Chandigarh

On account of persistent demand by local authorities and various data users it has been decided by the Registrar General, India to bring out Primary Census Abstract for Scheduled Castes and Scheduled Tribes separately. There being no Scheduled Tribe notified in this Union Territory Primary Census Abstract for Scheduled Castes only appears in this paper. The level of presentation is Union Territory, District, Tahsil, City and Town. Chandigarh Union Territory being a uni district and uni tahsil data for the Union Territory, District and Tahsil are same. Data for Urban areas have been given for Chandigarh Urban Agglomeration and its constituent units i.e. Chandigarh City, Manimajra, Burail and Attawa Towns along with out-growths included in the city and Manimajra Town. This Abstract gives us distribution of Scheduled Caste population by their main economic activity i.e., total main workers, marginal workers and non-workers by sex. Main workers have been further distributed according to their main activity as Cultivators, Agricultural Labourers, Household Industry and Other Workers. In addition to data for economic activity total literates among Scheduled Castes have also been presented by sex.
