## 1951 DISTRICT CENSUS HANDBOOK

### HALAR DISTRICT

The district consists of the former Indian states of Navanagar (excluding Atkot, Paddhari and Kandorna talukas which have been included in Madhya Saurashtra) and Dhrol. Dhrafa thana and part of Jalia Devani.

The enclave villages of Amreli district were also added to it.

The district had a population (1951 Census) of 574,472 and an area of 3,890.0 square miles according to the area figure furnished by the Surveyor General of India.

This Handbook contains tables for Halar district, compiled after the 1951 Census of India. The main results of the 1951 Census are embodied in the State Tables published for the States of Bombay, Saurashtra and Kutch. In this Handbook, the data are exhibited in greater detail. The numbers given to tables in this publication correspond to those given in the State Census Report. The following tables for the district have, however, not been included in this Handbook :—

A-II. Variation in population during fifty years.

A-IV. Towns classified by population with variations since 1901.

D-IV. Migrants.

In the case of the C-series of tables, except C-I, the data were extracted on the basis of a sample count of approximately 10 per cent of the census slips instead of a full count of all the slips. The C-I table was prepared from a four per cent sample of the households recorded in the National Register of Citizens relating to each town or village.

Till the 1951 Census the basis of classification of the population was a social one, namely according to religion, castes and communities. At the 1951 Census the basis was changed from a social to an economic one and the figures for villages given in the Primary Census Abstracts and in tables A-V, B-I, B-II, C-II and E are according to the following eight livelihood classes :—

#### Agricultural Classes

- I.—Cultivators of land, wholly or mainly owned ; and their dependants.
- II.—Cultivators of land, wholly or mainly unowned ; and their dependants.
- III.—Cultivating labourers ; and their dependants.
- IV.—Non-cultivating owners of land; agricultural rent receivers; and their dependants.

#### Non-Agricultural Classes

Persons (including dependants) who derive their principal means of livelihood from—

- V.—Production other than cultivation.
- VI.—Commerce.
- VII.—Transport.
- VIII.—Other services and miscellaneous sources.

Dependants, whether earning or non-earning, were classified at the census according to the principal means of livelihood of the persons on whom they were dependent.

The Primary Census Abstracts, which contain basic information in respect of every village and town, have been arranged according to talukas and petas, units into which every district is divided for administrative purposes. The taluka was, however, too small a unit to adopt for preparing the main census tables. Therefore, in the B, C and D series of tables figures have been given for tracts and not for talukas and petas. Before sorting the census slips and tabulating the results, tracts were formed by combining the rural and urban areas of two or more talukas or petas.

The tracts into which Halar district was divided for this purpose are shown below :—

*Rural Tracts :*

- (1) Rural areas of Jamnagar, Dhrol and Kalavad Talukas and Jodia and Lalpur Petas.
- (2) Rural areas of Khambhalia and Jam-Jodhpur talukas and Bhanvad and Kalyanpur petas.

*Urban Tracts :*

- (1) Jamnagar City.
- (2) Urban areas of Dhrol, Kalavad, Khambhalia and Jam-Jodhpur talukas and Jodia, Lalpur, Bhanvad and Kalyanpur petas.

Urban areas comprise the towns shown in table A-V.

Shortly before the 1951 population census, a census of Small Industries was taken, and the results of this census are given in the table called "Small Scale Industries Census—Employment in Establishments," included in this handbook.

The intention was to find out something about Cottage and Home Industries and small workshops. The larger establishments, that is, power-using establishments with 10 or more workers and non-power using establishments with 20 or more workers, were excluded from the scope of enquiry as they now submit returns under the Factory Act.

The enquiry did not concern itself also with workers functioning on their own and not employing other people, except when looms were used. If even one loom was used a return was required. Otherwise the concept was of an enquiry which embraced all forms of associate activity where articles were produced, repaired or otherwise treated for sale, use or disposal.

9 Lalpur	.. 444.3	81	1	8,242	7,430	812

*Note.*—(1) The area figure of the district of Halar supplied by the Surveyor General of India is 3,890.0 square miles. The area figures for talukas and petas shown in column 2 of this table and in the E-Table are those supplied by the Collector. In the Primary Census Abstracts area figures for villages and towns obtained from local records are given. In the case of many talukas the arithmetical totals of the area figures for villages and towns do not agree with the area figures for talukas and petas supplied by the Collector.

(2) The number of villages given in column 3 is the number of revenue villages, excluding uninhabited villages and villages which form part of municipal areas.

46,860	42,591	4,269	23,271	21,222	2,049	23,589	21,369	2,220

(3) The number of towns given in column 4 is the number of towns shown in the table A-V. In general, a town means a municipal area, cantonment area or a place which has a population of 5,000 or more persons and exhibits urban characteristics.

(4) The number of occupied houses given in columns 5, 6 and 7 is the number of census houses that were occupied at the time of the census.

A house for census purposes meant "a dwelling with a separate main entrance." Thus more than one household might be found in the same census house.

NOTE.—Where a person was in receipt of an income and that income was sufficient at least for his own maintenance then he (or she, as the case might be) was to be regarded as a self-supporting person for purposes of the census enquiry. Anyone who was not a self-supporting person in this sense was a dependant. A dependant might be either an earning

## B-III—EMPLOYERS, EMPLOYEES AND INDEPENDENT WORKERS

District :

Notes.—1. In this table, the self-supporting persons in the non-agricultural classes have been classified according to the productive industries and services in which they were engaged. In addition to the 68,200 self-supporting persons shown in the table, there were 3,747 self-supporting persons who derived their livelihood from unproductive activities as shown below :—

Non-productive means of livelihood :—		Persons	Males	Females
(1) Persons living principally on income from non-agricultural property .. .. .	.. .. .	741	309	432
(2) Persons living principally on pensions, remittances, scholarships and funds .. .. .	.. .. .	215	143	72
(3) Inmates of jails, almshouses and recipients of doles .. .. .	.. .. .	163	163	..
(4) Beggars and vagrants .. .. .	.. .. .	2,628	2,261	367
(5) All other persons living principally on income from non-productive activities .. .. .	.. .. .	..	..	..

## IN INDUSTRIES AND SERVICES BY DIVISIONS AND SUB-DIVISIONS

## Halar

2.—The census definitions of the terms employer, employee and independent worker were as follows :—

*Employer* : A person who had necessarily to employ other persons in order to carry on the business from which he secured his livelihood. (Thus, if a person employed a cook or other person for domestic service, he was not to be recorded as an employer merely for that reason.)

*Employee* : A person who ordinarily worked under some other person for a salary or a wage in cash or in kind, as a means of earning a livelihood.

*Independent Worker* : A person who was not employed by anyone else and who did not also employ anyone else in order to earn his livelihood.

## DISTRICT INDEX OF NON-AGRICULTURAL OCCUPATIONS

*District : Halar*

This index shows the number of self-supporting persons, males and females, having as their principal means of livelihood, the productive occupations shown in the index.

The index should be read with Economic Table B-III. There were 3,747 self-supporting persons who derived their principal means of livelihood from unproductive activities as mentioned in the note to that table.

The group code numbers shown in column '2' of the index are the numbers given to the various occupations under the Indian Census Economic Classification Scheme.

Occupation	Group Code No.	POPULATION		
		Persons	Males	Females
1	2	3	4	5
Aerated waters and other beverages manufacture ..	2.40	40	39	1
Aerated waters and ice vendors in shops ..	6.12	42	40	2

*Note.*—The slips of persons returning Kachchhi as their mother-tongue in this and other districts in Saurashtra were not sorted separately, but were included with the slips of persons returning Gujarati as their mother-tongue. The figures for Gujarati given in the above table consequently include Kachchhi speakers. In order to arrive at an estimate of the Kachchhi-speaking population the 10% sample slips were re-sorted with the following result :—

Number of persons in the sample population having Kachchhi as their mother-tongue		Estimated number of persons in the total population having Kachchhi as their mother-tongue	
Males	Females	Males	Females
470	386	4,724	3,937

### PRIMARY CENSUS ABSTRACTS

These abstracts show figures of population according to eight livelihood classes for every town and village. In the case of most municipal areas, figures have been given for wards as well. They are in essence a village directory, with the data exhibited according to livelihood classes, instead of communities as in 1941.

The area figures given in column 3 have been obtained from the Mamlatdars. The area figure of the Halar district furnished by the Surveyor General of India, was 3,890.0 square miles.

The figures given in columns 4 and 5 and 9 to 12 have been extracted from the National Registers of Citizens prepared by enumerators after the census. These Registers consisted of a transcription of the replies to the more important census questions in respect of every person enumerated. Figures of literates according to tracts, derived from the census slips, shown in Table D-VII, are more reliable than the village figures derived from the National Registers. The census slip on which the replies to the census questions were recorded was the main document. The National Register was merely a copy. The percentage of literacy in the district was 17.72 per cent. according to the 10 per cent. sample Table C-IV. It was 16.4 per cent. according to Table D-VII, and 15.58 per cent. according to the Primary Census Abstracts total. Information contained in columns 29 to 33 was obtained from the Mamlatdars and Mahalkaris.

The following abbreviations have been used in the abstract :—

- |        |   |
|--------|---|
| M.     | for Municipality.                             |
| P.S.   | for Primary School.                           |
| V.P.   | for Village Panchayat.                        |
| C.C.S. | for a Co-operative Credit Society.            |
| C.S.   | for a Co-operative Society of any other kind. |

*Note.*—The Census of Small Scale Industries was done by revenue officers in addition to their normal work. It was not done simultaneously in all talukas and districts, nor was it possible to give any special training to the staff engaged on this census. In the result, the accuracy of the data furnished by this census cannot be guaranteed. The figures may, however, be regarded as illustrative of the nature of the small scale industries carried on in the District
