

PREFACE

Several publications are brought out after every Census, based on the data collected during Houselisting and Census Enumeration. These publications provide information that are much sought after by the many Government Departments, Research Bodies, Industrial and Commercial Undertakings and others. The present publication "Paper I of 1986" contains data on religion based on information collected in the Household Schedules in respect of head of household for 1981 Census. The paper portrays data relating to six major religions viz., Hindus, Muslims, Christians, Sikhs, Buddhists and Jains and Other Religions and Persuasions and Religion not stated. The entire tabulation for this volume was done manually. The level of presentation is by state, district, taluk and town with rural urban break up.

The Director of Census Operations, Shri A. P. Muthuswami, under whose able guidance and stewardship, Census Operations were carried out, deserves the entire credit for completion of these gigantic task. I take this opportunity in expressing my deep gratitude to Shri P. Padmanabha, former Registrar General and Census Commissioner, Shri V. S. Verma, the present Registrar General and Census Commissioner of India and Shri V. P. Pandey, Joint Registrar General, India for the overall direction and encouragement that I have received from them in bringing out this paper. I am also thankful to Shri N. Rama Rao, Assistant Registrar General and Shri Madan Singh, Senior Research Officer for their guidance in bringing out this paper.

The compilation and scrutiny of the data in this paper was done under the supervision of Shri L. J. Christopher, Investigator assisted by SarvaShri P. Ramakrishnan and S. Chandrasekaran, Statistical Assistants, whose assistance I would like to acknowledge.

I am grateful for the cooperation received from Shri E. R. Gadkar, Manager, Shri S. Ranganathan and Shri K. A. Sivasubramaniam, Assistant Managers of the Government of India Press, Coimbatore, in bringing out this volume.

Madras
28th April, 1986.

M. THANGARAJU
Deputy Director of Census Operations
Tamil Nadu.

INTRODUCTORY NOTE

Religion is the important and perhaps the basic cultural characteristic of the population. Our country is a land of many religions. The data on religion have been collected on every decennial census and they provide interesting picture of the various religious persuasions of the people. The data on religion furnished are of great interest to the public as well as to the scholars. The importance given to the religion in our country could be noted from the fact that in the earlier censuses, the tabulation were based on religion, instead of the economic classification which are being adopted only from 1951 Census.

In the census enumeration, a variety of answers have been provided to the question relating to religion, some spurious and some merely the sects of the major religion. The enumerator was given specific instruction to record the religion as actually returned by the respondent.

During the 1981 Census, question on religion was included in both the schedules viz. Individual Slips used for every person and Household Schedules for every household that was canvassed. In the Individual Slip, the particulars of the religion was recorded against question No. 8, while in Household Schedule, the particulars of the religion of the head of the household was recorded against question No. 2 of Part I.

A Household is defined for the purpose of census as a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so. There could be a household of persons related by blood or a household of unrelated persons or a mix of both. Examples of unrelated households are boarding houses, messes, hotels, residential hotels, rescue homes, jails, ashrams, etc. These are called institutional households. In the case of institutional households, the information on religion of the head of the household was not collected in the Household Schedule. However, the information on religion of each inmate of the institutional household was collected in the Individual Slip filled in by the enumerator for every person in the institutional household.

The head of the household for census purposes is the person on whom the chief responsibility for the maintenance of the household falls.

The instructions to enumerators for filling up of Question 2 on religion of the head of the household in the Household Schedule are given below:—

“You have to record the religion of the head of the household as given by him against this question. While writing the religion, you have to write the abbreviations as follows on the line against this question and not in any dotted boxes provided at the end of the dotted line against this question:

For Buddhists—Write B

For Christians—Write C

For Hindus—Write H

For Jains—Write J

For Muslims—Write M

For Sikhs — Write S

For ‘Others’ record actual religion as returned fully. If a person says that he has no religion, it may be recorded accordingly. If a person refuses to state his religion you may write ‘religion not stated’. You should not enter into any argument with the household for filling up this question. You are bound to record faithfully whatever religion is returned by the head of the household. For institutional households, put ‘X’ against this question”.

In the present paper, the data on main religious communities as returned in Question 2 of the Household Schedule of the 1981 Census are being made available. In respect of the inmates of the institutional households, however, the data have been abstracted from the relevant Individual Slips as the Household Schedule does not provide data on religion in respect of the institutional households. In the present paper, the data on religion are presented for state/district/taluk/U.A./city/town.

Thus, the data presented in this paper are based on (1) information on the religion of the head of the household in respect of normal households and the households of houseless population i.e. all barring institutional households and (2) information on the religion of each individual returned for Question 8 of the Individual Slip in respect of individuals in the institutional households.

Summary

The following statement will indicate the main religious communities in the state as a whole. However, it may be pointed out as stated elsewhere in the introductory note that these figures are based on the limitation of the fact that only the religion of the head of the normal households has been taken for the purpose of tabulation, except the institutional households, where the religion of every member has been taken for the purpose of tabulation.

The main religions are arranged in alphabetical order at the state level.

Religious Community	Persons	Males	Females	Sex ratio (Females per 1,000 Males)
1	2	3	4	5
Buddhists	735	416	319	767
Christians	2,798,048	1,400,841	1,397,207	997
Hindus	43,016,546	21,791,085	21,225,461	974
Jains	49,564	26,011	23,553	906
Muslims	2,519,947	1,256,945	1,263,002	1,005
Sikhs	4,395	2,546	1,849	726

It can be seen from the above statement that females among Muslims outnumber males. Christians have registered higher sex ratio than the state sex ratio of 977. Hindu religion has a lesser sex ratio of 974. All the other major religions in the state have lesser sex ratio.

The percentage of the population for each of these major religious communities to the total population in 1981 Census and the decadal growth rate of population during 1971-81 are as follows for Tamil Nadu State.

Religious Community	Percentage to Total Population	Decadal Growth Rate 1971-81
1	2	3
Buddhists	N	(—)35.98
Christians	5.78	18.17
Hindus	88.86	17.29
Jains	0.10	20.60
Muslims	5.21	19.78
Sikhs	0.01	0.92

It can be observed that Hindus have the highest percentage of population and account for 88.86 per cent of the total population of the state. Christians with 5.78 per cent and Muslims with 5.21 per cent are the other important religions in the state. While the percentage of Buddhists are negligible, Jains and Sikhs account for 0.10 and 0.01 per cents respectively of the population in Tamil Nadu.

All the three major religions except Hindus have registered more than 17.50 per cent growth rate dur-

ing the decade. The growth rate of Hindus is only 17.29 when compared to the state growth rate of 17.50 per cent. Buddhists have registered a negative growth rate of (—) 35.98 during the decade.

The pattern of distribution of the population of these major religious communities between rural and urban areas is as follows:

Religious Community	Rural Population	Percentage to Rural Population	Urban Population	Percentage to Urban Population
1	2	3	4	5
Buddhists	209	N	526	N
Christians	1,720,290	5.30	1,077,758	6.76
Hindus	29,770,547	91.73	13,245,999	83.04
Jains	11,829	0.04	37,735	0.24
Muslims	940,805	2.90	1,579,142	9.90
Sikhs	491	N	3,904	0.02

It can be observed from the above statement that Hindus outnumber all the other religious communities in both rural and urban areas. While the percentage of Christians in urban areas is only a little more than the percentage in rural areas, among Muslims, however the percentage in urban areas is more than three times the percentage in the rural areas. The other major religions viz., Buddhists, Jains, and Sikhs are concentrated more in urban areas than in rural.

For the convenience of the reader, a statement showing the growth of the six major religions, 'other religions and persuasions' and 'religion not stated' during 1971-81 is also given below at state and district level.

In order to facilitate easy comparison of the data on religion in the various States/Union Territories in India, a statement furnishing the details of the major religions recorded in the state as well as in All India has been furnished.

It may be pointed out that the 1971 religion data was based on individual return as recorded in the Individual Slip, whereas this paper is based on the religion of the head of the household as given in the Household Schedule of 1981 Census. This point should be borne in mind while comparing the data.

HOUSEHOLD POPULATION IN STATES/UNION TERRITORIES BY

India/State/ Union Territory	TOTAL POPULATION				HINDUS

**TABLE HH-15—HOUSEHOLD
POPULATION BY RELIGION
OF HEAD OF HOUSEHOLD**

NOTE TO TABLE HH-15

This table corresponds to table C-VII—Religion of 1961 and 1971. The only difference is that the figures for religion for 1961 and 1971 are based on the religion of the individual, whereas the figures presented in this table give the household population classified by religion of the head of households in respect of all households except institutional households. In the case of institutional households, the information on the religion of each individual was abstracted from the Individual Slip. This table is followed by three appendices and an annexure.

The table gives data for persons, males and females separately for each of the six major religious communities viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs by total, rural and urban for State/District/Taluk/U.A./City/Town. The number of households are also given. The religions in

the table have been arranged in alphabetical order and the data presented include all population, those living in normal households and institutional households and the houseless population.

The figures of other religions have been grouped together in the column 'other religions and persuasions'. Details of other religions and persuasions, the strength of which at the State level is 100 and above each, appear in Appendix 'A' accompanying the table. In case of each of the remaining faiths, the strength of which is less than 100, the total population for each State/Union Territory/District is given in Appendix-B. The Appendix C/D gives the data of those Urban Agglomerations which are spread over within two or more districts/taluks. The annexure which is followed by this table gives the details of sect, belief or religion clubbed with another religion which is shown at the head of the table in block letters.

APPENDICES

NOTE ON APPENDICES AND ANNEXURE TO TABLE HH-15

The main table HH-15—Household population by religion of head of household—gives the distribution of population by six major religious communities (Buddhists, Christians, Hindus, Jains, Muslims and Sikhs) and the combined figures for 'Other Religions and Persuasions' and 'Religion not stated'. Appendix-A to table HH-15 gives the details of the religions shown under 'Other Religions and Persuasions', having a strength of 100 and above each at State level. The remaining religions and persuasions, the strength of each of which is

less than 100 at the State level, are given in Appendix-B. The data presented in these two appendices are for concerned districts. Appendix-C/D gives the figures of those Urban Agglomerations which are spread over within two or more districts/taluks.

The appendices are followed by an annexure giving the details of sect, belief and religion clubbed with another religion which is shown at the head of the table in block letters.

HH-15 HOUSEHOLD POPULATION BY RELIGION OF HEAD OF HOUSEHOLD
