## FOREWORD

This volume presents tables in Part-IV A of the Tabulation Plan of 1981 Census *viz.*, detailed cross tabulation on Social and Cultural characteristics of the population of the State of Jammu and Kashmir. These tables have been generated on the basis of computerised processing of hundred percent individual slip records of 1981 Census in respect of the State. The publication is a culmination of the process which started with field operations of 1981 Census under the inspiring leadership of Shri P. Padmanabha of the Indian Administrative Service who was Registrar General and Census Commissioner, India, during the period from 7th October, 1977 to 6th October, 1983. The 1981 Census of India was ably conducted in the State by Shri A.H. Khan, of the Indian Administrative Service.

The work of coding and editing of the Individual Slip records was completed in the Directorate of Census Operations, Jammu and Kashmir and the data entry was done mainly by the Data Entry Centre, Chandigarh under the charge of Shri Ardaman Singh, Director of Census Operations Chandigarh, U.T. now retired. Thereafter, the further processes of system design, programming, actual processing on the computer, scrutiny of the computerised tables, writing up of notes and seeing through actual printing of the volume in the press was taken over and seen through by the Office of the Registrar General, India.

This volume is, thus, a product of labours of a team of highly dedicated officers in this organisation. Constraints of space preclude a mention of all the officers at various levels in the various Divisions of the Office of the Registrar General, India who saw this project through its various stages but mention can be made of Wing Commander (Later Group Captain) B. B. Adlakha, Director (Electronic Data Processing) in this organisation from 31st August, 1980 to 1st, August, 1983, Shri S. N. Chaturvedi, Joint Director (Data Processing), Shri K. R. Unni, Joint Director (Programme) and his colleagues, Shri B. K. Maratha, Deputy Director and other officers who saw through the work of data entry and processing at various stages.

The Census Division had taken over the responsibility of overall scrutiny of the tables and preparation of notes of this publication and this work was very ably carried out under the supervision of Shri N. Rama Rao, Assistant Registrar General, and Shri Madan Singh, Senior Research Officer. Detailed scrutiny of these tables was done by S/Shri S. P. Arora, Deputy Director and C.L. Chehra Assistant Director of Census Operations of Jammu and Kashmir and this work was completed within a fortnight. The press-ready copy of the manuscript was completed in the first week of March, 1985.

Since the organisation had, under the guidance of Shri V. S. Verma, the present Registrar General, India, set itself the goal of seeing through all the volumes pertaining to State of Jammu and Kashmir and other States and Union Territories in respect of which processing of data was on hundred percent basis, out by May, 1985, a formidable challenge was posed to Shri Tirath Dass, Joint Director and his colleagues in the Printing Division. I am happy to record that the Printing Division of the organisation as a whole has lived upto this challenge.

New Delhi  
March 21, 1985

V. P. Pandey  
Joint Registrar General, India

## P R E F A C E

The processing of the data collected at the 1981 Census Operations of Jammu and Kashmir State, as of other States and Union Territories of India, was programmed to be mix of manual tabulation of computer processing. The manual tabulation related mainly to the compilation of Primary Census Abstract giving basic information about population by sex down to village/urban block level. In addition, the data pertaining to the distribution of household population by religion based on the religion of the head of household, and by language based on the language mainly spoken in the household was also computed manually.

The second stage of processing consisted of taking on to the magnetic tape the entire census data for computerisation on full count basis for small states like Jammu and Kashmir and on sample basis for major states. The tables presented in this volume are based on this stage of processing of the social and cultural characteristics of population as recorded in the Universal Individual Slip.

The Director of Census Operations, Shri A.H. Khan under whose guidance the entire operations were carried out deserves all credit for the success of the operations but he had to leave the organisation because of his retirement before the volume in question could be made ready for the press.

I must record my deep gratitude to Shri P. Padmanabha, Ex-Registrar General, India and Shri V.S. Verma, the present Registrar General, India, for their inspiring guidance and help at every stage as a result of which it was possible to finalise and bring out this publication promptly.

The computer processing of the mass of data that has gone into the production of diverse cross tabulations presented in this volume was undertaken by the Data Processing Division of the Registrar General's Office under the supervision of S/Shri S. N. Chaturvedi, Joint Director (D.P.) and Shri K. R. Unni, Joint Director (Programming). The scrutiny and compilation of tables and preparation of notes was done in the Census Division of the Registrar General's Office under supervision of Shri N. Rama Rao, Assistant Registrar General (Census and Tabulation) and Shri Madan Singh, Senior Research Officer, who were ably assisted in this task by a dedicated team from our own office comprising S/Shri S. P. Arora, Deputy Directors, C. L. Chehra, Assistant Director, Mohd. Yousuf (I), Tabulation Officer, H. U. Malik, Investigator. The printing of the volume was executed through the Printing Division of the Registrar General's Office under the supervision of Shri Tirath Dass, Joint Director (Printing). I am thankful to them all. All these onerous tasks could not, however have been accomplished so well and so promptly but for the able guidance and leadership provided by Shri V.P. Pandey, Joint Registrar General, India at all stages for which I owe him my special gratitude.

The task of scrutiny, editing and coding of the field data at the pre-processing stage was no less arduous. I am happy to record my appreciation for the diligence and devotion with

which this task was well accomplished by the staff in our Regional Tabulation offices at Jammu and Srinagar under the supervision of S/Shri S. P. Arora, Deputy Director, C. L. Chehra, Assistant Director and A. M. Kaloo, Investigator. The work was well co-ordinated by our Central Tabulation Unit supervised by Shri H. L. Kalla, Deputy Director with the assistance of Shri B. L. Tikoo, Investigator.

The assistance of other officials from the D. P. Division, Census Division and Printing Division of the Registrar General's Office and those from the Jammu and Kashmir Census Directorate, closely associated with the completion of this publication has been acknowledged separately.

## GENERAL NOTE ON SOCIAL AND CULTURAL TABLES

Traditionally, the Indian Census has been collecting data on the social and cultural characteristics of the Indian Population. The tables on social and cultural characteristics are based on the data collected through Individual Slips canvassed for each individual in 1981 Census.

The following social and cultural tables are presented in this volume.

- C-1 Age, Sex and Marital Status
- C-2 Age, Sex and Level of Education
- C-2 Part A Age, Sex and Level of Education—Urban
- C-3 Part A Attending school/collage by completed Level of Education, Age and Sex—Urban
- C-3 Part B Attending school/college by completed Level of Education, Age and Sex—Rural
- C-4 Children ( Ages, 5-14 ) by Single year of Age, School Attendance and Economic Activity
- C-5 Single Year Age Returns
- C-6 Population by Five Year Age-Groups and Sex

In 1981 Census, these data are processed on full count basis in respect of all union territories and smaller states like Himachal Pradesh, Jammu and Kashmir, Meghalaya, Sikkim, Nagaland, Manipur and Tripura. For the rest of the States, the data were processed on 20% area sample.

The processing of the 1981 Census data consisted of two stages—first hundred percent manual tabulation for the P.C.A. and later, on the computer. The present tables processed on the computer were adjusted so as to conform to the earlier P.C.A. figures by applying a suitable correction factor. The marginal totals may, therefore, not tally in all the cases due to rounding off.

The specimen of Individual Slip (Universal) and Individual Slip (Sample) are reproduced in annexure-I.

In order to facilitate the understanding of the concepts and the questions used in collecting the data for preparation of tables in this volume, the instructions to enumerators for recording the answers to the concerned questions of the Individual Slips are reproduced in annexure-II.

## ANNEXURE II

### INSTRUCTIONS TO ENUMERATORS FOR RECORDING THE ANSWERS TO THE RELEVANT QUESTIONS ON WHICH SOCIAL AND CULTURAL TABLES ARE BASED

#### Q. 3 : Male (1)/Female (2)

For male, write '1' and for female, write '2' in the box provided against this question. For eunuchs and hermaphrodities, write '1' in the box. Verify with reference to the name and relationship to head recorded under columns 2 and 3 respectively of the Population Record that you have noted the sex correctly.

#### Q. 4 : Age

Record the age of the person in total years completed last birth-day in the rectangle provided against this question. The age should be recorded in international numerals. Very often, there is a tendency on the part of individuals to return 'years running' rather than 'years completed'. Make sure that only the actual number of years completed is recorded. In respect of infants who might not have completed one year by the day of enumeration, their age in completed years must be shown as '0' as they have not yet completed one year of age. Make sure that infants even if one day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as '0' only.

#### Q. 5 : Marital status

In answering this question use the following abbreviations :

|    |   |                        |
|----|---|------------------------|
| NM | : | Never married;         |
| M  | : | Currently married ;    |
| W  | : | Widowed ;              |
| S  | : | Separated or Divorced. |

The entry is to be made in the manner indicated below:

(a) For a person who has never been married at any time before write 'NM'.

(b) For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in

stable *de facto* union. Even if a marriage is disputed in the locality, write 'M' if the person concerned says he or she is married or is in stable *de facto* union.

(c) For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'.

(d) For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law court or by an accepted social or religious custom but who has not re-married, write 'S'.

(e) For an independent woman return her marital status as declared by her.

This question must be answered for all persons irrespective of age. For very young children, though we may know that they are not married, the appropriate abbreviation must be entered.

'M' is the abbreviation for 'currently married'. The word 'currently' does not mean 'recently'. It only means 'at present'. For example, a man may be 80 years old and may have been married 50 year ago, if his wife is still alive and the marriage subsists, they are 'currently married'.

The only conditions for the marital status to be reckoned as 'currently married' are that the man and woman are both alive and that their marriage subsists, *i.e.*, they are not divorced or separated. Please note that we are not concerned with the legality of a union.

#### Q. 11 : Literate (1) Illiterate (2)

Definition of a literate : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate, *i.e.*, who can both read and write with understanding in any language write '1' in the box provided against this question. If there is

any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instruction Booklet (provided the person is familiar with the language used in the booklet) and similarly, for writing, he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate, *i.e.*, who can neither read nor write or can merely read but cannot write in any language, write '2' in the box against this question. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

#### Q. 12 : Educational attainment

This question will be asked of only those who are literate and for whom '1' has been recorded against Question 11. For a person who is illiterate and for whom '2' has been recorded in the answer to question 11, there is no question of ascertaining the educational attainment even if he/she had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case, you should put a dash (—). We are insisting that a dash (—) should be put if there is no educational attainment and not a cross (×), because we want to avoid confusion with 10th standard which a cross may signify. You will have to ascertain and record the highest educational level attained by a person for literate, *i. e.*, for whom '1' is recorded in answer to Question 11.

For a person who is still studying in a particular class, the highest educational level attained by him/her will be one that he/she has actually passed and not the one in which he/she is studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary', as the case may be. Similarly, for a person studying say, in the 4th year of M.B.B.S., his/her educational attainment should be 3rd year of M.B.B.S., which is the highest level he/she has actually attained. You must record the actual standard passed such as, III standard, VIII standard, 1st year

B Com., *etc.* However, if a person merely says that he/she has passed primary, middle, matriculation, school final, secondary or other definite levels, record him/her as such.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level or of varying levels such as B.Sc. (Zoology) and M.B.B.S. or B. A. (Maths) and B.E. (Bachelor of Engineering), both the technical and general qualifications should be recorded against this question. In the case of pass courses, indicate the degree only.

In recording the educational level of a graduate or a post-graduate, the major subject such as B.Sc. (Maths), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), *etc.*, should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully. For example, M.A. (Hindi) and Diploma in Library Science or M.A. (Soc.) and Diploma in Labour Relations. Adequate space has been provided in the slip and you are urged to record the qualification accurately and in sufficient detail. This information is vital for manpower planning and should receive your careful attention.

#### Q. 13 : Attending school/college, Yes (1)/No (2)

After you have recorded the answer to Question 12, you have further to ask whether the person whom you are enumerating is attending any school or college. If the answer is 'Yes' you have to record '1' in the box provided against this question. If the answer is 'No', you should record '2' in the box. Please note that illiterates (code 2 against Question 11) can be found attending school. Therefore, this question should be asked of all persons, including elderly men and women.

In recording answers to this question you are not required to ascertain whether the school/college being attended by the person enumerated is a recognised or unrecognised institution. The choice should be left to the respondent as to whether the person is attending school/college. Thus, if a person is receiving education through a correspondence course or attending some vocational course or attending the Adult Education Programme and returns himself / herself as attending

school/college, he/she will be entered as such and code '1' will be recorded in the box against this question.

### ECONOMIC QUESTIONS

In the 1981 Census we intend collecting information regarding the economic activity of the people in great detail so that those who use these data have the type of information they want. The economic questions consist of the following :

I Q. 14A Worked any time at all last year ?

Yes

No(H/ST/D/R/B/I/O)

Q. 14B If yes in 14A, did you work for major part of last year ? Yes (1)/ No (2)

II Q. 15A Main activity last year ?

Yes in 14 B (C/AL/HHI/OW)

No in 14B (H/ST/D/R/B/I/O)

14B Yes—Any other work any time last year ?

Yes (C/AL/HHI/OW)/No

Q. 15B

14B No—Work done any time last year ?  
(C/AL/HHI/OW)

These questions must be canvassed for every person, irrespective of age or sex. Every person must be asked question 14A including the very young or very old and the answer to this question must be filled in. The other questions will have to be filled in the case of those to whom they are applicable. The instructions for filling these questions follow.

These questions are meant to get details of the work done by the people with reference to last year. We may, therefore, first consider what is meant by 'work' and what the 'reference period' is.

#### Definition of Work

Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

#### Reference Period

In all the questions, the reference period is the one year preceding the date of enumeration. Certain types of work such as agriculture, household industry like,

gur making, etc., are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances. In such cases what we are concerned with is the broad time-span of the agricultural seasons preceding the enumeration.

#### Explanation

There should be no confusion regarding these questions. What we are trying to find out is the number of workers and since workers can be full-time workers or seasonal workers or marginal workers, it is necessary to collect data that will give us the correct picture. This is what Questions 14A and 14B and Question 15A and 15B seek to do. The detailed explanation and instructions for each of these questions are given separately but it will be useful if we look at these together to understand their purpose better.

Question 14A seeks to find out if a person has done any work at all during the last year or whether he or she did not work at all and if it is the latter, how the person spent his/her time as a non-worker. Then Question 14B seeks to find out who among the persons returning 'Yes' in Question 14A had worked for the major part of the year. By major part of the year, it is intended to find out how many had worked for 183 days or more or in other words, worked for 6 months or more. Those who have worked for 183 days or more, will answer 'Yes' for Question 14B. For them code '1' has to be recorded in the box. But those who have worked for less than six months or 183 days will say 'No', and for them code '2' is to be recorded in the box for this question. Question 15A seeks to elicit information on the main activity of the workers in Question 14B, i.e., those for whom '1' has been recorded in the box. It will also elicit information about the main activity of the 'marginal workers' covered in Question 14B, i.e., those who have returned 'No' and for whom '2' has been recorded in the box against Question 14B.

The person may have worked for six months or 183 days or more in more than one activity. For example, he/she may have worked for 3 months in cultivation, one month in gur making and 3 months as an agricultural labourer. In Question 15A, he/she is required to indicate which of these three activities according to him/her was his/her main activity, i.e., in which capacity he/she spent more time. In the instant case since the person has spent three months each in cultivation and as agricultural labourer the choice as to which of

these two would be his/her main activity should be left to him/her. Those who have returned 'No' for Question 14B, *i.e.*, those who have worked for less than six months or 183 days during the last year and for whom code '2' has been recorded in the box, will have to state whether according to them, they were engaged mainly in household duties or as student or dependent or as retired person, rentier or beggar or inmates of institutions, and if not in any of these categories, the person(s) should be put under 'Other' in Question 15 A.

In Question 15B, details of secondary work marginal work are sought to be obtained. Those who have worked for the major part of the year, *i.e.*, those for whom '1' has been recorded in the box against Question 14B, may have had secondary work and this should be entered in Question 15B. Those who have not worked for the major part of the year and for whom code '2' has been recorded in the box against Question 14B, must have done some marginal work and these details will be entered in Question 15B. It is important that probing questions are asked to elicit correct information in this question.

## **SOCIAL AND CULTURAL TABLES**

**C-1 AGE, SEX AND MARITAL STATUS****NOTE**

This is an important table which provides data on population classified by sex, marital status and age-groups. This table corresponds to Table C-II Age and Marital Status of 1971 Census. It is presented separately for total, rural and urban areas of the State and the districts. The age-groups adopted are 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70+. The different marital status

adopted in the table are 'never married', 'married', 'widowed' and 'divorced or separated'. The figures, for 'all ages include 'age not stated'. Similarly, the figures for total males and females in column 3 and 4 include persons with 'unspecified marital status'.

This table is based on information collected through question No.3, 4 and 5 of the Individual Slip (Universal).

## C-1 AGE, SEX AND MARITAL STATUS

| Total/<br>Rural/<br>Urban | Age-<br>Group | Total<br>Population |         | Marital Status |         |         |         |         |        |                          |       |

## C-2 AGE, SEX AND LEVEL OF EDUCATION

### NOTE

This table presents educational level of the population by age and sex. Data are presented for the single year ages 5,6,7,8 and 9 and the age-groups 0—4, 5—9, 10—14, 15—19, 20—24, 25—29, 30—34, 35—59 and 60+. Figures for all ages include those of 'age not stated' also. The figures for age not stated can be derived by subtracting the sum of various age-groups from the total of 'all ages'. The data for all areas are presented in table C-2 and for urban areas in Table C-2 Part A. The data for rural areas for educational levels mentioned in Table C-2 could be obtained by subtracting the urban figures from all areas. The tables are presented for the State and the district separately. This table corresponds to table C-III of 1971 Census.

The educational levels for Table C-2 All Areas are: (i) Illiterate, (ii) Literate (without educational level), including educational level not classifiable, further divided into formal and non-formal, (iii) Primary, (iv) Middle, (v) Matriculation or secondary, (vi) Higher Secondary/ Intermediate/Pre-University, (vii) Non-technical diploma or certificate not equal to degree, (viii) Technical diploma or certificate not equal to degree, and (ix) Graduate and above.

### C-2 Part A Urban Areas

This part relates to urban areas only and the educational levels for which data are presented in this table include

- (i) to (viii) above and following levels :
- (ix) Graduate degree other than technical degree,
- (x) Post-graduate degree other than technical degree,
- (xi) Technical degree or diploma equal to degree or post-graduate degree which is further classified as indicated below :
  - (a) Engineering and Technology
  - (b) Medicine
  - (c) Agriculture and Dairying
  - (d) Veterinary
  - (e) Teaching
  - (f) Others.

These tables C-2, and C-2 Part A have been compiled on the basis of information collected through question numbers 3,4, 11 and 12 of the Individual Slip (Universal).

## C-2 AGE, SEX AND LEVEL OF

| Age-Group                | Total Population |           | Illiterate |           | Literate (without educational level)* |       |         |         | Primary |         |
|--------------------------|------------------|-----------|------------|-----------|---------------------------------------|-------|---------|---------|---------|---------|
|                          |                  |           |            |           | Non-Formal                            |       | Formal  |         |         |         |

**C-3 ATTENDING SCHOOL/COLLEGE BY COMPLETED LEVEL OF EDUCATION, AGE AND SEX****NOTE**

This table gives the completed educational level of persons attending school by age and sex. While table C-2 gives the educational level for the whole population, Table C-3 gives the educational level for only those who were attending school at the time of 1981 Census. The table is presented for the age-groups 0—4, 5—9, 10—14, 15—19, 20—24, 25—29, 30—34, 35+. Figures for 'all ages' include those of 'age not stated' also. Parts A & B of the table present the data for urban and rural areas respectively. The table is presented for the

State and the districts. The information on school attendance was collected for the first time in the 1981 Census.

The educational levels for Table C-3 Parts A and B are same as adopted in tables C-2 Part A and C-2 respectively.

This table has been compiled on the basis of information collected through question numbers 3, 4, 12 and 13 of Individual Slip (Universal).

**C-4 CHILDREN (AGES 5—14) BY SINGLE YEAR OF AGE, SCHOOL ATTENDANCE AND ECONOMIC ACTIVITY****NOTE**

This is a new table and classifies children at each of the ages 5—14 with those attending school and those not attending school. The children attending school are further classified as main workers, marginal workers and non-workers. This table gives an idea of the prevalence of child labour in relation to school attendance.

The table presents the data for total, rural and urban areas for State and the districts.

The table has been compiled on the basis of information collected through question numbers 3, 4, 13, 14 and 15 of the Individual Slip (Universal).

## C-4 CHILDREN (AGES 5-14) BY SINGLE YEAR OF AGE

| Total/<br>Rural/<br>Urban | Age  | Total<br>Population |         | Main Workers |     | Attending School |        |

**C-5 SINGLE YEAR AGE RETURNS****NOTE**

This table presents the single year age distribution of the population by sex and presents the data separately for rural and urban areas for the State as a whole. It corresponds to table C-IV Single year age returns of 1971 Census.

This is an important demographic table which would help the demographers, statisticians and planners in

many ways viz., for computing mortality rates from age data of the earlier censuses, for preparing life tables and for studying digital preference in age returns at the census.

This table has been compiled, based on information collected through question numbers 3 & 4 of the Individual Slip (Universal).

## C-5 SINGLE YEAR AGE RETURNS

| Age | Total |   | Rural |   | Urban |   |
|-----|-------|---|-------|---|-------|---|
|     | M     | F | M     | F | M     | F |
| 1   | 2     | 3 | 4     | 5 | 6     | 7 |

Note : 'All ages' under column 1 includes 'Age not stated'

**C-6 POPULATION BY FIVE YEAR AGE-GROUP AND SEX****NOTE**

This table gives the age and sex composition of the population separately for total, rural and urban areas. The figures are presented for quinquennial age-groups, 0-4, 5-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70-74, 75-79, 80-84, 85-89, 90-94, 95-99, and 100+. 'All ages' in the table include 'age not stated' also. The figures for 'age not stated' can be derived by subtracting the sum of figures of various age-groups from the total of 'all ages'. The table has been compiled for the State and the districts. The table corresponds to appendix to table C-IV of 1971 Census.

## C-6 POPULATION BY FIVE YEAR AGE-GROUP AND SEX
