## P R E F A C E

The 1971 District Census Handbooks were proposed to be brought out in three parts, viz., A, B and C. Part A was to contain Town and Village Directory and Part B was to include Primary Census Abstract, while Analytical Reports, Departmental Statistics and Census Tables—both full count and sample census tables—were to be published in Part C. The manuscripts of Part A and Part B were ready almost at the same time. These two parts therefore were published in a combined volume in 1972.

As for the printing of Part C Volume, the full count census tables were received in this Office and compilation of Departmental Statistics was also finalised by the middle of 1972. However, the Sample Census tables which were being processed mechanically at the All India level were not likely to become available for quite some time. With a view therefore to publish the available data as quickly

as possible, it was decided to split up Part C into two parts and permission was accordingly obtained from the Registrar General, India, Full Count Census Tables and Departmental Statistics were published in Part C-I. Later, when Rural Sample Tables were *made available, they were published immediately in Part C-II*, alongwith Housing tables of all areas, analytical report on Census and related statistics and hypothesis tables and comments thereon deferring the publication of Urban Sample tables in the "Supplement to Part C-II".

The "Supplement" now being published includes remaining sample tables of B, C and D series for urban and all areas, alongwith short explanatory notes.

With this Volume, the publication programme of the 1971 District Census Handbook Series of Gujarat is complete.

## I. INTRODUCTION

### 1. GENERAL

With a view to making the data available to the users as quickly as possible it was decided to bring out the District Census Handbooks of 1971 Census in three separate volumes as under :

- (i) Part-A : Town and Village Directory
- (ii) Part-B : Primary Census Abstract
- (iii) Part-C : Introductory Essay, Official Statistics and Census Tables

The compilation of the data for Parts A and B was ready almost at the same time. These two parts therefore have been published in a combined volume. As regards the compilation of the material to be included in Part C, the Departmental Statistics and Full Count Census Tables were ready in the beginning of 1972 but there was no likelihood of the early availability of the remaining Census Sample Tables. In view of this, it was decided to split up Part-C volume into two parts namely Part C-I and Part C-II and publish Part C-I incorporating Departmental Statistics and Full Count Census Tables, immediately. Accordingly, Part C-I volume was published in 1972.

The remaining sample tables along with Analytical Report on Census and Related Statistics were proposed to be included in Part C-II volume of the District Census Handbooks. The Rural Sample tables were received from the Registrar General's Office and the analytical report on census and related statistics was also ready. However the Urban Sample Tables which were being processed on electronic computer at the national level were still awaited and were not likely to become available for quite some time more. In order therefore to release the data which was already finalised without any further delay, Part C-II was further split up into two sub-parts viz., (1) Part C-II ( without Urban sample tables ) and Supplement to Part C-II incorporating sample tables of urban areas and all areas. Part C-II for all the districts has been published.

The present volume-Supplement to Part C-II-includes the remaining district level sample tables of the following series :

- B Series-Economic Tables
- C Series-Social and Cultural Tables
- D Series-Migration Tables

### 2. DEFINITIONS AND CONCEPTS

Explanations of some of the important concepts and definitions used in the 1971 Census are given below with a view to properly understanding the data presented in this volume.

#### 1. Household

A household is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. A household may consist of related or unrelated persons. Hotels, boarding houses, hostels, orphanages, rescue homes, ashrams etc., where a number of unrelated persons live together are called 'Institutional Households'. Persons living singly constitute single member household.

## **2. Head of the Household**

The Head of the Household is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The Head of the household need not necessarily be the eldest male member, but may even be a female or a young member of either sex.

## **3. Main Activity**

All persons are divided into two broad streams of main activity namely, (1) as workers and (2) as non-workers according as the type of main activity that the person returns himself as engaged in mostly. The main activity of a person is ascertained according as he spends his time basically as a worker producing goods and services or as a non-worker.

## **4. Worker and Non-worker**

### **(a) Worker**

A worker is defined as a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work also.

#### **(i) Cultivator**

A person is considered working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institution for payment of money, kind or share. Cultivation includes ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajri, ragi etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and other crops such as sugarcane, groundnuts, tapioca etc, and does not include fruit growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

#### **(ii) Agricultural labourer**

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He has no risks in the cultivation but he merely works in another person's land for wages. He has no right of lease or contract on land on which he works.

### **(b) Non-worker**

Persons whose main activity is not engaged in any economically productive work, but who are basically non-workers are categorised under seven-broad heads namely, (1) Household duties, (2) Students, (3) Retired persons or rentiers, (4) Dependents, (5) Beggars etc., (6) Inmates of penal, mental or charitable institutions or convicts of jails etc., and (7) Other non-workers.

#### **(i) Dependents**

Dependents include all non-workers even if able bodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either, but are purely dependents.

#### **(ii) Beggars, etc.**

This covers b-ggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

*(iii) Other non-workers*

This includes all non-workers not covered under any of the above six categories of non-workers but are seeking work. A person merely spending his time at home as a dependent and is not doing or seeking any work is included under the category 'Dependents' and not under this category.

**5. Household Industry**

A Household Industry is defined as an industry conducted by the Head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of the registered factory.

**6. Class of worker**

Persons doing work other than as cultivator or agricultural labour or engaged in household industry, are classified into following four categories viz, (1) Employer, (ii) Employee, (iii) Single worker and (iv) Family worker.

*(i) Employer*

An employer is one who employs one or more employees to help him in his work. A person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

*(ii) Employee*

An employee is a person who usually works under some other person for salary or wages in cash or kind.

*(iii) Single worker*

A single worker is a person who works by himself. He is not employed by any one else and in his turn does not employ anybody else, not even members of his household except casually. This definition includes a person working in joint partnership with others hiring no employees and also a member of a producers' co-operative.

*(iv) Family worker*

A Family worker is a member of a household who works without receiving wages in cash or kind in an industry, business, trade or service run by the head of the household himself or/and other member of the household.

Household industry by its very definition is conducted by the head of the household himself or/and other members of the household and the role of hired workers in a household industry is secondary. If the head along with the members of the household is working in a household industry, employing hired workers, the head and other members who are working are treated as family workers. If the head alone is working with the assistance of hired workers whose role is secondary the head is treated as a single worker. Thus there are only three classes of workers in case of persons engaged in household industry, viz., (i) Family workers, (ii) Single worker, and (iii) Employee, and there will be no employer.

**7. Secondary work**

Persons who return their main activity as either 'worker' or 'non-worker' and are engaged in some economic activity even if marginal, in addition to their main activity are considered as doing "secondary work".

## II. EXPLANATORY NOTE TO SAMPLE CENSUS TABLES

All the full count census tables have been published in Part C-I of the District Census Handbooks of Gujarat State. Fourteen Sample tables namely 6 tables of B series, 2 tables of C series, 2 tables of D series and 4 tables of H series have also been published in Part C-II volumes of the District Census Handbooks. These B, C and D series tables were compiled for rural areas only whereas the H series tables were prepared for total, rural, urban and city areas of the district. The remaining sample tables of B, C and D series are incorporated in the present volume.

The sample tables of B, C and D series except table C-I Part A and B provide estimates based on 10 per cent sample of rural individual slips and 20 per cent sample of urban individual slips. Table C-I Part A and B is prepared on the basis of 20 per cent sample of both rural and urban individual slips. These tables provide information on important Socio-Economic, Cultural and Migration characteristics of the population in the district. Explanatory brief notes are given in the fly leaf preceding the tables.

## B-ECONOMIC TABLES

Two tables viz. B-I Part A and B-II based on full count have been published in Part C-I of the District Census Handbooks of 1971. Six tables pertaining to rural areas viz. B-III Part B, B-IV Part A with its appendix, B-VI Part-B (i) and B-VI Part-B (ii), B-VII and B-VIII have been published in Part C-II volume.

The following seven tables of B series are included in the present volume

- 1 B-III Part A
- 2 B-IV Part A with its appendix
- 3 B-IV Part D
- 4 B-VI Part A (i)
- 5 B-VI Part A (ii)
- 6 B-VII
- 7 B-VIII

B-III Part A gives classification of workers and non-workers according to main activity by educational levels in Urban Areas. The educational levels adopted for this table are as under :

- 1 Illiterate
- 2 Literates ( without educational level )
- 3 Primary
- 4 Middle
- 5 Matriculation or Higher Secondary
- 6 Non-technical diploma or certificate not equal to degree
- 7 Technical diploma or certificate not equal to degree
- 8 Graduate degree other than technical degree
- 9 Post graduate degree other than technical degree and
- 10 Technical degree or diploma equal to degree or post graduate degree in  
Engineering and Technology, Medicine, Agriculture, Veterinary and Dairying, Teaching and Others.

This table corresponds to Table B-III Part A of 1961 with some changes in industrial categories and educational levels.

Table B-IV Part A gives distribution of persons at work other than at cultivation as main activity by Divisions, Major groups and Minor groups of National Industrial Classification, 1970 ( N.I.C. 1970 ) which has been adopted with suitable modifications wherever necessary. In this table the data is presented for All areas and Urban areas.

The table is supplemented with an appendix giving information similar to that contained in Table B-IV Part C of 1961 in so far it relates to workers engaged in Manufacturing, Processing, Servicing and Repairing. This appendix shows classification of workers by Industry Category viz, Household and Non-household.

Table B-IV Part-D which corresponds to Table B-IV Part B of 1961 gives distribution of persons at work in non-household industry, trade, business, profession or service as main activity by each class of workers viz, employers, employees, single workers and family workers and by Divisions and Major Groups of National Industrial Classification, 1970 (N. I. C. 1970). The table is presented for Total and Urban areas.

A list of industrial codes indicating the industrial divisions and major and minor groups is given in the Annexure at the end of the table.

Table B-VI Part-A (i) gives occupational classification of persons at work according to main activity other than cultivation.

The table is prepared for urban areas upto Divisions and Groups of National Classification of Occupations (N. C. O. 1968). The distribution of population under each division and group of National Classification of Occupation is presented by nine age-groups, viz, 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59, 60+ and Age not stated.

Table B-VI Part-A (ii) is prepared for urban areas of the district and gives occupational classification of persons at work according to main activity other than cultivation by sex and broad educational levels.

The table is prepared upto Divisions and Groups of National Classification of Occupations which are further cross classified by educational levels viz, Primary, Middle, Matriculation or Higher Secondary, Non-technical diploma or certificate not equal to degree, Technical diploma or certificate not equal to degree, Graduate degree other than technical degree, Post-graduate degree other than technical degree, Professional degree or diploma equal to degree or post graduate degree such as engineering and technology, medicine; agriculture; veterinary or dairying, teaching and others. In 1961 such information was furnished in one table at Occupational Division level only.

A list of occupational codes indicating the occupations is given in the Annexure at the end of the table.

Table B-VII is a new addition and relates to total, rural and urban areas. This table present statistics of main activity by Secondary work. The persons having main activity as cultivator, agricultural labourer, working at household industry, at non-household industry, trade, business or service and non-workers are further cross-tabulated in case of persons whose secondary work is either (i) cultivation or (ii) agricultural labourer or (iii) household industry or (iv) non-household industry, trade business, service etc.

Table B-VIII is prepared for total, rural and urban areas for non-working population. As against eight categories of non-working population in 1961 Census, the data is presented for seven categories of non-workers, in this table, the last category 'other' largely comprising the 'Unemployed'. This table is comparable at district level to the Table B-IX of 1961 Census wherein the details of non-working population by sex and broad age-groups viz. 0-14, 15-34, 35-59, 60+ and 'Age not stated' were given for each type of activity of non-working population. As against the five age-groups adopted in 1961 Census, this table presents nine age groups viz., 0-14, 15-19, 20-24, 25-29, 30-39, 40-49, 50-59, 60+ and 'Age not stated.'

\* Includes figures of educational levels not classifiable.

\*\* In Gujarat State only two levels of education are recognised viz, (i) Primary (from Std. I to VII) and (ii) Secondary (Std. VIII to XI). With a view to presenting these figures on uniform basis as for the rest of the country and to ensure comparability of figures presented in All India Tables, the 'Middle' level has been introduced. These figures have been classified for the following levels according to the standard mentioned against each of them.

(i) Primary—Passed Standard V but not VIII

(ii) Middle—Passed Standard VIII but not XI

(iii) Higher Secondary—Passed Standard XI but had not acquired a University degree or diploma.

Persons have been classified in 'Primary' level if they have passed Standard V. If they were reading VI or VII or VIII, but had not passed VIII, they have been classified under 'Primary' level. Those who have passed the Standard VIII have been classified under 'Middle'. This will include those reading in IX, X or XI Standard but not passed XI. Those who have passed Standard XI but have not passed any University degree or diploma examination have been classified under 'Higher Secondary.'

## C-SOCIAL AND CULTURAL TABLES

Full Count Census Tables C-V, C-VII and C-VIII Parts A and B with their appendices have been published in Part C-I of the District Census Handbook. Sample Census Tables C-II and C-III Part A have also been prepared for rural areas on the basis of 10 per cent sample and published in Part C-II Volume

The tables included in the present volume are:

- 1 C-I Part A
- 2 C-I Part B (i)
- 3 C-I Part B (ii)
- 4 C-II
- 5 C-III Part A
- 6 C-III Part B
- 7 Appendix to Table C-IV

The estimates of Tables C-I Part A, C-I Part B (i) and C-I Part B (ii) are based on 20 per cent sample of rural as well as urban individual slips whereas the estimates of remaining tables are based on 10 per cent sample of rural individual slips and 20 per cent sample of urban individual slips.

Table C-I Part A is prepared for Total, Rural and Urban population and gives the composition of the households by relationship to the head of the household classified by three broad age-groups, Less than 30, 30-49, 50+. 'Age not stated' is included in 'All ages'. Related and unrelated members of the households and the single member households are shown separately. The relationship to the head of the household has been given separately for married son, brother, father, mother and other male and female members and combined for son, brother, daughter, sister, father, mother and other male and female members having other marital status. Among married relations, the spouses of the heads of the households are given separately.

This table will be of sociological interest indicating the extent of the joint family system.

This table corresponds to Table C-I of 1961 Census which was also prepared on 20 per cent sample basis for rural, urban and total population separately. The relationship to the head however was shown as "married sons" and "other married relations" and were not classified by broad age-groups.

Table C-I Part B (i) and B (ii) are prepared for total population. These two tables taken together correspond largely to Table C-I of 1961. Table C-I Part B (i) gives composition of households where head is male by relationship of members with the head of the household and Table C-I Part B (ii) gives similar data for the households where the head of the household is female.

Table C-II is prepared for Total, Rural and Urban population and gives data on age and marital status of the population.

This table corresponds to Table C-II of 1961 which was prepared on full count basis and Table C-II of 1951 which was prepared on the basis of 10 per cent sample. This table presents distribution of population by age-groups cross classified by marital status viz, (1) never married, (2) married, (3) widowed, (4) divorced/separated and (5) unspecified.

Table C-III which gives data on Age, Sex and Education has been prepared separately for Total and Urban population as Part A and Part B respectively. The age-groups for both Part A and Part B are the same viz, 0-4, 5-9, 10-14, 15-19, 20-24, 25-34, 35+ and 'Age not stated'. There is however a slight difference in the

educational levels in Part A and B. In Table C-III Part A broad educational levels upto graduate and above are given for all areas, while in Table C-III Part-B educational level of graduate and above is further classified into graduate degree other than technical degree, post-graduate degree other than technical degree and technical degree or diploma equal to degree or post-graduate degree. The last category is further classified into Engineering and Technology, Medicine, Agriculture, Veterinary and Dairying, Teaching and Others. Comparable table, are table C-IV of 1951 Census which was prepared on 10 per cent sample basis and Table C-III Part A and Part B of 1961 Census which was prepared on full count basis.

#### **Appendix to Table C-IV**

Table C-IV Single Year Age Returns is prepared separately for total, rural and urban population at the State level. This table is based on 10 per cent sample of rural individual slips and 20 per cent sample of urban individual slips. The corresponding table was prepared in 1961 Census on full count and on 10 per cent sample basis in 1951 Census.

An appendix to Table C-IV has been prepared at the district level giving quinquennial age-groups viz. 0-4, 5-9, 10-14, etc. The appendix is prepared for total, rural and urban population.

## D—MIGRATION TABLES

Though migration tables were compiled and published in the State volume Part II-C during 1961 Census, they were not reproduced in the District Census Handbooks. In 1971 Census it was decided to incorporate migration tables in the District Census Handbooks so far as they relate to the district. Table D-I (rural part only) (with its two appendices) and Table D-VI (rural part only) both containing data relating to the rural areas only have been published in Part C-II volume of District Census Handbooks of 1971.

The following tables have been incorporated in the present volume :

- 1 D-I
- 2 D-III
- 3 D-IV
- 4 D-V
- 5 D-VI

The major difference between the migration tables of 1961 Census and those of 1971 Census is that the 1971 data is presented with reference to the last residence and not to birth except in the case of Table D-I which is related to the place of birth.

Table D-I gives the distribution of population by birth place according to rural and urban areas. It corresponds to Table D-II of 1961 Census in which the place of birth was classified as rural/urban for those individuals whose birth place happened to be within the country. Similarly the place of enumeration was classified separately by rural and urban areas. This gave an indication of the rural/urban migration based on the place of birth.

There are two appendices to this table (Appendix-I and Appendix-II) giving information on the inter-district migration. Appendix-I gives data regarding in-migration of persons born in the districts of the State other than the district of enumeration while Appendix-II furnishes details of out-migration of persons born in the district of enumeration. Both these appendices are new additions and meant for presentation in the District Census Handbooks only.

Table D-III has been prepared for Jamnagar Urban Agglomeration only and relates to migrants based on the "Place of last Residence". Workers are classified by occupational divisions further cross-tabulated by age-groups and educational standards. This gives an indication of the occupations that attract migrants to the city. The educational standards give an insight into the skilled and unskilled labour. This table corresponds to Table D-IV of the 1961 Census which was prepared for total migrants by Occupational Division/Non-workers cross classified by age-group and levels of education whereas in the 1971 Census the migrants are further classified by place of last residence.

Table D-IV is also prepared for Jamnagar Urban Agglomeration and gives the population of the City classified by place of last residence and duration of residence. The table gives population of non-migrants and in-migrants from within the country only. Migrants are classified by migrants from (1) within the district of enumeration, (2) other districts of Gujarat State and (3) other States in India separately for rural and urban areas. It shows the extent of in-migration from rural and urban areas within the country. These details are further classified by migrants who have been residents of the city for less than 3 years and those who have been residents for 3 years and more.

This table corresponds to Table D-V of 1961 which was prepared on the basis of "Place of birth" instead of "Place of last residence" as is done at the 1971 Census.

Table D-V gives distribution of migrant workers and non-workers in each of the industrial categories according to the place of last residence, in rural and urban areas. It indicates the industrial categories attracting migrants and whether in the different industrial categories the flow is from the rural to urban areas or vice versa. The table is prepared separately for Total, Urban and Cities or Urban agglomerations with a population of 100,000 or over.

This table corresponds to Table D-VI of the 1961 Census which was prepared with reference to the birth place instead of the place of last residence which is adopted at the 1971 Census and is considered more relevant for studying migration.

Table D-VI is a new table for 1971 Census and gives the distribution of migrants based on the place of last residence by age-groups, marital status, duration of residence by sex. This table is prepared for rural and urban areas of the district and separately for the City/Urban agglomeration. The table reflects an important sociological factor viz., the marital status of migrants by age.
