THE DANCING GANESHA

THIS REMARKABLE FIGURE OF THE DANCING GANESHA IS DRAWN BY L. R. PENDHARKAR. THE ORIGINAL STONE IMAGE IS FROM THE ANCIENT SITE OF PARANAGAR IN DISTRICT ALWAR. BELONGING TO THE TENTH CENTURY A.D. IT IS CONSIDERED TO BE ONE OF THE MOST EXQUISITE IN THIS COUNTRY AND WITHOUT ANY DOUBT COMPARABLE TO THE FINEST GANESH IMAGES OF JAVA. IT NOW EMBELLISHES THE ALWAR MUSEUM.

PREFACE

PRESENTED IN THIS PAPER are some of the basic particulars about our people in Rajasthan as collected during the recent Census of population. These figures are, however, only crude totals having been built up through a rapid relay of counts from a massive fleet of enumerators, supervisors and charge officers spread throughout the length and breadth of the State. As it is, this data has its own limitations and is subject to some variation as a consequence of the regular process of tabulation which will be taken up shortly.

Tabulation of the Census data is a gruelling process through which the primary census abstracts down to every village and to an enumerator's block in case of towns are prepared besides a series of cross tabulations to present the socio-economic and demographic characteristics of population. This task is a colossal one and takes time. Our anxiety to satisfy the immediate demands of our readers for the broad results of the Census has impelled our organisation to present this paper even though the data contained herein is only provisional.

Five tables have been built up and they relate to the distribution of population by sex, sex-ratio, growth rate and density of population; decadal variation in population in the last seventy years; the rural and urban composition of population; population of towns and to literacy. An appendix shows the comparative picture of population in various states and union territories of the country. These tables are preceded by a note which introduces the subject matter of this paper and provides the necessary background material.

Dr. U. B. Mathur, Deputy Director of Census Operations, Rajasthan and other colleagues have laboured hard to bring out this publication.

Jaipur,
17th April, 1971

V. S. VERMA,
Director,
Census Operations, Rajasthan.

POPULATION TO TOTAL**

POPULATION : 17.61 Per cent

LITERACY RATE : Total 18.79 Per cent
 Males 28.42 Per cent
 Females 8.26 Per cent

INTRODUCTORY NOTE

HOW MANY ARE WE IN RAJASTHAN ? To this all-important question, the recent count for the Census 1971 has now provided a tentative answer. We are currently around 25,724,000 in Rajasthan. As in the previous decade, the population of Rajasthan has grown at a rapid rate, viz. the all-time high of 27.6 per cent, adding some 5,569,000 persons to our 1961 population.

There is a wide range of variation in the population growth rates of the various districts of the State. Banswara district has recorded the highest (37.81) rate of growth. Twelve more districts have registered growth rates higher than the State average while the remaining thirteen districts have grown at rates between 17.34 and 26.83 as would be clear from the following statement.

GROWTH RATES OF VARIOUS DISTRICTS

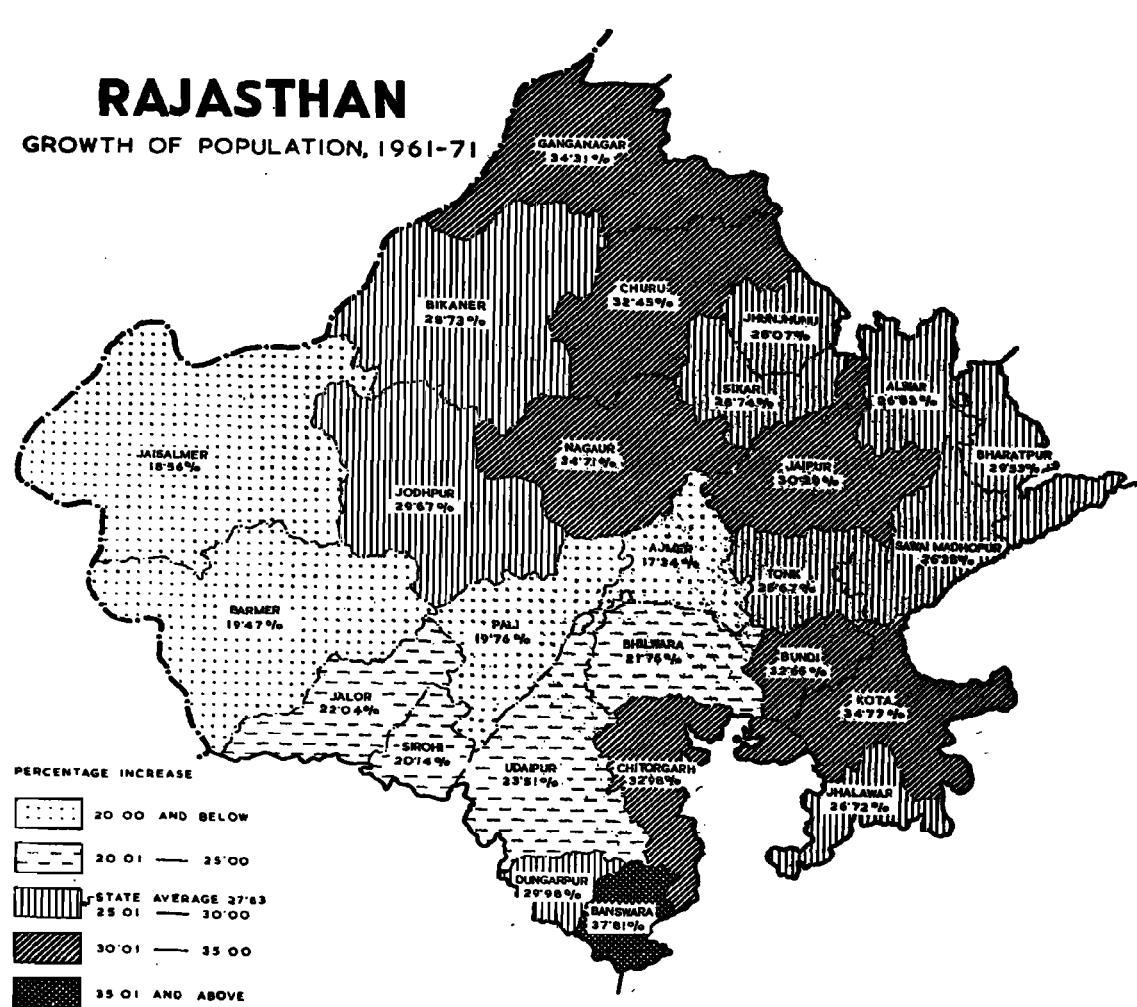

Range of growth rates	Districts (Growth rates in brackets)
35.01 & above	1. Banswara (37.81)
30.01 to 35.00	2. Kota (34.77) 3. Nagaur (34.71) 4. Ganganagar (34.31) 5. Chitorgarh (32.98) 6. Bundi (32.65) 7. Churu (32.45) 8. Jaipur (30.29)
25.01 to 30.00 (State average : 27.6)	9. Dungarpur (29.98) 10. Jodhpur (29.67) 11. Bharatpur (29.53) 12. Bikaner (28.73) 13. Jhunjhunu (28.07) 14. Alwar (26.83) 15. Sikar (26.74) 16. Jhalawar (26.72) 17. Sawai Madhopur (26.38) 18. Tonk (25.67)
20.01 to 25.00	19. Udaipur (23.51) 20. Jalore (22.04) 21. Bhilwara (21.76) 22. Sirohi (20.14)
20.00 & below	23. Pali (19.76) 24. Barmer (19.47) 25. Jaisalmer (18.56) 26. Ajmer (17.34)

A comparison of these rates with those recorded in 1961 shows the following ranking of the various districts.

RANKING OF DISTRICTS BY POPULATION GROWTH

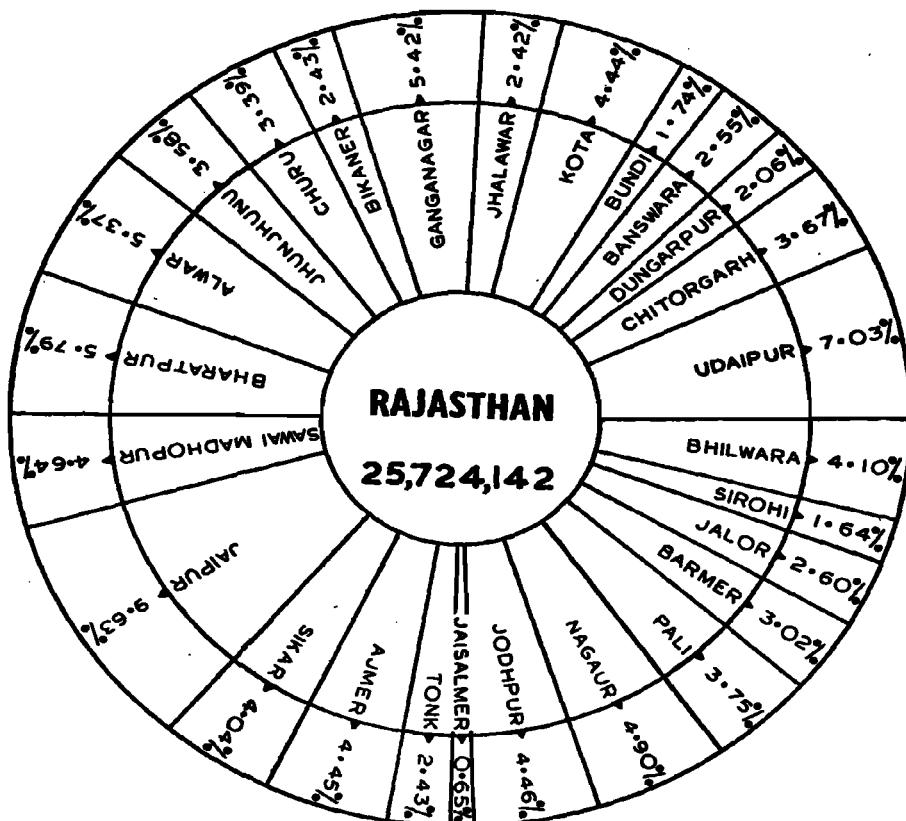

District	Ranking by growth		District	Ranking by growth	
	1961	1971		1961	1971
Ganganagar	1	4	Nagaur	16	3
Bikaner	6	12	Pali	19	23
Churu	12	7	Barmer	2	24
Jhunjhunu	18	13	Jalore	7	20
Alwar	11	14	Sirohi	20	22
Bharatpur	9	11	Bhilwara	26	21
Sawai Madhopur	14	17	Udaipur	15	19
Jaipur	13	8	Chitorgarh	21	5
Sikar	23	15	Dungarpur	4	9
Ajmer	25	26	Banswara	3	1
Tonk	17	18	Bundi	24	6
Jaisalmer	8	25	Kota	10	2
Jodhpur	5	10	Jhalawar	22	16

It will be noted that Ganganagar district which had recorded a phenomenal increase (64.64) in 1961 has registered an increase of 34.31 per cent only this time. Barmer district also which then had an increase of 36.14 has grown only by 19.47 per cent. Kota, Nagaur, Chittorgarh, Bundi, Churu and Jaipur districts have all grown at a much higher pace during the period 1961-71 than during 1951-61. Jhunjhunu Tonk, Sikar, Sawai Madhopur and Jhalawar have also increased at higher rates. As compared to their growth during 1951-61, districts Jodhpur, Dungarpur, Jaisalmer, Jalor and Pali have grown at lower rates during the last decade. District Ajmer, which had grown at the rate of 19.09 during 1951-61, has registered an even lower rate of growth (17.34) this time, which is also the lowest recorded amongst the districts of Rajasthan. A glance at the map below would show the pattern of growth of population in the various districts as recorded during the 1971 Census.

The varying growth of population in the districts during the decade has changed the proportionate share of population of the various districts as obtaining in 1961. The statement below explains this position while the chart illustrates the current population sizes of the districts.

District	Population				District	Population			
	1961 % Share	Rank	1971 % Share	Rank		1961 % Share	Rank	1971 % Share	Rank
Ganganagar	5.15	5	5.42	4	Nagaur	4.64	8	4.90	6
Bikaner	2.21	22	2.23	22	Pali	4.00	13	3.75	13
Churu	3.27	16	3.39	16	Barmer	3.22	17	3.02	17
Jhunjhunu	3.57	14	3.58	15	Jalor	2.71	18	2.60	18
Alwar	5.41	4	5.37	5	Sirohi	1.75	24	1.64	25
Bharatpur	5.70	3	5.79	3	Bhilwara	4.30	10	4.10	11
Sawai Madhopur	4.68	7	4.64	7	Udaipur	7.26	2	7.03	2
Jaipur	9.44	1	9.63	1	Chittorgarh	3.52	15	3.67	14
Sikar	4.07	12	4.04	12	Dungarpur	2.02	23	2.06	23
Ajmer	4.84	6	4.45	9	Banswara	2.36	21	2.55	19
Tonk	2.47	19	2.43	20	Bundi	1.68	25	1.74	24
Jaisalmer	0.70	26	0.65	26	Kota	4.21	11	4.44	10
Jodhpur	4.39	9	4.46	8	Jhalawar	2.43	20	2.42	21

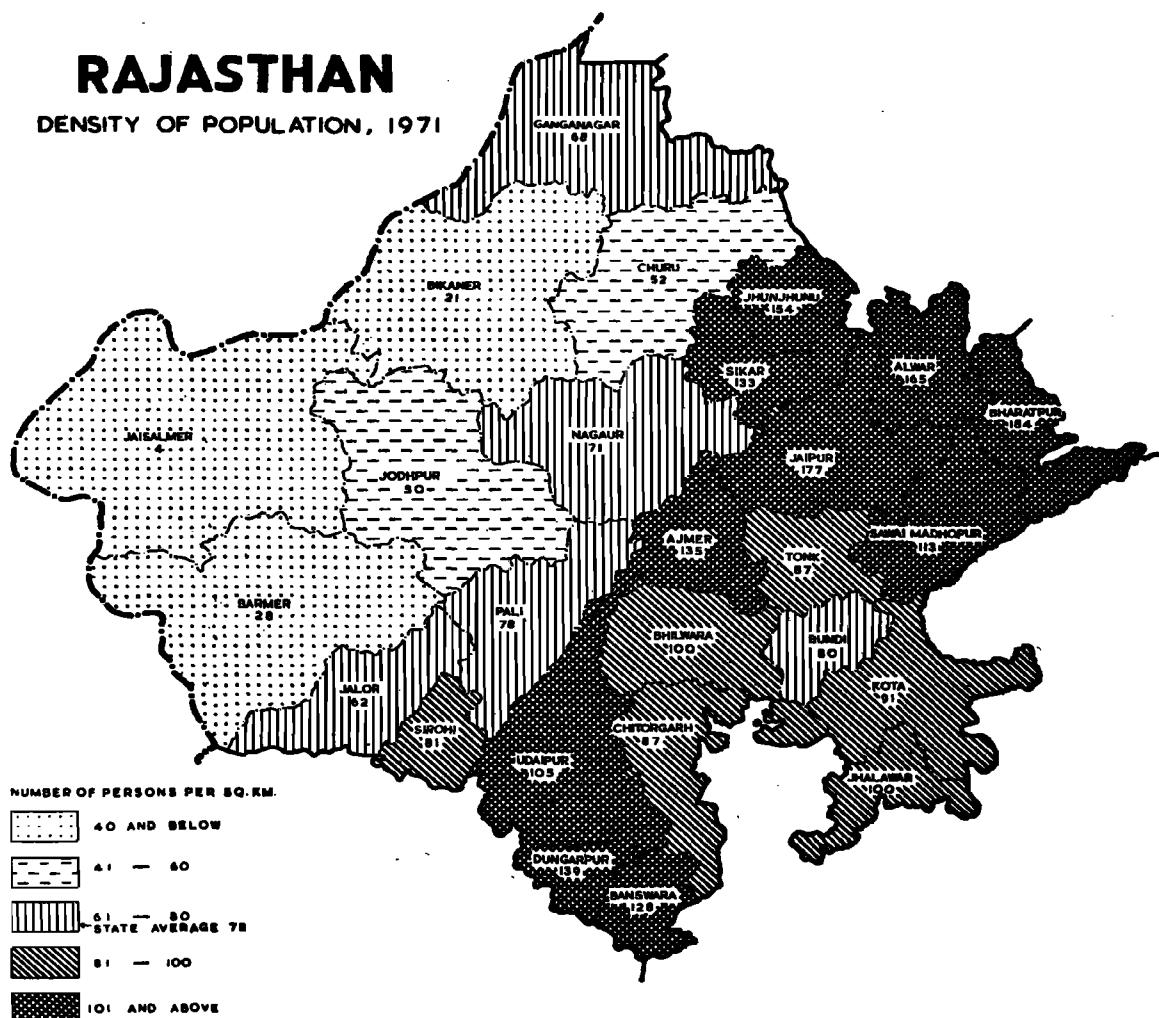

DENSITY OF POPULATION

With the growth of population during the decade the density of population in Rajasthan has increased from 59 persons (in 1961) to 75 persons per sq. kilometre. An addition of 16 persons per sq. kilometre has thus taken place. The additions in the levels of density in terms of persons per sq. km. recorded for the various districts during the decade are as under :

Ganganagar	18	Ajmer	18	Bhilwara	17
Bikaner	5	Tonk	18	Udaipur	22
Churu	13	Jaisalmer	0	Chitorgarh	15
Jhunjhunu	33	Jodhpur	11	Dungarpur	31
Alwar	38	Nagaur	18	Banswara	34
Bharatpur	42	Pali	12	Bundi	20
Sawai Madhopur	23	Barmer	5	Kota	23
Jaipur	41	Jalor	10	Jhalawar	20
Sikar	27	Sirohi	13		

The density of population varies from district to district and ranges from a mere 4 persons to a sq. kilometre in the desert district of Jaisalmer to 184 in the fertile plains of Bharatpur district. The statement overleaf seen alongwith the following map shows the classification of districts by various ranges of density.

DISTRICTS BY RANGES OF DENSITY

Ranges of density	Districts (density in brackets)
101 and above	1. Bharatpur (184) 2. Jaipur (177) 3. Alwar (165) 4. Jhunjhunu (154) 5. Dungarpur (139) 6. Ajmer (135) 7. Sikar (133) 8. Banswara (128) 9. Sawai Madhopur (113) 10. Udaipur (105)
81 to 100	11. Bhilwara (100) 12. Jhalawar (100) 13. Kota (91) 14. Tonk (87) 15. Chitorgarh (87) 16. Sirohi (81)
61 to 80 (State average : 75)	17. Bundi (80) 18. Pali (78) 19. Nagaur (71) 20. Ganganagar (68) 21. Jalor (62)
41 to 60	22. Churu (52) 23. Jodhpur (50)
40 and below	24. Barmer (28) 25. Bikaner (21) 26. Jaisalmer (4).

SEX RATIO

There are now 914 females per 1,000 males in Rajasthan. The sex ratio, which had gone down to 908 in 1961 from 921 in 1951, appears to have taken a happy trend now. The most remarkable decadal changes at the district level, which have been responsible for their trend, are as under :

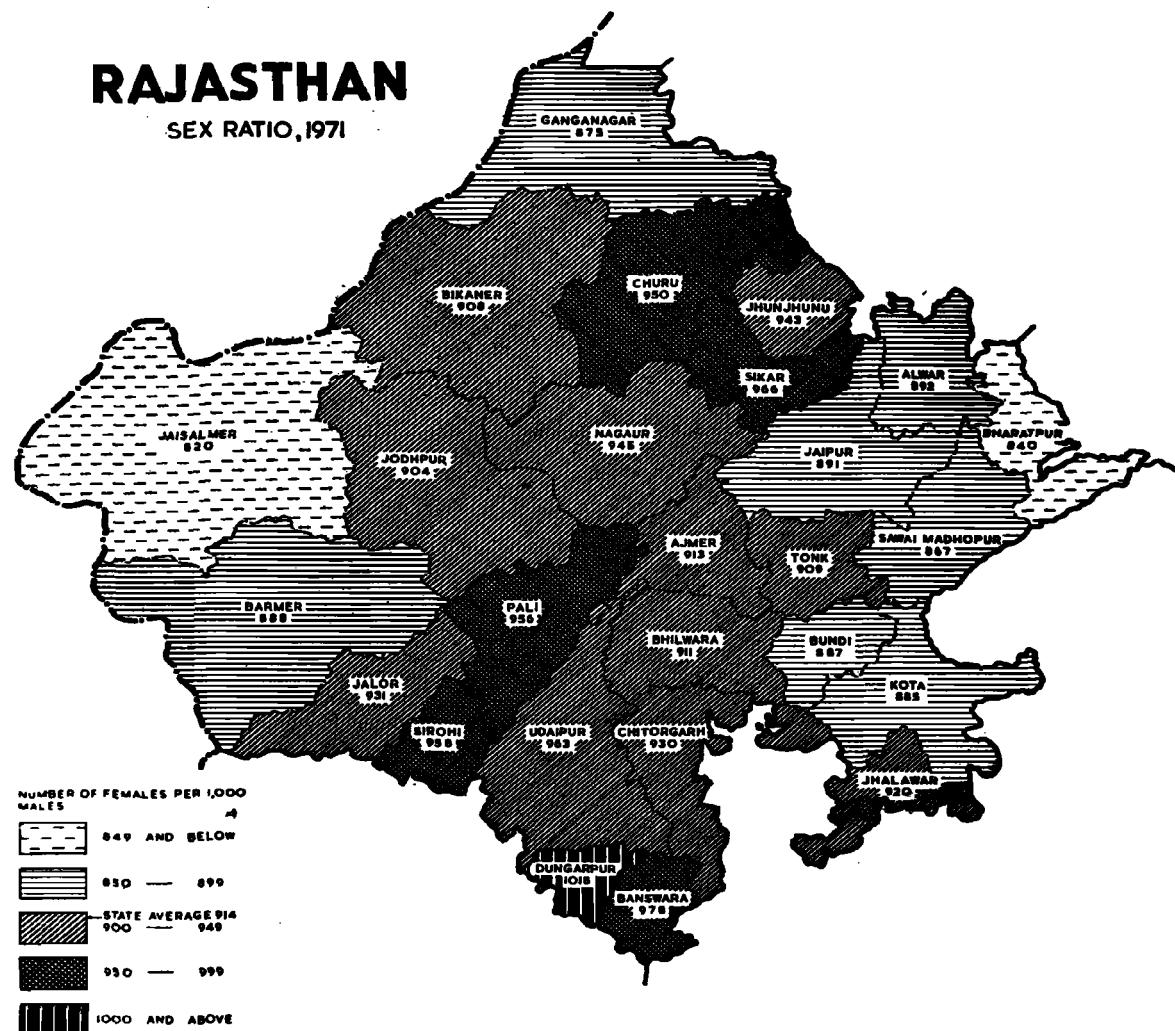

IMPORTANT DECADAL CHANGES IN SEX RATIO

District	Sex Ratio		Increase
	1961	1971	
Ganganagar	842	875	33
Churu	938	950	12
Jaisalmer	802	820	18
Jodhpur	888	904	16
Pali	943	956	13
Jalor	919	931	12
Sirohi	948	958	10
Udaipur	939	963	24
Dungarpur	991	1018	27
Banswara	971	978	7

It will be noted that the increase in the sex ratio in district Ganganagar has been phenomenal. The tribal districts of Dungarpur and Banswara are known to have an excess of females over males in the past and with the increase now recorded Dungarpur has gone back to that tradition while Banswara district has now the highest sex ratio of the remaining districts. The Map alongside shows the pattern of sex ratio as obtaining now in the various districts of the State.

RAJASTHAN

SEX RATIO, 1971

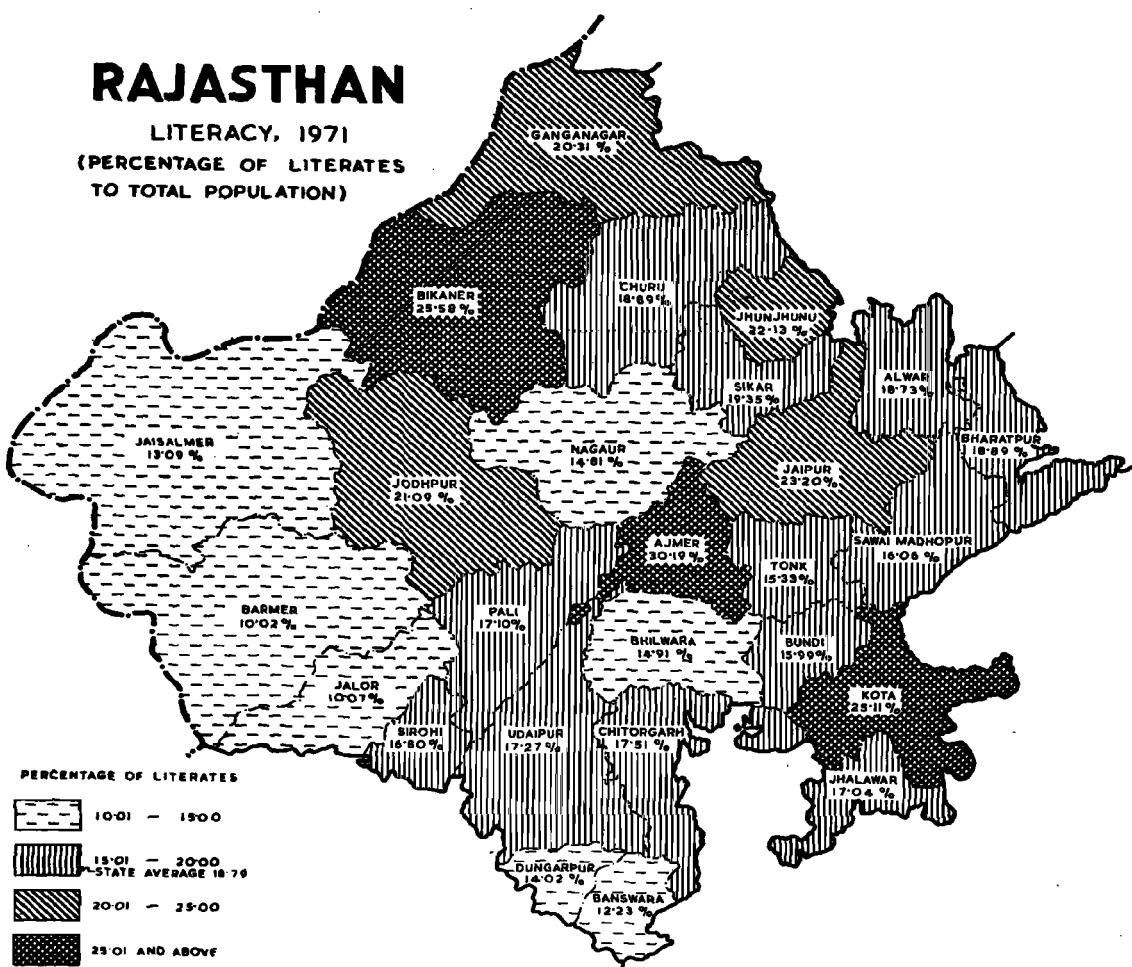

LITERACY

18.79 per cent of our people are literates-28.42 among the males and 8.26 among the females. These rates are, however, not the effective rates. These can be computed only after the population in the age-group 0 to 4 is excluded from the total population. These crude figures have been arrived at on the total population and effective rates can very well be taken as higher than given in this paper. For the purposes of comparison with the last Census, the percentages of literacy for 1961 shown in the table concerned of this paper have also been presented on the same basis. It will be seen that 16 districts have literacy rates lower than the State average ranging from 10.02 in Barmer to 18.73 in Alwar. Among the districts having higher percentages of literacy than the State average, district Ajmer is at the top with 30.19 per cent of literate population followed by Bikaner with 25.58 and Kota with 25.11. The literacy rates in the remaining seven districts, with rates higher than the State average, vary between 18.89 (Bharatpur) to 23.20 (Jaipur).

The literacy rate for the male population is the highest (41.15) in Ajmer followed by those in Kota (36.84), in Jhunjhunu (35.98) and in Bikaner (34.83). Ajmer is also at the top with the highest percentage (18.18) of literate females followed by Bikaner (15.39) and Kota (11.86). Barmer district has the lowest (2.70) percentage of female literates.

A comparison with the corresponding figures of 1961 shows that district Kota has recorded an appreciable growth in literacy from 19.05 per cent of total literates in 1961 to 25.11 per cent; from 29.13 per cent of male literates in 1961 to 36.84 per cent; and from 7.81 per cent of female literates in 1961 to 11.86. The map below shows the pattern of literacy in the various districts of Rajasthan.

URBAN COMPOSITION OF POPULATION

17.61 per cent of our population in Rajasthan resides in urban areas. The urban population of Rajasthan has grown at the rate of 38.03 per cent during 1961-71. Some of the districts have recorded very high percentages of urban growth such as Bhilwara (83.28), Jaisalmer (78.28) and Kota (71.81). One of the plausible reasons may be migration of population to the urban areas of these districts.

Of the total urban population in the State 41.06 per cent lives in the towns having a population of over 100,000 persons. There are seven such towns, Alwar town (100,791) having now joined this category of towns consisting of Jaipur (613,144), Jodhpur (318,894), Ajmer (262,480), Kota (213,005), Bikaner (188,598) and Udaipur (162,934). Of these towns Kota has recorded the highest growth rate (76.99) during the decade. There are now seven towns having population between 50,000 and 99,999, namely, Ganganagar, Bhilwara, Sikar, Bharatpur, Beawar, Tonk and Churu which together have 10.76 per cent of the total urban population of Rajasthan. Thirty towns having population between 20,000-49,999 together have 19.54 per cent of the total urban population. There are sixty eight towns in the size group 10,000 to 19,999 which contribute 20.95 per cent of the State urban population. 7.33 per cent urban population resides in the forty one towns belonging to the size group 5,000 to 9,999 while the remaining 0.36 percent of the urban population lives in the four towns having persons less than 5,000.

COMPARATIVE PICTURE OF THE POPULATION IN RAJASTHAN

By the size of population, Rajasthan stands tenth in the order of rank amongst the various states of the country. It had the same ranking in 1961 also. Uttar Pradesh, Bihar, Maharashtra, West Bengal, Andhra Pradesh, Madhya Pradesh, Tamil Nadu, Mysore and Gujarat are the first nine states preceding Rajasthan. Orissa, Kerala, Assam, Punjab, Haryana, Jammu & Kashmir, Himachal Pradesh and Nagaland follow.

Rajasthan contributes 4.70 per cent to the total population of India. The states having precedence over Rajasthan in this matter are U.P. (16.14), Bihar (10.31), Maharashtra (9.20), West Bengal (8.12), Andhra Pradesh (7.93), Madhya Pradesh (7.58), Tamil Nadu (7.51) Mysore (5.34) and Gujarat (4.87). The percentage share of the states which follow Rajasthan is Orissa (4.01), Kerala (3.89), Assam (2.72), Punjab (2.46), Haryana (1.82), Jammu & Kashmir (0.84), Himachal Pradesh (0.63) and Nagaland (0.10). During the decade 1961-71, we have grown in Rajasthan at the rate of 27.63 per cent. Six states have grown at rates higher than us. They are Nagaland, Assam, Haryana, Jammu and Kashmir, Gujarat and Madhya Pradesh. Fourteen out of the eighteen states including Rajasthan have registered an increase over their decadal growth rates of 1961 as can be observed from the following statement showing the pattern of decennial growth rates in various states.

PATTERN OF DECENTNIAL GROWTH RATES IN STATES

States	1951-61	1961-71
1 Nagaland	14.07	39.64
2 Assam	35.06	33.51
3 Haryana	33.79	31.36
4 Jammu & Kashmir	9.44	29.60
5 Gujarat	26.88	29.21
6 Madhya Pradesh	24.17	28.04
7 RAJASTHAN	26.20	27.63
8 West Bengal	32.80	27.24
9 Maharashtra	23.60	27.16
10 Kerala	24.76	25.89
11 Orissa	19.82	24.99
12 Mysore	21.57	23.90
13 Tamil Nadu	11.85	22.01
14 Himachal Pradesh	17.87	21.76
15 Bihar	19.77	21.38
16 Punjab	21.56	21.00
17 Andhra Pradesh	15.65	20.60
18 Uttar Pradesh	16.66	19.73
INDIA	21.64	24.57

Amongst the various states, Kerala is the most densely populated with 548 persons per sq. kilometre followed by West Bengal (507). The next three states with high densities are Bihar (324), Tamil Nadu (316) and Uttar Pradesh (300). Punjab (268) and Haryana (225) lead the remaining states. Rajasthan State (75) belongs to the category of states having low densities.

Kerala has an excess of females. It has 1,019 females per 1000 males. Nagaland, Punjab, Haryana, Jammu and Kashmir, Uttar Pradesh and West Bengal have sex ratios ranging from 872 to 892 females per 1000 males while the ratio in the rest of the states, (Rajasthan 914), vary from 901 (Assam) to 989 (Orissa).

TABLES

N O T E

The first three tables which now follow relate to the distribution of population by sex, sex ratio, growth rate and density of population; the decadal variation in population since 1901, and, the rural and urban composition of population, percentage content of the urban population and decennial growth rate in the rural and urban areas for the State and its various districts. The fourth table deals with the population of towns by the size classes, while the fifth and the final table gives information about the literate population by sex and compares the percentage of literates by sex for the Census years 1961 and 1971. The appendix presents a comparative picture of the population in various states and union territories of the country.

TABLE-I—DISTRIBUTION OF POPULATION, SEX RATIO, GROWTH RATE & DENSITY OF POPULATION
 (Provisional Figures, Census 1971)

State/District	Population 1971			Sex Ratio (females per 1,000 males)		Density of Population per Sq. Km.		Decennial Growth Rate of Population	
	Persons	Males	Females	1961	1971	1961	1971	1951-61	1961-71
1	2	3	4	5	6	7	8	9	10
RAJASTHAN	25,724,142	13,442,056	12,282,086	908	914	59	75	+ 26·20	+ 27·63
1. Ganganagar	1,393,384	743,060	650,324	842	875	50	68	+ 64·64	+ 34·31
2. Bikaner	572,237	299,886	272,351	910	908	16	21	+ 29·56	+ 28·73
3. Churu	872,835	447,600	425,235	938	950	39	52	+ 25·85	+ 32·45
4. Jhunjhunu	921,637	474,408	447,229	943	943	121	154	+ 22·24	+ 28·07
5. Alwar	1,382,485	730,819	651,666	892	892	127	165	+ 26·45	+ 26·83
6. Bharatpur	1,489,417	809,489	679,928	842	840	142	184	+ 26·72	+ 29·53
7. Sawai Madhopur	1,192,518	638,711	553,807	870	867	90	113	+ 23·32	+ 26·38
8. Jaipur	2,477,874	1,310,672	1,167,202	890	891	136	177	+ 24·75	+ 30·29
9. Sikar	1,039,603	528,709	510,894	964	966	106	133	+ 21·29	+ 26·74
10. Ajmer	1,145,927	599,161	546,766	913	913	117	135	+ 19·09	+ 17·34
