P R E F A C E

The Provisional Results of the 1981 Census were declared on 2nd April, 1981, i.e. just within a period of a month of the conclusion of the enumeration of population. The provisional data were presented for the levels of union territory, district, taluka and town only.

Simultaneously, the data collected in the Individual Slips as well as in the other schedules of the 1981 census, was scrutinised and the Primary Census Abstract was compiled in the Regional Tabulation Office, Ahmedabad, giving population figures down to the village level. A separate primary census abstract (PCA) has also been prepared for the Scheduled Caste and Scheduled Tribe population for the first time under the 1981 Census. These PCAs are now ready and will be published as a part of the volume known as the District Census Hand Book, 1981 Census. However, printing of this publication may take about a year. Since the demand for the final population figures as well as data on SC/ST communities has been steadily increasing, this booklet is brought out for the users of the census data.
