The 1961 Census in Nagaland was carried out during an important transitory period in the history of this part of the Indian Union. On 1st December 1957 the former Naga Hills District of Assam was amalgamated with the Tuensang Division of the North East Frontier Agency to become known as the "Naga Hills Tuensang Area" (NHTA) under the administration of the Union Government, with the Governor of Assam acting as the Agent to the President. From 18th February, 1961 in deference to the wishes of the Naga people this Centrally administered territory was called "Nagaland" and a Council designated as the "interim Body" was constituted. Nagaland was inaugurated by the President of India on 1st December 1963 as the Sixteenth State of the Indian Union.

Since Nagaland is a small compact area, it was from the very beginning considered unnecessary to set u p any elaborate Census machinery in Nagaland. Pursuant to this it was decided. that the tabulation work of Nagaland would be undertaken by the Superintendent of Census Operations, Assam. Hence, the main tables in this volume have been prepared in the Census Tabulation Office in Shillong (Assam). I am grateful to Shri E. H. Pakyntein, Superintendent of Census Operations, Assam and his staff for their keen interest when undertaking this work for Nagaland.

My thanks are also due to Shri K. D. Ballal, Central Tabulation Officer, Office of the Registrar General, India, New Delhi and his staff for a thorough scrutiny of the tables.

The compilation of the explanatory notes by Shri Y. P. Saxena, Statistical Assistant, needs a special mention.

Secretary to the Govt. of Nagaland, Home Department and ex-officio, Superintendent of Census Operations, Nagaland.

#### Table B-1X Persons not at work classified by sex, Broad Age-groups and Type of activity.

The Economic Tables of the 1961 Census were more elaborate than those of any of the past Censuses. A significant departure made in the 1961 Census is that emphasis was laid on "work" so that all people who were working including family workers who were not in receipt of any income or woking childern who did not earn enough for their maintenance have been included as "Workers". Even the non-workers have been divided into eight different categories according to the nature of their activities.

*Economic Questions*: The economic questions included in the questionnaires of various Censuses from 1881 to 1961 are reproduced as Appendix 'A'.

Right from the first Census in 1872 a question had been asked about a person's occupation. But it did not throw light on the actual function of individual in the sector of economic activity. In 1881 only one question was asked regarding the occupation of every person capable of working. The workers and non-workers, earners and dependants were however not clearly differentiated. The 1891 Census had also only one question and the particulars of occupation or means of subsistence were collected for all persons. In the 1901, 1911 and 1921 Censuses three economic questions were asked relating to the principal and subsidiary occupations of actual workers and for dependants the principal occupation or means of subsistence of actual worker on whom dependent.

In the 1931 Census an intermediate category of economic semi-independence was introduced. The category was called "Working-dependants" in 1931, "Partly-dependants" in 1941 and "Earningdependants" in 1951. In the 1931 Census an earner was defined in a different way and was treated as having a distinct individual or partial means of livelihood. This category was entirely new and different from both the categories of earners and dependants adopted in earlier Censuses. It is clear that in the 1931, 1941 and 1951 Censuses that an attempt was made to distinguish between dependants who contributed something towards the maintenance of themselves or their families and those dependants who had distinct individual or partial means of livelihood.

In the 1941 Census the term "Earner or dependant" gave way to a new category, *i.e.*, "Wholly or partly dependant" and the questions also elicited the livelihood of the person on whom dependant. In the 1951 Census the population was divided into the following eight livelihood classes.

Agricultural:

- (i) Cultivators of land, wholly or mainly owned, and their dependants.
- (ii) Cultivators of land wholly or mainly unowned, and their dependants.
- (iii) Cultivating labourers and their dependants.
- (iv) Non-cultivating owners of land, agricultural rent-receivers and their dependants.

Non-Agricultural :

- (v) Production other than cultivation.
- (vi) Commerce.
- (vii) Transport.
- (viii) Other Services and miscellaneous sources.

In the 1951 Census each livelihood class was further sub-divided into self-supporting persons, earning dependants and non-earning dependants. Self-supporting persons were those who earned sufficient to maintain themselves, while earningdependants were considered those who could notearn sufficient to maintain themselves and the third category of non-earning dependants consisted of those persons who did not earn at all.

The economically semi-active people known as earning dependants and the economically inactive people or non-earning dependants were divided on the basis of the livelihood classes of persons on whom they were dependant. Even after the improvements brought about in 1951 Census there remained some short-comings regarding the classification of the means of livelihood; or different categories of workers. The different categories of non-workers were not touched. Hence there was still scope for further improvement regarding the categorisation of workers or the classification of means of livelihood. This was accomplished fully in the 1961 Census. In 1961, the system of economic classification was entirely different from that of all previous censuses. Prior to 1961, income or economic independence had remained the criterion of measuring the economy of the country. But in the 1961 Census a bilateral classification of population was done making only two categories, i.e., workers and nonworkers. The persons noted below were regarded as workers:

1. In the case of seasonal work like cultivation, livestock, household industry, etc., a person doing some regular work for more than an hour per day during the greater part of the working season;

2. In the case of regular employment in any trade, profession, service, business or commerce, a person employed during any of the 15 days preceding the date of enumeration;

3. A regular worker who remained absent from work for 15 days preceding the date of enumeration or even exceeding the period of 15 days due to illness, injury or other reasons, was treated as a worker;

4. A person under training as apprentice with or without stipend or wages;

5. Domestic workers engaged in gainful occupation. A woman who, in addition to household duties was engaged in work such as pounding rice for sale or wages, or domestic service for wages, selling firewood or making and selling cow-dung cakes, etc;

6. Public or social service workers and political workers engaged actively to further the activity.

In making these categorisations the term "Work" included not only actual work but effective supervision and direction of work. All other persons who did not come under the purview of workers as explained above were put in the category of non-workers.

The workers were further sub-divided into nine categories as noted below :

I. Cultivators: This category includes both owner cultivators and tenant cultivators engaged either in cultivation or supervision or direction of cultivation. All persons working in cultivation of land on which they have either ownership or tenancy right are included in this category.

II. As Agricultural Labourer: This category included persons working on land as labourers on wages in cash or kind without holding any right upon the land he worked.

III. Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantation, Orchards and Allied Activities: This category included the persons engaged in mines and quarries; in rearing and keeping of livestock and poultry; in forestry; fishing and hunting; in plantations and in growing fruits and vegetables and allied activities.

IV. Household Industry: This category included persons working in Household Industry which fulfilled the following criteria:—

- (i) It should be conducted at home in urban areas or within the village in rural areas by the head of the household himself and/or mainly by members of the household. A person working as an employee in another person's household industry was also treated as working at household industry.
- (ii) The industry should not be run on the scale of a registered factory but may use machinery and employ power.

(iii) It should relate to the manufacture; processing, repairing of goods and services of machines and may include their sale, but should not be confined simply to buying and selling.

V. In Manufacturing other than Household Industry: "Manufacturing" included all types of production, processing, servicing or repairing of goods. This category does not include production, processing, etc., which may be classified as household industry.

VI. In Construction: This category included persons engaged in construction and maintenance of buildings, roads, railways, telegraph and telephone lines, waterways and water reservoirs, etc.

VII. In Trade and Commerce: This category included persons engaged in any capacity in all wholesale or retail trading activities, commercial transactions relating to imports and exoports, money lending, banking, insurance, auctioneering, stocks and shares, etc.

VIII. In Transport, Storage and Communication: This category included persons engaged in transport activities by air, rail, road and water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication services such as posts, telegraphs, telephones, wireless signalling, information and broadcasting are also included in this category.

IX. In Other Services: This category included :--

(a) Pulbic utility services like electricity, gas or water supply and sanitary services ;

(b) Central Government, State Government, Quasi-Government or municipal employees in administrative departments or offices;

(c) Professional services such as educational, scientific, medical and health, legal; and

(d) trade and labour associations, recreational services, etc.

Category X related to Non-workers and included all persons not classified under any of the above mentioned nine categories. All non-workers under this category were further sub-divided into the following 8 classes according to the activities pursued by them :

(a) Full time students or children attending school who do no other work;

(b) Housewives and persons engaged in unpaid home duties;

(c) Infants and other dependants including permanently disabled persons;

(d) Retired persons, rentiers and others who are in receipt of income without doing any work ;

(e) Beggars, vagrants and others of unspecified source of existence;

(f) Convicts in Jails or inmates of penal, mental or charitable institutions;

(g) Persons not employed before but seeking employment for the first time;

(h) Persons employed before but now out of employment and seeking employment.

Hence, it will be seen that in 1961 for the first time in the history of Census in India, the definition of workers has been elaborately defined to distinguish between Industrial and Occupational workers and even non-workers with different types of activities. In the 1961 Census five economic questions were asked, four on workers and one on non-workers which covered the economic activity of the persons enumerated. These economic questions appeared in the Individual Enumeration Slip (Questions 8 to 12) which is reproduced at Page 4.

The relevant extracts from the Manual of Instructions to Enumerators relating to questions 8 to 12 are reproduced in Appendix 'B'.

The method of presentation of the tables has been given in the explanatory fly-leaf preceding each table. INDIVIDUAL SLIP

### B-I-WORKERS AND NON-WORKERS CLASSIFIED BY SEX AND BROAD AGE-GROUPS

#### FLY-LEAF

This is the basic Economic Table. In this table the data relating to the nine industrial categories of workers and non-workers are arranged for Nagaland and its all three districts, *i.e.*, Kohima, Mokokchung and Tuensang, separately for the total, the rural, and the urban population with sex break-up.

The nine categories of workers and the nonworkers have further been classified according to four broad age-groups 0-14, 15-34, 35-59 and 60+. These broad age-groups correspond to the different stages of life which have a special significance with reference to capacity to work, viz, children, young persons, aged persons and elderly persons. Hence workers and non-workers have been classified into four classes of persons according to their capacity of doing work which is important and essential for the study of the working pattern of the society.

Classification of non-working population will be found in table B-IX.

## **TABLE B-II**

WORKERS AND NON-WORKERS IN CITIES, TOWN-GROUPS AND TOWNS ARRANGED TERRITORIALLY, CLASSIFIED BY SEX AND BROAD AGE-GROUPS

### B-II--WORKERS AND NON-WORKERS IN CITIES, TOWN-GROUPS AND TOWNS ARRANGED TERRITORIALLY, CLASSIFIED BY SEX AND BROAD AGE-GROUPS

#### FLY-LEAF

This table shows for each town the detailed distribution of workers and non-workers classified by sex and broad age-groups. The data presented in this table is the same as contained in Table B-I except that it is meant for urban areas only. There are only three towns in Nagaland namely, Kohima, Dimapur and Mokokchung. The definitions and concepts of workers, non-workers and the further nine Industrial categories of workers have already been made clear in the Introduction. According to the 1961 Census definition a town may be municipality, a canton-

.

ment or corporation or any place with definite urban characteristics satisfying the following three tests :

- (i) It must have a population of not less than 5,000,
- (ii) It must have a density not less than 1,000 persons per sq. mile, and
- (iii) At least three-fourth of its population should be non-agricultural.

ς.

INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS IN RURAL AREAS ONLY

#### **B-III**—INDUSTRIAL CLASSIFICATION OF WORKERS AND NON-WORKERS BY EDUCATIONAL LEVELS

#### · FLY-LEAF

Table B-III has been divided into two parts : Part-A for urban areas and Part-B for rural areas. The data have been compiled separately for Nagaland and its three districts. The total population has been classified into nine Industrial categories of workers, and non-workers. Each of these categories has been further cross-tabulated by literacy and educational levels. In the 1961 Census, the persons who were able to read and write a simple letter were treated as Literates and those who cannot read and write at all were considered as an Illiterates. If the person had passed a written examination as proof of an educational standard attained. the highest examination passed was recorded. The educational levels are different for Part-A, urban areas and Part-B, rural areas.

. **Part-A**: There are in all six educational levels recorded for urban areas. The sixth educational level "Technical Degree or Diploma equal to Degree or Post-Graduate Degree" has been further sub-divided into seven different sub-groups or branches of technologies. All these educational levels and the certificates, Diplomas and Degrees required for the particular educational level in urban areas are as noted below :

#### TABLE B-IV

#### PART A

#### INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKER OF PERSONS AT WORK AT HOUSEHOLD INDUSTRY

#### PART B

INDUSTRIAL CLASSIFICATION BY SEX AND CLASS OF WORKERS OF PERSONS AT WORK IN NON-HOUSEHOLD INDUSTRY, TRADE, BUSINESS, PROFESSION OR SERVICE

#### PART C

INDUSTRIAL CLASSIFICATION BY SEX AND DIVISIONS, MAJOR GROUPS AND MINOR GROUPS, OF PERSONS AT WORK OTHER THAN CULTIVATION

#### B-IV--INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK OTHER THAN CULTIVATION BY SEX AND CLASS OF WORKER

#### FLY LEAF

This table has been prepared in three parts as noted below :

#### Part-A: Industrial Classification by Sex and Class of worker of persons at work at Household Industry

In this part, the workers engaged in Household Industry have been classified by Industrial Divisions and Major Groups of Indian Standard Industrial Classification, cross-tabulated by sex and employment status. The figures are given separately for the total, the rural and the urban population. The Standard Industrial Classification is reproduced as Appendix 'C'. The definition and the factors governing the household industry have already been given in the Introduction. The data have been compiled for Nagaland and its districts.

#### Part-B: Industrial Classification by Sex and Class of workers of persons at work in Non-Household Industry, Trade, Business, Profession or Service

This part gives the distribution of workers in non-household industry, trade, business, profession or service by Industrial Divisions and Major Groups, cross-tabulated by sex and employment status. The data have been compiled for Nagaland and its districts with total and urban break-up. The figures for rural areas can be derived by subtracting the urban figures from the total figures. The terms 'employee', 'employer' 'single worker', and 'family worker' have been defined in the "Instructions to Enumerators" which have been reproduced as Appendix 'B'.

#### Part-C: Industrial Classification by Sex and Divisions, Major Groups and Minor Groups of persons at work other than Cultivation

This part gives the distribution of all workers other than those engaged in cultivation by Industrial Divisions, Major Groups and Minor Groups of the Indian Standard Industrial Classification. The distribution is shown further for household industry and non-household industry, trade; business, profession or service, etc. The data have been compiled for all the three districts and Nagaland with figures for the total and urban population. The figures under rural can be obtained by subtracting the urban figures from the total.

Major Groups having less than 1 per cent of the workers of the respective divisions (and less than 0.5 per cent in case of division 2 & 3) have not been shown in the table B-IV Part-C. The divisions thus affected have been marked with an <sup>a</sup>sterisk (\*) and the figures have been shown in the Annexure to this table.

.

#### ANNEXURE TO TABLE B-IV PART-C

Minor Groups having less than 1% of workers of the respective Divisions (less than 0.5% in case of Minor Groups of Division 2 & 3) have been shown in this Annexure.

The following abbreviations have been used :

HI=Household Industry NHI=Non-household Industry

M = Male, F = Female

Table B-V shows the classification of workers other than those engaged in cultivation or as Agricultural Labourers, cross-tabulated by sex and broad industrial categories III to IX described below:

- III Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities ;
- IV Household Industry;
- V Manufacturing other than Household Industry;
- VI Construction ;
- VII Trade and Commerce :
- VIII Transport, Storage and Communication;
- IX Other Services.

Category I—Cultivators and Category II— Agricultural Labourers have been excluded from this table. The data have been presented only for total and urban areas for Nagaland and each district separately. The figures for rural can be worked out by subtracting the urban figures from the totals.

This type of occupational classification has been done for the first time in 1961 Census and in no previous censuses was such a classification The occupational classification is attempted. according to the National Classification of Occupations. A complete list of the National Classification of Occupations is reproduced as Appendix 'D'. Occupational families having less than 1 per cent of the workers of the respective divisions (less than 0.5 per cent in case of families of Division 7-8) have not been shown in this table, but are given in the Annexure. Divisions thus affected are marked with an asterisk(\*). Further the lines having nil entries have not been shown in this table. Similarly, the lines for categories which do not have any entries for Nagaland have been omitted from the table.

Part A

#### PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

Part B

PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX AND EDUCA-TIONAL LEVELS IN RURAL AREAS ONLY

#### B-VIII PERSONS UNEMPLOYED AGED 15 AND ABOVE, BY SEX, BROAD AGE GROUPS \* AND EDUCATIONAL LEVELS

#### FLY-LEAF

Non-workers have been classified into eight types according to the nature of their activities. Table B-VIII deals with only two of these eight types, viz. :

- (a) persons seeking employment for the first time and
- (b) persons employed before but now out of employment and seeking work.

This table is presented in two parts, Part-A of the table relates to urban areas only and Part-B relates to rural areas only; both parts deal only with unemployed persons who are of 15 years of age and above. The unemployed persons below 15 years of age have been ignored because the percentage of their unemployment is very low, as most of them are students, or cannot be taken into account as a labour force. Hence, since they do not come under the purview of unemployment they have been excluded from the study of the unemployment.

#### B-VIH PART A-PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, BROAD AGE-GROUPS AND EDUCATIONAL LEVELS IN URBAN AREAS ONLY

This table has been prepared for Nagaland and its districts and is meant for urban areas only. It presents the distribution of unemployed persons aged 15 years and above, by sex, age and educational levels. For persons seeking employment for the first time the age groups are 15-19, 20-24, 25-29, 30-34 and 35+. For those who were employed before but now out of employment and seeking work, the age groups are 15-19, 20-24, 25-34, 35-44, 45-59 and 60+. The educational grouping adopted is given below :

- 1. Literate (without educational level),
- 2. Primary or Junior Basic,

- 3. Matriculation or Higher Secondary,
- 4. Technical Diploma not equal to degree,
- 5. Non-technical Diploma not equal to degree,
- 6. University degree or Post-graduate degree other than Technical degree, and
- -7. Technical degree or diploma equal to degree or Post-graduate degree :
  - (i) Engineering
  - (ii) Medicine
  - (iii) Agriculture
  - (iv) Veterinary and Dairying
  - (v) Technology
  - (vi) Teaching
  - (vii) Others.

#### B-VIII PART B—PERSONS UNEMPLOYED AGED 15 AND ABOVE BY SEX, AND EDUCATIONAL LEVELS IN RURAL AREAS ONLY

This table gives the data for rural areas only and has been prepared for Nagaland and its three districts.

In this table both the types of unemployed persons namely—

- (a) persons seeking employment for the first time; and
- (b) persons employed before but now out of employment and seeking work, have been processed together into four categories :
  - (i) Illlterate;
  - (ii) Literate (without educational level) :
  - (iii) Primary or Junior basie; and
  - (iv) Matriculation and above.

This table does not show any break-up for age groups, but provides information on the cducated unemployed in all age-groups as a whole.

TABLE B-IX

ς.

PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE GROUPS AND TYPE OF ACTIVITY

#### B-IX PERSONS NOT AT WORK CLASSIFIED BY SEX, BROAD AGE GROUPS AND TYPE OF ACTIVITY

#### FLY-LEAF

This table, last of the series of the General economic tables presents non-workers classified into eight different categories cross-tabulated by sex and four broad age-groups, viz., 0-14, 15-34, 35-59 and 60+. As described earlier in the Introduction the eight categories of non-workers according to their activities are as follows:

- 1. Full time student
- 2. Household duties
- 3. Dependants, infants and disabled
- 4. Retired rentiers of independent means

- 5. Beggars, vagrants, etc.
- 6. Inmates of penal, mental and charitable institutions
- 7. Persons seeking employment for the first time
- 8. Persons employed before but now out of employment and seeking work.

This table has been compiled based on the answers recorded against Question No. 12 of the Individual Slips. The data have been compiled separately for total, rural and urban areas of Nagaland and its three districts.

#### APPENDIX B

#### Extracts from the Manual of Instructions to Enumerators (Relating to Qs. 8 to 12)

#### Q. 8 to 11 Working :

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at Household Industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at a Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four Questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a Jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but 'I' should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as worker. A person who has been offered work but has not actually joined should be treated as non-worker. Work includes not only actual work but effective supervision and direction of work.

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she would be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

#### Q. 8. Working as Cultivator :

For a person working as cultivator write C. For a person not working as cultivator and for person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of a land held from private persons or institutions for payment in money, kind or share.

Cultivation evolves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantation like tea, coffee, rubber, cinchona and other medicinal plantations should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, not is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

#### Q.9. Working as Agricultural Labourer :

Write AL for a person working as agricultural labourer, *i.e.*, a person who works in another person's land only as a Labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He should have been working as Agricultural Labourer in the last or current cultivating season.

#### Q. 10(a) and 10 (b). Household Industry :

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10(a) and (2) the nature of the Household Industry against questions 10(b). Otherwise put X in both questions 10(a) and 10(b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include profession such as pleader or doctor or barber, or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10(a) and the nature of the Household Industry against 10(b).

#### Q. 10(c). If employee in Household Industry :

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write EE. For all others put X.

The following examples will illustrate how questions 10(a) to 10(c) should be filled up for persons working at Household Industry :---

#### APPENDIX B—contd.

#### Q.11. Doing Work other than 8, 9 or 10:

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

#### Q. 11(a). Nature of Work :

In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put X.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

#### Q. 11(b). Industry, Business, Trade, Profession or Service :

In the case of a person who is working and the nature of whose own work has been recorded in Question 11(a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of Question 11(a), you should, describe in detail the nature of industry, business trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be discribed. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11(a) put an X in this question also.

#### Important points to remember in questions 11(a) and 11(b):

- 1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.
- 2. If a person makes the articles he sells, he should be entered as maker and seller of them.
- 3. Wherever convenient, for complete description, the work should be expressed by the vernacular name by which it is known.
- 4. The following are too vague and must not be used by themselves : Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.
- 5. Labourers—For an unskilled labourer, usually employed on one sort of work alone, give also the sort of work done, *e.g.*, railway porter, market or bazar porter, labourer employed on road digging, brick layer's labourer. If accustomed to work on various jobs, write general labourer.
- 6. Machine Operators—Always state the kind of machine giving its recognised name if any.
- 7. Shop-keepers, Retail Dealers, Shop Assistants. If wholly or mainly engaged in selling write 'Dealer' (if principal) or 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. For shop assistants and salesmen in stores with several departments, state the particular department in which engaged (e.g., Ship and Railway Parts, Fans and Sewing Machines, Grocers and Confectioners).
- 8. Transport Workers—Describe fully the nature of the transport *e.g.*, air transport, rail transport, transport by motor car or motor cycle, or vehicles drawn by horse, etc.
- 9. Services—For a person engaged in the Defence Services write 'Service of Central 'Government',

- 10. If the job is known in the trade or industry by a special name, use that name. Manager, Foreman, etc., should be given the department/branch wherever applicable *e.g.*, Sales Manager or a Manager of Hardware Department, Machine Shop Foreman and Boiler Room Foreman, etc. The following terms are insufficient by themselves : Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works, etc.
- 11. Domestic services—In the case of any private servant, e.g., a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of Firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i.e.*, they have separate record of employment, production, etc.) then the appropriate business should be quoted. If however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

12. Commerce—Special care should be taken to see that the distinction between retail . and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

 a Family Worker, that is, who is doing his work described in Q. 11(a) in own family without wages or salary in cash or

kind . Write FW For a person for whom an 'X' is put in Qs. 11(a) and 11(b) put an X in this question also.

#### Explanation :

(i) An Employer is a person who has to employ other persons in order to perform the work entered in Q. 11(a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11(a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another person in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as managers, Superintendents, Agents, etc. and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above and should not be regarded as employers.

(iii) A Single Worker for the purpose of Q.11(c) is a person who works by himself but not as Head of Household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a Single Worker will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' cooperatives should be recorded as 'Single Worker'.

(iv) A Family Worker is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered in 'Household Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the House or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

Q. 11(d). Name of Establishment :

Describe in detail the name of the factory workshop, business house, company shop, etc. If a person has no fixed place of work write 'No fixed place of work'.

For a person for whom an X is put in Qs. 11(a), 11(b) and 11(c) put an X in this question also. The following examples will illustrate how Qs. 11(a) to 11(a) should be filled up for persons doing work other than 8, 9 or 10.

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded *i.e.* more than one of the questions 8, 9, 10 or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him in his principal work. The principal work is the one on which the person spends most time. Put a ring round the number of the question 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, i.e. more than two of the questions 8 to 11, would have been filled up by some work. In such cases you should first ascertain the principal work, *i.e.* the one on which the person spends most time and put a ring round that number of the question. You should then ascertain the work which is the next in importance to his principal work, i.e. the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

#### Q. 12. Activity if not working :

This question will apply to a person NOT working.

Write 'X' in this question for a person who is working, that is for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT working :--

Write

ST

- 1. For a full-time student or child attending school who does no other work, such as make articles at home for sale, nor even help part-time in his own family cultivation industry, trade or business.
- 2. For a person engaged in unpaid home duties (like house-

wife or other adult female) who does no other work, such as make articles at home for sale or wages, nor help regularly even part-time in family cultivation, industry, trade or business

 For any dependent, including an infant or child not attending school, a person permanently disabled from work because of illness or old age.

4. For a retired person who is not employed again, rentier, person living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he does not have to work and who does no other work

- 5. For a beggar, vagrant or independent woman without indication of source of income and others of unspecified source of existence
- 6. For a convict in jail (an undertrial prisoner will be shown as a worker if he used to work before he was apprehended) or an inmate of a penal, mental or charitable institution
- For a person who has not been employed before but is seeking employment for the first time.
- 8. For a person employed before but now out of employment

and seeking employment . Write UN

Explanation :

If a person, who does not work, cannot be readily classified in any of the above categories, put him in category 5 and write B in this question. A retired person who has taken up regular work again should not be entered in this question as he would have been entered for his new work in Questions 8 to 11.

A person who is not working but has been offered work which he has not joined should be included in item 3 and 'D' should be written. He should not be included in items 7 or 8.
