ARDAMAN SINGH
Director Census Operations
Union Territory Chandigarh

ACKNOWLEDGEMENTS

The challenging task of 1981 Census could only be accomplished successfully due to able guidance of Shri P. Padmanabha, Registrar General, India, Shri K.K. Chakravorty, Deputy Registrar General (C&T) and Shri V.P. Pandey, Deputy Registrar General, India who were ever willing to lend their support and provide able guidance as and when sought for. I am grateful to them for generous help and guidance. The success of field operations could only be achieved due to co-operation and assistance provided by Shri B.S. Sarao, Chief Commissioner and Shri R.S. Mann, Home Secretary who were kind enough to promptly issue instructions to the district officers and heads of offices for attending census duties on priority basis and making available vehicles and staff for conducting actual operations. Shri Raghbir Singh, Deputy Commissioner-cum-Principal Census Officer and Shri Mohinder Singh Executive Magistrate-cum-District Census Officer had to labour hard for providing field agency. S/Shri Y.P. Chadha, J.C. Gupta, J.S. Walia and Jaswant Singh Charge Officers and S/Shri C.S. Kochhar, R.K. Dhawan, L.S. Pramar, O.P. Sharma, R.L. Bhandari, Ranjit Singh and P.L. Pathak, Assistant Charge Officers took all pains to ensure complete coverage in spite of their heavy normal duties. They attended to Census work from early hours in the morning till late hours at night. The heads of Central Government and U.T. Administration Offices, Educational Institutions and Semi Government Organisations were of great help in lending their staff for taking up field work of Census Operations. It would not have been possible to conduct the Census without their co-operation. The Enumerators and Supervisors who conducted the Census Operations deserve all praise for their devotion, sincerity and hard labour. They all toiled to successfully complete enumeration in their jurisdictions. In my own office every one irrespective of his status worked day and night for providing effective assistance, guidance and supervision to all persons engaged in field Operations. It was their devotion which created a tide of enthusiasm among enumerators, supervisors and others engaged in field work that we could complete this challenging task within stipulated time most successfully. We all owe our gratitude to all these persons for helping us to attend to this gigantic national task with sincerity.

We are also grateful to the Officers and staff of U.T. Administration Press especially Shri P. Oommen, Deputy Controller, for their efforts in getting this paper printed in shortest possible time.

Chandigarh :
March 19, 1981.

ARDAMAN SINGH,
Director Census Operations,
Union Territory Chandigarh.

**CENSUS 1981
INTRODUCTION**

INTRODUCTION

This Union Territory was formed on 1st November, 1966 and had its first Census as a separate Administrative unit in 1971. Prior to 1971 the area forming this Union Territory was covered along with Ambala District of erstwhile State of Punjab. The present Census is the second after formation of this Union Territory.

On the basis of elaborate deliberations and discussions in the meetings and conferences with data users, the schedules to be canvassed during 1981 Census, various concepts and procedure for collection and processing of data were finalised in 1980 by the Registrar General, India. It was decided to collect data relating to type of houses and various household characteristics in household schedule and limit the scope of houselist to serve as a frame for enumeration. It was also decided to collect data on totally blind, totally crippled and totally dumb through houselists. On the request of Department of Statistics alongwith houselist an enterprise list was also canvassed which gave a frame for all kinds of enterprises. Accordingly 1971 Census Establishment Schedule was not canvassed as the desired data was collected through the Enterprise list. Questions contained in both Houselist and Enterprise list are reproduced below:—

HOUSELIST

1. Line No.
2. Building No. (Municipal or local authority or census No.)
3. Census house No.
4. Purpose for which census house is used (if wholly or partly non-residential, fill Enterprise List).
5. Household No.
6. Name of the head of household.
7. Is the household engaged in an enterprise outside this census house and without premises ?
If yes, fill Enterprise List.
8. Number of persons normally residing in census household.
9. Is there a physically handicapped person in the household ? If so, indicate number of those who are totally blind, crippled, dumb.
10. Remarks

ENTERPRISE LIST

1. Line number of Houselist
2. Census House No.
3. Sl. No. of enterprise
4. Description of activity of enterprise
5. Classification of enterprise
6. Nature of operation
7. Type of ownership
8. Social group of owner
9. Power/fuel used for activity

10. Number of persons usually working daily with details of total and hired workers separately for Non-Agricultural enterprises or Agricultural enterprises.
11. Remarks

During actual enumeration, household schedule was canvassed for every household and Individual Slip (Universal) and (Sample) was canvassed for each person in this Union Territory. In most of the States Individual Slip (sample) was canvassed on 20% area sample basis. Questions contained in these schedules are reproduced below:—

UNIVERSAL

- | | |
|------------------------------|---|
| 1. Name | 8. Religion |
| 2. Relationship to head | 9. Whether Scheduled Caste or Scheduled Tribe |
| 3. Male/Female | 10. Name of Caste/Tribe |
| 4. Age | 11. Literate/Illiterate |
| 5. Marital status | 12. Educational attainment |
| 6. Mother-tongue | 13. Attending school/college |
| 7. Two other languages known | |

14A. Worked any time at all last year ?

14B. If yes in 14 A, did you work for major part of last year ?

15A. Main activity last year.

If household industry/other work in 15A

- (i) name of establishment
- (ii) description of work
- (iii) nature of industry, trade or service
- (iv) class of worker

15B. If yes in 14B, any other work any time last year ?

If No in 14B, work done any time last year ?

If household industry/other work in 15B,

- (i) name of establishment
- (ii) description of work
- (iii) nature of industry, trade or service
- (i v) class of worker

16. : If No in 14A or 14B, seeking/available for work ?

SAMPLE

- | | |
|--------------------|-----------------------------|
| 1. Birth place | 2. Last residence |
| (a) place of birth | (a) place of last residence |
| (b) rural/urban | (b) rural/urban |
| (c) district | (c) district |
| (d) state/country | (d) state/country |

3. Reasons for migration from place of last residence
4. Duration of residence at the village or town of enumeration
5. For all ever-married women only
 (a) Age at marriage
 (b) Number of children surviving at present
 Male/female/total
 (c) Number of children ever born alive
 Male/female/total
6. For currently married women only
 Any child born alive during last one year ?

HOUSEHOLD SCHEDULE

Part I—Household Particulars

1. Name of head of household.
2. Religion of the head of household.
3. Whether head of household belongs to Scheduled Caste or Scheduled Tribe.
4. Name of Caste/Tribe of head of household.
5. Language mainly spoken in the household.
6. Does the household live in owned house ?
7. If 'No' in 6, does the household own a house or house site in the village or town of enumeration ?
8. Predominant construction material of the house occupied by household ;
 - (a) wall ;
 - (b) roof ;
 - (c) floor.
9. Facilities available to the household ;
 - (a) Drinking Water-Supply
 - (i) Source
 - (ii) within premises/outside premises
 - (b) Electricity.
 - (c) Toilet (for urban areas only).
10. Number of living rooms in occupation of household.
11. Number of married couples usually living in the household.
12. Does the household cultivate land ?
13. If 'Yes' in 12, whether owned/rented/owned and rented.
14. If rented, enter local name of tenancy.
15. Total population of household.

Part II—Population Record

1. Name
2. Relationship to head (indicate serial number of mother within brackets if present in the household for children up to ten years).
3. Sex.
4. Age.
5. Marital Status.

In addition to five items listed above, Part-II—Population Record contained basic data for each member of the household compiled from individual slip which enabled the enumerator to strike totals for each household. These totals were compiled by the enumerator in his working sheets and totals for each block were struck. The data being given in this paper are based on the compilation done by the enumerators and are therefore, provisional.

APPENDIX 1

LIST OF OFFICERS OF THE DIRECTORATE

Name of the Officer	Designation
1	2
1. Shri Ardaman Singh	Director
2. Shri B. D. Sharma	Assistant Director
3. Shri G. D. Singla	Assistant Director

APPENDIX 2

**OFFICIALS WHO WORKED IN THE "PROVISIONAL POPULATION TOTALS
1981 CENSUS—PROJECT"**

COMPILATION

1. Shri K. B. Lakhanpal, Investigator.
2. Shri Raj Kumar, Tabulation Officer.
3. Shri Y. R. Grover, Tabulation Officer.
4. Shri M. S. Bhatnagar, Statistical Assistant.
5. Shri A. S. Thakur, Statistical Assistant.
6. Shri Azad Kumar, Statistical Assistant.
7. Shri Mansha Ram, Computer.
8. Shri Vinod Mamik, Computer
9. Shri Anadi Kumar, Assistant Compiler.
10. Shri Rajinder Kumar, Assistant Compiler.
11. Miss Neelam Dhar, Assistant Compiler.

MAPPING

1. Shri Surinderjit Singh, Geographer.
2. Shri Devinder Singh Sulhen, Artist.
3. Shri P. K. Ghosh, Draftsman.

PRINTING

1. Shri K. B. Lakhanpal, Investigator.
2. Shri Raj Kumar, Tabulation Officer.
3. Shri Y. R. Grover, Tabulation Officer.
4. Shri M. S. Bhatnagar, Statistical Assistant.
5. Shri A. S. Thakur, Statistical Assistant.

**ANALYSIS
OF
RESULTS**

GROWTH OF POPULATION

Chandigarh Union Territory has recorded a population of 4,50,061 persons consisting of 2,54,208 males and 1,95,853 females against 2,57,251 persons, 1,47,080 males and 1,10,171 females in 1971 Census. Chandigarh urban agglomeration has recorded 4,21,256 persons as against 2,32,940 persons in 1971. Two new places viz. ; Burail and Attawa have been treated as towns for the first time. These towns have recorded a population of 11,034 and 4,247 persons respectively. Mani Majra Town and its outgrowth have recorded 28,118 persons as against 14,197 persons during 1971 Census. The Union Territory has recorded a decennial growth rate of 74.95 per cent during the decade 1971—81, as against a growth rate of 114.59 per cent during last decade (1961—71). Growth rate recorded by this Union Territory was the highest during the decade, 1961—71 (394.13 per cent). Growth rate of Union Territory is the highest amongst states and Union Territories and is three times of growth rate recorded for the country as a whole. The growth rate of 18.57 per cent recorded by rural areas during this decade is higher than the growth rate of 17.91 per cent recorded during last decade. Amongst towns growth recorded by Mani Majra town including its outgrowth is almost double than what was recorded during last decade. Growth rate of 70.95 per cent recorded during this decade for Chandigarh City including outgrowth is almost half than what was recorded during last decade. The comparative figures are given in Table 1.

Comparing with other States and Union Territories it is observed from Statement No. 1 that Chandigarh retains its 27th rank in population. Uttar Pradesh retains its first rank while Lakshadweep retains last rank in total population. Even amongst 9 Union Territories Chandigarh occupies 6th rank. Chandigarh has recorded more population than Union Territories of Andaman & Nicobar Islands, Dadra & Nagar Haveli and Lakshadweep and Sikkim State, all other States and Union Territories have more population than this Union Territory.

DENSITY

Density of Chandigarh Union Territory has gone up to 3,948 persons per sq. kilometer during 1981 Census as compared to a density of 2,257 in 1971. Burail Town has the highest density of 13,622 persons per sq. kilometer in this Union Territory followed by Chandigarh City including its outgrowth which has a density of 6,445 persons. Chandigarh rural areas have recorded a density of 767 persons which is quite high as compared with the rest of the country. Table-1 gives us density for towns, rural areas and Union Territory for 1971 and 1981.

Density of 3,948 persons per sq. kilometer recorded in this Union Territory is second highest as compared to other states and Union Territories. Highest density of 4,178 persons per sq. kilometer has been recorded in Delhi. All India density per sq. kilometer excluding Jammu & Kashmir is 221 persons.

SEX RATIO

In spite of improvement in sex ratio over 1971 Census, sex ratio (770) recorded for the Union Territory in 1981 is still very low. Sex ratio (689) for rural areas is even lower than that of Union Territory as a whole which is quite contrary to the position for the rest of the country. Sex ratio (782) recorded for Chandigarh City including its outgrowth is highest amongst all other towns in the Union Territory. There is a steep fall in sex ratio (778) recorded for Mani Majra including its outgrowth. This is mainly due to settlement of labourers in this area who are mostly living without their families.

Chandigarh with 770 females per 1000 males occupies 2nd lowest rank among states and Union Territories in India. Lowest rank is occupied by Andaman & Nicobar Islands with 761 females per 1000 males. Sex ratio for all India is 935. Among States and Union Territories Kerala alone has recorded more females than males while all other States and Union Territories have recorded less than 1000 females per 1000 males. Sex ratio recorded in Kerala is 1034 females per 1000 males. Sex ratio of neighbouring states of Punjab and Haryana though higher than Chandigarh is quite low as compared with the country's sex ratio.

LITERACY

A reference to Table-3 shows that amongst 450,061 persons, 291,091 are literates, while out of 254,208 males, 174,953 are literates and out of 195,853 females, 116,138 are literates. Observing literacy percentages we find that there is an over all improvement in literacy amongst persons, males and females which have risen to 64.68% for persons 68.82% for males and 59.30% for females in 1981 Census as against 61.56%, 66.97% and 54.35% respectively in 1971 Census. It is interesting to observe that position in Chandigarh urban agglomeration has remained static for males literacy during the decade while that of females has improved a lot. Literacy percentages of persons, males and females have been recorded lowest in Attawa town as compared with percentage of all other towns in this Union Territory. Percentages of literates in this town are even lower than that recorded for rural areas of the Union Territory. It is mainly due to concentration of market labour in this town who are by and large illiterates.

Growth in literacy rates recorded in 1971 Census as compared to 1961 Census were 20.5% for persons 17.54% for males and 29.52% for females. These rates recorded during 1981 over 1971 are 5.07% for persons 2.76% for males and 9.11% for females.

Chandigarh has lost its first position in General Literacy to Kerala which now occupies 1st rank. Chandigarh with 64.68% literates ranks 2nd closely followed by Delhi with 61.06% literates. Comparing male and female literate percentages separately also Chandigarh ranks 2nd in India. Fall in rank of Chandigarh is due to influx of unskilled labour from U.P., Bihar, Kerala etc. All India General Literacy percentage is 36.17 excluding Assam and Jammu & Kashmir. Literacy in neighbouring states is 35.84% for Haryana 40.74% for Punjab, 41.94% for Himachal Pradesh, 27.38% for Uttar Pradesh and 61.06% for Union Territory of Delhi.
