**VILLAGE & TOWN DIRECTORY**

**VILLAGE AND TOWNWISE  
PRIMARY CENSUS ABSTRACT**

Director of Census Operations, ANDHRA PRADESH

## Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri. V.S. Bhaskar, IAS., Director of Census Operations, Andhra Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

## Kakatiya Thoranam

The Motif selected for Warangal Handbook is "Kakatiya Thoranam", a fine specimen of architecture and sculpture seen in the Warangal Fort. Warangal was once ruled by great Telugu Kings called 'Kakatiyas' who derived their name from 'Kukata' a local name of the Goddess Durga. The construction of Fort was commenced by the king 'Ganapathi' in 1199 A.D. and was completed by his daughter Rani Rudramadevi in 1261 A.D. Inside the Fortress are the remains of four large beautiful stone gateways (Thoranam), reminiscent of Sanchi gateways and built of grey granite. The carvings have been described by an English artist as "Minute carvings of borders, pattern like stencils, ropes of pearl interlaced, tiny knobby patterns, finely wrought dragons on the tops of elephants, each prancing on the head of the other in a glorious freize - another panel was of two women, light as air in ballet dress, and on each side a peacock dancing on the back of Swan".

Warangal is at a distance of 9 Kms. From Kazipet on Delhi-Chennai railway line. Warangal itself is a railway station on Kazipet -Dornakal broad guage line in Secunderabad division of South Central Railway. It is also connected by road from all directions.

## Preface

The District Census Handbook (DCHB) containing Primary Census Abstract and data on “amenities” for each village and town in the district. The intention of this publication is to place the data collected at the Census alongwith the village and town level amenities data collected from the Mandal Revenue Officers/ Municipal officials in this publication. The amenities data is validated by comparing with secondary data obtained from Heads of the Departments. For example, information on schools was compared with data available with Commissioner, School Education and information on post offices was compared with data obtained from the Chief Post Master General and so on. Validation of data in the above manner was by no means an easy exercise. Scores of officials had put in gruelling efforts for months together. The entire data and manuscripts were computerized. We are now reasonably confident of the correctness of the data but we will not make any utopian claims of cent per cent accuracy. There may be errors but we will be safe in saying that they are minimal.

The District Census Handbook is divided into the following major components.

1. Introduction.
2. Brief history of the district.
3. Census and non-Census concepts.
4. A detailed write up on the physical features, major cultural and social events, major developments during the decade, places of religious and historic importance etc.
5. Primary Census Abstract (PCA) at the district level, mandal/town level and village level.
6. Brief analysis of PCA data.
7. Village Directory and Town Directory.
8. Brief analysis on Village Directory and Town Directories.

It will not be out of place to mention here that there is perhaps no other publication from any agency that encapsulates so much data on a district. The amenities data includes information on sectors such as Education, Health, Water and Electricity supply, Communication and Transport facilities etc. The idea of presenting amenities data juxtaposed to the Census data is not only unique but also tremendously useful for the data users.

The District Census Handbook is further enriched with a district map and mandal maps depicting villages/towns with population size and also amenities such as Educational Institutions, Hospitals, Telegraph and Telephone facilities, Banks, Police Station etc.

Some improvement over earlier DCHB have been made to bring more completeness to the data presented in this volume.

1. The names of Colleges, Girls' High Schools, Hospitals run by Government and others have been given as an additional information. Similarly the names of Cinema Halls have been given.
2. Ranking of Mandals according to population is also given.

3. More Appendices and Annexures to important statements are given to make the data more comprehensive.

In the previous Censuses, the manuscripts prepared by this department were supplied to Government of Andhra Pradesh who in turn brought out the publications at their cost. However due to the procedural rigmorale some delay was unavoidable in placing the DCHBs before the data users and planners.

This time, keeping in view the above difficulties, the printing and publication of District Census Handbooks has been taken up centrally under the arrangement of the office of the Registrar General and Census Commissioner, India, New Delhi. The processing of data and preparation of Camera Ready Copies electronically including finalisation of write up was attended to in the office of the Director of Census Operations.

I am grateful to the Chief Secretaries, Principal Secretaries, Secretaries, District Collectors, Municipal Commissioners and other senior officials of the Government of Andhra Pradesh for their co-operation and assistance throughout the Census Operations and in the process of collection of the non-Censal data.

I am extremely grateful to Sri D.K.Sikri, IAS, Registrar General and Census Commissioner, India for the help, guidance and constant support in finalising this volume. My sincere thanks to Sri R.P. Singh, Deputy Registrar General (Map) and Dr.I.C. Agrawal, Assistant Registrar General (SS). Sri. S.L. Jain, Deputy Director for giving guidance, help and co-ordinating this project work and their colleagues in the office of the Registrar General, India.

I also take this opportunity to acknowledge the valuable contribution made for this publication by Sri.J.K.Banthia, Ex-Registrar General, India.

Most of the work relating to DCHB has been carried out under the able guidance and direction of Sri V.S.Bhaskar, IAS, Director of Census Operations, Andhra Pradesh, Hyderabad. I take this opportunity to acknowledge his valuable contribution made for this publication.

The credit for preparation of District Census Handbooks goes to a team of devoted officers and staff of this Directorate who have involved in this project. The names of individuals associated with this project are shown in "Acknowledgements". I am grateful to all of them.

I hope that the data users will find this publication very useful.

ADMINISTRATIVE DIVISIONS

## District Highlights – 2001 Census

1. Warangal District stands **11<sup>th</sup>** in terms of area size and ranks **14<sup>th</sup>** in terms of population in the state.
2. Warangal district stands **13** rank in terms of urbanisation with a total Urban population **623,212**, forming **19.2** percentage to the total district population.
3. The sex ratio of the district is **973** against **962** in 1991 Census showing upward trend.
4. The density of the district is **253** against **219** in 1991 Census, showing increased over the decade.
5. **Mahabubabad** village, PLC No. **00959700** is most populated with a population of **36,474** and **Chowled** village, PLC No. **00900800** is the least populated with a population of **15** in the district.
6. **Warangal** mandal is most populated with a population of **530,636** and **Tadvai** Mandal is the least populated with a population of **19,727** in the district.
7. **Warangal** Municipal Corporation is most populated with a population of **530,636** and **Jangaon** Nagar Panchayat is the least populated with a population of **43,996** in the district.
8. Out of 100 workers **68.1** are engaged in Agriculture sector, **5.0** in Household industry and **26.9** in other economic activities. Thus showing the predominance **Agriculture** Sector.
9. Out of 100 Male workers in the district **57.7** are engaged in **Agriculture** sector.
10. Out of 100 Female workers in the district **81.8** are engaged in **Agriculture** sector.
11. There is a decrease in the proportion of main workers of the district in the decade ( **45.3** percent in 1991 to **39.4** percent in 2001).
12. There is no variation in the proportion of Male workers of the district in the decade ( **54.3** percent in 1991 to **54.3** percent in 2001).
13. There is a mild variation in the proportion of Female workers of the district in the decade (**41.0** percent in 1991 to **42.0** percent in 2001)
14. The warangal district is famous for **Paddy and Cotton Production**.
15. **Ghanpur (Mulugu)** Mandal has the lowest number of inhabited villages ( **8** ) and the highest number of inhabited villages ( **58** ) are found in **Kothagudem** Mandal .
16. **Wardhannapet** mandal has largest area **13486.00** hectares under irrigation, followed by **Atmakur** mandal with **11370.66** hectares in the district. The mandal with lowest area **615.39** hectares under irrigation is **Eturnagaram** Mandal.
17. **Venkatapur** village bearing PLC No.**00887100** has the largest area (**7869** hectares) and **Lingapuram** village bearing PLC No.**00893500** has the smallest area ( **1** hectare) among the villages of the district.
18. Female work participation rate is **42.0** that of the Males in the district is **54.3**

## (i) About the District Census Handbook

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less similar and permanent characteristics like history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District Manuals by another publication viz., the District Gazetteer consisting of two Volumes A and B. Volume-A contained descriptive and general tables which explains the text and Volume-B contained detailed statistics. It was decided that Volume B should be brought out periodically after each decennial census so that they contain the latest statistics. Volume-A was published for some districts between 1905 and 1927 in the Composite Madras State. The publication of Volume-A was discontinued in 1927. Volume-B was published for all the districts of the Composite Madras State between 1906 and 1915. The publication of Volume-B was also stopped after 1931 Census.

Similarly the Gazetteer volumes were also brought for some of the districts in the erstwhile Hyderabad State. The scheme of publication of revised District Gazetteers was re-started in the year 1958 by the State Governments. The State Editor, District Gazetteers, Government of Andhra Pradesh had published the Gazetteers of all the districts.

The District Census Handbook series was initiated during the 1951 Census. The idea of compiling the District Census Handbooks was pioneered by Sri R.A. Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District

Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each census with improved pattern with an aim to give the census and non-census data at micro level for the village and district as a whole to suit the requirements of various departments, scholars, research personnel, planners, industrialists, electoral authorities and other data users, also for efficient public administration by the state.

### **Pattern at 2001 Census :**

The present District Census Handbook of 2001 Census, like the previous Census, is brought out for each district comprising of two Parts. Part- A Village and Town Directory with additional information on amenities viz., availability of commercial banks, recreation, credit societies etc., and land use particulars in the rural areas and Part- B Primary Census Abstract. At the out set an analytical note is given which depicts a general back ground on the district and analytical results on the statements and tables included in the volume. The volume is also provided with brief history of the district, physical aspects, census concepts, non-census concepts major characteristics with reference to economic resources and administrative set-up during the past decade with few appendixes etc..

### **Part A –Village and Town Directory :**

Section- I, i.e. Village Directory gives non-census data on the amenities available in each village in respect of educational, medical, drinking water, power supply, post and telegraph, telephone, approach to village, banks, credit societies, receipt of newspapers and magazines, recreation and cultural facilities, nearest town and its distance, distribution of land use area, and name of the most important commodities manufactured.

If an amenity is not available in the referred village, the distance in broad ranges (kms.) from the

nearest place where the amenity is available is indicated. If the nearest place is situated in another state, name of that state is also given.

Section-II, i.e. Town Directory has been presented in seven Statements viz., Statement – I Status and Growth History, Statement-II Physical aspects and Location of towns, Statement-III Municipal Finance( receipts and expenditure,1998-99), Statement-IV Civic and other amenities, Statement-V Medical, Educational, Recreational and Cultural facilities Statement-VI Trade, Commerce, Industry and Banking etc., and Statement-VII Civic and other amenities in Slums, and an appendix showing towns with out growth and their population. The reference period for the above statements is 1998-99 and the

data is covered for all the statutory notified towns in the district.

The non-census data at Village/Town level is collected from concerned authorities viz., Mandal Revenue Officers, Municipal Commissioners etc., and scrutinized with meticulous care and validated with the data collected from various departments to provide valid information to the data users.

### **Part B–Primary Census Abstract :**

This data can be stated as the essence of the handbook. The latest census details such as area, total households, population, scheduled castes and scheduled tribes population, literates, workers, etc. are presented in these Abstract.

## (ii) History and Administrative Set-up of the District

### Brief History of the District:

Warangal is an ancient town after which a district and a Commissioner's Division in the former Hyderabad State, and again a district in the present Andhra Pradesh State have been designated. The Warangal division in erstwhile Hyderabad State formed the eastern portion of the Nizam's Dominions and extended from the river Penganga in the north to the Krishna in the south. It was one of the biggest districts before 1st October, 1953 when a few taluks were separated from it and formed into Khammam district. The district of Warangal, lies on the northeast of the State, between 17° 19' and 18° 13' north latitude and 78° 49' and 80° 43' east longitude and has a total area of 12,846 sq.kms. The ancient town of Warangal is presently situated on the South Central Railway, about 138 kms. north of Hyderabad City. It lies on the watershed separating the basins of the Godavari and the Krishna in the lower part of their course. The country which surrounds it, consists of large undulating plains of reddish sandy loam and black soils, broken here and there by piles of huge granite boulders and basaltic dykes. From a military point of view, Warangal seems to have occupied an advantageous position, on account of its location. Due to this reason, evidently, and also because of its climate, it must have been selected for building a fort in the ancient days. Great lakes, historical monuments, temples and forts make Warangal an interesting district for the pilgrim, the historian, the archaeologist and the nature lover. Warangal itself is not very ancient but Hanumakonda, and legends surrounding it, seem to link up the area with the great Vishnukundins and other earlier dynasties of the Buddhist and pre-Buddhist periods of Indian history. The district originally formed a portion of the ancient Kingdom of the Andhra kings, who subdued the whole of the Deccan. During the eighth century it was 'Orukal', the capital of Yadava Kings of Tuluva Andhras. For nearly two hundred years, from the middle of the twelfth century, it

formed part of the territories of the Kakatiyas of Warangal. Prola Raja is said to have captured the Chalukyan King, Tailapadeva III and successfully waged wars with other kings. His son Rudra I extended his possession while Raja Ganapatideva claims to have defeated the King of Kalinga and to have had the Kings of Southern Gujarat and Bengal as his vassals, ruling as far south as the Nellore district of the present Andhra Pradesh State. Ganapatideva was succeeded in about 1257 A.D. by his daughter Rudrama Devi, who was mentioned as the ruler of the country by Marco Polo.

The name of Warangal is said to be a corrupt form of Orukal, which was probably the original designation of the old town. This seems to have been adopted by the early Muslim historians of India. Orangallu and Orugallu are the two variants of this appellation. All these terms refer to the solitary cliff, which stands at the centre of the fort of Warangal, which has, evidently given its name to the locality. There is also a divergence of opinion regarding the origin of the Kakatiyas, the ruling dynasty of Warangal. According to one opinion based on the Hanumakonda inscriptions, they came from the Chola Dynasty. The other opinion is that the Kakatiyas were of Chalukyan blood and had only matrimonial relations with the Rajas of Cholla. The family name of Kakatiya is derived from the local appellation of the Goddess Durga. In view of these two conflicting evidences it is difficult for us to decide as to what dynasty the Kakatiyas originally belonged to. However, Dr.Yazdani's following translation seems to be more authentic as most of the scholars have accepted it. " At first Betal and after him his son Prola I remained firmly loyal to the Western Chalukyan standard and thus won the affection and favour of their overlords. Delighted by the military ability and unswearing loyalty of Prola I, the Emperor Ahavamalla Someswara I, granted him Anumkonda-Vishaya as a permanent fief. Prola I, thus became the founder of the Kakatiya principality,

which under his ambitious successors grew into a powerful Kingdom embracing the whole of the country." The Kakatiya line seems to have been in existence even earlier to the middle of the seventh century A.D. because the Chinese pilgrim Hieun Tsang mentions the Kingdom of Dana Kakatiya in the south. The Rajas of Warangal in the beginning were vassals of the Chalukya Kings of Vatapi but in the eighth century A.D. when the latter dynasty became extinct and the sovereignty of the Deccan passed to the Rashtrakutas, the Warangal Kings assumed independence and the dynasty gradually rose into power. The first important king of the family was Prola Raja who reigned from 1150-1163 A.D. Prola Raja was the father of Rudra Deva I, the founder of the well known Hanumakonda temple. It may, however, be incidentally remarked that the fort of Warangal was founded by the Kakatiya King Ganapatideva (1199-1200 to 1260-61 A.D.) and was completed by his daughter Rudrama Devi who succeeded her father in the absence of a male issue. This talented lady was styled Raja or King and was called Maharaja Rudradeva i.e., the great King Rudradeva, on account of the manly qualities she possessed just as Razia, the gifted and famous daughter of Sultan Ulamish of the slave dynasty was called Sultan. She built the massive outer mud wall around the fort and completed the inner stonewall which was commenced by her father. The outer mud wall is 72 feet wide and 56 feet deep. Traces of a third earthen wall are visible near the villages of Thimmapur and Narasimalingudem, six miles (9.6 Kms.) south of Hanumakonda. This wall is said to have had a circumference of thirty miles (48 Kms.), the largest in India. A large temple in the centre of the fort, which was presumably under construction, has been excavated. The boundary of the original temple was marked by four large elaborately carved gateways facing the four cardinal points. They bear a striking similarity to the famous gateways of Sanchi and are very imposing to look at. There are a number of temples, dedicated to Narasimhaswami, Padmakshi and Govindarajulu Swami, which are of great sanctity. The last named temple is perched on a hillock near the Warangal Railway Station, commanding a panoramic view of the entire city and its surroundings. Very beautiful and artistic is the modern Siva temple constructed by a rich merchant of the city with pure

white marble idols and walls inlaid with coloured porcelain. Warangal remained under the Kakatiyas for a couple of hundred years from about the middle of the twelfth to about the middle of the fourteenth century A.D. Prataparudra was the last ruling chief of this dynasty about whom there is definite inscriptional evidence. He is said to have died in 1325 A.D. What happened to his dominions after his death is not known. As the late Rai Bahadur Venkayya pointed out long ago an inscription at Upparapalle in the Cuddapah district refers to a son of Prataparudra named Juttaya. According to Sir Walter Elliot Virabhadra was Prataparudra's successor who had to retire to Kondavidu. The late Mr. Sewell said that it was Krishna who succeeded Prataparudra but with a much reduced Kingdom. Mr. Venkayya, writer of that period, states that Muslim writers spoke of Vinayakadeva, alias Nagadeva, as the son of Prataparudra though he did not quote any authority for this statement. The absence of inscription of these persons, namely, Virabhadra, Krishna, Juttaya and Vinayakadeva alias Nagadeva, is significant and would lead us to surmise that the Kakatiya dynasty had dwindled into insignificance or to a secondary position and must have gradually disappeared from the scene. It is worthwhile to make it clear here briefly as to how and when the Warangal fort came into the hands of the Muslim rulers. It is evident from history that the Muslim armies first made their appearance in the Deccan about the middle of the thirteenth century. The first expedition, therefore, against Telangana took place in A.D. 1303 by Alauddin Khilji and in 1310 Malik Kafur led an expedition on Warangal and seized the hill of Hanumakonda. Consequently, subordinate chiefs and the distinguished nobles of the Kakatiya Kingdom took up their residence with the king in the inner citadel, built of stone. The Condition of the besieged in the inner fort became increasingly difficult owing to the lack of accommodation and at last Prataparudra could hold out no longer. Thereupon he sued for peace and Malik Kafur agreed to raise the siege on condition that Prataparudra should promise to the Sultan annually a stipulated sum of money and send a contingent of elephants as tribute. Prataparudra accepted those conditions and discharged his obligations faithfully. After the death of the Sultan there were political disturbances in the country and ultimately Ghiyasuddin Tuglaq, ascended the throne

and proclaimed himself Sultan in 1320. As a result of these disturbances Prataparudra refused to pay the annual tribute to Ghiyasuddin Tuglaq. After consolidating his authority Sultan Ghiyasuddin turned his attention to the south, and in 1323 sent an expedition against the Telangana under his son Mohammed Bin Tuglaq who finally captured the fort and Prataparudra was taken prisoner. It was considered unsafe by the conquerors to keep him in the country, where his presence might lead to political complications and therefore Prataparudra was despatched to Delhi with all the members of his family under Khadir Khan and Khaja Haji, two trusted officers of the Imperial Army. They were not however destined to bring the fallen monarch into the metropolis, for he had expired far before reaching Delhi. However, the circumstances under which he died are not clear. But, according to the inscription of 1330, it is stated that Prataparudra while being carried away as captive to Delhi died on the banks of the river Somadhbana i.e., Nerbada. While returning to Delhi Mohammed Bin Tuglaq appointed Malik Maqbool as the Governor of Telangana under whom Kapaya Nayaka was ruling over Warangal independently. On 3rd August 1347, Zafar Khan, one of the military officers who had rebelled against Mohammed Bin Tuglaq, declared himself to be the king of the Deccan under the title of Alauddin Shah Bahmani and subsequently Malik Maqbool was removed from the Governorship.

It is a well-known fact that at the time of the rise of the Bahmani Kingdom, Warangal was independent under the rule of Kapaya Nayaka. This ruler was on friendly terms with the Bahmani King, and even furnished him with elephants, on the latter's request. Of course, we hear of the Sultan setting out on an expedition to conquer Telangana, but it related only to the region around Bhongir and not Warangal. However, hostilities arose between these two kingdoms before long, and the expansion of the Bahmani Kingdom eastwards was regarded by the Warangal ruler to be an encroachment on his own territory. Warangal began to act in concert with Vijayanagar, and in the reign of Mohammed Shah Bahmani I, 1358-1373, war commenced which ultimately ended in the submission of the Warangal Kingdom. Peace was restored on the payment of a large sum of money to the Bahmani ruler as indemnity

and Golconda and its dependencies had to be ceded besides presenting a rich and a valuable throne. It is not clearly stated whether Warangal retained its independence after this. The *Burhan-i-Masir* states that in the latter days of his reign i.e., the reign of Mohammed Shah Bahmani I, (1358-1373) being seized with the desire of conquering Telangana, he brought the country into the possession of the agents of his Government. This statement might imply that Warangal was made a feudatory State but it seems probable that till at least the beginning of the reign of Ahmed Shah Bahmani (1422-1435) Warangal remained independent intriguing with Vijayanagar against the Bahmani Kingdom, and proving itself a veritable thorn on the side of the Bahmani Kingdom. Soon after his accession, Ahmed Shah Bahmani proceeded against Telangana. According to *Firishta*, Khan Azam who had proceeded against Warangal in advance with a small army defeated and slew the King of Warangal and obtained possession of the place. The king moved to Warangal and took possession of those treasures, the accumulation of ages, which had till then been preserved from plunder. The king then rewarded Khan Azam suitably and detached him to reduce the remainder of Telangana, which he effected in the span of four months and returned to join the King at Warangal. Khan Azam was now left to reduce some strong posts in possession of the deceased Rajah's heirs, while the king proceeded to Gulbarga. These events are dated as 1424 A.D.

The Campaign described above by *Firishta* is a specific attack on Warangal as a punishment for helping the Kingdom of Vijayanagar.

The Kingdom of Warangal completely lost its individuality in 1430 during the reign of Alauddin Bahmani. This Sultan after capturing Warangal left behind him his trusted Minister Mahmood Gawan to protect the Telangana. Later Mahmood Gawan returned to the capital Gulbarga and his place at Warangal was taken by yet another trusted subject by name Sarang Khan.

On the break-up of the Bahmani Kingdom, Warangal fell to the share of the Qutub Shahis of Golconda. Shitab Khan became the Governor of Warangal under the Qutub Shahis of Golconda. The Durbar Hall of Shitab Khan still standing in the fort

of Warangal indicates that this man of fortune must have won the kingship attributed to him in the record under Qutub Shahi Kings. This Durbar Hall, as Mr. Yazdani has pointed out is a spacious building of the true Pathan style which stands near the western gateway of the central shrine in the fort. To establish his identity we have to refer not only to the accounts given by the Muslim historians and in the Kaifiyat preserved in the Government Oriental Manuscripts Library at Madras (Chennai) but also to some Telugu books as well. The History of Sultan Quli Qutub Shah would show that Shitab Khan was in the possession of the strong forts of Warangal, Khammameth and Bellamkonda. Obviously, then, he must have governed the tracts between Warangal and Guntur on both sides of Krishna river. He took great interest in developing the fort by constructing a few buildings for his subjects. These buildings are no longer in existence. Only the ruins of these can be seen.

Under the Qutub Shahi period Warangal remained as the second city of the Kingdom. In 1687 when Aurangzeb captured Golconda, Warangal too automatically got annexed to the Kingdom of Delhi. Rohilla Khan was entrusted with the administration of Golconda and Hyderabad and later Mubarak Khan took his place and was the Subedar till 1724. In that year he was defeated and killed in the battle of Shaker Khore in the Berar by Nizam-ul-Mulk Asif Jah I. The latter declared himself independent of the Kingdom of Delhi and ruled the Deccan. Thus Warangal came under the sway of the Nizam's dominions.

In the administrative set up of the erstwhile Hyderabad State, Warangal was first made the headquarters of a taluk and later the headquarters of a district and a Suba, with the Subedar residing at Warangal. After the Police Action and the merger of the Hyderabad State with the Indian Union in 1948, the Subedarship was abolished and Warangal continued to be the headquarters of a district.

### **Kakatiya Glory:**

#### **Temples :**

The Kakatiyas were magnificent builders and in their structures one notices vigour and loftiness, as also a sense of proportion, qualities which unfortunately are seldom observed in similar structures

in other parts of the country. The massiveness of the pillars at Hanumakonda, Warangal and Palampet is in due proportion to the altitude of the buildings and to the heavy superstructure and in spite of their thickness, the pillars have an extremely symmetrical form and rise to considerable height, giving a general air of loftiness to the whole building. The interiors of the temples are spacious, thus admitting more light and air than is commonly the case in Hindu edifices. The pillars, doorways and screens are profusely decorated, the arrangement and style of the carvings being highly refined and appropriate. The temples represent the full development of the Chalukyan style and as such form important landmarks in the history of the Hindu architecture and sculpture.

The thousand-pillared temple of Hanumakonda is the best example of architecture that flourished during the Kakatiya period. The main block of the temple consisting of the three shrines and the hall, belongs to the period of the inscriptions i.e., 1162-63 A.D., while the pillared hall, is a later addition. The temple, as is recorded in the inscription, was dedicated to the Triad Siva, Vishnu and Surya and their figures are beautifully carved over the doorways of their respective shrines. The northern and eastern shrines originally had images of Vishnu and Surya; the recesses which accommodated the images and the over shadowing canopies are still in evidence. But it seems that once the temple came into the hands of the Saivaites, they removed the images from their shrines and replaced them by Salankas, which exist now. The most notable features of this temple are the richly carved pillars and lintels, the delicate screens and the most carefully finished sculptures consisting of dwarapalas (security guards) etc., but hardly less striking is the massive yet lofty style of the architecture characterised by the extra-ordinary height of the plinth, the majestic pillars and the ponderous beams and ceiling slabs. The Nandi pavilion and the detached pillared hall are comparatively plain and devoid of ornament, but the Nandi itself is a splendid specimen of a monolith. It reveals the genealogy of the Kakatiya kings.

Another important architectural form of the Kakatiya dynasty is found in the temples of Palampet, a small village in the Venkatapur Mandal, 64 kms. from Warangal. On the shores of Ramappa Lake

are the remains of temples, described as the brightest stars in the galaxy of medieval temples of the Deccan. The pillars and ceilings are full of ornamentation and scenes from the Ramayana and the Mahabharata are sculptured everywhere. Long panels of figures of Gods, Goddesses, warriors, acrobats, musicians and dancing girls in different poses decorate the outer walls while female figures in extremely graceful postures almost lifelike and made of highly polished black basalt stone are arranged in pairs in the form of brackets. They represent the Yakshis, female spirits, in technical dance poses serving as guards of the doors.

Telugu literature flourished under the patronage of the Kakatiya Kings. Somana, Thikkana and Marana were poets of great merit and the greatest among them was Thikkana who rendered Mahabharata from Sanskrit to Telugu.

### **Irrigation Works:**

Of the best irrigation works of the area, which stood the test of time, are the Pakhal, Ramappa and Laknavaram lakes. Pakhal lake is situated about 51 kms. east of Warangal town. It was constructed about 700 years ago, Pakhal is a large artificial sheet of water formed by a 2000 yards dam across the Pakhal river at a place where it cuts its way through two low hills. The water covers an area of 33 sq.kms. when the lake is full, with an average depth of 30 to 40 feet. It has a catchment area of 265 sq.kms. and is capable of irrigating 17,000 acres though the settled ayacut is roughly 9,000 acres, the rest being reserved as Shikargah. The Ramappa Lake not far from Mulug and at a distance of 70 kms. to the north-east of Warangal, is another most magnificent example of the old irrigation works constructed by the Kings of Kakatiya dynasty. A reference to this tank is made in an inscription at Palampet according to which this lake was constructed in 1213 A.D., when the Kakatiya King, Ganapatideva was ruling. It has a catchment area of about 212 sq.kms. and four main distributory channels. It is capable of irrigating about 3642 hectares. The Laknavaram lake is 21 kms. from Mulug and is regarded as a sister to Ramappa tank. The lake is formed by shutting up three narrow villages with short bunds. It has a catchment area of 194 sq. kms. and three main distributaries, irrigating about 5,260 hectares.

### **Commerce:**

To maintain a well-balanced economic prosperity throughout the country, the Kakatiya Rulers had friendly trade relations with foreign countries. The records of the Kakatiyas speak of merchants of the home country, merchants of another country and merchants from different countries. The first were the local merchants organised in local guilds. The second were like the first except that they came from another country; the last were the powerful guilds including merchants from all countries playing a prominent part in the foreign trade of the country as a whole. They specially traded in elephants, sapphires, moonstones, pearls, rubies, diamonds, topaz and other precious articles, cardamoms, cloves, sandal, musk, saffron and other spices and perfumes. They either sold them wholesale or hawked them about. The Motupalle inscription of King Ganapati gives some idea of the conditions of maritime trade. Trade, both inland and foreign was well organised and briskly carried on throughout the period. The great port cities like Masulipatnam were the emporia of foreign trade. The extensive bazaar of that great city (Warangal) was full of tall mansions of many apartments each with doorways, wide verandahs and corridors. The merchants lived with their families on the upper storey while the lower ones were set apart for conducting business. The impressions gathered by Marco Polo, a medieval traveller, throws more light on the industries when he remarks - "in this Kingdom also are made the best and most delicate buckrams and those of the highest price; in short they look like tissue of spider's web. There is no king nor queen in the world but might be glad to wear them. The people also have the largest sheep in the world and great abundance of all the necessities of life". In most of the common industries the rule was production for the local market; but the movements of the individual merchants from one part of the country to another and the highly developed organisation of mercantile corporations in different parts of it, provide adequate evidence of a brisk internal trade in certain sorts of goods. Spinning and weaving formed a major industry, which occupied considerable numbers and guilds of weavers were generally in a flourishing condition and took an active part in many local concerns. The export of the finer varieties of cloth from various parts of the country is proved by records. Warangal itself specialised in the manufacture of carpets which were

much sought after. Important trade centres were connected by roads for the movement of goods.

### **Administration:**

When Prataparudra Deva II succeeded his grandmother in 1295, certain administrative reforms were introduced throughout the country. He divided the whole kingdom into 77 Nayakships, confining recruitment there to the Padmanayaka sect of Velama community and thoroughly overhauling the staff of Nayakas. Some of the great Nayakas, like Kapaya Nayaka who later played a great part in resisting the Muslim invasions were the products of this system, which incidentally, was later adopted and elaborated by the rulers of the Vijayanagar.

### **Society and Culture:**

There is no authentic record giving a reliable estimate of the population during this long period. In the seaports, and in the capital of the kingdom there were undoubtedly considerable numbers of foreigners including Arabs, Chinese and Persians. The bulk of the population was constituted of Hindus organised in castes. The role of women in high society was varied, important and generally speaking, pleasant. Princesses of the Royal family received good education in literature and the fine arts; some were quite equal on occasion, to the tasks of administration and war. The Kakatiya princess Rudrama Devi carried on the administration of the kingdom and took part in wars personally and actively. In civil life the Brahmins occupied a highly respected position. With the exception of the few who entered the State service in the army and elsewhere, they generally devoted themselves to religious and literary pursuits and stood outside the race for wealth and power. Hundreds of inscriptions in and around Warangal proclaim the continued solicitude of kings, nobles and merchants for the maintenance and encouragement of a class of men who devoted themselves exclusively to intellectual pursuits.

### **Growth of Warangal City:**

The city of Warangal, although comparatively more ancient than some other cities of India, has however been so much influenced by political and historical factors in its growth, right from its inception, that the study of its growth and development in its

true historical perspective will be more helpful in explaining the other factors that might have been functionally associated with its growth. It seems therefore logical to study the growth of this city through its various historical stages. The historical periods chosen are not just convenient dates but representative landmarks in the history of its development. Either they indicate a significant historical event which had a marked influence on the form and function of the city or the inauguration of a new economic force into the fabric of city life.

### **These period are:**

Kakatiya period	1260-1422
Transition period	1422-1725
Asif Jahi period	1725-1948
Modern period	1948 onwards.

### **The Kakatiya period - 1260-1422:**

The kingdom of Kakatiya, of which Warangal was the capital, was ruled by the Kakatiya dynasty from 1150 to 1422. In 1422 the Kingdom was annexed into the Bahmani and then fell to the Qutub Shahis of Golconda. Since then this independent kingdom became a peripheral province of vast Qutub Shahi Empire. It thus lost its individuality and the forces that had contributed to make Warangal a great kingdom ceased to exist. In the absence of contemporary accounts it is difficult to estimate in which direction the growth of city took place. However, it must be pointed out that the direction of the growth of the city was well anticipated by Rudra Deva I and he had made it all the more possible by constructing a thousand pillared temple about 6 Kms. west of Warangal. The recent excavations of the Archaeological Department in and around the Warangal fort throw a good deal of light on the origin of the city and its early period of growth. These reports of excavations contain a detailed chronological account of the various temples and buildings and serve a useful purpose to form a better picture of the city as it had then existed. The temples remind us that devotion to God was the first concern of the King and his subjects. The remarks of Malik Fakruddin Juna, a Commander of Sultan Alauddin's army while marching towards Warangal fort throw much light on the built up area of the city when he says "when this

force reached the Gardens of Arangal, the iron of their horseshoes turned green from walking over the grass. Two famous officers and forty horsemen went forward and reached the summit of the Anamkonda Hill from where they could see all the suburbs and gardens of Arangal". The same Commander further speaks of "a fort, the like of which is not to be found on the face of earth. Its wall though of mud, was so hard that a spear of steel could make no impression upon it, if a maghrabi-stone were to strike it, it would rebound like a nut thrown by a child ". In the absence of contemporary accounts it may, however, be said that in this period the settlement and built up area might have been within the fortress of Warangal. A few hamlets namely, Hanamkonda, Mathwada and Girmajipet were existing as religious centres and most of the open area was confined for the cultivation of various products. Thus, three hamlets were situated along the main roads leading to Golconda fortress. Even today we find some old temples in these hamlets in a dilapidated condition testifying to their past glories.

#### **Transition period - 1422-1725 :**

This period may rightly be termed as transitional in the history of the growth of this city. It was divested of the status of a capital city. Its economy was disturbed. Its political ownership was unsettled. Things however, calmed down towards the end of 1725 when the control of the city of Warangal passed into the hands of Nizam-ul-mulk Asif Jah, the founder of the Asif Jahi dynasty. This long transitional period also recorded two significant events in the history of the city. Permanently the city lost its capital status and became the third city of the region the first two being Hyderabad and Aurangabad (now in Maharashtra State). It had become a part of the province of the Deccan of the Asif Jahi Kingdom. It was during this period that more people began to settle down outside the fortress of Warangal. Corroborating this, Bilgrami and Wilmot write " a group of men called Shaiks who were wellknown carpet merchants settled down permanently a mile(about 11/2 Kms.) from the fortress of Warangal". This area now called Denshahipet is noted for carpet industry. However, the population on the north along the fortress wall towards the south and west was expanding and new northern, southern and western suburbs like Ramannapet, Rangashahipet also known as Rangasayipet and Lakshmipura at

Hanamkonda had come into existence. Lakshmipura and Hanamkonda had virtually become the greatest religious centres of the city. A unique feature of the development of the city right from its inception is the ribbon like development along the road to Hyderabad. The axis of growth, however, was oriented towards the west.

#### **The Asaf-Jahi period - 1422-1948 :**

This period in the growth of Warangal city was characterised by three distinct phases (a) construction of Subedari buildings, (b) construction of Railway Stations, (c) appearance of a cotton mill. The three factors combined to change the axis of growth of Warangal and added new dimensions to its landscape. The plan for constructing Government buildings for offices and residential quarters for officers was mooted in 1923 but it was completed in 1926 when Warangal, was declared as the headquarters of the Subah by Salar Jung, the then Prime Minister of Hyderabad under the administrative reforms of Hyderabad State. Prior to this there were no buildings. The construction of these buildings was not so important as the consequence since in the wake of its construction there came into existence around the buildings a cluster of shops and dwelling houses. This nucleus settlement now forms a part of the locality called Subedari and Lakshmipura at Hanamkonda. Another factor that contributed to the growth of the city was the construction of railway stations connecting the railway lines between Hyderabad-Delhi and Hyderabad-Madras in the nineteenth century. Two railway stations were constructed within a distance of 13 kms. at Warangal and Kazipet respectively. This factor gravitated population on a large scale and soon the built up area from Kumarpalle and Lashker Singaram bended its way towards the railway station and within the course of twenty years a densely populated locality at Kazipet came into existence. The Azam Jahi Mills north of Mathwada, the rice mills in the south and the oil mills north-west of the fort were the chief organised industrial units of Warangal and were all established between 1931 and 1948. The establishment of a textile mill and its workshops in the north of Mathwada gave great impetus to the growth of that small hamlet. In fact it formed the nucleus around which the built-up area developed extensively. The rice mills and oil mills

attracted a large growth along the main road from the fortress to the Railway gate. Besides this, other industries like tanning etc., also developed not only in the built up area but also in the surrounding villages namely, Vedeyapalle, Mamla and Rangshahipet. Thus it is found that the city of Warangal is not a product of an evolutionary process of urbanisation but the result of piecemeal development. It was during the period of Rai Murlidhar Bahadur (1340 F) the then subehdar of the Warangal that the limits of the city were determined by a complete survey of the city. These limits of course draw the boundary of the city and roughly determine also the extension of the built up area.

#### **The modern period- 1948 onwards:**

At this stage, development of the city was in the main haphazard, unco-ordinated and unplanned. As a result, several glaring defects and deficiencies have developed. To copeup with the situation and remedy the defects, the municipality took keen interest in preparing the Master Plan with the collaboration of the Town planning Department in 1949. The Plan has both a negative and a positive aspect. By controlling and fixing the land uses, the municipality seeks to prevent haphazard and confused growth. By reservation of lands for various public uses such as recreation grounds, schools, hospitals etc., it seeks to ensure that adequate land for these purposes is kept available for future utility on implementation of the plan, the Regional Engineering College Building, Kakatiya Medical College Building and a few other structures have been constructed. To copeup with the situation, the Municipality had took a remedial measure by preparing the master plan in collaboration with the department of Town Planning in the year 1949.

#### **Administrative set up**

##### **(a) Region of the state where the district is located:**

Warangal district is a part of the Northern portion of the Telangana region of Andhra Pradesh. It is bounded on the north by Karimnagar district and also a small portion of newly formed state of Chhatisgarh from Madhya Pradesh state, on the west by Medak district, on the south by Nalgonda and on the east and south east by Khammam district.

##### **(b) Total number of Revenue Divisions and Mandals:**

In 1985, the then existing 15 taluks were reorganized into 50 mandals. Corresponding to the revenue mandals, mandal parishads were also formed which are co-terminus with the revenue mandals in all aspects except the Statutory Towns which are not included in the jurisdiction of the Mandal Parishads.

Of the total 50 mandals, 16 mandals have been formed by taking villages from two erstwhile taluks. Two mandals have been carved out by taking villages from three erstwhile taluks and two mandals have been formed by including villages from four erstwhile taluks. The remaining 30 mandals have been formed by taking villages exclusively from each of the erstwhile 11 taluks (i.e without including villages from a second taluk).

In the interest of better administration and quick development of the areas concerned, the district had undergone some changes during 2001 census i.e. one new mandal i.e. Warangal has been formed by carving out 8 villages from Hanumakonda mandal as per State Government orders vide G.O. Ms. No.657 dated 4.8.97. Similarly a new Revenue Division by name Jangaon has been formed by carving out 10 mandals from Warangal Revenue Division as per State Government orders vide G.O.Ms.No.570 dated 12.7.1996. There is no Rural portion in Warangal mandal because all the 8 villages in the mandal are fully included in Warangal Municipal Corporation. The distribution of 51 mandals among 4 Revenue Divisions in the district are as follows.

#### **Revenue Division-wise mandals**

Sl. No.	Name of the Revenue Division	Name of the Mandal
1.	<b>Warangal</b>	1. Warangal (fully Urban)
		2. Hanamkonda
		3. Ghanpur (stn)
		4. Dharmasagar
		5. Hasanparthy
		6. Wardhannapet
		7. Zaffergadh
		8. Raiparthy
		9. Parvathagiri

*Source: District Census Handbook, 1961 - Warangal District.*

Sl. No	Name of the Revenue Division	Name of the Mandal
<b>1 Warangal (Concl..)</b>		10. Sangam 11. Geesugonda 12. Atmakur 13. Duggondi
<b>2. Mahabubabad</b>		1. Mahabubabad 2. Thorur 3. Nellikudur 4. Narasimhulapet 5. Maripeda 6. Dornakal 7. Kuravi 8. Kesamudram 9. Nekkonda 10. Gudur 11. Kothagudem 12. Khanapur 13. Narsampet 14. Chennaraopet 15. Nallabelly
<b>3. Mulug</b>		1. Parkal 2. Mulug 3. Shayampet 4. Regonda 5. Mogullapalle 6. Chityal 7. Bhupalpalle 8. Ghanpur (Mulug) 9. Venkatapur 10. Govindaraopet 11. Tadvai 12. Eturnagaram 13. Mangapet.
<b>4. Jangaon</b>		1. Cherial 2. Maddur 3. Bachannapet 4. Narmetta 5. Jangaon 6. Raghunathpalle 7. Devarupputla 8. Kodakandla 9. Lingalaghanpur 10. Palakurthi

**(c) Total number of villages and towns:**

At the 1991 census there were 1,071 Villages, of which 86 Villages were uninhabited. Similarly there were 5 towns including 3 census towns. Out of the 1,071 villages, 18 villages were fully included in urban areas and six partly included in urban portion. Thus 985 Villages were existed during 1991. During 2001 census three towns namely Dornakal, Mahabubabad and Kadipikonda were declassified and added to the list of revenue villages due to strict application of the criteria for treating a place as urban. The villages stambampalle of Geesugonda mandal and Enumamula of Hanumakonda mandal are treated as out growths and one village Kadipikonda which was a town in 1991 Census is declassified and retained as out growth to Municipal Corporation of Warangal in 2001 census. Presently this district has two statutory towns and 51 mandals with 1071 villages. Among these villages 87 are uninhabited.

A comparative statement showing number of villages, towns, uninhabited villages, fully/partly included villages during 1991 and 2001 censuses is given below.

Sl.No.	Description	Census	
		1991	2001
1	2	3	4
1	Total no. of villages	1,071	1,071
2	Total no. of towns	5	2
3	Total no. of inhabited villages	985	984
4	Total no. of uninhabited villages	86	87
5	Total no. of fully included villages	18	18
6	Total no. of partly included villages	6	7

### (iii) Physical Features of the District

#### Location and Size:

The Warangal district is a part of the northern portion of the Telangana districts of Andhra Pradesh. It lies between 17° 19' and 18° 13' Northern latitude and 78° 49' and 80° 43' eastern longitudes and is above mean sea level by 1700 fts. The Geographical area of the district is 12,846 Sq. Kms. It is bounded on the north by Karimnagar district and also a small portion of newly formed state of Chhetisgarh from Madhya Pradesh. On the West by Medak district, on the south by Nalgonda district and on the east and south-east by Khammam district. The district is known with its Headquarters Warangal, which was named after Mohammad Shah Bahmani I who was ruler during the reign of the late Nizam. The ancient Town of Warangal is situated on the South Central Railway about 141 Kms. North of Hyderabad city. It lie on the watershed, separating the basins of the Godavari and the Krishna in the lower part of their course. During 2001 Census the district has recorded a population of 32,46,004 persons of which 26,22,792 persons are in rural and 6,23,212 persons in urban areas. The percentage of rural population in the district is 80.80% while that of urban population is 19.20%. The Scheduled Castes population in the district forms 17.0% of the total population, while S.Ts account for 14.10%. Out of 210 towns in the state, two towns are located in the district. The density of population is 253 per Sq.kms. Among 23 districts in the state, Warangal district ranked 11<sup>th</sup> in terms of area and 14<sup>th</sup> in terms of population. The literacy rate of the district is 57.1 excluding the population in the age group 0-6 years and the male - female literacy rate in the district works out to 68.9% and 45.1% respectively.

#### Physiography:

The entire district of Warangal is full of mountain ranges. It is 265.4 metres above the sea level. There are three large mountain ranges in the district. The range in the South-east spread over from Parkal in

the district to Aswaraopet in Khammam district. Another range extended upto Bhimnur in Adilabad district. Besides the above ranges the "Chandragiri hills" range called "Loha" in Hasanparthi mandal is also worth mentionable in the district.

#### Irrigation Works:

The irrigation works in the district are the lakes of Pakhal, Laknavaram, Ramappa and Ghanpur. These lakes form an ayacut of 11,219 hectares. The Pakhal lake is situated in the revenue village of Pakhal ashoknagar in Khanapur mandal and is 11.27 kms. to the east of Narsampet mandal and 45 kms to Warangal. Pakhal is an artificial sheet of water and is formed by a 1818 metres dam across the Pakhal river. When the lake is full, the water covers an area of 33.67 Sq.kms. with average depth of 30 to 40 feet. It has a catchment area of 268.80 Sq.kms. and has the capacity of irrigation roughly 6879.64 hectares. It gives vent to five irrigation channels known as Sangam, Jalabandham, Thungabandham, Pasnoor and Mott veeraram channels.

The Laknavaram lake is in the limits of Laknavaram village in Govindaraopet mandal. The surplus water of this lake ultimately joins with the Godavari. This lake was formed by closing three narrow villages each with a short bund and an area of its catchment area extends about 195 Sq.kms. and irrigating an area of about 5,270 hectares. The Ramappa lake is situated in the north east of Warangal at Palampet village in Venkatapur mandal. It was formed by laying bunds across the Medivagu and Rallavagu. Its catchment area is 183.39 Sq.kms. and it has four main distributories known as the Voger channel, Veerla channel, Bhurugu and Somi channels. The lake has an ayacut of 1863 hectares. The Ghanpur lake which is in Ghanpur Mulug mandal, is situated in Ghanpur village. It has a catchment area of 100.36 Sq.kms. The lake serves an ayacut of nearly 1620 hectares.

River Godavari flows 36 kms to the North eastern

border of the district. There are five(5) reservoirs in the district of which Pakhal lake is under the control of Forest Department. The water spread area of reservoirs is as follows.

Sl.No.	Name of the Reservoir	Water spread area(in acres)
1.	Ramappa Lake	5,225
2.	Laknavaram Lake	9,000
3.	Ghanpur Reservoir	2,665
4.	Salivagu Project	1,930
5.	Pakhal Lake	1,930
6.	Malluruvagu Project	8,126

**Source:** 1. Handbook of statistics, Warangal 1997-1998  
2. Statistical Abstract of A.P 2000

Apart from the above, there are about 4000 tanks in Warangal district with total spread area of 83,857.70 hectares.

### Climate:

There are no remarkable fluctuations in the temperature as the district generally tends to be dry. It gets quite warm during the summer months of April, May and June and also continues to be warm in the rest of the year except during December and January when the temperature drops slightly. The maximum and minimum temperature have been recorded as 42.9<sup>o</sup> and 16.2<sup>o</sup> centigrade respectively. The month - wise maximum and minimum temperatures(1999) at Hanamkonda is shown in the following table.

**Table(a)**

**Maximum and Minimum Temperature month-wise for the year 1999-2000**

Temperature in °C	Jan	Feb	March	April	May	June	July	August	Sept.	Oct	Nov	Dec
Maximum	29.4	33.1	36.2	40.6	39.4	34.6	32.3	31.2	31.2	31.9	31.0	29.0
Minimum	15.0	19.9	22.2	25.3	26.2	25.6	24.4	23.9	23.2	23.3	19.1	14.5

As already stated, the hot weather period in the district is between March to May, followed by Southwest monsoon period between June to September, Northeast monsoon period between October to December and winter period during January to February. Most of the rainfall received

during the season is 720mm. in the year 1999-2000 as against 838 mm. rain fall received for the whole year. During 1998-1999, the district annual rainfall was 1,182mm, while normal annual rainfall is 1,049mm. The season - wise rainfall for 1999-2000 is as follows.

**Table(b)**

**Season-wise Rainfall for the year 1999-2000**

South-west monsoon	North-east monsoon	Winter period	Hot period	Total Normal Rainfall
June-Sep.	Oct-Dec.	Jan-Feb.	March-May	June-May
720mm.	43mm.	17mm.	58mm.	838mm.

### Forest:

The total forest area in Warangal district is 3,71,313 hectares forming 28.90% of the total geographical area of the district. The entire forest area is divided into two divisions viz. Warangal North and Warangal South. The large scale planting of valuable species has been taken up in the district to improve the composition of the forest up to 1998-1999. The following plantations have been raised to the extent noted below against each species in the district.

**Table(c)**

**Details of the plantation (in Hectares)**

Sl.No.	Name of the Species	Area raised up to 1999 (in Hectares)
1	Teak	16,039
2	Minor forest produce plantation	443
3	Bamboo	22,622
4	Eucalyptus	1,184
5	Cashewnuts	2
6	Others	3,075

**Table(d)**

Of the items mentioned, only bamboo coupes are being worked departmentally for supply of bamboo to the borrowed societies. Those coupes are being allotted to M/S Sirpur Paper Mills Limited also for extraction of pulp in the production of paper.

Since 1995 the entire collection of Beedi leaves in all the units is being taken up departmentally. The

income from the collection of Beedi leaves forms the major part of income for rural people. An amount of Rs. 3.83 crores was spent in the district during 1995 towards collection of beedi leaves. To gear up protection of forest, six mobile parties with fast moving vehicles and wireless equipment have been constituted in the district

2. A.P State Statistical Abstract 1999-2000

### Flora and Fauna:

The forests in the district come under the category of Tropical dry deciduous and Tropical Thorny forest types. The total forest area in Warangal district is 3,71,313.00 hectares forming 28.90% of the total Geographical area of the district. The entire forest area is divided into two divisions Viz. North Warangal and South Warangal Divisions. The Cane type of forest is formed in plampet block of Warangal North Division. Teaks predominant in deep loamy and alluvial soils. Where as mixed teak type is found on loamy and alluvial soil with more percentage of sand or clay. The mixed type of forests are found on erode sandy soils, sandy loam, loamy

clay and clay soils. The height of the trees varies from 15 feet to 80 feet. The important and valuable species commonly found are teak, bijasal, nallamaddi, boja, channangi, tiruwam, Shisham, Satin, Bandar bamboo, anduk and abnus varieties.

Wild life of all categories used to appear in the district. The picture of wild life has been changed considerably. In the extensive forest, large game is abundant, such as Tigers, Leopards, Cheetas, Bears, Wolves, Hyenas, Wild-dogs, Spotted deer, Bison and antelope. The Pakhal forest is declared as reserve forest. The wild birds like Duck, Simple blue and green pigeons, Partridges and Quails are also seen.

Besides this, the Green Pigeons, Peacocks, Pea

fonts, Water ducks, Snipes, Red jungle fowls, King fishers, Bulbuls, Doves, Crows, Mynas, Parakeets, Wood peckers and common pigeons etc. are seen in this district. In addition to these Mongoose, Rabbits, Porcupines, Bandicoots, Foxes and Jackals are also found. All these are formed fauna of the district.

### Mining and Minerals :

Warangal district is not rich in mineral resources. Minerals like iron ore, steatite coal and building stones are commonly found. Granites are useful for polishing and decorative purposes. Unpolished granite blocks are being exported to other countries from Warangal District.

a. Major Minerals: Coal, Laterite and Dolomite are occurring in the Warangal district. The annual production of coal is about 116,023 in tonnes, laterite is about 102,250 in tonnes and then Dolomite is 100 tonnes in the year 1994-1995. The coal from this area is very useful for many industries in India for power generation to thermal power.

b. Minor Minerals: Black granite, Stone metal and Colour granite and also sand are occurring in Warangal district. The annual production of minor minerals such as Black granite is about 1066.492 M3, Colour granite is about 5455.744 M3, stone and metal is about 21118M3 and sand is about 19816.0 M3.

### Soil:

The soil of the district comprises sandy loam with patches of shallow black cotton soils. Medium and deep black cotton soils are also seen at places. The steep slopes and marginal lands boarding hillocks face acute erosion in time of heavy rains. The lands along side of the Godavari are silted heavily when the Godavari overflows its banks. The soils in general are found deficient in nitrogen and phosphoric acid.

### Agriculture:

Warangal is predominantly an agricultural district in Telangana region. The soils generally are found deficient in nitrogen and phosphoric acid. The principal cereal crops in the district are Paddy, Jowar, Bajra, Wheat and Maize. The important irrigation sources are Ramappa, Pakhal and Laknavaram lake and the Salivagu project and Malluruvagu project under which considerable area is irrigated. The net area sown in the district is 4.42 lakhs hectares forming 34.53% of

the total geographical area. The pattern of land utilization in the district for the year 1999-2000 is as follows.

**Table(f)**

#### Land utilization for the year 1999-2000

Sl.No.	Type of land utilisation	Land utilization Area (in Hectares)
1.	Forest	3,71,313
2	Barron and uncultivable land	53,260
3	Land put to non-agricultural use	59,058
4	Cultivable waste	33,919
5	Permanent pastures and other grazing land	50,401
6	Miscellaneous land	3,876
7	Current fallows	88,304
8	Other fallow lands	1,25,027

**Irrigation:**

The irrigation works of the district are lakes of Pakhal, Laknavaram, Ramappa and Ghanpur serving and there also two medium irrigation projects functioning i.e. Salivagu project and Malluruvagu project in the district. Besides these 4,000 tanks and 56,266 lakh wells are in the district. Gross area of 3,45,468 hectares was sown in the district of 1999-2000. Of which 2,87,163 hectares were irrigated. 58,305 hectares were irrigated more than once. Area irrigated by source are given below.

**Table (j)**

**Area irrigated by different sources for the year 1999-2000**

Sl.No.	Irrigation by Source	Area in Hectares
1	Canals	2,633
2	Tanks	69,334
3	Tube Wells	17,803
4	Other Wells	1,93,100
5	Other Sources	4,293
6	Net area irrigated	2,87,163
7	Area irrigated more than once	58,305
8	Gross area irrigated	3,45,468

Different crops which are irrigated during the year 1999-2000 shown that by Paddy was raised in 175,471 hectares followed by Maize in 15,915 hectares. The following tables give the information on area of crops irrigated during 1999-2000.

**Table (k)**

**Principal crops and irrigated area as on 1999-2000**

Sl. No.	Name of the Crop	Area in Hectares

15	Tobacco	729
16	Other oil seeds	5,468

**Animal husbandary:**

About 74.5% of the population in Warangal district mainly depended on Agriculture. They mostly stay in Rural areas. Hence, the livestock plays an important role in rural economy of the district. There are 5 Milk Chilling plants or centres functioning presently 3 at Warangal and each one in Mulug and Thorrur mandals, which together procure an average 436,000 liters of milk per month. As per 1999 livestock census the district has a livestock population of 20.5 lakhs and poultry population of 24 lakhs. The poultry population is mostly concentrated in Rampur village of Dharmasagar mandal and Geesugonda mandal due to their proximity to the Warangal and also the following livestock are register in Warangal district.

**Table (l)****Livestock and poultry population during year 1999-2000**

Sl No.	Name of the live-stock	Population
1	White cattle	6,91,275
2	Black cattle/Bufaloes	4,74,641

**Fisheries:**

Warangal district with a population of (28.13) lakhs out of which fishermen population is about 3.50 lakhs constituting 15% of the total population of the district and active fishermen are 0.75 lakhs. So far about 30% fishermen

covered under (430) Fishermen Co-Operative Societies. The membership of the societies is (33,639). There are 4,725 Tanks and 4 Reservoirs in the district. Out of 4,725 Tanks 4000 are under the control of Grampanchayat, 725 Tanks and 4 Reservoirs are under the control of the Fisheries department for leasing of fishery health. The river Godavari flows at a distance of 36 kms. on North Eastern boarder of the Eturnagaram and Mangapet mandals in the district.

**Table(p)**

### 1. Fish seed production:

There are 2 Fish seed farms in the district, one is located at Bheemavaram and the other is at Hanamkonda. The targets and achievements year wise from 1994-2000 are given in table (q).

### 2. Issue of Licenses:

River Godavari flows at the North East border of the district in the length of 36 kms. On the basis of river Godavari, Licenses have been issued to the 47 fishermen and an amount Rs. 3,112/- is also collected from them at Eturnagaram centre.

### 3. Lease of Tanks:

In Warangal district, there are 725 Tanks under the control of fisheries department. Every year the department is leasing out the water sources to Fishermen Co-Operative Societies by fixing the rentals. The details of tanks and lease amount collected year-wise from 1994 to 2000 are shown in table (r).

**Table(q)**

**Inland Fisheries Training Centre:**

One Inland Fisheries Training Centre at Warangal is functioning in the district since 1970, imparting training in fish culture and capture methods to the

Source: Assistant Director of Fisheries, Warangal district Feb,2001

fishermen private pisciculturists, Scheduled Castes, Scheduled Tribes and other trainees being sponsored by different agencies in Telangana districts. The training period is for 3 months. Each batch consists of 50 trainees, out of which 20 candidates will be paid stipend of Rs. 200/- per month and other 30 are non stipendiary. So far, 2057 candidates have been trained.

**Extra payment:**

During the year 98-99, six cases cleared by the insurance company and an amount of Rs. 2,10,000/- was distributed to the bareaved families of the fishermen as an exgratia.

**Industries:**

Warangal district is industrially advanced in terms of both Technical and Traditional production. There are 15 large and medium scale industries existing in the district providing employment to 2,902 persons. The particulars of units and products manufactured are furnished below.

**Table (s)****Large and medium scale industries**

In addition to the above statements there are about 3,366 small scale industries providing employment to 30,000 persons (approx.) with an investment of Rs. 31.00 Crores have come up in the district. Presently under the Gramodaya program has provided financial assistance to educate unemployed youth particularly with economic income group of Rs. 10,000/ per annum and below for service activity and small business ventures.

### Trade and commerce:

Warangal district is having 12 Agricultural Markets with a site area of 347-181/2 acres and 46 godowns with a storage space of 22950 M.T.s. The total Market arrivals during 2001-2002 are 65,083 Metric Tons of a value of Rs.64,298 lakhs. The important commodities for trade are Paddy, Maize, Redgram, Greengram, Blackgram, Groundnut, Sesamum, Castor, Subabul, Turmeric, Cotton, Chillies and vegetables.

**Table (u)**

**The details of Major Market arrivals together with their value during 1999-2000**

Sl. No	Commodity	Quantity in lakh Qtls.	Value in Rs. In lakhs
1	Paddy	38.47	21,501.38
2	Maize	2.47	1,107.07
3	Redgram	0.32	409.68
4	Greengram	0.15	238.71
5	Blackgram	0.07	111.35
6	Groundnut	1.01	1,822.64
7	Sesamum	0.18	271.68
8	Castor	0.16	55.69
9	Subabul	0.05	7.48
10	Turmeric	2.14	3,201.79
11	Cotton	15.85	28,270.95
12	Chillies	2.99	6,373.62
13	Vegetables	0.63	751.06
14	Rice	0.23	113.29
15	Other miscellaneous commodities	0.46	61.78
<b>Grand Total</b>		<b>65.08</b>	<b>64,298.17</b>

The only major industry in the district viz., Azam Jahi Mills, Warangal which was established nearly 50 years ago and had provided employment to nearly 11,000 persons have become sick unit and is almost on the verge of its closure throwing the skeleton staff of 450.

There are 12 Cotton Pressing Mills and 40 Cotton Ginning Mills providing employment to 4200 persons and 286 Trading Rice Mills and 80 Non-trading Rice Mills functioning in the district providing employment to 7320 persons.

There are 3 Spices Mills and 25 Oil Mills and 18 Groundnut seed decorticating Mills functioning in the district and providing employment to nearly 525 persons. Besides this there are 9 Cold storages with the storage capacity of 6.30 lakh bags providing employment to 326 persons and 5 Dal Mills and 1 Solvent Oil Mill, providing employment to 50 and 55 persons respectively, functioning in the district.

Warangal Chambers of Commerce and Industry, Warangal which have come into existence in the year 1948 and is at present having a total membership of 930 and is playing a pivotal role in safeguarding the interests of the businessmen and cultivators. Since then besides exploring all the possibilities for providing civic, medical and health, educational and transport facilities in the district for the welfare of the public also in general, besides lending its active support to the district administration in public welfare activities.

### Transport:

The railway line from Hyderabad to Chennai and Kolkata to New Delhi passes through the Eastern part of the Warangal District in a length of 153 .84 kms. in Broad Gauge covering 20 railway stations in 14 Mandals i.e. (1) Ghanpur (Station) (2) Hanamkonda (3) Raghunathpalle (4) Jangaon (5) Sangam (6) Dharmasagar (7) Warangal (8) Hasanparthi (9) Nekkonda (10) Kesamudram (11) Mahabubabad (12) Kuravi (13) Dornakal (14) Geesugonda. Several passenger trains and number of fast moving prestigious trains passes through this railway line. Ballarsha and Sirpur Kagaz Nagar railway stations to Mangoor railway station and Hyderabad railway station to Mangoor railway station passenger trains are running and also a goods train from Hyderabad to Kolkata and Chennai and also Jabalpur to Bilaspur Goods trains passes through these railway lines.

As regard to road transport in the district presently 7 Bus depots are functioning with 782 buses. The Hqs. of 7 depots are 1. Hanamkonda-I 2. Hanamkonda-II 3. Narsampet 4. Jangaon 5. Parkal 6. Mahabubabad and 7. Warangal. 154 buses of the

A.P.S.R.T.C. passes through this district. Besides this, about 2,181 kms., road under supervision of P.W.D(R&B) and 5,945 kms. road under Panchayat Raj. The number of different Motor Vehicles that are plying in the district are shown hereunder.

**Table(v)**  
**Number of motor vehicles of different classes and categories during the year 1999-2000**

Sl.No.	Name and Category of Vehicle	On roll	On road
1	Stage Carriage I APSRTC II Private	79,219	78,615
2	Goods vehicles Heavy+Medium+ Three wheelers	2,964	2,964

### Electricity and power:

The Electricity authorities of the state have informed vide their letter No. CE/plg/EME(1)/ADE(1)/DNO:188/99, dated 6.11.99. That all the revenue villages in Andhra Pradesh have been Electrified and it is all for "all purposes". Hence, all the revenue villages in the state are treated as electrified for all purposes. The total power consumption including LT

and HT in Warangal district was 1678.63 MGWT during the year 1998-1999.

As per the data available in Village Directory schedules, all the villages in the district are Electrified. The Electricity is being supplied by the APTRANSCO and Co-operative electricity supply societies in the district. The growth of Transmission and distribution as on 1995 and the usage of power under different sectors are indicated in the following tables.

**Table(w)**  
**Growth of transmission and distribution**

Sl.No.	Voltage line	Units	1995 Distribution line
1	220KV	Km.	89,386
2	132KV	Km.	4,88,292
3	33KV	Km.	12,08,850
4	11KV	Km.	93,08,650
5	L.T	Km.	28,09,340

**Table(x)**

#### **(iv) Major Social and Cultural events, natural and administrative developments and significant activities during the decade**

During the decade 1991-2001 no significant social and cultural events have occurred in the district. In respect of natural and administrative developments also no major changes have taken place in the district during the decade except formation of a new Revenue Division by name Jangaon carving out from Warangal Revenue Division and a new mandal by name Warangal bifurcating Hanamkonda mandal. Three panchayat towns of 1991 census namely Dornakal, Kadipikonda and Mahabubabad were declassified at 2001 census as rural areas due to strict application of criteria for treating a place as town. During the decade the civic status of Warangal town has been upgraded from Municipality to Municipal Corporation level.

As regards significant activities, the prevention of Child Labour, Social Security schemes, Janmabhoomi, Cheyutha and Spandana programmes are worth mentionable in the district during the decade.

In the year 1996 under the chairmanship of the district Collector the 'Bala Karmika Vikasa Samithi' has constituted. The main aims and objectives of the samithi are conducting surveys on vulnerable child labourers in hazardous occupations, creating awareness among the public about the steps taken by the Government to eliminate child labour, implementing programmes like creating public awareness, running special schools, imparting non-formal education and generating income and employment opportunities, etc.

The Social Security Schemes such as payment of pensions to the aged, widows, landless agricultural workers and physically handicapped persons are

implemented in the district.

During the decade, as in the other districts, a novel scheme called "Janmabhoomi" has been launched on the new years day 1997 by the Government of Andhra Pradesh. This adds new dimension particularly in rural development in the sense that people are involved in decision making and development process. The main activities taken up under this programme are aimed at achieving the basic needs of the people belonging to both rural and urban through "Sramadhanam" with the people's participation.

As in the other districts, in this district also, with the inspiration of Janmabhoomi programme, 'Spandana' another novel scheme totally envisaged by the district administration for the overall development of villages has been taken up with the aims of

1. Education for all
2. Family planning programmes
3. Usage of Bio-gas plants / Smokeless chullas to prevent air pollution
4. Clean village concept

Yet another novel programme envisaged by the district administration for benefitting the physically handicapped in the district is called 'Cheyutha'. All the Government officials connected with the physically handicapped will sit under one roof and do the needful then and there. The benefits such as issue of physically handicapped certificate by the Medical Board, RTC passes, Railway passes, Registration in Employment Exchanges, etc., were extended besides giving aids and appliances to the identified handicapped persons.

## v) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district

**Places of religious, historical or archaeological importance:** Places of religious institutions(temples) and Mutts and of historical or archaeological importance in the district are presented in the following statement.

Sl. No.	Name of the Mandal	Name of the Village/Town	Name of the Monuments/Temples/Mutts
1	2	3	4
1	Ghanpur Mulug	Ghanpur	Temples and Sculptures of 13th century
2	Mulug	Mulug Road	Cairns - Megalithic burials
3	Atmakur	Katakshapur	1. Hindu temples and Sculptures of 13th Century of Kakatiya style 2. Flakes, cover neolithics, Neolithic implements, Megalithic burials. 3. Dolments - Megalithic burials.
4	Tadvai	Medaram	Sri Sammakka Saralamma Ammavaru
5	Warangal	Warangal	Shitab Khan's inscriptions
6	Hanamkonda	1.Hanamkonda 2.Allipur 3.Kondaparthi	Cairns - Pre-historic burials Stone circles - pre-historic burials Cairns - Megalithic burials
7	Hasanparthy	Siddapoor	Stone Circles - Megalithic burials
8	Ghanpur (stn.)	Tatikonda	Fort
9	Zaffergadh	Zaffergadh	Fort
10	Cheriyal	Komuravelle	Sri Mallikarjuna Swamy Temple
11	Jangaon	1.Yellamla 2.Pembarthy	Sri Bhairagi Raghavadas Mutt Sri Bhairagi Jagannadhadas Mutt
12	Raghunathpalle	Nidigonda	Hindu temples, inscriptions and sculptures of 13th century in Chalukyan style
13	Khanapur	1.Pakhal Ashok nagar 2.Ainepalle	Lake and inscriptions and sculptures of 12th century.The dam of the lake is 800 years old Cairns - Megalithic burials
14	Wardhannapet	1.Inole 2.Ailoni Centuries 3.Wardhannapet 4.Dongatogu	Sri Mallikarjuna Swamy Temple Temple and inscriptions - Kakatiya Temple built during 12-13th Fort - said to have been built by Zafarudowla in 18th Century Cremlechs - Megalithic tombs
15	Narsimhulapet	Narsimhulapet	Sri Venkateswara Swamy Temple
16	Kuavi	Kuavi	Sri Virabhadra Swamy Temple
17	Dornakal	Dornakal	Flakes, Cores & Neolithic

## List of Deprotected Monuments in Warangal District

Sl. No.	Name of the mandal	Name of the Town/Village	Name of the Monuments
1	2	3	4
1	Maddur	Bairanpalle	Angadiveerannagudi
2	Ghanpur (Station)	Kondapur	1. Hindu Temples, Sculptures 2. Flakes, cores and deolithis 3. Megalithic burials.
3	Parkal	Parkal	Lake and inscriptions
4	Ghanpur (Mulug)	Ghanpur	1. Temple and Inscriptions 2. Reddygudi
5	Mulug	1. Annampalle 2. Jakaram 3. Mulug	Cairns Siva Temple Cairns
6	Venkatapur	Ramanujapuram	Panchayathan Temple
7	Raghunath palle	Quileshapur	Fort of Sarvay paparayudu (Soldier) locally known as Quilla shapur
8	Jangaon	Nidikonda	Hindu Temple inscriptions and sculptures
9	Warangal	1. Urs village 2. Warangal 3. Siddapur	Two inscriptions Shitab khans inscriptions Stone Circles
10	Gudur	Gudur	Siva Temple
11	Kesamudram	Katrapalle	Siva Temple
12	Dornakal	Dornakal	1. Flakes, Cores & Neolithic 2. Tukne inscriptions
13	Hanamkonda	Kondaparthi	Cairns

**(b) Places of Tourist Interest in the district****1. Kakatiya Thoranam:**

The Kakatiyas were magnificent builders and their structures are notices Vigor and loftiness, as also a sense of proportion qualities which unfortunately are seldom observed in similar structures in other parts of the country. The massiveness of the pillars at Warangal, Hanamkonda and Palampet is in due proportion to the superstructure and in spite of their thickness, the pillars have an extremely symmetrical form and rise to considerable height, giving a general air of loftiness to the whole building. The Kakatiya Thoranam is four side gates of king residence (Anthahpuram) one of the unique decorated skillness of Kakatiyas. The carvings of the Thoranam highly refined architecture and sculpture.

**2. Warangal:**

Warangal city is the headquarters of the district of the same name and lies on the Vijayawada-Hyderabad section of the South Central Railway. It is 148 kms. by road from Hyderabad, the State Capital. Once the capital of great kakatiya kingdom, Warangal was earlier known as Orukallu or Ekasilanagaram, still retains its importance as the cultural centre of Telangana region of Andhra Pradesh. Like Rajamahendravaram of Andhra region which gave birth to Mahabharata in Telugu by Adikavi Nannaya. Warangal could claim equal importance of having created a landmark in Telugu literature through the great poet Pothana, the author of immortal Bhagavatam, the finest creation of classical Telugu. Next to Hyderabad, Warangal is the most important place in the Telangana region of Andhra Pradesh state. Warangal with its historic monuments, fort and temples with excellent piece of architecture attracts a wide variety of people including pilgrims, historians and archaeologists. There are several places of interest in the city and important places are given below:

**3. Thousand Pillar Temple:**

The thousand pillared temple at Hanamkonda, built by Rudradeva belongs to the period 1162-63 A.D. It is situated at a distance of 4 kms. from Hanamkonda chowrastha. It is the best example of architecture that flourished during the Kakatiya period. Temple dedicated to Siva., Vishnu and Surya, is starshaped.

The shrines have no deities except for a 'Lingam' in one of them. The other interesting features of this temple are the richly carved pillars and lintels, the beautiful sculptures, the huge granite Nandi, which is a splendid specimen of a monolith. The Nandi figure measuring six feet in height presents itself in beautiful form with exquisitely chiseled ornaments and garlands.

**4. Bhadrakali Temple:**

It is situated on the top of a hillock between Warangal and Hanamkonda. The main attraction of the temple is the stone image of the deity in human form in sitting posture wearing a crown with right hands holding weapons. The height of the deity is 2.7 meters and width is 2.7 meters.

**5. Warangal fort:**

It is located at 12 kms. Distance from Hanamkonda. It was started by King Ganapathideva in 1199 A.D. and completed by his daughter Rudramadevi in 1261 A.D. It has two walls, the inner one being made of stone and the outer one is of mud wall. It is 56 feet high and 72 feet wide. Near the villages of Thimmapur and Narasimalingudem, 9.65 kms. South of Hanamkonda, traces of a third eastern wall with a circumference of 128 kms. is also visible. A large temple in the centre of the fort which was presumably under construction has been excavated. Four large, elaborately carved gateways called 'Kirti Stambhas' facing the four cardinal points mark the boundary of the original temple. In their design, the gateways are reminiscent of the 'Toranas' of the great stupa of Sanchi. The floor of the temple is beautifully polished and shines like a mirror.

**6. Ranganathaswamy Temple:**

Popularly known as Kasibugga Ranganathaswamy. This temple at Warangal was originally a Siva temple. The idol of the present God rests on a high pedestal which indicates the original seat of a Sivalingam. To the north of the temple. There is a small spring which according to the legend is an Antharvahini (under ground current) of the sacred river Ganga and therefore, the temple is called Kasibugga Ranganathaswamy temple. The present idol of Ranganathaswamy was installed obviously after the downfall of the Kakatiyas and a local chief built the temple as per his wife's desire.

### **7. Shambhu Lingeswara or Swayambhu Temple:**

Before the advent of the Kakatiyas, a big temple dedicated to lord Shambhu Lingeswara with walls covering an area of about 10.36 sq.kms. was constructed in the place on which the present historical monuments are found. During the 13th century, A.D. Kakatiya Ganapathideva and his daughter Rani Rudrama Devi built a fortress around the temple. Inside the fortress, Lord Shambhu Lingeswara temple with four gateways and great arches with elegant carvings though presently in ruins should attract the attention of all the tourists.

### **8. Padmakshi Temple:**

It was also constructed during Kakatiya region having religious importance. It is on the hillock. On the bottom there is pond called Padmakshamma gundam.

### **9. Pakhal lake:**

Pakhal, 50 kms. from Warangal is situated in the revenue village of Pakhal in Khanapur mandal and also amidst undulating forest, clad hills and dales. Pakhal lake, a popular retreat was completed around 1213 A.D by the Kakatiya dynasty. The dam of the lake is 800 years old. Set around the shore of this lake is the Pakhal wildlife Sanctuary being developed by the forest department and also covering an area of 900 sq.kms. Its dense forests shelter Tigers, Leopards, Bear, Deer and a large variety of other animals and birds. The best season to visit Pakhal is October-March.

### **10. Inugurthy:**

Ingurthi, an ancient village of some historical significant, was under the region of the Kakatiya kings. A reservoir called the Gunti Cheruvu, which is said to have been constructed by Kakatiya Prola(A.D.1117) can still be seen in this village in Kesamudram mandal. The first Telugu weekly from Telangana, namely the Telugu Patrika was started and edited from this place for some years.

### **11. Ghanpur:**

It is located 22.5 Kilometres north of Mulug, the Mandal headquarters. A big tank with a catchment area of 64 sq.kms. known as Ghanapuram tank and a Siva temple are the important places in this village.

Both these were constructed by the Kakatiya Kings. The place is also famous for an excellent variety of rice.

### **12. Kazipet:**

Kazipet is situated at a distance of about 14 kms. from Warangal. It is a big railway junction. This place is famous for the tomb of Afzal Shah Biyabani, the Qazi of Warangal during the time of Nizam Ali Khan Asaf Jah II. This place is also famous for the Urs held in honour of Afzal Shah Biyabani from the 21st to the 28th of Safar(June-July) when more than 10,000 people from all over India congregate. There are two inscriptions in the Dargah of Afzal Shah Biyabani. This place is also noted for the Christian festival of Lady Fatima.

### **13. Zaffergadh:**

This village is situated about 40 kilometers south of Warangal city. It is an important historical village named after Zafaruddoula, a Subedar of the Golkonda rulers, who constructed an impregnable bastille for defence. Traces of fortifications can still be seen on the hills called the Virabhadra hill and the Narasimha Swami hill.

### **14. Ramappa Temple:**

The ancient Ramappa temple at Palampet village in Venkatapur mandal is 77 kms. from Warangal. This temple can be reached by an easy communication system is a great tourist attraction. Ramappa temple aptly described as the "Brightest star in the galaxy of medieval temple architecture of the Deccan" and constructed during 1213 A.D. to 1234 A.D. by Recherla Rudra a subordinate king to Ganapathi Deva.

The pillars in the Ramappa temple made of black basalt are so exquisitely polished that they actually glisten like mirrors. The panels in the pillars are the finest examples of art and beauty. There is a Nandi (bull god) carved out of a single stone and luxuriously ornamented at the eastern portico of the temple. The sanctum sanctorum has a lingam erected on a high pedestal and at the entrance is an elaborately carved doorway.

Ramappa festival is celebrated on Magha Bahula Trayodasi and Chaturdasi (February - March) during Mahasivaratri. The temple attracts a large number of devotees.

**15. Kakatiya Musical garden and Rock garden:**

The Warangal City has the privilege of having Bhadrakali Tank wherein an attractive garden is developed by Kakatiya Urban Development Authority, Warangal on the bank of Bhadrakali Tank. The Government had handed over 15.00 acres of land to "KUDA" in the year 1989-90 wherein, Kakatiya garden in the area of 6.00 acres was developed and a "Prataparudra Nakshatrasala Planetorium" was arranged. In the year 1994, it was released that this area is fitting and potent for development of Musical Garden and Musical Fountain and a garden with its beautiful natural landscaping. It is pleasant and smooth sounding especially in the evening. The garden is kept open for public throughout the day. The land of 15.00 acres is surrounded by Planetorium and Auditorium.

The Municipal Corporation is also maintaining a Rock Garden which is giving a look for good thinking

and it is also situated in the beginning of the way to Archaeological Museum, Planetorium and Kakatiya Musical Garden. The Bhadrakali Temple is also situated in the nearby place. The A.P. Tourism is planning to introduce boating operations in the Bhadrakali tank, which is adjacent to Kakatiya Musical Garden. The visiting tourists can spend their whole time in one place.

**16. Kolanupaka Temple:**

It is located in Bachannapet mandal and about 70 kms. from Warangal and 80 kms. from Hyderabad, is famous for the 2000 year old Jain Mahavira Temple. The 1.5 Metres high image of Mahavira is entirely carved of Jade and well known for Jainism devotees and for the interesting tourists. Other places of interest are Sri Veerananarayana Temple, Sri Someswara Temple and also Kolanupaka Site Museum.

**(vi) Major characteristics of the district, contribution of the district in the form of any historical figures associated with the district**

Warangal district is associated with the dynasties of great "Vishnukundins" and even prior to it also of Buddhism and pre-Buddhism periods of Indian History. From the middle of the 12th century upto two hundred years, this area is ruled by the Kakatiyas or Ganapathis with Warangal as their capital city.

Warangal has become cultural and educational hub mainly due to the establishment of many new educational institutions like Kakatiya University, Regional Engineering College, KITS, Government Polytechnic, Kakatiya Medical College, I.T.I, Evening College, Law College, Womens College, College of Education, Music and Dance School and attracting large section of population even beyond the district and state boundaries.

This district has large number of small and medium

size industries of textile, tanning, light engineering, rice mills, wood works, saw mills, cottage and village industries. Next to Hyderabad in Telangana region, Warangal occupies importance in trade.

The district has also stands as an important tourist centre attracting pilgrims, historians and archaeologists from all over the country. Some of the worth mentionable tourist places are the Thousand Pillars Temple at Hanamkonda, Ramappa Temple at Palampet, Warangal Fort, large lakes of Ramappa, Lakhnnavaram and Phakal etc.

Though the district has not produced major historical figures, it has few worth mentionable men-of-letters viz. Sarva Sri Devulapalle Ramanuja Rao, B.Ramaraju, the mimikri hero Neralla Venumadhav, etc.

## (vii) Census Concepts

Population census is a great national task, which we are called upon to undertake for every ten years. In India, the 1872 marked as the beginning of modern census taking, when it was conducted at different points of time in different parts of the country. From 1881 onwards a complete and synchronous census was held. The present Census is a land mark administrative event, as this has generated a historic bench mark data to shed light on the state of nation's society and other demographic, economic and socio-cultural data which simultaneously makes transition from one century and millennium to the next. The 2001 Census was the 14th decennial Census of India and the 6th after independence.

The Census of India was conducted in two phases namely, I) House-listing Operations II) Population Enumeration. The first phase was conducted during April-June, 2000 in different States/Union territories depending upon their local conditions. In Andhra Pradesh it was conducted from 11th May to 5th June 2000. The house-listing operations provide a base for the population enumeration, besides providing comprehensive database for assessing condition of human settlements, the housing deficit and future housing requirement for formulation of housing policies. This also provides a massive data on amenities available to the households which was much needed by various departments of the Central and State Governments and other Non-Governmental agencies, for planning and development in different sectors of the economy. Hence house-listing operation is a pre-requisite for population enumeration.

Unlike 1991 census, there are significant changes in house-listing schedule for 2001 census. The questions on condition of the census house, number of married couples living in the household and having independent room for sleeping, bathroom and kitchen within the house and using the means of entertainment and communication facility of radio, transistor, television, telephone and possessing of means of

transport like bicycle, scooter/motor cycle, car/jeep/van and availing of banking services by the household are added to the present house-list schedule.

The main population enumeration was conducted from 9th February to 28th February, 2001, followed by revisional round from 1st March, 2001 to 5th March, 2001, to update the data with reference to 00.00 hours of 1st March, 2001. The houseless population was enumerated at midnight of 28th February 2001.

The household schedule and individual slip of 1991 census were replaced by household schedule of A3 size containing three parts to collect the information from each household at 2001 Census. In the present Census, the house-hold schedule is designed in such a way to suit the requirement of capturing the data through scanners. At the 2001 Census, for the first time **Image-based data capturing technology through scanners and computer network has been introduced** with a view to provide error free data by avoiding keying in of data.

The house-hold schedule broadly covered the individual particulars under four major headings 1) General and Socio cultural characteristics (Q(1 to 15), 2) Characteristics of workers and non-workers 3) Migration characteristics (Q.21 to 22) and 4) Fertility particulars (Q.23). Part-I deals with location code particulars, Part-II relates to Individual particulars with 23 questions, consisting of 1 to 39 columns, Part-III covers on cultivation/plantation particulars like land possessed, type of tenancy enjoyed by the household/household member. Some additional questions 1) on disability, 2) Particulars relating to travel to the place of work a) distance from residence to place of work, b) mode of travel to the place of work, 3) household engaged in cultivation/plantations are added in the present household schedule.

Marital status, mother tongue, religion and literacy status (for 7 and above) migration, fertility particulars

and the identification of SC/ST are repeated but the age at marriage is also ascertained for males at 2001 Census. For the people, who are attending educational institutions, a separate code has been provided to record the Vocational institute, other institute and literacy centre in addition to school/college.

### **Criteria for enumeration of persons in a particular household:**

a) All those who normally reside and are present in that household during the entire period of enumeration from 9th February to 28th February, 2001, b) also those who are known to be normally residing and had actually stayed during a part of the enumeration period (Feb.9th to 28th Feb.2001) in the household but are not present at the time of enumerator's visit, c) also those who were known to be normally residing and are not present at the time of enumerators visit but are expected to return before 28th February, 2001 and d) Visitors who are present in the household censused and are away from the place of their usual residence during the entire enumeration period. For the purpose of enumeration, such visitor will be treated as normal resident of the household in which they are actually found during the enumeration period provided that they have not been enumerated elsewhere. One of the essential features of population enumeration in the second phase is each person enumerated and her/his individual particulars are collected at a well defined point of time.

### **Location Code Number**

The procedure of assigning location code number in a zigzag manner starting from North-west corner and ending at South-east corner, is adopted for 2001 Census. The Andhra Pradesh state was assigned Location Code No.28 as against 02 in 1991 census. In a similar fashion, the location code numbers of the districts in Andhra Pradesh state have been changed and revised location code numbers were allotted in order of geographical contiguity, beginning from North-West point of the state and ending at the South East point. Thus the Adilabad district has been assigned Location Code No. as 01 and Chittoor district Location Code No. 23 at 2001 Census. Accordingly, the location code numbers of mandals in each district have been changed for 2001 census.

An important change at 2001 census is allotment of permanent location code numbers to all the villages in the state. Since the whole data i.e., Village and Town Directory information is also being computerized, the allotment of permanent location code numbers would facilitate the data users for easy access and retrieval the data of a particular village at micro level by the click of a mouse. The Permanent Location Code Number (P.L.C. No.) is an eight digit number starting with 00000100 in a zig-zag fashion from North-West corner in the first Mandal of Adilabad district and run continuously for all the districts while ending South-East corner to the extent possible at last village in the last Mandal of Chittoor district. Since this State has 28,123 villages at 2001 census, last village of last mandal in Chittoor district will have PLC No.02812300. A significant provision has been made to allot PLC Nos. to newly created villages if any in future. The last two digits of PLC No's are kept as '00' only to provide for additional villages. For example a new village has been created after PLC No 001231400, it will be assigned PLC No. as 001231401. Further, it is indicated that there is a provision for a minimum of 99 villages adjoining to a particular village allotting Permanent Location Code.

For urban areas also location code structure has been changed in a minimum way. Earlier, for towns in a district location code numbers were given roman letters in alphabetical order. This time, while assigning roman numbers instead of going to alphabetic order, location code numbers were given from North-West part of the district ending at South-East of the district to the extent possible.

Therefore, the PLC numbers of the villages and location codes of urban areas have undergone change in Census of India, 2001 as compared to 1991. In case an urban area is spread over in two districts, the location code of urban areas in both the districts will be the same irrespective of zigzag manner.

### **Building**

is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings(residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of

entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.. Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

### **Permanent houses:**

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

### **Semi-permanent houses**

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

### **Temporary houses**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

### **Dwelling Room**

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 metres and a breadth of at least 1.5 metres and a height of 2 metres. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as

dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office, etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

### **Census house**

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non-residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure.

These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/Hotel building was treated as one census house. But if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts

may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshop, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

### **Village**

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

### **Rural - Urban area**

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

(a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

(b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per sq. km. (1,000 per square mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

### City

Towns with population of 1,00,000 and above are called cities.

### Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread. For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

### Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

### Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and

share a common kitchen.

### **Houseless household**

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

### **Scheduled Caste and Scheduled Tribe**

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are

given below:

### **List of Scheduled castes in Andhra pradesh**

1. Adi Andhra
2. Adi Dravida
3. Anamuk
4. Aray Mala
5. Arundhatiya
6. Arwa Mala
7. Bariki
8. Bavuri
9. Beda Jangam, Budga Jangam
10. Bindla
11. Byagara
12. Chachati
13. Chalavadi
14. Chamar, Mochi, Muchi
15. Chambhar
16. Chandala
17. Dakkal, Dokkalwar
18. Dandasi
19. Dhori
20. Dom, Dombara, Paidi, Pano
21. Ellamalawar, Yellammalawandlu
22. Ghasi, Haddi, Relli, Chachandi
23. Godagali
24. Godari
25. Gosangi
26. Holey a
27. Holey a Dasari
28. Jaggali
29. Jambuvulu
30. Kolupul Vandlu
31. MadasiKuruva,Madari Kuruva
32. Madiga
33. Madiga Dasu, Mashteen

- |                         |   |
|-------------------------|---|
| 34. Mahar               | 10. Kammara   |

| 43. Mang                | 19. Kulia   |
| 44. Mang Garodi         | 20. Malis (excluding Adilabad,<br>Hyderabad, Karimnagar, Khammam,<br>Mahbubnagar, Medak, Nalgonda,<br>Nizamabad and Warangal districts) |
| 45. Manne               | 21. Manna Dhora   |
| 46. Masht               | 22. Mukha Dhora, Nooka Dhora  |
| 47. Matangi             | 23. Nayaks (in the Agency tracts)*  |
| 48. Mehtar              | 24. Pardhan   |
| 49. Mitha Ayyalvar      | 25. Porja, Parangiperja   |
| 50. Mundala             | 26. Reddi Dhoras  |
| 51. Paky, Moti, Thoti   | 27. Rona, Rena  |
| 52. Pambada, Pambanda   | 28. Savaras, Kapu Savaras,<br>Maliya Savaras, Khutto Savaras  |
| 53. Pamidi              | 29. Sugalis, Lambadis   |
| 54. Panchama, Pariah    | 30. Thoti (In Adilabad, Hyderabad,<br>Karimnagar, Khammam,<br>Mahbubnagar, Medak, Nalgonda,<br>Nizamabad and Warangal Districts)        |
| 55. Relli               | 31. Valmiki (in the Agency tracts)  |
| 56. Samagara            | 32. Yenadis   |
| 57. Samban              | 33. Yerukulas   |
| 58. Sapru               |   |
| 59. Sindholu, Chindollu |   |

#### List of Scheduled Tribes in Andhra Pradesh

1. Andh
2. Bagata
3. Bhil
4. Chenchu, Chenchwar
5. Gadabas
6. Gond, Naikpod, Rajgond
7. Goud (in the Agency tracts)\*
8. Hill Reddis
9. Jatapus

\* The agency tracts is comprised of Srikakulam, Vizianagaram, Visakhapatnam, East-Godavari, West-Godavari and Khammam districts.

## Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

## Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

## Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

## Educational level

The highest level of education a person has completed

## Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes

part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

## Main worker

A person who has worked for major part of the reference period ( i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

## Marginal worker

A person who worked for less than six months of the reference period ( i.e. in the last one year preceding the date of enumeration ) in any economic activity is termed as 'Marginal worker' .

## Non worker

A person who has not worked at all in any economically productive activity during the reference period ( i.e. last one year preceding the date of enumeration ) is termed as 'Non worker'.

## Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator. Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi,

etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betel-nuts (areca).

### **Agricultural labourer**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

### **Household industry worker**

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even

if such professions, trade or services are run at home by members of the household.

### **Other worker**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

### **Work participation rate**

Percentage of workers (main + marginal) to total population

### **Population density**

Population density is the number of persons inhabited per square kilometre of the area.

### **Age**

Age is measured in terms of the completed number of years

### **Sex -ratio**

Number of females per 1000 males in a population.

## (viii) Non Census Concepts

### **Improved drinking water :**

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water. It may be mentioned that such uniform definition may not be valid across all states.

### **System of sewerage :**

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sykh pattern drain, etc., in these towns.

### **Type of latrine and Method of disposal of night soil :**

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging. The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns. Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed.

This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed. Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

### **Fertility :**

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

### **Crude birth rate(CBR) :**

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1000$$

### **Crude death rate(CDR)**

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

**Natural growth rate**

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

**Age specific fertility rate (ASFR)**

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

**Age specific marital fertility rate (ASMFR)**

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

**General fertility rate (GFR)**

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

**General marital fertility rate (GMFR)**

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1000$$

**Total fertility rate (TFR)**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels

indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \frac{45-49}{15-19} \text{ ASFR}}{1000}$$

**Total marital fertility rate (TMFR)**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \frac{45-49}{15-19} \text{ ASMFR}}{1000}$$

**Age-specific mortality rate (ASMR)**

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

**q1**

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**q2**

Probability of dying between birth and age 2.

**q5**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

**Infant mortality rate (IMR)**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

#### Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

#### Early neo-natal mortality rate

$$\text{ENMR} = \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1000$$

#### Late neo-natal mortality rate

$$\text{LNMR} = \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

#### Post neo-natal mortality rate (PNMR)

$$\text{PNMR} = \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

#### Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

#### Still birth rate(SBR)

$$\text{SBR} = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

#### Maternal mortality rate(MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

#### Eligible couple (Couples per 1000 population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

#### Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

#### Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

#### Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth. Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town. Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration :- (i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant. (ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are

not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother. A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

#### **Internal and International migration :**

The migrational movements are of three types

(i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration)

(ii) Migration from one state to another State of the country ( inter-state migration)

(iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

#### **Rural - Urban components of migration:**

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that. The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

#### **Civic status of urban units**

Civic Status of a town/city is determined on the

basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

#### **Size class of UA / town :**

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

#### **Slum area :**

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, faulty arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

#### **Mega city :**

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

## Analytical Note

### (ix) 2001 Census findings – Population and its distribution

#### (a) Distribution of Population in Rural-Urban areas:

According to 2001 Census the total population of Warangal district stands at 3,246,004 persons with 1,644,895 males and 1,601,109 females. The district stands at 14th rank in the state as far as population is concerned. Out of the total population of the district, 2,622,792 persons constituting 80.80% are residing in rural areas and the remaining 623,212 persons (19.20%) are residing in urban areas. The proportion of urban to total population regarded as an index of urbanization. Average number of towns for 100 inhabited villages in the district is 0.20%.

In Warangal district there are 50 mandals with 1,071 villages. Among these, 984 are inhabited villages and the remaining 87 villages are un-inhabited. The average number of inhabited villages per mandal is 20. In terms of population Warangal mandal occupies 1st place with 16.35% of district population while Tadvai mandal reported least population accounting 0.61% of district population. Tadvai mandal is having more villages (73) including 32 un-inhabited villages. Next comes Kothagudem mandal with 69 villages including 11 un-inhabited villages. Ghanpur (Mulug) mandal is the smallest mandal with 9 villages inclusive of one un-inhabited village.

The urban population is distributed among 2 urban units and both are statutory towns. The average size of an urban centre in the district works out to 311,606 persons. Warangal Municipal Corporation has largest population with 530,636 persons whereas Jangaon is the smallest town with a population of 43,996 persons. There is no town in the district which has less than 5000 population.

#### (b) Size class and status of towns, population growth, density and sex ratio, work participation rate and Literacy rate:

##### Size class and status of towns:

During every Census the number of Census

towns and statutory towns changes due to addition of new Census towns, declassification of existed Census towns, notifying of statutory towns, denotifying of existed statutory towns etc., for the purpose of analysis of varied demographic characteristics. The urban areas have been divided into six classes by size of population. Among the 2 towns in the district, Warangal is categorized as class I town while Jangaon classified as class II town.

##### Population Growth:

The population of district was 2,818,832 as per 1991 Census and has gone upto 3,246,004 persons in 2001 adding 427,172 persons during the decade 1991-2001. The growth rate of the district 15.15 is more than the state growth of 14.59 during the decade. Warangal district ranks 8th in the population growth rate among 23 districts in the state.

Rural-Urban growth rates show a little variation. The rural growth rate is recorded as 15.43 while urban growth rate is 14.01. As regards growth rate, the rural population in the district occupies 10th position, whereas the urban growth rate stands at 9th place in the state.

##### Density:

The overall density of population in the district is 253 persons per sq.km and is below the state average of 277. Among urban areas Warangal town recorded density with 7,803 persons per sq.km. and Jangaon has been reported with 5,866 persons per sq.km.

##### Sex Ratio:

The sex ratio in the district is 973 females per 1,000 males while it was 962 in 1991 Census. It is below the state average sex ratio of 978. The district occupied 14<sup>th</sup> rank in respect of sex ratio among 23 districts. Bachannapet mandal has the highest sex ratio of 1,018. In Cherial and Kothagudem mandals the sex ratio is 1005 and 1001 respectively. Among

urban units Warangal (M.Corp.) has reported the sex ratio of 973 and Jangaon(N.P) reported 947.

### Work Participation rate:

The work participation rate for total workers is defined as percentage of total workers to total population. The total workers participation rate in Warangal district is 48.25%. Again the percentage of main workers stands at 39.36%. The total workers participation rate separately for males and females in the rural areas are 55.9% and 48.2% respectively. The corresponding figures for urban areas are 47.90% and 15.70% respectively. Among the main workers the percentage of workers of 2001 has decreased to 39.4% from 45.3% in 1991. The female workers participation has slightly gone down from 36.28 in 1991 Census to 30.0 at 2001 Census.

### Literacy Rate:

While calculating effective literacy rate, children in 0-6 age group have been excluded. The district returned 1,595,745 literates forming 57.10% of the population of the district. Separating for urban and rural areas the literacy rate workout to 79.20% and 51.70% respectively. Again within the urban areas male and female literacy rates workout to 88.50% and 69.60% respectively. For the rural population the male and female literacy rates workout to 64.10% and 39.10% respectively.

### (c) Scheduled Castes and Scheduled Tribes of earlier censuses:

To uplift social and economical status of Scheduled Castes and Scheduled Tribes, one of the basic requirement of these population is the availability of data on age, sex, marital status, economy, education, fertility etc. In this regard these particulars are being collected in each census from 1951 onwards and provided to planners and administrators to take-up necessary steps to evolve suitable plans for the development of Scheduled Castes and Scheduled Tribes.

The President of India has notified some castes,

racas or tribes or parts of groups within castes, races or tribes as Scheduled Castes under Article 341 of the Constitution of India. Similarly, under Article 342 of the Indian Constitution, President of India has declared all such tribes or tribal communities or parts of groups within the tribes or tribal communities as Scheduled Tribes. The list of Scheduled Castes and Scheduled Tribes are notified for each State or Union Territory and are valid only within the jurisdiction of that State and Union Territory. The list of Scheduled Castes and Scheduled Tribes is provided in this volume under the chapter on 'Census concepts'.

### Scheduled Castes population in the district as per 1991 Census:

As per 1991 census, there were 4,84,654 Scheduled Castes population comprising 2,48,777 males and 2,35,877 females. This works out to 17.19% to the total population of the district. Of the total population of Scheduled Castes, 85.26% were living in rural areas of the district.

The following statement reveals that Scheduled Castes population has recorded 26.29% growth rate during the decade 1981-91. It was 23.78% in rural areas which is lower to the growth rate of total district. Growth rate in Urban areas was 43.06% which is nearly 19% more than the rural areas.

The sex ratio of Scheduled Castes population (948) was lower in comparison to that of the general population in the district(962). The sex ratio in rural area of the district was little lower than total district sex ratio among Scheduled Castes population. In urban areas it was 960. Literacy rate among Scheduled Castes 27.26% which was lower than the district (39.30%). In urban areas their literacy rate was 55.23%.

Proportion of main workers among Scheduled Castes was 50.14 percent and the Marginal workers was 2.10 percent. In rural areas main workers population was 53.80 percent and in urban areas their percentage was 28.97.

**Statement - (i)****Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Castes population-1991**

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation: 1981	3,83,770	3,33,835	49,935
	1991	4,84,654	4,13,218	71,436
		(26.29)	(23.78)	(43.06)
2	Sex ratio	948	946	960
3	Percentage of Literacy	27.26	22.36	55.23
4	Percentage of			
	:i. Main Workers	50.14	53.80	28.97
	ii. Marginal Workers	2.10	2.26	1.11
	iii. Non-workers	47.76	43.94	69.92

*Source: District Census Handbooks, of 1981-91*

It is seen from the below furnished table that Scheduled Castes population in the district has registered 27.44% growth rate during the decade 1961-1971. The same for the decade 1971-1981 and 1981-1991 was 29.24% and 26.29% respectively. The

growth rate during 1971-1981 was more than the growth rate of 1961-1971. However growth rate has been decreased from 29.24% during 1971-1981 to 26.29% during 1981-1991. Similar trend is noticed at state level also.

**Statement - (ii)****Statement showing the decadal variation in Scheduled Castes population in Warangal district in comparison to Andhra Pradesh State between 1961-1991 Censuses**

Sl. No.	Census Year	Scheduled Castes Population in district (percent variation shown in bracket)	Scheduled Castes Population in State (percent variation shown in bracket)
1	1961	2,33,010 ( -- )	49,73,616 ( -- )
2	1971	2,96,945 (+27.44 )	57,74,548 ( +16.10 )
3	1981	3,83,770 (+29.24 )	79,61,730 ( +37.88 )
4	1991	4,84,654 (+26.29 )	1,05,92,066 (+33.04 )

*Source: Part II B(ii), 1991 Census.*

The following statement gives the proportion of Scheduled Castes population to total population in the villages. Out of 890 villages where Scheduled Caste population returned in the district, 58 villages constituting 6.52% were having less than 6% of Scheduled Caste population. Of the remaining villages,

122(13.71%) were having 6 to 10% of Scheduled Castes population, 184(20.67%) having 11 to 15% and 103(11.57%) having 16 to 20% and above and 423 (47.53%) having 21 to 30% to total population of the respective villages.

**Statement - (iii)**  
**Proportion of Scheduled Castes Population to Total Population in the villages-1991**

Percentage range of Scheduled Castes population to Total population	Number of villages in each range	Percentage of villages in each range
1	2	3
5 and below	58	6.52
6-10	122	13.71
11-15	184	20.67
16-20	197	22.14
21-30	226	25.39
31 and above	103	11.57
<b>Total</b>	<b>890</b>	<b>100.00</b>

*Source: District Census Handbooks, Warangal, 1991.*

The following statement shows the percentage of Scheduled Castes population to the total population of the towns in the district. Out of 5,46,622 Urban population, Scheduled Castes population of 71,436 constituted 13.07%. Kadipikonda town has 21.57% Scheduled Castes population to the total population of

the towns, followed by Dornakal and Jangaon with 19.77% and 31.39% respectively. Mahabubabad and Warangal Municipality were as low as 9.67% and 12.91% respectively which were below the district percentage.

**Statement - (iv)**  
**Percentage of Scheduled Castes Population in Towns - 1991**

Class & Name of Town	Total Population	Total scheduled Castes Population	Percentage of Scheduled Castes Population to Total Population
IV Dornakal ( P )	15,656	3,095	19.77
III Jangaon ( M )	34,305	4,594	13.39
V Kadipikonda (P)	6,634	1,431	21.57
III Mahabubabad (P)	28,904	2,794	9.67
I Warangal (M)	4,61,123	59,522	12.91
<b>All Towns</b>	<b>5,46,622</b>	<b>71,436</b>	<b>13.07</b>

*Source: District Census Handbooks, Warangal, 1991.*

**The Scheduled Tribes population in the district as per 1991 Census :**

As per 1991 Census, there were 3,85,309 Scheduled Tribes population comprising 1,99,138 males and 1,86,171 females. This works out 13.67% to the total population of the district. Of the total population of the Scheduled Tribes 95.94% were living in rural areas of the district.

The following statement reveals that Scheduled Tribes population in the district has registered 31.61% growth rate during the decade 1981-91. Almost same growth rate 31.05% has been recorded in the rural areas of the district. In urban areas it was 46.37%.

The sex ratio among the S.Ts in the district was 935, while in rural areas it was 936 and in urban areas 918. As regards the Literacy rate among the tribes, it was 13.39% at district level while in rural areas it was 12.52%. However in urban areas it was higher (33.6%) than rural areas as well in the district total.

The population of main workers and marginal workers among tribals in the district was 52.25% and 3.71% respectively where as in rural areas of the district it was 52.90% and 3.77% respectively. But in urban areas they were reported 36.76% and 2.25% respectively. 43.33% in rural areas and 60.99% in urban areas were formed non-workers.

**Statement - (v)****Particulars of decadal variation, sex ratio, literacy and workers participation of Scheduled Tribes population-1991**

Sl.No.	Particulars	Total	Rural	Urban
1	Percentage decadal Variation: 1981	2,92,772	2,82,077	10,695
	1991	3,85,309	3,69,655	15,654
		(31.61)	(31.05)	(46.37)
2	Sex ratio	935	936	918
3	Percentage of Literacy	13.39	12.52	33.66
4	Percentage of			
	i. Main Workers	52.25	52.90	36.76
	ii. Marginal Workers	3.71	3.77	2.25
	iii. Non-workers	44.04	43.33	60.99

It is seen from the below furnished table that Scheduled Tribes population in the district has registered 33.03% growth rate during the decade 1961-71, The same for the decades 1971-1981

and 1981-91 was 576.35% and 31.61% respectively. The growth rate during 1971-1981 many folds more than the growth rate of 1961-1971 and 1981-1991 censuses.

**Statement - (vi)****Statement showing the decadal variation in Scheduled Tribes population in Warangal district in comparison to Andhra Pradesh State between 1961-1991 Censuses**

Sl. No.	Census Year	Scheduled Tribes Population in district (percent variation shown in bracket)	Scheduled Tribes Population in State (percent variation shown in bracket)
		32,539	13,24,368

<b>District Total:</b>		<b>2,818,832</b>	<b>2,272,210</b>	<b>546,622</b>	<b>3,246,004</b>	<b>2,622,792</b>	<b>623,212</b>	<b>15.1</b>	<b>15.4</b>	<b>14.0</b>	<b>19.4</b>	<b>19.2</b>

This table gives details of decadal growth rates in mandals of the district. The district has registered 15.1% growth during the decade which is more than the state average growth rate of 14.6%. The rural and urban growth rates are recorded as 15.4% and 14.0% respectively. The district percentage of urban population during 2001 works out to 19.2. Out of 51 mandals, only five mandals have urban units. Among

these, the major urban units. Among these, the major urban units viz. Warangal (M.Corp.) reported 100% urban population followed by Jangaon (Nagar Panchayat) with 52.65%. Out of 5 mandals having urban population, except Hasanparthy and Geesugonda, the remaining 3 mandals have reported more percentage of urban population than the percentage of district urban population.

This district has 984 inhabited villages. Out of 50 mandal parishads, the highest number of 58 inhabited villages are in Kothagudem mandal parishad followed by 41 villages each in Eturnagaram and

Tadvai mandal parishads each and 32 villages in Chityal mandal parishad etc. The least number of 8 villages are in Ghanpur (Mulug) and 10 villages in Govindaraopet and Venkatapur each are existing. Of

the total inhabited villages, 43(4.4) villages are having less than 200 population 70(7.1) villages are having between 200-499 persons. The highest number of villages 405 (41.2) are in the population range of 2,000-4,999. 91(9.2) villages are falling in the population range 5,000 and 9,999. 17(1.7%) villages have more than 10,000 population which are mostly mandal headquarters. Of 50 mandal parishads, 36 do not have villages with less than 200 population. More than 10%

inhabited villages in Tadvai, Eturnagaram, and Kothagudem mandal parishads have less than 200 population. More than 30% of villages in Eturnagaram, Tadvai and Kothagudem mandal parishads are having population between 200-499. Like wise 29.3% inhabited villages of Kothagudem mandal parishad fall in population size range 500-999.

**TABLE 3**  
**NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS**

Name of Town	
1	
<b>(a) New</b>	
(i) Statutory Town	-Nil-
(ii) Census Town	-Nil-
<b>(b) Denotified</b>	
(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	-Nil-
(ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	-Nil-
(iii) Census towns of 1991 Census are notified as statutory town in 2001 Census	-Nil-
<b>(c) Declassified</b>	1. Dornakal 2. Kadipikonda 3. Mahabubabad
<b>(d) Wholly merged with other town(s)</b>	-Nil-

*Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria*

There are only two statutory towns namely Warangal and Jangaon The non-statutory towns Dornakal, Kadipikonda and Mahabubabad in 1991

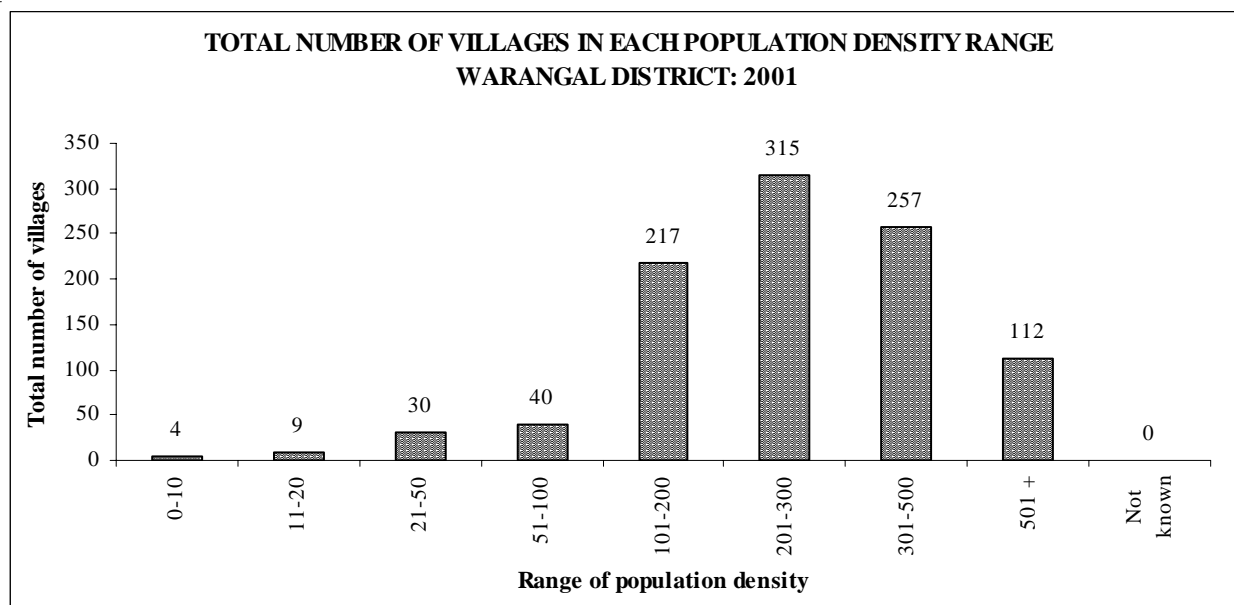

Census were now declassified as they failed to satisfy the demographic and economic criteria in 2001 Census.

**TABLE 4**  
**DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001**

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	4	0.4	637	-
11-20	9	0.9	2,274	0.1
21-50	30	3.0	13,674	0.5
51-100	40	4.1	40,710	1.6

201-300	315	32.0	875,499	33.4
301-500	257	26.1	806,069	30.7
501 +	112	11.4	478,591	18.2
Not known	-	-	-	-
<b>District Total:</b>	<b>984</b>	<b>100.0</b>	<b>2,622,792</b>	<b>100.0</b>
<b>Population Density (Rural) of the district:</b>		<b>206</b>		

It is seen from the above table that there are 4 villages with 637 population where density of population recorded below 10 persons per Sq.km. The average population size of the villages works out around 160 persons per village. The highest

number of villages i.e. 315 forming 32.0% with 8,75,499 persons are in 201-300 range of population density. Of total district rural population, 11.4% are living in 112 villages where density of population is more than 500 persons per Sq.km.

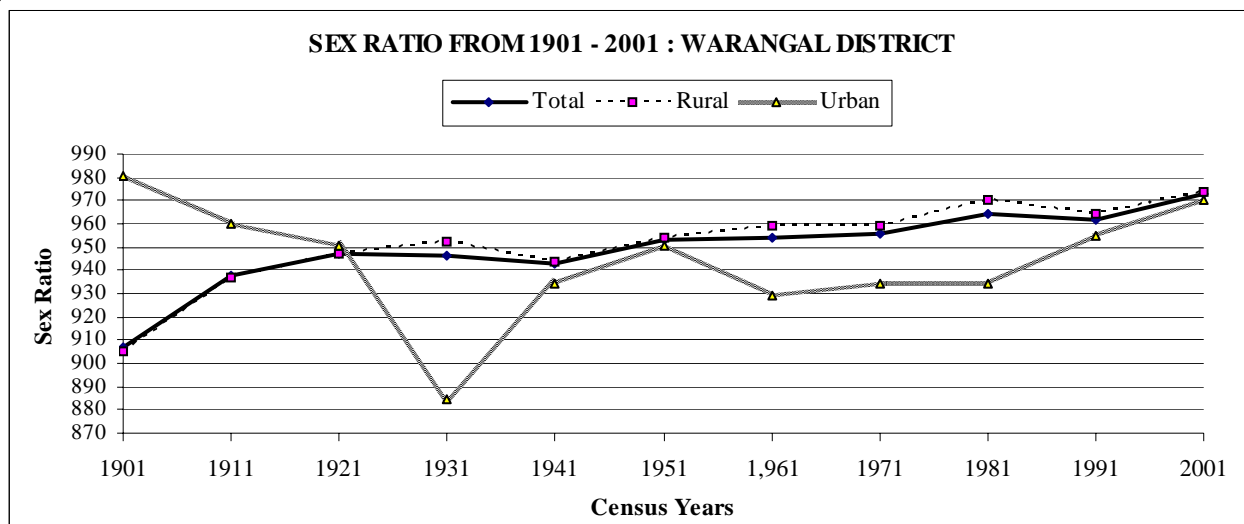

**TABLE 5  
SEX RATIO OF STATE AND DISTRICT, 1901 - 2001**

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	985	983	999	907	905	981
1911	992	991	1,000	938	937	960
1921	993	994	936	947	947	951
1931	987	989	966	946	952	885
1941	980	981	975	943	944	934
1951	986	985	987	953	954	951
1961	981	988	951	954	959	929
1971	977	983	949	956	959	934
1981	975	984	948	964	970	934
1991	972	977	959	962	964	955
2001	978	983	965	973	974	970

During the decadal Census counts from 1901 to 2001, the state average sex ratio was more than the district sex ratio. Mostly sex ratio was higher in rural areas than urban areas of the

district except in 1901, 1911 and 1921. A large variation between rural and urban sex ratio was noticed in the district in 1981 census i.e. 970 and 934 respectively.

<b>District (Rural) Sex Ratio:</b>					<b>974</b>

The above table depicts the sex ratio by mandal parishads as per 2001 census. The sex ratio in rural areas of the district is 974 which is higher than the sex ratio of the district total i.e 973. The highest

sex ratio is in Bachannapet mandal parishad with 1,018 while it is least in Hanamkonda mandal parishad with 924.

**TABLE 8**  
**SEX RATIO OF RURAL POPULATION BY RANGES, 2001**

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population (2001)	Percentage distribution of population
1	2	3	4	5
Less than 700	5	0.5	5,792	0.2
700-749	2	0.2	1,550	0.1
750-799	1	0.1	2,252	0.1
800-849	13	1.3	31,543	1.2
850-899	34	3.5	71,069	2.7
900-949	164	16.7	407,094	15.5
950-999	445	45.2	1,444,775	55.1
1000-1099	286	29.1	635,736	24.2
1100+	34	3.4	22,981	0.9
<b>District Total:</b>	<b>984</b>	<b>100.0</b>	<b>2,622,792</b>	<b>100.0</b>

**Sex ratio (Rural) for District:**

**974**

It is seen from the above table that large variation i.e. below 700 females per 1,000 males are recorded in 5 villages. There are 445 (45.2%) villages where range of sex ratio is 950-999 in which sex ratio of total and rural areas of the district has also fallen. It

is evident from the above table that 29.1% of inhabited villages are having equal or more number of females than males covering almost ¼ th of the total rural population

4	Warangal	M. Corp.	973
<b>Sex ratio (Urban) for the district:</b>			<b>970</b>

+ Towns arranged in alphabetical order

This table gives urban sex ratio as recorded in 2001 census. The average urban sex ratio is 970 in the district which is below the range of the district for total and rural. The highest sex ratio of 973 is

seen in Warangal Municipal Corporation and the lowest sex ratio of 947 is recorded in Jangaon (Nagar Panchayat). Warangal (M. Corp. ) has reported higher sex ratio than district urban sex ratio.

District Total:		Total	452,747	231,568	221,179	955
		Rural	378,801	193,855	184,946	954
		Urban	73,946	37,713	36,233	961

In the above table the details of sex ratio of the population in the age group 0-6 for mandals as recorded in 2001 census has been presented for total, rural and urban with sex breakup. The sex ratio of population in the age group of 0-6 is 955 in total, 954 in rural and 961 in the urban areas of the mandal as against 973, 974 and 970 respectively for total population of the district. It reveals that sex ratio in

total and in rural of the district in the age group 0-6 is almost equal, but it is below with 961 in the urban areas. Similar to total population, sex ratio of urban areas in the age group of 0-6 also is less than district average sex ratio. In Bhupalapalle, Eturnagaram, Tadvai and Khanapur mandals female children are more than male children in the age group of 0-6 in the district.

<b>District (Rural) Total:</b>		<b>378,801</b>	<b>193,855</b>	<b>184,946</b>	<b>954</b>

The above table gives the details of sex ratio in the age group 0-6 for each mandal parishad of the district. It can be noticed that the sex ratio of the population in the age group 0-6 is highest in Khanapur

mandal parishad with 1,020 females where as the lowest has been seen in Zaffergadh mandal parishad with 900 females per 1,000 males.

**TABLE 12**  
**SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001**

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population

**Sex ratio (Rural) for District:**

**954**

It is seen from the table that more than 66% villages are having more male children in the age group 0-6 than female children. In 160 villages

forming 16.3% to total inhabited villages the range of sex ratio is 950-999 in which district rural average of sex ratio (954) also falls in.

This table shows the number and percentage of scheduled castes and scheduled tribes population in all mandals recorded during 2001 Census. Out of district total population of 32,46,004, the scheduled castes and scheduled tribes constituted 17.0 and 14.1 percent respectively. In rural areas of the district, the scheduled castes accounted 18.0% where as in urban areas it is 12.9%. In respect of scheduled tribes, they accounted 16.9% in rural and 2.1% in urban areas of the total population. Their percentage is more in rural areas than urban. In Hanamkonda mandal the highest number of scheduled castes

recorded with 33.9% under rural areas followed by Hasanparthy with 26.7% and Parkal with 24.4%. The lowest percentage of scheduled castes recorded in the mandals are Kothagudem, Gudur, Khanapur and Kuravi with 6.5, 6.9, 9.1 and 10.3 respectively. In Kothagudem mandal, the highest number of scheduled tribes recorded with 57.9 of the total population under rural areas followed by Gudur with 54.3% and Tadvai mandal with 46.4%. The lowest percentage of scheduled tribes was recorded in the mandals of Mogullapalle, Bachannapet, Parkal with 0.4, 0.6 and 0.9 respectively.

<b>District (Rural) Sex Ratio :</b>		<b>968</b>	<b>944</b>

The sex ratio among the Scheduled Castes and Scheduled Tribes is given in this table at Mandal parishad level. The sex ratio of scheduled caste and scheduled tribe in rural areas of Warangal district is 968 and 944 respectively while it is 973 in respect of total population. The lowest sex ratio 906 among scheduled castes is reported in Narsampet mandal parishad and 775 among scheduled tribes in Parkal mandal parishad. The highest sex ratio 1,049 among scheduled castes is seen in Mahabubabad mandal

parishad and 1,062 among scheduled tribes in Atmakur mandal parishad. Among scheduled castes, females are more than males in 10 mandal parishads. As regards scheduled tribes, females are more in 5 mandal parishads. In 22 mandal parishads sex ratio of scheduled castes is lower than the district average sex ratio. Like- wise the sex ratio of scheduled tribes is lower than the district average sex ratio in 28 mandal parishads.

In this table mandal wise literacy rates besides the number of literates and illiterates for total, rural and urban with sex breakup are given. The literacy rates are worked out by excluding population in the age group 0-6. As per 2001 Census, the proportion of literates to total population excluding the age group 0-6 comes to 57.1 percent in the district. This proportion in rural area is 51.7 percent as against 79.2 percent in urban areas. In the district, the literacy

rates of males(68.9%) is much higher than that of females (45.1%). Among the mandals, Warangal(urban) tops with 79.8 percent literates followed by Hanamkonda mandal (69.3%). Kuravi mandal with 42.1 percent literates stands at the lowest in the district. The gap between male and female literacy is very high which comes to 23.8. The situation at mandal level is not much different.

District (Rural) Total:		123,061	84,638	38,423	321,348	143,934	177,414	33.5	44.8	21.5	23.3

This table explains the number and percentage of scheduled tribes literates and illiterates by sex in mandal parishads. There are 123,061 (33.5%) literates and among them males 84,638 (44.8%) and females 38,423 (21.5%) in the mandal parishads of the district for scheduled tribes. The gap in male-female literacy rate is 23.3. This shows female literacy rate is far lagging behind the male literacy rate. Eturnagaram

mandal parishad occupies top place with 60.0% literacy rate and Wardhannapet mandal parishad at bottom with 22.8% literacy rate among scheduled tribes. The gap between male-female literacy rate is highest in Cherial mandal parishad with 37.8. Similarly, Dharmasagar mandal parishad reflects at bottom with 18.8 male-female literacy gap among scheduled tribes.

This table gives the number and percentage of Main workers, marginal workers and non-workers by sex at mandal level in the district as per 2001 Census. The proportion of total workers works out 48.3% of the total population in the district. The total workers are comprised of 39.4% main workers and 8.9% marginal workers and the remaining 51.7% are non-

workers. Among main workers, male participation rate in the district is 48.5% where as in females it is 30.0%. Male and female marginal workers account for 5.9 and 12.0 respectively. The percentage of female marginal workers is higher than the male marginal workers.

The above table shows number and percentage of main workers, marginal workers and non-workers by sex at mandal parishads-level in the district as per 2001 census. Of the 2,622,792 total rural population of the district 41.8 percent has been categorized as main workers and the marginal workers constitute 10.3 percent and the remaining 47.9 percent fall in the category of non-workers. The sex-wise break up at the district level shows that 49.4 percent males and 34.1 percent females are in the category of main workers. Male and female marginal workers account for 6.5 and 14.2 percent respectively. The percentage

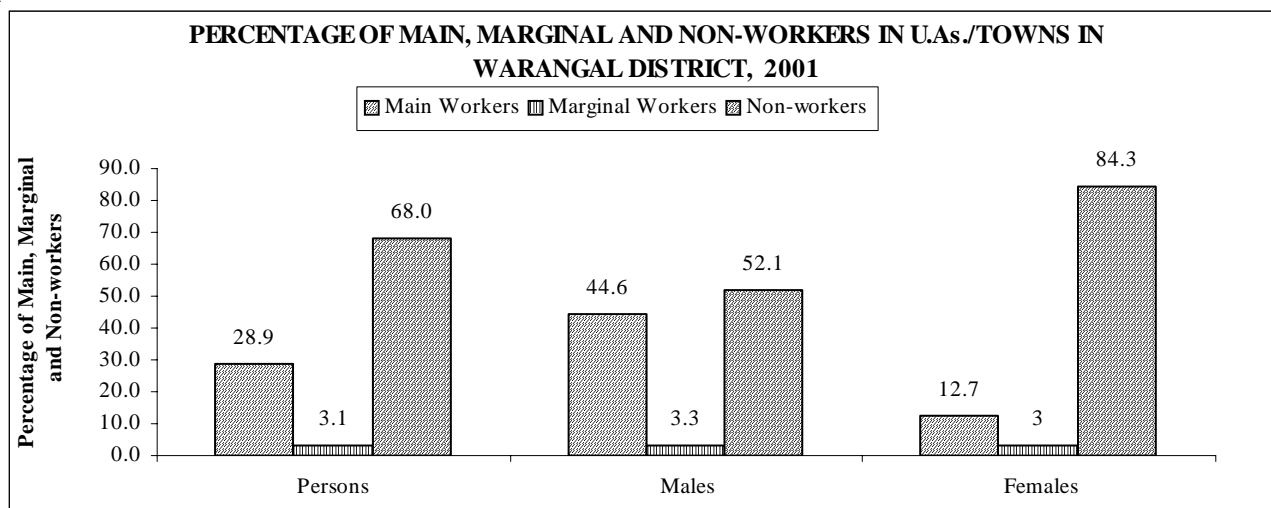

of female marginal workers is higher than male marginal workers. Similar trend is visible at mandal parishads level. The percentage of total rural workers of the district comes to 52.1. At mandal parishad level, Duggondi has highest proportion of total workers forming 57.8 percent of the total population. It is closely followed by Chityal with 56.5 percent, Shayampet with 56.3%, Mogulapalle with 56.1%, Chennaraopet with 55.9% Nekkonda with 55.8% and Zaffergadh with 55.7%. The lowest percentage 44.3% is recorded in Hanamkonda.

+ Towns arranged in alphabetical order

^ Name of constituent units of UA are given separately

This table gives number and percentage of main workers, marginal workers and non-workers by sex in Urban Agglomeration/towns recorded in the district of Warangal during 2001 Census. Of the 623,212 total urban population of the district 28.9 percent has been categorized as main workers and 3.1% as marginal workers. The remaining 68% fall in the category of non-workers. The sex-wise break up at

the district level shows that 44.6% males and 12.7% females are in the category of main workers. Male and female marginal workers account for 3.3% and 3.0% respectively. The percentage of total urban workers of the district comes to 32.0%. Jangaon (Nagar Panchayat) recorded a small variation of proportion of total workers forming 32.1% of the total population.

				(43.2)	(25.2)	(62.1)	(2.9)	(9.7)
District Total:		Persons	3,246,004	1,566,237	460,106	606,020	78,192	421,919
				(48.3)	(29.4)	(38.7)	(5.0)	(26.9)
		Males	1,644,895	894,022	287,305	228,973	37,527	340,217
				(54.4)	(32.1)	(25.6)	(4.2)	(38.1)
		Females	1,601,109	672,215	172,801	377,047	40,665	81,702
				(42.0)	(25.7)	(56.1)	(6.0)	(12.2)

*Note: Percentage of Workers to total workers are given in brackets*

It can be seen from the above table that the economy of the district is primarily dependent on Agriculture due to the fact that cultivators constitute 29.4 percent of the total workers (main + marginal) and remaining 38.7 percent of total workers are engaged as agriculture labourers, household industry workers (5.0) and other workers (26.9) in this district.

The distribution of workers by four categories of economic activity at mandal level shows very high dependence of population on agriculture sector absorbing large number of workers. The percentage of female cultivators is 25.7 which is lower as compared to 32.1 percent of male cultivators in the district.

*Note: Percentage of Workers to total workers are given in brackets*

The above table presents mandal parishad-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district, total workers constitute (main + marginal) 52.1 percent of total population. Among these workers, cultivators constitute 33.5 percent, 43.8 percent agricultural labourers, 4.2 percent household industry workers and 18.5 percent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population

despite the fact that it is not commercially viable. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 4.2 percent workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators the percentage of females is 27.5 which is less than males by 11.0 percent in the rural areas of the district.

+ Towns arranged in alphabetical order

^Name of constituents units of UA are given separately

This table shows the distribution of workers by sex in four categories of economic activity of Urban Agglomerations/towns. The district total workers form (Main + Marginal) 32.0% of total population. Among these workers, Cultivators constitute 1.4%, 3.8% Agricultural Labourers, 10.3% Household industry workers and 84.5% other workers in the district. The other workers play a major role in providing employment to the working force of urban population.

Household industries also could not make much progress in urban areas as reflected in the data and these household industries employ only 10.3% workers of total working force. Therefore, surplus working force has to depend on other working activities. Among cultivators, the percentage of females (2.1%) is higher than males (1.2%) in the urban areas of the district.

Source : Census of India 2001, H-series; "Tables on houses, household amenities and assets"

This table depicts number of households by tenure status and number of rooms occupied in the district. As per 2001 Census the total number of households in the district is 723,754 consisting 597,195 rural and 126,559 urban households. Among these households 130,331 households belong to scheduled caste and 104,721 to scheduled tribes. In general, 635,272 households are living in their own houses. Of these households, the largest number of households 253,349 have occupied single room accommodation and is followed by double roomed accommodation numbering 216,166. Next position is claimed by 83,407 households occupying three roomed accommodation while 22,579 households are without any exclusive room.

82,797 households are living in rented

accommodation in the district. The largest number 28,694 households are living in double-roomed accommodation followed by 27,302 households in single roomed accommodation. Households with three and three plus are smaller in numbers. Other households numbering 5,674 are distributed in single roomed accommodation numbering 2,698 double roomed by 1,219 households, three roomed accommodation by 622 and 604 households in three plus roomed accommodation. In rural areas majority of households have bigger size and majority of them have their own houses while in urban areas show reverse picture. In respect of scheduled castes and tribes households, most of them possess own houses and they live mostly in single and double roomed accommodation particularly in rural areas.

*Source : Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

The data presented in this table reveals that 50.0% of households of the district are living in houses made of pucca materials, residences of 32.8% households are of semi-permanent nature and houses of only 17.2% households are made of temporary materials. In the rural areas, however, the percentage of households living in permanent houses is 42.7%,

36.7% in semi-permanent and only 20.5% in temporary houses. The district percentage in urban areas indicates that majority of households i.e. 84.0% are living in houses constructed with pucca materials whereas 14.5% in semi-permanent structures and the percentage of households living in temporary houses is 1.5 i.e. constructed with kutcha materials.

Data source : Census of India, 2001, H-Series; "Tables on Houses, Household amenities and Assets".

\* Based on the improved drinking water source, drinking water supply has been classified as "improved" or otherwise. If the household has access to drinking water supplied from a tap or a handpump/tubewell situated within or outside the premises, it is considered as having access to "improved drinking water source". However, the concept of the improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage has given in brackets after the number of households.

Bathroom means bathroom within the house.

Toilet means toilet within the house.

Drainage means closed and open drainage.

The above table indicates that 57.5 percent households in the district have been provided with improved drinking water supplied from a tap or a hand pump/tub well. 68.9 percent households have provision of Electricity to their houses. The bathroom facility is available to only 33.0 percent households within their premises. As regards rural areas, 22.9 percent households are having bathroom facility whereas this proportion in urban areas comes to 80.7 percent. 63.9

percent rural households have facility of Electricity against 92.5 percent in urban areas. Toilet and drainage facilities in the district are available to 26.6 and 35.9 percent households respectively. Their percentage is higher in urban areas as compared to rural areas. The trend of these amenities available to the households at mandal level is almost conform to the district pattern analysed.

**Source :** Census of India 2001, H-series; "Tables on houses, household amenities and assets"

The percentage distribution of households by type of fuel used for cooking purpose is given in the above table. There are nine types of fuel used for which data have been presented in the table. It is observed that wood is the most predominant fuel used by 77.6% households in the district. In rural areas the use of wood for cooking is high while in urban areas it is less due to availability of LPG. The next cooking fuel is gas, which is used by 13.5 percent households in the district. This proportion in urban and rural areas is 48.1 and 6.2 percent respectively. In rural

areas use of gas for cooking is very low as compared to urban areas at mandal level. There are 4.5 percent households using kerosene in the district. Use of kerosene for cooking by urban households comes to 19.6 percent while in rural areas its proportion is only 1.3 percent as a whole. The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas, etc. is insignificant. In rural areas, wood is main fuel and in urban areas cooking gas is used as predominant fuel.

*Source : Census of India 2001, H-series; "Tables on houses, household amenities and assets"*

This table presents data for total, rural and urban areas at district/mandal level about households availing banking services and possession of assets such as Radio/Transistor, Television, Telephone, Bicycle, Scooter and Car etc. There are 723,743 households in the district and among them 202,838 have been availing banking services. 116,168 households have radio/transistor. Television is possessed by 202,408. Telephone is available in 42,713 households. Bicycles

are used as a major means of transportation and are available in 254,597 households. Scooter, motorcycle and moped are used by 59,955 households. Whereas 6,765 households are in possession of car, jeep and van. The picture in usage of banking services and possession of assets by households at mandal level is almost similar as analysed above for the district as a whole.

### **(xiii) Scope of Village directory and Town directory - column heading wise explanation and coverage of data**

The village directory and the town directory presented in the District Census Handbooks are proved more useful. The formats of village directory and of seven statements on town directory are on the same pattern canvassed in 1991 census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. All the amenities except recreational and cultural facilities, power supply and news papers/magazines are brought under one bracket, with corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. The non-census data presented in the village and town directories relate to the year 1999. However, wherever the field agencies have indicated the later position, the information has been updated. Almost all the details in the statement have been indicated by codes. In respect of total population and total number of households, the figures as returned during the recent census i.e. 2001 census have been presented. The scope of village directory and town directory statements with column heading-wise explanation and coverage of data are hereunder presented.

#### **Scope of Village Directory :**

In the similar manner as was done in the past, the village directory has been prepared for all the villages in the state and these are presented mandal-wise in the District Census Handbook. This statement contains village-wise area, population, amenities such as educational, medical, communications, drinking water facilities, etc., and also the land use pattern details. The villages are shown in order of their permanent location code numbers. An alphabetical list of villages with their permanent location code

numbers and a mandal map has been presented in the beginning of Village Directory of each mandal. This facilitates the reader in locating the mandal in which a particular village lies. The village directory now contains 23 columns as against 18 columns in the 1991 handbook. To give more information under amenities column, banking facilities such as commercial and co-operative banks, agricultural, non-agricultural and other credit societies have been included in the present statement. Similarly, a new column 'number of recreational and cultural facilities' showing cinema/video halls, sports club and stadium/auditorium has been added. In addition to the above a column showing newspapers/magazines received and name of the most important commodity manufactured in the village have been incorporated. Besides the above, the Village Directory is having 12 appendices viz.

- Appendix I : Abstract of Educational, Medical and other amenities in the villages – Mandal Parishad level.
- Appendix 1A : Villages by number of primary schools
- Appendix 1B : Villages by primary, middle and secondary schools
- Appendix 1C : Villages with different sources of drinking water facilities available
- Appendix II : Villages with 5,000 and above population which do not have one or more amenities
- Appendix IIA : Census Towns which do not have one or more amenities

- Appendix III : Land utilization data in respect of census towns / non-municipal towns
- Appendix IV : Mandal Parishad-wise list of inhabited villages where no amenity other than drinking water facility is available
- Appendix V : Summary showing number of villages not having Scheduled castes population
- Appendix VI : Summary showing number of villages not having Scheduled tribes population
- Appendix VII A: List of villages according to the proportion of the Scheduled Castes to the total population by ranges.
- Appendix VII B: List of villages according to the proportion of the Scheduled Tribes to the total population by ranges.
- Appendix VIII : Statement showing number of Girls schools in the villages
- Appendix IX : List of Degree Colleges by Village/Town in the district
- Appendix X : List of Hospitals by Village/Town in the district
- Appendix XI : List of Banks by Village/Town in the district
- Appendix XII : List of Cinema Halls by Village/Town in the district

It may be noted that the Appendix 1A, 1B, 1C, II, II-A, VIII, IX, X, XI and XII have been included afresh in comparison to the District Census Hand-books of 1991 Census.

Columns 1 to 4 relate to the serial number, location code number, name and total area of the village. The area given under column 3 is as per the data collected from the state survey department during 1991 census

and presented even for 2001 census as the department clarified that there are no changes in the area figures. Column numbers 4 and 5 provide the total population and the total number of households in the village as per 2001 census. Columns 6 to 13 list out the basic amenities available in the village such as educational; medical; drinking water; post, telegraph and telephone; commercial and co-operative banks; agricultural, non-agricultural and other credit societies; recreational and cultural facilities and communications.

The columns 14 to 18 give the details of approach to the village, nearest town & distance, power supply, news paper/magazine circulation and most important commodity manufactured in the village.

The remaining columns 19 to 23 pertain to the land use pattern in the village. The extent of forest area has been given in column 19 while in columns 20 and 23 the extent of irrigated area together with different irrigational sources, the extent of culturable waste including gaucher and groves and the area not available for cultivation such as buildings, roads and railways or under water(rivers and canals), etc., have been given. Here it is worth mentionable that the total area figures of Col. 19 to 23 may not tally with the total area of the village as shown in Col. 3 due to various reasons such as water ways, etc., which are not generally included in the land use statistics.

The land use pattern in the Village Directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India. The Ministry of Agriculture has recommended the maintenance of records of land use pattern under five categories viz. forests, not available for cultivation, other uncultivated lands excluding fallow lands, fallow lands and net area sown.

The concepts of various types of land use given under each of the columns 19 to 23 as given in the Village Directory schedule are reproduced below:

### **1. Forests (Col.19) :**

These include all actually forested areas and the lands classified or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that

portion is included under the appropriate heading of cultivated or uncultivated land.

## **2. Cultivated area with break-up irrigated and un-irrigated (Col. 20 & 21):**

This includes the land under the following three categories.

### **I) Net area sown :**

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

### **II) Other fallow lands :**

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silting of canals or rivers or un-remunerative nature of farming, etc.

### **III) Current fallows :**

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallows.

## **3. Culturable Waste (Col. 22):**

This item includes the land under the following three categories.

#### **i) Permanent pastures and other grazing lands:**

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

#### **ii) Lands under miscellaneous tree crops and groves not included in the area sown:**

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

#### **iii) Culturable waste:**

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

## **4. Area not available for cultivation (Col.23) :**

This includes the land under the following two categories.

#### **i) Land put to non-agricultural uses :**

All lands occupied by buildings, roads and railways or under waters such as rivers and canals and other lands put to uses other than agricultural.

#### **ii) Barren and uncultivable land :**

This covers all barren and uncultivable land like mountains, etc., i.e. which cannot be brought under cultivation unless at a high cost. Whether such land is in isolated blocks or within cultivated holdings.

All the above particulars are based on the data received from the concerned departments like education, medical, postal, electricity, etc., and also mainly from the Mandal Revenue Officers concerned.

Item on communications has been shown separately to spell in terms of availability of the public transport system. This is meant to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this back-ground that the item on approach to village has been given separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and Primary health centre and Community health worker under item 'Medical' of Village Directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

### Scope of Town Directory:

There are seven statements in the Town Directory, which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1991 census except for a few changes. During the 1991 there were six Town Directory statements besides providing a separate statement IV-A bringing out civic conditions of the notified slums in class I and II towns. In the present volume the statement IV-A of the 1991 handbook has been termed as statement-VII and the data is presented in respect of all towns having statutory bodies including unnotified slums. The column 4 of statement IV-A of the 1991 publication i.e. area of the slum has been deleted in the present book duly substituting the same by giving the information - whether the slum is notified or not with a view that the local authorities are not in a position to provide exact area figures for each slum area. Further in the present statement-VII another item i.e. approximate number of households living in the slum is incorporated. The captions of the statements are as follows:

Statement I	:	Status and growth history
Statement II	:	Physical Aspects and location of town, 1999
Statement III	:	Municipal Finance, 1998-99
Statement IV	:	Civic and other Amenities, 1999
Statement V	:	Medical, Educational, Recreational and Cultural facilities, 1999
Statement VI	:	Trade, Commerce, Industry and Banking, 1999
Statement VII	:	Civic and other Amenities in slums, 1999

In addition to the above seven statements one appendix for the towns showing their outgrowths with population has also been presented.

The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. To reflect this programme, the columns Scheduled castes and Scheduled tribes population in statement IV and Adult Literacy Classes/Centres in statement V are identical.

In case such of the amenity as Fire Fighting Service in statement IV, the Educational or Medical facility in statement V is not available in the town, the name of the nearest place and its distance from the referent town has been given. This feature is followed since 1981 census as it is necessary to identify the areas that have no specific facility in the district.

### Statement I : Status and Growth History

This statement provides basic information on civic status, population with decadal growth rate from 1901 to 2001, density for 2001 census and sex ratio from 1981 to 2001 censuses of each town besides presenting class of town, location code, name of the mandal, area in sq.kms. and number of households including houseless households returned in 2001 census.

The columns 1 and 2 relate to serial number and class, name and civic status of the town. The class of town has been determined basing on the size of population as given below.

Population	Class
1,00,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

The civic status of the town is indicated in brackets by abbreviated letters like 'M.Corp.' for Municipal Corporation and 'NP' for Nagar Panchayat. The location code number under Col.3 for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. After location code the Col. 4-7 indicate name of mandal, name of mandal parishad, area of the town in sq. kms. and number of households including houseless households recorded in 2001 census. The population of the town with decadal growth rate from 1901 census to 2001 census is given in Col. 8-18. The column 19 shows the density of population and column 20 to 22 give the sex ratio recorded during 1981 to 2001 censuses. The sex ratio defined here is number of females per 1,000 males.

The following two places are treated as urban areas in Warangal District at the 2001 census.

1. Jangaon
2. Warangal

Jangaon is continuing as Municipality (presently known as Nagar Panchayat) since 1941 and the town Warangal which was a Municipality since 1901 is treated as an Urban Agglomeration from 1991 census. All the Constituent units (out-growths) of Warangal Agglomerations have been assigned ward numbers in continuation of existing ward numbers and the Municipality has been upgraded to the status of Municipal Corporation during 2001 census. The places Dornakal, Kadipikonda and Mahabubabad which were treated as panchayat towns during 1991 census have been declassified at 2001 census due to strict application of criteria for treating a place as town.

Warangal is a class I town i.e. town with a population of one lakh and above. There are no class II towns i.e. with a population of 50,000 and 99,999. Jangaon is a class III town whose population falls under the range from 20,000 to 49,999. There are no class IV, V and class VI towns i.e. towns with a population of 10,000 to 19,999, 5,000 to 9,999 and less than 5,000 respectively in the district.

#### **Statement II: Physical aspects and location of town, 1999.**

This statement contains 13 columns and depicts physical aspects and location of town in the district. Column numbers 1 and 2 relate to serial number and class, name and civic status of the town. The physical aspects such as rainfall in millimetres maximum and minimum temperature in centigrade have been shown in columns 3 to 5 by taking average for the last ten years i.e. from 1990 to 1999. Jangaon town has recorded 767 mm of average rainfall and in Warangal town 925 mm. In respect of maximum and minimum average temperature, the towns Jangaon and Warangal have recorded 40° C and 27° C and 39° C and 27° C respectively. The columns 6 to 11 give the details of name and road distance in kms. from the referent town to state, district and mandal headquarters, nearest city with population of one lakh and more, railway station and bus route. Jangaon town is 54 kms. away from district headquarters Warangal

and 92 kms. from state headquarters. Warangal Town is 140 kms away from state headquarters. The above two towns are also mandal headquarters. The last column i.e. column number 12 is meant for showing name of the navigable river/canal within the distance of 10 kms. from the referent town. There is no navigable river/canal in the district for providing cheap navigational facilities.

#### **Statement III: Municipal Finance, 1998-99.**

The details for inclusion in this statement were obtained from the respective statutory bodies. In the statement there are 16 columns. Column 1 to 2 relate to serial number, name and class of town with civic status. Columns 3 to 9 show the receipts of the local body under various sub-heads and columns 10 to 16 give the details of expenditure incurred on general administration, public safety, public health and convenience, public works and institutions, etc.

During the year 1998-99, the total income of Jangaon Nagar Panchayat was Rs.1.68 crores and the total expenditure was at Rs. 1.26 crores. The bulk of the income constituted Government grants at 41.31% and the income derived through tax collections has recorded 28.32%. In respect of expenditure, the Nagar Panchayat has incurred 41.60% towards administration and 24.75% on public works. The public safety has taken back seat with 3.97% of the total expenditure. As regards Warangal (M.Corp.), the corporation's total receipts, during 1998-99 is Rs.16.38 crores and the total expenditure is 15.80 crores. The corporation's property fetched income of 34.47% whereas the tax collection recorded at 27.35% of the total receipts. The other major income is 'Other sources' at 32.68%. In Warangal (M.Corp.), the public works and public safety has taken lion's share at 44.57% and 35.13% respectively.

#### **Statement IV : Civic and other Amenities, 1999.**

The title itself reveals that, this statement deals with the facilities provided to the people in the urban areas of the district.

This statement contains 20 columns. Column 1 and 2 relate to serial number, class, name and civic status of the town respectively. Column 3 gives population of the town whereas the column number 4 and 5 gives population of SC and ST as per 2001

census. The lengths of pucca and kutcha roads are recorded separately for each town in column 6. The column 7 shows the details of sewerage systems prevailing in the referent town. The number of latrines with different types is shown in columns 8 to 11. Column 12 is provided separately to show method of disposal of night soil. The source of protected water supply and the system of storage with capacity are recorded under column 13 and 14. Column 15 shows the availability of fire fighting services. In case if this service is not available in the town, the name of the nearest town along with distance where available to be mentioned under this column. Fortunately both the towns in Warangal district is having fire fighting services. The columns 16 to 20 relate to different types of electrical connection in number.

Jangaon town is having 39 kms. pucca and 66 kms. kutcha roads, open surface drainage system, 2,955 water borne and 1,055 other types of latrines. Night soil is disposed of by the method of sewerage lines and pit system. Tube well is the source of supply of protected water by storing the water in over head service reservoir having capacity of 16,38,000 Ltrs. Jangaon is having electrical connections of 7,276 domestic, 312 industrial, 1350 commercial and 19 road lighting points.

In respect of Warangal town, it is having 132 kms. pucca and 189 kms. kutcha roads. The drainage system is of sewer lines with open surface drains and 13,800 water borne and 56,600 service latrines are there in the town. In Warangal town night soil is dispersed of by way of sewerage lines and wheelbarrow. Tap water is the source of supply of protected water through service reservoir, overhead tank with a total storage capacity of 1,02,11,000 Ltrs. In Warangal the number of electrical connections existing for domestic, industrial, commercial and road lighting points are 94,897, 1,691, 12,895 and 6,124 respectively.

#### **Statement V : Medical, Educational, Recreational and Cultural facilities, 1999**

In this statement the availability of medical, educational, recreational and cultural facilities are presented with reference to the population of 2001 Census. Both the towns in the district viz. Jangaon and Warangal are having all the facilities. This statement is containing 20 columns. Column 1, 2 and

3 relate to serial number, class, name and civic status of the town and the population recorded during 2001 census respectively. The columns 4 and 5 show about the availability of different hospitals, dispensaries, T.B. clinics, etc., together with beds strength. Columns 6 to 15 relate to educational facilities such as various schools/colleges at all levels including Medical, Engineering, Polytechnic, Technical Institutions and Adult literacy centres. The column 16 is meant for working women's hostels with number of seats. The number of recreational and cultural facilities such as Stadia, Cinema, Auditorium, Community Halls, Public Libraries including reading rooms available in the towns is recorded in columns 17 to 20.

In Jangaon town there are 37 hospital, dispensaries, nursing homes, etc., with a provision of 136 beds. There are two degree colleges and one polytechnic institution and one Engineering College in Jangaon town. Further the town is having 2 typewriting and 2 shorthand institutes to meet the needs of the students. In the town there are 8 higher secondary, 21 secondary, 30 junior secondary and 31 primary schools are existing. For professional courses the students of the town have to go to the nearest town Warangal at a distance of 54 kms. For recreational and cultural purposes the town is having 5 Cinema halls, 4 Auditoria/Drama/Community halls and one Public library and 5 reading rooms.

In respect of Warangal, it is noticed that there are 150 hospitals, dispensaries, nursing homes, etc., with a total bed strength of 1681 numbers. There are 30 degree colleges, one each medical and engineering colleges and 2 polytechnic institute in Warangal town. In this town there are 22 type and shorthand institutes. As regards school education facilities in Warangal, there are 49 higher secondary, 177 secondary, 288 junior secondary and 346 primary schools besides having 28 adult literacy centres and 5 working women's hostels. For catering recreational and cultural needs in the town, there are 16 cinema halls, 1 stadium and 7 auditoriums. In addition to the above the town is having 9 public libraries and 2 reading rooms.

#### **Statement VI : Trade, Commerce, Industry and Banking, 1999**

This statement deals with economic activities in the urban areas with 11 columns. Column 1 and 2

are serial number, class, name and civic status of the town. The columns 3 to 5 give the details of three most important commodities exported and the columns 6 to 8 show the three most important commodities manufactured. The commercial banks, number of agricultural credit societies and the number of non-agricultural credit societies are furnished in the columns 9 to 11.

The urban population of the district imports paddy, sugar, wheat, oils and hides and skins, whereas they export chillies, maize, pulses and cotton. The items which are manufactured in Warangal and Jangaon towns are aluminium utensils, mosaic tiles, leather goods, cotton sarees, electronic goods, etc. The urban population in the district is served by a network of 71 commercial banks, 122 agricultural credit societies and 174 non-agricultural credit societies.

#### **Statement VII : Civic and other amenities in slums, 1999**

This statement gives the details of civic and other amenities provided in all slums whether notified or not. Keeping in view of slums problem in urban areas, during 1981 census this statement was first introduced limiting the details to class I and class II towns. The same pattern was adopted during 1991 census also.

Though the magnitude of slum problem is greater in class I and class II towns, it is accepted that they are associated with smaller towns also. Hence the information on slums has been presented in this

statement in respect of all towns having statutory bodies i.e for Jangaon (NP) and Warangal (M.Corp.).

The statement on slums contain 17 columns. The columns 1 to 4 shows the serial number, class and name of town, name of the slum and whether the slum is notified or not respectively. Column 5 and 6 give the details of approximate number of households and population of the slum during 1999. The length of the paved road in the slum have been shown in Kms. under column 7. The columns 8 to 13 present system of sewerage, number of latrines both private and community and method of disposal of night soil. The column 14 is meant for showing number of tap points / public hydrants. The last 3 columns i.e columns 15 to 17 relate to number of electric connections under domestic, road lighting (points) and others.

Warangal is a class I town with 84 slums scattered in and around the city. The approximate projected population of these slums at 1999 is 134,583 persons. The length of paved roads in all the slums is 67 kms. All the slums are provided with "Open Surface Drain" system of sewerage. There are 3,024 latrines of which 3,000 are private and the remaining are community latrines. In these slums the method of disposal of night soil is "Wheel Barrow" and "Septic Tanks". In all, there are 26 tap points/hydrants. Electricity is provided for 20,700 domestic and 2,500 road lighting points.

Regarding Jangaon town, the above said facilities are lesser than the Warangal (M.Corp.).

## Section I - Village Directory

### (a) Note explaining the abbreviations used in Village Directory :

The “Village Directory” is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The ‘un-inhabited’ villages ( villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

#### Columns 1 : Serial Number

Self explanatory. All the villages within the Mandal Parishad are presented serially in the ascending order of their location code number.

#### Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

#### Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

#### Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

#### Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

#### Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below

#### Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VII are included in the middle school.

Classes from VIII and X included in Higher secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC/JC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

#### Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB

(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

#### Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS-

#### Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

#### Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

**Column 11: Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given:

- |       |                                  |     |
|-------|----------------------------------|-----|
| (i)   | Agricultural Credit Society      | ACS |
| (ii)  | Non- Agricultural Credit Society | NCS |
| (iii) | Other Credit Society             | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

- |       |                      |    |
|-------|----------------------|----|
| (i)   | Cinema / Video Hall  | CV |
| (ii)  | Sports Club          | SP |
| (iii) | Stadium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

- |       |                    |    |
|-------|--------------------|----|
| (i)   | Bus Service        | BS |
| (ii)  | Railway Station    | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

- |       |   |    |
|-------|---|----|
| (i)   | Paved Road                                  | PR |
| (ii)  | Mud road                                    | MR |
| (iii) | Foot path                                   | FP |
| (iv)  | Navigable River                             | NR |
| (v)   | Navigable Canal                             | NC |
| (vi)  | Navigable waterways other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometres in brackets

against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

- |       |                                  |     |
|-------|----------------------------------|-----|
| (i)   | Electricity for domestic use     | ED  |
| (ii)  | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes   | EO  |
| (iv)  | Electricity for all purposes     | EA  |

**Column 17 : News Paper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes

- |      |            |   |
|------|------------|---|
| (i)  | News Paper | N |
| (ii) | Magazine   | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

- |        |                               |     |
|--------|-------------------------------|-----|
| (i)    | Government Canal              | GC  |
| (ii)   | Private Canal                 | PC  |
| (iii)  | Well (without electricity)    | W   |
| (iv)   | Well (with electricity)       | WE  |
| (v)    | Tubewell(without electricity) | TW  |
| (vi)   | Tubewell(with electricity)    | TWE |
| (vii)  | Tank                          | TK  |
| (viii) | River                         | R   |
| (ix)   | Lake                          | L   |
| (x)    | Waterfall                     | WF  |
| (xi)   | Others                        | O   |
| (xii)  | Total                         | T   |

## Section II - Town Directory

**Note explaining the abbreviations used in the town directory**

**Town Directory statements (I to VII)**

**Statement I : Status and Growth History**

**Column (2) : Class, name and civic status of town :**

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand ( 1,00,000 )and above is treated as a city.

The civic status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA

(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate Office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

**Statement II - Physical Aspects and Location of towns, 1999**

**Column 3 to 5 : Physical Aspects**

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

**Column 6, 7 and 8 :**

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometres, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

**Column 9& 10 :**

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

**Column 11, 12 and 13 :**

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the

facility exists is to be mentioned.

### Statement III : Municipal Finance 1998 - 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

### Statement IV : Civic and Other amenities, 1999

#### Column (1 to 5) : Self explanatory.

#### Column (6) : Road length (in kms.)

Information about kutchha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutchha Road	KR

#### Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

#### Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

#### Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B

Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

#### Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

##### Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

##### Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

#### Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

#### Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

### Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

#### Column 1 to 3 : Self explanatory.

#### Column 4 & 5 :

The data covers all such medical institutions

run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

#### Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

#### Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department,

commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting College, Pharmacy College, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

#### Column 11 to 14:

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

**Column 15 : Adult literacy classes/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 : Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

**Statement VI : Trade, Commerce, Industry and Banking, 1999****Column 3 to 8 :**

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11 :**

Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement VII : Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

## Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14<sup>th</sup> continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

### Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed

within a span of only 10 months starting October, 2002.

### Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

### **Primary Census Abstract**

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of

data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

### **Level of presentation in District Census Handbooks:**

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

<b>Name of the Primary Census Abstract</b>	<b>Level of presentation</b>
1. Disstrict Primary Census Abstract	District/Mandal Parishad/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/Mandal Parishad/Town
3. Primary Census Abstract for Scheduled Tribes	District/Mandal Parishad/Town
4. Village Primary Census Abstract	Mandal Parishad/Village wise
5. Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Mandal Parishad wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Mandal Parishad is presented both for rural and urban areas separately. All the villages within the Mandal Parishad constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Mandal Parishad. In case a Mandal Parishad is spread over two or more districts, then portion which falls within the district is presented, the data pertaining to remaining portion of the Mandal Parishad is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless

populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

### **Area Figures**

The area figures supplied by local revenue authorities of the district in respect of mandals, Police Stations and by the local bodies in respect of towns are given in square kilometres. The area figures of the villages supplied in acres have been converted and shown in hectares. The area figures of the Mandal Parishad is the total of the village areas coming under each Mandal Parishad. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Mandals/Mandal Parishads within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages area may not tally with the entire rural of Mandal. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the mandal level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Note : - Percentages are given in brackets.

\* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a handpump / tubewell situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

This table deals with the mandal parishad-wise distribution of villages according to the availability of different amenities like Education, Medical, Improved drinking water, Post Office, Telephone, Transport, Communications, Banks, Agricultural credit societies, approach by pucca road and Power supply within the village. Out of 984 villages in the district, 973 villages or 98.9 percent have been provided with the Education facility of one type or the other. Similarly, 795 villages in the district constitute 80.8 percent have Medical facility of one type or the other. Improved drinking water facility is available in 954 or 97.0 percent villages. As regards Post office facility which includes facilities like Telegraph Office and Post and telegraph

707 villages constitute 71.8 percent of villages have been provided within the village.

299 villages or 30.4% of villages have been provided with Telephone facility, 864 or 87.8 percent with Transport facility, 156 or 15.9 percent of villages with Bank facility and 219 or 22.3 percent with Agricultural Credit Societies. Similarly, there are 652 or 66.3 percent villages which have been linked with the Approach by pucca road. Total 984 or 100.0 percent of villages have been provided with power supply. Almost similar pattern of distribution of villages by availability of amenities in the villages is noticed at mandal parishads.

*Note : - Percentages are given in brackets.*

\* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a handpump / tubewell situated within or outside the premises it is considered as having access to 'Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

<b>District (Rural) Total: 2,494,038</b>			<b>852,588</b>	<b>1,031,409</b>	<b>2,106,844</b>	<b>2,622,792</b>
		<b>(95.1)</b>	<b>(32.5)</b>	<b>(39.3)</b>	<b>(80.3)</b>	<b>(100.0)</b>

The above table depicts the number and proportion of rural population served by different kinds of amenities. Out of total rural population of 2,622,792 persons in the district, 2,618,748 persons or 99.8 percent have educational facility of one or the other type. Similarly 2,433,764 persons or 92.8 percent population has medical facilities, while 2,573,323 persons or 98.1 percent have got improved drinking water facility. Post Office facility is available to 2,362,632 persons or 90.1 percent population. Telephone facility is available for 1,276,181 persons

or 48.7 percent population. Transport and Communication facility is available to 2,494,038 persons or 95.1 percent. Bank facility is available to 852,588 persons or 32.5 percent. 1,031,409 persons or 39.3 percent have been provided with the facility of Agricultural credit societies. 2,106,844 persons or 80.3 percent have been provided with the facility of approach by pucca road. Power supply is available to all rural population in the district. Similar pattern of availability of facilities is visible to the rural population at mandal parishad level.

The above table presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in the table. 14 villages do not have primary school in their villages and out of these villages children of 8 villages have to travel less than 5 kms. for schooling. Out of 984 inhabited villages, as many as 401 are deprived of middle school and 962 of degree college facilities. Of these, 189 avail the facility of middle school at a distance of less than 5 kms. 145 at a distance of 5-10 kms. and the remaining 67 at a distance of 10+ kms. In respect of degree colleges, 37 avail this facility at a distance of less than 5 kms., 155 between 5-10 kms. and rest 770 villages at a distance of 10+ kms.

Similarly, there are 929 villages in the district

which has been deprived of Hospital facility and 901 villages which are deprived of PHC facility. Of these, 47 villages have the facility of Hospital available within 5 kms, while in respect of 177 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 705 villages have this facility at a distance of 10+ kms. As regards PHC, 108 avail the facility at a distance of less than 5 kms., 310 at a distance of 5-10 kms. and the remaining 483 have to travel a distance of more than 10+ kms. to avail this facility.

Regarding Post Office 278 villages do not have this facility in the village itself. Of these, majority of 174 have the facility at a distance of less than 5 kms. another 75 villages avail at a distance of 5-10 kms. In the remaining 29 villages inhabitants have to travel a distance of 10+ kms. As regards Telephone, there are 686 villages in the district which are not having

telephone facility. Of these 78 villages avail the facility at a distance of less than 5 kms., 145 at a distance of 5-10 kms. and remaining 463 have to travel a distance of 10+ kms.

In respect of Bus service, it is noticed that 123 villages do not have facility. Among these villages, 62 villages avail this facility at a distance of less than 5 kms., 30 at a distance of 5-10 kms. and 31 at a distance of 10+ kms.

In the entire district, 848 villages are deprived of Commercial Bank facilities and 938 of Co-operative

Bank. Of these 848 villages which are deprived of Commercial Bank 129 villages avail these facility at a distance of less than 5 kms., 341 between 5-10 kms. and the remaining 378 at a distance of 10+ kms. Regarding Co-operative banks out of 938 villages 59 villages avail this facility at a distance of less than 5 kms., 216 at a distance of 5-10 kms. and remaining 663 at a distance of 10+ kms. 764 villages do not have Agricultural Credit Societies. This facility is available to 151 at a distance of less than 5 kms., 274 at a distance of 5-10 kms. and the remaining 339 at a distance of 10+ kms.

# Post office includes Post office, Telegraph office and Post and telegraph office.

\$ Transport communication includes bus service, rail facility and navigable waterways.

\* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The above table deals with the distribution of villages by population ranges and amenities available therein. In Warangal district, out of 984 villages 973 villages (98.9 percent) have Educational facility, 795 villages (80.8 percent) have Medical facility, 954 villages (97.0 percent) have improved drinking water facility. 707 villages (71.8 percent) have Post Office facility and 299 villages (30.4 percent) have Telephone

facility. 864 villages (87.8 percent) have been linked by Bus service, 156 villages (15.9 percent) have Bank facility. 219 villages (22.3 percent) have been served with the Agricultural Credit Society. 652 villages (66.3 percent) have been linked with Approach by pucca road and 984 villages (100.0 percent) possess Power Supply.

1	2	3	4	5
1	Jangaon	43,996	NA	NA
2	Warangal	579,216	134,583	23.2
<b>District Total</b>		<b>623,212</b>	<b>134,583</b>	<b>21.6</b>

+ Towns arranged in alphabetical order

This table depicts the proportion of slum population in the towns of the district. In Warangal town, out of 579,216 population 134,583 persons dwell in the slums constituting 23.2% of total population. In respect of Jangaon(N.P) the details of slum population is not available.

**TABLE 47**  
**MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001**

Sl. No.	Name and urban status of Town+	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Jangaon (NP)	Cotton Sarees	Paddy
		Electronic Goods	Maize
		Milk	Cotton
2	Warangal (M.Corp.)	Alluminium Utensils	Chillies
		Mosaic Tiles	Pulses
		Leather Tannery	Cotton

+ Towns arranged in alphabetical order

The above table indicates most important articles manufactured and exported from towns in the district. In Jangaon town the important commodities manufactured are cotton sarees and electronic goods. In Warangal town alluminium utensils and mosaic tiles

are mainly manufactured. The chief export item of Jangaon(N.P) is paddy and maize. In respect of Warangal (M.Corp.) Cotton and Chillies are the important commodities exported.

## Annexure - I

### Fertility and Mortality, 1991 Census

Crude birth rate is the most commonly used measures of fertility. To know the fertility rates, certain information was collected from all ever married women during 1991 Census such as (i) Age at marriage (ii) Number of children ever born alive. For currently married women, in addition to above data, if any child born at preceding one year to the Census has also collected. Definition of fertility measures is given in the chapter on Census concepts.

#### Fertility Levels:

Fertility is a natural growth of population to know the fertility rate. During 1991 census, certain information was collected from all ever married women such as age, age at marriage, number of children surviving at present, number of children ever born alive and for currently married women, if any child born at preceding one year to the census. Fertility measures were worked out on F-Series Tables of 1991 Census of Andhra Pradesh.

**Annexure-I (a)**  
**Age Specific Fertility Rates/Levels, 1991**

Age Group	Warangal District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.090	0.096	0.066	0.085	0.092	0.066
20-24	0.192	0.193	0.188	0.179	0.185	0.162
25-29	0.166	0.164	0.174	0.150	0.155	0.137
30-34	0.116	0.116	0.121	0.103	0.108	0.087
35-39	0.078	0.076	0.089	0.068	0.071	0.055
40-44	0.041	0.039	0.055	0.037	0.039	0.029
45-49	0.026	0.021	0.050	0.020	0.021	0.017

#### Age specific fertility rates, 1991 Census:

The age specific fertility rate is higher in the age group 20-24 for both rural and urban areas of warangal district. Even these rates are higher than

the state figures in the same age group. The age specific fertility rates in the age group 15-19 is naturally less since the group constitutes minors. It is seen from the above table the fertility rates are deminishing from age group 25-29 onwards.

**Annexure -I (b)**  
**Age Specific Marital Fertility Rates/Levels, 1991**

Age Group	Warangal District			Andhra Pradesh State		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	0.126	0.124	0.139	0.150	0.149	0.158
20-24	0.205	0.205	0.220	0.198	0.199	0.196
25-29	1.172	0.169	0.183	0.158	0.162	0.147
30-34	0.122	0.120	0.128	0.111	0.116	0.093
35-39	0.083	0.080	0.095	0.074	0.078	0.060
40-44	0.047	0.044	0.064	0.044	0.046	0.035
45-49	0.030	0.025	0.063	0.026	0.026	0.023

**Age Specific Marital Fertility rates, 1991 Census**

It is seen from the above table that the Age Specific Marital Fertility rate is higher than that of

state figures in all age groups except in the age group 15-19. These rates are more in the age group of 20-24 than that of other age groups in the district.

**Child Mortality :**

The estimates of Child Mortality (number of Deaths by ages 1,2,3 and 5 given above as q1, q2, q3 and q5) show that the level of Child Mortality is

higher than that of State both in male and female. The Female Child Mortality is lower than that of Male Child Mortality in District as well as in the State.

#### Fertility Measures:

The above table shows the various measures of fertility and mean age at marriage recorded during 1991 Census. The Warangal district has recorded 31.6 CBR, 4.1 T.F.R, 4.8 TMFR, 130 GFR, 150 GMFR, 4.1 Children per ever Married Women (45-49 years)

452 CWR and 15.4 is mean age at marriage of currently married women. The fertility rates in all categories of the district is higher than the state figures. In respect of mean age at marriage of currently married women, the district figure is lower by 1.4 years.

### Annexure III

## Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census and 2001 Census

#### Migration :

During 1991 Census, the migrants by place of birth were returned 194.64 lakhs in Andhra Pradesh State comprising 62.53 lakhs of males and 132.12 lakhs of females. These migrants constitute 29.3% of the total population, with a breakup of 18.5% of male and 40.3% of female population. In Warangal district 8,45,859 persons constituting 30.0% are

migrants, male migrants constitute 16.0% and female migrants constitute 44.6% to the respective sex. Males are forming more percentage in inter district migrants to total male migrants than that of female inter district migrants percentage to total female migrants. Similar is in case of international migrants, female migration is more among inter state migration than males.

#### Annexure – III(a)

#### Distribution of Migrants by Place of Birth and Percentage, 1991 Census

Place of Birth	Warangal District			Andhra Pradesh State		
	Persons	Males	Females	Persons	Males	Females

(a) Migrants born within the state of enumeration	8,35,529 (98.78)	2,24,742 (97.92)	6,10,787 (99.10)	1,84,06,950 (94.56)	58,47,797 (93.52)	1,25,59,153 (95.06)
(i) Migrants born elsewhere in the District of enumeration	6,72,602 (79.52)	1,73,520 (75.60)	4,99,082 (80.98)	1,38,16,569 (70.98)	48,38,900 (64.59)	97,77,669 (74.01)
(ii) Migrants born in other Districts of State	1,62,927 (19.26)	51,222 (22.32)	1,11,705 (18.12)	45,90,381 (23.58)	18,08,897 (28.93)	27,81,484 (21.05)
(b) Migrants born in other States of India	9,730 (1.15)	4,580 (2.00)	5,150 (0.83)	10,26,863 (5.28)	3,88,924 (6.22)	6,37,939 (4.83)
(c) Migrants born in other countries	600 (0.07)	190 (0.08)	410 (0.06)	30,610 (0.16)	16,120 (0.26)	14,490 (0.11)
<b>Total Migrants</b>	<b>8,45,859 (100.0)</b>	<b>2,29,512 (100.0)</b>	<b>6,16,347 (100.0)</b>	<b>1,94,64,423 (100.0)</b>	<b>62,52,841 (100.0)</b>	<b>1,32,11,582 (100.0)</b>

Source: Part –VA and VB – D Series, 1991 ( Vol-I)

It is seen from the above statement that the migrants-wise place of birth is broadly classified as (a) migrants born within the state of enumeration (b)migrants born in the other states of India and (c)migrants born in other countries. The migrants born within the state have further divided into (i)migrants born elsewhere in the district of enumeration and (ii)migrants born in other districts of state.

In Warangal district among total migrants, females out number males as in the case of state figures. Similar trend is noticed in all categories of migrants by place of birth in the district. About 410 female migrants born in other countries as against 190 males. At state level the male migrants born in other countries constituted 0.26% as against 0.11% in females.

Source: Migration Tables (D Series) - 2001

The migrants by place of birth were returned 194.6 and 228.3 lakhs in Andhra Pradesh State as per the 1991 and 2001 Censuses respectively. It shows a growth rate of 17.3% total migrants over 1991 Census with a breakup of 21.8% males and 15.2% females. In Warangal district the migrants are 845,859 persons as per 1991 Census whereas 875,342 persons are in 2001 Census with a growth rate of 3.5% over 1991 census. In both the Censuses the

female migrants are more than male migrants due to marriages.

In respect of inter district migrants, male migrants are forming less percentage than female migrants. Whereas in intra-district the percentage of males can be seen more. In the case of intra-state migrants the males are more than females in both the Censuses. In case of International Migrants, there is no variation between two censuses.

**Note :** 1. Birth place un-classified included in total  
2. Figures noted as unspecified are included in totals only.

**Source :** Migration tables (vol.I) Part VA and VB-D series.

The rural and urban composition of internal migrants by place of birth as recorded in 1991 census in respect of Andhra Pradesh and warangal district are shown in the above statement.

**Rural and Urban Components of Migration :**

The flow of migrants by place of birth have classified into four streams such as (i) Rural to Rural (ii) Rural to Urban (iii) Urban to Rural (iv) Urban to Urban. The data on the basis of these four streams in case of migrants is classified by place of birth. It presents data only in relation to internal migrants.

Of the total 184.07 lakhs of internal migrants in Andhra Pradesh 63.92% have been moved from rural to rural followed by rural to urban with 20.95%, urban to urban with 9.34% and urban to rural 5.72%. In case of migrants the place of birth from other states,

for Andhra Pradesh they have been accounted for 10.27 lakhs. The distribution of 10.27 lakhs of migrants is from rural to rural 33.94%, from rural to urban 21.77%, urban to rural with 10.73% and urban to urban 33.39%. The higher migration by place of birth has found in rural to rural in the state.

Of the total population of 8.35 lakhs of internal migrants in Warangal district, 75.26% have moved from rural to rural, 4.69% have moved from urban to urban, 13.5% have moved from rural to urban and 4.69% to urban to rural.

In respect of place of birth in other states of India, In Warangal district out of the total 9,730 persons 23.30% have moved from Rural to Rural and 37.51% have moved from Urban to Urban 23.85% have moved from Rural to Urban and 16.14% from Urban to Rural.

22	Anantapur	99,062 (11.4)	17,618 (7.7)	81,444 (12.7)	342 -	156 (0.1)	186 -	869,213 (100.0)	229,742 (100.0)	639,471 (100.0)
23	Chittoor	158,072 (15.2)	42,508 (13.7)	115,564 (15.8)	766 (0.1)	421 (0.1)	345 -	1,041,196 (100.0)	311,072 (100.0)	730,124 (100.0)

The above annexures show the percentage distribution of migrants by place of birth as recorded in both the Censuses of 1991 and 2001 in Andhra Pradesh state. It is observed that 3.0% increase in the migration who were born elsewhere in the district of enumeration with a sex breakup of 3.0% each, whereas in respect of the migrants who were born in other districts of the state, in other states of the country and in other countries are recorded with a difference of -2.2%, -0.8% and -0.1% respectively between two censuses of 1991 and 2001.

In respect of Warangal district the difference between the two Censuses can be observed with 4% in the persons born elsewhere in the district of the enumeration, with the sex break up of 5.3% males and 3.5% females. Regarding the migrants from other states in India only a minor variation is recorded with -0.4%.

Among the migrants that are born in the Abroad decrease in the percentage is noticed between 1991 and 2001 censuses.

## Annexure IV

### Brief account of Main religions in the district/ mandal as per 1991 Census and 2001 Census

**Religion :**

under the category "Others".

The data on religion has been collected and presented for six major religions viz. Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. In respect of minor religions, they have been classified and shown

During 1991 Census the religion data was collected through question No.8 of the individual slips and recorded the religion as stated by the individual.

In 1991 Census all the six major religions were returned in Warangal district. Out of the total population of 2,818,832 persons in the district, Hindus constituted 2,637,749 persons, Muslims 156,054 persons, Christians 22,577 persons, Sikhs 978 persons, Jains 275 persons, and 16 persons belong to Buddhist religion. In terms of percentage to total population, Hindus have returned with 93.58% followed by Muslims with 5.54% and 0.80% of Christians. There are 1,176 persons returned in the district as “no religion”.

In all 50 mandals Hindu, Muslim and Christian religions have been returned in both rural and urban areas of the district in 1991 Census. Among these three religions Hindu religion has dominated in almost all mandals.

As regards to Muslim religion, this religion occupies 2nd place in the district with 1,56,054 persons. Hanamkonda mandal has recorded highest

Muslim population in the district with 77,589 persons forming 15.04 percent of total mandal population followed by Mahabubabad mandal with 6,232 persons and Jangaon with 5,279 persons. The least number of Muslim persons were returned in Narmetta mandal with 435 persons only.

Though the Christian religion was identified in almost all mandals, their number is very less when compared to Hindus and Muslims. There is no Christian population in the rural areas of Raiparathi mandal. Hanamkonda mandal has recorded highest Christians in the district with 8,813 persons followed by Narmetta mandal with 1202 persons, Jangaon mandal with 1,092 persons and Raghunathapalle mandal with 1,031 persons. In Parvathagiri mandal the least number i.e 2 males and one female Christian recorded.

The Jain religion has been recorded with 275 persons in the district. All of them were returned in Warangal and Dornakal towns only.

Among Buddhists, 16 persons were returned and all of them are found in Warangal town only.

This district has 978 persons in Sikh religion and spread over in 16 mandals. The highest number was

recorded in Hanamkonda mandal with 781 persons followed by Jangaon with 117 persons only. Readers have to follow the religion table for other details like rural-urban breakup and male-female breakup with mandal-wise in the district.

#### India- State- District differentials :

The comparative data on religion among India, Andhra Pradesh and Warangal district reveals that concentration of Hindus was higher followed by Muslims and Christians as per 1991 Census findings. Hindus were returned on the higher side in the State

with nearly eleven percent more than the national average, while in Warangal district they were more over one percent than national and nearly two percent less than the State. They constituted 82.4%, 89.14% and 93.58% in India, Andhra Pradesh and Warangal district respectively. Muslims recorded as 11.7% in

India, 8.91% in Andhra Pradesh and 5.54% in the district. It shows their percentage in the district is less than the percentage of India and the State. The percentage of Muslims in the State is less than the Country, while the percentage of Christians in the country is more than the State i.e., 2.3% in India 1.83% in the State and 0.80% in the district. Buddhists, Sikhs and Jains formed less than 1% both in the Country, State and district, whereas Sikhs recorded 2% in the Country.

Religion-wise growth in the state during the decade 1981-1991 census shows that Hindus recorded higher growth rate than India as a whole i.e. 24.7% as against 22.3% in India. The growth rate of Hindus in the district is less than the state and slightly higher than country.

The growth rate among the Muslims in the district is 21.39% which is less than State as well as Country. The Christians population has decreased in the State as well as in the district during the decade.

**Inset Table to Annexure IV (b)**

Source: Religion Data, Andhra Pradesh - 2001

This table gives the comparative data on religions among India, Andhra Pradesh and Warangal district between 1991 and 2001 census, whereas the previous Annexure furnish the comparative data on religion during 1981 and 1991. At India level among the total population returned in the 2001 census Hindus constituted 80.5% as against 82.4% in 1991. The percentage growth rate of Hindus during the decade 1991-2001 has recorded 20.3 whereas the corresponding growth rate during 1981 and 1991 was 22.3%. It clearly shows that growth rate in Hindu population is diminishing which can be attributed that the people of this religion is more conscious about family planning methods. In Andhra Pradesh the percentage of Hindus has recorded 89.0 whereas the corresponding figure during 1991 was 89.1%. However the percentage growth rate of Hindus has fallen to 14.4 from the percentage growth rate of 24.7 as recorded during the decade 1981-1991. In Warangal district though the percentage of population of Hindus recorded 93.3 as against 93.6% in 1991 their growth rate in 1991-2001 has fallen to 14.8% as against the growth rate of 23 % in 1981-1991.

In respect of Muslims, their percentage to total population has recorded 13.4 at India level as against 11.7% in 1991. In Andhra Pradesh their percentage has gone up to 9.2% from 8.9% in 1991. In respect of Warangal district, Muslims constituted 5.5% of total population during 2001, whereas the corresponding figure recorded in 1991 was also 5.5. However in this district the growth rate in the decade 1991-2001 has declined to 13.6% as against the growth rate of 21.4% recorded in 1981-1991.

The other main religion going by numerical strength is Christians. They constituted 2.3% of total population at India level during 2001 census. Their growth rate during the decade 1991-2001 is 22.6% at India level as against the growth rate of 16.9% recorded in 1981-91. In Andhra Pradesh the percentage growth rate continues to show the negative trend. The percentage growth rate of this community recorded during 1991-2001 is (-) 2.8 as against (-) 15.1 recorded during decade 1981-1991. In Warangal district during 2001 Christians constituted 1 % to total population as against 1 % in 1991 also.

The percentage growth rate of this community during 1991-2001 has recorded 47.7% as against (-) 10.9%

in 1981-1991. In respect of other main communities their growth rate is negligible.

**Annexure IV (c)**  
**Distribution between Rural and Urban area of Major religions in Andhra Pradesh and warangal district - 1991 Census**

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Warangal District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.55	23.45	82.95	17.05
2	Muslims	41.83	58.17	45.58	54.42
3	Christians	60.48	39.52	55.05	44.95
4	Jains	4.11	95.89	-	100.00
5	Buddhists	80.41	19.59	-	100.00
6	Sikhs	10.85	89.15	8.69	91.31

**Rural - Urban differentials :**

The above table shows the rural-urban differentials between Andhra Pradesh and Warangal district. The Hindus form considerably higher in rural areas both at state and district levels i.e., 76.55% and 82.95% respectively. Similar is the case

with Christian religion. In respect of Muslims, they are more concentrated in urban areas both at state and district levels. The Jains and Sikhs are more in urban areas than rural areas both in the state and district. At state level Buddhists are more in rural areas whereas in Warangal district they are totally concentrated in urban areas.

**Inset table to Annexure IV (c)**  
**Distribution between Rural and Urban area of Major religions in Andhra Pradesh and Warangal district - 2001**

Sl. No.	Name of Religion	Andhra Pradesh (in %)		Warangal District (in %)	
		Rural	Urban	Rural	Urban
1	Hindus	76.3	23.7	83.1	16.9
2	Muslims	41.9	58.1	47.7	52.3
3	Christians	55.0	45.0	55.0	45.0
4	Jains	5.0	95.0	48.0	52.0
5	Buddhists	66.0	34.0	41.0	59.0
6	Sikhs	17.0	83.0	14.0	86.0

Source: Religion Data, Andhra Pradesh - 2001

The above table indicates the distribution of major religions between rural and urban in Andhra Pradesh and Warangal district during 2001 census whereas the previous Annexure has given details recorded in 1991 census. The above Annexure and inset table to Annexure show that the distribution of main religions between rural and urban at state level as well as at district level.

At the State level in 2001 census Hindus, Buddhists and Christians are lived more in rural areas. The Muslims occupied 4<sup>th</sup> place. In urban Jains and Sikhs occupied first and second places with 95% and 83% respectively. In case Muslims and Christians 3<sup>rd</sup> and 4<sup>th</sup> places can be seen with 58% and 45% respectively. The same position was in 1991 census

also.

In 2001 census at the district level Hindus stood first with a percentage of 83.1% followed by Christians with 55%. Third place occupied by Jains with 48% who are lived more in rural areas whereas in urban areas the other religions i.e., Sikhs with 86% stood first followed by Buddhists with 59% and third place occupied by Muslims with 52.3%.

In 1991 also rural areas occupied by Hindus and Christians in first and second places with 83% and 55% respectively and the third place occupied by Muslims with 45.6%. Hundred percent people of Jains and Buddhists were occupied in urban areas whereas the Sikh people were lived with 91.3%.

## Annexure V

### Marital status of population as per 1991 Census and 2001 Census

Marital status has been classified as (i) Never Married, (ii) Married, (iii) Widowed and (iv) Divorced or Separated. To ascertain the marital status of a person, it has been made in the following manner.

- (i) A person who has never married at any time before, treated him/her as never married
- (ii) A person who has been married, whether for the First or another or at any time and whose marriage is subsisting at the time of Enumeration with the spouse living treated such a person as married
- (iii) A person whose husband/wife is dead and

who has not been married again, treated her/him as widowed

- (iv) A person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or by an accepted social or religious custom but who has not remarried, treated such a person as Divorced/Separated.

The following statement shows the Age, Sex and Marital Status composition of the population separately for Total, Rural and Urban in Warangal district during the 1991 Census.

**Marital status:**

Among 28,18,832 persons of the district population 45.4% are never married, 50.1% are married and 4.2% are Widowed. 0.4% are Divorced or separated persons found in all the age groups i.e. even after age of 44 years. It is evident from the Annexure-V, that childhood marriages are still prevailing in the district. According to the statement 3,460 males and

10,400 females were currently married in the age group of 10-14 years. It is pitiable to note that about 460 persons were found Widowed in the age group of 10-19 years. The childhood marriages are resulting in going for divorce or separation. About 1,480 persons got separated in the age group of 10-19 years. Among the divorced and separated persons highest percentage i.e. 0.8% was found in the district in the age group of 20-24 years.

Source: Socio-cultural Tables (C-Series) - 2001

The above inset table gives the details by age, sex and marital status composition of the population separately for total, rural and urban areas of the district during 2001 census, whereas the previous Annexure shows the above details for 1991 census. In 1991 while furnishing age group-wise marital status data, a separate age group 15-44 where the marital status was high has been shown. In 2001 census keeping in view of persons aged less than 18 years and persons aged less than 21 years, being high concentration of marital status, has been furnished. In the district population of 3,246,004 persons, 810,095 (25.0%) males and 631,316 (19.4%) females were recorded as never married. In the total district population, 810,042 (25.0%) males and 833,812 (26.0%) females were found married during 2001

census. It is pity to note that as against 126,600 widows 21,398 widowers were found in the district during 2001 census. The reason for high percentage of widows can be attributed to aged males marrying younger females. As against total population of 1,243,277 persons in the age group less than 18 years, 51.4% males and 46.4% females were found never married in 2001 census. In respect of married persons under the age group less than 18 years, only 0.2% males and 1.9% females were recorded in 2001 census which means public are more conscious about Marriage Act and also ill-fate of early marriages. Similar trend is noticed both at rural and urban areas even for age group less than 21 years. There is no much variation in the figures of marital status of the district between 1991 and 2001 censuses.

## Annexure VI

### Age , sex and Education in the district as per 1991 Census and 2001 Census

The education table was worked-out on the basis of literates in the district.

#### Definition of literate :

A person who can both read and write with understanding in any language is to be considered as literate. If a person who can merely read but cannot write is not a literate. It is not necessary that a person

who is literate should have received any formal education or should have passed any minimum educational standard. All the children in the age of 6 years or less have been treated as illiterate even if the child is going to school and may have picked up reading and writing.

The following table gives age, sex and education in the district at 1991 Census:

**Annexure VI**  
**Age, Sex And Education In The District as per, 1991 Census**

Source: Socio-Cultural tables, part IV A - C series, Census of India, 1991 Andhra Pradesh

It is seen from the above statement that among school going age group (7 to 14 years) between 48% and 77% are literates, while total literates in the district has been worked out to 39.3%. Females are accounted only 26.08% literates as against 51.98%

among males. In all the age groups male literates are considerably dominating females. The highest percentage of literates found among the persons aged 11 years in both the sexes.

not stated

Source: Socio-cultural Tables (C-Series) - 2001

The Annexure presented in the pre-page gives the details of Age, Sex and Education in the district for 1991 census whereas the above inset table reveals the data for 2001 Census. As was done in the previous Census, the children in the Age group 0-6 have been treated as illiterates even in 2001 census. It is seen from the above table that the district has recorded 57.1% literates in 2001 as against 39.3% literates in 1991. In the district the literacy rate for males has recorded 68.9% as against 45.1% in females during

2001 Census. From the above inset table it is noticed that in the school going age groups i.e 7 to 14 years, their literacy rate recorded between 74.9% and 86.4%. In all the age groups male literates are dominating females. The highest educated are found in the age group 11 years with 92.1% and their sex-wise breakup recorded 94.9% in males and 88.9% in females. It is a good trend that the essentiality of the education is felt much by the general public.

## Annexure VII

### Distribution of different mother tongues returned in 1991 Census at District/ Mandal level and the data at District level for 2001 Census

#### Mother Tongue :

Mother tongue is the language spoken in the childhood by a person mother to the person. If mother dies in infancy, the language mainly spoken in the person's home in childhood will be treated as mother tongue. In the case of infants and deaf-mutes the language usually spoken by the mother will be the mother tongue. A very large number of mother tongues have been returned during 1991 Census. It lead to thorough scrutiny and rationalisation, which resulted in 1,576 rationalised mother tongues and 1,796 names were treated as unclassified or "others". The 1,576 rationalised mother tongues were further classified following the usual linguistic methods for rational grouping based on available linguistic information. Thus a total inventory of classified mother tongues returned by 10,000 or more speakers at the all India level were grouped under appropriate languages, where possible, was prepared for final presentation of the 1991 Census data. The total

number of languages so arrived at is 114. Of which 18 languages are included in Eighth Schedule to the constitution of India(Scheduled languages).

The State language "Telugu" is mainly spoken in Warangal district. During 1991 Census this language has returned 23,67,207 persons comprising 84 percent followed by Hindi with 9.9 percent and Urdu with 5.06 percent. Besides many other languages were returned in the district, but their percentage is negligible. Telugu language has occupied 1st rank in the district being regional language.

Telugu has also dominated in all 50 mandals in the district. No other language has dominated in any mandal of the district. Lambadi and Urdu were also returned in the district. Urdu has identified 2nd place in Hanamkonda mandal only and Lambadi language has 3rd place in Maripeda mandal. Another point is very interesting i.e. the Hanamkonda mandal has returned 7 languages i.e. Telugu, Urdu, Lambadi, Hindi, Marathi, Marwari and Tamil.

The above inset table gives the abstract of the languages as mother tongues and their strength in the district recorded in 2001 Census whereas the previous annexure shows the details for 1991 census. In 1991 the data was presented in alphabetical order whereas in 2001 the mother tongue data has been presented basing on their numerical strength in descending order. The mother tongues having minor returns have been clubbed together and added in the category of 'Others'. Telugu being the region's

language has recorded 83.1% to total population in the district with a slight decline in the percentage recorded in 1991(83.9). The next highest language being spoken is Hindi with 10.7% to total population of the district whereas in 1991 the percentage of Hindi speaking people recorded as 9.9%. In respect of other scheduled languages it is noticed that their strength is negligible both in 1991 and 2001. In the district almost all the scheduled languages have returned except Kashmiri language.
