## PREFACE

This paper contains data on religion based on information collected in the household schedules in respect of religion of head of household for 1981 census. The paper portrays data relating to six major religions—Hindus, Muslims, Christians, Sikhs, Buddhists and Jains and by 'Other religions and persuasions' and 'Religion not stated'. The level of presentation is by state/district/ tahsil and town with rural and urban break-up.

The collection, compilation and the presentation of the basic census data for 1981 census in respect of Punjab fell on the broad shoulders of Shri D.N. Dhir, IAS who after completing the main job of census taking in the state reverted to the state government in March 1983. We, in the Punjab Census Directorate, are indebted to him for the sound leadership afforded to us in the mammoth task of census taking.

At the headquarters at New Delhi, Shri P. Padmanabha, IAS who steered the census taking in the country, handed the reins to Shri V.S. Verma, who has been our mentor and guide since 5th December, 1983. His guidance has been flowing to us at different times and on different aspects through Shri V.P. Pandey, Joint Registrar General, India, Shri K.K. Chakravorty, Deputy Registrar General (now retired), Shri N.G. Nag, Deputy Registrar General and Shri Madan Singh, Senior Research Officer to whom we express our gratitude.

At the state headquarters the officers who contributed in various aspects of compilation, printing etc. include Shri S.P. Grover, Deputy, Director (now posted at Trivandrum), Shri M.L. Sharma, Assistant Director and Shri G.S. Gill, Assistant Director, to whom we are beholden.

At the stage of compilation, Sarvshri Balwant Rai and Bhagirath Singh, Investigators, Smt. Meena Rattan, SA and Shri R.P. Singh, Computer, contributed their assistance which is thankfully acknowledged. The final compilation and presentation was made by S/Shri Munish Sharma and Pawan Kumar, SAs who deserve my thanks for the good job done by them. My thanks are also due to Shri H.S. Sudan, who supervised the printing and proof-reading to bring out this neat brochure.

## INTRODUCTORY NOTE

Religion is an important and perhaps the basic cultural characteristic of the population. In a secular state like India several religions have thrived and every decennial census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the census are of great interest to the public as well as to the scholars. At the census enumeration a variety of answers might have been provided to the questions on religion, some spurious and some merely sects to a major religion. A census enumerator had instructions to record the religion as actually returned by a respondent.

In the 1981 census, question on religion was included in the Individual slip filled in for every person and the Household Schedule filled in for a household. In Question No. 8 of the Individual Slip, the religion of the person enumerated was recorded, as returned. In Question No. 2 of part I of the Household Schedule, the religion of the head of the household as returned was filled in.

A household is defined for the purpose of census as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There could be a household of persons related by blood or a household of unrelated persons, or a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called institutional households. In the case of institutional household the information on religion of the head of the household was not collected in the household schedule. However, the information on religion of each inmate of the institutional household was collected in the individual slip filled in by the enumerator for every person in the institutional household.

The head of the household for census purposes is the person on whom the chief responsibility for the maintenance of the household falls.

In the present paper the data on main religious communities as returned in question 2 of the household schedule of the 1981 census are being made available. In respect of the inmates of the institutional households, however, the data have been abstracted from the relevant individual slips as the household schedule does not provide data on religion in respect of the institutional households. In the present paper the data on religion are presented for state/district/tahsil/UA/city/town.

Thus the data presented in this paper are based on (1) information on the religion of the head of the household in respect of normal households and the households of houseless population i.e. all households barring institutional households (2) information on the religion of each individual returned for question 8 of the individual slip in respect of individuals in the institutional households.

The instructions to enumerators for filling up question 2 on religion of the head of the household in the household schedule are given below :

“You have to record the religion of the head of the household as given by him against this question. While writing the religion, you have to write the abbreviations as follows on the line against this question and not in any dotted boxes provided at the end of the dotted line against this question :

For Buddhists—Write B

For Christians—Write C

For Hindus—Write H

For Jains—Write J

For Muslims—Write M

For Sikhs—Write S

For 'Others' record actual religion as returned fully. If a person says that he has no religion, it may be recorded accordingly. If a person refuses to state his religion you may write 'religion not stated'. You should not enter into any argument with the household for filling up this question. You are bound to record faithfully whatever religion is returned by the head of the household. For institutional households, put 'X' against this question".

## A SUMMARY

The following are the main religious communities in the state as a whole. These are arranged in alphabetical order at state level.

Religious Community	Persons	Males	Females	Sex Ratio (Females per 1,000 males)
1	2	3	4	5

It may be pointed out that the 1971 religion data were based on individual return as recorded in individual slip, whereas this paper is based on the religion of the head of the household as given in the household schedule 1981 census. This point should be borne in mind while comparing the data.

#### NOTE ON TABLE HH-15

This table corresponds to table C-VII Religion of 1961 and 1971. The only difference is that the figures for religion for 1961 and 1971 are based on the religion of the individual whereas the figures presented in this table give the household population classified by religion of head of household in respect of all households except institutional households. In the case of institutional households, the information on the religion of each individual was abstracted from the Individual Slip. This table is followed by two appendices and an annexure.

The table gives data for persons, males and females separately for each of the six major religious communities viz. Buddhists, Christians, Hindus, Jains, Muslims and Sikhs by total, rural and urban for state/district/tahsil/U.A./city/town. The number of households are also given. The religions in the table have been arranged in alphabetical order and the data presented include all population—those living in normal households and institutional households and the houseless population.

The figures of other religions have been grouped together in the column 'other religions & persuasions'. Details of other religions & persuasions, the strength of which at the state level is 100 and above each, appear in Appendix 'A' accompanying the table. In case of each of the remaining faiths the strength of which is less than 100, the total population for state/district is given in Appendix 'B'. Appendix C and D have been omitted as there is no urban agglomeration which extends over more than one district or tahsil of the state. The annexure which is followed by this table gives the details of sect, belief or religion clubbed with another religion which is shown at the head of the table in block letters.
