## P R E F A C E

THE CENSUS of 1961 in Nagaland was taken during an important transitory period in the history of this part of the Indian Union. On 1st December 1957 a separate administrative unit known by the name 'Naga Hills Tuensang Area' came into existence. It comprised the former Naga Hills District of Assam and the Tuensang Frontier Division of the North-East Frontier Agency. This administrative unit was placed under the Ministry of External Affairs of the Government of India and administered through the Governor of Assam acting as the agent to the President of India.

From 18th February 1961, in deference to the wishes of the Naga people this centrally-administered territory was called "NAGALAND" and a Council designated as the "Interim Body" was constituted. The full-fledged State of Nagaland was inaugurated by the President of India on 1st December 1963 as the sixteenth State of the Indian Union.

As Nagaland is a small compact area, it was from the very beginning considered unnecessary to set-up any elaborate Census machinery in Nagaland. Pursuant to this, it was decided that the tabulation work of Nagaland would be undertaken by the Superintendent of Census Operations, Assam. Hence, the main tables in this volume have been prepared in the Census Tabulation Office, Shillong (Assam). I am thankful to Shri E. H. Pakyntein, Superintendent of Census Operations, Assam and his tabulation staff for the keen interest taken in preparing these tables. I am also grateful to Shri. K. D. Ballal, Central Tabulation Officer, Office of the Registrar General, India, New Delhi and his staff for thoroughly checking them.

By 1961, the administrative set-up of Nagaland had undergone many changes from what it was in 1951. Also new Districts and Subdivisions, and even villages had come into existence. Therefore several new problems had to be tackled for organising the 1961 Census Operations. However, all tangible aspects of the various tables have been explained in this volume as fully as possible.

Table SCT-V was prepared on a 20% (twenty per cent) sample households drawn from the Household Schedules and all the other tables have been prepared on full count from the individual slips. The relevant extracts from the Manual of Instructions to Enumerators relating to Questions 2, 3, 5(b), 5(c), 6, 7(a), 7(b), and 8 to 12 on the basis of which these tables have been prepared are reproduced in the Annexure to this Introduction. The material obtained in this census on the Scheduled Castes and Scheduled Tribes is important for the planning of the numerous schemes for the welfare, advancement and development of these communities. The detailed data presented in these tables will be more useful in assessing the progress made by these communities in education, economic development *etc.* This will also be helpful in implementing future developmental work to improve the conditions of the Scheduled Castes and Scheduled Tribes as such detailed statistics have not been collected in any of the previous Censuses.

#### **Scheduled Castes and Scheduled Tribes**

Certain special safeguards are provided in the Constitution of India for the Scheduled Castes and the Scheduled Tribes. Under Article 46 of the Constitution the State is to promote with special care the educational and economic interests of the weaker sections of the people, and in particular of the

Persons Not at Work Classified by Sex, Type of Activity and Educational Levels for Scheduled Castes

Mother Tongue and Bilingualism for Scheduled Tribes

Persons Not at Work Classified by Sex and Type of Activity for Scheduled Tribes

Scheduled Castes and Scheduled Tribes, and to protect them from social injustice and all forms of exploitation.

The term "Scheduled Castes" means such castes, races, tribes or parts of or groups within such castes, races or tribes as are declared to be Scheduled Castes by the President of India under Article 341(1) of the Indian Constitution. Scheduled Tribes mean such tribes or tribal communities or parts of or groups within such tribes or tribal communities as are declared by the President of India to be Scheduled Tribes under Article 342(2) of the Constitution. It has also to be noted that according to the instructions issued to census enumerators, a Scheduled Caste person may belong to Hindu or Sikh religion only; while a Scheduled Tribe may belong to any religion.

The Articles from the Constitution of India particularly relating to the Scheduled Castes and the Scheduled Tribes, *etc.* which will be of some interests to the readers are reproduced in the Appendix.

No specific list for Scheduled Castes and Scheduled Tribes has been prepared for Nagaland. Hence, as suggested by the Registrar General, India for the Scheduled Castes the list of Scheduled Castes for Assam was adopted. Similarly for the Scheduled Tribes the list as given for Assam under item

I for Kohima and Mokokchung districts and under item 2 for Tuensang district has been followed for enumeration purposes in Nagaland. These lists of Scheduled Castes and Scheduled Tribes which formed the basis of Census enumeration in Nagaland are reproduced below :

The figures returned under the classification "Any Naga Tribes" will reveal that as far as Nagaland is concerned the above list of Scheduled Tribes was not exhaustive as the term does not cover a single composite tribe but a combination of several Naga tribes. Even otherwise the Assam list is vague as it omits the synonyms and generic names of various Scheduled Tribes.

The following statement shows the population of Scheduled Castes and Scheduled Tribes in Nagaland and its three districts.

State/Union Territory & Other Areas/District	Scheduled Castes		Scheduled Tribes	
	Males	Females	Males	Females
1	2	3	4	5
<b>NAGALAND</b>	<b>80</b>	<b>46</b>	<b>171,233</b>	<b>172,464</b>

**Scheduled Castes in 1961 Census**

According to the 1961 Census, the population of the Scheduled Castes in Nagaland is only 126 consisting of 80 males and 46 females. The Scheduled Castes form only 0.034 per cent of the total population in Nagaland.

In all only six Scheduled Castes have been returned in Nagaland. They are :

1. Bansphor
2. Dhupi or Dhobi

3. Kaibartta or Jaliya
4. Mehtar or Bhangi
5. Muchi or Rishi
6. Sutradhar

Out of these six Scheduled Castes, only three Scheduled Castes namely—(1) Dhupi or Dhobi (2) Kaibartta or Jaliya and (3) Mehtar or Bhangi with total population of 31 consisting of 26 males and 5 females found in the rural areas of Nagaland. The distribution of these Scheduled Castes in the rural areas of Nagaland is shown below :

Name of District	Name of Scheduled Castes	Population		
		Persons	Males	Females
1	2	3	4	5
Mokokchung	1. Dhupi or Dhobi	1	1	..
	2. Mehtar or Bhangi	3	3	..
Tuensang	1. Dhupi or Dhobi	12	10	2
	2. Kaibartta or Jaliya	15	12	3

There were no Scheduled Castes in the rural areas of Kohima district. In the urban areas of Nagaland there were in all five Scheduled Castes namely—(1) Bansphor, (2) Dhupi or Dhobi, (3) Mehtar or Bhangi (4) Muchi or Rishi and (5) Sutradhar. The

total population of all these five Scheduled Castes is 95 persons consisting of 54 males and of 41 females. The population details of individual scheduled castes found in urban areas are given below :

Name of District	Name of Scheduled Castes	Population		
		Persons	Males	Females
1	2	3	4	5
Kohima	1. Bansphor	5	5	..
	2. Dhupi or Dhobi	7	6	1
	3. Mehtar or Bhangi	42	18	24
	4. Muchi or Rishi	17	17	..
	5. Sutradhar	22	6	16
Mokokchung	1. Dhupi or Dhobi	2	2	..

The Statement below summarises the percentage of Scheduled Castes for

Nagaland, its three districts and three towns.

STATEMENT SHOWING THE PERCENTAGE OF SCHEDULED CASTES TO TOTAL MALES AND FEMALES BY RURAL AND URBAN AREAS OF EACH DISTRICT OF NAGALAND.

State/Union Territory & other areas/ District/town	Percentage of Scheduled Castes

<b>NAGALAND</b>	<b>0.01</b>	<b>0.45</b>	<b>N</b>	<b>0.55</b>
Kohima District	..	1.89	..	0.82
Mokokchung District	N	0.02	..	..
Tuensang District	0.07	..	N	..
Kohima Town	..	0.20	..	..
Dimapur Town	..	1.20	..	1.90
Mokokchung Town	..	0.05	..	..

It will be observed that 0.025 per cent of Scheduled Castes live in Kohima district and only 0.002 per cent of Scheduled Castes found in Mokokchung district which is less than Tuensang district where percentage of Scheduled Castes is 0.007.

It will be clear from the above that Nagaland has no indigenous Scheduled Castes. The number of Scheduled Castes enumerated in Nagaland are mainly labourers brought in from outside the territory by contractors and businessmen. And therefore strictly speaking these Scheduled Castes cannot be considered as indigenous Scheduled Castes of Nagaland.

Since the population of Scheduled Castes found in Nagaland is negligible, no attempt has been made to study them in detail.

#### Scheduled Tribes in Nagaland

In 1961 Census the population of the Scheduled Tribes in Nagaland was 343 697 consisting of 171 233 males and 172 464 females. The Scheduled Tribes form 93.09 per cent of the total population in Nagaland. Out of this, 90.42 per cent is found in rural areas and only 2.67 per cent in urban areas. The population details of the Scheduled Tribes returned in Nagaland are shown below :

Name of Scheduled Tribes 1	Population

12. Any Naga Tribes	336,820	167,711	169,109
13. Synteng	46	23	23

In the 1961 Census, some Scheduled Tribes returned themselves under generic names and a few people were returned under synonyms locally used. Some were merely returned as "Scheduled Tribes" without specifying any of the above classifications. In a few cases, the name of the sub-tribe or clan alone was returned ; while in others only the name of dialects/languages spoken by a section of tribes was mentioned. All these persons including those who returned themselves as

Angamis, Aos, Chakosangs, Changs, Khiemnungams, Konyaks, Lothas, Phoms, Rengmas, Sangtams, Semas, Shamnyuyangans, Yimchungers, Zeliangas or under any other Naga tribal names have been grouped under the term "Any Naga Tribes".

The following statement shows the total population of Scheduled Tribes in different districts for total, rural and urban areas and the percentage of Scheduled Tribes to the total population in each district.

It will be observed from the above that in Kohima district 86.66 per cent of the population are Scheduled Tribes. Mokokchung district has 94.45 per cent of its population as Scheduled Tribes and Tuensang district has 97.03 per cent. Among the urban units, Mokokchung town has the largest percentage of Scheduled Tribes. In Mokokchung town the percentage of Scheduled Tribes population is 81.68 among males and 91.07 among females which is higher than the Nagaland's average of 44.55 per cent among males and 62.52 per cent among females. Kohima town shows 42.25 per cent of males and 79.25 per cent of females as belonging to Scheduled Tribes. **Q. 2 Age in completed years last birthday**

Write age in years completed last birthday. For infants below one year of age, write 'O'. You will find many persons who cannot state their age correctly. You should assist them to state the correct age. If you are not able to elicit correct age directly, you should stimulate their memory by referring to historical incidents or religious events etc. You may use any local calendar of such events that may have been prepared for the purpose.

**Q. 3 Marital Status**

For never married	Write	NM
Married	Write	M
Widowed	Write	W
Separated or divorced	Write	S

Write 'M' also for persons who are recognised by custom or society as married and for persons in stable *de-facto* union. Even if a marriage is disputed in the locality Write 'M' if the person concerned says he or she is married or in stable *de-facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been divorced in a lawful manner, either by decree of a law court or by a regular social or religious custom but who has not remarried, or a person who has been separated from wife or husband and is living apart with no apparent intention of living together again, Write 'S'. For a prostitute return her marital status as declared by her.

strict write the name of the caste or tribe to which he belongs. For all others, write 'X' in this column.

Do not write the names of Scheduled Castes in general terms as 'Harijan', 'Achhut'. You should ascertain the name of the caste when it is returned and write it. If a person is negligent and insists on calling himself merely 'Harijan' tell him that this description will not earn the person any benefits under the constitution permissible to Scheduled Castes and Scheduled Tribes. This may persuade him to give out the correct name.

Scheduled Castes can belong only to the Hindu or Sikh religions. If a person belongs to a Scheduled Caste, there will be either 'H' or 'S' in the answer to question 5(b). Scheduled Tribes may belong to any religion.

**Q 6 Literacy & Education**

**I. ILLITERATE OR LITERATE**

For a person

- |                                                                                       |       |   |
|---------------------------------------------------------------------------------------|-------|---|
| 1. Who can neither read nor write or can merely read but cannot write in any language | Write | O |
| 2. Who can both read and write                                                        | Write | L |

The test for reading is ability to read any simple letter either in print or in manuscript. The test for writing is ability to write a simple letter. The test for literacy is satisfied if the person can with understanding both read and write.

**II. STANDARD OF EDUCATION**

If the person can both read and write and has also passed a written examination or examinations as proof of an educational standard attained, write the highest examination passed instead of L.

**Q. 7 (a) Mother Tongue**

Write the mother tongue in full including dialect as returned by the person enumerated. Mother tongue is language spoken in childhood by the person's mother to the person or mainly spoken in the household. If the mother died in infancy write the language mostly spoken in the person's home in childhood. In the case of infants and deaf mutes give the language usually spoken by the mother.

**Q. 7 (b) Any other Language (s)**

After recording the mother tongue enquire whether the person knows any other language (s) Indian or foreign, and write the language (s) returned by him against this question. In case he does not know any other language put 'X'.

The number of languages recorded against this question should not be more than two. These languages should be other than his mother tongue which he speaks and understands best and can use with felicity in communicating with others. Such language or languages will exclude dialects of the same language.

**Q. 8 to 11  
Working**

These questions apply only to workers. A person who is working may be working as a Cultivator, as an Agricultural Labourer, at Household Industry or may be doing any other work. You have to record the answers in questions 8, 9, 10 and 11 according as the person is working as a Cultivator or as an Agricultural Labourer or at a Household Industry or doing any other work. He may be engaged in only one of the above four categories or in more than one. Thus a person can be working both as a Cultivator and an Agricultural Labourer, in which case he should be entered both in Q. 8 and Q. 9. Or, he may be working both as Cultivator and at Household Industry in which case he will be entered in Q. 8 and Q. 10. Or, he may be working in any possible combination of 8, 9, 10 and 11, in which case he will be entered in the appropriate places. Or, he may be doing just one kind of work in which case he will be entered in only one of the four questions 8 to 11.

Detailed instructions as to how the answers should be recorded in the individual questions are given against those questions below. You should carefully study them before recording the answers. For an undertrial prisoner enumerated in a Jail he should be recorded for the work or kinds of work he was doing before he was apprehended. Similarly, for a person temporarily in a hospital or similar institution he should be recorded for the kind of work he was doing before he was admitted into hospital or institution. But, for a convict in a prison or for long term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded but I should be recorded in Q. 12 below.

The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry, etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you visited the household. If on the check or revisional round such a person is found to be unemployed no change in the original entry should be made. A person who is working but was absent from his work during the fifteen days preceding the day on which enumerated or even exceeding the period of fifteen days due to illness or other causes should be treated as *worker*. A person who has been offered work but has not actually joined should be treated as *non-worker*. *Work includes not only actual work but effective supervision and direction of work.*

Persons under training as apprentices with or without stipend or wages will be regarded as working.

An adult woman who is engaged in household duties but doing no other productive work to augment the family's resources should not be considered as working for purposes of this question. If, however, in addition to her household work she engages herself in work such as rice pounding for sale

or wages, or in domestic services for wages for others or minding cattle or selling firewood or making and selling cowdung cakes or grass, etc., or any such work she would be treated as a worker.

Persons like beggars, pensioners, agricultural or non-agricultural royalty, rent or dividend receivers, who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce.

A public or social service worker who is actively engaged in public service activity or a political worker who is also actively engaged in furthering the political activity of his party will be regarded as a worker and entered fully in Q. 11.

**Q. 8 Working as  
Cultivator**

For a person working as cultivator write C. For a person not working as cultivator and for a person not working at all put X.

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land or supervision or direction of cultivation of land owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of a land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orchardry or plantation like tea, coffee, rubber, cinchona and other medicinal plantations, should be entered in Q. 10 or Q. 11 as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land will not be treated as working as cultivator. Similarly, a person working in another person's land only as a labourer and has no right or lease or contract on land on which he works, nor is responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation and is paid wages in cash, kind or share such as share of produce (Agricultural Labourer) will not be treated as cultivator in this question.

**Q. 9 Working as  
Agricultural  
Labourer**

Write AL for a person working as agricultural labourer, *i.e.*, a person who works in another person's land only as a Labourer without exercising any supervision or direction in cultivation, for wages in cash, kind or share such as share of produce. For others put X. The labourer should have no right or lease or contract on land on which he works, nor should he be responsible for taking decisions as to which crops to sow and when, or taking the risks of cultivation. A share of the produce goes to him only as wages. He

should have been working as Agricultural Labourer in the last or current cultivating season.

**Q. 10 (a) and 10 (b)  
Household Industry**

If a person is working in a Household Industry write (1) the nature of work done by him in the Household Industry against question 10 (a) and (2) the nature of the Household Industry against questions 10 (b). Otherwise put X in both questions 10 (a) and 10 (b). A Household Industry is defined as an industry conducted by the Head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus the main criterion for Household Industry is the participation of one or more members of a household in rural areas. In the urban areas the industry should be confined to the house. You should carefully keep in mind the definition of Household Industry in the rural area if you are enumerating a rural area and the definition in the urban area if you are enumerating an urban area.

A Household Industry should relate to production, processing, servicing, repairing or making and selling of goods. It does not include professions such as pleader or doctor or barber or waterman or astrologer.

A person though he may not be working in his own Household Industry may be working as a paid employee in another Household Industry. You should, therefore enquire whether the person who is not working in his own Household Industry is working in any other Household Industry and if so, write the nature of the work done by him against question 10 (a) and the nature of the Household Industry against 10 (b).

**Q 10 (c) If  
employee in House-  
hold Industry**

This question will be filled up only for a person who is working as a paid employee in another person's Household Industry. In his or her case write E.E. For all others put X.

The following examples will illustrate how questions 10 (a) to 10 (c) should be filled up for persons working at Household Industry :—

**Q. 10—Working at Household Industry**

(a) Nature of work	(b) Nature of Household Industry	(c) If Employee

15. Bee Keeping	Production of honey	X
16. Tending cattle	Livestock raising	X

**Q. 11 Doing Work other than 8, 9 or 10**

If a worker is not working as a cultivator or as an agricultural labourer or at any Household Industry write the actual work he is doing. If a person is working as a cultivator or as an agricultural labourer or at Household Industry and also does some other work (including dairying or livestock raising, orchard or plantation, etc., as distinct from cultivation of crops) which does not relate to any of the above categories, write the other work he does in this question. If he is engaged in more than one work and neither of them relates to any of the three categories mentioned above write here the work on which he devotes more time.

**Q. 11 (a) Nature of Work**

In the case of persons not working or who work only as cultivator or as agricultural labourer or at Household Industry, put X.

Describe fully the nature of the work done by the person himself. Full and precise information as to the nature of work done by the person should be given either in the vernacular or in English or in vernacular transliteration of English. At previous censuses much trouble has been caused by inadequate answers, and if you do not succeed in obtaining satisfactory information on the individual slips, you will be required to make a further visit for that purpose.

**Q. 11 (b) Industry, Business, Trade, Profession or Service**

In the case of a person who is working and the nature of whose own work has been recorded in question 11 (a), you should write here the nature of industry, business, trade, profession or service in which the person works.

As in the case of question 11 (a), you should describe in detail the nature of industry, business, trade, profession or service in which the person works. Vague answers should be avoided. In the case of industries, the articles which are produced or serviced or repaired, should be given. If more than one article is produced the chief article produced or serviced or repaired should be given. In the case of business or trade the principal article of trade should be described. In the case of service describe the nature of the service to which the person's work belongs. The description should be such that it would be possible to classify the establishment in which the person is working for purposes of industrial classification of the population. The description should be either in the vernacular or in English or in vernacular transliteration of English.

In the case of a person for whom an X is put in Question 11 (a) put an X in this question also.

**Important points to remember in Questions 11 (a) and 11 (b)**

1. Women or children who help with work, such as rice pounding or doing domestic service for wages or minding cattle or selling firewood or making and selling cowdung cakes, grass, etc., should be described fully even if they work part-time. *In the case of married or grown-up women who do any of the work mentioned above in addition to the usual household duties such work should be fully described and HW written in brackets after the full description.*
2. If a person makes the articles he sells, he should be entered as maker and seller of them.
3. Wherever convenient for complete description, the work should be expressed by the vernacular name by which it is known.
4. The following are too vague and must not be used by themselves :  
Scientist, technician, civil servant, clerk, engineer, inspector, checker, foreman, overseer, supervisor, labourer, machinist, assistant, contractor, polisher.
5. **LABOURERS**

For an unskilled labourer usually employed on one sort of work alone, give also the sort of work done, e.g., railway porter, market or bazar porter, labourer employed on road digging, bricklayer's labourer. If accustomed to work on various jobs, write general labourer.

6. **MACHINE OPERATORS**

Always state the kind of machine giving its recognised name, if any.

## 7. SHOP-KEEPERS, RETAIL DEALERS, SHOP ASSISTANTS

If wholly or mainly engaged in selling, write 'Dealer' (if principal) or 'Shop Assistant' or 'Salesman' (if assisting) and state whether the business is wholesale or retail or both. Manufacturer, merchant, agent, broker, refractor, dealer, engineer and iron works etc.

## 11. DOMESTIC SERVICES

In the case of any private servant, *e. g.*, a cook or domestic servant, write only 'private cook or domestic servant'. There is no industry in his case but in the case of persons employed in hotels, restaurants, boarding houses, institutions, etc., the words hotel, restaurant, etc., should be added.

For persons in the employ of firms carrying on two or more businesses, if the businesses are carried on in separate premises then the business carried on at the premises in which the person is employed should be given. If the businesses are carried on in the same premises but each has a separate organisation (*i. e.*, they have separate records of employment, production, etc.) then the appropriate business should be quoted. If, however, the two activities are carried on side by side then the major activity of the firm or establishment should be given.

## 12. COMMERCE

Special care should be taken to see that the distinction between retail and wholesale business is clear. As in industries, the goods handled should be clearly indicated.

For a person who is :

1. an *Employer*, that is, who hires one or more persons in his work described in Q. 11 (a)

For a person for whom an 'X' is put in Qs. 11 (a) and 11 (b) put an X in this question also.

*Explanation :*

(i) An *Employer* is a person who has to employ other persons in order to perform the work entered in Q. 11 (a). That is to say, such a person is not only responsible for his own personal work but also for giving work to others in the business mentioned in Q. 11 (a). But a person who employs domestic servants for household duties or has subordinates under him in an office where he is employed by others, is not an employer, even if he has the power to employ another persons in his office on behalf of his own employer or employers.

(ii) An *Employee* is a person who usually works under some other person for salary or wages in cash or kind. There may be persons who are employed as Managers, Superintendents, Agents, etc., and in that capacity employ or control other workers on behalf of their own employers. Such persons are only employees, as explained above and should not be regarded as employers.

(iii) A *Single Worker* for the purpose of Q. 11 (c) is a person who works by himself but not as Head of Household in a Household Industry. He is not employed by any one else and in his turn does not employ anybody else not even members of his household except casually. This definition of a *Single Worker* will include a person who works in joint partnership with one or several persons hiring no employees, and also a member of a producers' co-operative. Each one of the partners or members of such producers' co-operatives should be recorded as 'Single Worker'.

(iv) A *Family Worker* is a member who works, without receiving wages in cash or kind, in an industry, business or trade conducted mainly by members of the family and ordinarily does at least one hour of work every day during the working season. For the purpose of the entire Q. 11, such an industry should be on a scale larger than what has been covered, in 'House-

hold Industry' in Q. 10 whether run at home or away from home in town or village and even away from village in rural area and should ordinarily be in the nature of a recognised partnership, joint stock company or registered factory. For the purpose of this definition members of a family may be drawn from beyond the limits of the household by ties of blood or marriage. The family worker may not be entitled to a share of the profits in the work of the business carried on either by the person or Head of the House or other relative.

Members of the household who help solely in household duties should not be treated as family workers.

**Q.11 (d) Name of Establishment**

After you have filled up the answers to questions 8 to 11, if you find that in the case of any person more than one productive activity has been recorded *i.e.* more than one of the questions 8, 9, 10, or 11 has been filled up by some work you should ask him which one of the activities that has been recorded for him is his principal work. The principal work is the one on which the person spends most time. Put a ring round the

number of the questions 8, 9, 10 or 11, according to the work on which the person says he spends most time. You should invariably ask for the principal work where more than one work is recorded and put a ring round the question relating to the principal work.

It may be that in a few cases you find that you have recorded more than two productive activities in questions 8 to 11, *i.e.* more than two of the questions 8 to 11, would have been filled up by some work. In such cases you should first ascertain the principal work, *i.e.* the one on which the person spends most time and put a ring round the number of the question. You should then ascertain the work which is the next in importance to his principal work, *i.e.* the work after his principal work which occupies most time. You should put a tick against the question number of that work on the right hand side of the question number. The ring and the tick should be put clearly so that any difficulty will not be felt to recognise them clearly.

**Q. 12 Activity,  
if not working**

This question will apply to a person NOT working.

Write 'X' in this question for a person who is working, that is, for whom you have recorded the work in any of the questions 8 to 11 above.

The following activities should be recorded in the case of persons NOT working :

- |                                                                                                                                                                                                                                                         |       |    |

It presents data for Nagaland, its three districts separately for rural and urban areas. Kohima district has no Scheduled Castes in its rural area and hence it has been omitted from the rural area.

*Fly-leaf*

This table has been prepared in two parts—Part A—for Scheduled Castes and Part B—for Scheduled Tribes. This table furnishes data relating to marital status of the Scheduled Castes and the Scheduled Tribes by broad age-groups. The age-groups adopted in this table are 0-14, 15-44, and 45+. The ages of the persons were recorded in Question 2 of the individual slip in completed years on the last birthday before 1st March 1961. The population has been classified into the following four categories of marital status :

(i) *Never Married :*

This category includes persons who have never been married or who never entered into the state of matrimony

(ii) *Married :*

This category embraces all persons who have been married, whether for the first time or another time. These include

those recognised as married by custom or society and those who are enjoying stable *de-facto* union

(iii) *Widowed :*

This category includes persons whose husbands or wives are dead and who have not remarried

(iv) *Divorced or Separated :*

The persons who have been married before, but their marital ties were broken by law, society or by mutual consent and they have not married again were considered as "divorced". Persons who have been separated from wives or husbands judicially or by mutual agreement and are living apart with no intention of living together again were regarded as "separated".

The table has been prepared for total population only of Nagaland and its three districts without any break-up for rural and urban areas.

**TABLE SCT-III—EDUCATION IN URBAN AND RURAL AREAS FOR  
SCHEDULED CASTES AND SCHEDULED TRIBES**

*Fly-leaf*

This table furnishes data for literacy and educational levels of Scheduled Castes and Scheduled Tribes for Nagaland and the districts separately for urban and rural areas. The table has been prepared in two parts—Part A relates to urban areas and Part B to rural areas and each of these parts has two sections as under :

- (i) Part A (i) — Education in urban areas for Scheduled Castes
- (ii) Part A (ii) — Education in urban areas for Scheduled Tribes
- (iii) Part B (i) — Education in rural areas for Scheduled Castes
- (iv) Part B (ii) — Education in rural areas for Scheduled Tribes

Tuensang district being entirely rural has been omitted from the urban tables. Similarly, Kohima district has been omitted from the rural table—Part B(i) as no Scheduled Caste was found in its rural area.

In the case of urban areas, the following seven educational levels have been shown.

- (1) Literate (without educational level)
- (2) Primary or Junior Basic
- (3) Matriculation or Higher Secondary
- (4) Technical Diploma not equal to Degree
- (5) Non-technical Diploma not equal to Degree
- (6) University Degree or Post-graduate Degree other than Technical Degree ; and
- (7) Technical Degree or Diploma equal to Degree or Post-graduate Degree.

In rural tables, data have been presented for three educational levels, *viz.*, (1) Literate (without educational level) (2) Primary or Junior Basic (3) Matriculation and above.

The definition of literacy was the ability to read and write a simple letter. For a person who could both read and write and had also passed a written examination as proof of an educational level attained, the highest examination passed was recorded.

TABLE SCT-IV PARTS A AND B

RELIGION FOR SCHEDULED CASTES AND  
SCHEDULED TRIBES

## TABLE SCT-IV—RELIGION FOR SCHEDULED CASTES AND SCHEDULED TRIBES

### *Fly-leaf*

This table shows the distribution of Scheduled Castes and Scheduled Tribes belonging to different religions. Part A of this table relates to Scheduled Castes and Part B relates to Scheduled Tribes. As mentioned earlier members of Scheduled Castes can belong either to the Hindu or Sikh religion only, but members of Scheduled Tribes may belong to any religion. In Nagaland there are no members of Scheduled Castes belonging to the Sikh religion. As all the Scheduled Castes in Nagaland belong to the Hindu religion, their figures will be the same as those of the caste-wise population given in Table SCT-I Part A and therefore Table SCT-IV Part A has not been prepared.

Table SCT-IV Part B gives the religion for Scheduled Tribes. It presents the figures for Nagaland and its three districts with rural-urban break-up.

In the 1961 Census, instructions had been given to the enumerators that the religion as returned by the enumerated persons was to be recorded in the enumeration slip. However, there were cases wherein entries were

made in terms of tribes. In Nagaland, majority of the Nagas who are Christians have returned their religion as Christians. Other Nagas who are not Christians and who profess their own tribal religion returned themselves as non-Christians. Some Nagas, mostly from Kohima district have returned their religion as Hindu Naga and they have been presented under Hindus. But it is a fact that the term 'Hindu Naga' is used colloquially and inaccurately to describe Non-Christian Nagas. Some members of the Scheduled Tribes have returned their religion as "Animist" and 'Non-Christians' and they have been included under the head 'Indefinite Belief'. Among the Scheduled Tribes in Nagaland Christianity is the predominant major religion professed by the majority. There are 191,344 Christians, 15,355 Hindus and 93,148 persons professing tribal religion. The number returned as Buddhists and Muslims are extremely small being 6 and 4 respectively while those included under 'Indefinite Beliefs' account for 43,828 and only 12 members of the Scheduled Tribes have not stated their religion.

TABLE SCT-V PARTS A AND B

SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED  
BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN  
RURAL AREAS ONLY FOR SCHEDULED CASTES  
AND SCHEDULED TRIBES

**TABLE SCT-V—SAMPLE HOUSEHOLDS ENGAGED IN CULTIVATION CLASSIFIED BY INTEREST IN LAND AND SIZE OF LAND CULTIVATED IN RURAL AREAS ONLY FOR SCHEDULED CASTES AND SCHEDULED TRIBES**

*Fly-leaf*

This table has been prepared in respect of households of members of Scheduled Castes/ Scheduled Tribes in a 20 per cent sample of all households. The table has been compiled by mechanical tabulation in the office of the Registrar General, India. It is in two parts—Part A for Scheduled Castes and Part B for Scheduled Tribes. Data have been presented only for rural areas in Nagaland and its districts. Cultivating households have been classified according to the size of land cultivated and further cross-tabulated by the three types of interest in land. The different sizes of cultivated land are :

1. Less than one acre
2. 1.0 acre to 2.4 acres
3. 2.5 acres to 4.9 „
4. 5.0 „ to 7.4 „
5. 7.5 „ to 9.9 „
6. 10.0 „ to 12.4 „
7. 12.5 „ to 14.9 „
8. 15.0 „ to 29.9 „
9. 30.0 „ to 49.9 „
10. 50.0 acres and above, and
11. Unspecified

The three types of interests in land are :

1. Owned or held from Government ;
2. Held from private persons for payment in money, kind or share ; and
3. Partly held from Government and partly from private persons for payment in money, kind or share.

Category 1 relates to the total of all plots of land owned or held in ownerlike possession *e.g.*, land held directly from Government under a grant, lease or assignment with rights of permanent, heritable and transferable possession or with rights of permanent and heritable possession but without the rights of transfer or temporary or conditional leases of any kind with the Government. Encroachment of Government land is treated as land held from Government.

Category 2 includes land taken from private persons for payment in money, kind or share with rights of permanent heritable and transferable possession, with rights of permanent, and heritable possession but without the right of transfer and those held under various tenancies or tenures which may be broadly classified as follows :

- (a) tenants holding land with permanent and heritable rights whose land cannot be resumed by the owner on grounds of personal cultivation (such tenants may in some cases have the right of transfer also)
- (b) tenants who have been given permanent rights subject to the right of resumption by the owner (in some cases the tenant has the right to acquire ownership. In other cases, he does not possess the right)
- (c) tenants holding land in areas where interim measures have been enacted for the stay of ejectment or for continuing the leases for specified period
- (d) tenants holding land on temporary leases who are liable to ejectment

- (e) areas held on condition of rendering service either to a village community or to Government (this also includes cases where labourers working in plantations are given some land for cultivation with permanent rights)
- (f) All lands taken—
- (i) for a fixed amount of money,
  - (ii) for a fixed amount of produce,
  - (iii) for a share of the produce,

(iv) for which money is paid partly in cash and partly in kind, and

(v) land held free of consideration.

If a household had land cultivated under Categories 1 and 2 mentioned above, it is classified under Category 3.

These three kinds of interest in land have been denoted by the symbols (a), (b) and (c) respectively under column 1 of the table.

## TABLE SC-1

PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF  
ACTIVITY AND EDUCATIONAL LEVELS FOR  
SCHEDULED CASTES

**TABLE SC-I—PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND  
EDUCATIONAL LEVELS FOR SCHEDULED CASTES**

*Fly-leaf*

This table gives the classification of non-working population among Scheduled Castes. The table has been prepared for total of all Scheduled Castes and not for individual castes separately. Figures have been given for Nagaland and its three districts for total, rural and urban. Kohima district has been omitted from the rural part of the table as there are no Scheduled Castes in its rural areas. Tuensang district being entirely rural, has been omitted from the urban part of the table. The non-working population has been divided into the following Categories :

- (1) Full time student
- (2) Persons seeking employment for the first time
- (3) Persons employed before, but now out of employment and seeking work, and

(4) Others.

The different educational levels into which the non-workers have been classified are as follows :

- (1) Illiterate
- (2) Literate (without educational level)
- (3) Primary or Junior Basic
- (4) Matriculation or Higher Secondary and
- (5) Above Matriculation or Higher Secondary.

In the 1961 Censuss a person who was able to read and write a simple letter was treated as Literate and one who cannot read and write at all was considered as an illiterate. If the person had passed a written examination as proof of an educational standard attained, the highest examination passed was recorded.

**TABLE ST-I—MOTHER TONGUE AND BILINGUALISM FOR SCHEDULED TRIBES**

*Fly-leaf*

This is a special table prepared for Scheduled Tribes only. It shows the languages and dialects spoken as mother tongues by members of the Scheduled Tribes and also data about subsidiary languages, if any spoken by each Scheduled Tribe. Figures have been presented sex wise for Nagaland and all the three districts. Mother tongue is the language spoken by the person from early childhood. The name of the mother tongue is shown horizontally. In columns 2 and 3 have been given the number of males and females

of total speakers of that mother tongue. Columns 4 and 5 show the number of males and females who have been returned as speaking a language subsidiary to that shown horizontally. Column 6 of the table contains run on lines of names of subsidiary languages followed in each case in brackets by number of male and female speakers.
