FOREWORD

This volume contains the data on language collected through the Household Schedule canvassed in the 1981 Census. The information pertains to language mainly spoken in the household. The presentation is based on the same principles as were adopted in the 1971 Census presentation of language/mother tongue data. The table presented which comes in the series of household tables of 1981 Census Tabulation Plan bears the number HH-16 (A&B). Table HH-16 Part A relates to languages specified in the Schedule VIII to the Constitution of India. Table HH-16 Part B relates to languages other than those specified in the Schedule VIII to the Constitution of India. Table HH-16 Part A is further sub-divided into two sub-divisions, Part A (i) and Part A (ii), Part A (i) relating to State and District level data and Part A (ii) relating to tahsil/town level data. Similarly, Part B has also got two sub-divisions, Part B(i) and Part B (ii) relating to State and District and tahsil/town levels respectively.

The note and fly-leaf preceding the tables give the background and explain the features of the tables. The concepts and definitions are also discussed in the fly-leaf which the reader will find useful.

The 1981 Census of India was very ably organised and conducted by my predecessor Shri P. Padmanabha, I.A.S. The data presented in this volume were initially processed in the Census Directorates in States/Union Territories. The tables were then scrutinised in the Language and Census Divisions of the Registrar General's Office.

I am grateful to my colleagues in the Directorates and in the Registrar General's Office who took part in the huge task of 1981 Census enumeration and processing of data. Dr. B.P. Mahapatra, Deputy Registrar General (Language) took immense pains in scrutinising the language data. The names of his colleagues who assisted him in this task are given separately. Shri N. Rama Rao, Assistant Registrar General (C&T) has given the guidance and coordinated the work relating to tabulation of these data. He was assisted by Shri R.P. Tomar, Deputy Director of Census Operations. Shri Mahal Singh, Investigator and his colleagues in the Census Division, whose names are given separately, ably coordinated the in-flow and out-flow of language data among the Census Directorates, Language Division at Calcutta and Registrar General's Office in Delhi. In the Census Directorate Shri R. K. Aggarwal Deputy Director and his colleagues have also scrutinised the tables in detail. Shri B. P. Jain, Assistant Director (Printing) ensured printing of this volume quickly. I thank all these officers.

PREFACE

This paper contains data on language mainly spoken in the household collected during the 1981 Census through Part I of the Household Schedule. The language data, thus collected are presented upto tahsil and town level of the State in this volume. The table which forms part of the household series tables of the 1981 Census is entitled Table HH-16—Households and household population by language mainly spoken in the household (inclusive of variants grouped under each). The table is divided into two parts—Part A and Part B. Part A relates to languages specified in Schedule VIII to the Constitution of India and Part B relates to other than those specified in Schedule VIII to the Constitution of India. Part A is again sub-divided into two parts—Part A (i) relating to State and District level and Part A (ii) relating to tahsil/town level of the State. Similarly, Part B (i) relates to State and District level and Part B (ii) relates to tahsil/town level of the State.

The tabulation of these data was done manually under the guidance of the Office of the Registrar General, India. As mentioned in the note on the language data contained in this volume, this table includes houseless households but excludes institutional households.

The Director of Census Operations Shri O.P. Bharadwaj, IAS, under whose guidance, the 1981 Census was carried out deserves all credit for the success of the census operations but he had to leave the Organisation for taking up other important assignments before the paper in question could be made ready for the press.

We must record our deepest sense of gratitude to Shri P. Padmanabha, IAS, the former Registrar General, India and Shri V.S. Verma, IAS, the present Registrar General, India. Dr. B.P. Mahapatra, Deputy Registrar General (Language) and his colleagues deserve our thanks for patiently scrutinising the language data. Our thanks are due to Shri N. Rama Rao, Assistant Registrar General (Census & Tabulation) and Shri R. P. Tomar, Deputy Director of Census Operations, for their valuable guidance in preparing this paper. Shri Mahal Singh, Investigator and his colleagues in the Census Division, whose names are given separately, ably coordinated the in-flow and out-flow of the language data among the headquarters, Language Division at Calcutta and the Directorates. They all deserve our thanks.

In our own Office, we received the maximum cooperation and assistance at every stage from our staff who worked diligently and with devotion. Here, we would place on record our appreciation to the contribution of Shri J. R. Vashista, Assistant Director and Shri Vinod Kumar Babbar, Investigator.

NOTE ON THE LANGUAGE DATA

In the 1981 Census a new question on the 'Language mainly spoken in the Household' was asked in the Household Schedule along with the two usual language questions on 'mother tongue' and 'other languages known' in the Individual Slip. This information adds not only a new dimension to the language profile of the country but a useful one, for it provides a dynamic aspect of the language behaviour as against the more or less stable picture thrown up by the mother tongue data. The institutional households which are linguistically heterogenous and may or may not have a uniform household language are excluded from these data. Out of the total number of households of 1,995,593, the number of institutional households is only 5,740 with 49,184 population i.e. only 0.38 per cent of total population.

Question 5 on a 'Language mainly spoken in the household' in the Household Schedule was canvassed in all the households other than institutional households. The raw returns were rather unusually large. All these returns were scrutinized following usual linguistic methods including studying 'language specimens' and undertaking field investigations.

The distribution of the 1981 household population by languages grouped into scheduled languages and languages other than scheduled are shown below.

Distribution of 1981 household population by languages (inclusive of variants grouped under each).

Part A of the table gives the distribution of the 15 languages specified in Schedule VIII to the Constitution in the State. Speakers covered by these languages constitute 9.91 per cent of the total household population excluding institutional household population. The remaining 0.09 per cent is accounted for by the rest of the languages.

HH-16 LANGUAGE MAINLY SPOKEN IN THE HOUSEHOLD

Part A : Households and Household population by languages mainly spoken in the household (inclusive of variants grouped under each) specified in Schedule VIII to the Constitution of India

Part B : Households and Household population by languages mainly spoken in the household (inclusive of variants where grouped) other than those specified in Schedule VIII to the Constitution of India

FLY-LEAF

These tables present the languages mainly spoken in the household, on the basis of Household Schedule of the Census of India 1981. All tables include Houseless households but exclude Institutional households.

The question on household language at the 1981 Census and instructions to enumerators were as follows :

Question 5 : Language mainly spoken in the household.

Definition : A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams, etc. These are called 'Institutional Households'. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as 'Household'.

Instructions to enumerators : You have to ascertain from the head of the household about the language which is mainly spoken in the household. You have to record the answer faithfully as returned. There may be cases where one or two persons of the household may be speaking other languages also, but the language to be recorded here is the one which is spoken mostly by the members of the household among themselves. The language spoken in the household should not be confused with the mother tongue of each individual member of the household. For institutional households put 'X' on the line. Do not enter anything in the dotted boxes against this question.

Table HH-16 has four parts— Parts A (i) and A (ii) have been presented showing the distribution of households by languages mainly spoken in the household, specified in Schedule VIII to the Constitution of India inclusive of variants grouped under each.

Parts B (i) and B (ii) have been presented showing the distribution of households by languages mainly spoken in the household, other than those specified in Schedule VIII to the Constitution of India inclusive of variants where grouped.

Table HH-16 Parts A (i) and B (i) present data for State and districts while Table HH-16 Parts A (ii) and B (ii) present data for State, district, tahsil, U.A., city and town level. In the table, figures have been presented for number of households, persons, males and females cross-classified by total, rural and urban areas.

In both Parts A and B, variants have been grouped in some cases under the relevant languages. This has been done on the basis of linguistic information readily available or in the light of studies already made. Those identifiable variants which returned 10,000 or more speakers each at all-India level and have been grouped under Parts A and B languages are shown below :

PART A			
GUJARATI	Saurashtra
HINDI	Awadhi; Bhojpuri; Braj Bhasha; Bundeli/Bundelkhandi; Chhattisgarhi; Garhwali; Haryanvi; Kangri; Khariboli; Kumauni; Magadhi/Magahi; Maithili; Mandeali; Marwari; Mewari; Mewati; Pahari; Panchpargania; Rajasthani; Sadan/Sadri
ĀASHMIRI	Kishtwari
PUNJABI	Bagri
PART B			
BHILI/BHILODI	Baori; Kokna/Kokni/Kukna
LAHNDĀ	Multani

All other returns falling under Part B and which returned less than 10,000 speakers each at the all-India level or were not linguistically identifiable are included in the category 'Others' occurring as the last entry in Part B.
