FIGURES AT A GLANCE
CENSUS OF INDIA 1971 TRIPURA

● Population—	Persons	Males	Females
Total	1,556,342	801,126	755,216
Rural	1,393,982	717,227	676,755
Urban	162,360	83,899	78,461
● Decennial Population Growth Rate 1961-71			+36.28
● Area in Km ²			10,477.0
● Density of population per Km ²			149
● Sex-ratio (Number of females per 1,000 males)			943
● Literacy Rate	{ Persons		30.98
	{ Males		40.20
	{ Females		21.19
● Percentage of Urban population to total population			10.43
● Percentage of Worker to total population (Main activity only)	{ Persons		27.79
	{ Males		49.43
	{ Females		4.83
● Break-up of Workers (Percentage to total worker)—			
(i) Cultivators	{ Persons		54.41
	{ Males		55.37
	{ Females		43.94
(ii) Agricultural Labourers	{ Persons		19.96
	{ Males		19.63
	{ Females		23.64
(iii) Other Workers	{ Persons		25.63
	{ Males		25.00
	{ Females		32.42
● Percentage of Scheduled Castes to total population	{ Persons		12.39
	{ Males		12.41
	{ Females		12.37
● Percentage of Scheduled Tribes to total population	{ Persons		28.95
	{ Males		28.78
	{ Females		29.13
● Number of occupied residential houses			244,034
● Number of Households			272,811
● Number of Census villages	{ Total		5,215
	{ Inhabited		4,727
	{ Uninhabited		488
● Number of Towns			6

ACKNOWLEDGEMENT

This volume presents the General Population Tables and the Primary Census Abstracts down to the sub-divisional levels. The data collected in lakhs of Individual slips, by an army of enumerators, were processed in the Tabulation Office with the help of Sorters, Compiler-Checkers and Supervisors. The processing of these slips was Possible due to the ungrudging co-operation of the sorting staff. The data thus Processed were then scrutinised and consolidated by the Tabulation Unit with the help of Computers, Statistical Assistants, etc. I am grateful to all of them.

The fly-leaves have been Prepared as explicitly as Possible so that the tables can be read without any difficulty. Shri D.K. Choudhuri, Tabulation Officer, had rendered valuable assistance in drafting the fly-leaves.

I am grateful to Shri K. D. Ballal, Deputy Registrar General, India and Shri K.K. Chakraborty, Assistant Registrar General, India and his staff for checking the tables for accuracy and making valuable suggestions for improvement in presentation.

The Government of India Press, (K. S. R. Unit), Santragachi, Howrah which Printed this report has executed the work neatly.

P R E F A C E

This volume of the 1971 Census presents A-Series Tables and the Primary Census Abstract, the basic demographic data of 1971 Census. Each of the tables is explained by a fly-leaf.

The Census Act of 1948 (XXVII of 1948) was extended to Tripura by the Union Territory (laws) Act, 1950 (Act No. XXX of 1950) and the Chief Commissioner, Tripura was vested with the powers of the State Government by the Government of India under the Census Act. In a notification the Government of India fixed the reference date for the 1971 Census at the sunrise of 1st March, 1971. But the mid-term general elections for parliamentary constituencies in the country made it necessary to defer the date by a month. Therefore, the enumeration commenced on 10th March, 1971 and ended on 31st March, 1971 with the reference date fixed at the sunrise of 1st April, 1971. The enumeration in this Census covered all persons who were usually residing in the household during this period. This procedure is termed as 'de Jure' Census. The houseless persons were also enumerated on the night of 31st March, 1971. A revisional round of 3 days from 1st April to 3rd April was undertaken to bring the data upto-date by adding the new born babies or omitting the deceased population. This is the second time in the history of Tripura that census has been conducted independently under the supervision of an officer exclusively for Tripura. The designation of the Census Superintendents of the states and Union Territories were changed to Directors of Census Operations in 1969. The census questionnaires were pretested twice in the field before they took final shape. The first pretest was not required to be conducted in the Union Territories as per Registrar General's instruction. So this was not done in Tripura.

The second pretest was carried on in some selected areas in both rural and urban areas. After discussion with the Directors of Census Operations of various states and other data users in a conference the questionnaires were finalised. The schedules that were ultimately adopted were—

- (1) The houselist schedules
- (2) The establishment schedules
- (3) The Individual Slip
- (4) The population record

A sample of each of this form together with instructions on each is reproduced at the end of this report as annexure.

The first two schedules were canvassed during 1970 as a preliminary phase of housenumbering and house-listing operations and the last two schedules were canvassed during the second operations known as the enumeration.

After finalisation of schedules, these were translated into bengali. The translation in bengali was done by the Director of Census Operations, West Bengal and the same was used in Tripura with minor adjustment to suit local requirement. The schedules were printed centrally at Government of India Press through the Registrar General, India. Both english and bengali forms were used.

The census had to be carried on according to a strict time schedule and a census calendar which was a valuable aid in the planning of a census operation, was prepared for Tripura in consultation with the Registrar General, India. The calendar thus followed is reproduced below.

1971 CENSUS CALENDAR—TRIPURA

- | | | |
|---|---|---|
| September, 1969 :
to
October, 1969. | <ul style="list-style-type: none">(i) Preliminary discussion with the State Government regarding appointment of Census Officers.(ii) Arrangements for preparation of upto-date Town/Tehsil/Police Station/Sub-Divisional maps.(iii) Preparation of town and village list and Tehsil/Police Station list and assigning of location code numbers to all census units.(iv) Preparation of General Village Register and Town Register.(v) Collection of area figures from the Survey and Settlement Officer/Sub-Divisional Officers in respect of District/Sub-Division/Tehsil/Police Station/Towns and reconciliation of District total Rural/Urban areas.(vi) Notification of Census Questionnaires and instructions in the State Gazette as required by Census Act.(vii) Issue of general circulars with the signature of Chief Commissioner explaining the importance of the Census | <ul style="list-style-type: none">(viii) Issue of circular to all Sub-Divisional Officers explaining the procedure to be followed in the Census and requesting them for completion of all preliminary work relating to Census as expeditiously as possible. |
| November, 1969 : | <ul style="list-style-type: none">(i) Collection of Administrative statistics from various agencies (non-census data) for Part I of the Town and Village Directories (The consolidation and compilation of the directory will be completed by June, 1970).(ii) Delineation of Standard Urban Areas in terms of rural and urban units.(iii) Appointment of Sub-Divisional Census Officers and Charge Officers.(iv) Constitution of Blocks, Supervisor's Circles and Charges of Charge Officers for the purpose of housenumbering and houselisting. | |

- (v) Issue of instructions explaining house-listing operations.
- (vi) Conference of Sub-Divisional Census Officers and training classes for Sub-Divisional Census Officers, Charge Officers and Supervisors in house numbering, house-listing and establishment schedules.
- December, 1968 : (i) Despatch of Houselists, Establishment Schedules, Enumerator's Abstracts and instruction Booklets to Sub-Divisional Officers.
- (ii) Appointment of Enumerators and Supervisors for housenumbering and house-listing operations.
- (iii) Drawing up of a training programme for Enumerators and Supervisors for house-listing operation.
- (iv) Publicity of housenumbering and house-listing.
- January, 1970 : Training classes for the Enumerators and Supervisors for housenumbering and house-listing operations including canvassing of Houselists and Establishment Schedules as a practical exercise through training Schedules.
- February, 1970.
- March, 1970 : Publicity for house-listing.
- April, 1970 : Housenumbering, House-listing and canvassing of Establishment Schedules and preparation of Notional maps showing the lay-out of houses and the number allotted to them.
- May, 1970
- 1st June 1970 : (i) Arrival of the Houselists and Establishment Schedules at the sub-divisional headquarters.
- to
15th June, 1970. (ii) Arrival of these schedules at the headquarters of the Director of Census Operations.
- 16th June, 1970 : (i) Recruitment and training of Key Punch Operators and supervisory staff.
- to
July, 1970.
- (ii) Checking of houselists for completeness, sampling of houselists, coding and punching of Houselists and Establishment Schedules in the Tabulation Office, (Separate programme will be drawn up for setting up of the Tabulation Office and completion of tabulation operation).
- July, 1970 : (i) Preparation of Charge Register, Delineation of blocks and supervisor's circles on the basis of 1971 (1970) Houselists.
- to
August, 1970. (ii) Selection and earmarking of Census Enumerator and Supervisors in each Charge.
- (iii) Compilation of Part I (Non-Census Data) of the Village and Town Directories.
- (iv) Preparation of data for A-Series Tables for column other than those which relate to 1971 Census data.
- (v) Distribution of Training Enumeration slips and instructions to each Sub-Divisional Office/Charge/Circles.
- September, 1970 : (i) Detailed instruction to be issued formulating the training programme of Census Officers at all levels including Enumerators and Supervisors,
- to
October, 1970.
- (ii) Conference of Sub-Divisional Census Officers and Charge Superintendents regarding enumeration.
- (iii) Training of Sub-Divisional Census Officers and Charge Superintendents for filling up the Individual Slips and Household Forms.
- (iv) Publicity measures.
- (v) Despatch of Individual Schedules, Household Forms, Instruction Booklets, etc. to the Sub-Divisional headquarters.
- November, 1970 : Reassessment of Blocks and Circles constituted and finalisation of Charge lists and Circle lists by Charge Superintendents and Circle Supervisors respectively.
- December, 1970 : (i) Issue of appointment letters to additional Enumerators and Supervisors if required after reassessment of blocks and circles.
- (ii) Intensive training of Enumerators and Supervisors including practical exercise in enumeration on training schedules.
- (iii) Issue of schedules and instruction booklets, etc. by the Sub-Divisional Census Officers to the Charge Superintendents.
- January, 1971 : (i) Copying of abstracts of houselist for each Enumerator's block.
- 1 (ii) Issue of schedules and instruction booklets, etc. by the Sub-divisional Census Officers to the Charge Superintendents.
- 10th March to : Census Enumeration.
31st March, 1971.
- Night of 31st : Enumeration of houseless population.
March, 1971.
- 1st April to : Revisional round of visit to every household
3rd April, 1971. by Enumerators.
- 3rd April, 1971 : Compilation and reporting of provisional
to
5th April, 1971. total to the Director of Census Operations by the Sub-Divisional Census Officers.
- 7th April, 1971 : Communication of provisional total to the Registrar General, India.
- 8th April, 1971 : Collection of Enumeration pads and other
to
15th April, 1971. Census papers from all Charge Officers and despatch of the same to Director of Census Operations with escort.
- To ensure accuracy of the census, it was necessary to divide the territory into smaller units. Tripura was not surveyed cadastrally in the past. The cadastral survey was completed in 1969 except a few villages. It was first decided to conduct census on the basis of the new revenue villages. But for certain administrative difficulties, this could not be done. Census was conducted therefore on the basis of the 1961 census villages some of which were old revenue villages and the rest notional villages of the names by which they were known in the localities without any defined or well demarcated boundary. In the meantime the Government of Tripura with effect from 1st September, 1970 divided the one district territory into three districts viz., West Tripura, North Tripura, South Tripura

and the old 45 tehsils into 177. There are 10 sub-divisions in Tripura. There were no change in their jurisdiction. The districts were formed by taking three or four sub-divisions wholly as shown below :—

West Tripura District—

1. Sadar sub-division
2. Khowai sub-division
3. Sonamura sub-division

North Tripura District—

1. Kailasahar sub-division
2. Kamalpur sub-division
3. Dharmanagar sub-division

South Tripura District—

1. Udaipur sub-division
2. Amarpur sub-division
3. Belonia sub-division
4. Sabroom sub-division

The charges in the administrative divisions were effected after the completion of the 1st phase of the census operation and actual implementation of these divisions was so related that it was not possible for the Census Organisation to conduct census on the basis of the newly created administrative units. Hence the delimitation of the territory was done on the basis of old villages and tehsils on the basis of which 1961 Census was conducted. This was done with the concurrence of the State Government.

As the census taking had to relate to precisely defined boundaries, the whole of Tripura was treated as one district territory divided into 10 sub-divisions with 45 tehsils (old) and 6 towns as in 1961. For the purpose of census in the rural areas each sub-division was treated as a separate district and a separate code number was assigned to each sub-division. Separate code number was also allotted for each tehsil in each sub-division. In case of urban area the whole territory was treated as one district and code numbers were allotted serially for all the six towns in Roman numerals. Each tehsil in case of rural area and each town in case of urban area was treated as charge. Tea gardens and cantonments were treated as special charges. In rural area each charge was divided into a number of circles and each circle was divided into a number of blocks. The basis of delimitation was that each block in the rural area should have a population of not more than 750 or 150 households. In urban area each town was divided into a number of circles/wards and each circle/ward was divided into a number of blocks taking 600 persons or 120 households as the basis for each block. In case of special charges like tea garden the system on one block, one circle and one charge was followed.

The sub-divisional officers were appointed as Sub-divisional Census Officers in their respective sub-division. The charge officers were selected by the sub-divisional census officers from amongst the gazetted or other officers within their jurisdictions while the supervisors

and enumerators were selected from the school teachers and other officials of the State Government.

After the completion of enumeration it was decided in consultation with the Deputy Registrar General, India (Census) to present the figures in different census tables, etc. according to the new administrative unit as otherwise these would be of little use. As the old census villages are to be adjusted with the cadastrally surveyed Revenue villages, Police Stations and the same would take some time, it was not feasible to present the figures below the level of sub-divisions in any of the census tables to be presented with the all-India time schedule.

It became necessary to arrange for training of staff employed for field work and supervisory action regarding the concepts and procedure of census schedules. Two training classes for sub-divisional census officers and charge officers were conducted by the Director of Census Operations in the census Directorate one before the first phase of Census Operations and the other before the second phase. Moreover, the Director of Census Operation went round the sub-divisions to hold training classes. To facilitate training of staff printed booklets containing instructions on house-numbering and houselisting and enumeration were distributed both in English and Bengali.

A mock census for training was also arranged when enumerators were required to fill up census slips and population records and the same were scrutinised and mistakes noticed in them were explained to the field worker in subsequent training classes. After the completion of delimitation of Blocks/Circles/Charges, the work of housenumbering according to the programme was started. In Tripura the Houselist and Establishment Schedules were filled up between 1st April, 1970 and 31st May, 1970. During houselisting operation the enumerators prepared national maps of the blocks under their charge showing inhabited portion of the village together with lay-out of roads, lanes, temples, tanks and other important land marks and also indicating therein the order in which the houses were numbered. The filled in schedules were submitted by the enumerators to the respective charge superintendents through the circle supervisors, who prepared a charge abstract and handed over the same to the sub-divisional census officers. The sub-divisional census officers deposited the filled in schedules together with a consolidated abstract of this sub-division to the census Directorate. From this abstract the population of Tripura was ascertained a few months ahead of actual enumeration.

On the basis of the houselisting operation the population of each block was known. After that it had become necessary to redelineate the blocks in both the rural and urban areas taking into consideration 750 persons in rural areas and 600 persons in urban areas as the ideal population for each block. It was however not possible to follow this yard stick for the blocks in hilly and inaccessible areas.

The actual count was completed as per scheduled time. Immediately after the revisional round every

enumerator prepared an abstract in respect of his block containing information on the numbers of males and females, scheduled castes and scheduled tribes by sex, literate and illiterate males and females, houseless population by sex, Institutional population by sex and the main economic activities of the population viz., cultivator, agricultural labour, household industry, other worker and non-worker, by sex, and handed over the census records together with the abstract to the concerned supervisor. The supervisors in their turn totalled up the block abstracts and prepared a circle summary which was handed over to the charge officer. The charge officer totalled up the figures in circle summaries and handed over the same to the sub-divisional census officer. The sub-divisional census officer totalled up the figures for the sub-division and communicated the same telegraphically to the Director

of Census Operations. These figures were then communicated to Registrar General, India telegraphically on the 8th April, 1972. On 20th April, 1972 the provisional totals were released by the Director of Census Operations. A booklet giving the provisional population in the form of six statements were published shortly thereafter.

The terms like 'census house', 'census household', etc. which will be found while going through the tables of this volume have been explained in the respective fly-leaf. During processing of Individual slips in the tabulation office, two code numbers on economic activities were used for coding questions 16(c), 16(d), 17(c) and 17(d). These code numbers are the numbers relating to the industrial classification and the occupational classification.

TABLE A—1
AREA, HOUSES AND
POPULATION

A-I AREA, HOUSES AND POPULATION

FLY-LEAF

Two statements are found on the subject. The union table gives information for the state and districts. In the state table, figures are given for each sub-division in a district and city/town in a sub-division. Table A-I is the basic population table for the census and furnishes data for State/District/Sub-division/Town/Urban Agglomeration for rural and urban areas separately. It presents area in Km², density of population per Km², number of inhabited and uninhabited villages, number of towns, number of occupied residential houses, households and population by sex as per 1971 Census. This table is similar to its counterparts in 1961 except for the urban agglomeration. The concept of town group as adopted in 1961 census has been replaced by urban agglomeration. The concept of urban agglomeration will be discussed in the fly-leaf to table A-IV. Another difference in the presentation of state table A-I that will be noticed is that in 1961 census the information was given upto tehsils. This time the same has been shown upto sub-divisional level only. The reason for not showing the tehsil in 1971 census is that just before the actual enumeration the state was divided into 3 districts in place of one and the number of tehsils was increased from 45 to 177 with consequential changes in the territorial jurisdiction. So it was not possible to collect the data on the basis

of the new tehsils. The old tehsils on the basis of which the 1st phase of the census was done did not exist. And the presentation of data according to old tehsils would be meaningless. The adjustment of data as per revenue villages and then to Police station is being taken up and will be presented in part C of the District Census Handbook.

Brief account of changes in area of state and district from 1921 to 1971.

The princely state of Tripura, merged with the Union of India on the 5th October, 1949, was constituted into a Chief Commissioner's Province. With the commencement of the Constitution of India on 26th January, 1950 it was converted to a Part C state.

Extensive changes have taken place in the boundary of the Sub-divisions from time to time in the past. Tripura was treated as one district territory upto early 1970. In August, 1970, it was divided into three districts viz., West Tripura, North Tripura and South Tripura with three or four of the existing Sub-divisions completely within each. The state was divided into 177 Tehsils and 871 Revenue Mouzas. In the following table attempt is being made to show the area figures by districts from 1941 to 1971.

TABLE
Area of Tripura and Districts in Km².

State/District	Year			
	1941	1951	1961	1971
Tripura	10,660.44	10,660.44	10,660.44	13,477.00
West Tripura	3,483.55	3,483.55	3,483.55	3,359.00
North Tripura	3,537.94	3,537.94	3,537.94	3,541.00
South Tripura	3,638.95	3,638.95	3,638.95	3,577.00

The area figures upto 1961 shown in the above table are supplied by the Director of Settlement and Land Records, Government of Tripura. The 1971 area figures are supplied by the Surveyor General of India. The area figures as per Director of Settlement and Land Records, Government of Tripura for the year 1971 are as follows :

Tripura	10,491.69 Km ²
West Tripura	3,324.63 Km ²
North Tripura	3,552.05 Km ²
South Tripura	3,615.01 Km ²

Though there was no jurisdictional change of the districts or the state, still there were changes in area figures. Before completion of the cadastral survey recently, there was no dependable method of finding the area figures in Tripura. We may therefore treat the area figures of 1971 as more accurate than those of the

preceding years. The difference between the area figures for 1971 supplied by the Director of Settlement and Land Records, Government of Tripura and Surveyor General, India may be attributed to the differences in the methods of measurement and computation.

The Urban Population

The definition of an urban unit as was evolved in India for adoption at the 1961 as well as 1971 census was as follows :

- (a) All places with a municipality, corporation or cantonment or notified town area.
- (b) All other places which satisfied
 - (i) a minimum population of 5,000.
 - (ii) at least 75% of the male working population was non-agricultural.
 - (iii) a density of population of at least 400 per sq. km. (i.e., 1,000 per sq. mile),

The Director of Census Operations is however given discretion to include some places which have other distinct urban characteristic.

There was only one town i.e. Agartala in Tripura in 1951 Census. In 1961 census, some sub-divisional head quarters were classified as urban on the basis of liberal application of the criteria of having a population of not less than 5,000 persons of which three-fourths of the male worker should have non-agricultural means of livelihood. Accordingly five sub-divisional head quarters other than Agartala were treated as towns. In the 1971 census, no urban area of 1961 census has been declassified nor any new place has been classified as town.

The following is a tabular statement of the progress in the number of town in the districts at present constituted from 1901 to 1971.

Progress in the number of towns from 1901 to 1971

State/District	Year							
	1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
Tripura	6	6	1	1	1	1	1	1
West Tripura District	2	2	1	1	1	1	1	1
North Tripura District	2	2
South Tripura District	2	2

From the above statement it will be seen that from 1901 to 1951 there was only one town in Tripura namely Agartala in West Tripura District. In 1961, five more sub-divisional head quarters were recognised as towns, two each in North and South Tripura Districts and one in West Tripura District. The reason for this increase in the number of towns in 1961 is that the period from 1951 to 1961 coincided with the implementation of the First and Second Five Year Plans and also influx of a substantial number of middle class people from the then East Pakistan who settled in these towns, and places which were originally villages had acquired urban characteristic satisfying broadly the criteria laid down by the Registrar General, India for recognition of urban areas.

The Rural Population

Upto the present census the definition of village in Tripura remained the same as in previous censuses.

State/District	Year							
	1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
Tripura	4,727	4,932	3,453	4,387	3,382	3,373	2,316	1,463
West Tripura District	2,454	2,522	..	2,071	1,718	1,791	1,370	1,009
North Tripura District	1,133	1,216	..	1,062	898	648	339	253
South Tripura District	1,140	[1,194	..	1,254	766	934	607	201

Thus there are in all, six towns in Tripura. They are all small except Agartala. The distribution of town according to size is shown below.

Class of Town	Number
I—Population 100,000 and above	1
II—Population 50,000 to 99,999
III—Population 20,000 to 49,999
IV—Population 10,000 to 19,999	4
V—Population 5,000 to 9,999	1
VI—Less than 5,000

A village is defined as a collection of houses bearing a separate name and situated within a defined boundary. For the purpose of census all the known villages as well as the hamlets in the hills and interior which are called 'Parahs' and are only notional villages were treated as a village unit for 1971 census also like the previous census in 1961. Many hill villages of 1961 census were no longer in existence in 1971, due to the migratory habit of the tribal people.

For presentation of data all the Tea Estates have been treated as a separate census village. Where part of a village had been included in urban areas, the rural part of the village was counted as one village.

Inhabited Villages :

The subjoined table gives the number of inhabited villages in Tripura and districts at each census since 1901.

In 1951 Census the figures for inhabited villages were presented tractwise. Tripura was divided into two tracts comprising Sadar, Kamalpur, Sonamura, Khowai, and Kailasahar sub-divisions in one tract and Udaipur, Dharmanagar, Amarpur, Belonia and Sabroom in the other tract. Hence districtwise figures for number of inhabited villages for 1951 census could not be presented.

It is noticed that the number of villages increased steadily from 1901 to 1941. In 1951 there was a fall in the number of villages which is attributable to under enumeration in Khowai, Kamalpur and Amarpur Sub-divisions. During 1961 Census about 52 census villages were included in the urban areas. In 1971, the number of inhabited villages has decreased by 205 from that of 1961. The decrease in the number of

inhabited villages is however possible due to desertion of certain villages in the hills and sprung up of new colonies and inhabited areas. However it would be wrong to attribute all the variation in the above table to these causes only. Another cause may be the failure on the part of the staff to adhere strictly to the definition of a village.

Census House :

A census house is a building or a part of building having a separate main entrance from the road or common courtyard or stair case etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential or non-residential purpose or both.

Persons per occupied census houses, etc. :

The table below gives the number of persons per occupied census house, number of females per 1,000 males, percentage of rural and urban population to total population and the density of population per km².

State/District	Persons per occupied Census House			No. of females per 1,000 males			Percentage of Rural and Urban Population to Total Population			Density per km ²		
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8	9	10	11	12	13
Tripura	6	6	8	943	944	935	100.00	89.57	10.43	149	134	3,875
1. West Tripura	7	7	8	946	947	937	100.00	85.42	14.58	224	192	10,148
2. North Tripura	6	6	6	935	936	915	100.00	93.22	6.78	114	107	1,308
3. South Tripura	6	6	7	945	945	948	100.00	93.67	6.33	112	105	2,502

The number of persons per occupied census house in Tripura is 6 against 6.17 in 1961. Of the districts in the state the number of persons per occupied census house is highest in the West Tripura district with 7 persons and lowest in South Tripura district with 6 persons. In the rural areas of the state, West Tripura leads with 7 persons while South Tripura comes last with 6 persons. In the urban areas there are more persons per house than in rural areas. The number of persons per house is lowest in North Tripura district.

The man-woman ratio of the population of Tripura is 943 females per 1,000 males. This ratio has increased from 932 in 1961 to 943 in 1971. This ratio is highest in West Tripura district and lowest in North Tripura district. Comparing rural and urban areas this ratio is higher in rural than the urban areas which is natural in

our country, as the male folk comes to the town for pursuit of livelihood.

The percentages of rural and urban population comes to 89.57 and 10.43 for Tripura. This marked a slight improvement over the corresponding urban figure of 9.02 in 1961. Percentage of rural population is highest in South Tripura and lowest in West Tripura. The reverse picture is seen for urban area in these two districts. If urbanity is considered as the index of non-agricultural activity, then West Tripura district fulfils this qualification.

Density of population is influenced by various factors like climate, fertility of soil, general economic development. The highest density in West Tripura district may be attributable to one or more of these factors.

UNION TABLE A-I AREA, HOUSES AND POPULATION

State/District	Total Rural Urban	Area+ in Km ²	Popula- tion per Km ²	Number of Villages		No. of towns	No. of occupied residen- tial houses	No. of house- holds	Population

Notes :—

- (i) † These represent provisional 'Geographical area' figures supplied by the Surveyor General. Figures for urban areas are those supplied by the Local Bodies. Area figures for rural areas are derived by Subtracting the urban area from the total area of the District.
- (ii) The density figures per Km² shown under Col. 4 for urban area of State/District are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual town in the respective unit and not using the area figures given in the table. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.
- (iii) In Tripura State a few urban units which are appearing as 'outgrowths of Agartala U.A.' area figures are not available separately and are included in the 'Rural area.'

	Urban

NOTES :—(1) + These represent provisional 'Geographical area' figures supplied by the Surveyor General. Figures for urban areas are those supplied by the local Bodies. Area figures for rural areas are derived by subtracting on urban area from the total area of the district.

(2) Towns treated as such for the first time in 1961 Census which continue as towns for 1971 Census are shown with an asterisk (*) on their left.

(3) The following abbreviations have been used for status of a town :

M—Municipality.

NM—Non-Municipal Town

N.A.—Not available.

(4) In Tripura State a few urban units which are appearing as outgrowths of Agartala urban Agglomeration, area figures are not available separately and are included in the 'Rural Area'. The urban density in such cases has been worked out only for those units for which the area figures are available in other cases. N.A. has been shown in Col.3 and 4 of the Table.

(5) The density per Km² shown under Col. 4 for urban area or State/District/Sub-divisions are worked out using the area figures corrected upto two places of decimals obtained by adding the area of individual town in the respective unit and not using the area figures given in the table. For 'Total' and 'Rural' the density is worked out on area figures corrected upto one place of decimal.

A-I AREA, HOUSES AND POPULATION

APPENDIX I

*Statement showing 1961 Territorial units constituting the present set up of each State
FLY-LEAF*

This shows 1961 territorial units constituting the present set-up of each unit. This is similar to the appendix in 1961. In fact, there is no change in the jurisdiction of Sub-division during the last decade. The only change that took place is that the one district territory of Tripura has been divided into three districts during the decade. As a result all the columns except column 1 remain blank.

This appendix is being supplemented with a sub-appendix showing the areas of 1961 and 1971 for those towns which have undergone changes in area since 1961 and also gives population for the transferred area. In case of Radhakishorepur town the population for the transferred area is not available.

A-I AREA, HOUSES AND POPULATION

APPENDIX I

Statement Showing 1961 Territorial Units Constituting the present set-up of Tripura State

State/District/Sub-Division (1971 Census)	1961 Territorial unit	Areas added		Name of State/ District/ Sub-Division from which area is subtracted	Area which has been subtracted		Name of State/ District/ Sub-Division to which area is added	Net gain/ loss +(gain) -(loss) in km ²
		Name	Area in KM ²		Name	Area in KM ²		
1	2	3	4	5	6	7	8	9
Tripura State	Tripura Union Territory
1. West Tripura District (Newly formed)	..	Newly formed with Sadar	3,483.5
		Khowai and Sonamura Sub-Division						
Sadar Sub-Division	As in 1961
Khowai Sub-Division	As in 1961
Sonamura Sub-Division	As in 1961
2. North Tripura District (Newly formed)	..	Newly formed with Kamalpur	3,538.0
		Kailasahar and Dharmanagar Sub-Division						
Kamalpur Sub-Division	As in 1961
Kailasahar Sub-Division	As in 1961
Dharmanagar Sub-Division	As in 1961
3. South Tripura District (Newly formed)	..	Newly formed with Udaipur Amarpur Belonia and Sabroom Sub-Division	3,638.9
Udaipur Sub-Division	As in 1961
Amarpur Sub-Division	As in 1961
Belonia Sub-Division	As in 1961
Sabroom Sub-Division	As in 1961

Note:—In 1961 Census there was only one District and ten Sub-Divisions in Tripura these Sub-Divisions are now forming the Districts namely West Tripura (Sadar, Khowai and Sonamura Sub-Divisions) North Tripura (Kamalpur, Kailasahar and Dharmanagar Sub-Divisions) and South Tripura (Udaipur, Amarpur, Belonia and Sabroom Sub-Divisions) without any change in the jurisdiction of Sub-Divisions.

SUB-APPENDIX TO APPENDIX-I

Statement showing Area for 1961 and 1971 for those towns which have undergone jurisdictional change in Area since 1961 Census

Name of State/District	Name of Town	in figures Area Km ²		Population of transferred Area	
		1961	1971	1961	1971

Tripura State					
South Tripura	Radhakishorepur	5.05	6.48	N.A.	N.A.

N.A. : Not available.

A-I AREA, HOUSES AND POPULATION

APPENDIX II

NUMBER OF VILLAGES WITH A POPULATION OF 5,000 AND OVER AND TOWNS WITH A POPULATION UNDER 5,000

Fly-Leaf

This appendix furnishes figures for villages having population of 5,000 and over and towns having population less than 5,000. This, as in 1961 gives the number of such places with their population.

There are only 3 villages having population 5,000 and over and their population is 16,302 constituting 1.17 per cent to total rural population of the State. The names of these villages together with the name of sub-division and the district in which they are situated are given below :

Villages whose population is 5,000 and over

District	Sub-division	Village	Population
1	2	3	4
West Tripura	Sadar	1. Madhya Badharghat	5,256
		2. Jogendra Nagar	5,894
South Tripura	Sabroom	3. Jalefa	5,152

One of the criteria for a place to be declared as town is that it should have a population of 5,000 and over. For various reasons places with a population 5,000 and above are not treated as towns while a number of places with less than 5,000 population are treated as town but in Tripura no place having population less than 5,000 has been recognised as town.

State/District/Sub-division	Villages with a population of 5,000 and over			Towns with a population under 5,000		
	Number	Population	Percentage of total rural population	Number	Population	Percentage of total urban population
1	2	3	4	5	6	7
Tripura	3	16,302	1.17
West Tripura District	2	11,150	1.74
Sadar Sub-Division	2	11,150	2.99
South Tripura District	1	5,152	1.40
Sabroom Sub-Division	1	5,152	8.74

A-I AREA, HOUSES AND POPULATION

APPENDIX III

HOUSELESS AND INSTITUTIONAL POPULATION

Fly-Leaf

This appendix furnishes figures for the number of houseless and institutional households together with the houseless and institutional population separately. In all Census tables, this population has been included in the total population. This appendix is similar to the 1961 census appendix, except the inclusion of two new items viz., the number of houseless and Institutional households. This appendix shows figures for the state, district, sub-division and the towns/urban agglomeration and further distributes them according to sex, and living in rural and urban areas.

Houseless population

Houseless persons are those who do not normally reside in houses e.g., numbers of wandering tribes, beggars, boat-dwellers, etc., But due to permanent habitation in boats in Kashmir, boat-dwellers are not treated as houseless persons in that state.

Institutional population

Institutional population means only inmates of institutions like Boarding, Barracks, Hospitals, Jails, Hostels, Camps, Asrams, Missions, Hotels (excluding their normal resident staff if any and semipermanent boarders, if any in Boarding houses).

On the night of 31st March, 1971 Enumerators took a round of their areas to record particulars of houseless persons. During revisional round from 1st April to 3rd April also any houseless persons who stated that he had not been enumerated before was also recorded.

The number of such persons and their households come to 357 and 137 respectively in Tripura. The number of such people during 1961 census was 139 only.

The number of Institutional population in Tripura during 1971 census is 10,065 with 910 households. The 1961 census gave this population as 4,775.

A-I AREA, HOUSES AND POPULATION—contd.

APPENDIX III—contd.

Houseless and Institutional Population—contd.

State/District/Town/Sub-Division/Town	Institutional Population					Houseless Population			
	Total Rural Urban	No. of house-holds	Persons	Males	Females	No. of house-holds	Persons	Males	Females

TABLE A—II
DECADAL VARIATION
IN POPULATION SINCE 1901

A-II DECADAL VARIATION IN POPULATION SINCE 1901

Fly-Leaf

This table is similar to that of 1961 and furnishes data on the population and variation of population from 1901 to 1971 for each district. This is a very important table as it gives the growth of population from decade to decade and in the absence of reliable vital statistics, this table forms the main source of estimation of population.

Adjustment of Population, 1901 to 1971

To ensure comparability, the figures furnished in this table for previous censuses have been adjusted wherever possible to correspond with the adminis-

trative set up as on 1st April, 1971. The one district territory was divided into three districts viz., the West Tripura district, the North Tripura district and the South Tripura district in August, 1970 with 10 sub-divisions. While forming the districts, no sub-division has been split up and the entire sub-divisions have been included into one or the other district. In 1961 Census the figures for this table were presented by sub-divisions. The population figures for 1901 to 1961 were rebuilt on the basis of the population of the sub-divisions.

A statement showing percentage variation of population from 1901 to 1971 is given below.

*Percentage variation of Population 1901—1971**(+for increase, —for decrease)*

State	Total Rural Urban	1901 to 1971	1961 to 1971	1951 to 1961	1941 to 1951	1931 to 1941	1921 to 1931	1911 to 1921	1901 to 1911
1	2	3	4	5	6	7	8	9	10
Tripura	Total	+797.93	+36.28	+78.71	+24.56	+34.14	+25.63	+32.59	+32.48
	Rural	+735.17	+34.16	+74.20	+20.41	+32.84	+25.67	+33.18	+33.47
	Urban	+2,430.94	+57.64	+141.81	+140.74	+84.69	+23.72	+13.35	+6.48

The figures cannot be presented for each district as separate figures for each sub-division are not available. One striking point emanating from the statement is the decline in the growth of population during the decades 1921 to 1931, 1941 to 1951 and 1961 to 1971. In the past the land hungry people from the neighbouring districts of British Bengal and Assam came to settle in Tripura due to the liberal settlement policy followed by the Tripura Darbar. The low increase of population during the decade 1921 to 1931 may be due to the less immigration of people from the neighbouring districts of British Bengal and Assam.

The high increase in the following decade was due to the development of Tea Industry and the influx of settlers to reclaim and cultivate these fallow lands in Tripura. The low increase during 1941—1951 may be attributed in part at least to the incompleteness of the census in 1951. The antisocial activities in the hill prevented the enumerators to go in the interior. There was an abnormal increase during 1951-61 which was due to the large influx of refugees from East Pakistan due to communal disturbance there and other causes. Another striking point is that the pace of growth is faster in urban than in rural areas.

Changes in the proportion of Sexes

The following Statement shows the changes in the proportion of sexes during 1901—1971.

Females per 1000 males

State	Total Rural Urban	Year							
		1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9	10
Tripura	Total	943	932	904	886	885	885	885	874
	Rural	944	936	909	891	889	888	894	887
	Urban	935	884	836	754	727	787	836	595

The proportion of the number of females has increased from Census to Census starting from 1901. The urban

sex ratio reveals that there is a tendency for females to catch up in number with males.

A-II DECADAL VARIATION IN POPULATION SINCE 1901

State/District	Year	Persons	Decade Variation	Percentage decade Variation	Males	Females
1	2	3	4	5	6	7
Tripura State	1901	173,325	92,495	80,830

	1931	101,374	+ 21,954	+ 27.64	54,163	47,211
	1941	133,264	+ 31,890	+ 31.46	71,013	62,251
	1951	143,968	+ 10,704	+ 8.03	75,459	68,509
	1961	274,663	+130,695	+ 90.78	141,868	132,795
	1971	399,728	+125,065	+ 45.53	205,524	194,204

NOTE :—*The population shown for 1901 of West Tripura District (Sonamura Sub-division) also includes the population of Udaipur and Amarpur Sub-divisions of South Tripura District. As the 1901 population of these districts is not comparable, N.A., which stands for 'Not available' has been shown in the columns 4 and 5 against the year 1911.

A-II DECADAL VARIATION IN POPULATION SINCE 1901

Fly-leaf

The appendix to Table A-II furnishes the area and population affected by each territorial change of jurisdiction since 1961. There is no change in the territorial unit of Tripura which is explained in the foot-note of the appendix.

APPENDIX

STATE AND DISTRICT SHOWING 1961 POPULATIONS ACCORDING TO THEIR TERRITORIAL JURISDICTION IN 1961, CHANGES IN AREA AND THE POPULATION OF 1961 ADJUSTED TO JURISDICTION OF 1971

State/District	Area in 1971 (Km ²)	1971 Population	Area in 1961 (Km ²)	1961 Population according to jurisdiction prevailing in 1961	Population in 1961 adjusted to jurisdiction of 1971	Net increase or decrease between cols. 5 and 6
1	2	3	4	5	6	7
Tripura State	10,477.0	1,556,342	10,660.4	1,142,005	1,142,005	..
1. West Tripura District	3,359.0	751,605	3,483.5	573,993	573,993	..
2. North Tripura District	3,541.0	405,009	3,538.0	293,349	293,349	..
3. South Tripura District	3,577.0	399,728	3,638.9	274,663	274,663	..

- (i) There is no change in Territorial Unit. The difference in area figures shown under cols. 2 and 4 for state as a whole is due to revised computation.
- (ii) There were sub-divisions in Tripura in 1961 Census. These sub-divisions now forming the districts namely West Tripura (Sadar, Khowai and Sonamura Sub-Divisions), North Tripura (Kamalpur, Kailasahar and Dharmanagar Sub-Divisions) and South Tripura (Udaipur, Amarpur, Belonia and Sabroom Sub-Divisions).
- (iii) Area figures under col. 4 are those supplied by state survey department whereas area figures under col. 2 are those supplied by Surveyor General.

TABLE A—III
VILLAGES CLASSIFIED BY POPULATION

A-III VILLAGES CLASSIFIED BY POPULATION

Fly-leaf

This table as in 1961 Census gives figures for the number and population of villages in the following population size based on 1971 Census. The number and population of villages are first divided into three broad groups like, less than 2,000, 2,000—9,999 and with population of 10,000 and above. The first two broad groups are further sub-divided into

- | | |
|------------------|-----------------|
| I. less than 200 | II. 2,000—4,999 |
| 200—499 | 5,000—9,999 |
| 500—999 | |
| 1,000—1,999 | |

This is being supplemented with an appendix showing the sub-totals of broad groups of villages viz., 0—499,

500—1,999, 2,000—4,999 and 5,000 and above. The Union Table on the subject gives information upto the level of district while the State Table gives particulars upto the level of the sub-divisions.

The term 'village' as used in these tables has already been defined in the fly-leaf to Table A-I. According to Census instruction when a village lies partly in town and partly in rural area, the rural portion is treated as a complete village.

The following statement shows percentage of population in villages of various population sizes with reference to total rural population in each district, in 1971.

State/District	Percentage of Population living in villages having persons						
	Less than 200	200—499	500—999	1,000—1,999	2,000—4,999	5,000—9,999	10,000 and above
1	2	3	4	5	6	7	8
Tripura	18.26	22.27	23.69	21.96	12.65	1.17	..
1. West Tripura	20.48	21.10	21.33	19.13	16.22	1.74	..
2. North Tripura	15.20	25.34	35.14	23.00	1.32
3. South Tripura	17.55	21.19	16.21	25.72	17.95	1.38	..

The population of rural Tripura is 89.57 per cent of the total population. The above table indicates that 23.69 percent of the rural population of Tripura are in the villages having a population of 500—999 each. Only 1.17 per cent of the rural population are in villages having population of 5,000 to 9,999.

Coming down to district level the picture remains almost the same. Only in the North Tripura district there is no village having population 4,999 and above. It would be observed that there is no village with a population of 10,000 and above in this state.

The following statement shows the percentage of villages and population by class of villages in 1971.

State/District	Less than 500		500—999		1,000—1,999		2,000—4,999		5,000—9,999	
	Percent of No. of village in this class to total No. of village	Percent of population in this class to total population	Percent of No. of village in this class to total No. of village	Percent of population in this class to total population	Percent of No. of village in this class to total No. of village	Percent of population in this class to total population	Percent of No. of village in this class to total No. of village	Percent of population in this class to total population	Percent of No. of village in this class to total No. of village	Percent of population in this class to total population
1	2	3	4	5	6	7	8	9	10	11
Tripura	83.86	40.54	10.01	23.69	4.70	21.95	1.37	12.65	0.06	1.17
1. West Tripura	86.75	41.58	7.99	21.33	3.63	19.13	1.55	16.22	0.08	1.74
2. North Tripura	77.23	40.54	16.77	35.14	5.82	23.00	0.18	1.32
3. South Tripura	84.21	38.74	7.63	16.21	5.88	25.72	2.19	17.95	0.09	1.38

The outstanding feature revealed by this table is that 40.54 percent of the total rural population of Tripura are concentrated in 83.86 percent of villages of the size having less than 500 people. Coming to

the district level the same trend is observed in all the districts. More than 44 percent of population live in 14.71 per cent of villages having population size 500—1,999.

UNION TABLE-A III—VILLAGES

TABLE A-IV
TOWNS AND URBAN AGGLOMERATIONS
CLASSIFIED BY POPULATION IN 1971
WITH VARIATION SINCE 1901

TABLE A-IV—TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901.

FLY-LEAF

This table shows the growth of each town since 1901. The table corresponds to Table A-IV of 1961 but this time the area of the town is shown in sq. Km. instead of sq. mile. The area figures of each town shown in the table are supplied by the Government of Tripura.

The definition of town in 1971 census has already been discussed in the fly-leaf to Table A-I.

Classification of Towns :

The towns are classified according to their population as per 1971 Census into six classes. The total population of the urban agglomeration along with the populations of Agartala town within the urban agglomeration has been shown in that class. The classes are as follows :

Class I	. . .	1,00,000 and above
Class II	. . .	50,000 to 99,999
Class III	. . .	20,000 to 49,999
Class IV	. . .	10,000 to 19,999
Class V	. . .	5,000 to 9,999
Class VI	. . .	Less than 5,000

Urban Agglomeration :

The 1961 Census concept of 'town group' has been replaced by a new concept of urban agglomeration in 1971. Urban agglomeration has been defined as a continuous urban spread constituted of a town and its

adjoining urban outgrowths or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns.

In fact, there was no town group in Tripura during 1961 Census. The formation of urban agglomeration comes in for the first time in 1971 Census. Only one town viz. Agartala is covered by the concept of urban agglomeration.

A list of Agartala Urban agglomeration with its out growth is given below :

(a) Agartala Town :

OUT GROWTH

- (i) Ramnagar.
- (ii) Radhanagar.
- (iii) Kunjaban Township.
- (iv) Kunjaban.
- (v) Ujan Abhoynagar.
- (vi) Jagatpur.
- (vii) Dhaleswar.
- (viii) Dakshin Chandrapur.
- (ix) Uttar Pratapgarh.
- (x) Paschim Pratapgarh.
- (xi) Uttar Bardowali.
- (xii) Bhattapukur.
- (xiii) Joy Nagar.
- (xiv) Bhati Abhoynagar.

The following statement shows the lists of (i) towns (ii) urban agglomerations in Tripura.

Serial No.	Town/Urban agglomeration	State	District	Class Sl. No. of A-IV	Page No.
1	2	3	4	5	6
1.	Agartala Urban agglomeration	Tripura	West Tripura	I/I	..
2.	Dharmanagar	Tripura	North Tripura	IV/1	..
3.	Radhakishorepur	Tripura	South Tripura	IV/2	..
4.	Belonia	Tripura	South Tripura	IV/3	..
5.	Kailasahar	Tripura	North Tripura	IV/4	..
6.	Khowai	Tripura	West Tripura	V/I	..

The following is a statement of the changes in the classification of towns in Tripura from 1901 to 1971.

CHANGES IN THE CLASSIFICATION OF TOWNS IN TRIPURA FROM 1901-1971.

Towns	Census Year							
	1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
1. Agartala Urban agglomeration	I	II	III	IV	V	V	V	V
2. Khowai	V	V
3. Dharmanagar	IV	IV
4. Kailasahar	IV	V
5. Radhakishorepur	IV	V
6. Belonia	IV	V

It may be seen from the statement that for the first time in Tripura, Agartala has qualified to be treated as class I town considering the population of its out-growth. The adjusted population figures for Agartala urban agglomeration could not be calculated for the previous Censuses.

The boundaries of Agartala Municipality have remained the same since it was constituted. Only recently after the 1971 enumeration, its area has been extended. It may also be seen that three towns namely,

Radhakishorepur, Belonia and Kailasahar have attained a higher class in 1971 Census. Although the heading of the statement is changes in the classification of towns from 1901 to 1971, the five towns which were newly recognised as such in 1961 have also been shown to present a complete picture.

The following is the statement of number of towns of each class during 1901-1971.

Number of towns in each class during 1901 to 1971 (Agartala urban agglomeration is classified according to total population).

Class	Census year							
	1971	1961	1951	1941	1931	1921	1911	1901
1	2	3	4	5	6	7	8	9
Class I	1
Class II	..	1
Class III	1
Class IV	4	1	..	1
Class V	1	4	1	1	1	1
Class VI

The following statement deals with the percentage of towns in each class to total number of towns and percentage of population in each class to total urban population from 1901-1971.

Percentage of towns in each class to total number of towns and percentage

Class of Town	1971		1961		1951	
	Percentage of No. of Towns	Percentage of Population	Percentage of No. of Towns	Percentage of Population	Percentage of No. of Towns	Percentage of Population
1	2	3	4	5	6	7
Class I	17	62
Class II	17	53
Class III	100	100
Class IV	66	32	17	13
Class V	17	6	66	34
Class VI

62 Percent of the urban population in Tripura now resides in class I Town,

NOTES :—

(i) *Towns treated as such for the first time in 1961 census which continue as towns in 1971 Census are shown with asterisk (*) on their left.

(ii) N.A.—Not available.

(iii) The following abbreviations have been used for the status of town.

M—Municipality.

NM—Non-Municipal.

+As the 1971 area figures for the Units (Out growths) shown under Agartala M, are not available separately and are included in Rural area of State/District/Sub-Division. N.A. Has been shown in col. 6 for each out-Growth as well as Agartala U.A.

A-IV—TOWNS AND URBAN AGGLOMERATIONS CLASSIFIED BY POPULATION IN 1971 WITH VARIATION SINCE 1901.

APPENDIX II

Changes in area of towns with population between 1961 and 1971 and reasons for the changes in area.

FLY-LEAF

This appendix furnishes the change of area between 1961 and 1971 of town with population and the reason for the change. This is a new appendix introduced in this census.

As compared with 1961 Census, no new town has been added to the list of towns. Only the area of one town namely Radhakishorepur has been extended. In 1961 the following Census villages of 1951 Census constituted Radhakishorepur town.

1. Radhakishorepur.
2. Radhakishorepur Bazar.

3. Sonamura (in part).
4. Fulkumari (in part).
5. Chanban.

In 1971 Census greater part of village Fulkumari has come under the area of the town. It is not possible to ascertain, what would have been the population of this town in 1961 if this part village treated as urban in 1971 had been treated as such in 1961. The 1961 Census population for this part of the village is not available.

APPENDIX II.

Changes in area of Towns (With population) between 1961 and 1971 and reason for change in area.

Name of Town (District)	Area (in Km ²) 1961	Area (in Km ²) 1971	Population		Reason for the change
			1961	1971	
1	2	3	4	5	6
Radhakishorepur Town (South Tripura District)	5.05	6.48	8,778	13,924	During 1961 to 1971 the area of the town has increased due to growth of township.

TABLE-A—V
STANDARD URBAN AREAS

TABLE-A—V-STANDARD URBAN AREAS

FLY-LEAF

This is a new table introduced in 1971 census. This table furnishes data on civic status, area in km², density, occupied residential houses, houseless and institutional population, total population sex, population according to the last two censuses relating to standard urban area and each of its component units (both urban and rural).

Standard Urban Area (S.U.A.)

Standard urban area (S.U.A.) represents spatially contiguous territory of urban-rural settlements and effectively tackle the problem of furnishing data in respect of urbanisable areas in the next three decades or so outside the jurisdiction of the existing towns. Since the administrative boundaries of statutory towns changed from time to time, the comparability of data from census to census was difficult in the past. S.U.A. will have a fixed area covering a large core town as well as the adjoining areas delineating contiguous rural and urban areas which are or likely to be under intensive influence of the core town. The core town will generally have a population of 50,000 or above. S.U.A. may have any or all of the following characteristics.

- (a) Predominant Urban Land Use .
- (b) Intensive inter-action with the urban centres as reflected in commutation for the purpose of work and secondary education facilities ; extension of City Bus service ; sale of commodities like milk, dairy products, Vegetables (other than those transported by rail or truck-haul) and purchase of food grains, cloths and general provisions, by the consumers directly.
- (c) Anticipated urban growth as a result of locational decisions relating to industry, market, transport, and communications, administrative and servicing functions.
- (d) Existence of big villages with a large proportion of working force engaged in non-agricultural industrial categories.

On the basis of population as per 1961 census Agartala is the only town to have standard urban areas. The town and country planning organisation of the Govt. of Tripura and the census Directorate jointly on the basis of the above definition determined the areas to be included in the standard urban areas for Agartala town. The following revenue villages have been selected as the S.U.A. of Agartala town.

- (1) Lanka mura (2) Barjala (3) Badharghat (4) Pratapgarh (5) Ananda nagar (6) Kunjabar (7) Debendranagar (8) Radhakishore nagar (9) Indra nagar (10) Khayer pur (11) Uttar Champamura (12) Jogendranagar (13) Ramnagar (14) Dukli (15) Narsingar (16) Singerbil (17) Gandhigram (18) Agartala.

The following list shows the name of census villages together with the census location code comprising the revenue village under S.U.A. The term 'Census village' has already been explained in fly-leaf to table A-I.

Serial No.	Name of the Revenue villages	Name of the Census villages with Census location code
1.	Lankamura . . .	1. Lankamura (388)
		2. Sarmalunga (389)
		3. Paschim Bhubanban (390)
2.	Barjala	1. Nutan Nagar (382)
		2. Purba Bhubanban (392)
		3. Barjala (393)
		4. Dighalia (384)
		5. Amtali (383)
		6. Chadinamura (394)
		7. Madhya Bhubanban (391)
		8. Radhanagar (396)
3.	Badharghat	1. Dakshin Badharghat (421)
		2. Uttar Badharghat (420)
		3. Madhya Badharghat (424)
		4. Paschim Badharghat (425)
		5. Raj Laxmi T.E. (436)
		6. Pratapgarh T.E. (423)
		7. Bhattapukur (419)
		8. Arunchutinagar (434)
		9. Dakshin Badharghat (435)
4.	Pratapgarh	1. Purba Pratapgarh (414)
		2. Paschim Pratapgarh (417)
5.	Anandanagar	1. Dwarika Sardar Para (413)
		2. Dayananda Para (441)
		3. Dhala Cherra (444) .
		4. Dakshin Maloynagar (446)
		5. Anandanagr (447)
		6. Pankhiroy Sardar Para (467)
		7. Bir Chandra Para (470)
		8. Kirti Galim Para (471)

Serial No.	Name of the Revenue villages	Name of the Census villages with Census location code	Serial No.	Name of the Revenue villages	Name of the Census villages with Census location code
6.	Kunjaban	1. Kunjaban Township (377) 2. Kunjaban Colony (378) 3. 79, Tilla (501)	13.	Ramnagar	1. Kalikapur (395) 2. Rajnagar (428) 3. Joynagar & Joypur (429) 4. Ramnagar (397) 5. Ramsundarnagar (427) 6. Joynagar (426)
7.	Debendranagar	1. Uttar & Dakshin Debendranagar (315) 2. Adarini T.E. (373) 3. Dam Damia Colony (374) 4. Lenbucherra (375) 5. Nishan Kobra Para (338) 6. Joyram Mani Para (320)	14.	Dukli	1. Paschim Dukli (437) 2. Purba Dukli (438) 3. Mahish Khola (448) 4. Kata Sheola (412) 5. Uttar Maloynagar (439) 6. Subhasnagar (499) 7. Shyama Prasad Colony (503)
8.	Radhakishorenagar	1. West Noabadi (504) 2. Radhakishorenagar (505) 3. Durga Chow. Para (545) 4. Nripendranagar Colony (546)	15.	Narsingarh	1. Bhagalpur (298) 2. Bagadi (302) 3. Narsingarh (301)
9.	Indranagar	1. Indranagar (401) 2. Khas Nandapur (402) 3. Nainna mura (404) 4. Nandan Nagar (403) 5. Ichamura (405) 6. Noagaon Krishna Nagar (406) 7. Jagatpur (399)	16.	Singarbil	1. Narayanpur (387) 2. Chinai Hani (386) 3. Ananganagar (303)
10.	Khayerpur	1. Resan Bagan (507) 2. Kashipur (508) 3. Laxmipur (510) 4. Chandrapur (511) 5. Mariamnagar (512) 6. Rajdharnagar (513) 7. Khayerpur (514) 8. Ichamna (506) 9. Jagannathpur (540)	17.	Gandhigram	1. Uttar & Dakshin Ramnagar (304) 2. Nabagram (385) 3. Uttar Mahishpur (299) 4. Rammodh (307) 5. Durgabari Colony (308) 6. Uttar Rajnagar (376)
11.	Uttar Champamura	1. West Champamura (516) 2. East Champamura (517) 3. Old Agartala (515) 4. Baldakhal (509)	18.	Agartala	1. Rampur (309) 2. Uttar Pratapgarh (415) 3. Dhaleswar (408) 4. Ujan Abhoynagar (398) 5. Radhanagar (379) 6. Bhati Abnoynagar (380) 7. Anath Sibir (400) 8. Dakshin Chandrapur (409) 9. Uttar Bardwali (418)
12.	Jogendranagar	1. Aralia (410) 2. Jogendranagar (411)			

Of these 18 Revenue Mouzas comprising standard urban area 13 are completely rural and the remaining 5 are partly urban and partly rural. Therefore the urban components of the standard urban area shown in the table have been taken from the later type of Revenue Mouzas. Out of the 15 urban components,

one is Agartala town (Municipal) and the remaining 14 are the components of Agartala urban agglomeration. The particulars of partly urban and partly rural revenue Mouzas under rural component do not represent the complete Mouzas but shown after excluding the villages under urban component.

**PRIMARY
CENSUS ABSTRACT**

PRIMARY CENSUS ABSTRACT

Fly-leaf

This table gives figures for area in km², number of occupied residential houses, households, total population, population of scheduled castes and scheduled tribes, literates and educated persons, the working population classified into 9 broad Industrial categories and non-workers as a separate category. These are as follows :—

I—Cultivators, II—Agricultural labourers, III—Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, IV—Mining and quarrying, V—Manufacturing, processing, servicing and repairs (a) Household Industry, (b) other than Household Industry, VI—Construction, VII—Trade and commerce, VIII—Transport storage and communications, IX—Other services, X—Non-workers.

The category III of 1961 census has been divided into two categories viz., Category III—Livestock, Forestry, Fishing, Hunting and plantations, Orchards and allied activities and category IV—Mining and Quarrying. The 1961 census category IV of household industry is included in category V of 1971 census treating it as a sub-category.

In the Union Primary Census Abstract figures are presented down to the district level separately for rural and urban population. The State Primary Census Abstract shows figures down to the sub-division/town. Similar information in respect of individual villages will be found in the District Census Hand book—Part A.

Occupied census House :—Attention is invited to fly-leaf to Table A-I.

Household :—A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so.

The following table gives the percentage of households to number of houses in the state and districts with rural-urban distribution.

Percentage of households to number of houses in rural and urban areas in each district, 1971.

State/District	Percentage of households to number of houses		
	Total	Rural	Urban
1	2	3	4
TRIPURA	112	110	133
West Tripura	117	114	139
North Tripura	106	106	117
South Tripura	109	108	128

For the state as a whole there are 112 households for every 109 occupied residential houses. In all the districts and the state the excess of household over occupied residential houses is more prominent in urban areas than in rural areas. In other words census household tend to coincide with occupied residential houses to a greater degree in rural areas than in urban areas. This shows the extent of congestion in living condition is more in urban areas than in rural areas.

The subjoined table furnishes density of households per km² in the state and districts with rural urban distribution.

State/District	Density of household per km ²		
	Total	Rural	Urban
1	2	3	4
TRIPURA	26	23	683
West Tripura	38	33	1,738
North Tripura	21	19	243
South Tripura	20	19	470

Among the districts West Tripura stands at the top with density of households 28 per km². In the rural as well as in urban the same pattern is noticed. The high urban density in West Tripura is due to the density in Agartala town which is the Capital town of the state.

Scheduled Castes and Scheduled Tribes

The scheduled castes and scheduled tribes for the purpose of census means the scheduled castes and scheduled tribes given in the scheduled castes and scheduled tribes lists (modification) Order 1956 issued by the President of India so far as it applies to Tripura. The list is reproduced below :

Scheduled Castes

1. Bagdi
2. Baiti
3. Bhumali
4. Bhunar
5. Chamar or Muchi
6. Dandasi
7. Dhenuar
8. Dhoba
9. Duai
10. Dum
11. Ghasi
12. Gour
13. Gunar
14. Gur
15. Gorang
16. Jalia Kaibarta
17. Kahar
18. Kalindi
19. Kan
20. Kanda
21. Kanugh
22. Keot
23. Khadit
24. Kharia
25. Khemcha
26. Koch
27. Koir
28. Kol
29. Kora
30. Kotal
31. Mahisyadas
32. Mali
33. Mehtor
34. Musahar
35. Namsudra
36. Patni
37. Sabar

Scheduled Tribes

1. Lushai
2. Mag
3. Kuki, including the following sub-tribes :—
 - (i) Balte
 - (ii) Belahut
 - (iii) Chhalya
 - (iv) Fun
 - (v) Hajango
 - (vi) Jangtei
 - (vii) Khareng
 - (viii) Khephong
 - (ix) Kuntei
 - (x) Laifang
 - (xi) Lentei
 - (xii) Mizel
 - (xiii) Namte
 - (xiv) Paitu, Paite
 - (xv) Rangchan
 - (xvi) Rangkhole
 - (xvii) Thangluya
4. Chakma
5. Garoo
6. Chaimal
7. Halam
8. Khasia
9. Bhutia
10. Munda including Kaur
11. Orang
12. Lepcha
13. Santal
14. Bhil
15. Tripura or Tripuri, Tippera
16. Jamatia
17. Noatia
18. Riang
19. Uchai

The figures relating to scheduled castes and scheduled tribes given in this table should therefore be read and interpreted in the light of the 1956 Order.

The following table gives percentage of scheduled castes and scheduled tribes to total males and females by rural and urban areas of each district and towns.

STATEMENT

Percentage of scheduled castes and scheduled tribes to the total males and females by rural and urban areas in each district and towns.

State/District/Town	Percentage of scheduled castes				Percentage of scheduled tribes			
	Males		Females		Males		Females	
	Rural	Urban	Rural	Urban	Rural	Urban	Rural	Urban

TRIPURA	13.12	6.34	13.09	6.21	31.73	3.52	32.13	3.23
1. West Tripura District	14.47	6.58	14.46	5.46	29.90	4.70	30.50	4.50
Agartala U. A.	—	3.32	—	3.30	—	6.12	—	6.14
Khowai Town	—	4.10	—	3.34	—	3.30	—	1.35
2. North Tripura District	11.46	4.48	11.35	4.43	28.61	0.79	28.81	0.38
Kailasahar Town	—	8.04	—	8.16	—	1.04	—	0.56
Dharmanagar Town	—	2.22	—	2.11	—	0.63	—	0.27
3. South Tripura District	12.50	11.70	12.46	11.35	38.03	1.47	38.27	0.77
Radhakishorepur Town	—	13.36	—	13.42	—	1.51	—	0.96
Belonia Town	—	9.68	—	8.81	—	1.30	—	0.54

The percentage of scheduled castes for the state as a whole comes to 13.12 to total males and 13.09 to total females in the rural area as against 6.34 to total males and 6.21 to total females in the urban areas. Coming to district the percentage of scheduled castes to total males in rural areas is highest in West Tripura district. Among the town Radhakishorepur is the highest in case of males and females both.

The percentage of scheduled tribes to total males in rural and urban areas is 31.73 and 3.52 respectively for the state and for females the figures are 32.13 and 3.23. Coming to district, South Tripura is the highest in both males and females for rural areas.

Houseless and Institutional Population

Attention is invited to fly leaf to appendix III to table A-I.

Literate and educated persons

'Literate' is one who can read and write a simple letter. If such a person has also passed a written examination or examinations as a proof of educational standard attained, he is classed as educated.

The following statement shows the percentage of literate and educated persons, Percentages have been worked out on total population including the population below the age of 5.

STATEMENT

Percentage of literate and educated persons to total population, males, and females by rural and urban area of each district and in towns.

State/District/Town	Percentage of literate and educated persons					
	Rural			Urban		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
TRIPURA	27.1	36.4	17.3	64.0	72.4	55.0
1. West Tripura	27.0	36.0	17.5	65.6	73.7	56.8
Agartala U. A.	—	—	—	65.7	74.0	57.0
Khowai Town	—	—	—	63.7	71.1	55.7
2. North Tripura	29.8	39.2	19.9	63.9	70.0	57.1
Kailasahar Town	—	—	—	61.1	67.6	54.0
Dharmanagar Town	—	—	—	65.6	71.6	59.1
3. South Tripura	24.6	34.4	14.2	57.5	69.4	45.0
Radhakishorepur Town	—	—	—	57.5	68.5	46.0
Belonia Town	—	—	—	57.5	70.4	43.8

The percentage of literate and educated persons to total males and females in the districts and state are given below :

State/District	Percentage of literate and educated persons.		
	Total	Males	Females
TRIPURA	30.98	40.20	21.19
West Tripura	32.16	41.49	23.23
North Tripura	32.17	41.32	22.38
South Tripura	26.69	36.62	16.17

The number of literate and educated persons in Tripura per 100 is 30.98 in 1971 as against 20.20 in 1961. In respect of male and female literacy the number of literate and educated males per 100 males is 40.20 in 1971 against 29.60 in 1961 and the number of literate and educated females per 100 females is 21.19 in 1971 against 10.20 in 1961.

The highest literacy is found in North Tripura district (32.17) while it is the lowest in South Tripura district (26.69). While North Tripura district (29.8) has the highest percentage of literacy, South Tripura,

district (24.6) has the lowest amongst the rural areas of the state. In North Tripura district 39.2 per cent. males are literate which is the highest in rural areas of state while 34.4 per cent males are literate in South Tripura district. Female literacy is highest in the rural areas of North Tripura district (19.9) while the lowest is found in South Tripura district (14.2)

West Tripura district has the highest Literacy (65.6) amongst the urban population of the state while South Tripura district (57.5) is the lowest. The same pattern is noticed in case of male population in urban areas. In case of female literacy in urban areas North Tripura district is the highest.

Literacy rate is substantially higher in towns than in villages. Amongst the towns Agartala town urban agglomeration has the highest literacy (65.6), 73.7 per cent of males and 50.8 per cent of females are literate.

Worker:—The definition with necessary clarifications and explanation of worker, cultivator, agricultural labourer, household industry etc. used in Primary Census Abstract have been reproduced in Annexure.

Statement showing distribution of 100 persons males and females of rural and urban areas of each district among the worker and non-worker and for category of worker.

N = Negligible

Sex ratio among total population, of workers, and non-workers of each category.

The percentage of worker to the total population of the state as a whole comes to 28. Among the male population, it is higher *i.e.*, 49 as against 5 among females. It is also to be noted that the percentage of worker is higher in rural areas than in urban areas.

Cultivator and agricultural labourer constitute the most predominant section among workers. Out of 49 per cent male worker, 37 per cent are engaged either as cultivators or agricultural labourers. The corresponding figures for female population are, that out of 5 per cent of female worker 3 per cent are engaged either as cultivators or agricultural labourers. The percen-

tage of worker is highest in North Tripura district. A look into the table would reveal that the percentage of female worker is also highest in North Tripura district. A possible explanation may be the presence of a large number of tribal people and the people belonging to Manipuri Community in this district. The female participation rate is generally higher among these people.

Following statement gives the sex ratio among total population, total workers, each category of workers and among non-workers in rural and urban areas of each district and towns.

State/District	Total Rural Urban	Total Population	Total Workers	CATEGORY OF WORKERS									Non-Workers	
				I	II	III	IV	Va	Vb	VI	VII	VIII		IX

	Rural	945	82	69	119	85	—	133	167	6	42	16	77	1,835
	Urban	948	98	34	13	24	—	133	54	—	23	27	214	1,562

The overall sex ratio defined as the number of females per thousand males comes to 92 for workers, 1,774 for non-workers. It would be observed that the state sex ratio among total population is 943 which varies between 944 in rural areas to 935 in urban areas. Sex ratio among the total workers of the state is 92 which varies between 89 in rural areas to 121 in urban areas. The highest sex ratio (539) among the various categories of workers is located in category (III), fol-

lowed by (140) in category V (a) and by (135) in category IX. The lowest sex ratio (9) is found in category (VIII).

Detailed account of the worker and non-worker and the occupation in different categories and also the details of the non-workers can be obtained from the general economic tables which are presented in part II-B of Tripura publication.
