PREFACE

After the completion of the 1961 Census and the publication of the reports and Tables of the Census, the erstwhile State of Punjab came to be reorganised under the Punjab State Reorganisation Act, 1966. The State of Haryana and the Union Territory of Chandigarh were carved out of composite Punjab. Some areas were transferred to Himachal Pradesh. It became necessary to recast the 1961 Census Tables according to new jurisdictions of the States of Punjab, Haryana, Himachal Pradesh (then Union Territory) and the Union Territory of Chandigarh. This paper deals with the recasting of some basic Tables, viz., A-series Tables and the Summary Census Abstract, relating to these units published in Census of India 1961, Vol. VI—Punjab—Part II-A (General Population Tables) and Volume XX—Himachal Pradesh—Part II-A (General Population Tables).

The Tables relating to Punjab, Haryana and the Union Territory of Chandigarh were recast in the office of the Director of Census Operations, Punjab and scrutinised in the Registrar General's office. The tables relating to Himachal Pradesh were, however, compiled in the Registrar General's office itself. Recasting of the Tables in the Office of the Director of Census Operations, Punjab was done under the supervision of Shri H. S. Kwatra, Deputy Director of Census Operations and the work relating to checking and recasting of Himachal Pradesh data was done under the supervision of Shri S. C. Srivastava, Assistant Central Tabulation Officer in the Registrar General's office. I wish to place on record my appreciation of good work done by these two officers and the members of the staff associated with this work whose names appear below:

U	242.4	145.1	54.9	12.5

Rural and Urban Areas

The definition adopted for an urban area in 1961 was as follows :

(a) all places with a Municipality, Corporation or Cantonment or Notified Town Area.

(b) all other places which satisfied the following criteria :

(i) a minimum population of 5,000.

(ii) at least 75% of the male working population was non-agricultural.

(iii) a density of population of at least 400 per sq. km. (i.e., 1000 per sq. mile).

The Superintendent of Census of each State/U.T. was, however, given some discretion in respect of some marginal cases, in consultation with the State Government, to include some places that had other distinct urban characteristics and to exclude undeserving cases.

All places which were not regarded as towns were rural. A statement showing the classwise distribution of towns in Punjab, Haryana, Himachal Pradesh and Chandigarh is given below :

Number of Towns by class range

Village and occupied residential houses

It has already been stated in the foregoing paragraphs that all places which were not regarded as towns were treated as rural. In the rural areas the smallest area of habitation viz., the village generally follows the limit of a revenue village that is recognised by the normal district administration. The revenue village need not necessarily be a single agglomeration of the habitations. But the revenue village has a definite surveyed boundary and each village is a separate administrative unit with separate village accounts. It may have one or more hamlets. The entire revenue village is one unit. There may be unsurveyed villages within forests etc., where the locally recognised boundaries of each habitation area is followed within the larger unit of say the forest range officers jurisdiction.

Census house refers to a structure or part of a structure, inhabited or vacant; used as a dwelling, a shop cum-dwelling, workshop, factory, or place of business, with a separate entrance. If a building had a number of flats or blocks which had separate entrances of their own and were independent of each other, giving on the road or a common staircase or a common courtyard leading to a main gate, they were considered as separate census houses. An entire building if used as one unit, though it may be having more than one entrances, was taken as one census house. A census house which at the time of enumeration was occupied by a household, and it was used as a dwelling, shop-cum-dwelling, workshop-cum-dwelling or for any other purpose conjointly with dwelling, was taken as an occupied residential house. An occupied residential house may have one or more than one census household. A household is a group of persons who commonly live together and would take their meals from a common kitchen unless exigencies of work prevented any one of them from doing so.

The following statement gives data for each district in regard to (1) Number of persons per occupied census house, (2) Number of females per thousand males by total, rural and urban population, (3) Percentage of rural and urban population to total population and also (4) Density of population per sq. mile.

NOTES.—1 †The sq. km. and density figure of urban areas of Tahsil/District/State are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District/State totals tally.

2. Towns treated as such for the first time in 1951 Census which continue as town in 1961 Census are shown with an asterisk (*) on their left.

3. Towns treated as such for the first time in 1961 Census are printed in Italics.

4. The following abbreviations have been used for the status of a town:—

M.C.=Municipal Committee.

C.B.=Cantonment Board.

N.A.C.=Notified Area Committee.

NOTES:—1. †The sq. km. and density figures of urban areas of Tahsil/District/State are worked out using the area figures corrected upto two places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the Table. In addition to this, the area figures relating to sq. km. are further adjusted to make the Tahsil/District/States totals tally.

2. Towns treated as such for the first time in 1951 Census which continue as towns in 1961 Census are shown with an asterisk (*) on their left.

3. Towns treated as such for the first time in 1961 Census are printed in Italics.

4. The following abbreviations have been used for the status of a town:—

M.C.—Municipal Committee.

C.B.—Cantonment Board.

N.A.C.—Notified Area Committee.

NOTES.—1. †The Sq. Km. and density figures for Urban areas of Tahsil/District are worked out using the area figures corrected upto 2 places of decimals obtained by adding the areas of towns in the respective units and not using the area figures given in the table. In addition to this the area figures relating to Sq. Km. are further adjusted to make the Tahsil/District totals tally.

- Towns treated as such for the first time in 1951-Census which continue as towns in 1961-Census are shown with an asterisk (*) on their left.
- The following abbreviation have been used for the status of a town.
M.C.—Municipal Committee.
C.B.—Cantonment Board.

TABLE A-IV

Towns and Town Groups classified by population in 1961 with variation since 1901

FLY-LEAF

The term 'Town' has already been explained in the Fly-leaf to Table A-I. The concept of Town Group adopted at the 1961 Census is explained below :

If two or more adjacent towns from a compact unit, the entire area so formed has been termed as 'Town Group'. The term 'Town Group' was evolved with a view to bringing out such areas as are so close to one another geographically and otherwise for all practical purposes they formed a single unit, though they may continue to be served by separate local administrations. The following statement gives the composition of town groups in the reorganised States :

State/Union Territory	Town Group (District)	Constituent Towns
1	2	3
Punjab	Amritsar (Amritsar)	Amritsar city, Chheharta and Amritsar Cantonment.
	Jullundur (Jullundur)	Jullundur city and Jullundur Cantonment
	Ferozepur (Ferozepur)	Ferozepur, Ferozepur Cantonment and Tankanwali
	Nangal (Rupar)	Nangal Township and Naya Nangal
	Rajpura (Patiala)	Rajpura Township and Rajpura
Haryana	Ambala (Ambala)	Ambala Cantonment and Ambala
	Jagadhri (Ambala)	Yamunanagar and Jagadhri
	Faridabad (Gurgaon)	Faridabad Township and Faridabad
Himachal Pradesh	Dalhousie (Chamba)	Dalhousie and Dalhousie Cantonment
Chandigarh	Chandigarh	Chandigarh and Manimajra

Towns have been classified according to their population among Six Classes :—

Class	Population
I (Cities)	100,000 and above
II	50,000 to 99,999
III	20,000 to 49,999
IV	10,000 to 19,999
V	5,000 to 9,999
VI	Under 5,000

In Table A-IV Towns and Town Groups are arranged under these classes, and particulars are given about their area, civic status, population in different decades since 1901, decennial variations in population, and sex break-up as in 1961. For town groups population figures for their constituent units have also been given.

Area figures relate to 1961, and are given both in sq. miles and sq. kilo metres.

Towns are arranged in descending order of population under the six classes. In the case of town groups their constituents are placed just below them.

Besides giving figures for individual towns and town groups, totals for the six classes are also given. These totals have been derived for different years taking the towns according to the classes to which they then belonged.

The following method of presentation has been followed:

- (i) The population of a place which was not treated as a town in a particular census year is not shown.
- (ii) Towns treated as such for the first time in 1951 bear an asterisk (*) on their left.
- (iii) Towns treated as such for the first time in 1961 are given in italics.
- (iv) Towns treated as such in any census year prior to 1951 but not so in an inter censal year are described as 'declassified' against the year they were not treated as towns.
- (v) Places not treated as towns in 1961, even though they were treated as towns in any previous census years have not been mentioned in this table.

Detailed information about the classification of towns since 1901-1961, the percentage of towns in each class to total No. of towns etc. can be had from Part II-A General Population Tables of the respective State, i.e., Punjab and Himachal Pradesh.

The Primary Census Abstracts present data in 36 columns, which give summary information of area, number of occupied residential houses, number of households, general population, persons belonging to S.C. and S.T., literate and educated persons, working population classified into the nine industrial categories and non-working population after taking into account the territorial changes owing to the Reorganization of states of Punjab, Haryana, Himachal Pradesh (then Union Territory) and Union Territory of Chandigarh. Data are presented for state, union territory, district, tehsil and town. For more detailed information the concerned 1961 Part II-A Volumes of Punjab and Himachal Pradesh may be referred to.

2. The following abbreviations have been used to indicate the status of a town :

M. C. — Municipal Committee

C. B. — Cantonment Board

N. A. C. — Notified Area Committee

S. T. C. — Small Town Committee

Column-wise details of Primary Census Abstracts are not being reproduced here since Part II-A General Population Table of the respective States viz., Punjab and Himachal Pradesh depicts them fully. However, a statement about the distribution of 1,000 persons, males and females of rural and urban areas separately for each district and in cities and town groups of Population 100,000 and above among the workers and non-workers and for each category of worker is given in a consolidated form for Punjab, Haryana, Himachal Pradesh and Chandigarh.

Distribution of 1,000 Persons, Males and Females of Rural and Urban Areas separately of Each District and in Cities and Town Groups of Population 100,000 and above among the Workers and Non-Workers and for Each Category of Worker—contd.
