P R E F A C E

Separate data on Scheduled Castes and Scheduled Tribes were being compiled right from 1951 Census onwards. The present volume is the part of continuation of the same tradition, but, with a slight difference. This publication has been distinctly designed to project a comprehensive socio-economic picture of the scheduled castes and scheduled tribes in the state in the form of Inset Tables and the Primary Census Abstract.

2. The volume contains broadly two parts. Part one deals with the detailed list of 56 scheduled castes and 8 scheduled tribes in the state who have been declared as scheduled castes and scheduled tribes throughout the state. Apart from this, it has been endeavoured to give the definition of the various concepts used in 1981 Census so that the study of the tables to the readers becomes easier. Four Inset Tables have been given in the first part of the volume. Table I deals with the districtwise scheduled castes and scheduled tribes households with population and also the total households and the population of the state. Table II deals with the percentage of scheduled castes and scheduled tribes

population in the state during the last two censuses, and the percentage increase compared to the state population as a whole. Table III gives a comparative literacy picture of the scheduled castes and scheduled tribes and also the total population in the state. Table IV indicates distribution of population into main workers, marginal workers and non-workers.

3. Part two deals with the Primary Census Abstract which gives a comprehensive socio-economic characteristics of the scheduled castes and scheduled tribes population, so also the distribution of the total population of the state. These figures have been presented down to tahsil level only. Same tables will also be available in the District Census Handbooks which will be published later in respect of each district separately.

**ANALYTICAL
NOTE**

Keeping in view the urgency of utility of data it has been decided to bring a separate publication of the Primary Census Abstract on Scheduled Castes and Scheduled Tribes in the 1981 Census. It would be in addition to the same data available in General Primary Census Abstract.

2. The Scheduled Castes and Scheduled Tribes are those castes and tribes which have been notified as such by the Presidential Order in pursuance of the Articles 341 and 342 of the Constitution. The lists of the Scheduled Castes and Scheduled Tribes were notified for the first time under the Constitution (Scheduled Castes) Order, 1950 and the Constitution (Scheduled Tribes) Order, 1950. These lists have been modified or amended or supplemented from time to time. On the re-organisation of the states, the Scheduled Castes and Scheduled Tribes (Modification) Order came into force from October, 1956. However, the first one affecting Himachal Pradesh has been, the Scheduled Castes and Scheduled Tribes Order (Amendment) Act, 1976. The main purpose of this Amendment Act was to remove the area restrictions in respect of Scheduled Castes and most of the Scheduled Tribes with the result most of the Scheduled Castes and Scheduled Tribes are now notified as such throughout the state, unlike in the 1956 Order where these were notified in relation to different regions of the state registering area restrictions.

3. In pursuance of latest Presidential Order referred above, following 56 castes have been treated as Scheduled Castes throughout the state at the time of 1981 Census :

1. Ad Dharmi
2. Badhi, Nagalu
3. Balmiki, Bhangi, Chuhra, Chura, Chuhre
4. Bandhela
5. Bangali
6. Banjara
7. Bansi
8. Barad
9. Barar, Burar, Berar
10. Batwal

11. Bauria, Bawaria
12. Bazigar
13. Bhanjra, Bhanjre
14. Chamar, Jatia Chamar, Rehgar, Raigar, Ramdasi, Ravidasi, Ramdasia, Mochi
15. Chanal
16. Chhimbe, Dhobi
17. Dagi
18. Darain
19. Darai, Daryai
20. Daule, Daole
21. Dhaki, Toori
22. Dhanak
23. Dhaogri, Dhuai
24. Dhogri, Dhangri, Siggì
25. Doom, Doomna, Dumna, Dumne, Mahasha
26. Gagra
27. Gandhila, Gandil, Gondola
28. Hali
29. Hesi
30. Jogi
31. Julaha, Julahe, Kabirpanthi, Keer
32. Kamoh, Dagoli
33. Karoack
34. Khatik
35. Kori, Koli
36. Lohar
37. Marija, Marecha
38. Mazhabi
39. Megh
40. Nat
41. Od
42. Pasi
43. Perna

44. Phrera, Pherera
45. Rehar, Rehara
46. Sanhai
47. Sanhal
48. Sansi, Bhedkut, Manesh
49. Sansoi
50. Sapela
51. Sarde, Sarera, Sarare, Saryare, Sarehde
52. Sikligar
53. Sipi
54. Sirkiband
55. Teli
56. Thathiar, Thathera

4. Similarly, the 'Scheduled Tribes Order (Amendment Act) 1976 as promulgated under Presidential Order declares the following tribes as the Scheduled Tribes throughout the state :

1. Bhot, Bodh
2. Gaddi (excluding the territories specified in sub-section (1) of section 5 of the Punjab Reorganisation Act, 1966 (31 of 1966), other than the Lahul & Spiti district)
3. Gujjar (excluding the territories specified in sub-section (1) of section 5 of the Punjab Reorganisation Act, 1966 (31 of 1966)
4. Jad, Lamba, Khampa
5. Kanaura, Kinnara
6. Lahaula
7. Pangwala
8. Swangla

5. Thus from the preceding para, it is clear that the tribes at serial numbers 1, 4, 5, 6, 7 and 8 have been treated as Scheduled Tribes throughout the State of Himachal Pradesh wherever they live, whereas in case of Gaddi and Gujjar the area restriction still persists as given in the preceding paragraph.

6. Before the data is presented in the form of Primary Census Abstract, it would be relevant to dwell on the various definitions and concepts adopted in 1981 Census which are briefly discussed as under so as to make the import of the various words clear :

Literate: A person who can both read and write with understanding in any one language is to be treated as literate. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education and should have passed any minimum educational standard. Children up to the age of 4 years have been treated as illiterate irrespective of their attending school or not.

Work: Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

Main Worker: A person who has primarily worked for the major period of a year is a main worker. By major period of the year, it is intended to ensure that the person has worked for 183 days or more or in other words worked for six months or more. For seasonal work, working in two seasons should be considered to satisfy the criterion.

Marginal Worker: A person who has worked for less than six months or 183 days but worked occasionally during the year before enumeration is considered as marginal worker.

Non-Worker: A person who has not worked at all during preceding one year from the date of enumeration is a non-worker.

The workers have been further classified into following categories :

Cultivator: A person is a cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural Labourer: A person who works in any person's land for wages and money, kind or cash is regarded as agricultural labourer. He

or she has no risk in cultivation but he or she merely works in another person's land for wages. Agricultural labourer has no right to lease or control on land on which he/she works.

Household Industry: It is an industry which involves atleast manufacturing or processing, or servicing, or repairing, conducted by the head of household himself or herself or by member of household at home or within the village in rural area and only within the premises of the house where household lives in the urban areas. A large proportion of the workers in a household industry should consist of members of the household including head. The industry should not be run on a scale of registered factory which should qualify or has to be registered under the Indian Factories Act.

Other Workers: All workers i.e. those who have been engaged in economic activities during the last one year, who are not cultivators or agricultural labourers or in household industry are other workers. The type of work that comes

under this category includes factory workers, plantation workers, those in trade and commerce, business, transport, mining, constructions, all government servants, municipal employees etc. In fact, all those who worked in the field of economic activity other than cultivation, agricultural labourers or household industry are other workers.

7. There are 196,973 scheduled castes households in the state. Of this, 184,075 scheduled castes households live in rural areas and 12,898 live in urban areas. In the aforesaid total households live 1,053,958 scheduled castes population divided into 997,427 persons in rural and 56,531 in urban areas.

8. So also, there are altogether 37,042 scheduled tribes households in the entire state with total population of 197,263. Of this, 36,053 households with population of 194,149 persons live in the rural and 989 households with a population of 3,114 persons live in the urban areas. District-wise break-up of Scheduled Castes/Scheduled Tribes households has been given in table I for convenience.

12. Kinnaur	12,457	59,547	1,276	6,331	8,775	44,583

9. The male and female break-up of the scheduled castes population being 537,989 males and 515,969 females and the scheduled tribes population 99,727 are males and 97,536 females.

10. The percentage-wise comparative study of scheduled castes with the general population would reveal that in 1961 Census the scheduled castes population was 22.89 per cent which slightly went down in 1971 Census with 22.24 per cent and again increased to 24.62 per cent in 1981 Census. Table II gives the comparative picture of the general population vis-a-vis scheduled castes and scheduled tribes population and its percentage to the total population for the last two Censuses. Indeed, the scheduled castes population has shown a much higher growth rate of 36.95 per cent during 1971-81 as against the total state's population growth rate of 23.71 per cent. Districtwise, Solan district with 31.78 per cent has the highest scheduled castes population, closely followed by Sirmaur district with 30.02 per cent and the lowest scheduled castes population inhabits in Lahul & Spiti district with 2.25 per cent only. Next above it comes Kinnaur district with 10.63 per cent scheduled castes population. Rest of the districts fall in between these two broad extremes. It would be noticed that Kinnaur is the only district where the scheduled castes population has registered considerable decline from 19.40 per cent in 1971 Census to 10.63 per cent in 1981 Census. The decline obviously is technical in the sense that most of the scheduled castes population in Kinnaur

district preferred to declare themselves as tribes rather than a caste. Noticeably, they have done so during the 1981 Census, hence, the apparent decline in the growth rate of their population.

11. In absolute terms, Chamba district has the largest scheduled tribes population of 95,726 persons in 1981 Census which was 67,852 persons in 1971 Census. The next district with the largest scheduled tribes population is the Kinnaur district with 44,583 persons and third being Lahul & Spiti district with 23,766 persons according to 1981 Census. The corresponding figures in 1971 Census were 34,090 persons and 21,563 persons. At the bottom end is the Una district with 19 persons as scheduled tribes in the district. Above it comes Hamirpur district with 57 persons as scheduled tribes. The percentage of scheduled tribes population to total population of the state in 1981 Census is 4.61 per cent compared to 4.09 per cent in 1971 Census. The districtwise percentage of scheduled tribes population to the total population can be seen in the Table II which indicates that Kinnaur district with 74.87 per cent of the scheduled tribes population comes on the top followed by Lahul & Spiti district with 74.04 per cent scheduled tribes population and third is the Chamba district with 30.77 per cent scheduled tribes population in the state. The overall picture would indicate that there had been constant increase of scheduled tribes population during 1971-81.

12. Table III gives the comparative literacy rates of the scheduled castes and scheduled tribes population. Of the state's literacy rate of 42.48 per cent, the scheduled castes have 31.50 per cent literates. The highest literacy, indeed is in Lahul & Spiti district where the scheduled castes literates are 49.52 per cent compared to the district general literacy of 31.35 percent as a whole. This contrasting character is basically because in the general population there is an enormously large number of labour class from outside the district particularly from Nepal which brings down the general literacy rate of the district as a whole. Next in literacy comes Hamirpur district with 45.47 per cent scheduled castes literates as compared to 52.70 per cent general literacy of the district. Hamirpur is closely followed by Una district with 42.75 per cent scheduled castes literacy compared to 50.05 per cent general literacy of the district. At the rock bottom comes Chamba district with 20.16 per cent scheduled castes literacy compared to 26.45 per cent literacy of the district as a whole. This is closely followed by Kullu with 21.11 per cent scheduled castes literates compared to 33.82 per cent general literacy of the district.

13. The percentage literacy of the scheduled tribes in the state as a whole according to 1981

Census is 25.93 per cent. The highest literacy is in Hamirpur district with 68.42 per cent followed by Kangra district with 54.52 per cent and next comes Una with 52.63 per cent. Kullu district also has a fairly high percentage of scheduled tribes literacy with 49.09 per cent literates. The lowest literacy is in Chamba district with 18.22 per cent literates and next above it is Sirmour with 19.34 per cent literates. Rest of the districts fall in between these two extremes in the percentage-wise literacy of the scheduled tribes.

14. The number of scheduled tribes literacy increased considerably during 1971—81. Whereas in 1971 Census the literacy in the tribes stood at 15.89 per cent, in 1981 Census this has risen to 25.93 per cent, the male literacy amongst the tribes being 38.75 per cent and female 12.82 per cent. Interestingly, the table reveals that the scheduled tribes literacy rate in Lahul & Spiti, Kullu and Chamba districts is lower than other districts comparatively. This is because the bulk of the scheduled tribes are concentrated in these three districts. In most of the rest of the districts the scheduled tribes population is basically a migrant population due to government service or some business activities. Therefore, they obviously are literates than the generality of the tribes in the aforesaid districts.

15. Table IV indicates the percentage of workers, main workers, marginal workers and non-workers. In the state as such there are 42.37 per cent workers whereas in case of scheduled castes and scheduled tribes there are 43.62 and 51.32 per cent workers of their total respective population. The highest percentage of workers in the state as such is in Lahul & Spiti district with 66.84 per cent workers followed by Kinnaur district with 57.26 per cent workers whereas in respect of scheduled castes and scheduled tribes Lahul & Spiti district has 76.90 per cent scheduled castes workers and also it has the highest percentage of 61.04 per cent scheduled tribes workers. This is followed by Kinnaur district with 54.63 per cent scheduled tribe workers. In the state there are 34.36 per cent main workers to the total population, 8.01 per cent marginal workers and 57.63 per cent non-workers. In case of scheduled castes, there are 35.66 per cent main workers, 7.96 per cent marginal workers and 56.38 per cent non-workers. In case of scheduled tribes, the respective position is 40.77 per cent, 10.55 per cent and 48.68 per cent respectively. The districtwise, main workers, marginal workers and non-workers percentages of scheduled castes and scheduled tribes as also of the general population can be gone through in detail in table IV.
