**DISTRICT CENSUS HANDBOOK
PALGHAT**

**PART X - C
CENSUS TABLES**

K. NARAYANAN
OF THE INDIAN ADMINISTRATIVE SERVICE
DIRECTOR OF CENSUS OPERATIONS
KERALA

INTRODUCTORY NOTE TO PART C

Each District Census Handbook contains a general account of the district and its people, census tables and statistics on the area, houses, population, general amenities available in villages and towns and the distribution of population by industrial categories of workers and non-workers for each village, town and lower units. Each District Census Handbook is published in three parts as given below:

Part A—Town and Village Directory.

Part B—Town and Village Primary Census Abstract

Part C—Present volume

Parts A and B relating to each districts were published together in one volume immediately after the 1971 census as soon as the data available. Part C was originally intended to include Administrative Statistics such as land-use and cropping pattern, livestock and poultries, details of police force, jails, local bodies, educational institutions, medical institutions etc. But since these data have already been published by the Directorate of Economics and Statistics, it was decided to drop the Administrative Statistics and the report thereon from Part C of the District Census Handbook and instead publish the Part C volume with the census tables pertaining to the district. Accordingly the Part C volume is now published showing all the important census tables.

- Note:*
1. This table includes area, houses and population of forest area also.
 2. Towns treated as such for the first time in 1961 census which continue as towns in 1971 census are shown with asterisk(*) on their left.
 3. Towns treated as such for the first time in 1971 are printed in *italics*.
 4. The following abbreviations have been used for the status of town.
M—Municipal NM—Non-municipal
 5. The area figures given in col. 3 for the district represent provisional 'Geographical area' figures supplied by the Surveyor General, India. Figures for urban areas are those supplied by the local bodies. Area figures for rural areas are derived by subtracting the urban area figures from the total area of the district. The total area figures of taluks will not tally with the district figures because the former represent 'land use area' and are derived from the figures supplied by the Director of Survey and Land Records. The area figures for Highland, Midland and Lowland are compiled by the census office.
 6. The density figures per km² shown under column 4 for urban area of district/taluk are worked out using the area figures corrected upto 2 places of decimals obtained by adding the area of individual town in the respective unit and not by using the area figures given in the table. For 'total' and 'rural' the density is worked out on area figures corrected upto 1 place of decimal.

Note:— 1. Names of towns treated as such for the first time in 1971 (vide column 2) are printed in italics.

2. Towns treated as such for the first time in 1961 census are shown with asterisk (*) on their left.

† Even though Chittur and Thathamangalam were separate towns for the census years 1901, 1911 and 1941 they were treated as a single town for striking out class totals.

3. The following abbreviations are used in column 4 for denoting status of a town.

MC—Municipality including Cantonment M—Municipality NM—Non-municipal

4. The total for any class in past census has been worked out as the total of towns of that particular class in that particular census. They include towns which might have individually withdrawn from urban status in preceding or succeeding censuses. Except in cases where several towns merged into one in which the class totals have been changed having regard to the computed population of the unit and not the individual towns.
