film City, which is a famous Film Shooting Center in India, Sanghi Textile Industries at Hayathnagar mandal, Indian Business School, Balayogi

Stadium, Central University in Serilingampally mandal etc.

There are historic monuments in the district. Ramalinga Swamy Temple at Keesara, Ranganayaka Swamy Temple at Edulabad, Akkanna-Madanna Temple in Maheswaram, Dharmagiri Sai Baba Temple at Shamshabad, Veeranjaneya Swamy Temple at Karmanghat, Saroornagar mandal and Lord Venkateswara temple at Chilkoor in Moinabad mandal are famous in the district.

There is a historic significance about Veeranjaneya Swamy Temple. As per the Version, the emperor Aurangzeb took over Golconda and made it a part of Mughal Empire. During his tenure, he started destroying Hindu Temples. In the process, he has reached this place to destroy the Veeranjaneya Swamy Temple. When he attempted to destroy the temple, he had shaken and heard a voice "Karo Man Ghat", if you want to destroy this temple. He immediately withdrew the idea of destroying the temple. From that time this place is known as "Karmanghat".

## (vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June, 2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of

transport like bicycle, scooter/motor cycle, car/jeep/van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22) and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/college.

### **Criteria for enumeration of persons in a particular household:**

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th February, 2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

### **Location Code Number**

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data i.e., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC No 001231400, it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have undergone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

### **Building**

is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of

entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

### **Permanent houses:**

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

### **Semi-permanent houses**

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

### **Temporary houses**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

### **Dwelling Room**

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such

as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

### **Census house**

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/Hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts

may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

### **Village**

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

### **Rural - Urban area**

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits ; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

### City

Towns with population of 1,00,000 and above are called cities.

### Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

### Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

### Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and

share a common kitchen.

### Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

### Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are

given below:

### List of Scheduled castes in Andhra pradesh

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holeya
27. Holeya Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. MadasiKuruva, Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen

34. Mahar
35. Mala
36. Mala Dasari
37. Mala Dasu
38. Mala Hannai
39. Malajangam
40. Mala Masti
41. Mala Sale, Netkani
42. Mala Sanyasi
43. Mang
44. Mang Garodi
45. Manne
46. Masht
47. Matangi
48. Mehtar
49. Mitha Ayyalvar
50. Mundala
51. Paky, Moti, Thoti
52. Pambada, Pambanda
53. Pamidi
54. Panchama, Pariah
55. Relli
56. Samagara
57. Samban
58. Sapru
59. Sindholu, Chindollu
10. Kammara
11. Kattunayakan
12. Kolam, Mannervarlu
13. Konda Dhoras
14. Konda Kapus
15. Kondareddis
16. Kondhs, Kodi, Kodhu,  
Desaya Kondhs, Dongria Kondhs,  
Kuttiya Kondhs, Tikiria Kondhs,  
Yenity Kondhs.
17. Kotia, Benth Oriya, Bartika, Dhulia,  
Dulia, Holva, Paiko,  
Putiya, Sanrona, Sidhopaiko
18. Koya, Goud, Rajah, Rasha Koya,  
Lingadhari Koya (ordinary),  
Kottu Koya, Bhine Koya, Rajkoya
19. Kulia
20. Malis (excluding Adilabad,  
Hyderabad, Karimnagar, Khammam,  
Mahbubnagar, Medak, Nalgonda,  
Nizamabad and Warangal districts)
21. Manna Dhora
22. Mukha Dhora, Nooka Dhora
23. Nayaks (in the Agency tracts)\*
24. Pardhan
25. Porja, Parangiperja
26. Reddi Dhoras
27. Rona, Rena
28. Savaras, Kapu Savaras,  
Maliya Savaras, Khutto Savaras
29. Sugalis, Lambadis
30. Thoti (In Adilabad, Hyderabad,  
Karimnagar, Khammam,  
Mahbubnagar, Medak, Nalgonda,  
Nizamabad and Warangal Districts)
31. Valmiki (in the Agency tracts)
32. Yenadis
33. Yerukulas

**List of Scheduled Tribes in Andhra Pradesh**

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goud (in the Agency tracts)\*
8. Hill Reddis
9. Jatapus

---

\* The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.

## Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

## Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

## Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

## Educational level

The highest level of education a person has completed

## Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes

part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

## Main worker

A person who has worked for major part of the reference period ( i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

## Marginal worker

A person who worked for less than six months of the reference period ( i.e. in the last one year preceding the date of enumeration ) in any economic activity is termed as 'Marginal worker' .

## Non worker

A person who has not worked at all in any economically productive activity during the reference period ( i.e. last one year preceding the date of enumeration ) is termed as 'Non worker'.

## Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi,

etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

### **Agricultural labourer**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

### **Household industry worker**

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even

if such professions, trade or services are run at home by members of the household.

### **Other worker**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

### **Work participation rate**

Percentage of workers (main + marginal) to total population

### **Population density**

Population density is the number of persons inhabited per square kilometre of the area.

### **Age**

Age is measured in terms of the completed number of years

### **Sex -ratio**

Number of females per 1000 males in a population.

## (viii) Non Census Concepts

### Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

### System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

### Type of latrine and Method of disposal of night soil :

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed.

This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

### Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

### Crude birth rate(CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1000$$

### Crude death rate(CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

**Natural growth rate**

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

**Age specific fertility rate (ASFR)**

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

**Age specific marital fertility rate (ASMFR)**

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

**General fertility rate (GFR)**

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

**General marital fertility rate (GMFR)**

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1000$$

**Total fertility rate (TFR)**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels

indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \frac{45-49}{15-19} \text{ ASFR}}{1000}$$

**Total marital fertility rate (TMFR)**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \frac{45-49}{15-19} \text{ ASMFR}}{1000}$$

**Age-specific mortality rate (ASMR)**

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

**q1**

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**q2**

Probability of dying between birth and age 2.

**q5**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

**Infant mortality rate (IMR)**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

#### Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

#### Early neo-natal mortality rate (ENMR)

$$\text{ENMR} = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

#### Late neo-natal mortality rate

$$\text{LNMR} = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

#### Post neo-natal mortality rate (PNMR)

$$\text{PNMR} = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

#### Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

#### Still birth rate(SBR)

$$\text{SBR} = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

#### Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

#### Eligible couple (Couples per 1000 population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

#### Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

#### Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

#### Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :-

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are

not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

#### **Internal and International migration :**

The migrational movements are of three types

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country ( inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

#### **Rural - Urban components of migration:**

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

#### **Civic status of urban units**

Civic Status of a town/city is determined on the

basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

#### **Size class of UA / town :**

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

#### **Slum area :**

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

#### **Mega city :**

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

## (ix) Analytical Note

### 2001 Census findings - Population and its distribution

#### (a) Distribution of Population in Rural Urban areas :

According to 2001 Census the total population of Rangareddy district stands at 3,575,064 with 1,839,227 males and 1,735,837 females. The district stands at 9<sup>th</sup> rank as far as population is concerned in the state. Out of the total population of the district 1,637,227 persons constituting 45.8% are residing in rural areas and the remaining 1,937,837 persons (54.2%) are residing in urban areas. The proportion of urban to total population due to proximity to Hyderabad city resulted urban characteristics of the Rangareddy district having 54.2% population of the Rangareddy district corresponding to state figure of 27.3%. Average number of towns for 100 inhabited villages in the district is 2.0%.

Rangareddy district has 923 villages in 33 rural mandals of which 860 are inhabited villages. The average number of inhabited villages per mandal is 26. Saroornagar mandal is the largest mandal in terms of population accounting 11% of the district population. In term of number of villages, Shamshabad mandal leads with 41 villages, wherein 3 are un-inhabited villages. Saroornagar Mandal has least i.e. 8 inhabited villages. As regard population, Bantwaram mandal reported least population i.e. 34,121 in the district. The highest populated village is Medchal recorded with 21,730, while Langerguda reported as least populated village of 13.

The urban population is distributed among 17 urban units of which 12 are statutory towns. The average size of an urban center in the district works out to 113,990 persons. Kukatpally Municipality has largest population (292,289) whereas Narsingi is the smallest town with a population of (7,117). There is no town in the district, which has less than 5000 population.

#### (b) Size class and status of towns, Population Growth, Density and sex ratio, Work participation rate, Literacyrate in the district :

##### Size class and status of towns :

During every Census the number of Census towns and statutory towns changes due to addition of new Census towns declassification of old Census towns, notifying of new Census towns, de-notifying of old statutory towns etc. For the purpose of analysis of varied demographic characteristics urban areas have been divide into six classes by size of population of the 17 towns in the district. Rangareddy district is categorized as 8 class - I towns, while there are 3 class II, 2 class III, 2 class IV and 2 in class V. Not a single town is categorized as Class VI.

##### Population Growth :

The population of district was 2,551,966 as per 1991 Census and has gone upto 3,575,064 persons in 2001 adding 1,023,098 persons during the decade 1991-2001. The growth rate revealed by the district (40.1%) is more than the state growth of 14.6% during the decade. Rangareddy district ranks 1st in growth rate among 23 districts in the state.

Rural Urban growth rates show wide variations. The rural growth rate is recorded as 21.6 while urban growth rate is 60.8. As regard growth rate in rural population the district occupies 2nd position, when we speak about urban growth rate it occupies 1st place in the state.

##### Density :

The overall density of population in the district is 477 persons per sq.km. and is above the state average of 277. Among urban areas Gaddiannaram town recorded highest 24,016 persons per sq.km. followed by 10,770 persons per sq.km. in Malkajgiri town. Least

density i.e. 908 persons per sq.km.. has been reported in Vicarabad town.

### Sex-Ratio :

Rangareddy district has sex-ratio of 944 females per 1000males while it was 941 in 1991 Census. It is lower than state average sex ratio of 978. The district has occupied 20<sup>th</sup> rank in respect of sex ratio among 23 districts. Basheerabad mandal has the highest sex ratio of 1039. While Yelal and Gandeed mandals have largest sex ratio of 1019 and 1010 respectively. Among urban units Vicarabad (NP) has reported highest sex ratio of 1002 and Omerkhan Daira(CT) Town reported lowest sex ratio of 681.

### Work participation rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Rangareddy district is 40.2%. The percentage of main workers stands at 35.4%. The total workers participation rate separately for males and females in the rural areas are 55.8% and 42.1% respectively, against corresponding figures for urban areas 51.3% and 12.7% respectively. The percentage of main workers in 2001 Census over 1991 has decreased. The female work participation has considerably gone down from 28.4% in 1991 Census to 26.3% at 2001 Census.

### Literacy Rate :

Rangareddy district ranks 5<sup>th</sup> in literacy rate among 23 districts in state. While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 20,34,381 literates forming 66.2% of the population of the district, excluding 0-6 age group. Separating for Rural and Urban areas the literacy rate worked out to 52.6% and 77.3% respectively. Within the urban areas male and female literacy rates separately worked out to 83.9% and 70.3%. For the rural population the male and female literacy rates worked out to 64.6% and 40.0%.

### (c) Scheduled Castes and Scheduled Tribes of earlier Census :

To uplift social and economical status of Scheduled

Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes, races or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

### Scheduled Castes population in the district as per 1991 Census :

As per 1991 census, there were 439,386 scheduled castes population comprising 224,289 males and 215,097 females. This works out to 17.2% to the total population of the district. Of the total population of scheduled castes, 67.6% were living in rural areas of the district.

The following statement reveals that scheduled castes population has recorded 42.7% growth rate during the decade 1981-91. It was 17.1% in rural areas. Growth rate in urban areas was 163.1%.

The sex ratio of scheduled castes population (959) was higher in comparison to that of the general population in the district (941). The sex ratio in rural area of the district among SC population was higher than total district sex ratio among scheduled castes population. In urban areas it was 963. Literacy rate among scheduled castes 30.1% which was lower than the district literacy rate (49.1%). In urban areas their literacy rate was 51.2%. Proportion of main workers among scheduled castes was 47.1 percent and the

marginal workers were 1.2 percent. In rural areas their percentage was 33.3. workers population was 55.5 percent and in urban

The following statement gives the proportion of scheduled castes population to total population in the villages. Out of 819 villages where scheduled caste population returned in the district, 26 villages constituting 3.2% were having less than 6% of scheduled caste population. Of the remaining villages, 55 (6.7%) were having 6 to 10% of scheduled castes population, 101 (12.3%) having 11 to 15% and 223 (27.2%) having 31% and above to total population of the respective villages.

### **The Scheduled Tribes population in the district as per 1991 Census :**

As per 1991 census, there were 109,394 scheduled tribes population comprising 56,438 males and 52,956 females. This works out 4.3% to the total population of the district. Of the total population of the scheduled tribes 80% were living in rural areas of the district.

The following statement reveals that scheduled tribes population in the district has registered 50.6% growth rate during the decade 1981-91. Growth rate of 29.7% has been recorded in the rural areas of

the district. In urban areas it was 323.7%. The sex ratio in the district was 938, while in rural areas it was 956 and in urban areas 870. As regards the literacy rate among the tribes, it was 17.3% , while in rural areas it was 12.2%. However in urban areas it was higher i.e., 36.5% than rural areas.

The population of main workers and marginal workers among tribals in the district was 47.6% and 1.3% respectively where as in rural areas of the district it was 50.5% and 1.6% respectively. But in urban areas they were reported as 36.1% and 0.2% respectively.

**Statement (v)****Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991**

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage Decadal Variation :	(50.6)	(29.7)	(323.7)
	1981 ST Population	72,656	67,493	5,163

26-35	20	3.94
36-50	27	5.33
51 And Above	42	8.29
<b>Total</b>	<b>507</b>	<b>100.00</b>

*Source: District Census Handbook, Rangareddy, 1991.*

While going through the following table it is observed that scheduled tribes population constituted 1.8% to total urban population in the district. The proportion of scheduled tribes population was above the district average in Alwal, Kapra, Rajendranagar,

Serilingampally, Vicarabad (M) and Shamshabad (P), while it was below in Ghatkesar (P), Hyderabad M.C.(Portion), Kukatpally, L.B.Nagar, Malkajgiri, Qutbullapur, Tandur, Uppal and Gaddiannaram towns.

**Statement (viii)**  
**Percentage of Scheduled Tribes Population in Towns - 1991**

Class & Name of Town	Total Population	Total scheduled Tribes Population	Percentage of Scheduled Tribes Population to Total Population
II Alwal (M)	67,271	1,234	1.83
IV Ghatkesar (P)	12,645	165	1.30
II Hyderabad M.C. (Portion)	93,455	1,323	1.42
II Kapra (M)	87,747	2,180	2.48
I Kukatpally (M)	186,963	3,380	1.81
I L.B.Nagar (M)	155,514	2,201	1.42
I Malkajgiri (M)	127,178	2,014	1.58
I Qutubullapur (M)	106,591	1,471	1.38
II Rajendranagar (M)	84,548	1,661	1.96
II Serilingampally (M)	72,320	2,089	2.89
IV Shamshabad (P)	15,366	466	3.03
III Tandur (M)	45,517	548	1.20
II Uppalkalan (M)	75,660	1,099	1.45
III Vicarabad (M)	39,215	1,683	4.29
III Gaddiannaram (P)	35,187	363	1.03
<b>All Towns</b>	<b>1,205,177</b>	<b>21,877</b>	<b>1.82</b>

The above table give the details regarding number and percentage of inhabited villages by specified population ranges. This district has 860 inhabited villages. Out of 33 mandals, the highest number of 38 villages are in Shamshabad mandal followed by 37 villages in Dharur mandal, 36 villages in Chevella mandal. The least number i.e, 8 villages in Saroornagar and 12 villages in Qutubullapur mandal are existing. Of the total inhabited villages, 27 villages are having less than 200 population. 90 villages are having between 200-499 persons. The highest number of villages 271 are in the population range of 1000-1999. 47 villages (5.5%) are having 5,000 and more population. 10 villages (1.2%) have more than 10,000 population in the District, all of them are the Mandal Headquarters.

Of 33 mandals 17 mandals do not have the villages having less than 200 population. More than 15% inhabited villages in Shamshabad and more than 10% in Kandukur mandal have less than 200 population. 20.8% of inhabited villages in Bantwaram mandal and 16.2% of inhabited villages in Dharur mandal are having the population between 200-499 persons. Likewise 48.6% inhabited villages of Dharur mandal fall in population size range 500-999 persons. In Shankerpalle, Shamirpet, Keesara, Hayatnagar, Peddemul and Ibrahimpattanam mandals are having 3 villages each with 5,000 above and below 10,000 persons. In 8 mandals one village each where the population has more than 10,000 reported are the Mandal Headquarters.

<b>District Total:</b>	<b>860</b>	<b>100.0</b>	<b>1,637,227</b>	<b>100.0</b>

**Population Density (Rural) of the district: 239**

The above table gives distribution of villages by population density. There are 2 villages with 139 population where density of population recorded below 11 persons per square kilometer. The average population size of these villages works out around 70

persons per village. The highest number of villages i.e,310 forming 36% with 433,698 persons are in 101-200 range of population density. There are 93 villages with 344,889 population where density of population recorded more than 500 persons per square kilometer.

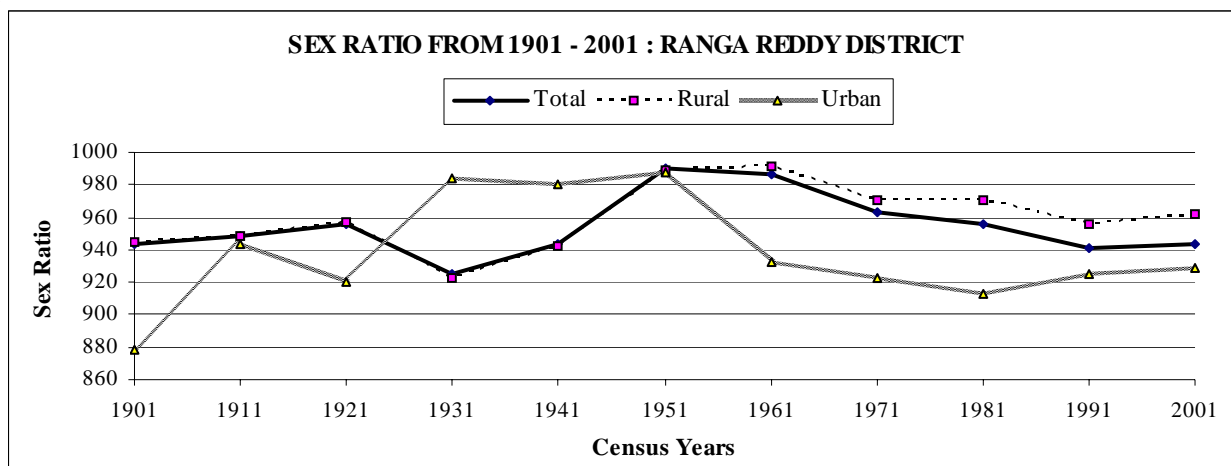

**TABLE - 5**  
**SEX RATIO OF STATE AND DISTRICT, 1901 - 2001**

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	944	945	879
1911	992	991	1,000	948	948	944
1921	993	994	986	956	957	920
1931	987	989	966	925	923	984
1941	980	981	975	944	942	980
1951	986	985	987	990	989	988
1961	981	988	951	986	992	933
1971	977	983	949	963	970	923
1981	975	984	948	956	970	913
1991	972	977	959	941	956	925
2001	978	983	965	944	962	929

The above table shows the district sex ratio was more than the state sex ratio during 1951 and 1961 Censuses. Mostly sex ratio in rural areas was higher

than the urban areas except in 1931 and 1941 Censuses. There is large variation between rural and urban sex ratio during 1931 Census.

District and mandal-wise literacy rates besides the number of literates for total, rural and urban areas with sex break up are given in this table. The literacy rates are worked out by excluding population in the age group 0-6. As per 2001 Census, the proportion of literates to total population excluding the age group 0-6 comes to 66.2% in the district. This proportion in

rural area is 52.6% against 77.3% in urban areas. In the district the literacy rates of males (75.3%) is higher than females (56.5%). Generally male literacy rate is higher than females. Among the mandals Malkajgiri mandal tops with 82.6% literates and Kulkacharla mandal with 36.4% literates stands at the lowest in the district.

\* Excludes Census towns & O.Gs'

The above table explains the number and percentage of Scheduled Tribe literates and illiterates by sex in mandal parishads recorded in 2001 Census. There are 27,540 (28.9%) literates and among them males 19,831 (40.8%) and females 7,709 (16.6%) in the mandal parishads of the district among Scheduled Tribes. The gap in male-female literacy rate is 24.2% in the rural areas of the district. This shows the female literacy is far lagging behind the male literacy

rate. Rajendranagar mandal parishad occupied top place with 52.9% literacy rate and Doma mandal parishad at bottom with 21.3% literacy rate among Scheduled Tribes. The gap between Male-Female literacy rate is highest in Yacharam, Rajendranagar and Mominpet mandal parishad with 32%. Similarly, Ibrahimpatnam mandal parishad reflects at bottom with 12.4% male-female literacy gap among Scheduled Tribes.

<b>District Total:</b>	<b>502</b>	<b>100.0</b>	<b>119,781</b>	<b>100.0</b>

**Literacy rate for District (Rural):**

**28.9**

The above table shows distribution of villages by literacy rate range for Scheduled Tribes population returned during 2001 Census. The inhabited villages numbering 502 with 119,781 Scheduled Tribe population were divided in 12 ranges of literacy rate i.e, 0, 1-10, 11-20,-----likewise upto 91-99 and 100. The highest number of villages i.e, 117 with 42610 Scheduled Tribes with percentage distribution of

population of 35.6 has fallen in the literacy rate range 21-30 followed by 91 villages with 30,138 Scheduled Tribes with a percentage distribution of population of 25.2 falls in the range of literacy rate 31-40. Only one village with 29 Scheduled Tribes has fallen in the literacy rate range 91-99. From this table it is noticed that the district literacy rate for rural areas has recorded 28.9.

The above table gives the number and percentage of main workers, marginal workers and non-workers by sex and mandal level for district as per 2001 census. The proportion of total workers works out 40.2% of the total population in the district. The total workers are comprised of 35.4% of main workers and 4.8% of marginal workers and the remaining

59.8% are non-workers.

Among the main workers, male participation rate in the district is 49.1% whereas in females it is 20.8%. Male and Female marginal workers account for 4.2% and 5.5% respectively. The percentage of female marginal workers is higher than male marginal workers.

\* Excludes Census towns & O.Gs'

The above table shows mandal parishad wise number and percentage of main workers, marginal workers and non workers by sex for rural population of the district as per 2001 Census. Of the 1,637,227 total rural population of the district, 41.7% has been categorised as main workers and marginal workers constitutes 7.3% and the remaining 50.9% fall in the category of non-workers. The sex wise breakup at the district level shows that 50.6% males and 32.6%

females are in the category of main workers. Male and female marginal workers account for 5.2% and 9.5% respectively. The percentage of female marginal workers is higher than male marginal workers.

The percentage of total rural workers of the district comes to 49.1. At mandal parishad level, Vicarabad has highest proportion of workers forming 55.8% of the total population.

The above table gives number and percentage of main workers, marginal workers and non-workers by sex in urban Agglomerations/Towns recorded in the district of Rangareddy during 2001 Census. Of the 1,937,837 total urban population of the district, 30% has been categorized as main workers and 2.8% as marginal workers, the remaining 67.3% fall in the category of non-workers. The sex wise breakup at the district level shows that 47.9% males and 10.7%

females are in the category of main workers. Male and female marginal workers account for 3.4% and 2.0% respectively.

The percentage of total urban workers of the district comes to 32.7%. Omerkhan Daira (CT) recorded highest proportion of total workers forming 49.3% of the total population. The lowest percentage of 30.5% is recorded in Ghatkesar (CT).

Note : Percentage of Workers to total workers is given in brackets

The above table gives the details of distribution of workers by sex in four categories of economic activity in mandals of the district as recorded in 2001 Census. It can be seen that the economy of the district is primarily dependant on agriculture due to the fact that the economy of the district is primarily

dependent on agriculture due to the fact that cultivators constitute 19.6% of the total workers (main+ marginal) and remaining 20.8% of total workers are engaged as agricultural labourers, household industry workers (2.9%) and other workers (56.7%) in the district.

Note : 1. Percentage of Workers to total workers is given in brackets

2. \* Excludes Census towns & O.Gs'

The above table presents mandal parishad wise distribution of workers by sex in four categories of economic activity as per 2001 Census. In the rural areas of the district total workers constitute (main+marginal) 49.1% of the total population. Among these workers, cultivators constitute 34.0%, agricultural labourers 35.3%, Household industry workers 2.4% and other workers 28.2%.

The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household industries also could not make much progress in rural areas as reflected in the data. Among cultivators, the percentage of females (31.4%) is less than the males (36.0%) in this district.

Note : 1. Percentage of Workers to total workers is given in brackets  
2. \* Includes O.Gs'

The above table shows the distribution of workers by sex in four categories of economic activity of urban agglomerations/towns. In the urban areas of the district total workers form (main+marginal) 32.7%, of the total population. Among these workers, cultivators constitutes 1.4%, 2.5% agricultural labourers, 3.4% household industry workers and 92.6% other workers in the district. The other workers play a major role in providing employment to the

working force of urban population. Household industries also could not make much progress in urban areas as reflected in the data and these household industries employ only 3.4% workers of the total working force. Therefore surplus-working force has to depend upon other working activities. Among cultivators, the percentage of females (3.0%) is higher than males (1.0%) in the urban areas of the district.

*Note : Percentages are given in brackets.*

*\*\* Excludes Census towns & O.Gs'*

*\* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

*# Post office includes Post office, telegraph office and Post and telegraph office.*

*\$ Transport communication includes bus service, rail facility and navigable waterways.*

The above table deals with the mandal parishad-wise distribution of villages, according to the availability of different amenities like education, medical, improved drinking water, post-office, telephone, transport, communication, agricultural credit societies, approach by pucca roads and power supply within the village. Out of 860 inhabited villages in the district 828 villages or 96.3% have been provided with the educational facilities of one type or other. Similarly 381 villages in the district constituting 44.3% have medical facilities of one type or the other. Improved drinking water facility is available in 852 or 99.1% villages. As regards, post office facility which includes

facilities like telegraph office and post and telegraph, 341 villages constituting 39.7% of villages have been provided with post office facility within the village. 585 or 68.0% villages have been provided with telephone facility, 712 or 82.8% villages with transport facility, 84 or 9.8% villages with bank facility and 151 or 17.6% with agricultural credit societies. Similarly, there are 731 or 85.0% villages which have been linked with the pucca roads. Total 858 or 99.8% of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages exists by availability of amenities in the villages at mandal parishads.

The above table depicts the number and percentage of rural population served by different kinds of amenities. Out of total rural population of 1,637,227 persons in the district, 1,617,534 or 98.8 percent have educational facility of one or the other. Similarly 1,094,003 or 66.8 percent population has medical facilities while 1,632,170 or 99.7 percent have got improved drinking water facility. Post office facilities are available to 1,080,157 or 66.0 percent

population. Telephone facility is available to 1,271,530 or 77.7 percent. Transport communications facility is available to 1,506,236 or 92.0 percent. Bank facility is available to 408,566 or 25.0 percent. 536,273 or 32.8 percent have been provided with the facility of agricultural credit societies. 1,500,087 or 91.6 percent have been provided with the facility of approach by pucca road. Power supply is available to all villages of the district.

<b>7. Agricultural Credit Societies</b>	261	182	266	709

The above table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented in this table according to various distance ranges. 22 villages do not have primary school in their villages and out of these villages; children of 20 villages have to travel less than 5 kms. for schooling. Children of one village each have to travel a distance of 5-10 and 10+ kms. 457 villages do not have middle school facility in their villages. Of these 312 avail the facility of middle school at a distance of less than 5 kms. 87 at a distance of 5-10 kms. and the remaining 58 at a distance of 10+ kms. In respect of degree college 42 avail this facility at a distance of less than 5 kms., 123 between 5 to 10 kms. and rest of 683 villages at a distance of 10+ kms.

Similarly there are 846 villages in the district, which have been deprived of Hospital facility, and 830 villages, which are deprived of PHC facilities. Of these, 97 villages have the facility of Hospital available within 5 kms. While in respect of 231 villages

the inhabitants have to cover a distance of 5-10 kms. While in respect of 518 villages, people have to travel a distance of 10+ kms. in order to avail this facility. As regards PHC 125 avail this facility at a distance of less than 5 kms., 238 at a distance of 5-10 kms. and the remaining 467 have to travel a distance of more than 10+ kms. to avail this facility.

Regarding Post Office, 522 villages do not have this facility in the village itself. Of these majority i.e. 372 have this facility at a distance of less than 5 kms., another 97 villages avail it at a distance of 5-10 kms. In the remaining 53 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 275 villages in the district which are not having the telephone facility. Of these, 72 villages avail this facility at a distance of less than 5 kms., another 35 villages avail it at a distance of 5-10 kms. In the remaining 168 villages habitants have to traverse at a distance of 10+ kms.

In respect of Bus services it is noticed that 150 villages do not have facility. Among these villages,

109 villages avail this facility at a distance of less than 5 kms., 17 at a distance between 5-10 kms. and 24 at a distance of 10+ kms.

In the entire district, 785 villages are deprived of Commercial Bank facilities and 846 of Co-operative Bank. Of these 785 villages which are deprived of Commercial Banks, 231 villages avail this facility at a distance of less than 5 kms., 305 between 5-10 kms. and the remaining 249 at a distance of 10+ kms.

Regarding Co-operative Banks out of 846 villages 91 villages avail this facility at a distance of less than 5 kms., 198 at a distance of 5-10 kms. and remaining 557 at a distance of 10+ kms. 709 villages do not have agricultural credit societies. This facility to 261 villages is available at a distance of less than 5 kms., 182 at a distance of 5-10 kms. and the remaining 266 at a distance of 10+ kms.

# Post office includes Post office, Telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

The above table deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 860 inhabited villages in the district, there are 20 villages, which have nearest towns upto a distance of 5 kms. Of these only 17 villages forming 85.0% of these total villages, are having the educational facility of one type or the other and 8 villages constituting 40.0 percent, have the medical facilities within the village, 8 villages forming 40 percent have the facility of post office within the village and 14 or 70 percent have the facility of telephone. 18 villages constituting 90 percent have been linked by transport service. 1 village comprising 5% has been provided with bank facility, while there is no facility of agricultural credit societies. 18 villages

comprising 90 percent have been provided with pucca road.

Similarly 281 inhabited villages are at a distance range of 5-15 kms. from the nearest statutory town having the educational facility in 96.8% villages, medical facility in 39.1% villages, Post-office facility in 34.5%, telephone in 71.9%, transport and communication 81.5%, banks 7.5%, agricultural credit societies 16.4% and pucca road facility for 84.0% villages.

Maximum number of villages i.e., 535 villages fall in the distance of 16-50 kms. from the statutory town. Out of these villages, 96.4% possess educational facilities, 46.5% medical, 41.5% post-office, 65.4% Telephone, 83.2% transport and communication,

11.0% banks, 18.9% agricultural credit societies, 85.2% have pucca approachable roads.

24 villages are at a distance of 51+ kms. Among this, 95.8% have educational facilities, 58.3% have medical, 58.3% post office, 79.2% telephone, 83.3% transport and communications, 12.5% Banks, 16.7% Agricultural Credit Societies and 87.5% have pucca approachable roads.

Of the 860 villages, 828 villages forming 96.3% of these total villages are having educational facility

of one or the other and 381 villages constituting 44.3% have the medical facilities within the village, 341 villages forming 39.7% have the post-office facility within the village and 585 or 68.0% have the facility of telephone. 712 villages comprising 82.8% have been linked by transport service. 84 villages comprising 9.8% have been provided with bank facilities while 151 villages constituting only 17.6% have been provided with agricultural credit societies and 731 villages with 85.0% have the pucca roads.

# Post office includes Post office, Telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

\* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The above table deals with the distribution of villages by population ranges and amenities available therein as recorded in 2001 Census. In Rangareddy district out of total 860 inhabited villages, 828 villages (96.3%) have educational facility, 381 (44.3%) have medical facility, 852 (99.1%) have improved drinking water facility. 341 villages (39.7%) have post office facility and 585 (68.0%) have telephone facility. 712 (82.8%) have been linked by bus service and 84 (9.8%) with Bank facility. 151 villages (17.6%) have been served with the agricultural credit societies, 731 villages (85%) have pucca approachable road and

almost all villages 858 (99.8%) possess electricity for all purposes.

As many as 117 villages have below 500 population. 214 villages have fallen in the population range of 500-999 and 271 villages in the range of 1000-1999. In the population range of 2000-4999, the number of villages fallen are 201. 47 villages fall under the range of 5000-9999 and 10 villages under the range of 10000+. A study of amenities available for the smallest villages reveals that they possess lesser amenities and they have to depend on nearby towns to avail the facilities.

Data Source : Census of India, 2001, H-Series : "Tables on Houses, Household Amenities and Assets".

The above table depicts number of households by tenure status and number of rooms occupied in the district. As per 2001 census the total number of households in the district is 717,570 consisting of 325,602 rural and 391,973 urban households. 122,207 households belong to Scheduled Castes and 42,466 to Scheduled Tribes. 501,618 households are living in their own houses and among them 98,505 Scheduled Castes and 33,167 Scheduled Tribes are owning the houses. Of these households, the largest number of households (151,014) has occupied single room accommodation and is followed by double room accommodation numbering 145,640. Households claim next position 109,087 occupying three+ roomed accommodation and 3-roomed accommodation by

89,414 households while 6,463 are without any exclusive room.

198,725 households are living in rental accommodation in the district. The largest number of 82,684 households are living in single roomed accommodation, followed by 60,648 households in double roomed accommodation. Households with three rooms and three plus are less in numbers. The tenure status of others households numbering to 17,222 are distributed in single roomed accommodation numbering 10,958; 2,755 double roomed, 1,810 three roomed accommodation 818 households in 3+ roomed accommodation. In rural areas majority of households have bigger size and majority of them have their own houses while the urban areas show reverse picture.

Source : Census of India, 2001, H-Series : "Tables on Houses, Household Amenities and Assets".

The data presented in the above table reveals that 78.6 percent of households are living in houses made of pucca materials, residences of 18.2 per cent households are of semi-permanent nature and houses of only 3.2% households are made of temporary materials.

In the rural areas, however, the percentage of households living in permanent houses is 66.1 percent, 29.1 percent in semi-permanent and only 4.8 percent

in temporary houses.

The district-wise percentage in urban areas indicates that majority of households i.e. 89 percent are living in houses constructed with pucca materials, Whereas 9.1 percent in semi-permanent structures and the percentage of households living in temporary houses is 1.8% (i.e.) constructed with kutcha materials.

Source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

The above table indicates that 74.6 percent households in the district have been provided with improved drinking water. 80% households have provision of electricity to their houses. The bathroom facility is available to only 61.3 percent households within their premises. As regards rural areas, 31.6 percent households are having bathroom facility, whereas this proportion in urban areas comes to 86.0

percent. 63.4 percent rural households have facility of electricity against 93.8 percent in urban areas. Toilet and drainage facilities in the district are available to 60 percent and 72.4 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost conforming to the district pattern analyzed.

Source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

Note: Percentage has given after the total households.

The percentage distribution of households by type of fuel used for cooking purposes is given in the above table. There are nine types of fuel used for which data have been presented in this table. It is observed that wood is the most predominant fuel used for cooking by 42.2 percent households in the district. In rural areas use of wood for cooking is higher while in urban areas it is less due to availability of L.P.G. The next cooking fuel is gas, which is used by 33.2 percent households in the district. This proportion in

rural and urban areas is 10.0% and 52.5 percent respectively. There are 21.0% households using Kerosene in the district. Use of kerosene for cooking by urban households comes to 33.7 percent while in rural areas its proportion is only 5.8 percent as a whole. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc. is insignificant. In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel.

The above table presents data for total, rural and urban areas at district/mandal level about households availing banking services and in possession of assets such as radio/transistor, telephone, bicycle, scooter, car, etc. There are 717,565 households in the district and among them, 259,150 households have been availing banking services. 237,811 households have Radio/Transistor. 369,027 households possess television. Telephone is available in 130,206

households. Bicycle is used as a major means of transportation and is available in 239,603 households. 170,565 households use scooter, Motorcycle and Moped. Whereas 24,496 households are in possession of Car, Jeep and Van. The picture in usage of banking services and possession of assets by households at mandal level is almost similar as analysed above for the district as a whole.

### (xiii) Scope of Village Directory and Town Directory Column heading wise explanation and coverage of data

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

#### Scope of Village Directory :

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code numbers and a mandal map has been presented in

the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated.

Besides the above, the Village Directory is having 12 appendices viz.

- Appendix I : Abstract of Educational, Medical and other amenities in the village / Mandal parishad level.
- Appendix I A : Villages by number of primary schools
- Appendix 1B : Villages by primary, middle and secondary schools
- Appendix 1C : Villages with different sources of drinking water facilities available
- Appendix II : Villages with 5,000 and above population which do not have one or more amenities available.
- Appendix IIA : Census Towns which do not have one or more amenities.
- Appendix III : Land utilization data in respect of census towns / non-municipal towns.

- Appendix IV : Mandal parishad-wise list of inhabited villages where no amenity other than drinking water facility is available.
- Appendix V : Summary showing number of villages not having Scheduled castes population.
- Appendix VI : Summary showing number of villages not having Scheduled tribes population
- Appendix VIIA: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
- Appendix VIIB: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
- Appendix VIII : Statement showing number of Girls Schools in the villages.
- Appendix IX : List of Degree Colleges by Village / Town in the District.
- Appendix X : List of Hospitals by Village / Town in the District.
- Appendix XI : List of Banks by Village/ Town in the District.
- Appendix XII: List of Cinema Halls by Village / Town in the District.

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand Books of 1991 Census.

Columns 1 to 3 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; communications and co-operative banks; agricultural,

non-agricultural and other credit societies; recreation and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of clarification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

### 1. Forests (Col.19) :

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

### 2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):

This includes the land under the following three categories.

#### I) Net area sown :

The net area sown represents the area sown to

crops counting areas sown more than once in the same year, only once.

## II) Other fallow lands :

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

## III) Current fallows :

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

## 3. Culturable Waste (Col. 22):

This item includes the land under the following three categories.

### i) Permanent pastures and other grazing lands:

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

ii) Lands under miscellaneous tree crops and groves not included in the area sown:

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

### iii) Culturable waste:

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

## 4. Area not available for cultivation (Col.23) :

This includes the land under the following two categories.

### i) Land put to non-agricultural uses :

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

### ii) Barren and uncultivable land :

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

## Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of

all towns having statutory bodies including un-notified slums. The column 4 of statement IV-A of the 1991 book i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information – whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

- Statement I : Status and growth history
- Statement II : Physical Aspects and location of town, 1999
- Statement III : Municipal Finance, 1998-99
- Statement IV : Civic and other Amenities, 1999
- Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999
- Statement VI : Trade, Commerce, Industry and Banking, 1999
- Statement VII : Civic and other Amenities in slums, 1999

In addition to the above statements one appendix for the towns showing their out growths with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns scheduled castes and scheduled tribes population in statement IV and Adult Literacy classes/ Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

#### **Statement I : Status and Growth History :**

This statement provides basic information on civic status, population with decadal growth rate from 1901

to 2001, density for 2001 census and sex ratio from 1901 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 – 99,999	II
20,000 – 49,999	III
10,000 – 19,999	IV
5,000 – 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like ‘M.Corp.’ for Municipal Corporation and ‘NP’ for Nagar Panchayat. The location code number under column 3 for the town has been framed in the order of geographical contiguity, beginning from North West point of the district and ending at South East point. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following Seventeen places are treated as urban areas in Rangareddy District at the 2001 census.

1. Serilingampally (M)
2. Qutubullapur (M)
3. Malkajgiri (M)
4. Uppal kalan (M)
5. L.B.Nagar (M)
6. Kapra (M)

7. Rajendranagar (M)
8. Tandur (M)
9. Kukatpally (M)
10. Alwal (M)
11. Ghatkesar (C.T)
12. Omarkhan Daira (C.T)
13. Gaddiannaram (C.T)
14. Vicarabad (N.P.)
15. Meerpet (C.T)
16. Narsingi (C.T)
17. Hyderabad (M.Corp.) portion

Serilingampally, Qutubullapur, Malkajgiri, Uppal kalan, L.B.Nagar, Kapra, Rajendranagar, Kukatpally, Tandur, Alwal and Hyderabad (M.Corp.) portion are statutory towns. Ghatkesar, Omarkhan Daira, Gaddiannaram, Meerpet and Narsingi attained Urban status during 2001 Census and declared as Census Towns. Vicarabad(M) attained the status of Nagar Panchayat during 2001 Census.

Serilingampally, Malkajgiri, Uppal kalan, L.B.Nagar, Kapra, Rajendranagar, Kukatpally and Qutubullapur are class I towns. Alwal, Gaddiannaram, Tandur are categorized as class II towns. Vicarabad(NP) and Hyderabad(M.Corp.) portion are class III towns. Ghatkesar and Meerpet are class IV towns. Omarkhan Daira and Narsingi are class V towns.

#### **Statement II: Physical aspects and location of town, 1999 :**

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class and name of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Vicarabad (NP) has recorded highest rain fall of 1,287.0 mm. among urban areas of Rangareddy district while lowest rain fall of 312.2 mm. was recorded in Ghatkesar. Kukatpally has recorded maximum temperature of 46°C and minimum temperature of 9°C among urban areas in the district. The columns 6 to 12 give the details of

name and road distance in kms. from the referent town to State, district and mandal head quarters, nearest city, with population of one lakh and more, nearest city with population five lakh and more, railway station and bus route. When the distance between district headquarters and towns is compared Gaddiannaram is nearer with 12 kms. and Tandur is at far away place at 144 kms. L.B.Nagar is nearest town with One lakh and above population.

#### **Statement III: Municipal Finance, 1998-99 :**

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 and 2 relate to serial number, name and class of town with civic administration status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc. In this statement the highest receipt can be seen in Serilingampally Municipality with Rs. 16.4 Crores followed by L.B.Nagar Municipality with Rs. 12.9 Crores.

Regarding the expenditure, it can be seen in LB Nagar(M) with Rs.13.9 Crores followed by Serilingampally with Rs. 11.2 Crores.

Least income and expenditure in Omarkhan Daira (CT) with Rs.2.2 lakhs and Rs.1.19 lakhs respectively can be observed.

#### **Statement IV : Civic and other Amenities, 1999:**

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 20 columns. Column 1 & 2 relate to serial number, class and name of town and civic administration status of the town respectively. Column 3 gives population of the town whereas the column numbers 4 and 5 give population of SC and ST as per 2001 census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. Column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show

method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case, if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. The columns 16 to 20 relate to different types of electrical connection in number.

Sewerage system of all towns is open surface drain. In Kapra (M) box surface drain and in Gaddiannaram town sytk drain also exist. Mostly water borne type of latrines are more in all towns. Method of disposal of night soil is sewerage lines and septic tank in all most all towns, but for Ghatkesar town it is pit system. Tap is common source of drinking water supply. Besides tap, tube well is also additional source of drinking water. Mostly over head tanks are being used to store water. Fire fighting service stations are available at Serilingampally, Rajendranagar, Qutubullapur, Malkajgiri, Vicarabad and Tandur. According to population size of towns all sorts of electric connections are available, except for Alwal and Hyderabad(M.Corp) portion(information not available).

**Statement V : Medical, Educational, Recreational and Cultural facilities, 1999 :**

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. This statement is containing 20 columns, column 1,2 and 3 relate to serial number, class and name of the town and population recorded during 2001 Census respectively. The column 4 and 5 shows about the availability of different hospitals, dispensaries, T.B.clinics, etc., together with beds streangth. Columns 6 to 15 relates to education facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and Adult literacy centers. The column 16 is meant for working women's hostel with number of seats. Adequate Medical facilities are available in all towns. Hospital facility is available in most of the statutory towns. T.B. centers are existing in Vicarabad and Tandur.

Degree colleges are available in most of the

statutory towns. Engineering colleges are available in 5 towns. Polytechnic institutions are existing in five towns. Shorthand, Typewriting Institutions are available in all statutory towns except in Kapra(M). Junior Colleges are available in all towns except in Hyd. (M.Corp) portion, Meerpet and Omerkhan Daira(CT). Secondary, Upper Primary Schools are existing in all towns. Four towns are having hostel facility to workingwomen. The number of recreational and cultural facilities such as Stadium, Cinemas, Auditoriums, Community halls and Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20. There are stadia only in three towns. For entertainment, 55 Cinema halls are available in all towns of the district.

**Statement VI : Trade, Commerce, Industry and Banking, 1999 :**

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2 are serial number and class name and civic status of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

Steel items, T.V. sets, Lime, Leather goods and Fans are some of the important commodities that are manufactured in Urban areas of Rangareddy District. Tea powder, Battery cells, Alluminium Cables and Polish stones are important commodities exported. There are 122 Banks, 20 Agricultural Credit Societies and 753 Non-Agricultural Credit Societies. Highest number of Banks i.e., 25 are in Kukatpally (M) and 113 Non-Agricultural Credit Societies are in L.B. Nagar Municipality.

**Statement VII : Civic and other amenities in Slums, 1999**

This statement give details of civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this statement in respect of all towns having statutory bodies.

The statement on slums contains 17 columns. The columns 1 to 4 show the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum has been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil. The column 14 is meant for showing number of tap

points / public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting points and others.

There are 329 slums in 11 statutory towns with approximately 82,711 Households and 410,632 persons in the district. About 167,822 slum population is residing in Qutubullapur town followed by Alwal town with a slum population of about 37,738. Open surface drain system exists in most of the slums of the district. Majority of slum dwellers possess water borne latrines. Community latrines are also available in some of the slums. In slum areas also the same method of night soil disposal is adopted as in the respective towns i.e. septic tank, pit system etc. Sufficient number of drinking water points are provided. Street lights are also provided to slum dwellers.

## Section I - Village Directory

### (a) Note explaining the abbreviations used in Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages ( villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

#### Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

#### Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

#### Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

#### Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

#### Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

#### Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

#### Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i) Primary School	P
(ii) Middle School	M
(iii) Secondary School	S
(iv) Senior Secondary School	PUC/JC
(v) College	C
(vi) Industrial School	I
(vii) Training School	Tr
(viii) Adult literacy class/centre	AC
(ix) Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

### Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i) Allopathic Hospital	H
Ayurvedic Hospital	HA
Unani Hospital	HU
Homeopathic Hospital	H Hom
(ii) Allopathic Dispensary	D
Ayurvedic Dispensary	DA
Unani Dispensary	DU
Homeopathic Dispensary	D Hom
(iii) Maternity & Child Welfare	MCW
(iv) Maternity Home	MH
(v) Child Welfare Centre	CWC
(vi) Health Centre	HC
(vii) Primary Health Centre	PHC
(viii) Primary Health Sub-Centre	PHS
(ix) Family Welfare Centre	FWC
(x) T.B. Clinic	TB
(xi) Nursing Home	NH

(xii) Registered Private Medical Practitioner	RMP
(xiii) Subsidised Medical Practitioner	SMP
(xiv) Community Health Worker	CHW
(xv) Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

### Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i) Tap Water	T
(ii) Well Water	W
(iii) Tank Water	TK
(iv) Tubewell Water	TW
(v) Handpump	HP
(vi) River Water	R
(vii) Canal	C
(viii) Lake	L
(ix) Spring	S
(x) Others	O
(xi) Summer Source	SS-

### Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i) Post Office	PO
(ii) Telegraph Office	TO
(iii) Post & Telegraph Office	PTO
(iv) Telephone Connection	PH

### Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i) Commercial Bank	CM
(ii) Co-operative Bank	CP

**Column 11: Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

- |       |                                  |     |
|-------|----------------------------------|-----|
| (i)   | Agricultural Credit Society      | ACS |
| (ii)  | Non- Agricultural Credit Society | NCS |
| (iii) | Other Credit Society             | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

- |       |                      |    |
|-------|----------------------|----|
| (i)   | Cinema / Video Hall  | CV |
| (ii)  | Sports Club          | SP |
| (iii) | Stadium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

- |       |                    |    |
|-------|--------------------|----|
| (i)   | Bus Service        | BS |
| (ii)  | Railway Station    | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

- |       |  |    |
|-------|--|----|
| (i)   | Paved Road                                     | PR |
| (ii)  | Mud road                                       | MR |
| (iii) | Foot path                                      | FP |
| (iv)  | Navigable River                                | NR |
| (v)   | Navigable Canal                                | NC |
| (vi)  | Navigable waterways<br>other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometres in brackets

against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

- |       |                                  |     |
|-------|----------------------------------|-----|
| (i)   | Electricity for domestic use     | ED  |
| (ii)  | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes   | EO  |
| (iv)  | Electricity for all purposes     | EA  |

**Column 17 : News Paper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes

- |      |            |   |
|------|------------|---|
| (i)  | News Paper | N |
| (ii) | Magazine   | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

- |        |                               |     |
|--------|-------------------------------|-----|
| (i)    | Government Canal              | GC  |
| (ii)   | Private Canal                 | PC  |
| (iii)  | Well (without electricity)    | W   |
| (iv)   | Well (with electricity)       | WE  |
| (v)    | Tubewell(without electricity) | TW  |
| (vi)   | Tubewell(with electricity)    | TWE |
| (vii)  | Tank                          | TK  |
| (viii) | River                         | R   |
| (ix)   | Lake                          | L   |
| (x)    | Waterfall                     | WF  |
| (xi)   | Others                        | O   |
| (xii)  | Total                         | T   |

## (b) List of Villages merged in Towns and Out Growths at 2001 Census

### (i) List of Revenue Villages that have been fully merged in Towns and Outgrowths at 2001 Census

## Section II - Town Directory

**Note explaining the abbreviations used in the town directory**

**Town Directory statements (I to VII)**

**Statement I : Status and Growth History**

**Column (2) : Class, name and civic administration status of town :**

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand ( 1,00,000 ) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I) Municipal Corporation	M. Corp.
(II) Municipal Committee	MC
(III) Municipal Council	M CI
(IV) City Municipal Council	CMC
(V) Town Municipal Council	TMC
(VI) Municipal Board	MB
(VII) Municipality	M
(VIII) Cantonment Board/Cantonment	CB
(IX) Notified Area	NA
(X) Notified Town	NT
(XI) Notified Area Committee/ Notified Area Council	NAC
(XII) Notified Town Area	NTA

(XIII) Industrial Notified Area	INA
(XIV) Industrial Township	ITS
(XV) Township	TS
(XVI) Town Panchayat	TP
(XVII) Nagar Panchayat	NP
(XVIII) Town Committee/ Town Area Committee	TC
(XIX) Small Town Committee	ST
(XX) Estate office	EO
(XXI) Gram Panchayat	GP
(XXII) Census Town	CT

Others columns need no comments.

**Statement II - Physical Aspects and Location of towns, 1999**

**Column 3 to 5 : Physical Aspects**

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

**Column 6, 7 and 8 :**

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

**Column 9 & 10 :**

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

**Column 11, 12 and 13 :**

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal, its name is to be mentioned. If not available, then the name of nearest place with distance, where such

facility exists is to be mentioned.

### Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

### Statement IV : Civic and Other amenities, 1999

#### Column (1 to 5) : Self explanatory.

#### Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

- |      |             |    |
|------|-------------|----|
| (i)  | Pucca Road  | PR |
| (ii) | Kutcha Road | KR |

#### Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

- |       |                     |     |
|-------|---------------------|-----|
| (i)   | Sewer               | S   |
| (ii)  | Open Surface Drains | OSD |
| (iii) | Box Surface Drains  | BSD |
| (iv)  | Sylk Drains         | SD  |
| (v)   | Cesspool method     | CP  |
| (vi)  | Pit System          | Pt  |
| (vii) | Others              | O   |

#### Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

#### Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

- |            |    |
|------------|----|
| Head Loads | HL |
| Basket     | B  |

- |               |    |
|---------------|----|
| Wheel Barrows | WB |
| Septic Tank   | ST |
| Pit System    | Pt |
| Sewerage      | S  |
| Others        | O  |

#### Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

#### Column 13:

- |       |                 |    |
|-------|-----------------|----|
| (i)   | Tap water       | T  |
| (ii)  | Tube-well water | TW |
| (iii) | Tank Water      | TK |
| (iv)  | Well water      | W  |

#### Column 14:

- |        |                            |     |
|--------|----------------------------|-----|
| (v)    | Over Head Tank             | OHT |
| (vi)   | Service Reservoir          | SR  |
| (vii)  | River Infiltration Gallery | RIG |
| (viii) | Bore Well Pumping System   | BWP |
| (ix)   | Pressure Tank              | PT  |

The information on major source of water supply are given in column 13 and the storage capacity against each item in kilo-litres (in bracket) are presented in column 14.

#### Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

#### Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

#### Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

#### Column 1 to 3 : Self explanatory.

#### Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, they may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

**Column 6 to 9 :**

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

**Column 10 : Recognized shorthand, typewriting and vocational training institutes**

"Recognised" should mean recognised by some statutory authority, like education department,

commerce department, labour department etc. of the Government or semi Government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

**Column 11 to 14:**

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

**Column 15 : Adult literacy class/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 : Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

- |                    |    |
|--------------------|----|
| (i) Public Library | PL |
| (ii) Reading room  | RR |

**Statement VI : Trade, Commerce, Industry and Banking, 1999****Column 3 to 8 :**

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11 :**

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement VII : Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

## Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14<sup>th</sup> continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

### Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential prerequisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed

within a span of only 10 months starting October, 2002.

### Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

### **Primary Census Abstract**

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of

data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

#### **Level of presentation in District Census Handbooks:**

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

<b>Name of the Primary Census Abstract</b>	<b>Level of presentation</b>
1. District Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3. Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4. Village Primary Census Abstract	Mandal Parishad/Village wise
5. Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless

populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

#### **Area Figures**

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishad within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

## Annexure - I

### Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also to be collected. Definition of fertility measures is given in the chapter on “Non-Census concepts”.

#### Fertility Levels :

Fertility means to make capable of developing into a new individual. To know the fertility levels during 1991 Census, certain information was collected

from all ever married women such as Age, Age at marriage, Number of children surviving at present, Number of children ever born alive and for currently married women, if any children born at preceding year to the Census. Fertility measures were worked out on F-series tables of 1991 Census of Andhra Pradesh state and the definition of fertility measures is given below.

#### Age Specific Fertility Rate :

It may be seen from the below table that the Age Specific Fertility Rate is higher in the age-group of 20-24 both in rural and urban areas of Rangareddy district, which is also equal to the rural and urban areas of the same age of Andhra Pradesh state figures.

**Annexure-I (a)**  
**Age Specific Fertility Rates/Levels, 1991**

Age Group	Ranga Reddy District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.088	0.096	0.064	0.085	0.092	0.066

45-49	0.017	0.018	0.014	0.020	0.021	0.017

#### Age Specific Marital Fertility Rate :

From the below table it can be seen that the fertility level in the district is higher when compared

to state figures both in rural and urban areas except in some instances. The fertility rates are higher in the age groups of 20-24.

**Annexure -I (b)**  
**Age Specific Marital Fertility Rates/Levels, 1991**

Age Group	Ranga Reddy District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.141	0.139	0.152	0.150	0.149	0.158
20-24	0.208	0.211	0.200	0.198	0.199	0.196
25-29	0.179	0.184	0.163	0.158	0.162	0.147
30-34	0.120	0.127	0.097	0.111	0.116	0.093
35-39	0.081	0.086	0.064	0.074	0.078	0.060

45-49	0.021	0.022	0.019	0.026	0.026	0.023

**Child Mortality :**

From the estimates of child mortality i.e., number of deaths by age Q1, Q2, Q3 and Q5 are given below and it is seen that the level of child mortality in the

district is higher except in some instances when compared to the state in both males as well as females.

It is also seen that male child mortality is higher than that of the female child mortality both in district and state.

#### Fertility Measures:

It is seen from the table given above, that the fertility measures in all the ages of the district are higher than that of the state figures. Child women ratio is

also higher in the district when compared to the state average figures, but mean age at marriage of currently married women is almost equal to state figures.

## Annexure III

### Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

#### Migration :

Migration is an important aspect in the field of population study. A country gains population either by birth or by immigration and it can lose population by deaths among its residents or by out migration. In other words migration is a major factor in changing the size and structure of the population.

#### Definition of Migration:

A person is considered as migrant by place of birth or as migrant by place of birth of last residence.

Accordingly the migration has been divided into 4 types. They are as follows:

1. Migration within the state.
2. Migration within one district to another district.

3. Migration from one state to another state.

4. Migration from one country to another country.

The first three migrations constitute internal migration i.e., within the country, while the last type of migration is movement of people from one country to another country.

#### Causes of Migration:

In the year 1981, the causes for migration have been elicited. Accordingly, the migration was broadly categorized for the purpose of 1) Employment 2) Business 3) Education 4) Family Shifting 5) Marriage 6) Natural Calamities like drought, floods etc. 7) Others. Reasons or causes for migration have been elicited with reference to movement from place of last residence.

**Position of Ranga Reddy Vis-à-vis Andhra Pradesh in respect of Migration by place of birth:**

On the basis of migration by place of birth, there were 194.6 lakh migrants in Andhra Pradesh. Out of which 62.5 lakhs male migrants and 132.1 lakhs female migrants. As per the district figures migrants are 101.6 lakhs. Of total migrants 39.8 lakhs and 61.8 lakhs are males and females respectively.

**a) Migrants born in other districts of the state:**

The migrants who born in other districts of the state were 55.2 percentage, males constituted 64.5%

and females 49.2%.

**b) Migrants born in other states of India:**

Data on the basis of migrants born in other states of India is 9.9%, whereas male and female migrants constitute 12.7% and 8.2% respectively.

**c) Migrants born in other countries:**

The migrants born in other countries, who were enumerated in Ranga Reddy district are 0.2%. Among them 0.3% are males and 0.2% are females.

**Inset table to Annexure III(a)

Source: Migration Tables (D Series) - 2001

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Ranga Reddy district the migrants are 1,016,202 persons as per 1991 Census whereas 1,594,286 persons are in 2001 Census with a growth rate of 56.9% over 1991 census. In both the Censuses the female migrants are more than male migrants due

to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants, whereas in case of intra district migration male percentage is dominating. In the case of inter-state migrants also the males are more than females in both the Censuses. In case of International Migrants the growth rate for persons, males and females is same i.e., 0.1% .

**Rural and Urban Components of Migration :**

There are four types of migrants i.e. rural to rural, rural to urban, urban to urban and urban to rural. Annexure III(b) in the pre-page shows that, the migration is mainly by place of births. Here the data presented and discussed is on the internal migrants.

Out of 18,406,950 total internal migrants within the state 63.9 percent moved from rural to rural and 21 percent moved from rural to urban. Whereas 5.7 percent only have moved from urban to rural and 9.3 percent moved from urban to urban. In case of Ranga Reddy district, of the total 913,199 inter state migrants

36.8 percent moved from rural to rural and 37.0 percent moved from rural to urban. 4.1 percent moved from urban to rural and 21.9 percent from urban to urban.

Regarding the migration in other states of India, in Andhra Pradesh, it is stated that out of 10.27 lakhs of migrants, 33.9% moved from rural to rural, 33.4% moved from urban to urban, 21.8% moved from rural to urban and 10.7% moved from urban to rural. In case of Ranga Reddy district, out of 100,843 migrants 15.8 percent have moved from rural to rural and 44.9 percent from urban to urban, 34.2 percent from rural to urban and 4.9 percent from urban to rural.

**Inset table to Annexure III(b)  
Rural and Urban composition of internal Migrants by place of birth, 2001 Census**

This annexure shows percentage distribution of migrants by place of birth as recorded in 1991 census. For all districts of Andhra Pradesh the persons born elsewhere in the district of enumeration works out to 71.0 percent whereas in respect of persons born in other districts of Andhra Pradesh, born in other states and other countries works out to 23.6%, 5.3% and 0.2% respectively. In respect of Ranga Reddy district, the persons born elsewhere in the district of

the enumeration recorded as 34.7% and the persons born in other districts of the state returned as 55.2%. Among the migrants of the district, the persons born in other states and other countries works out to 9.9% and 0.2% respectively. Out of 1.95 crores of migrants of the state, 10.2 lakh migrants belong to Ranga Reddy district. It is interesting to note that the female migrants are more in number than males in all the districts of the state.

*Source: Migration Tables (D Series) - 2001*

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a negative trend of 2.2%, 0.8% and 0.1% respectively when compared with 1991 census.

In respect of Ranga Reddy district, the difference between the two Censuses can be observed with the

decreased percentage i.e., (-)1.5% in the persons born elsewhere in the district of the enumeration, but in the sex-wise break up, the males percentage is with 3.1% increase and females with the decrease of (-) 3.0% can be seen and the males migration is more than 1991 census due to the reason that these people are coming from different parts of the state for seeking employment and for their better livelihood. Regarding the migrants from other states in India only a minor variation is recorded with (-)1.4%.

Among the migrants that are born in Abroad, decrease is noticed in the percentage variation between 1991 and 2001 censuses i.e. (-) 0.1%..

## Annexure IV

### Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

**Religion :**

The data on religion has been collected and presented for 6 major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown under the category of "Others".

collected through question No.8 of the individual slips and recorded the religion as stated by the individual under six major religions. The minor religions other than these six religions, as reported by the respondent, were recorded and classified under the category of "Others".

During 1991 Census, the religion data was

1991 Census, all the six major religions were returned in Ranga Reddy district. Out of the total population of 2,551,966 persons in the district, Hindus constituted 2,205,248 persons, Muslims 299,182 persons, Christians 44,442 persons, Jains 255 persons, Buddhists 552 persons and 2,218 persons belong to Sikh religion. In terms of percentage to total population, Hindus have returned with 86.4% followed by Muslims with 11.7% and 1.7% Christians. There are only 16 persons returned in the district as Religion not stated.

In almost all the mandals, Hindus, Muslims and Christians have been returned in both rural and urban areas of the district in 1991 Census. Among these three religions, Hindu religion has dominated in all the mandals.

As regard to Muslim religion, it occupies 2nd place in the district with 299,182 persons. Balanagar(U) mandal has recorded highest Muslim population in the district with 54,267 persons forming 20.4% of total mandal population followed by Rajendra

Nagar mandal with 31,694 persons. The least number of Muslim persons were returned in Manchal mandal with 1,545 persons only.

Though the Christian religion was identified in almost all mandals, their number is very less when compared to Hindus and Muslims. Balanagar(U) mandal has recorded highest population of Christians in the district with 9,567 persons followed by Malkajgiri(U) mandal with 8,662 persons. In Dharur mandal the least number i.e 4 persons were recorded.

Jains have been recorded as highest number i.e 93 persons in Malkajgiri(U) mandal and the least number i.e 4 persons were recorded in Serilingampalle(U) mandal.

Among 552 persons of Buddhists, 218 persons are found in Hayathnagar mandal as highest number and only one person each in Saroornagar and Manchal mandals.

This district has 2,218 persons in Sikh religion. The highest number was recorded in Rajendranagar

mandal with 851 persons and the least number of 3 persons were found in Shamirpet mandal. Readers have to follow the religion table for other details like

rural-urban breakup and male-female breakup with mandal-wise in the district.

Source: Religion Data, Andhra Pradesh - 2001

The above table gives the details of Main Religions in the district for 2001 census whereas the previous Annexure shows the details of main religion in 1991 census. During 2001 census the religion data was collected through question number 7 of household schedule. Out of the total population of the district, Hindus have returned 85.7% during 2001 census as against 86.4% in 1991 census. In respect of Muslims

they have returned 11.4% in 2001 whereas their percentage during 1991 was 11.7. The next main religion in the district is Christians who returned 2.5% during 2001 census as against 1.7% in 1991 census. In respect of remaining main religions viz. Sikhs, Buddhists, Jains and others their strength in the district is negligible.

**Annexure-IV(b)**

**Percentage distribution of population by major religions in India, Andhra Pradesh and Ranga Reddy district and its growth rate during 1981-1991**

Sl. No.	Name of Religion	India		Andhra Pradesh		Ranga Reddy District	
		Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91	Percentage of Population	Percentage growth rate 1981-91
1	2	3	4	5	6	7	8
1	Hindus	82.4	22.3	89.14	24.74	86.41	60.22
2	Muslims	11.7	32.8	8.91	30.66	11.72	67.83
3	Christians	2.3	16.9	1.83	(-) 15.14	1.74	76.71
4	Sikhs	2.0	25.5	0.03	35.06	0.09	95.25
5	Buddhists	0.8	36.0	0.03	71.33	0.02	51.23
6	Jains	0.4	4.4	0.04	42.50	0.01	55.49
7	Others	0.4	13.1	Negligible	201.29	Negligible	26.19

Religion-wise growth in the State during the decade 1981-1991 shows that Hindus recorded higher growth rate than India as a whole i.e. 24.7% as against 22.3% in India. The growth rate of Hindus in the district is more than that of State and Country i.e. 60.2%. The growth rate among the Muslims is

more than that of State and Country i.e. 67.8%. The Christian population has decreased in the State and it is increased in the district during the decade. The growth rate among Sikhs and Jains is more in the district than that of State and Country.

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Ranga Reddy districts between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 it was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Ranga Reddy district though the percentage of population of Hindus recorded 85.7 as against 86.4 in 1991, their growth rate in 1991-2001 has fallen to 31.0% as against the growth rate of 60.2 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against

11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Ranga Reddy district, Muslims constituted 11.4% of total population during 2001, whereas the corresponding figure recorded in 1991 was 11.7. However in this district the growth rate in the decade 1991-2001 has declined to 36.5% as against the growth rate of 67.8% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001 census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh their percentage growth rate continues to show the negative trend. The percentage growth rate of this community in the state recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Ranga Reddy district during 2001 Christians constituted 2.5% to total population as against 1.7 % in 1991. The percentage growth rate of this community during 1991-2001 has recorded 102.3% as against 76.7% in 1981-1991. In respect of other main communities their growth rate is negligible.

**Annexure-IV(c)**  
**Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Ranga Reddy district- 1991 Census**

Sl. No.	Name of Religion	Andhra Pradesh(in %)		Ranga Reddy Dist.(in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	55.28	44.72
2	Muslims	41.83	58.17	39.82	60.18
3	Christians	60.48	39.52	18.26	81.74
4	Jains	4.11	95.89	5.49	94.51
5	Buddhists	80.41	19.59	67.93	32.07
6	Sikhs	10.85	89.15	6.63	93.37

Source: Part-IV-B(ii) of Andhra Pradesh 1991 Census.

**Rural – Urban differentials :**

In Andhra Pradesh and Ranga Reddy district, it is seen from the above given Annexure that Hindus form considerably higher in rural areas i.e., 76.6% and 55.3% respectively. Similarly Buddhists form higher percentage in rural areas than in urban both

in the state and district. But Muslims form higher percentage in the urban areas of the State, and also in the district. The Sikhs and Jains are also more in urban areas than in rural areas in the State and in the district.

**Inset table to Annexure IV (c)**  
**Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Ranga Reddy district - 2001 Census**

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Ranga Reddy District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	48.4	51.6
2	Muslims	41.9	58.1	32.9	67.1
3	Christians	55.0	45.0	20.0	80.0
4	Jains	5.0	95.0	7.0	93.0
5	Buddhists	66.0	34.0	28.0	72.0
6	Sikhs	17.0	83.0	13.0	87.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Ranga Reddy district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of Hindus and Muslims between rural and urban at state level is almost the same in 1991 and 2001, whereas in Ranga Reddy district their percentage in rural areas has slightly diminished in 2001 census and corresponding growth is seen in urban areas. In 2001 census 55.0%

Christians lived in rural areas as against 60.5% in 1991 at state level. The concentration of all religions is more in urban areas of the district during 2001 census. The reason is the district is having more urban population than rural being part and parcel of many areas under Hyderabad urban agglomeration. During 2001 and 1991 Buddhists recorded more in rural areas than in urban. In Rangareddi district Buddhists recorded more in rural areas during 1991 whereas in 2001 they shifted to urban areas.

## Annexure V

### Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. The marital status of a person will be ascertained by the following manner.

- (i) A person who has never married at any time before, treated him/her as never married.
- (ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living such a person is treated as married.

(iii) A person whose husband/wife is dead and who has not been married again, treated her/him as widowed.

(iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not re-married, has been shown Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Ranga Reddy district.

The population has been distributed in 18 age groups starting from 0-9, 10-14 etc. The above statement shows that married, widowed and divorced/separated persons were found in the age group of 10-14, which reflects bad events such as child marriages, etc. In the never married category

both males and females were covered in almost all categories. The reasons for never married persons found in the old age group may be due to physically handicapped or mentally disabled, etc. There was no separate data collected in the Census for such reasons.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 3,575,064 persons, 976,993 (53.1%) males and 744,842 (42.9%) females were recorded as never married. In the total district population, 844,064 (45.9%) males and 872,185 (50.2%) females were found married and 111,692

widows, 16,072 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,368,738 persons in the age group less than 18 years, 99.5% males and 97.3% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.5% males and 2.6% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

## Annexure VI

### Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

#### Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal

education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

**Annexure VI**

Source: Socio-cultural tables, Part IVA series, Census of India, 1991 Andhra Pradesh.

It is seen from the above statement that among school going age group between (7-14) 52.9% and 74.2% are literates, while total literates in the district has been worked out to 49.1%. Among them females worked out only 36.9% literates as against 60.4% in

males. In all age groups male literates are considerably dominating the females. Highest percentage of literates are found among the persons aged 11 years in both the sexes.

not stated

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 66.2% literates in 2001 as against 49.1% literates in 1991. In the district the literacy rate for males has recorded 75.3% as against 56.5% in females during

2001 Census. From the above inset table it is noticed that in the school going age-groups i.e 7 to 14 years, their literacy rate recorded between 72.1% and 90.2%. Among all the age groups, male literates are dominating females. The highest educated are found in the age group of 11 years with 90.2% and their sex-wise breakup recorded 92.7% in males and 87.6% in females. It is a good trend that the essentiality of the education is felt much by the general public.

## Annexure VII

### Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

#### Mother Tongue :

Mother tongue is the language spoken in the childhood by a person's mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1576 rationalised mother tongues and 1796 names were treated as unclassified or "others". The

1576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total number of languages so arrived at is 114, of which 18 languages are included in Eighth Schedule to the constitution of India (Scheduled languages).

The above inset table gives the abstract of the languages as mother tongues and their strength in

the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census.

In 1991, the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's language has recorded 78.7% to total population in the district and it is almost equal to the percentage recorded in 1991(79.0%). The next highest language

being spoken is Urdu with 11.1% to total population of the district and it is equal to the percentage of Urdu speaking people recorded as 11.9% In the district Hindi speaking population constituted 5.5% of the district population as per 2001 Census. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district all the 18 scheduled languages returned in 2001 Census.
