All the tables presented in this volume were tabulated from the material collected in various questions of the individual slip except three tables of table C-I (C-I Part A, C-I Part B-(i) and C-I Part B-(ii)) the data for which were abstracted from the census population record. The social question at the 1971 census followed the pattern of the previous census but in the field of economic questions, a significant departure was made in this census. Specimens of the individual slip and the population record have been given in annexures III and IV of Part II-A-General population tables volume of the 1971 census.

Fertility tables are a new feature of the 1971 census. In this series, five tables have been prepared based on the information collected through question 6 of the individual slip.

Delhi union territory being one District territory, the union territory figures represent district figures also and as such district figures have not been presented separately in the tables. The data have also been presented to town level in all these tables.

The following extracts from the Instructions to Enumerators on the basis of which these tables are compiled will be helpful in appreciating the contents of these tables:—

Q. 2 : Relationship to Head

In the case of the head of the household write 'Head'. The head of the household for census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The head of the household need not necessarily be the eldest male member, but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the household as its head.

In the case of institutions like boarding houses, messes or friends living together in one census house, which should be regarded as households of unrelated persons living together, which may be called institutional households, the manager or superintendent or the person who has administrative responsibility or who by common consent is regarded as the head should be recorded as the head of the household.

The manager or superintendent who does not stay normally in the institution should be enumerated at his place of normal residence. You should make sure before filling up the slip for the manager or superintendent etc. of an institutional household, that he/she has not been enumerated at any other household.

In the case of absence of a normal 'Head' the person on whom the responsibility of managing the affairs of the household falls, should be regarded as the head.

All relationships in this question should be recorded in relation to the head of the household. Write the relationship in full. Do not use words like 'nephew' 'niece or uncle', but state whether brother's or sister's son or daughter (for nephew or niece) or father's or mother's brother (for uncle), 'Son' will include 'adopted son' or 'step son' similarly for a daughter. In the case of visitors, boarders, or employees, write 'visitor', 'boarder' or 'employee' as the case may be. In the case of institution, the members should be recorded as 'un-related'.

If on the check of revisional round between 1st and 3rd April 1971 the head of the household as recorded previously is found to have died, the person in the household who succeeds him by common consent as head should be recorded as Head and the relationship in all other slips will have to be suitably corrected. The slip of the deceased head of the household will, of course, be cancelled.

Q. 3 : Sex

For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites, write 'M' only. Verify with reference to the name and relationship to head against questions 1 & 2 respectively that you have noted the sex correctly.

Q. 4 : Age

Record the age of the person in total years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of year completed is recorded.

In respect of infants who might not have completed one year by the day of enumeration their age in completed years should be invariably shown as '0' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. You should not enter the age in months. The age of an infant who has not yet completed one year should invariably be noted as '0' only.

Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

Q. 5 : Marital Status

In answering this question use the following abbreviations :

NM : Never-married

M : Currently married

W : Widowed

S : Separated or divorced.

For a person who has never been married at any time before, write 'NM'. For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead and who has not been married again write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either

by a decree of a law court or by an accepted social or religious custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

Q. 6 : For currently married women only

This question has to be answered in respect of all currently married women only *i.e.* all women whose marital status is shown as 'M' against Q. 5. For all others a cross may be put through the two sub-parts of this question.

6 (a) : Age at marriage

You should ascertain the age at which the currently married woman whom you are enumerating was married and record that age in completed years. If the currently married woman had been married more than once, the age at which she got married for, the first time should be recorded.

6 (b) Any child born in the last one year

You should ascertain if the currently married women whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calendar dates, the period of one year may be ascertained with reference to a well known festival day which falls close to February March, as determined by the census superintendent of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration. Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes' to this question. Still birth, *i.e.* a child which is born dead should not be taken into account for this purpose. So while you should make sure that every case of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon it if the child was born lifeless.

It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of such cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore where the initial answer to this question is 'No', you should ask a specific question if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows :

"It has been found in some houses that a child was born and had died soon after or a few days or a months later and such cases had not been reported. It is my hope that there are no such cases here. Am I right ?"

This may bring in the required response. If she reports 'No' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married women

in the last one year is netted whether the child is surviving till the date of enumeration or no. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6(b) the enumerator might ask if the child is here in this house. If the answer is 'yes' no further question is needed. If 'no', the enumerator might ask where he has gone. The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

Write 'yes', if the currently married women had given birth to a live child from the prescribe festival day last year to the date of enumeration or 'no' if she had not. In case of twin or multiple births, write 2, 3, etc., as the case may be within round brackets after the entry 'yes'.

*Note:—*You may find on your revisional round from 1st to 3rd April 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st April, 1971. You will have to take this into account and correct the answer against the Q 6 (b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Q. 10 Religion

In answering this question use the following abbreviations :

- H : Hinduism
- I : Islam
- C : Christianity
- S : Sikhism
- B : Buddhism
- J : Jainism

For others record the actual religion as returned fully.

If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here.

Q. 12 Literacy (L or O)

Definition of a literate : A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a literate

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate *i.e.*, who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to

be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate *i.e.* who can neither read nor write or can merely read but cannot write, in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Q. 13 : Educational 'eve'

This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been put against him in the answer to question 12, there is no advantage in ascertaining the education level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example, a person studying in 1st year B.A. should be recorded as only 'PUC' or 'Higher Secondary' as the case may be. Similarly, a person studying, say in the 4th year of 'MBBS' should not be noted as 'MBBS' but as 3rd year 'MBBS' which the highest level he has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIIIth standard, 1st year B. Com. etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B. Sc. (Zoology) and M.B.B.S. or B.A. (Maths) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post-graduate, subject of specialisation such as B.Sc. (Maths.), M.A. (Economics), M.Sc. (Botany) B.Sc. (Agriculture) etc, should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him a "Degree-holder and Technical personnel Card" and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (✓) after noting the educational level against question

13 immediately after you issue a card. When you collect it after some time but before you complete the enumeration of your area, cross the tick.

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any against question 13 will show that the card has not been collected.

Q. 14 : Mother-tongue

Definition : Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned. If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Q. 15. Other languages

After recording the mother-tongue in question 14 enquire whether the person knows any other language(s) Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue, put 'X' against this question.

The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

POPULATION RECORD

Soon after you complete the enumeration of all the persons in the household you are expected to transfer certain items of information of all the individual members of each household to the population record. If you feel that the filling of the population record in the field is likely to take considerable time there is no objection to the details being posted by you later at home at the end of the day. However, soon after you complete the enumeration of all the persons in a household you must note down the location code No. and the household No. on the population record and also copy out in Col.2 the names of the persons

enumerated in the household. This will help you to check with the members of the household and verify if all the persons qualified to be enumerated in the household have been fully enumerated.

The population record forms would have been supplied to you in convenient books and each page will normally take the entries of one household. However, if in a large household there are more number of persons than what a single population record form can accommodate, you may continue the entries on the next form but note **boldly** on the top of the continued population record as "Continued".

The population record hardly calls for any detailed explanation. On the top of each form please note correctly the location code No. and the household No. It is important that you note the household No. correctly. Do not fail to note **boldly** "INST" in respect of institutional household and "O" in respect of *houseless households*.

You will be required to furnish information in the enumerator's abstract on the total number of occupied residential houses, the census households, the institutional households and houseless household in your block with reference to the entries made in the population record. So please make sure that you have entered the household No. correctly as this will

guide you in posting the required particulars in the enumerator's abstract. At the right hand side below the household No. you will have to record information if the household belongs to SC./S.T. You would have already ascertained if the head of household belongs to a scheduled castes/scheduled tribe with reference to question 11 of the individual slip. If the head belongs to any S.C./S.T. write S.C./S.T. as the case may be and also the name of S.C./S.T. to which the head of the household belongs.

The columns in the main body of the population record are self-explanatory. You have to post them with reference to the information, you have collected of each member of the household in the individual slip against the relevant questions. However, column 9 of the population record may require some explanation. For those who have returned themselves as workers for their main activity against question 16 (a) (i) of the individual slip, while you may note 'C' 'AL' as the case may be, as recorded in the box against question 16 (a) (i), in respect of those other than cultivators and agricultural labourers, you may please indicate briefly the description of work as recorded in question 16 (e) of the individual slip. For those who have returned themselves as non-workers for their main activity you may note the same abbreviation as recorded against question 16 (a) (ii).

**TABLE C-1 PART A—MEMBERS OF HOUSEHOLDS BY RELATIONSHIP TO
HEAD OF HOUSEHOLD CLASSIFIED BY AGE-GROUPS**

TABLE C-I PART A—MEMBERS OF HOUSEHOLDS BY RELATIONSHIP TO HEAD OF HOUSEHOLD CLASSIFIED BY AGE-GROUPS

FLY-LEAF

This table gives the composition of the households by relationship to the head of the household classified by three broad age groups, viz., less than 30, 30—49 and 50+. The figures for 'Age not stated' have not been presented separately but are included in "All ages". Related and unrelated members of the households and the single member households have been shown separately.

The relationship to the head of the household has been divided into the following groups:

- (i) Spouses of heads of household
- (ii) Married relations of heads of household
- (iii) Never married, widowed and divorced or separated relations.

Married relations of the head of household have been given for sons, brothers, father, mother and other

male or female members and the relations for other marital status combined have been given in respect of sons, brothers, daughters, sisters, father, mother and other male or female members separately.

It is hoped that this table will be of sociological interest indicating the extent of joint family system. The age distribution of the heads of households and their relations classified by marital status will further help in studying the future trend of the joint family system. This table corresponds to table C-I of the last census which was prepared on a 20% sample basis. The relationship to the head was shown as "married sons" and "other married relations" and were not classified by broad age groups.

The statistics have been presented for total, rural and urban areas of the union territory and its three towns, (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban).

TABLE C-II--AGE AND MARITAL STATUS

TABLE C-II—AGE AND MARITAL STATUS

FLY-LEAF

This table corresponds to table C-II of the 1961 census. While the data on marital status were tabulated on a ten per cent basis in 1951, this table was prepared on a full count basis in 1961 and also in 1971.

This table gives data for each sex classified by total, rural and urban in the age-groups 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44,

45-49, 50-54, 55-59, 60-64, 65-69, 70+ and 'age not stated', separately for 'never married', 'married', 'widowed', 'divorced or separated' and 'unspecified' status. For the purpose of this table, age group 0-9 was regarded as 'never married'.

The following statement gives the percentage distribution of population by marital status according to the 1971 census.

Percentage distribution of population by marital status in rural and urban areas of Delhi union territory, 1971.

Marital Status	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7
Never Married	55.42	51.17	55.32	49.40	55.43	51.37
Married	42.42	43.69	41.64	46.24	42.51	43.40
Widowed	2.05	5.05	2.90	4.29	1.95	5.14
Divorced or separated	0.06	0.07	0.01	0.04	0.07	0.07
Unspecified status	0.05	0.02	0.13	0.03	0.04	0.02

The percentage of 'never married' males is more than that of 'never married' females. On the other hand the percentage of widows is greater than the percentage of widowers. The proportion of 'never married' persons is greater and those of 'married' and 'widowed' less in urban areas than in rural areas. The proportion

of 'divorced or separated' is very small but it is higher in urban areas than in rural areas.

The statistics have been presented for total, rural and urban areas of Delhi union territory and its three towns, (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban).

TABLE C-IV--SINGLE YEAR AGE RETURNS

TABLE C-IV—SINGLE YEAR AGE RETURNS

FLY-LEAF

This table corresponds to table C-IV of the 1961 census and table C-V of the 1951 census with the difference that while the 1951 census table was based on a ten per cent sample of population, the tables in the 1961 and 1971 censuses were prepared on a full count basis.

This is a very important demographic table which helps the census actuary in computing the mortality rates from the age data of the earlier censuses and in preparing the life tables.

This table gives the figures by total/rural/urban separately for each sex for each single year of age.

'Age not stated' at the end shows the cases where age was not reported in the individual slips at the time of enumeration.

This table is followed by an appendix which gives data by five year age groups viz., 0—4, 5—9, 10—14 etc.

The statistics have been presented for total, rural and urban areas of Delhi union territory and its three towns, (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban).

TABLE C-VI--BILINGUALISM

C-VI—BILINGUALISM

FLY-LEAF

This table corresponds to tables D-I Part II of the 1951 and C-VI of the 1961 censuses.

The question of bilingualism at the 1971 census was :

Question 15 : Other languages

After recording the mother tongue in question 14, enquire whether the person knows any other language(s), Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother tongue, put 'X' against this question.

“The number of languages recorded under this question need not be more than two. These languages should be other than his mother tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough, if he has a working know-

ledge of these subsidiary languages to enable him to converse in that language with understanding”.

In this table, data on bilingualism are presented only for selected languages/mother tongues (L/MTs). The selection of these language/mother tongues has been done on the basis of the all India table C-VI Bilingualism of 1961 and a list of language/mother tongue was devised for all India. This list formed the basis for preparing the table on bilingualism on 100% processing of rural and urban slips. The rural table was processed manually and the urban table on the computer. The final table prepared on a full count basis both for rural and urban areas is presented here.

Columns 2, 3 and 4 of the table give the total number of speakers of language/mother tongue inclusive of mother tongue grouped under it. Columns 5, 6 and 7 give figures of such of the speakers who returned a second language, that is to say, any other language/other tongue not accounted for in columns 2, 3 and 4. Column 8 contains in 'run on' fashion the names of subsidiary languages/other tongues inclusive of languages/other tongues wherever grouped by number of male and female speakers within brackets.

**TABLE F-1--DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND
THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION,
PRESENT AGE AND AGE AT MARRIAGE (RURAL/URBAN)**

TABLE F-1—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, PRESENT AGE AND AGE AT MARRIAGE (RURAL/URBAN)

FLY-LEAF

This table has been prepared in two parts. Part A relates to rural areas and Part B to urban areas. It gives the distribution of currently married women and the related births during the last one year by religion, present age and age at marriage of the mother.

The present age of the mother has been given for age groups less than 13, 13—17, 18—22, 23—27, 28—32, 33—37, 38—42, 43—47, 48+ and 'unspecified' age for such cases where age was not recorded at the time of enumeration.

Age at marriage of the mother has been shown for age groups less than 13, 13—17, 18—22, 23—27, 28+ and 'unspecified'. This table presents the data for six major religions viz., Hindus, Muslims, Christians, Sikhs, Buddhists, Jains and also for 'Other religions and persuasions' and 'religion not stated'.

This table gives data which will help in deriving differentials by religion in median age at marriage and

in age specific fertility rate, total fertility rate and general fertility rate for various age at marriage groups. It is for the first time that data on fertility in such details were collected at the census.

This table is followed by an appendix which gives similar data for scheduled castes separately for rural and urban areas. According to the scheduled castes and scheduled tribes list (modification) order, 1956, no scheduled tribes are recognised in Delhi Union Territory hence this appendix in respect of scheduled tribes has not been prepared.

Part A of this table gives the data for Delhi rural only while Part B gives the data for Delhi urban and three towns (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban).

The relevant instructions given to the enumerators for filling up related questions are given in the introductory note to this volume.

**TABLE F-II--DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE
RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, PRESENT
AGE AND AGE AT MARRIAGE (RURAL URBAN)**

TABLE F-II—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS DURING THE LAST YEAR BY EDUCATION, PRESENT AGE AND AGE AT MARRIAGE (RURAL/URBAN)

FLY-LEAF

This table has been prepared in two parts, Part A (rural) and Part B (urban). It gives the distribution of currently married women and the related births during the last one year by education, present age and age at marriage of the mother.

The age groups in regard to present age and age at marriage of the mother are similar to those of table F-I.

In both parts A and B of this table, data are presented for :

- (i) Illiterate
- (ii) Literate but less than matriculate

(iii) Matriculate and above but less than Graduate

(iv) Graduate and above

It is for the first time that an attempt has been made in the 1971 census to collect such detailed information on fertility. This table gives data which will help in deriving differentials by education in median age at marriage and also in age specific fertility rate, total fertility rate and general fertility rate for various age at marriage groups.

Part A of this table gives statistics in respect of Delhi rural while Part B gives data for Delhi urban and three towns, (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (urban).

RELATED BIRTHS DURING THE LAST YEAR BY RELIGION, DURATION
OF MARRIAGE AND AGE AT MARRIAGE (RURAL/URBAN)**

**TABLE F-III—DISTRIBUTION OF CURRENTLY MARRIED WOMEN AND THE RELATED BIRTHS
DURING THE LAST YEAR BY RELIGION, DURATION OF MARRIAGE AND
AGE AT MARRIAGE (RURAL/URBAN)**

FLY-LEAF

This table is in two parts Part A (rural) and Part B (urban). It gives the distribution of currently married women and the related births during the last one year by religion, duration of marriage and age at marriage of the mother.

The duration of marriage is given as less than 1, 1-4, 5-9, 10-14, 15-19, 20-24, 25-29, 30 + and 'unspecified'. The marriage age groups are less than 13, 13-17, 18-22, 23-27, 28+ and 'unspecified'.

The statistics are presented for six major religions viz., Hindus, Muslims, Christians, Sikhs, Buddhists, Jains and also for 'other religions and persuasions' and 'religion not stated'.

This table is followed by an appendix which gives similar data for scheduled castes separately for rural and urban areas. According to scheduled castes and scheduled tribes list (modification) order 1956, no scheduled Tribes are recognised in Delhi union territory.

Part A of this table gives data for rural areas of Delhi while part B gives data for urban areas of Delhi and three towns, (1) New Delhi Municipal Committee (2) Delhi Cantt. and (3) Delhi Municipal Corporation (Urban).
