The rural area figures of these districts have been arrived at by subtracting urban area figures from the geographical area figures supplied by the Surveyor General, India. The urban area figures for all the units are based on the area figures of individual towns supplied by the local officers.

An abstract showing the number of amenities available and total number of villages having a particular type of amenity for the rural areas of districts and divisions as existing at present and for the rural areas of the State has also been presented. The data presented in the Abstract have been compiled from the information collected in Mauzawar Note prepared for every village at the time of Houselisting Operation undertaken in May-June, 1970 for the 1971 Census.
