

CENSUS OF INDIA 1991

SERIES - 21

RAJASTHAN

PAPER 2 OF 1991

**PROVISIONAL POPULATION TOTALS
RURAL-URBAN DISTRIBUTION**

V.S. SISODIA

Director of Census Operations, Rajasthan

CONTENTS

PREFACE

It may be recalled that within a fortnight after the close of the census operations, Paper 1 of 1991 Census—“Provisional Population Totals” which presented some basic figures at the state and district levels was released by the Directorate on March 26, 1991.

In this publication which is a Supplement to Paper 1 of 1991, we seek to supplement the information brought out earlier. The data presented herein, as in the earlier publication, is also provisional and, therefore, subject to some variation at a later stage as a consequence of final tabulation which is likely to be completed some-time by the middle of 1992.

In this publication we have primarily given the distribution of population and literates by residence, growth of rural and urban population and besides all this; population and growth of individual urban centres during the decade. An attempt has also been made to analyse the trends in urbanisation, growth rates of our population at tehsil and individual town levels besides rural and urban composition of our population.

Since the publication of firm and final figures may take about a year or so, it is considered necessary and appropriate to release these provisional figures to meet the immediate demands of various government departments, semi-government institutions and research organisations.

We had originally envisaged presenting the provisional data relating to the distribution of main-workers and marginal workers in this paper itself. However, now we plan to present the same as a separate paper. Thus, in fact, the provisional population results for the 1991 Census will be presented in three separate volumes.

I take this opportunity to once again convey our profound gratefulness to the Government of Rajasthan and in particular to Shri V.B.L. Mathur, Chief Secretary for the invaluable help and cooperation rendered to the Directorate in organising the census operations successfully.

I am beholden to Shri A.R. Nanda, Registrar General, India who has always enthused us to the core and whose sustained support has stood us in good stead in organising and shaping the census work in all its phases. Our grateful thanks are also due to Shri N. Rama Rao, Deputy Registrar General, India and heads of various units in Registrar General's office for their willing and timely technical advise and administrative support to all of us.

Last but not the least, all the members of the Census and the Cartographic Sections, particularly, Shri R.C. Bhargava, Deputy Director-Technical, deserve a special mention, as but for the untiring effort they have put in, this volume would not have seen the light of the day.

JAIPUR

1

INTRODUCTION

The 1991 Census of India was conducted from 9th to 28th February 1991 with a revisional round from 1st to 5th March, 91. The reference date was sunrise of 1st March, 1991. After the count was completed the provisional results for the country and the states and union territories were announced on the 25th of March 1991 by the Registrar General, India through publication of Paper 1 of 1991. Subsequently, the provisional results for Rajasthan and its districts and larger cities were announced on 26th March, 1991.

In Paper 1 of 1991, the information pertaining to the size of the population and literates by sex, decadal variation in population, sex-ratio and the density of population was presented with a brief analysis of data. In this paper we are presenting the basic data relating to rural-urban distribution of population. We had originally envisaged presenting the provisional data relating to the distribution of main-workers and marginal workers, in this paper itself. However, it is now being felt that the nature and volume of the data available would be better presented as a separate paper. Thus, in fact, the provisional population results for the 1991 Census will be presented in three separate volumes.

The basic tables included in this paper can broadly be classified as : Population and literates by residence and sex; Proportion of urban population to total population and decennial growth rates and sex by residence; Population, growth rate and sex-ratio for individual towns and urban agglomerations; and Growth of urban population.

Attempt has also been made to study and analyse the trends in urbanization, growth rates, sex-ratios of the population at tehsil and town levels, besides, the rural and urban composition of population. The analytical note preceding the tables, it is hoped, will provide the necessary basis and backdrop for appreciating the detailed data presented in the form of tables. A few maps and charts depicting the data have also been included to help the readers to follow the demographic characteristics of our people.

The data on literacy presented in this paper do have certain limitations. In 1981 the children in age-group 0-4 were considered illiterates. However, in the 1991 Cen-

sus, at the instance of the Planning Commission and Department of Education in the Ministry of Human Resource Development, the children aged 6 years or less were considered as illiterates even if they would be going to school and might have picked-up reading and writing a few odd words. Because of this change in the concept of literacy, it will be difficult to make the data comparable with the past censuses. In Paper 1 of 1991, however, the literacy rate relating to population aged 7 years and above at the state level was published on the estimated population aged 7 years and above. Since these estimates are not available at the lower levels of districts, tehsils and towns and consequently for rural and urban areas, we are presenting only the absolute figures of literates in this volume at all levels. However, the literacy rates for these areas could be worked out when the population figures for the children in the age-group 0-6 are presented in the Primary Census Abstracts, after final tabulations.

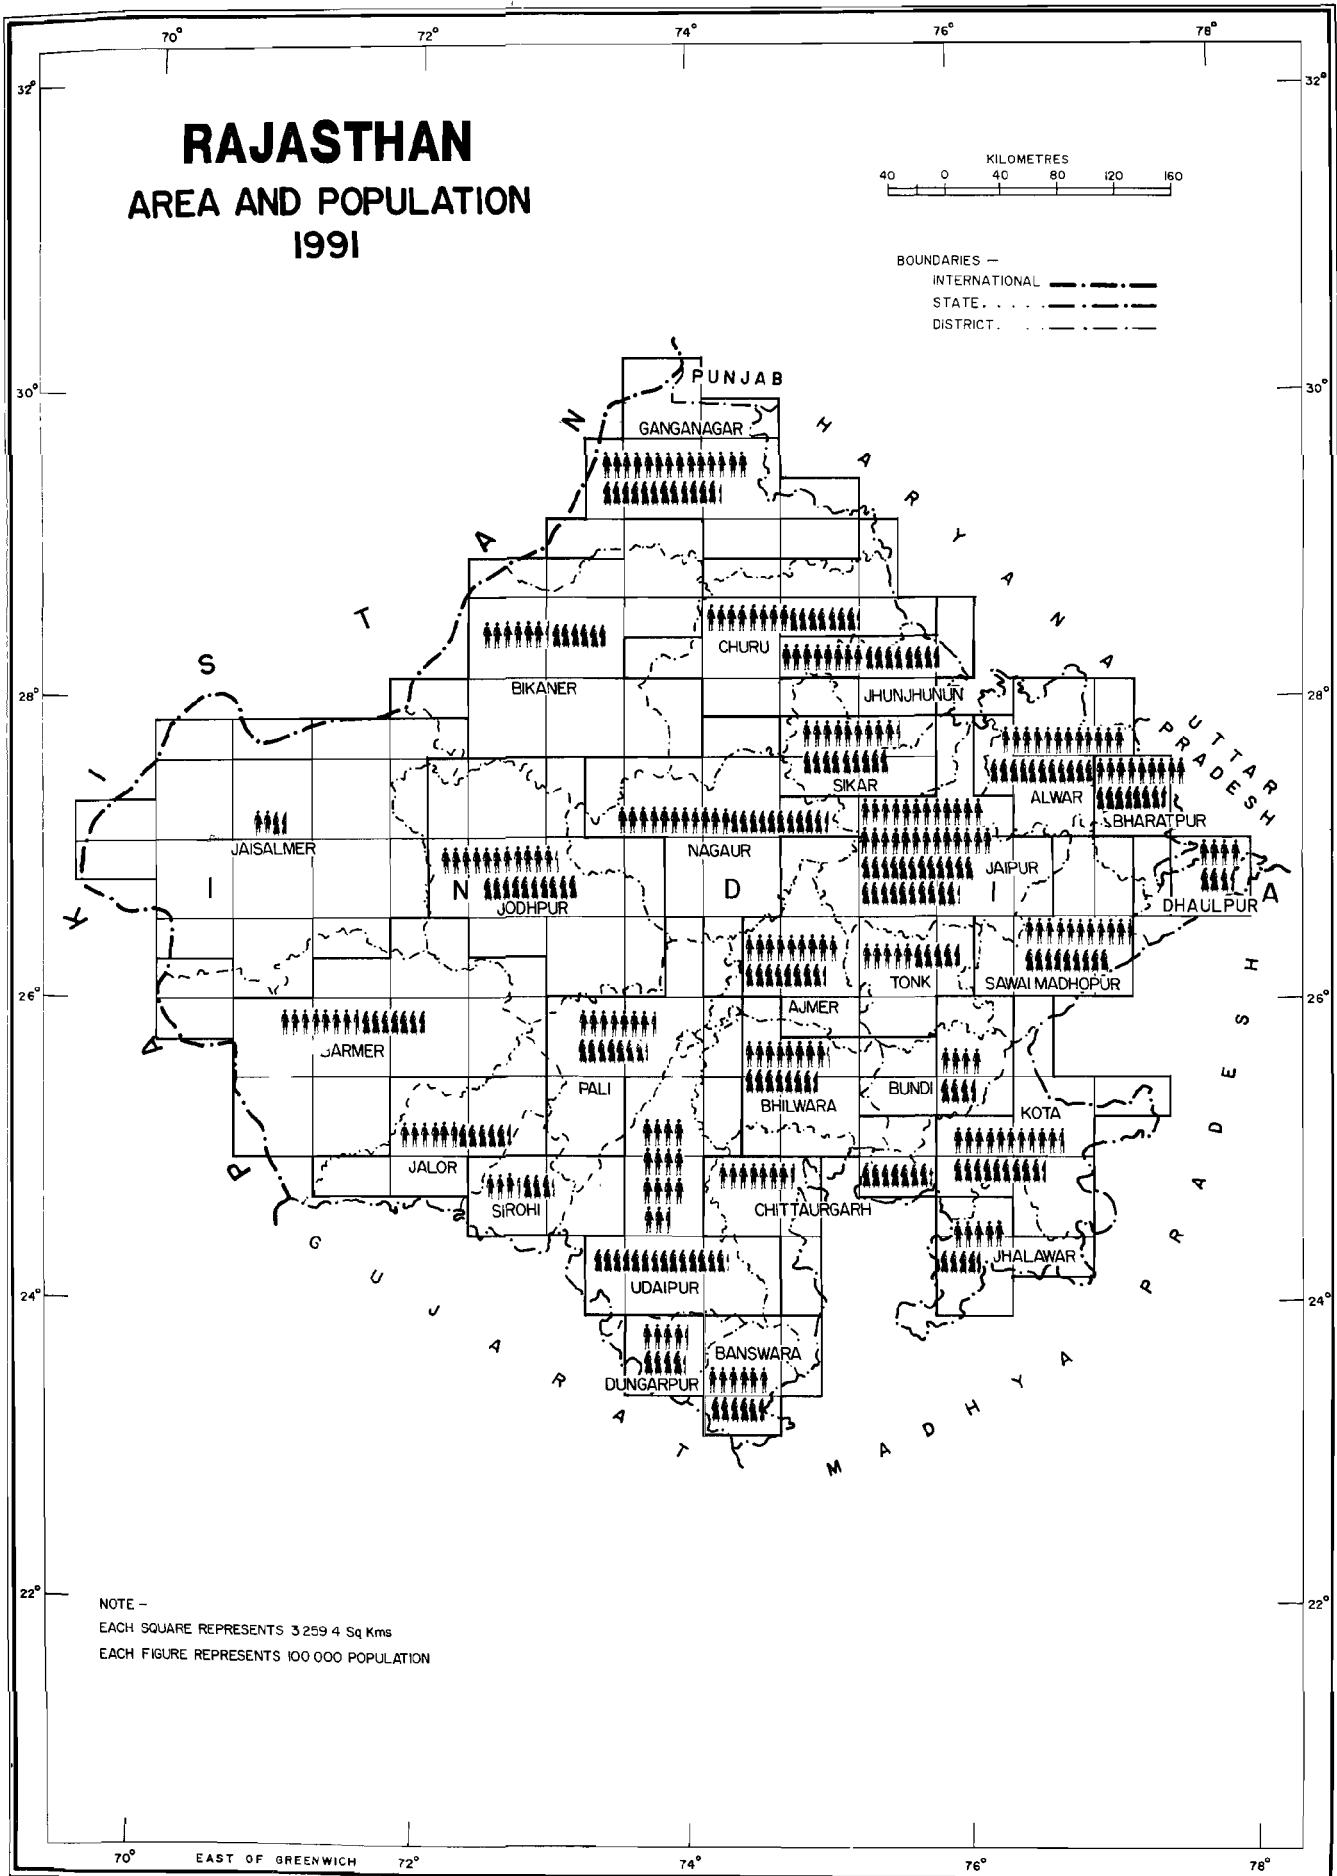

The figures contained in this paper are provisional and are bound to have certain inherent limitations, since these are based on quick tabulation. Some differences are bound to occur between these provisional figures and the final figures which are proposed to be made available after the census schedules are fully processed in the Regional Tabulation Offices set up for this purpose. Since it is likely to take at least a year or even more to finalise the primary census data, these provisional data are being brought out with the objective of placing before the data users the basic information on certain essential characteristics of population, at the earliest.

During the inter-censal period 1981-91, there have been quite a good number of inter-district and inter-tehsil jurisdictional changes. Since the data presented in this volume pertains to the jurisdiction of 1991 Census, it has become necessary to adjust the data of past censuses to the present jurisdiction. During the period 1981-91 inter-district transfer of area between Jaipur and Alwar districts, Bharatpur and Dholpur districts, and Bundi and Kota districts took place. On account of these inter-district transfers, certain adjustment of population have been made in order to make the 1991 census data comparable with the past censuses. This is brought out in the statement below, which gives the adjusted figures for the affected districts as per 1991 jurisdiction; separately for rural and urban areas.

STATEMENT 1

ADJUSTED FIGURES FOR THE DISTRICTS AFFECTED BY INTER-DISTRICT TRANSFER OF AREA AFTER 1981

Note: Details of inter-district transfer of area :-

1. 16 Villages of Behror tehsil of Alwar district transferred to Kotputli tehsil of Jaipur district.
2. New district Dholpur was constituted comprising tehsils of Dholpur, Rajakhera, Bari and Baseri which in 1981 were part of Bharatpur district. Consequently, the existing district of Bharatpur now comprise of Bharatpur, Bayana, Nadbai, Rupbas, Weir, Deeg, Kaman, Nagar, Pahari and Kumher tehsils. The later two tehsils have been created after 1981 Census.
3. 61 Villages and one Municipal Town Indragarh of Pipalda tehsil of Kota district transferred to Keshoraipatan tehsil of Bundi district.

After 1981 Census, 16 new tehsils were also created by various government notifications. The 1981 Census data for the tehsils from which these new tehsils have been created

has also been adjusted, wherever possible, to make the 1981 and 1991 data comparable for the affected tehsils. The details of new tehsils created after 1981 Census are as under :

STATEMENT 2

LIST OF NEW TEHSILS FORMED BETWEEN 1981 AND 1991

| District/Tehsil | Tehsil from which carved | Population | |
|-------------------|--------------------------|--------------------|-----------------------|

| | Dungarpur | 235,580 | 305,119 |
| | Sagwara | 182,647 | 233,797 |

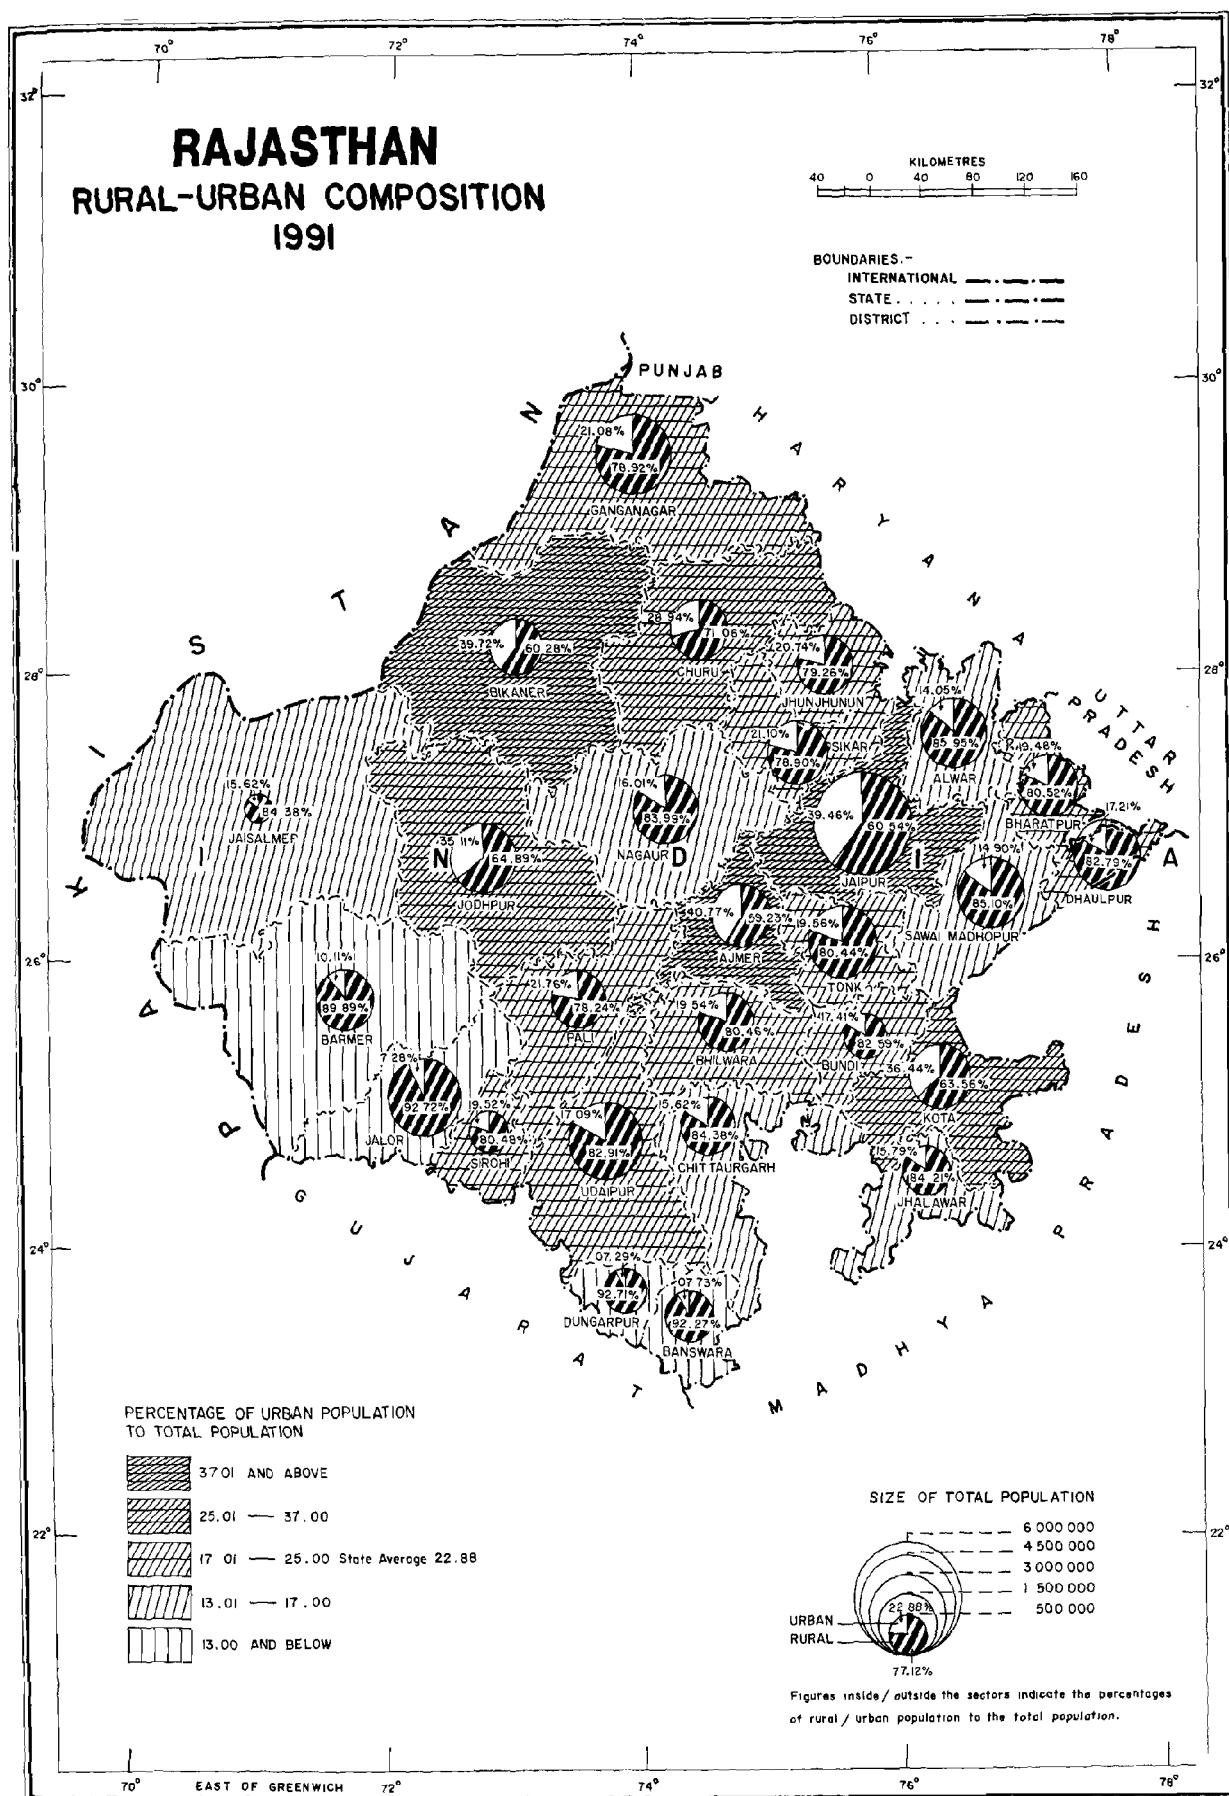

Note : Because of the large scale changes in the jurisdiction of villages/chaks in seven tehsils of Ganganagar district namely; Vijainagar, Gharsana, Anupgarh, Pilibanga, Suratgarh, Rawatsar and Nohar after 1981, the identity of the villages/chaks as reported during 1981 Census has been disturbed with the result it has not been possible to adjust the 1981 population figures as per the 1991 jurisdiction. It may still take some time to collect the required information. Hence for the present NA has been indicated in the above table.

In addition to above, minor territorial changes also took place in nine more tehsils after 1981 and the 1981 population of these tehsils has also been adjusted to make the data

comparable with 1991 jurisdiction. The details for these tehsils are as following :

STATEMENT 3
INTER-TEHSIL CHANGES AFTER 1981

| District | Tehsil | Population | |
|----------------|-----------------|--------------------|-----------------------|
| | | 1981 (Adjusted) | 1991 (Provisional) |
| 1 | 2 | 3 | 4 |
| AJMER | 1. Sarwar | 89,319 | 106,503 |
| | 2. Kekri | 195,343 | 226,130 |
| TONK | 1. Malpura | 139,276 | 171,423 |
| | 2. Tonk | 213,179 | 268,593 |
| | 3. Deoli | 124,985 | 152,121 |
| | 4. Todaraisingh | 92,002 | 108,305 |
| UDAIPUR | 1. Girwa | 433,851 | 556,409 |
| | 2. Kumbhalgarh | 99,821 | 112,538 |
| | 3. Gogunda | 105,512 | 122,502 |

their outgrowths have been considered as one urban unit called "Urban Agglomeration".

In Rajasthan following Urban Agglomerations have been declared for 1991 Census :

1. Hanumangarh UA (Ganganagar district) consisting of Hanumangarh Town and its outgrowths located in 1 K N J and 3 N W N villages.
2. Churu UA (Churu district) consisting of Churu Town and its outgrowth located in Churu revenue village.
3. Khetri UA (Jhunjhunun district) comprising Gothra Census Town and Khetri Town.
4. Pilani UA (Jhunjhunun district) comprising Pilani Town and Vidyavihar Town.
5. Alwar UA (Alwar district) consisting of Alwar city and its outgrowth located in Itarana village.
6. Bharatpur UA (Bharatpur district) comprising (i) Bharatpur city and its two outgrowths located in Jagheena and Shrinagar villages and (ii) Sewar Kalan Census Town.
7. Sawai Madhopur UA (Sawai Madhopur district) consisting of Sawai Madhopur Town and its outgrowth Sahunagar Cement Factory located in Chak Chainpura, Kutalpura Jatan and Bhuderda revenue villages.
8. Gangapur city UA (Sawai Madhopur district) consisting of Gangapur city Town and its three outgrowths namely Industrial Area and Office Complex; Railway Colony; and, RSEB Grid Station and College located in Udei Kalan, Saloda, Barh Saloda, Gangapur, Mahu Kalan, Mahu Khurd and Mirzapur revenue villages.
9. Jaipur UA (Jaipur district) constituted by Jaipur city, Sanganer town and Amber Notified Area Committee.
10. Bandikui UA (Jaipur district) consisting of Bandikui Town and its outgrowth (Railway Colony) located in Bandikui revenue village.
11. Beawar UA (Ajmer district) consisting of Beawar city and its outgrowth (Saket nagar colony) located in Nayanagar village.
12. Tonk UA (Tonk district) consisting of Tonk city and its two outgrowths located in Mehgaon and Tonk revenue villages.
13. Malpura UA (Tonk district) consisting of Malpura

town and its two outgrowths located in Brijlalnagar and Malpura revenue villages.

14. Phalodi UA (Jodhpur district) consisting of Phalodi town and its outgrowth located in Phalodi revenue village.
15. Makrana UA (Nagaur district) consisting of Makrana town and its outgrowth located in Makrana revenue village.
16. Abu Road UA (Sirohi district) consisting of Abu Road town and its outgrowth located in Santpur village.
17. Rewa Talai UA (Udaipur district) comprising Rewa Talai and Bhalariya Census Towns.
18. Banswara UA (Panswara district) consisting of Banswara Town and its outgrowth (Industrial Area) located in Bhawanpura and Thikariya villages.
19. Lakeri UA (Bundi district) comprising Lakeri Town and Indragarh Town.

Rural-Urban Composition of Population

More than 77 per cent of our population resides in the rural areas. The remaining lives in urban areas. The corresponding figures for the country as a whole are 74 and 26 per cent respectively. The bulk of the population at the district level in Rajasthan also resides in rural areas. The following statement presents the rural-urban composition of population in the various districts :

STATEMENT 4

RURAL-URBAN COMPOSITION OF POPULATION

| State/District | Percentage of Rural and Urban population to Total Population | |
|------------------|--|--------------|
| | Rural | Urban |
| 1 | 2 | 3 |
| RAJASTHAN | 77.12 | 22.88 |
| 1. Ganganagar | 78.92 | 21.08 |
| 2. Bikaner | 60.28 | 39.72 |
| 3. Churu | 71.06 | 28.94 |
| 4. Jhunjhunun | 79.26 | 20.74 |
| 5. Alwar | 85.95 | 14.05 |
| 6. Bharatpur | 80.52 | 19.48 |
| 7. Dholpur | 82.79 | 17.21 |
| 8. S. Madhopur | 85.10 | 14.90 |
| 9. Jaipur | 60.54 | 39.46 |
| 10. Sikar | 78.90 | 21.10 |
| 11. Ajmer | 59.23 | 40.77 |
| 12. Tonk | 80.44 | 19.56 |

| State/District | Percentage of Rural and Urban population to Total Population | |
|------------------|--|-------|
| | Rural | Urban |
| 1 | 2 | 3 |
| 13. Jaisalmer | 84.38 | 15.62 |
| 14. Jodhpur | 64.89 | 35.11 |
| 15. Nagaur | 83.99 | 16.01 |
| 16. Pali | 78.24 | 21.76 |
| 17. Barmer | 89.89 | 10.11 |
| 18. Jalor | 92.72 | 7.28 |
| 19. Sirohi | 80.48 | 19.52 |
| 20. Bhilwara | 80.46 | 19.54 |
| 21. Udaipur | 82.91 | 17.09 |
| 22. Chittaurgarh | 84.38 | 15.62 |
| 23. Dungarpur | 92.71 | 7.29 |
| 24. Banswara | 92.27 | 7.73 |
| 25. Bundi | 82.59 | 17.41 |
| 26. Kota | 63.56 | 36.44 |
| 27. Jhalawar | 84.21 | 15.79 |

Twenty one districts, it will be observed, have proportions of rural population even higher than the state average and of these the most notables are Jalor (92.72); Dungarpur (92.71); Banswara (92.27); Barmer (89.89); Alwar (85.95) and Sawai Madhopur (85.10). On the other hand, only 22.88 per cent of the population of Rajasthan lives in its urban areas. Six districts, however, exceed this State average where the proportions of urban population range between 28.94 to 40.77 per cent. Most notable of these districts are Ajmer (40.77), Bikaner (39.72) and Jaipur (39.46). The remaining twenty one districts have lower proportions of urban population than the State average and the range of variation of this proportion is from 7.28 per cent in Jalor district to 21.76 per cent in Pali district. The statement below shows the distribution of districts by various ranges of urbanisation :

STATEMENT 5

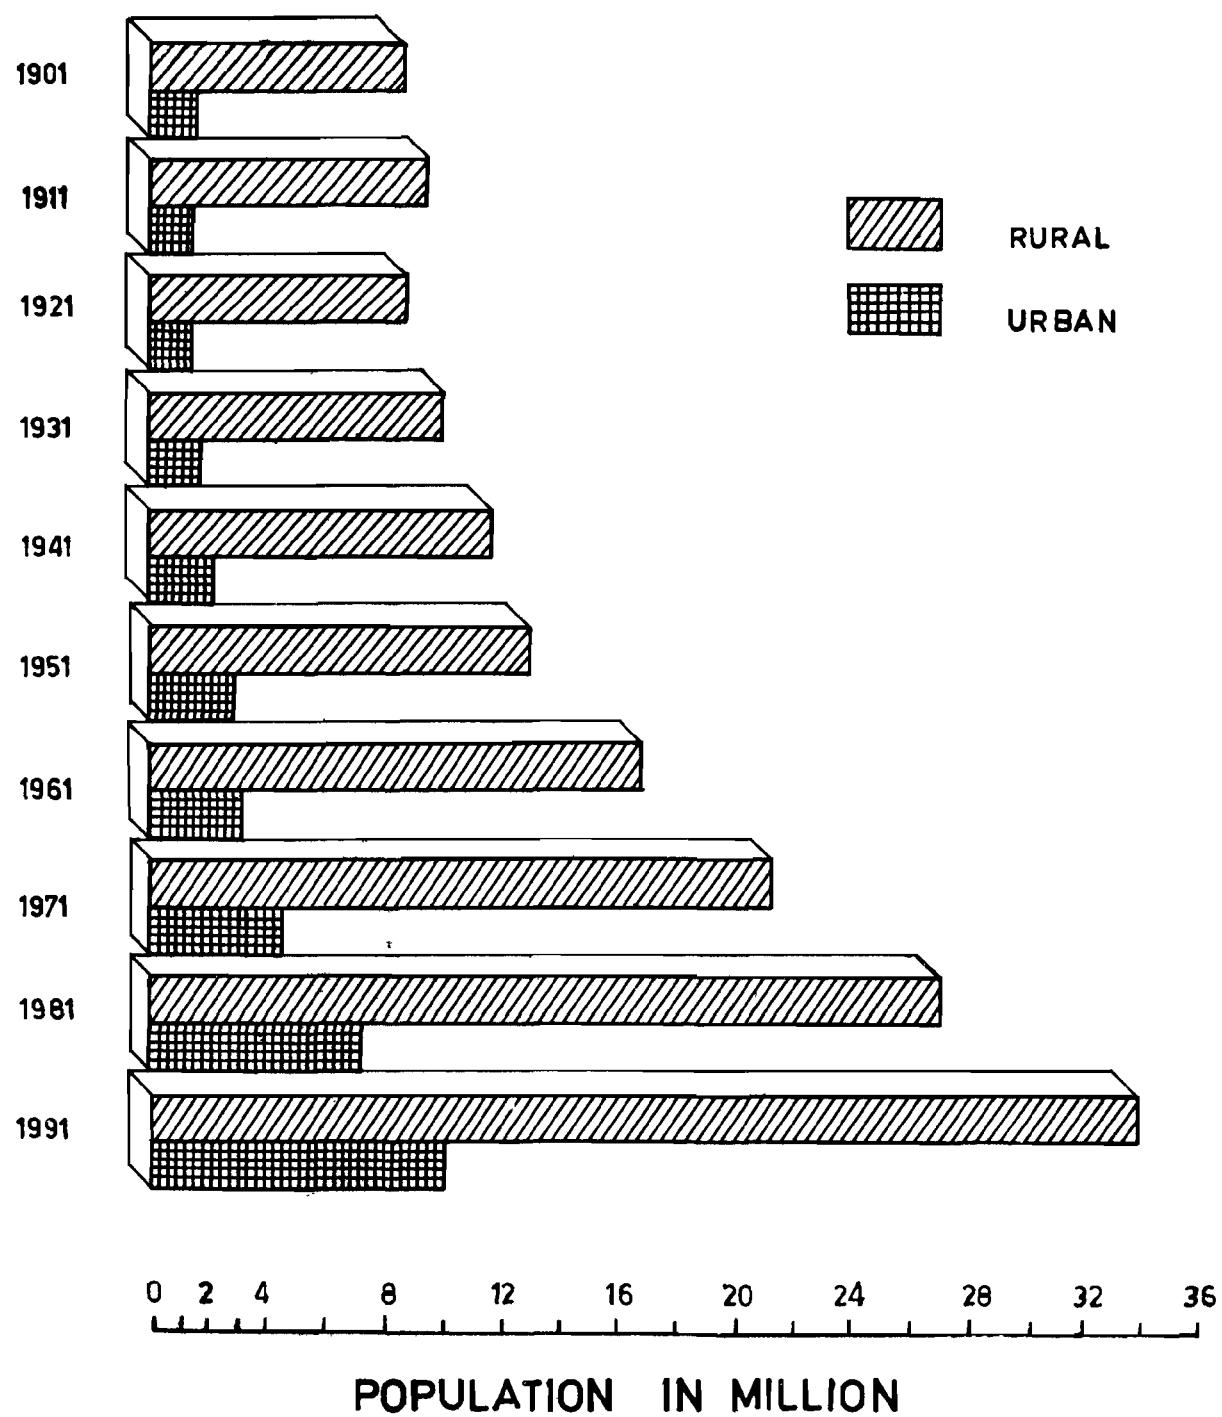

DISTRICTS BY PROPORTION OF URBAN POPULATION TO TOTAL POPULATION

| Exceeds the State average by 10 per cent and more | | Is within 10 per cent plus/minus range of the State average | | Is more than 10 per cent below the State average | |
|---|-------|---|-------|--|-------|
| 1. Ajmer | 40.77 | 1. Churu | 28.94 | 1. Barmer | 10.11 |
| 2. Bikaner | 39.72 | 2. Pali | 21.76 | 2. Banswara | 7.73 |
| 3. Jaipur | 39.46 | 3. Sikar | 21.10 | 3. Dungarpur | 7.29 |
| 4. Kota | 36.44 | 4. Ganganagar | 21.08 | 4. Jalor | 7.28 |
| 5. Jodhpur | 35.11 | 5. Jhunjhunun | 20.74 | | |
| | | 6. Tonk | 19.56 | | |
| | | 7. Bhilwara | 19.54 | | |
| | | 8. Sirohi | 19.52 | | |
| | | 9. Bharatpur | 19.48 | | |
| | | 10. Bundi | 17.41 | | |
| | | 11. Dholpur | 17.21 | | |
| | | 12. Udaipur | 17.09 | | |
| | | 13. Nagaur | 16.01 | | |
| | | 14. Jhalawar | 15.79 | | |
| | | 15. Chittaurgarh | 15.62 | | |
| | | 16. Jaisalmer | 15.62 | | |
| | | 17. S. Madhopur | 14.90 | | |
| | | 18. Alwar | 14.05 | | |

As many as eighteen districts fall in the range where the proportion of urban population to total population is within 10 per cent plus/minus of the State average (22.88), ranging from 28.94 per cent in Churu district to 14.05 per cent in Alwar district. Five districts have

proportions exceeding the State average by 10 per cent or more ranging from 35.11 per cent in Jodhpur district to 40.77 per cent in Ajmer district. The remaining four have proportions more than 10 per cent below the State average.

RAJASTHAN RURAL URBAN COMPOSITION 1901-91

Rural Urban Composition at Tehsil Level

Down at the tehsil level, we find that 22 tehsils have proportion of urban population to total population exceeding the state average (22.88) by 10 per cent or above and 49 tehsils have proportions more than 10 per cent below the state average. The bulk of the tehsils, 87 in number, belong to the category of those which have a proportion of urban population to total population which is within 10 per cent plus/minus of state average. The remaining 55 tehsils are entirely rural. The statement below details the tehsils (names of their districts shown in capitals) falling in the various ranges of urbanisation :

Range 1 : Tehsils where proportion of urban population to total population exceeds the state average (22.88) by 10 per cent or more :

GANGANAGAR-Ganganagar (46.84); BIKANER - Bikaner (65.75); CHURU-Churu (42.85), Ratangarh (37.37), Sujangarh (36.03); ALWAR-Alwar (48.80); BHARATPUR-Bharatpur (54.09); JAIPUR -Jaipur (93.39); SIKAR-Fatehpur (42.12), Sikar (34.79); AJMER-Ajmer (64.18), Nasirabad (36.14), Beawar (34.09); TONK-Tonk (37.30); JODHPUR-Jodhpur (70.10); PALI-Pali (41.60); SIROHI-Abu Road (40.72); BHILWARA-Bhilwara (58.66); UDAIPUR-Girwa(55.30); CHITTAURGARH-Chittaurgarh (34.58); KOTA-Ladpura (83.56), Baran (41.66).

Range 2 : Tehsils where proportion of urban population to total population is within 10 per cent plus/minus of the state average (22.88) :

GANGANAGAR-Hanumangarh (29.37), Karanpur (24.55), Suratgarh (22.62), Sangaria (21.51), Pilibanga (18.26), Anupgarh (17.17), Rawatgarh (16.82), Padampur (16.74), Nohar (15.37), Raisinghnagar (15.10), Vijainagar (14.73), Sadulshahar (14.22), Bhadia (13.79); BIKANER-Nokha (14.69); CHURU-Sardarshahar (28.04), Dungargarh (21.49), Rajgarh (16.52), Taranagar (14.80), JHUNJHUNUN-Jhunjhunun (30.66), Nawalgarh (27.00), Chirawa (22.78), ALWAR-Tijara (16.94); BHARATPUR-Deeg (21.38), Kaman (20.46); Weir (15.5); Bayana (14.93); DHOLPUR-Bari (24.24), Rajakhera (21.08), Dholpur (20.49); SAWAI MADHOPUR-Gangapur (32.07), Sawai Madhopur (29.07), Hindaun (23.71), Karauli (18.68); JAIPUR-Phulera (26.77), Sanganer (24.41), Shahpura (21.51), Dausa (15.67), Chomu (15.46); Baswa (14.89), Chaksu (13.59), Viratnagar (12.96); SIKAR-Lachhmangarh (19.01), Sri Madhopur (15.33); AJMER-Kishangarh (31.87); TONK-Todaraisingh (16.28), Niwai (14.29), Malpura (13.79); JAISALMER-Jaisalmer (20.64); JODHPUR-Bilara (29.50), Phalodi (12.96);

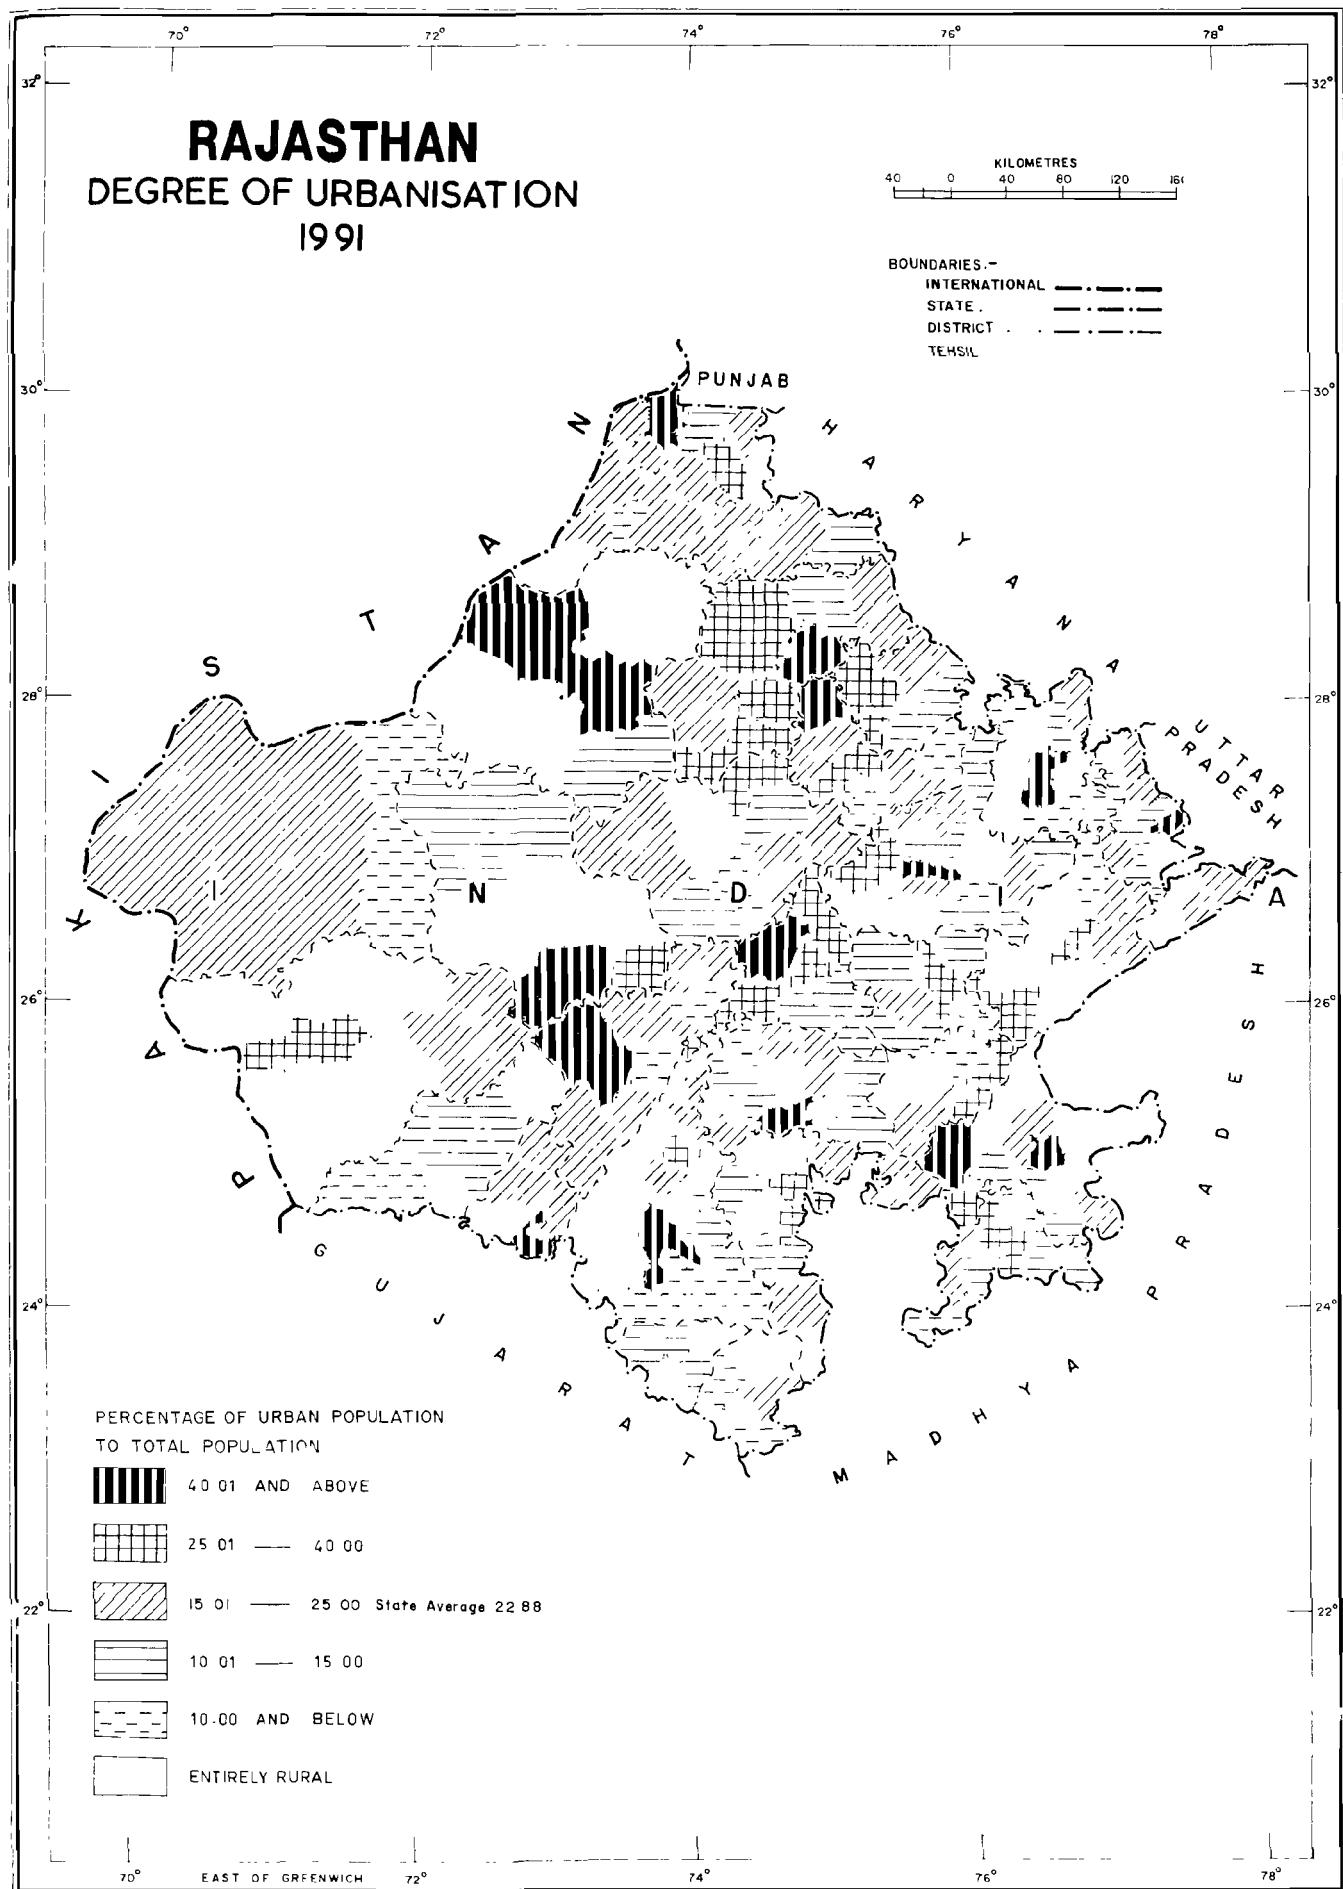

NAGAUR-Ladnu (28.04), Nagaur (22.24), Parbatsar (20.50), Nawa (19.89); PALI-Sojat (22.97), Bali (19.77), Jaitaran (17.74), Desuri (16.76); BARMER-Barmer (25.72), Pachpadra (19.64), Siwana (17.58); SIROHI-Sirohi (21.00), Sheoganj (19.92), Pindwara (15.95); BHILWARA-Hurda (20.89), Shahpura (16.40), Sahara (15.25), Mandaigarh (14.30); UDAIPUR-Rajsamand (26.36), Deogarh (17.93), Amet (16.96), Nathdwara (15.90), Vallabhnagar (13.33); CHITTAURGARH-Nimbahera (27.65), Begun (23.01), Pratapgarh (15.60), Bari Sadri (14.76), Chhoti Sadri (14.69); BANSWARA-Banswara (24.67); BUNDI-Keshoraipatan (27.59), Bundi (23.38); KOTA-Ramganj Mandi (28.38), Mangrol (22.33), Chhabra (16.73); JHALAWAR-Jhalrapatan (26.63), Pachpahar (24.31), Pirawa (13.90).

Range 3 : Tehsils where proportion of urban population to total population is more than 10 per cent below the state average (22.88):

JHUNJHUNUN-Udaipurwati (10.61), Khetri (10.59); ALWAR-Kishangarh Bas (10.51), Rajgarh (8.52), Behror (6.49), Lachhmangarh (5.74); BHARATPUR-Nadbai (11.85), Kumher (11.27), Nagar (10.87); SAWAI MADHOPUR-Todabhim (9.80), Mahwa (8.21); JAIPUR-Kotputli (12.09), Amber (10.22), Lalsot (10.11), Bassi (8.66); SIKAR-Neem ka thana (8.12), Danta Ramgarh (6.86); AJMER-Sarwar (11.56), Kekri (11.31); TONK-Deoli (11.03), Uniara (8.21); JAISALMER-Pokaran (9.55); NAGAUR-Didwana (12.83), Merta (11.98), Degana (3.32); PALI-Raipur (8.71), Marwar Junction (5.87); JALOR-Jalor (11.99), Bhinmal (10.82), Sanchore (6.75); BHILWARA-Mandal (10.28), Jahazpur (10.17), Asind (6.64); UDAIPUR-Mavli (9.11), Salumber (7.97), Sarada (7.78), Dhariawad (5.35), Kherwara (3.60); CHITTAURGARH-Kapanan (10.48); DUNGARPUR-Sagwara (12.03), Dungarpur (11.67); BANSWARA-Garhi (4.79), Kushalgarh (4.36); BUNDI-Nainwa (9.09); KOTA-Chhipabardon (11.63), Sangod (11.30); JHALAWAR-Aklera (10.60), Khanpur (8.30), Gangdhar (5.26).

Tehsils which are entirely rural :

GANGANAGAR-Tibi, Gharsana; BIKANER-Lunkaransar, Kolayat; ALWAR-Mandawar, Bansur, Ramgarh, Thanagazi; BHARATPUR-Pahari, Rupbas; DHOLPUR-Baseri; SAWAI MADHOPUR-Nadoti, Bamanwas, Sapota, Bonli, Khandar; JAIPUR-Dudu, Phagi, Jamwa Ramgarh, Sikrai; JODHPUR-Osian, Bhopalgarh, Shergarh; NAGAUR-Jayal; BARMER-Sheo, Baytoo, Chohtan, Guda Malani; JALOR-Ahore, Raniwara; SIROHI-Reodar; BHILWARA-Banera, Raipur, Kotri; UDAIPUR-Bhim, Kumbhalgarh, Railmagra, Gogunda, Kotra, Jhadol; CHITTAURGARH-Rashmi, Gangrar, Dungla, Bhadesar, Arnod; DUNGARPUR-Aspur, Simalwara;

BANSWARA-Ghatol, Bagidora; BUNDI-Hindoli; KOTA-Pipalda, Digod, Kishanganj, Shahbad, Atru.

It will be observed that in the group of tehsils having proportion of urban population to total population exceeding the state average by 10 per cent or more, the range of variation is very high from 34.09 in Beawar to 93.39 per cent in Jaipur tehsil. The range of proportions in the group having proportions of urban population to total population more than 10 per cent below the state average is from 3.32 in Degana to 12.83 per cent in Didwana tehsil. In tehsils having such proportions within 10 per cent plus/minus of the state average, the range of variation is from 12.96 in Phalodi and Viratnagar tehsils to 32.07 per cent in Gangapur tehsil.

As stated earlier, the population is classified into two mutually exclusive terms of urban and rural. Of the total population in the state, a majority (77.12 per cent) lives in 37,890 inhabited villages. Among the districts, the highest number of 4,437 inhabited villages is found in Ganganagar district followed by 3179 in Udaipur and 2,991 in Jaipur districts. The lowest number of inhabited villages i.e.; 447 are found in Sirohi district. The statement below gives an idea of the variation in the number of inhabited villages in each district from census to census since 1951 :

STATEMENT 6

NUMBER OF INHABITED VILLAGES AT EACH CENSUS 1951-1991

| State/District | 1991 | 1981 | 1971 | 1961 | 1951 |
|-------------------|---------------|---------------|---------------|---------------|---------------|

| 15. Nagaur | 1,373 | 1,223 | 1,216 | 1,199 | 1,188 |
| 16. Pali | 904 | 818 | 824 | 826 | 843 |
| 17. Barmer | 1,625 | 853 | 837 | 822 | 808 |
| 18. Jalor | 665 | 602 | 595 | 591 | 609 |
| 19. Sirohi | 447 | 433 | 423 | 417 | 416 |
| 20. Bhilwara | 1,566 | 1,512 | 1,508 | 1,500 | 1,449 |
| 21. Udaipur | 3,179 | 3,117 | 3,116 | 3,159 | 2,997 |
| 22. Chittaurgarh | 2,171 | 2,144 | 2,123 | 2,025 | 2,052 |
| 23. Dungarpur | 846 | 832 | 825 | 816 | 807 |
| 24. Banswara | 1,431 | 1,445 | 1,439 | 1,426 | 1,392 |
| 25. Bundi | 826 | 725 | 729 | 718 | 723 |
| 26. Kota | 1,881 | 1,901 | 1,905 | 1,860 | 1,854 |
| 27. Jhalawar | 1,448 | 1,444 | 1,441 | 1,423 | 1,415 |

It will be observed that there has been a decline in the number of inhabited villages in two districts namely Banswara and Kota between 1981-91, while others have returned a rising trend. Similar variations which are observed during previous censuses also, may be due to the following reasons:

- (a) Consequent upon extension in the municipal limits the neighbouring villages were fully merged in the core town by government notification(s) and were, therefore, deleted from the rural frame (village lists).
- (b) Places treated as villages in a particular census were declared towns before the next census thus calling for their omission from the rural frame.
- (c) In a few cases small villages were merged with the large size neighbouring villages by government notification.
- (d) Some villages were transferred to neighbouring districts on account of inter-district transfers under government notifications.

It will be interesting to look at the trends of growth of rural population from 1901 onwards. The following statement sketches the progress in rural population of the state and its districts between 1901 and 1991. For the sake of easy comparison the indices of the figures included in the statement taking 1901 as base are given in brackets :

STATEMENT 7

PROGRESS IN RURAL POPULATION OF STATE/DISTRICT, 1901-1991

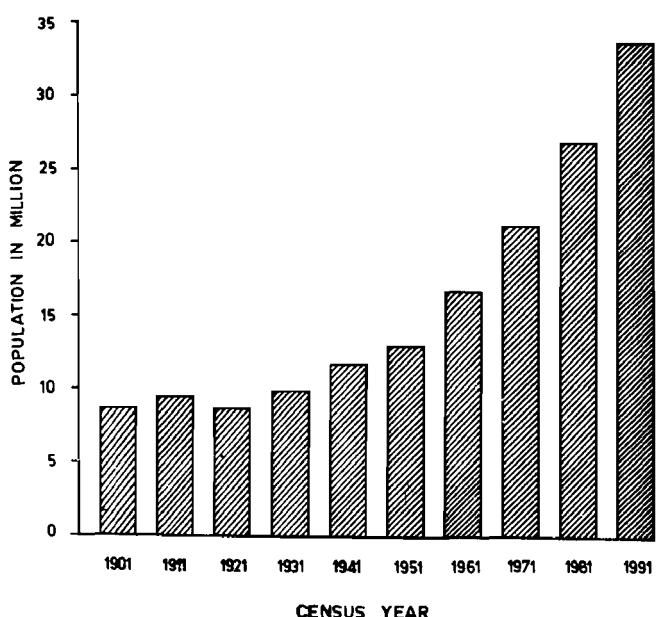

| State/District | 1991 | 1981 | 1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |

| 24. Banswara | 1,065,726 (673) | 831,413 (525) | 621,382 (393) | 450,415 (285) | 336,874 (213) | 283,621 (179) | 267,157 (156) | 208,205 (132) | 177,209 (112) | 158,312 (100) |
| 25. Bundi | 634,449 (408) | 508,031 (327) | 399,590 (257) | 298,920 (192) | 242,079 (156) | 225,318 (145) | 194,424 (125) | 169,865 (109) | 203,510 (131) | 155,442 (100) |
| 26. Kota | 1,288,522 (326) | 2,040,812 (263) | 850,940 (215) | 674,397 (170) | 547,971 (138) | 545,343 (138) | 486,877 (123) | 456,762 (115) | 468,780 (118) | 395,753 (100) |
| 27. Jhalawar | 804,668 (361) | 693,482 (311) | 564,958 (253) | 454,328 (204) | 355,781 (160) | 346,375 (155) | 303,967 (136) | 274,415 (123) | 273,792 (123) | 222,955 (100) |

It would be noticed from the statement that the rate of growth of the rural population is not as high as that of urban population. Even so, in the past ninety years the rural folks have multiplied little less than four times from 1901 base of 87 lacs to 338 lac souls. While nearly 43 lac persons were added in the rural population during the first fifty years (1901-51), the net increase in the last ninety years has been to the extent of 251 lacs. In the past ten years alone about 67.9 lac new arrivals joined the rural population, out-numbering the figures added during first fifty years of the present century. The trend is noticeable in all censuses except that of 1921 both at the state and district level.

At the district level the highest and the fastest growth has been recorded in Ganganagar district where the rural population has multiplied fifteen times during the past ninety years. The other districts which have registered faster growth than the state average are Bikaner, Churu, Jhunjhunu, Jaisalmer, Jodhpur, Barmer, Jalore, Bhilwara, Udaipur, Chittaurgarh, Dungarpur, Banswara and Bundi. On the other hand, Alwar, Bharatpur, Dholpur, Jaipur and Ajmer districts have proved rather slow growing as compared to other districts.

**RAJASTHAN
GROWTH OF RURAL POPULATION
1901-1991**

The Urban Population

There are in all 222 places which have been considered as

towns for the 1991 census and fourteen of these places have outgrown beyond their statutory municipal limits into their neighbouring rural areas which have acquired urban characteristics. While thirteen of such places relate only to single core towns, one refers to a case of two adjoining towns (Bharatpur municipal town and Sewar Kalan Census town) and the outgrowths of Bharatpur town. These cases of continuous urban spread have been called Urban Agglomeration as explained earlier. Besides, these we have five cases where neighbouring cities and towns have got themselves mixed up through the process of continuous urban spread. They relate to Khetri town which has combined with Gothra Census Town; Pilani which has combined with Vidyavihar; Jaipur city which has combined with Amber and Sanganer; Rewa Talai (CT)

which has combined with Bhalariya (CT) and Lakeri which is mixed up with Indragarh township.

Simply for the purposes of observing the progress in the number of towns and the urban population between 1901-91, all the constituents of urban agglomeration in 1991 which were also regarded as separate towns in any of the previous censuses have been treated as separate unit. For ascertaining the number of towns in a particular census year, those which were declassified and not treated as urban in a particular year have been excluded from reckoning in that year while other declared towns have been added in that particular census year. The following statement indicates the progress in urban population and the number of towns between 1901 and 1991:

STATEMENT 8

PROGRESS IN URBAN POPULATION OF STATE/DISTRICT, 1901-1991

| State/District | 1991 | 1981 | 1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |

| 27. Jhalawar | 150,842 (9) | 91,516 (6) | 58,805 (5) | 37,544 (4) | 49,255 (9) | 28,221 (4) | 26,173 (4) | 25,202 (4) | 27,657 (4) | 30,696 (4) |

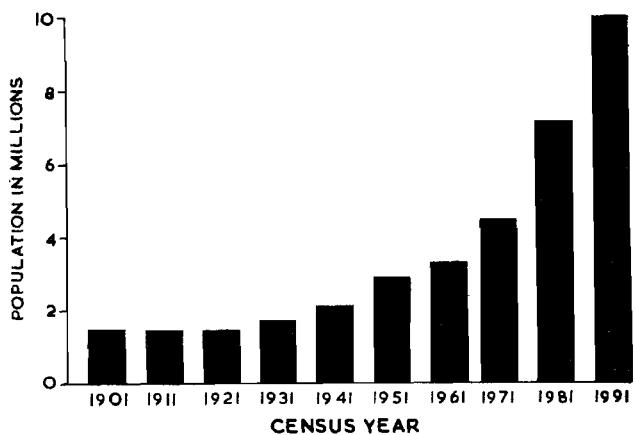

From the statement, it would be observed that of the 222 urban units as many as 135 existed in 1901 also and their number rose to 201 in 1981. Thus there is an addition of 87 towns during the past 90 years. All the districts except Jodhpur and Jaisalmer have contributed to this increase. In 1901, there were six towns in Jodhpur district while it has only four now. Jaisalmer is the only district in the state which continues to have only two towns since 1901, whereas Dholpur district has the same number of towns in 1901 and 1991. Ganganagar district has registered a phenomenal growth with number of towns going up from 2 in 1901 to 16 in 1991.

On the whole there has been a steady growth of towns upto 1951 census. In 1961, however, there was a sharp fall in their numbers at the state level as well as in all the districts except Churu, Jaisalmer, Nagaur and Banswara wherein the number remained constant. This is mainly due to the applicability of a rigid and uniform definition of an urban area in 1961 census.

It is further revealed that the urban population is growing at phenomenal pace as compared to rural population. During the past ninety years it has multiplied more than six and a half times from about 15.5 lacs in 1901 to 100.4 lacs in 1991. Interestingly, the net addition of 71 lacs recorded

during the last 40 years is more than five times of the net increase of 14 lacs registered in the urban population in the first half of the century. In the past decade alone nearly 28.3 lacs more persons found themselves merged in the stream of urban population.

RAJASTHAN GROWTH OF URBAN POPULATION 1901-91

The following statement gives the indices of the figures of urban population included in the above statement taking 1901 as base for easy comparison :

STATEMENT 9

INDICES OF GROWTH IN URBAN POPULATION OF DISTRICTS 1901-1991 (1901=100)

| State/District | 1991 | 1981 | 1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |
|------------------|------------|------------|------------|------------|------------|------------|------------|-----------|-----------|------------|

| 12. Tonk | 328 | 248 | 188 | 127 | 125 | 113 | 103 | 89 | 102 | 100 |
| 13. Jaisalmer | 376 | 231 | 171 | 96 | 92 | 82 | 82 | 65 | 93 | 100 |
| 14. Jodhpur | 656 | 509 | 323 | 233 | 196 | 148 | 114 | 91 | 101 | 100 |

| State/District | 1991 | 1981 | 1971 | 1961 | 1951 | 1941 | 1931 | 1921 | 1911 | 1901 |
|------------------|-------|------|------|------|------|------|------|------|------|------|
| 15. Nagaur | 568 | 394 | 257 | 200 | 165 | 132 | 117 | 92 | 95 | 100 |
| 16. Pali | 739 | 537 | 248 | 176 | 206 | 126 | 98 | 86 | 98 | 100 |
| 17. Barmer | 1,008 | 683 | 391 | 276 | 228 | 153 | 113 | 97 | 97 | 100 |
| 18. Jalore | 693 | 607 | 246 | 206 | 234 | 129 | 110 | 94 | 107 | 100 |
| 19. Sirohi | 546 | 415 | 324 | 247 | 192 | 127 | 117 | 100 | 103 | 100 |
| 20. Bhilwara | 988 | 599 | 369 | 202 | 214 | 126 | 105 | 94 | 94 | 100 |
| 21. Udaipur | 675 | 486 | 304 | 219 | 203 | 122 | 97 | 82 | 77 | 100 |
| 22. Chittaurgarh | 734 | 515 | 310 | 215 | 200 | 166 | 128 | 98 | 92 | 100 |
| 23. Dungarpur | 1,046 | 724 | 513 | 351 | 357 | 314 | 289 | 281 | 244 | 100 |
| 24. Banswara | 1,268 | 784 | 472 | 353 | 280 | 231 | 192 | 161 | 146 | 100 |
| 25. Bundi | 561 | 437 | 286 | 228 | 210 | 147 | 135 | 110 | 103 | 100 |
| 26. Kota | 1,278 | 855 | 471 | 272 | 190 | 136 | 112 | 97 | 102 | 100 |
| 27. Jhalawar | 491 | 298 | 192 | 122 | 160 | 92 | 85 | 82 | 90 | 100 |

It would be noticed from the above statement that at district level the highest and the fastest growth has been recorded in Ganganagar district where the urban population has multiplied about seventy eight times during the past ninety years. The other districts which have registered faster growth than the state average are Bikaner, Churu,

Jaipur, Jodhpur, Pali, Barmer, Jalore, Bhilwara, Udaipur, Chittaurgarh, Dungarpur, Banswara and Kota. Tonk district, on the other hand, has proved rather slow growing with its urban population having merely tripled during the last ninety years. Tonk is closely followed by Bharatpur, Alwar, Dholpur and Jaisalmer districts in this regard.

3

DECADAL GROWTH OF POPULATION

We in Rajasthan have grown with a rapid rate in the past ninety years. We were about 103 lacs in 1901 and now we are around 438.8 lacs and thus we have multiplied more than four times during this period. If we look at the history of our growth we find that almost whatever we had as a net addition in our numbers during 1901–11 was offset by the deletion from the population of an equal number during 1911–21 on account of disease and war. We, however, added about 14.6 lac in the next decade 1921–31; 21.2 lac in 1931–41; and 21 lac again in 1941–51. The inter-censal period 1951–61, which followed, gave an addition of 41.8 lac of people to our population. This trend is still continuing and an all time high figure of 96.2 lac of person was added during 1981–91. The last forty years have, thus, been very crucial and have contributed the largest share to our growth during these past ninety years. This is strikingly brought out by the fact that while the population of Rajasthan has increased by about 336 lacs during 1901–91, only about 57 lacs were added during the first fifty years of the present century and the remaining 279 lacs were added during the past forty years. Of this, the past ten years alone yielded a net addition of about 96 lac persons. This additional component is nearly 39 lacs more than the net recorded increase over the first fifty years from 1901–51. The statement below indicates the additions made during the first fifty years and last forty years to the population of various districts of Rajasthan.

STATEMENT 10

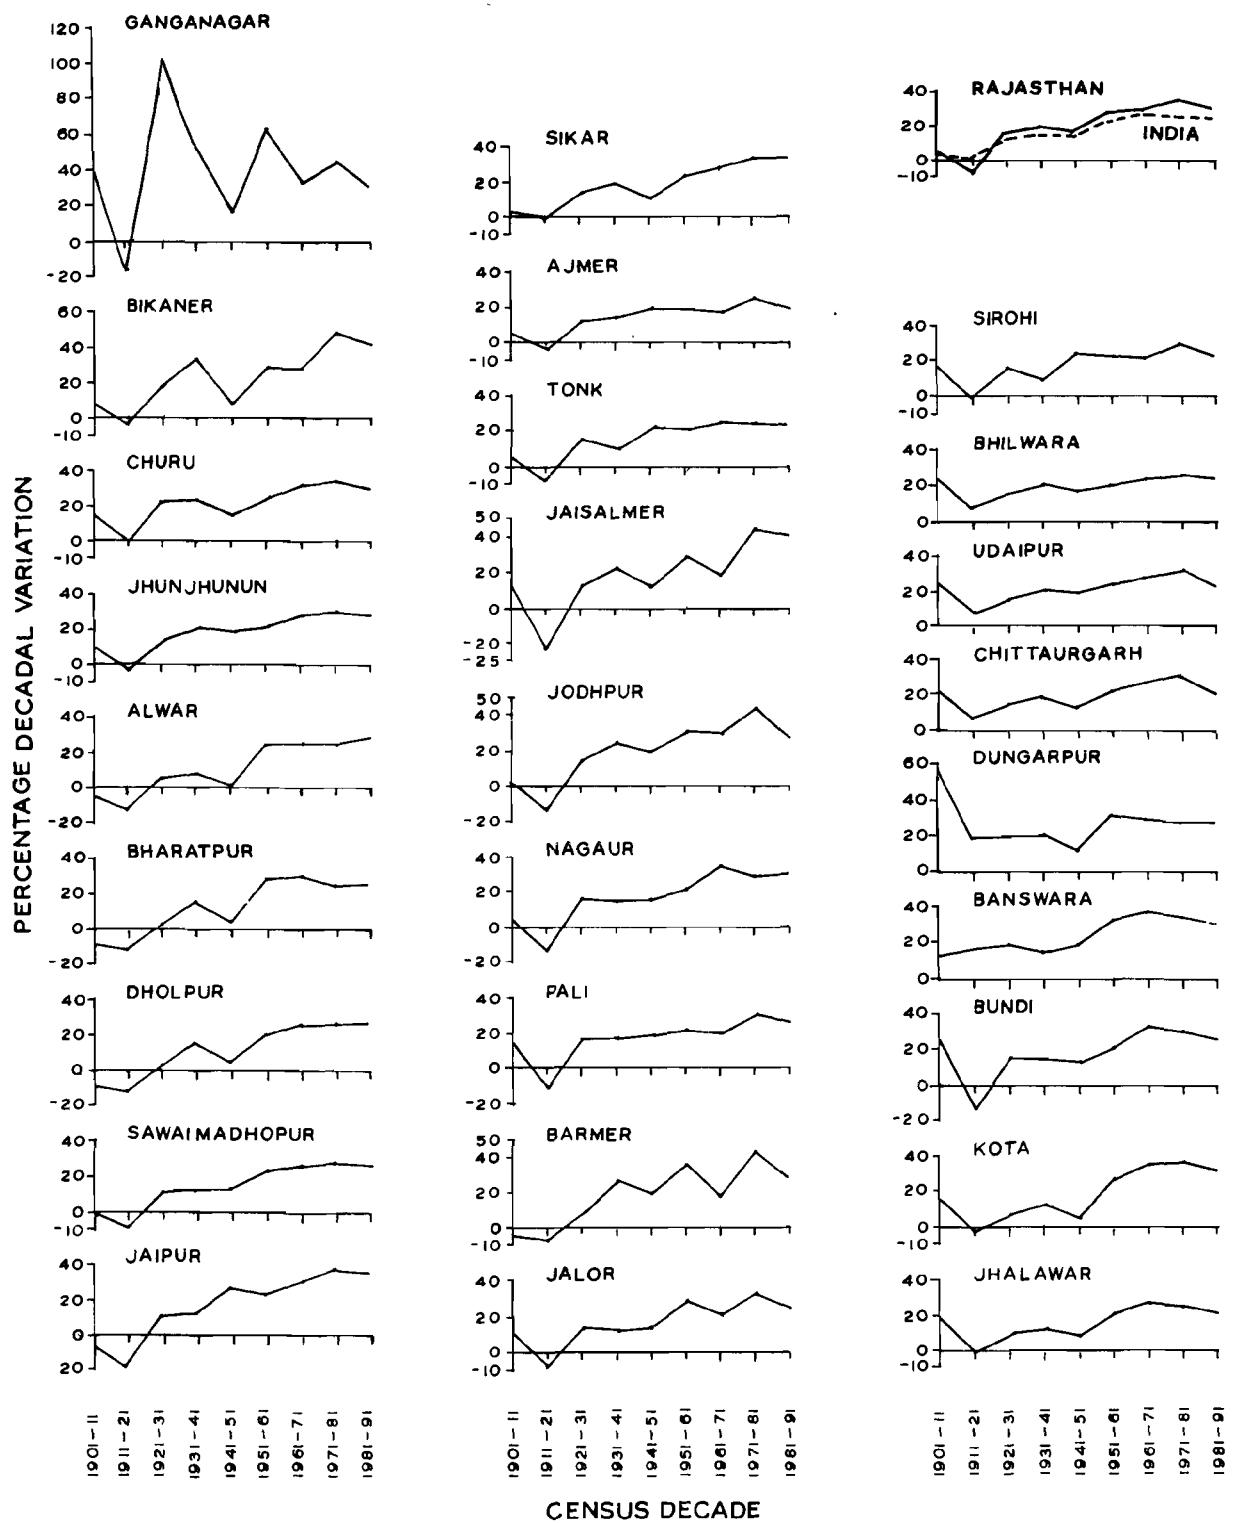

ADDITION IN POPULATION SINCE 1901

| State/District | Addition to Population | |
|------------------|------------------------|-------------------|
| | 1901–1951 | 1951–1991 |
| 1 | 2 | 3 |
| RAJASTHAN | 5,676,684 | 27,909,866 |
| 1. Ganganagar | 486,688 | 1,988,784 |
| 2. Bikaner | 152,634 | 866,016 |
| 3. Churu | 263,464 | 1,015,820 |
| 4. Jhunjhunu | 247,164 | 976,752 |
| 5. Alwar | 10,505 | 1,424,708 |
| 6. Bharatpur | 7,164 | 1,041,225 |

| State/District | Addition to Population | |
|-------------------|------------------------|-----------|
| | 1901–1951 | 1951–1991 |
| 1 | 2 | 3 |
| 7. Dholpur | 3,576 | 446,203 |
| 8. Sawai Madhopur | 150,090 | 1,188,635 |
| 9. Jaipur | 311,681 | 3,194,764 |
| 10. Sikar | 209,694 | 1,160,254 |
| 11. Ajmer | 292,162 | 903,104 |
| 12. Tonk | 146,120 | 566,197 |
| 13. Jaisalmer | 34,107 | 233,990 |
| 14. Jodhpur | 247,648 | 1,455,443 |
| 15. Nagaur | 239,612 | 1,373,429 |
| 16. Pali | 267,019 | 823,835 |
| 17. Barmer | 164,180 | 956,069 |
| 18. Jalore | 152,190 | 718,051 |
| 19. Sirohi | 126,826 | 363,533 |
| 20. Bhilwara | 375,895 | 862,714 |
| 21. Udaipur | 611,168 | 1,721,770 |
| 22. Chittaurgarh | 309,504 | 867,746 |
| 23. Dungarpur | 208,140 | 566,086 |
| 24. Banswara | 191,209 | 798,405 |
| 25. Bundi | 112,901 | 475,993 |
| 26. Kota | 203,958 | 1,369,866 |
| 27. Jhalawar | 151,385 | 550,474 |

In 1991 Census, Rajasthan has registered a growth rate of 28.07 per cent as compared to the growth rate of 32.97 per cent during the previous decade. The Census statistics collected in past censuses further reveal that apart from the set-back received during 1911–21 when epidemics were rampant in many parts of the state, as was evident throughout the country, the population had been rising at the rate of 14 to 18 per cent every ten years upto nineteen fifties. Thereafter, it attained an accelerated rate of 26.20 per cent during the decade 1951–61, 27.83 per cent in 1961–71 and during 1971–81 an all time high growth rate of 32.97 per cent. However, the galloping speed with which the population of the state had grown in the decade 1971–81 seems to have been restrained. The 1981–91 decadal growth of 28.07 per cent tends to approach the 1961–71 figure of

RAJASTHAN
TRENDS IN DECADAL GROWTH
OF POPULATION
1901-91

27.83 per cent. This declining trend in the population growth rate is a remarkable and welcome sign. However, the net addition of about 96 lac in the population during 1981-91 is still higher than the previous decade 1971-81 in which the corresponding figure was about 85 lac.

The growth of population during 1981-91 has declined in all the districts of the state except Bharatpur, Dholpur, Sikar and Nagaur districts as compared to growth rate in 1971-81. Bikaner district has the highest growth rate during 1981-91 with 42.46 per cent, closely followed by Jaisalmer district (41.37 percent) while Bikaner district has earned the distinction of recording highest rate of growth in 1971-81

also, Jaisalmer district at that time stood third in rank with 44.84 per cent, next to Ganganagar district which had recorded a growth rate of 45.62 per cent as compared to 29.01 per cent in the current census. Other districts which have recorded higher decadal growth rate than the state average (28.07 per cent) are Jaipur, Sikar, Kota, Nagaur, Churu, Banswara, Alwar, Jhunjhunun, Ganganagar and Barmer. The remaining 15 districts have recorded lower growth rate than the state average, the lowest among them being Pali district. A statement showing the percentage variation in the total, rural and urban population separately from 1901 to 1991 for the state and districts is given below for better comparison and understanding :

STATEMENT 11

STATEMENT SHOWING THE PERCENTAGE OF DECADAL VARIATION OF POPULATION FROM 1901 TO 1991 FOR TOTAL, RURAL AND URBAN

| Sl. No. | State/District | Total Rural Urban | 1901 to 1991 | 1981 to 1991 | 1971 to 1981 | 1961 to 1971 | 1951 to 1961 | 1941 to 1951 | 1931 to 1941 | 1921 to 1931 | 1911 to 1921 | 1901 to 1911 |

It will be observed that during the past nine decades Gangargar district recorded the highest growth of 1725.77 per cent and the lowest (150.66 per cent) being in Dholpur district. It had the same distinction for its rural and urban areas as well, recording the highest growth of 1415.96 and 7678.59 per cent respectively. However, in rural areas the lowest growth of 137.34 per cent is again brought out in Dholpur district while in urban areas it is reported in Tonk district (228.17 per cent). Looking back into the past again, we observe that during 1901-11 while districts namely Alwar, Bharatpur, Sawai Madhopur, Jaipur, and Barmer recorded decrease in the growth rate both in rural and urban areas; districts Jaisaimer, Nagaur, Pali, Bhilwara, Udaipur, Chittaurgarh and Jhalawar recorded increase in rural areas but there was a decrease in the growth rate for urban areas. On the other hand, while

district Dholpur recorded increase in growth rate in its urban areas there was a decrease in its rural areas. Since 1921 the growth rate has been continuously in plus side in all the districts. While the same trend is apparent in rural population of the districts, urban population indicated minus rate during 1951-61 in nine districts namely Jhunjhunu, Alwar, Sawai Madhopur, Sikar, Pali, Jalore, Bhilwara, Dungarpur and Jhalawar. Since then all the districts have reported plus growth rate both in rural and urban areas.

Pattern of Growth Rates at Tehsil Level 1981-91

Down at the tehsil level (total area) the pattern of growth rates recorded for the last decade is shown in the statement below :

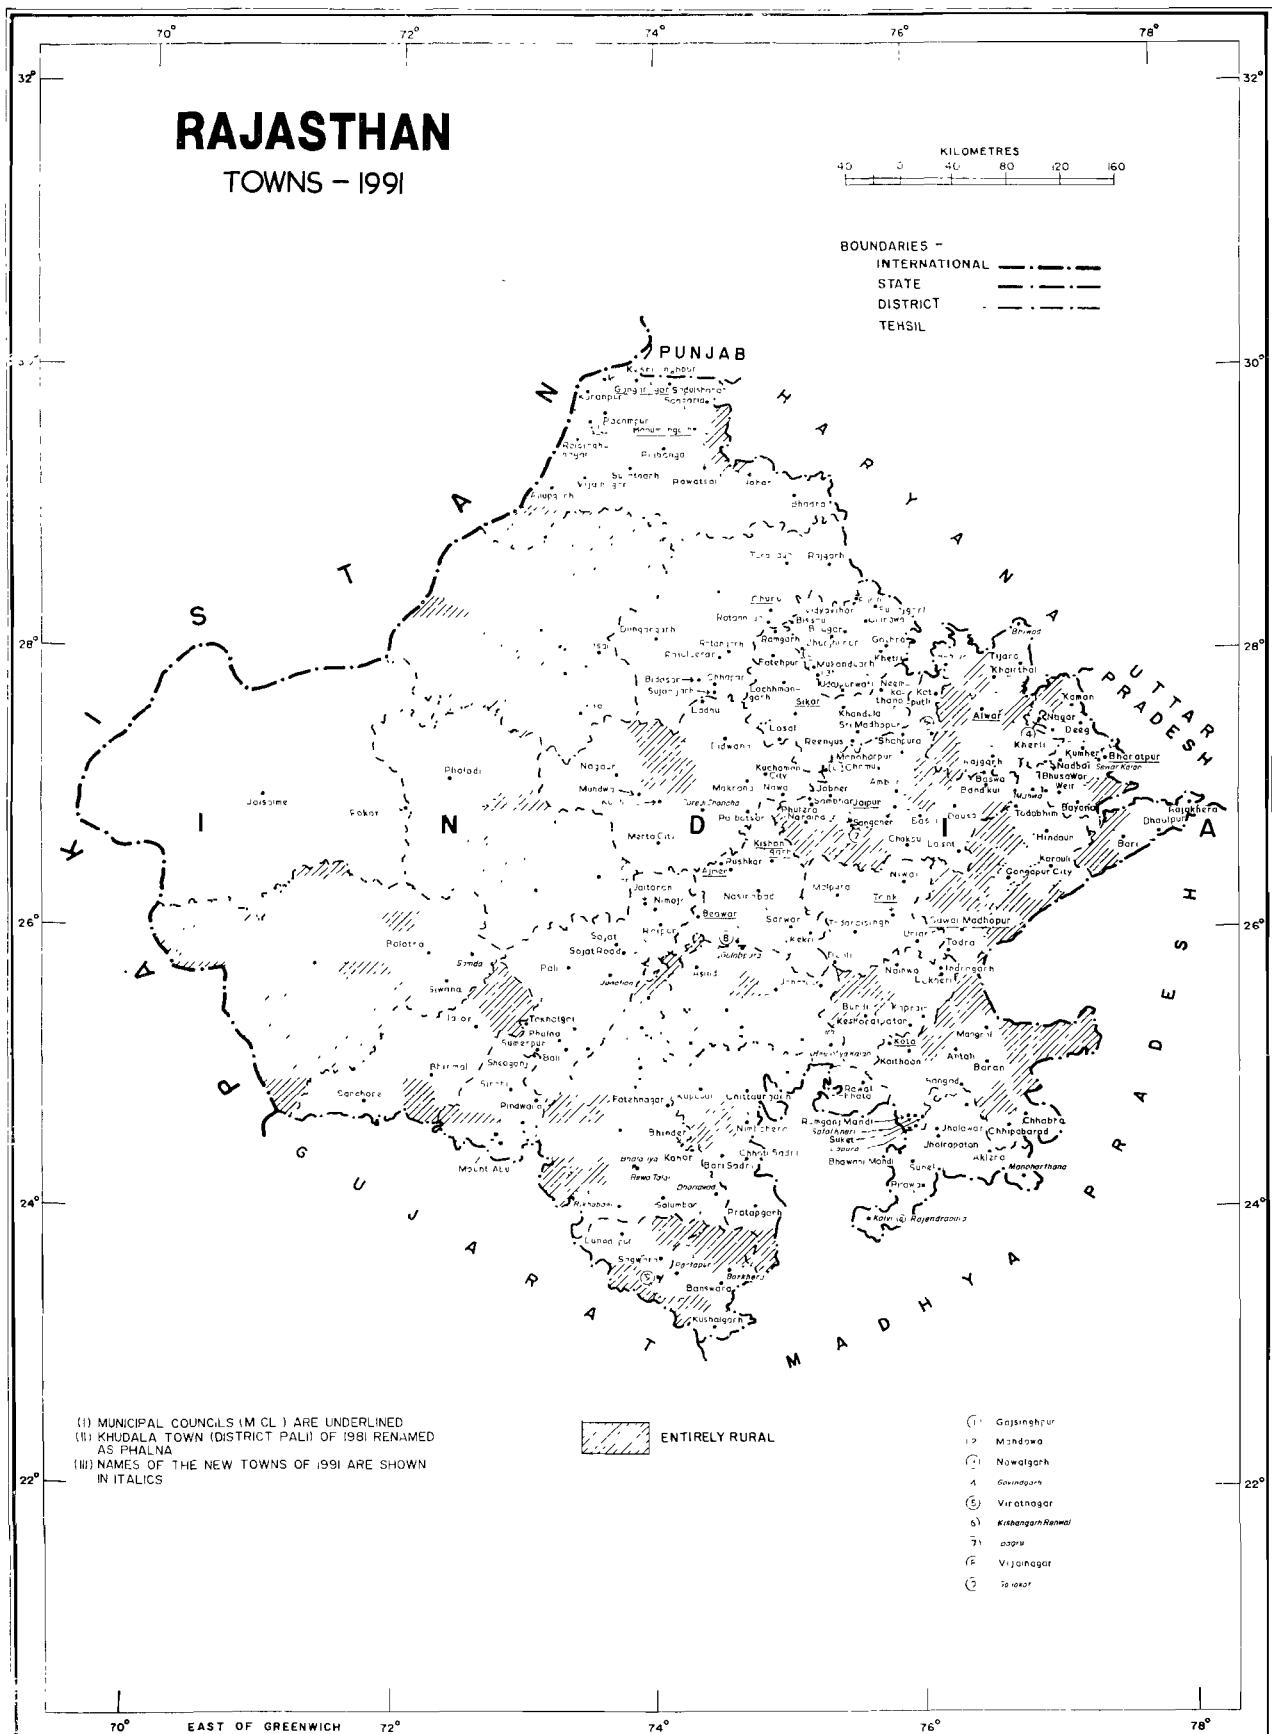

STATEMENT 12

TEHSILS DISTRIBUTED BY RANGES OF GROWTH RATES, 1981-91

| Range of Population Growth | Tehsils and their growth rates (District's name in CAPITAL) |
|----------------------------|--|
| VERY HIGH 35% and above | BIKANER-Bikaner (47.5), Lunkarsar (36.8), Kolayat (40.5); CHURU-Dungargarh (35.7); ALWAR-Tijara (39.8), Alwar (38.9); JAIPUR-Kotputli (36.1), Sanganer (48.0), Jaipur (47.8), Bassi (35.0); SIKAR-Sikar (35.4), Danta Ramgarh (36.5); JAISALMER-Jaisaimer (48.6); NAGAUR-Nawa (35.5); BARMER-Pachpadra (35.0); BHILWARA-Bhilwara (35.4); BANSWARA-Kushaigarh (36.7); KOTA-Lapura (45.2). |
| HIGH 30% to 34.9% | GANGANAGAR-Hanumangarh (32.6); BIKANER-Nokha (34.4); CHURU-Taranagar (32.8), Churu (31.5), Katangarh (30.8), Sujangarh (30.8); JHUNJHUNUN-Jhunjhunu (30.8), Nawalgarh (30.5), Udaipurwati (31.3); ALWAR-Bansur (32.3), Ramgarh (33.3); BHARATPUR-Bharatpur (32.7); SAWAI MADHOPUR-Hindaun (34.5), Gangapur (32.1); JAIPUR-Viratnagar (34.4), Shahpura (33.9), Chomu (34.6), Amber (33.9), Jamwa Ramgarh (31.5), Lalsot (34.4) Dausa (30.3), Sikri (32.1); SIKAR-Lacchmangarh (33.1) Neem-Ka-Thana (31.0), Sri Madhopur (33.7); JAISALMER-Pokaran (33.5); JODHPUR-Phalodi (32.5); |

| Range of Population Growth | Tehsil and their growth rates (District's name in CAPITAL) |

| VERY LOW Less than 20% | GANGANAGAR-Karanpur (7.0), Padampur (8.9), Raisinghnagar (16.0), Bhadra (19.8); AJMER-Ajmer (18.2), Nasirabad (18.6), Sarwar (19.2), Kekri (15.8); TONK-Todaraisingh (17.7); PALI-Jaitaran (19.4), Raipur (16.5), Sojat (16.1), Marwar Junction (8.1), Desuri (11.2), Bali (13.3); BARMER-Sheo (19.8); JALOR-Ahore (11.5); SIROHI-Sheoganj (14.4), Sirohi (15.5); BHILWARA-Asind (13.7), Shahpura (18.8), Jahazpur (18.4), Mandal (16.9), Raipur (10.6), Sahara (15.0); UDAIPUR-Bhim (16.2), Deogarh (11.4), Kumbhalgarh (12.7), Railmagra (15.7), Nathdwara (19.4), Mavli (18.7), Gogunda (16.1), Vallabh Nagar (17.8); CHITTAURGARH-Rashmi (12.1), Gangrar (10.5), Kapasan (14.0), Dungla (16.2), Bhadesar (18.5), Bari Sadri (17.6); JHALAWAR-Khanpur (19.4), Gangdhar (16.7). |

Note : Because of the large scale changes in the jurisdiction of villages/chaks in Ganganagar district during the inter-censal period 1981-91, the identity of the existing villages/chaks as reported during 1981 Census has been disturbed with the result it has not been possible to adjust the 1981 population figures as per the 1991 jurisdiction for the tehsils formed after 1981 Census and for those from whose jurisdiction the new tehsils have been formed. Under the circumstances the growth rates (1981-91) for seven effected tehsils of Ganganagar district namely Nohar and Rawasur; Sutgarh and Pilibanga; Anupgarh, Gharsana and Vijaynagar could not be worked out. Hence they have not been incorporated in the above statement. Readers may bear in mind limitation. Hence the discussion is limited to only 206 tehsils out of 213.

It will be seen from the above statement that there are 18 tehsils with very high growth rates and 41 with high growth rates. There are 56 tehsils having growth rates which can be called as an average. Out of the remaining, 50 tehsils have low growth rates while 41 have very low rates of growth. It is interesting to observe that in the case of Bikaner district, three of its tehsils namely Bikaner, Lunkarsar and Kolayat have grown by about 37 to 48 per cent while the remaining one tehsil namely Nokha has also grown at the rate of 34.4 per cent giving the highest comparative average to the district in the state. In Sirohi and Ajmer districts most of the tehsils fall in the region

recording just low or very low rates of growth. This has resulted in providing these districts, a lower average rate of growth at the district level. Among the tehsils the highest rate of growth has been recorded in Jaisalmer tehsil (48.6) while the lowest in Karanpur tehsil (7.0).

Pattern of Growth Rates in Towns, 1981-91

We may now look at the growth of population during the recent years with the aid of the following statement showing the distribution of town by various ranges of growth rates in 1981-91 :

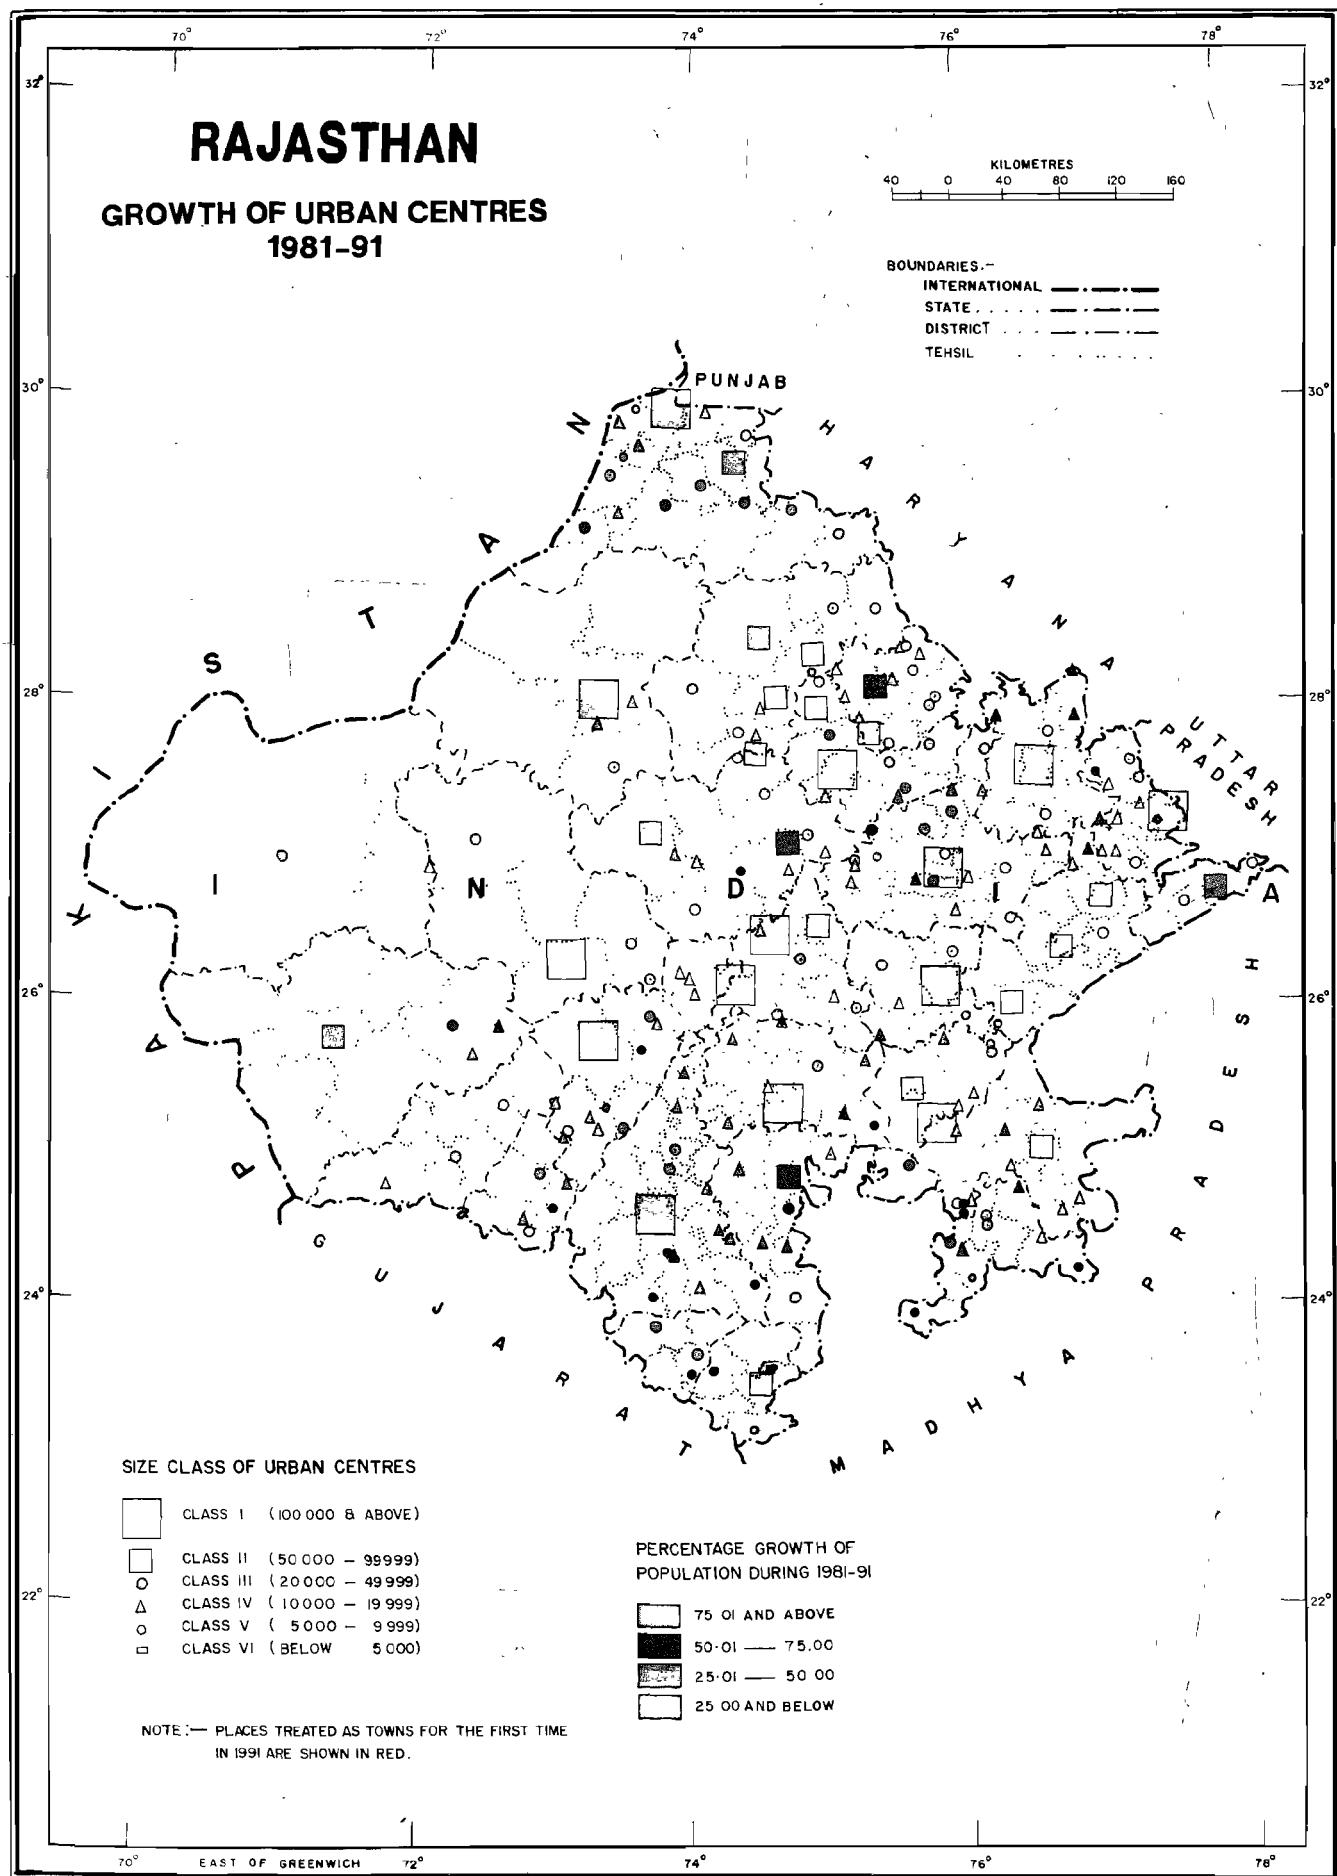

STATEMENT 13

TOWNS DISTRIBUTED BY RANGES OF GROWTH RATES 1981-91

| Ranges of Percentage Growth | Towns (District's name in CAPITAL) |
|-----------------------------|---|
| LESS THAN 10% | JHUNJHUNUN-Baggar (3.34); JAIPUR-Bandikui (3.65); AJMER-(7.01); PALI-Bali (9.06); BARMER-Siwana (8.39); UDAIPUR-Deogarh (8.57); BUNDI-Indragarh (9.24) |
| 10 to 19.99 per cent | GANGANAGAR-Karanpur (19.52), Gajsinghpur (19.95), Vijainagar (18.31), JAIPUR-Sambhar (17.31), Naraina (17.07); AJMER-Beawar (18.57); NAGAUR-Mundwa (14.82); PALI-Raipur (19.24), Rani (17.63), Sadri (14.53), Takhatgarh (10.76); SIROHI-Sheoganj (18.42), Sirohi (17.63); BHILWARA-Asind (17.09); UDAIPUR-Kanor (17.12); CHITTAURGARH-Kapasan (15.64), Bari Sadri (13.63); BUNDI-Lakheri (14.06); JHALAWAR-Sunel (16.35), Pirawa (16.10). |
| 20 to 29.99 per cent | GANGANAGAR-Kesrisinghpur (20.67), Padampur (24.51), Bhadra (28.07); BIKANER-Napasar (27.29), Deshnoke (21.83), Sardarshahar (20.54), Ratannagar (22.36), Dungargarh (25.40), Ratangarh (27.01), Rajaldesar (28.16), Sujangarh (26.73); JHUNJHUNUN-Bissau (27.12), Mandawa (27.86), Pilani (25.46), Vidyavihar (29.43), Mukandgarh (26.47); ALWAR-Tijara (26.23); BHARATPUR-Kaman (23.90), Deeg (21.30), Kumher (27.86), Weir (22.20), Bayana (28.38); SAWAIMADHOPUR-Todabhim (26.09), Karauli (29.00); JAIPUR-Jobner (24.25), Phulera (22.09); SIKAR-Ramgarh (26.24), Fatehpur (29.98), Sri Madhopur (29.41); AJMER-Pushkar (22.73), Nasirabad (20.86), Kekri (25.41); TONK-Todaraisingh (27.03), Tonk (29.00), Uniara (28.26); JODHPUR-Jodhpur (28.10), Bilara (29.78); NAGAUR-Kuchera (27.51); PALI-Jaitaran (28.87), Nimaj (22.09), Sojat (23.72); BARMER-Barmer (24.96), JALOR-Bhinmal (25.79); SIROHI-Pindwara (23.08), Mount Abu (22.29), Abu Road (27.30); BHILWARA-Shahpura (22.33), Jahazpu (21.87), Mandal (25.82); UDAIPUR-Nathdwara (24.14), Fatehnagar (24.69), Bhinder (21.15), Salumbar (20.25); CHITTAURGARH-Chheti Sadri (20.34), Pratapgarh (28.43); DUNGARPUR-Dungarpur (29.22); BUNDI-Nainwa (21.48), Kaprain (29.86); KOTA-Sangod (29.65), Chhipabatod (28.83) |

| Ranges of Percentage Growth | Towns (District's name in CAPITAL) |
|--|---|
| 30 to 39.99 per cent | GANGANAGAR —Ganganagar (30.47), Sadulshahar (39.71), Sangaria (33.10), Hanumangarh (37.70), Raisinghnagar (34.13); CHURU —Taranagar (39.14), Churu (33.43), Bidasar (30.53), Chhapar (32.66); JHUNJHUNUN —Chirawa (33.33) Surajgarh (33.85), Gothra (36.29), Nawalgarh (32.12), Udaipurwati (30.69); BHARATPUR —Bhusawar (31.31); DHOLPUR —Bari (36.99), Rajakhera (31.06); SAWAI MADHOPUR —Sawai Madhopur (31.27); JAIPUR —Viratnagar (31.97), Manoharpur (39.14), Chomu (33.38), Bassi (35.95), Chaksu (38.81), Lalsot(37.10), Baswa (33.17); SIKAR —Khandela (30.08), Losal (35.48); AJMER —Kishangarh (32.10), Vijainagar (35.64), Sarwar (33.65); TONK —Malpura (31.37); JAISALMER —Pokaran (36.52); JODHPUR —Phalodi (37.64), Pipar City (32.79); NAGAUR —Ladnu (33.92), Didwana (37.20), Parbatsar (37.31), Kuchaman city (36.15); PALI —Sojat Road (32.29), Sumerpur (39.13); JALOR —Jalor (39.63), Sanchore (36.97); BHILWARA —Gangapur (33.43); UDAIPUR —Amet (36.57), Udaipur (32.29); CHITTAURGARH —Begun (37.93); DUNGARPUR —Sagwara (34.21); BANSWARA —Kushalgarh (31.25); BUNDI —Bundi (35.37), Keshoraipatan (37.56); KOTA —Mangrol (31.90), Baran (37.39), Kaithoon (34.11), Ramganj Mandi (34.36), Chhabra (33.61); JHALAWAR —Jhalawar (32.00), Jhalrapatan (36.97), Aklera (37.92). |
| 40 to 49.99 per cent | GANGANAGAR —Pilibanga (46.42), Nohar (44.29); BIKANER —Bikaner (44.36), Nokha (48.92); CHURU —Rajgarh (43.80); JHUNJHUNUN —Khetri (40.73); ALWAR —Khairthal (42.38), Alwar (44.83), Rajgarh (42.43); BHARATPUR —Nagar (41.84), Nadbai (47.50), Bharatpur (42.50); SAWAI MADHOPUR —Hindaun (42.28), Gangapur City (49.88); JAIPUR —Kotputli (46.19), Shahpura (40.72), Jaipur (48.87), Amber (45.07), Dausa (41.69); SIKAR —Sikar (43.96), Neem—ka—Thana (45.80), Reengus (42.62); TONK —Niwai (43.39); NAGAUR —Nagaur (41.84), Merta city (42.91), Nawa (42.91); PALI —Pali (49.39), Phalna (45.10); BHILWARA —Bhilwara (49.88); UDAIPUR —Rajsamand (41.20); BANSWARA —Banswara (41.36); KOTA —Kota (49.74), Suket (44.47). |
| 50 to 59.99 per cent | GANGANAGAR —Suratgarh (53.85); JHUNJHUNUN —Jhunjhunu (52.56); ALWAR —Kherli (52.59); DHOLPUR —Dholpur (54.52); SIKAR —Lachhmangarh (52.50); TONK —Deoli (50.36); CHITTAURGARH —Chittaurgarh (59.07), Nimbahera (50.95). |
| 60 to 69.99 per cent | GANGANAGAR —Anupgarh (63.01); JAIPUR —Sanganer (66.16); NAGAUR —Makrana(63.92); BARMER —Balotra (66.89); CHITTAURGARH —Rawatbhata (64.32); KOTA —Antah (69.18). |
| 70 to 79.99 per cent | JAISALMER —Jaisalmer (76.09); JHALAWAR —Bhawani Mandi (75.66). |
| Minus Growth (Less than 0 per cent) | GANGANAGAR —Rawatsar (-14.62); SAWAI MADHOPUR —Todra (-27.89). |

Note : 26 towns namely; Behror, Bhiwadi, Govindgarh, Sewar Kalan, Mahwa, Kishangarh Rewal, Bagru, Goredi Chancha, Marwar Junction, Samdari, Bhawri, Gulabpura, Mandalgarh, Beejoliya Kalan, Dhariawad, Bhalaria, Rewa Talai, Rikhatdeo, Galiakot, Partapur, Borkhera, Udpura, Satalkheri, Khanpur, Manoharthana, and Kolvi @ Rajendrapura were added in 1991 Census.

It has already been stated that there are 26 towns which have come up in the list of urban centres only in 1991 and thus there is no question of growth. Also there are two towns which registered a decline in population during 1981-91. Of the rest of the towns, there are 7 towns recording an increase upto 10 per cent; 20 between 10 to 19.99 per cent; and 60 between 20 to 29.99 per cent. Another 58 towns have recorded growth between 30 to 39.99 per cent; 33 between 40 to 49.99 per cent and 8 between 50 to 59.99 per cent. Of the remaining 8 towns 6 had growth between 60 to 69.99 per cent and 2 between 70 to 79.99 per cent. While in 1981, 7 towns recorded a growth above 80 per cent there is none in this category in 1991. The most plausible reason for the high rate of growth in case of some of the urban centres is the increase in their jurisdictional areas and in-migrations attracted by

irrigational and industrial facilities made available in recent years. The growing business centres have also reported higher growth rate. The decline in the growth of Rawatsar town in Ganganagar district seems to be on account of some migration that might have taken place on account of the opening up of irrigational facilities in the neighbouring areas. There are no towns which show any stagnation and all appear to have potentialities of future growth. It seems Bhawani Mandi of Jhalawar district is going to grow fast in the years to come because of its coming up as a developing business centre.

It will be interesting to study the growth rate of population recorded by each town since 1901 with the aid of the following statement which shows the decennial rate of growth of population of various towns of Rajasthan :

STATEMENT 14

GROWTH RATE OF POPULATION OF TOWNS SINCE 1901

| District/City/ Town | 1901– 1911 | 1911– 1921 | 1921– 1931 | 1931– 1941 | 1941– 1951 | 1951– 1961 | 1961– 1971 | 1971– 1981 | 1981– 1991 |

- Note: 1. The sign (**) indicates that the place has been declared as town during the decade.
 2. DC stands for Declassified.
 3. If a town has any out-growth(s), the population of the out-growth(s) has been added in the population of the core town to determine the growth rate. However, if a town is a constituent of any Urban Agglomeration, it has been treated as a separate unit for determining the growth rate.

The growth of the population of each size class since 1901 can be studied by working out the decadal variation of their population. The following statement presents this information.

The percentage decadal variation of urban population by size class given in the statement brings out clearly the trend of growth of population living in each size class :

STATEMENT 15

DECADAL VARIATION OF URBAN POPULATION BY SIZE CLASS 1901-11 TO 1981-91 (a) Decadal Variation (Absolute figures); (b) Percentage Decadal Variation

| Decades | a | All Classes | I | II | III | IV | V | VI |
|---------|-----|-------------|-------------|-----------|-----------|-----------|-----------|-----------|
| | b | | | | | | | |
| 1901-11 | (a) | - 74,827 | - 23,069 | - 40,990 | - 10,993 | + 6,893 | - 41,296 | + 34,628 |
| | (b) | - 4.83 | - 14.40 | - 15.60 | - 4.73 | +2.12 | - 9.59 | +28.72 |

| | (b) | + 39.59 | + 39.46 | + 131.70 | + 43.57 | + 29.89 | + 16.86 | + 65.37 |
| 1951-61 | (a) | + 326,203 | + 452,609 | - 22,522 | + 96,543 | + 216,723 | - 228,955 | - 188,195 |
| | (b) | + 11.04 | + 55.74 | - 8.54 | + 16.91 | + 44.81 | - 37.77 | - 85.94 |
| 1961-71 | (a) | + 1,262,283 | + 637,580 | + 247,123 | + 262,855 | + 198,076 | - 69,055 | - 14,296 |
| | (b) | + 38.47 | + 50.42 | + 102.49 | + 39.39 | + 28.28 | - 18.31 | - 46.42 |
| 1971-81 | (a) | + 2,666,747 | + 1,473,783 | + 232,796 | + 651,883 | + 442,969 | - 122,342 | - 12,342 |
| | (b) | + 58.69 | + 77.48 | + 47.68 | + 70.08 | + 49.31 | - 39.70 | - 74.80 |
| 1981-91 | (a) | + 2,829,610 | + 1,653,559 | + 651,602 | + 557,084 | - 27,725 | - 3,221 | - 1,689 |
| | (b) | + 39.24 | + 48.98 | + 90.37 | + 35.21 | - 2.07 | - 1.73 | - 40.63 |

It will be observed that the addition to the population in each successive censuses has been quite high in the bigger size classes as compared to smaller size classes which have the tendency of losing population. During the decade 1981-91 as much as 1.65 million population was added to class I and this addition is even more than the addition of the population to this size class during the four decades of 1931-41 (0.31 million), 1941-51 (0.23 million), 1951-61 (0.45 million) and 1961-71 (0.64 million). On the other hand, the population of class IV, class V and class VI declined by 27,725; 3,221 and 1,689 respectively. In terms

of percentage decadal variation it is revealed that the degree of increase of population during 1981-91 was the highest (90.37 per cent) in class II urban agglomerations/towns followed by 48.98 per cent in class I and 35.21 per cent in class III UAs/towns. Class IV, class V and class VI UAs/towns have registered a negative growth of 2.07, 1.73 and 40.63 per cent respectively.

The statement given below will help in identifying the tehsils and towns in each district which have recorded the highest and the lowest growth rates during the decade :

STATEMENT 16

TEHSILS AND TOWNS WITH HIGHEST AND LOWEST GROWTH RATE IN DISTRICTS

DISTRIBUTION OF URBAN POPULATION BY SIZE CLASS

While discussing the composition of rural and urban population in the foregoing paragraphs we had focussed our discussions on the town as an independent unit and not as a constituent of an urban agglomeration. In this section we intend to analyse the distribution of urban population by size class of urban agglomerations/towns. For this classification the urban agglomeration of 1991 has been treated as a single unit in the previous decades also and classified according to the derived population of urban agglomeration in that census. Besides, there are cases where some towns have been merged in another neighbouring town by a government notification. In such cases the merged town has not been considered a separate unit even in previous censuses and has been treated as part of the town in which merged and only one unit is reckoned for classification of population. The main idea of presenting this classification is to reflect, at a glance, a comparative picture of towns including urban agglomerations of 1991 during the last 90 years.

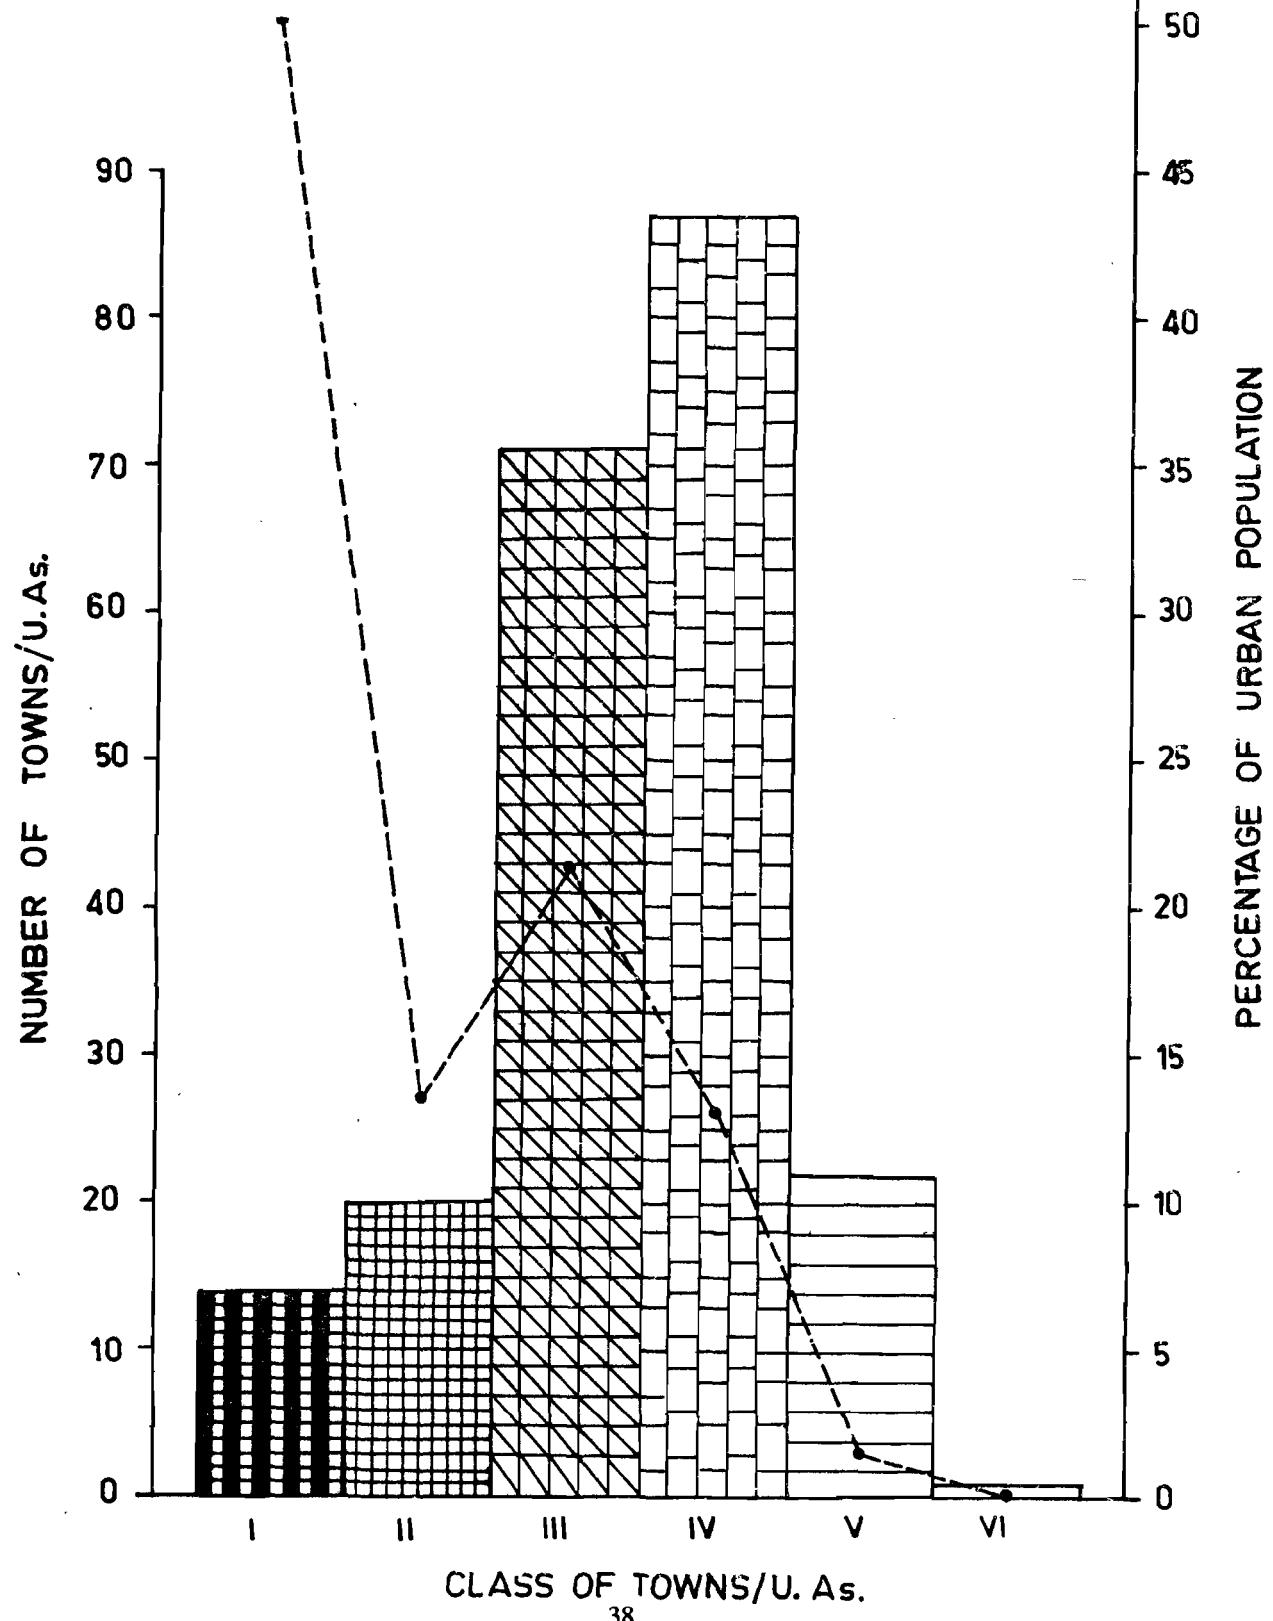

As already stated we have in all 19 urban agglomerations for 1991 census. Of these six have been constituted by combining the neighbouring towns and the rest are those which comprise single core towns along with their outgrowths. It may, therefore, be noted that while considering an urban agglomeration as a single unit for this classification, seven towns namely Gothra census town (component of Khetri UA); Vidyavihar (component of Pilani UA); Sewar Kalan census town (component of Bharatpur UA); Sanganer and Amber (components of Jaipur UA); Bhalariya census town (component of Rewa Talai UA) and Indragarh (component of Lakeri UA) have been treated as part units of aforesaid urban agglomerations and not as an independent urban units in their own right. Hence now onwards we shall be limiting our discussions on 215 urban units (urban agglomerations/towns) and not 222 towns as the remaining seven towns have been considered as part of their respective urban agglomerations. The following statement gives the number of urban agglomerations/towns during 1901-91, in the state and its districts:

STATEMENT 17

| Bundi | 5 | 5 | 4 | 4 | 5 | 4 | 4 | 4 | 2 | 2 |
| Kota | 12 | 11 | 6 | 5 | 7 | 6 | 5 | 5 | 5 | 5 |
| Jhalawar | 9 | 6 | 5 | 4 | 9 | 4 | 4 | 4 | 4 | 4 |

It will be noticed from the above statement that the number of urban agglomerations/towns has been fluctuating from decade to decade. This fluctuation may be due to declassification of towns of previous census and addition of new towns. After the 1961 census, however, the number has increased steadily.

The distribution of urban units among the districts is also quite uneven. Jaisalmer district has only two towns from 1901 and Dholpur and Jalor three towns each. On the other hand Jaipur district has 18 UAs/towns as against 13 in 1901. The maximum gain is observed in Ganganagar district where the number of UAs/towns has increased from meagre 2 in 1901 to 16 in 1991.

In keeping with the age old tradition of the Indian Census, the urban units continue to be categorised into the following six population size classes of towns :

Class I : Population 100,000 & above
 Class II : Population 50,000 to 99,999

Class III : Population 20,000 to 49,999
 Class IV : Population 10,000 to 19,999
 Class V : Population 5,000 to 9,999
 Class VI : Population less than 5,000.

The Class I urban units are generally referred to as cities. In other words, all urban agglomerations/towns with a population of 100,000 and above are called cities. Among these, places with a population of one million and above are often referred to as metropolitan areas.

If we go by the aforesaid classification, the urban areas in the state consist of 14 Class I UAs/cities, 20 Class II UAs/towns, 71 Class III UAs/towns, 87 Class IV UAs/towns, 22 Class V UAs/towns and only 1 Class VI town making in all 215 UAs/towns. What is more relevant here, however, is not the number of urban units in each size class but the contribution which these classes make to the total urban population. The following statement gives the number of urban agglomerations/towns, their population and its proportion to total urban population under each size class as per the 1991 census:

STATEMENT 18

NUMBER OF URBAN AGGLOMERATIONS/TOWNS, THEIR POPULATION AND ITS PROPORTION TO TOTAL URBAN POPULATION BY SIZE CLASS, 1991

a = Number of UAs/Towns
 b = Population of UAs/Towns
 c = Urban Population as per cent of total population

| State/District | a | All Classes | Size Class of UAs/Towns | | | | | | |

A look at the distribution of Class I urban agglomerations/cities of the state indicates that Class I UAs/cities account for more than half of the total urban population in Bikaner, Alwar, Jaipur, Ajmer, Tonk, Jodhpur, Bhilwara, Udaipur and Kota districts. In the case of Jodhpur, Bikaner and Jaipur districts, the share of Class I UAs/cities in their urban population is very high being 86.84, 86.48 and 81.33 per cent respectively. In fact, the two districts of Jaipur and Jodhpur alone contribute more than 40 per cent of the urban population living in Class I UAs/cities. Class II UAs/towns contribute more than 50 per cent of the urban population in Churu, Dholpur, Sawai Madhopur and Banswara districts while class III UAs/towns account for more than 50 per cent of the urban population in Jaisalmer, Jalore, Sirohi, Dungarpur and Jhalawar districts. In fact, more than 90 per cent of the urban population in Dungarpur district resides in Class III towns. There is only one town in the state which has a population of less than 5,000. This is located in Banswara district and its contribution to total urban population of the district is only 2.76 per cent while more than three-fourth of the population of this district resides in the town falling in the category of Class II. The other smaller UAs/towns falling in Class IV and V are unevenly distributed in the districts, the highest number i.e; 10, however, is found in Jaipur district followed by 9 each in Pali, Udaipur and Kota districts. There is no Class IV UA/town in Dholpur, Jodhpur, Dungarpur and Banswara districts. On the other hand, there is no Class V UA/town in twelve districts namely, Bikaner, Jhunjhunu, Bharatpur,

Dholpur, Sikar, Ajmer, Jaisalmer, Jodhpur, Barmer, Jalore, Chittaurgarh and Bundi.

RAJASTHAN SHARE OF URBAN POPULATION BY SIZE CLASS 1981 AND 1991

At the state level the relative contribution to the urban population by different size classes is summarised in the following statement :

STATEMENT 19

INCREASE/DECREASE IN NUMBER OF UAs/TOWNS AND THE POPULATION IN EACH SIZE CLASS DURING 1981-91

| Size Class | Increase/ Decrease in No. of UAs/Towns during 1981-91 | Population Increase/ Decrease during 1981-91 | | Contribution to State's total Urban population | | Decadal growth rate of population | |
|-------------|--|--|---------|--|--------|---|----------|
| | | Absolute | Percent | 1981 | 1991 | 1971-81 | 1981-91 |
| | | | | | | | |
| All Classes | 20 | 2,829,610 | 100.00 | 100.00 | 100.00 | + 58.69 | + 39.24 |
| I | 3 | 1,653,559 | + 58.44 | 46.82 | 50.09 | + 77.48 | + 48.98* |
| II | 9 | 651,602 | + 23.03 | 10.00 | 13.67 | + 47.68 | + 90.37 |
| III | 19 | 557,084 | + 19.68 | 21.94 | 21.31 | + 70.08 | + 35.21 |
| IV | - 11 | - 27,725 | - 0.98 | 18.60 | 13.08 | + 49.31 | - 2.07 |
| V | - | - 3,221 | - 0.11 | 2.58 | 1.82 | - 39.70 | - 1.73 |
| VI | - | - 1,689 | - 0.06 | 0.06 | 0.03 | - 74.80 | - 40.63 |

The above statement reveals that the net addition to the urban population of the state during the decade 1981-91 was 2,829,610. Of this, the share of Class I UAs, cities alone is 58.44 per cent. Two factors seems to be responsible for the addition of population to Class I viz. the increase in the population of 11 Class I UAs/towns of the 1981 census and the addition to the population due to 3 new UAs/towns entering this class. The addition to urban population by other size classes is much smaller than that of Class I. The Class I and Class II urban centres together contribute 81.47 per cent of the total addition to the urban population during 1981-91 in the state.

The addition to the population of UAs/towns of various size classes presents a slight different picture in 1991 as compared to 1981. During 1981-91, at the state level, the decadal growth rate in size class I to IV has declined except for Class II in comparison to the similar increase recorded during the period 1971-81. The population in class I UAs/cities has continued to increase at a faster rate

(48.98) than the towns in size classes III to VI. In case of Class II UAs/towns, however, the rate of growth (90.37) is much higher than what has been recorded for Class I UAs/towns. The proportion of population living in Class IV, Class V and Class VI UAs/towns has declined during the decade 1981-91 but at a much slower rate than what was recorded during 1971-81. The decrease in population relating to these three size classes can be attributed to the de-classification of the two towns of 1981 in 1991 and partly due to the movement of some of the UAs/towns in these classes to higher size classes. There are only two towns namely Rawatsar in Ganganagar and Todra in Sawai Madhopur district which continue to be in the same size class in 1981 as well as in 1991 but their population has declined during the decade.

The following statement gives the details in regard to addition in urban population during the decade 1981-91 in each size class of UAs/towns and corresponding percentage increase during the decade for the state and its districts:

STATEMENT 20

VARIATION OF POPULATION IN EACH SIZE CLASS DURING 1981-91

(a) Increase/Decrease of Population. (b) Percentage Increase/Decrease.

Note: The percentage increase/decrease has not been shown in certain cases though the absolute increase/decrease has been shown. This is because in the case of increase, there was no UA/Town in the respective class in 1981 and in the case of decrease the town(s) of 1981 have shifted to some other class in 1991.

The population living in Class I urban agglomerations/towns of Bikaner, Alwar, Bharatpur, Jaipur, Sikar, Bhilwara and Kota districts has increased by over 40 per cent during the decade. This increase has been the highest in Bhilwara district (49.88) closely followed by Kota district (49.74) and Jaipur district (49.18 per cent). The lowest increase in population living in Class I UAs/cities during 1981–91 was, however, registered in Jodhpur district (28.10 per cent).

The increase in population living in Class II urban agglomerations/towns has been more than 40 per cent in Churu and Sawai Madhopur districts. Surprisingly, Sawai Madhopur UA has registered the highest increase of 250.87 per cent in this class. The districts which do not have even a single Class II UA/town in 1991 are Bikaner, Alwar, Bharatpur, Jaipur, Jaisalmer, Jodhpur, Jalore, Sirohi, Bhilwara, Udaipur, Dungarpur and Jhalawar. In case of Jhunjhunu, Dholpur, Nagaur, Chittaurgarh, Banswara, Bundi and Kota districts while increase in population has been recorded but since there was no UA/town in this class in 1981 the percentage increase has not been shown. Similarly, in case of Tonk and Pali districts decrease in population has been shown because of the UAs/towns of 1981 falling in this class have not shifted to higher class. Ajmer is the only district in this class which has registered a decrease of more than 46 per cent in the population.

The decadal increase of population living in Class III urban agglomerations/towns is more than 50 per cent in districts Ganganagar, Bharatpur, Jaipur, Sikar, Ajmer, Jaisalmer, Pali, Barmer, Dungarpur and Jhalawar. This is primarily due to upward movement of UAs/towns from lower size class and partly due to formation of new UAs and towns. On the other hand, in the districts of Jhunjhunu, Dholpur, Sawai Madhopur, Nagaur, Bundi and Kota the population of this size class registered a negative growth.

The decadal increase of population in Class IV urban agglomerations/towns during 1981–91 was more than 50 per cent in the districts of Sawai Madhopur, Ajmer, Nagaur, Barmer, Bhilwara, Udaipur and Bundi ranging from 129.57

per cent in Nagaur to 56.76 per cent in Ajmer district. In other districts reporting the positive growth, the proportion ranges from 0.74 in Bharatpur to 39.75 per cent in Alwar district. Other districts had registered a negative growth in this size class. At the state level also there was a negative growth of 2.07 per cent because the number of UAs/towns in this class declined substantially from 98 in 1981 to 87 in 1991.

The population of Class V urban agglomerations/towns in the state registered a negative growth of 1.73 per cent during 1981–91 even though there was no decline in the number of towns in this size class. The growth of population of this size class during 1981–91 was more than 50 per cent in Pali, Udaipur, Banswara and Kota districts. The highest being in Banswara (164.41%) followed by Kota (106.66%). No Class V UA/town existed in districts Bikaner, Bharatpur, Dholpur, Sikar, Jaisalmer, Jodhpur, Barmer, Jalore and Chittaurgarh.

The population of Class VI towns registered the maximum negative growth during 1981–91. The population of this size class declined by 40.63 per cent during this period though there was no decline in the number of towns. The main reason for the decrease in population over the decade of this size class is that Indragarh which was classified in this class in 1981 has now become a constituent of Lakeri UA (Bundi district) with the result its population has shifted to size class III. On the other hand, there is an addition of one census town named Borkhera of Banswara district in this size class resulting into an overall negative growth of 40.63 per cent at the state level.

To analyse the trend of urbanisation it will be interesting to see the distribution of urban agglomerations/towns by size class in the previous censuses alongwith the distribution as obtaining in 1991. The following statement presents this information alongwith the proportionate distribution of UAs/towns in various size classes for each of the censuses since 1901:

STATEMENT 21

NUMBER OF URBAN AGGLOMERATIONS/TOWNS BY SIZE CLASS, 1901–1991
(FIGURES WITHIN BRACKETS DENOTE THE PERCENTAGE DISTRIBUTION)

| Census years | All Classes | Size class of population | | | | | |
|--------------|-------------|--------------------------|-------------|-------------|---------------|---------------|---------------|
| | | I | II | III | IV | V | VI |
| 1901 | 133 | 1 (0.75) | 4 (3.01) | 8 (6.01) | 25 (18.80) | 64 (48.12) | 31 (23.31) |

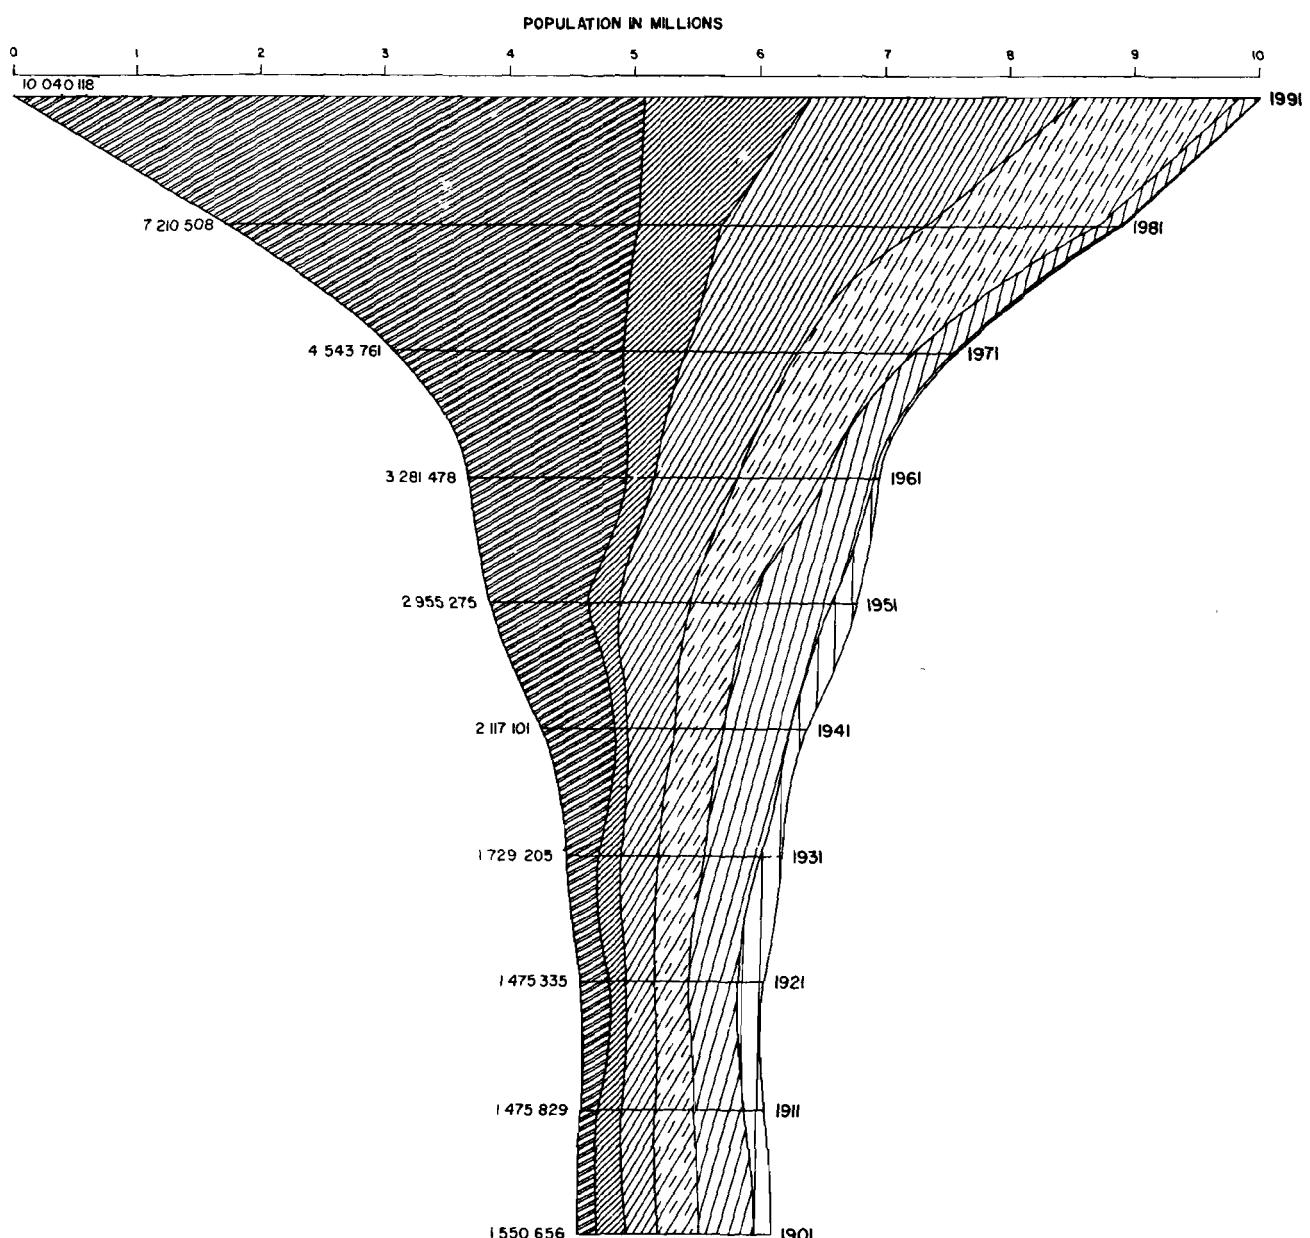

| Census years | All Classes | Size class of population | | | | | |
|--------------|-------------|--------------------------|--------------|---------------|---------------|---------------|---------------|
| | | I | II | III | IV | V | VI |
| 1911 | 137 | 1 (0.73) | 3 (2.19) | 9 (6.57) | 25 (18.25) | 59 (43.06) | 40 (29.20) |
| 1921 | 145 | 2 (1.38) | 2 (1.38) | 7 (4.83) | 21 (14.48) | 57 (39.31) | 56 (38.62) |
| 1931 | 148 | 2 (1.35) | 2 (1.35) | 9 (6.08) | 26 (17.57) | 64 (43.24) | 45 (30.41) |
| 1941 | 155 | 4 (2.58) | 2 (1.29) | 14 (9.03) | 27 (17.42) | 72 (46.45) | 36 (23.23) |
| 1951 | 221 | 4 (1.81) | 4 (1.81) | 20 (9.05) | 37 (16.74) | 91 (41.18) | 65 (29.41) |
| 1961 | 141 | 6 (4.26) | 4 (2.84) | 23 (16.31) | 51 (36.17) | 49 (34.75) | 8 (5.67) |
| 1971 | 151 | 7 (4.64) | 7 (4.64) | 31 (20.53) | 64 (42.38) | 38 (25.16) | 4 (2.65) |
| 1981 | 195 | 11 (5.64) | 11 (5.64) | 52 (26.67) | 98 (50.26) | 22 (11.28) | 1 (0.51) |
| 1991 | 215 | 14 (6.51) | 20 (9.30) | 71 (33.02) | 87 (40.47) | 22 (10.23) | 1 (0.47) |

A glance at the statement above would show that the number of Class I UAs/cities is constantly increasing since 1901. 3 UAs/cities have been added during 1981–91 raising the number to 14 in 1991. In case of Class II UAs/towns, their number has been increasing rapidly after 1941. 9 such UAs/towns have been added during the last decade alone raising their number from 4 in 1901 to 20 in 1991. Similar trend is noticed in the case of UAs/towns relating to Class III and Class IV. On the other hand, the number of smaller UAs/towns in Class V and Class VI is decreasing. Their number in Class V has decreased from 64 in 1901 to 22 in 1991 and in case of Class VI the number has come down to only 1 in 1991 from 31 in 1901. The highest number in these size classes was observed in 1951 when their number stood at 91 for Class V and 65 for Class VI UAs/towns. This big fluctuation in the number of towns in these two smaller classes is understandable as generally declassification or merger of towns with large size neighbouring towns or addition of new towns affect these two size classes. Further, the reduction in the number of urban units in these two classes is due to the increase in

the population of these smaller towns during the intercensal period resulting in their shift to the next higher class. It will also be observed that the size class which contributed the maximum number of UAs/towns till 1951 was Class V i.e.; urban units having a population between 5,000 and 9,999. After 1951, this privilege went to Class IV UAs/towns with a population between 10,000 to 19,999 which continues even in 1991. The perusal of the above statement will show that while the share of Class I to Class IV UAs/towns has been increasing steadily, the proportionate share of Class V and Class VI UAs/towns has gone down substantially. Thus, while the proportion of Class I UAs/towns has increased from 0.75 per cent in 1901 to 6.51 in 1991 and from 3.01 to 9.30 in case of Class II, from 6.01 to 33.02 in Class III and from 18.80 to 40.47 in case of Class IV UAs/towns, the proportion of Class V and VI UAs/towns has decreased from 48.12 to 10.23 and from 23.31 to 0.47 per cent respectively.

The population of Class I urban agglomerations/towns was 1.60 lacs in 1901 which increased to 5.82 lacs in 1941

RAJASTHAN
PROGRESS OF URBANISATION
1901-91

SIZE CLASS OF URBAN AGGLOMERATION / TOWN

| | | | |
|--|---|--|--|
| | CLASS I (Population 1 00 000 & Above) | | CLASS IV (Population 10 000 - 19 999) |
| | CLASS II (Population 50 000 - 99 999) | | CLASS V (Population 5 000 - 9 999) |
| | CLASS III (Population 20 000 - 49 999) | | CLASS VI (Population Below 5 000) |

and 50.30 lacs in 1991. Similarly, population of Class II UAs/towns which stood at 2.63 lacs in 1901 has risen to 13.73 lacs in 1991. Similar is the pattern with regard to Class III and IV UAs/towns. The following statement gives

the distribution of urban population by size class for each of the censuses since 1901. To make the date more understandable, the proportion of population in different size classes is also given in brackets.

STATEMENT 22

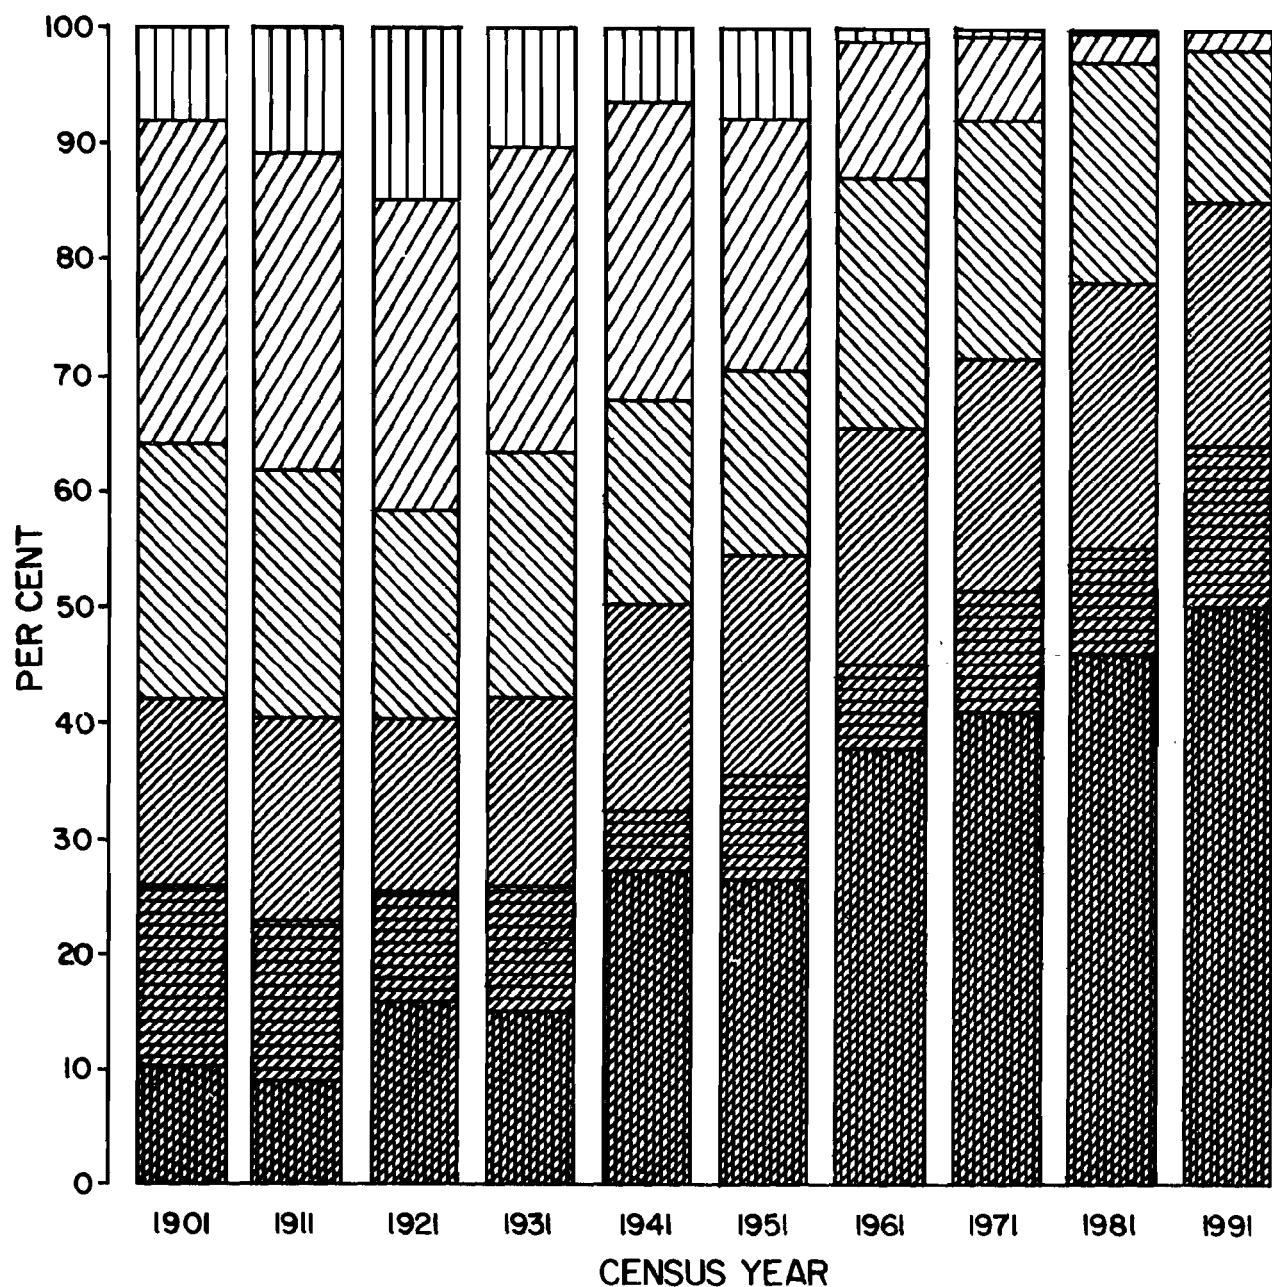

**DISTRIBUTION OF POPULATION BY SIZE OF UAs/TOWNS
(FIGURES WITHIN BRACKETS DENOTE THE PERCENTAGE DISTRIBUTION OF POPULATION)**

| Census Years | All Classes | I | II | III | IV | V | VI |
|--------------|------------------------|----------------------|----------------------|----------------------|----------------------|--------------------|--------------------|
| 1901 | 1,550,656 (100.00) | 160,167 (10.33) | 262,794 (16.95) | 251,420 (16.21) | 325,156 (20.97) | 430,528 (27.76) | 120,591 (7.78) |
| 1911 | 1,475,829 (100.00) | 137,098 (9.29) | 221,804 (15.03) | 240,427 (16.29) | 332,049 (22.50) | 389,232 (26.37) | 155,219 (10.52) |
| 1921 | 1,475,335 (100.00) | 237,408 (16.09) | 142,890 (9.68) | 218,567 (14.81) | 283,051 (19.19) | 385,909 (26.16) | 207,510 (14.07) |
| 1931 | 1,729,205 (100.00) | 268,279 (15.51) | 180,663 (10.45) | 293,783 (16.99) | 365,185 ((21.12) | 453,089 (26.20) | 168,206 (9.73) |
| 1941 | 2,117,101 (100.00) | 582,266 (27.50) | 113,791 (5.37) | 397,565 (18.78) | 372,324 (17.59) | 518,731 (24.50) | 132,424 (6.26) |
| 1951 | 2,955,275 (100.00) | 812,023 (27.48) | 263,650 (8.92) | 570,794 (19.31) | 483,626 (16.37) | 606,192 (20.51) | 218,990 (7.41) |
| 1961 | 3,281,478 (100.00) | 1,264,632 (38.54) | 241,128 (7.35) | 667,337 (20.34) | 700,349 (21.34) | 377,237 (11.49) | 30,795 (0.94) |
| 1971 | 4,543,761 (100.00) | 1,902,212 (41.87) | 488,251 (10.75) | 930,192 (20.47) | 898,425 (19.77) | 308,182 (6.78) | 16,499 (0.36) |
| 1981 | 7,210,508 (100.00) | 3,375,995 (46.82) | 721,047 (10.00) | 1,582,075 (21.94) | 1,341,394 (18.60) | 185,840 (2.58) | 4,157 (0.06) |
| 1991 | 10,040,118 (100.00) | 5,029,554 (50.09) | 1,372,649 (13.67) | 2,139,159 (21.31) | 1,313,669 (13.08) | 182,619 (1.82) | 2,468 (0.03) |

It will be observed that most of the urban population of Rajasthan resides in Class I UAs/towns and there has been a growing tendency to concentrate in the bigger towns. This trend started from 1941 as would be seen from the above statement. Another way of looking at the trend of growth of urban population is to study the percentage distribution of population by different size classes. It will be observed that from 10.33 per cent in 1901 the proportion of population living in Class I UAs/cities has come up to 50.09 per cent in 1991 while this proportion was 27.50 per cent in 1941. Earlier to this, the highest concentration

of population was in smaller towns falling in the population range of 5,000 to 9,999. About 14 per cent of our urban population lives in Class II UAs/towns. Erratic changes in the proportions of population living in such urban units are observed during the past censuses. Class III UAs/towns have generally shown increase in the proportions of population living in such towns. Urban units in Class IV, Class V and Class VI have shown decrease in proportions; notably in the case of Class V, the proportion has gone down from 27.76 in 1901 to 1.82 per cent in 1991, and, in case of Class VI from 7.78 in 1901 to 0.03 per cent in 1991.

RAJASTHAN
PROPORTION OF URBAN POPULATION
BY SIZE CLASS 1901-91

SIZE CLASS OF URBAN AGGLOMERATION/TOWN

| | | | |
|--|------------------------------|--|-----------------------------|
| | CLASS I (100 000 & ABOVE) | | CLASS IV (10 000-19 999) |
| | CLASS II (50 000-99 999) | | CLASS V (5 000-9 999) |
| | CLASS III (20 000-49 999) | | CLASS VI (BELOW 5 000) |

In the preceding paragraphs an attempt has been made to study the pattern of changes that has taken place during the last decade in the urban population in different size class of urban agglomerations/towns. We have noticed that the high rate of increase in population of a size class is partly due to upward movement of urban units from lower size class or partly due to formation of new urban agglomeration or new urban centres declared after 1981 census entering in a particular class. On the contrary, the decline in the population during this period can also be attributed to declassification of the 1981 towns in 1991, besides the movement of towns to the higher size class. The cases of natural growth being negative are hardly two in Rajasthan. Thus one fact emerges that the addition of new towns during the inter-censal period is also one of the

factors which affects the variation of population in different size classes. In Rajasthan, as stated earlier, 26 new places (8 statutory and 18 census towns) have been added in the list of urban centres during the decade 1981–91 thus adding about 2.7 lacs or 2.68 per cent to the total urban population of the state. This development, besides other factors, has also indirectly affected, to some extent, the decennial urban growth of the state as also of the districts in which such new towns are located. The position can be explained in much better way with the aid of the following statement which shows the number and population of places not treated as UAs/towns in 1981 but treated as such in 1991, arranged by size class and the districts in which they are located. The statement that follows gives the details of new towns.

STATEMENT 23

NUMBER AND POPULATION OF PLACES NOT TREATED AS TOWN IN 1981 BUT TREATED AS SUCH IN 1991 ARRANGED BY DISTRICTS AND SIZE

| State/District | Total | | Class-I | | Class-III | | Class-IV | | Class-V | | Class-VI | |

* Constituent of Bharatpur UA.

+ Constituents of Rewa Talai UA.

THE CITY DWELLERS

Out of 215 urban agglomerations/towns in the state in 14 the population exceeds one lac according to 1991 Census. These UAs/cities account for 50.09 per cent of the urban population of the state. This is nearly 3 per cent more than the corresponding population in 1981 which was 46.82 per cent. This indicates that nearly half of the total urban population of the state is concentrated in these UAs/cities. A further break-up of the population of these cities reveal that a little less than one third of this population (30.11 per cent) lives in Jaipur city alone which has now attained the status of a metropolitan city after having crossed one million population. In 7 out of 14 UAs/cities, the population in each is less than 2 lacs. Bhilwara, Ganganagar, Bharatpur UA, Sikar, Pali, Beawar UA and Tonk UA fall in this category. Of these the later three

cities have entered into this category only in 1991. All these seven places together account for 19.76 per cent of the total population living in Class I UAs/cities. The following statement gives the number of UAs/cities of 1981 and 1991 censuses and their population. For a better intra-group comparison among the UAs/cities, they are further sub-classified into five classes as under :

| Size Class | | Population |
|------------|---|---------------------|
| C-1 | : | 1,000,000 and above |
| C-2 | : | 500,000 – 999,999 |
| C-3 | : | 300,000 – 499,999 |
| C-4 | : | 200,000 – 299,999 |
| C-5 | : | 100,000 – 199,999 |

STATEMENT 25

DISTRIBUTION OF CLASS I URBAN AGGLOMERATIONS/CITIES (POPULATION 100,000 & ABOVE) BY DIFFERENT POPULATION SIZES, 1991

| Population Size | 1991 | | 1981 | | Increase/Decrease in | | Growth of popula- tion 1981–91 | Percentage of popula- tion of Class I UAs/Cities | Sex Ratio |
|-------------------------|--------------------------|---------------------|--------------------------|---------------------|--------------------------|---------------|---|--|--------------|
| | No. of UAs/ Cities | Total Population | No. of UAs/ Cities | Total Population | No. of UAs/ Cities | Population | | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| CLASS I | 14 | 5,029,554 | 11 | 3,375,995 | + 3 | (+) 1,653,559 | + 48.98 | 100.00 | 872 |
| C-1 : 1,000,000 & above | 1 | 1,514,425 | 1 | 1,015,160 | – | (+) 499,265 | + 49.18 | 30.11 | 868 |
| C-2 : 500,000 – 999,999 | 2 | 1,185,065 | 1 | 506,345 | + 1 | (+) 678,720 | + 134.04 | 23.56 | 866 |
| C-3 : 300,000 – 499,999 | 3 | 1,124,967 | 2 | 733,834 | + 1 | (+) 391,133 | + 53.30 | 22.37 | 882 |
| C-4 : 200,000 – 299,999 | 1 | 211,162 | 2 | 520,300 | - 1 | (-) 309,138 | - 59.42 | 4.20 | 851 |
| C-5 : 100,000 – 199,999 | 7 | 993,935 | 5 | 600,356 | + 2 | (+) 393,579 | + 65.56 | 19.76 | 878 |

It will be observed from the above statement that there has been a net addition of 1,653,559 persons to the population of Class I urban agglomerations/cities in the state during the inter-censal period 1981–91. Of this, the contribution of C-2 urban agglomerations/cities alone is nearly 41.05 per cent or in other words the largest addition has been in this category. This is partly due to the entering of Kota city in this category. In 1981, Kota was categorised as C-3

city. In the next category of urban agglomerations/cities having population between 3 lacs to 5 lacs (C-3), there is an addition of 3.9 lacs. This is due to the fact that while Ajmer city continues to remain in this category since 1981, Bikaner and Udaipur cities which in 1981 were classified in the lower class (C-4) have now entered into this category. This change has resulted into a substantial decrease in the population of C-4 urban agglomerations/cities which to

some extent has been compensated by the inclusion of Alwar UA which in 1981 was placed in the lower category of C-5 urban agglomerations/cities. Now the net decrease in the population of C-4 urban agglomerations/cities is 309,138 meaning thereby that only 4.2 per cent of the total population living in Class I cities resides in this category. In 1991, there are seven urban agglomerations/cities as against five in 1981 whose population varies between 1 to 2 lac. With the shifting of Alwar city to the next higher class (C-4) and inclusion of three new cities namely Pali, Beawar UA and Tonk UA, there is a net addition of 393,579 persons in this category during the decade 1981-91. This category accommodates 19.76 per cent of the total population living in Class I UAs/cities.

Among these five sub-classes of Class I urban agglomerations/cities, the sex-ratio is the lowest in C-4 urban agglomerations/cities. In sub-class C-1 and C-2 urban agglomerations/cities, there is not much of difference in the sex-ratios. However, in all the Class I urban agglomerations/cities the sex-ratio is in favour of males.

In the following statement all the Class I urban agglomerations/cities have been shown in descending order of their 1991 population. Besides, indicating the decadal growth rate of population for two successive decades and the sex-ratio for 1991, it also gives their ranking at the country level on the basis of their population as compared to other larger urban agglomerations/cities in the country :

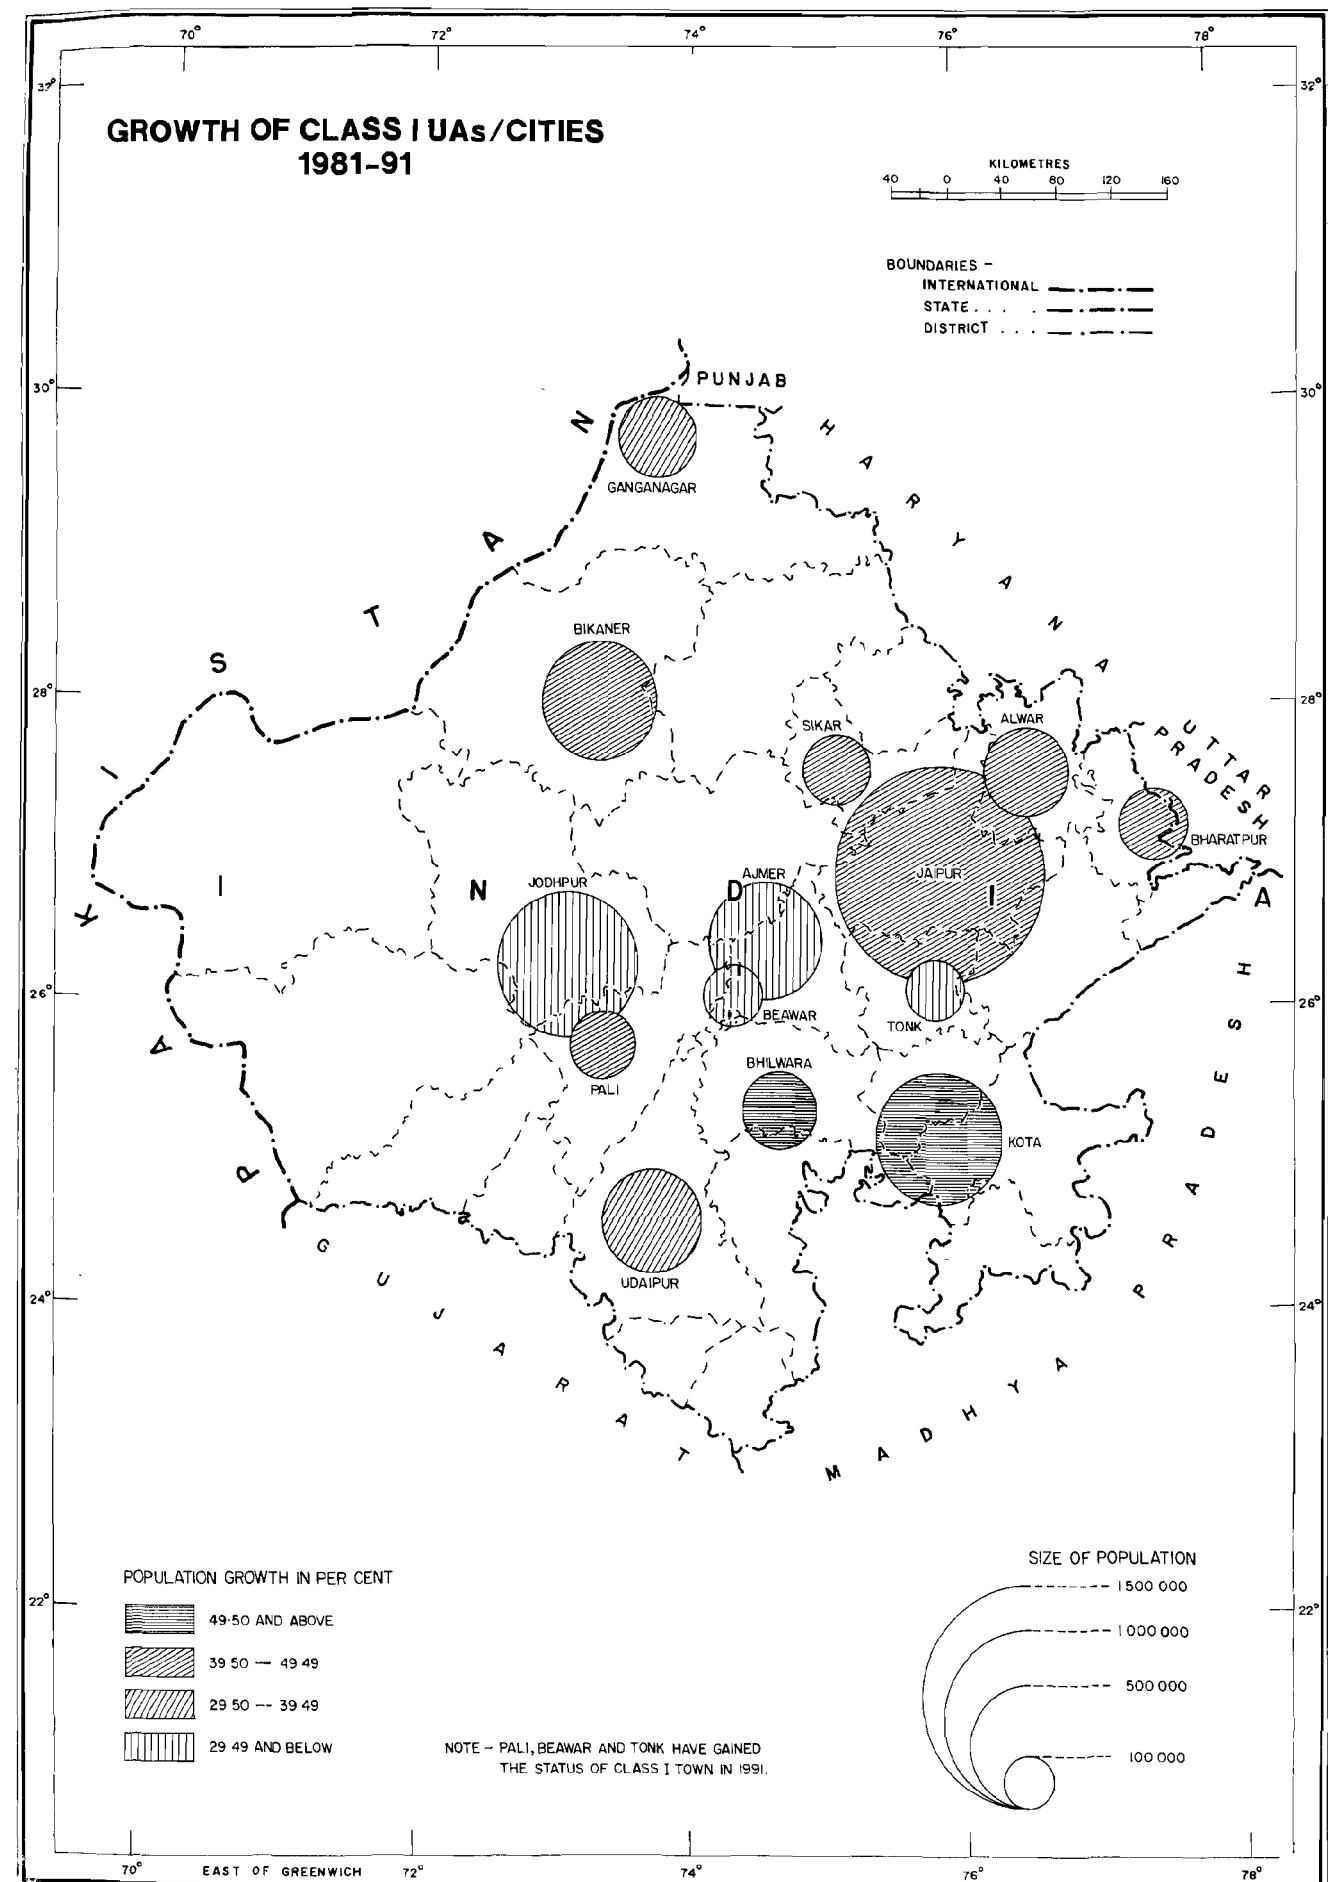

STATEMENT 26

POPULATION, GROWTH RATE & SEX RATIO OF URBAN AGGLOMERATIONS/CITIES WITH A POPULATION OF 100,000 & ABOVE ARRANGED IN DESCENDING ORDER OF POPULATION, 1991

| All India Rank | UA/CITY | Population | | | Growth Rate | | Sex Ratio (1991) |
|----------------|--------------|------------|---------|---------|-------------|---------|------------------|
| | | Persons | Males | Females | 1971-81 | 1981-91 | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| 13 | Jaipur UA | 1,514,425 | 810,664 | 703,761 | 59.42 | 49.18 | 868 |
| 41 | Jodhpur | 648,621 | 347,347 | 301,274 | 59.42 | 28.10 | 867 |
| 51 | Kota | 536,444 | 287,727 | 248,717 | 68.20 | 49.74 | 864 |
| 67 | Bikaner | 415,355 | 223,025 | 192,330 | 37.73 | 44.36 | 862 |
| 71 | Ajmer | 401,930 | 210,588 | 191,342 | 42.11 | 7.01 | 909 |
| 91 | Udaipur | 307,682 | 163,992 | 143,690 | 44.22 | 32.29 | 876 |
| 128 | Alwar UA | 211,162 | 114,087 | 97,075 | 45.25 | 44.83 | 851 |
| 146 | Bhilwara | 183,791 | 98,061 | 85,730 | 49.26 | 49.88 | 874 |
| 169 | Ganganagar | 161,377 | 87,595 | 73,782 | 37.37 | 30.47 | 842 |
| 178 | Bharatpur UA | 156,844 | 84,850 | 71,994 | 50.60 | 48.99 | 848 |
| 190 | Sikar | 148,235 | 77,653 | 70,582 | 45.05 | 43.96 | 909 |
| 206 | Pali | 136,797 | 73,650 | 63,147 | 83.75 | 49.39 | 857 |
| 279 | Beawar UA | 106,715 | 55,770 | 50,945 | 36.13 | 18.57 | 913 |
| 299 | Tonk UA | 100,176 | 51,779 | 48,397 | 39.00 | 29.00 | 935 |

It will be observed that the decadal growth rate of population for various UAs/cities varies substantially. Among 14 urban agglomerations/cities the decadal growth rate (1981-91) is the highest (49.88%) in the case of Bhilwara closely followed by Kota (49.74%), Pali (49.39%) and Jaipur UA (49.18%). The growth rate of population is the lowest (7.01%) in Ajmer which incidentally is the fifth largest city in the state and ranks at position 71 in the country. It had registered a growth of 42.11 percent during the previous decade (1971-81). This unexpected and sub-

stantially low growth rate of population is partly due to the exclusion of 16 villages from the jurisdiction of Ajmer city after 1981 Census. There is none which has registered a decadal population growth rate of more than 50 per cent in 1991 while in 1981 there were four such cities out of 11 at that time. They were; Kota (68.20%), Jaipur UA (59.42%), Jodhpur (59.42%) and Bharatpur (50.60%). Pali which has attained the status of Class I city only in 1991, had also registered a growth rate of 83.75 per cent in 1981 as against 49.39 per cent in 1991. On the other hand,

Bikaner and Bhilwara are the only two cities which had registered a lower decadal growth rate of population in 1981 as compared to 1991. Thus these fourteen class I urban agglomerations/cities exhibit quite a diversified pattern of growth of population not only in 1981-91 but also in the previous decade.

If we look back at the history of the growth of population during the current century we find that years 1921 and 1951 had their own significance. The former being commonly known as the year of "Great Divide" when epidemics were rampant in many areas of the state and took a large toll of the human beings. The year 1951 marks the beginning of the census in 'Independent India' as also the

beginning of a period of rapid population growth. Thus taking the census year 1951 as the bench mark, it will be rewarding to study the pattern of growth of population of these larger cities after Independence. A simple exercise with the help of what are known as Relative Numbers may be of interest. The statement below brings home very lucidly what has precisely happened to our urban population living in these larger cities during these forty years. These relative numbers speak about the story of the growth of population in these urban agglomerations/cities. The statement also gives the inverse ranking of these cities as per population recorded in each census year. This information is quite useful in observing the changes in the ranks of these urban agglomerations/cities of 1991 from 1951 onwards :

STATEMENT 27

RELATIVE NUMBERS OF POPULATION GROWTH OF URBAN AGGLOMERATIONS/CITIES HAVING POPULATION OF MORE THAN ONE LAC IN 1991 AND THEIR INVERSE RANK IN EACH CENSUS YEAR

| Urban Agglomeration/City | Relative Numbers | | | | | Rank (Population) | | | | |
|--------------------------|------------------|------|------|------|------|-------------------|------|------|------|------|
| | 1951 | 1961 | 1971 | 1981 | 1991 | 1951 | 1961 | 1971 | 1981 | 1991 |
| JAIPUR UA | 100 | 135 | 209 | 334 | 498 | 1 | 1 | 1 | 1 | 1 |
| JODHPUR | 100 | 124 | 176 | 280 | 359 | 3 | 3 | 2 | 2 | 2 |
| KOTA | 100 | 185 | 327 | 550 | 824 | 6 | 5 | 4 | 4 - | 3 |
| BIKANER | 100 | 128 | 160 | 221 | 319 | 4 | 4 | 5 | 5 | 4 |
| AJMER | 100 | 118 | 134 | 191 | 204 | 2 | 2 | 3 | 3 | 5 |
| UDAIPUR | 100 | 124 | 180 | 260 | 343 | 5 | 6 | 6 | 6 | 6 |
| ALWAR UA | 100 | 126 | 173 | 252 | 365 | 7 | 7 | 7 | 7 | 7 |
| BHILWARA | 100 | 122 | 236 | 343 | 514 | 13 | 12 | 9 | 9 | 8 |
| GANGANAGAR | 100 | 175 | 247 | 339 | 443 | 12 | 8 | 8 | 8 | 9 |
| BHARATPUR UA | 100 | 133 | 187 | 282 | 420 | 11 | 11 | 11 | 10 | 10 |
| SIKAR | 100 | 115 | 161 | 233 | 336 | 9 | 10 | 10 | 11 | 11 |
| PALI | 100 | 138 | 207 | 380 | 568 | 14 | 14 | 14 | 12 | 12 |
| BEAWAR UA | 100 | 106 | 129 | 176 | 209 | 8 | 9 | 12 | 13 | 13 |
| TONK UA | 100 | 101 | 130 | 181 | 234 | 10 | 13 | 13 | 14 | 14 |

It will be observed from the above statement that Kota, which is a fast industrial developing city, has grown more than eight times during the past forty years from 1951. This rate is highest among the 14 urban agglomerations/cities of 1991. Pali and Bhilwara have also grown quite rapidly as their index crossing 500 marks. The growth of Jaipur UA has been around five times during this period. Ajmer, Beawar UA and Tonk UA did not register much increase as their indices could reach only 204, 209 and 234 respectively during the last four decades. The later two are the least populated amongst the cities of Rajasthan. While

Jodhpur, Bikaner, Udaipur, Alwar UA and Sikar have grown around three and half times; the growth is more than four times in the case of Ganganagar and Bharatpur UA.

Because of the varying degree of growth, the population ranks of these 14 urban agglomerations/cities have also been changing from decade to decade as would be seen from the statement above. Jaipur UA which occupied the prime position in 1901 continues to retain the same till day. On the other hand, while Ajmer occupied the second position in 1951 has been relegated to third

position in 1971 and 1981 and now it has come down to fifth position. Jodhpur which occupied the third position till 1961 had moved to second position in 1971 and it continues to retain the same till now. Bikaner, which had fourth position in 1951 and 1961, dropped to fifth position in 1971 and 1981. It has regained its initial position in 1991. Alwar UA continues to occupy the seventh position since 1951. Beawar UA which has grown only two times in the past four decades has come down to thirteenth position in 1991 from eighth in 1951.

Similar decreasing trend can be seen in the case of Tonk UA. However, Pali, Bhilwara and Bharatpur UA have gained in their rankings. The change in the ranks of these urban agglomerations/cities from 1951 onwards is clearly reflected in the chart.

The following statement presents the decadal absolute variation in population and the growth rate for each of the 14 urban agglomerations/cities of Rajasthan during successive time periods :

STATEMENT 28

VARIATION IN POPULATION AND GROWTH RATES OF CLASS I URBAN AGGLOMERATIONS/CITIES, 1901–1991

a = Increase / Decrease in Population

b = Decadal Growth Rate (In per cent)

| CLASS I UAs/CITIES | a b | 1901–91 | 1981–91 | 1971–81 | 1961–71 | 1951–61 | 1941–51 | 1931–41 | 1921–31 | 1911–21 | 1901–11 |

SEX RATIO

In Rajasthan, as in most parts of the country, the Sex Ratio or in other words the proportion of females per 1,000 males has been adverse to women. When compared to sex ratio of India for the last 90 years, it will be observed that Rajasthan has recorded low sex ratios for all the times. In Rajasthan, it has never remained static or uniform. From 905 and 908 in respective censuses of 1901 and 1911, it declined to 896 in 1921, when it seems that the epidemics took a large toll of the fair sex. The ratio again rose to 907 in 1931. However, in 1941, it declined marginally and stood at 906 but again spurted to 921 in 1951. Greatly declining as it did in 1961 to the level of 908 for no apparent reason, the sex ratio recouped a little and stood at 911 in 1971 and 919 in 1981. Finally in 1991 Census, the sex ratio again declined and now it stands at the level of 913 recording a marginal decrease of 6 females for every 1,000 males. If we look at the rural and urban components of our population, we find almost the same trend. Of course with some exceptions the scarcity of women in proportion to men is everywhere prevalent.

The following statement gives district-wise sex ratio

separately for total, rural and urban areas as also the changes in sex ratios in the state and districts during the last 90 years.

STATEMENT 29

CHANGES IN SEX RATIO (FEMALES PER 1,000 MALES) 1901-1991

| State/District UA/City | Total Rural Urban | Females per 1,000 Males | | | | | | | | | |

The sex ratio at district level is generally high in rural areas as compared to urban areas. The sex ratio in the rural areas of the districts varies from 786 in Dholpur district to 1,005 in Dungarpur district, the only district which has recorded sex ratio favouring fair sex. The sex ratio is higher than the state average (923) in 14 districts ranging from 928 in Tonk district to 1,005 in Dungarpur district. The remaining 13 districts have recorded lower sex ratio than the state average ranging from 786 in Dholpur district to 922 in Jodhpur district. It will be seen that there are 3 districts having sex ratio below 850; 7 with rural sex ratio between 850 to 899; 7 between 900 to 949; 9 between 950 to 999 and the remaining one has sex ratio above 1,000.

The disparity between the two sexes widens considerably in the urban areas. As against the general sex ratio of 913 for the state as a whole, the urban sex ratio slumps to 881. However, there is a welcome feature that while the sex ratio for the state as a whole and for the rural areas has gone down from 919 to 913 for total areas and from 930 to 923 for rural areas, it has improved in urban areas from 877 in 1981 to 881 in 1991 recording a marginal increase of 4 females for every 1,000 males. This trend is noticed in twenty districts namely, Ganganagar, Bikaner, Alwar, Bharatpur, Dholpur, Sawai Madhopur, Jaipur, Ajmer, Tonk, Jaisalmer, Pali, Barmer, Jalore, Sirohi, Udaipur, Chittaurgarh, Banswara, Bundi, Kota and Jhalawar. The increase in these districts ranges from 2 females per 1,000 males in Jalore district to 39 in Banswara district. The sex ratio in the urban areas of various districts varies from 761 in Jaisalmer district to 925 in Churu district. The sex ratio is higher than the state average (881) in 15 districts ranging from 888 in Sirohi district to 925 in Churu district. Jalore district has parity with the state average. 11 districts have lower sex ratio than the state average ranging from 761 in Jaisalmer district to 873 in Jaipur and Kota districts. 7 districts have sex ratio between 900 to 949 in their urban

areas, 16 between 850 to 899 and the remaining 4 have sex ratio below 850.

There are fourteen cities in Rajasthan, including the urban agglomerations of Jaipur, Alwar, Bharatpur, Beawar and Tonk. All these places are in existence as towns ever since 1901 except Ganganagar which sprang up only in 1931. Most of these towns have shown an increasing trend in sex ratio during the decade 1981-91. Only Bhilwara, Sikar and Jodhpur have recorded a decrease of 14, 6 and 5 points respectively in their sex ratio. While Ganganagar has registered a largest increase of 55 points, remaining 10 UAs/cities have registered an increase ranging between 7 to 29 points in their sex ratio; the details being Alwar UA (29), Kota (28), Pali (23), Udaipur (22), Bikaner (15), Bharatpur UA (14), Ajmer (11), Tonk UA (10), Beawar UA (8) and Jaipur UA (7 points). Looking back to the data available since 1901, it will be seen that while Ajmer, Ganganagar, Bharatpur UA and Sikar have registered an increase in the sex ratio during the past 90 years (60 years in case of Ganganagar) ranging from 9 points in Bharatpur to all time high 252 points in Ganganagar city. All the remaining ten cities have registered decrease in the sex ratio during the last 90 years ranging from 39 points in Jodhpur to 125 points in Bikaner. We have earlier stated that the sex ratio in the state as a whole has been erratic as recorded in the various censuses. The same can be said for all the cities with the sole exception of Ganganagar which has continuously shown increase in the sex ratio right from 1931.

Sex Ratio at Tehsil and Town levels

The sex ratio at the tehsil level ranges between 782 in Bari tehsil (Dholpur district) and Jaisalmer tehsil (Jaisalmer district) to 1,053 in Aspur tehsil of Dungarpur district. Thus, it is observed that still lower and still higher sex

ratios than what we have seen at the district level are found in various tehsils. In district Dholpur, tehsil Bari has the lowest sex ratio of only 782 followed by tehsil Baseri (790) of the same district. On the other hand, tehsils Aspur (1,053) and Sagwara (1,004) of Dungarpur district; tehsils Bhim (1,047), Kherwara (1,018) and Deogarh (1,003) of Udaipur district; tehsils Sahara (1,026) and Raipur (1,020) of Bhilwara district; tehsil Desuri (1,004) of Pali district and tehsil Rashmi (1,003) of Chittaurgarh district have higher proportions of females in their population. Of these except Aspur and Sagwara tehsils of Dungarpur district, tehsils Kherwara and Bhim of Udaipur

district and tehsil Rashmi of Chittaurgarh district, the remaining four did not have sex ratio favouring the fair sex in 1981. Out of the total number of 213 tehsils, nineteen have sex ratio below 850; fifty between 850 to 899; eighty five between 900 to 949; fifty between 950 to 999 and the remaining nine tehsils have sex ratio of 1,000 and above. While it is difficult to assign any reason for the extra-ordinary high or extra-ordinary low sex ratio obtaining in some areas, some areas are known to have such sex ratio in the past also. Particularly the tribal areas are known to have high sex ratios. The following statement classifies various tehsils by different ranges of sex ratio :

STATEMENT 30

SEX-RATIO IN TEHSILS, 1991

| Ranges of Sex-Ratio | Tehsils (Sex-Ratio in brackets and district's name in CAPITAL) |
|---------------------|---|
| Below 850 | GANGANAGAR-Sadulshahar (837), Suratgarh (841); BHARATPUR-Deeg (831), Nadbai (826), Kumher (832), Bharatpur (838), Weir (841), Bayana (800), Rupbas (822); DHOLPUR-Baseri (790), Bari (782), Dholpur (806), Rajakhera (791); SAWAI MADHOPUR-Hindaun (843), Karauli (830), Sapotra (842); JAISALMER-Jaisalmer (782), Pokaran (845); BARMER-Sheo (830). |
| 850-899 | GANGANAGAR-Ganganagar (852), Sangaria (882), Tibi (899), Hanumangarh (881), Pilibanga (873), Vijainagar (875), Anupgarh (857), Gharsana (869); BIKANER-Bikaner (870), Kolayat (880); ALWAR-Tijara (856), Bansur (891), Alwar (864), Thanagazi (898), Rajgarh (888), Lachhmangarh (866); BHARATPUR-Pahari (877), Kaman (853), Nagar (851); SAWAI MADHOPUR-Mahwa (857), Todabhim (851), Nadoti (867), Bamanwas (871), Gangapur (860), Bonli (887), Sawai Madhopur (881), Khandar (855); JAIPUR-Sanganer (890), Jaipur (869), Dausa (884), Baswa (890), Sikrai (895); AJMER-Nasirabad (865); JODHPUR-Jodhpur (883); BARMER-Pachpadra (898), Barmer (858), Chohtan (884); SIROHI-Abu Road (897); BUNDI-Hindoli (894), Nainwa (887), Bundi (885), Keshoraipatan (898); KOTA-Pipalda (890), Digod (894), Shahbad (878), Ladbura (871), Ramganj Mandi (885), Atru (894), Chhabra (885); JHALAWAR-Khanpur (897). |
| 900-949 | GANGANAGAR-Karanpur (902), Padampur (900), Raisinghnagar (900), Rawatsar (900), Nohar (904), Bhadra (904); BIKANER-Lunkaransar (905), Nokha (927); CHURU-Rajgarh (940), Sardarshahar (926), Churu (937), Dungargarh (943), Ratangarh (945), Sujangarh (946); JHUNJHUNUN-Chirawa (926), Khetri (926); ALWAR-Behror (939), Mandawar (926), Kishangarh Bas (904), Ramgarh (904); JAIPUR-Kotputli (907), Viratnagar (906), Shahpura (909), Chomu (913), Phulera (919), Dudu (920), Phagi (907), Amber (911), Jamwa Ramgarh (905), Bassi (904), Chaksu (908), Lalsot (901); SIKAR-Sikar (947), Neem Ka Thana (917), Sri Madhopur (941); AJMER-Ajmer (915), Kishangarh (916), Beawar (942), Sarwar (948), Kekri (948); TONK-Malpura (932), Niwai (936), Todaraisingh (945), Tonk (923), Deoli (904), Uniara (913); JODHPUR-Phalodi (908), Osian (921), Bhopalgarh (937), Sherigarh (918), Bilara (925); NAGAUR-Nagaur (926), Merta (931), Parbatsar (942), Nawa (948); PALI-Jaitaran (935), Pali (909); BARMER-Baytoo (924), Gudha Malani (916), Siwana (934); JALOR-Jalor (948), Sanchore (919), Bhinmal (942), Raniwara (921); SIROHI-Reodar (948); |

| Ranges of Sex-Ratio | Tehsils (Sex-Ratio in brackets and district's name in CAPITAL) |
|---------------------|---|

At the town level, the sex ratio ranges from 511 in Bhiwadi census town of Alwar district to 1,007 in Mandawa town of Jhunjhunun district. When compared to sex ratio of the urban areas at district level, it is observed that still lower and higher sex ratios are prevalent in various towns. Out of 222 towns in the state, thirty two towns have sex

ratio below 850; seventy nine between 850 to 899; eighty three between 900 to 949; twenty seven between 950 to 999 and only one town has sex ratio above 1,000.

The following statement classifies various towns by different ranges of sex ratio :

STATEMENT 31

SEX-RATIO IN TOWNS, 1991

| Ranges of Sex-Ratio | Towns (Sex-Ratio in brackets and district's name in CAPITAL) |
|---------------------|---|
| Below 850 | GANGANAGAR-Ganganagar (842), Raisinghnagar (815), Vijainagar (847), Anupgarh (813), Rawatsar (849); JHUNJHUNUN-Vidyavihar (575), Gothra (806), Khetri (842); ALWAR-Behror (816), Bhiwadi (511), Kherli (839); BHARATPUR-Kaman (849), Nadbai (849), Kumher (845), Sewar Kalan (797); DHOLPUR-Bari (842), Dholpur (843), Rajakhera (834); SAWAI MADHOPUR-Mahwa (845); JAIPUR-Bandikui (849); AJMER-Nasirabad (746); TONK-Deoli (776); JAISALMER-Jaisalmer (741) Pokaran (816); BARMER-Balotra (820), Barmer (824); SIROHI-Mount Abu (771); BHILWARA-Gulabpura (842); UDAIPUR-Kanor (847), Bhalariy (788); CHITTAURGARH-Rawatbhata (830); BANSWARA-Borkhera (782); |
| 850-899 | GANGANAGAR-Kesrisinghpur (892), Karanpur (893), Sadulshahar (850), Sangaria (888), Hanumangarh (850), Pilibanga (860), Padampur (881), Gajsinghpur (850), Suratgarh (857), Nohar (887), Bhadra (897); BIKANER-Bikaner (862); CHURU-Sardarshahar (891), Churu (898); JHUNJHUNUN-Pilani (861); ALWAR-Khairthal (881), Alwar (851), Rajgarh (888); BHARATPUR-Nagar (853), Deeg (865), Bharatpur (851), Weir (862), Bayana (851); SAWAI MADHOPUR-Todabhim (897), Hindaun (862), Gangapur city (859), Karauli (893), Sawai Madhopur |

| Ranges of Sex-Ratio | Towns (Sex-Ratio in brackets and district's name in CAPITAL) |
|---------------------|--|

PALI-Jaitaran (906), Raipur (948), Sojat (936), Sojat Road (939), Marwar Junctior. (927), Rani (924), Phalna (902), Bali (939); BARMER-Siwana (931); JALOR-Bhinmal (916); SIROHI-Sheoganj (944), Bhawri (932); BHILWARA-Shahpura (930), Jahazpur (940), Gangapur (949), Mandalgarh (924), Beejoliya Kalan (946); UDAIPUR-Amet (926), Rajsamand (917), Nathdwara (920), Salumbar (943); CHITTAURGARH-Begun (939), Kapasan (947), Nimbahera (929), Chhoti Sadri (947), Pratapgarh (930); BANSWARA-Banswara (912), Kushalgarh (940); BUNDI-Bundi (900), Indragarh (924), Lakheri (924); KOTA-Mangrol (910), Baran (900), Kaithoon (935), Satal Kheri (918), Sangod (902); JHALAWAR-Khanpur (907), Jhalrapatan (933), Manoharthana (929), Kolvi @ Rajendrapura (914). |
| 950-999 | BIKANER-Deshnoke (978); CHURU-Ratannagar (951), Dungargarh (961), Rajaldesar (979), Chhapar (951); JHUNJHUNUN-Bissau (974); BHARATPUR-Bhusawar (977); SIKAR-Ramgarh (989), Fatehpur (963), Losal (992); NAGAUR-Ladnu (952), Mundwa (951); PALI-Nimaj (964), Sadri (995), Takhatgarh (982); SIROHI-Pindwara (972); BHILWARA-Asind (962), Mandal (993); UDAIPUR-Deogarh (952), Fatehnagar (964), Bhinder (968); CHITTAURGARH-Bari Sadri (960); DUNGARPUR-Sagwara (951), Galiakot (988); BANSWARA-Partapur (977); JHALAWAR-Sunel (953), Pirawa (961). |
| 1,000 & above | JHUNJHUNUN-Mandawa (1,007). |

Out of 14 Class I UAs/cities in the state, the lowest sex ratio (842) is returned in Ganganagar while the highest sex ratio (935) is recorded in Tonk UA closely followed by Beawar UA (913) and Ajmer and Sikar cities each registering sex ratio of 909 females per 1,000 males. All the remaining cities have sex ratio

below 900 viz.; Udaipur (876), Bhilwara (874), Jaipur UA (868), Jodhpur (867), Kota (864), Bikaner (862), Pali (857), Alwar UA (851), Bharatpur UA (848) and Ganganagar (842).

As expected the sex ratio is generally lower in the

urban areas. It is quite common in some parts of the state, specially in the areas which are in close proximity to the developing cities/towns, that people go to the urban centres in search of employment leaving their family behind in rural areas and they take their families

with them only after their position is secured.

The following statement identifies the tehsils/towns recording the highest and the lowest sex ratio at the state and district level :

STATEMENT 32

TEHSILS AND TOWNS WITH HIGHEST AND LOWEST SEX RATIO IN DISTRICTS

| State/District | TEHSILS (TOTAL AREAS) | | TOWNS | |
|-------------------|--------------------------|---------------------------------------|----------------------------|--------------------------|
| | Highest | Lowest | Highest | Lowest |
| RAJASTHAN | Aspur (1,053) | Bari & Jaisalmer (782) | Mandawa (1,007) | Bhiwadi (511) |
| 1. Ganganagar | Nohar & Bhadra (904) | Sadulshahar (837) | Bhadra (897) | Anupgarh (813) |
| 2. Bikaner | Nokha (927) | Bikaner (870) | Deshnoke (978) | Bikaner (862) |
| 3. Churu | Taranagar (950) | Sardarshahar (926) | Rajaldesar (979) | Sardarshahar (891) |
| 4. Jhunjhunun | Jhunjhunun (972) | Chirawa & Khetri (926) | Mandawa (1,007) | Vidyavihar (575) |
| 5. Alwar | Behror (939) | Tijara (856) | Govindgarh (936) | Bhiwadi (511) |
| 6. Bharatpur | Pahari (877) | Bayana (800) | Bhusawar (977) | Sewar Kalan (797) |
| 7. Dholpur | Dholpur (806) | Bari (782) | Dholpur (843) | Rajakhera (834) |
| 8. Sawai Madhopur | Bonli (887) | Karauli (830) | Todabhim (897) | Mahwa (845) |
| 9. Jaipur | Dudu (920) | Jaipur (869) | Viratnagar (944) | Bandikui (849) |
| 10. Sikar | Fatehpur (991) | Neem Ka Thana (917) | Losal (992) | Neem Ka Thana (864) |
| 11. Ajmer | Sarwar & Kekri (948) | Nasirabad (865) | Sarwar (948) | Nasirabad (746) |
| 12. Tonk | Todaraisingh (945) | Deoli (904) | Todaraisingh (938) | Deoli (776) |
| 13. Jaisalmer | Pokarān (845) | Jaisalmer (782) | Pokaran (818) | Jaisalmer (741) |

| State/District | TEHSILS (TOTAL AREAS) | | TOWNS | |
|------------------|------------------------|---------------------|---------------------------------|---------------------|
| | Highest | Lowest | Highest | Lowest |
| 14. Jodhpur | Bhopalgarh (937) | Jodhpur (883) | Bilara (931) | Jodhpur (867) |
| 15. Nagaur | Ladnu (987) | Nagaur (926) | Ladnu (952) | Nagaur (861) |
| 16. Pali | Desuri (1,004) | Pali (909) | Sadri (995) | Pali (857) |
| 17. Barmer | Siwana (934) | Sheo (830) | Siwana (931) | Balotra (820) |
| 18. Jalore | Ahore (985) | Sanshore (919) | Bhinmal (916) | Jalore (861) |
| 19. Sirohi | Sirohi (985) | Abu Road (897) | Pindwara (972) | Mount Abu (771) |
| 20. Bhilwara | Sahara (1,026) | Mandalgarh (907) | Mandal (993) | Gulabpura (842) |
| 21. Udaipur | Bhim (1,047) | Girwa (900) | Bhinder (968) | Bhalariya (788) |
| 22. Chittaurgarh | Rashmi (1,003) | Begun (910) | Bari Sadri (960) | Rawatbhata (830) |
| 23. Dungarpur | Aspur (1,053) | Simalwara (976) | Galiakot (988) | Dungarpur (853) |
| 24. Banswara | Ghatol (981) | Kushalgirh (961) | Partapur (977) | Borkhera (782) |
| 25. Bundi | Keshoraipatan (898) | Bundi (885) | Indragarh & Lakheri (924) | Kaprain (860) |
| 26. Kota | Sangod (907) | Ladpura (871) | Kaithoon (935) | Kota (864) |
| 27. Jhalawar | Gangdhar (941) | Khanpur (897) | Pirawa (961) | Jhalawar (872) |

In the preceding paragraphs we had discussed the sex ratio for the rural and urban components of our population. It will be interesting to study the sex ratio of urban population of the state at the level of different size classes of UAs/towns. As already stated there are 14 UAs/cities having population over one lac; another 20 within a population range of 50,000 to 99,999; 71 within range of 20,000 to

49,999; 87 in 10,000 to 19,999 range; 22 with having population between 5,000 to 9,999 and only one has a population less than 5,000. The following statement provides the average sex ratio worked out for various classes of UAs/towns and also the range of variation of sex ratio in such towns. For this classification the towns which are constituent of any UA have not been treated as independent towns :

STATEMENT 33

SEX RATIO IN VARIOUS SIZE CLASS OF URBAN AGGLOMERATIONS/TOWNS

| Size class of UAs/ Towns | Males | Females | No. of UAs/ Towns | Average Sex- ratio | Range of variation of Sex- ratios |
|-------------------------------------|--------------|----------------|----------------------------------|-----------------------------------|--|
| 1 | 2 | 3 | 4 | 5 | 6 |
| I | 2,686,788 | 2,342,766 | 14 | 872 | 842 to 935 |
| II | 727,486 | 645,163 | 20 | 887 | 824 to 963 |
| III | 1,134,618 | 1,004,541 | 71 | 885 | 741 to 995 |
| IV | 691,455 | 622,214 | 87 | 900 | 511 to 1007 |
| V | 95,088 | 87,531 | 22 | 921 | 850 to 988 |
| VI | 1,380 | 1,088 | 1 | 788 | 788 |

It will be seen that Class I UAs/cities have the lowest average sex ratio with the sole exception of a lone small census town in Class VI. The range of variation is from 842 at Ganganagar to 935 at Tonk UA. Most of the cities are fast developing and people have temporarily started living there without their families. The average sex ratio in Class II UAs/towns is 887 and it varies from 824 in Barmer to 963 in Fatehpur of Sikar district. In the case of 71 Class III UAs/towns while the average is 885, the sex ratio varies between 741 in Jaisalmer to 995 in Sadri of Pali district. In case of Class IV UAs/towns numbering 87, the sex ratio varies between 511 in Bhiwadi census town of Alwar

district to 1,007 in Mandawa of Jhunjhunun district. Bhiwadi is a fast developing industrial town and the reason for the lowest sex ratio is that male population has migrated to this town in large number for employment leaving behind their families. Construction activities are still going on the large scale and there is dearth of living accommodation in this town. The average sex ratio in this category works out to 900. There are 22 UAs/towns in Class V, the average sex ratio is 921 and the range of variation is from 850 in Gajsinghpur town of Ganganagar district to 988 in Galiakot of Dungarpur district. There is only one census town in Class VI having population less than 5,000.

RAJASTHAN IN NATIONAL SCENARIO

In terms of population, Rajasthan ranks at number nine amongst the various states in India. In 1981 also it had attained the same position. Sixteen states are smaller than Rajasthan, while the remaining eight states namely; Uttar Pradesh, Bihar, Maharashtra, West Bengal, Andhra Pradesh, Madhya Pradesh, Tamil Nadu and Karnataka are larger in population size.

It will be observed that the population of Rajasthan is even less than one third that of Uttar Pradesh, the most populous state in India. The population of Bihar is about double that of Rajasthan and Gujarat's population is little less than it. The population of Jammu & Kashmir, Himachal Pradesh in the north; and, Tripura, Manipur, Meghalaya, Nagaland and Sikkim in the eastern parts of the country taken together is even less than half of Rajasthan's population.

In 1991 Census, for the country as a whole, 4,689 places were identified as towns as against 4,029 in the 1981 Census. Rajasthan now has only 222 towns as against 201 in 1981. Of these as many as 196 are statutory towns and 26 are census or non-municipal towns as against 192 and 9 respectively in 1981. While at the country level out of 4,029 towns of the 1981 Census 93 towns are declassified and 103 towns were fully merged with other towns by statutory notifications of the concerned governments during 1981-91, in Rajasthan the number of declassified and merged towns was 2 and 3 respectively. At all India level, as many as 856 new towns (277 statutory and 579 census towns) were added to the urban frame of the 1991 Census. In Rajasthan, this number stood at 26 (8 statutory and 18 census towns).

As stated earlier, the concept of urban agglomeration adopted at the 1971 Census had remained operative in the 1981 and 1991 Censuses. There were in all 276 urban agglomerations in the country in 1981. This number has now increased to 381 in 1991. In Rajasthan's share we have now 19 as against 12 in 1981. In these 19 urban agglomerations 26 cities/towns are included.

Among the major states, Maharashtra today is the most

urbanised state with 38.73 per cent of its population living in urban areas. It is followed by Gujarat (34.40), Tamil Nadu (34.20), Karnataka (30.91), Punjab (29.72), West Bengal (27.39), Andhra Pradesh (26.84) and Kerala (26.44). In all these States the proportion of urban population to total population is higher than the national average of 25.72 per cent. Rajasthan with its 22.88 per cent population living in urban areas is among those states whose proportion of urban population is below the national average. Other major states are Haryana (24.79), Madhya Pradesh (23.21), Uttar Pradesh (19.89), Orissa (13.43), Bihar (13.17) and Assam (11.08). The urban proportion is the lowest (8.47) in Dadra & Nagar Haveli.

The decade 1981-91 has experienced a few changes in the ranks of the states based on their urban population. Union Territory of Delhi which in 1981 occupied the second position has now moved to the prime position. Dadra & Nagar Haveli has slipped to the bottom position in 1991 while in 1981 it occupied the last but one position. Rajasthan where little less than 23 per cent population still lives in urban areas has slipped from 19th position in 1981 to 21st in 1991. Madhya Pradesh and Kerala which had lower ranking than Rajasthan in 1981 have improved in their level of urbanisation during the decade.

The contribution made by various States and Union Territories in India's urban population also varies much. The states of Maharashtra, Uttar Pradesh, Tamil Nadu, West Bengal, Andhra Pradesh have together contributed slightly more than half of India's urban population. Rajasthan's contribution towards India's total urban population is only 4.62 per cent as against 4.52 in 1981. However, it still holds the same position (10) amongst other states and union territories which it had in 1981.

It is of interest to note that the growth rate of population has fallen in majority of states and union territories in 1991. The states which have registered higher growth rates are Andhra Pradesh, Arunachal Pradesh, Assam, Madhya Pradesh, Maharashtra, Nagaland, Tripura and West Bengal. Among the union territories; Daman & Diu, Lakshadweep and Pondicherry have also registered higher

growth rate than in the past decade 1971-81. At the country level the growth rate has fallen from 24.66 per cent in 1981 to 23.50 per cent in 1991 while in Rajasthan there has been steep fall from 32.97 per cent in 1981 to 28.07 per cent in 1991.

The states and union territories have shown wide variation in their urban population growth rates during the period 1981-91. Mizoram with an urban growth rate of 160.27 per cent has topped all the States/UTs while Sikkim with a negative urban growth rate (-27.60 per cent) is at the bottom. Rajasthan has registered a growth rate of 28.07 per cent (25.10 per cent for rural areas and 39.24 per cent for urban areas) which is higher than the national average of 23.56 per cent (19.71 per cent for rural areas and 36.19 per cent for urban areas).

There are in all 300 class I urban agglomerations/cities in India of which only 14 are in Rajasthan. The giant state of Uttar Pradesh has the highest share of UAs/cities. Five states namely; Maharashtra, Uttar Pradesh, West Bengal, Tamil Nadu and Andhra Pradesh alone account for about 50 per cent of the class I urban agglomerations/cities and contribute more than 55 per cent of the India's urban population living in class I UAs/cities. With the exception of union territories of Chandigarh and Delhi which are almost urban, Rajasthan is one of those states in which class I UAs/cities account for more than half of the total urban population. Other States/UTs are Andhra Pradesh, Bihar, Gujarat, Haryana, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Meghalaya, Punjab, Tamil Nadu, Uttar Pradesh, West Bengal and Pondicherry.

Rajasthan has only one town (Borkhera in Banswara district) which has a population of less than 5,000 as against 197 in the country. The major share (40) of these small towns is in Uttar Pradesh.

Rajasthan is one of those states in which the increase in the population living in class II urban agglomerations/towns has been more than 50 per cent. The others are Bihar, Haryana, Maharashtra, Orissa and Punjab. In the states of Andhra Pradesh, Gujarat, Kerala, Madhya Pradesh, Punjab, Uttar Pradesh and Union Territory of Pondicherry,

the population living in class I UAs/cities has increased by over 50 per cent, highest being in Kerala (100.85 per cent). The decadal increase of population living in class III UAs/towns is reported to be more than 50 per cent in Himachal Pradesh, Madhya Pradesh, Manipur, Meghalaya, Tripura, Uttar Pradesh and Daman & Diu. On the other hand, Goa, Mizoram, Kerala, Meghalaya, Tripura, Pondicherry and Madhya Pradesh are those States/UTs where the decadal increase was more than 50 per cent in class IV UAs/towns.

Besides Rajasthan, Punjab, Andhra Pradesh, Orissa, Maharashtra and Uttar Pradesh are those states in which negative growth rate has been registered in the population living in class V and class VI UAs/towns. While Manipur, Sikkim and West Bengal are the other three states which have registered negative growth rate in the population living in class VI towns; Nagaland, Gujarat, Delhi, Haryana, Tamil Nadu, Karnataka, Arunachal Pradesh and Himachal Pradesh are those States /UTs which have registered negative growth rate in the population living in their class V towns only.

There are 23 metropolitan urban agglomerations/cities in the country with a population of more than one million each. Though these are scattered among all the major states their concentration is more in Gujarat, Maharashtra, Tamil Nadu and Uttar Pradesh each having three such metropolitan UAs/cities. Andhra Pradesh and Madhya Pradesh have two each and other seven are distributed among Bihar, Karnataka, Kerala, Punjab, West Bengal, Delhi and Rajasthan.

In Rajasthan, Jaipur has earned the distinction of being classified as a metropolitan city. It now ranks at 13th position at the national level. While the first four such UAs/cities are Greater Bombay, Calcutta, Delhi and Madras, the least populous metropolitan UA/city in the country is Ludhiana.

Eleven Annexures which now follow present the basic 1991 Census data, though in provisional form, for the country as a whole as also for its states and the union territories.

* The 1991 Census has not been held in Jammu & Kashmir. Total, rural and urban population include projections for Jammu & Kashmir as on 1.3.1991, made by the Standing Committee of Experts on Population Projections (October, 1989). The projected population figures exclude population of area under unlawful occupation of Pakistan and China where census could not be taken.

Literates do not include figures for Jammu & Kashmir where the 1991 Census has not been held.

† Includes 78,114 sq. km. under illegal occupation of Pakistan and 5,180 sq. km. illegally handed over by Pakistan to China and 37,555 sq. km. under illegal occupation of China in Ladakh district.

* While working out the proportions for India from columns 3 to 11 projected figures as on March 1, 1991 for Jammu & Kashmir State as projected by the Standing Committee of Experts on Population Projections (October, 1989) and interpolated figures for 1981 for Assam have been included.

@ Density has been worked out on comparable data.

X As the 1981 Census could not be held in Assam, the percentage of urban population in col. 3 for Assam related to 1971 Census and growth rates in columns 5,6 and 7 relate to the period 1971-91.
