MOTIF

ABOUT - "BHORAMDEO TEMPLE" in KABEERDAM

Seeking its inspiration from the iconic Konark Sun temple in Odisha and the temples of Khajuraho in Madhya Pradesh, the **Bhoramdeo temple** in Chhattisgarh is a treat for the heritage buff. Dedicated to Lord Siva, this 11th century structure set amidst the verdant enclaves of the Maikal range in Chhattisgarh's Kabeerdham district, is renowned for its aesthetic treatment of erotica rendered in skillfully-carved panels. There is splendid detailing of figurines, animals as well as deities. The carvings have earned Bhoramdeo the label '**Khajuraho of Chhattisgarh**'.

The Gond tribesmen, who have inhabited the region of Kawardha since ancient times, consider Siva as Bhoramdeo. Built in the Nagara-style(North Indian) of Hindu temple architecture, the 18m long and 11m wide Bhoramdeo is about 18 km away from the Indo-European-styled Kawardha Palace where visitors can enjoy a pleasant stay. The annual Bhoramdeo festival is held in the month of March.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.: (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Smt. Renu G Pillay, Joint Secretary & Director of Census Operation, Chhattisgarh. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.

Dated:- 16-06-2014

PREFACE

The District Census Handbook (DCHB) brought out in each decennial census since 1951 Census by the Census Organisation is an important publication which provides detailed Census and non Census information from village and town level to district level. The Primary Census Abstract (PCA) part of this publication contains census data including data on household amenities collected during the 1st phase of Census i.e. House listing and Housing Census. The non-census data (presented in another part) is in the form of village directory and town directory and it contains information on infrastructural facilities available in each village and town within the district. This includes details on educational and medical facilities, drinking water, communication and transport, post, electricity, banking etc. The data provided in DCHBs are important in the context of planning and development at grass root level. This publication is brought out separately for each district of the State.

The DCHB was initially confined to a few Census tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, its scope and coverage was enlarged in each subsequent Census. The DCHB published in 1961 Census provided a descriptive account of the district, administrative statistics, Census tables and village and town directory including PCA. The 1971 Census-DCHB series was in three parts: Part-A related to village and town directory, part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenities data in respect of villages.

The 1981 Census-DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of villages and towns including the SCs and STs PCA up to tehsil/town levels. The village and Town directory formats were restructured. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centers, primary health sub-centers and community health workers in the village were provided. Information on approach to the village was provided for the first time in the village Directory. In the town Directory, a statement (IV-A) on slums was introduced to provide details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 Census DCHB followed the presentation of 1981 Census, but the format of PCA was restructured. A Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of the 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

The 2001 Census DCHB was more exhaustive in nature. The village Directory was enlarged by including a number of other facilities like banking, recreational and cultural facilities, news-papers and magazines and 'the most important commodity' manufactured in villages. In town Directory, the statement on slums was modified and its coverage enlarged by including details on all slums instead of only 'Notified slums'. Two more additions were inclusion of 'motif' highlighting significant characteristic of the district and brief analytical notes as annexures. An eight digit permanent location code number (PLCN) was assigned to all the villages and towns keeping in view future needs.

The coverage of Village Directory of 2011 DCHB has been further widened by including a number of new amenities in addition to those of 2001 Census. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical

Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of WBM Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In Town Directory, all seven Statements of 2001 Census were retained. CD Block wise data of Village Directory and Village PCA are presented in DCHB, as presented in previous Censuses.

The data of DCHB, 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. The two parts have been published in separate volumes.

The Non-Census data or village and town level amenities data for DCHB was collected in Village Directory Schedule and Town Directory Schedule designed and sent by the Office of the Registrar General & Census Commissioner, India. The blank schedules were sent to village level officials through their respective tahsil offices in case of villages and to town authorities in case of towns. The data compiled and supplied by them were compared with the data published in 2001 Census and also cross checked with the information obtained from various departments of State Government. An attempt was made to reconcile the discrepancies to make it more reliable. The digitization of VD & TD data and validity checks were done in-house. It must be noted that the village wise area figures presented in the PCA are based on information supplied by village level revenue officials in Village Directories and the total given for the CD Block levels is the total of the area figures of villages coming under it. In the case of district and State area totals shown are based on the information furnished by the Survey of India, Govt. of India. Therefore, the total area of district may not match the total of area figures of the villages of the respective tahsils and districts. I am thankful to all the village and town level officials, respective tahsil and town authorities and district administration of State Government for their co-operation in accomplishing this task.

I express my sincere gratitude to Dr. C. Chandramouli, Registrar General & Census Commissioner, India for his valuable guidance and support. The task of planning and designing of DCHB was carried out by Dr. Pratibha Kumari, ARG(SS) in Social Studies Division of ORGI under the guidance and supervision of Shri Deepak Rastogi, Addl. RGI. Shri A.P. Singh, DRG (Map), provided technical guidance in preparation of Maps. Shri A.K. Arora, Joint Director (DP Division) under the overall supervision of Shri M.S. Thapa, Addl. Director (EDP) provided full co-operation in preparation of record structure for digitization and validity checks of Village and Town Directory data and the program for the generation for cross classified tables. I am thankful to all of them.

The data presented in DCHB together with drafting of DCHB reports, preparation of maps, manuscripts and its printing as per the guidelines of ORGI required concerted efforts of a team comprised of Shri Jose T. Varghese, Dr. I.C. Agrawal, Deputy Directors, Shri C.M. Joshi, Shri R. Patel, Dr. P.K. Sao, Assistant Directors, Smt. Rajni Jose and Shri Hirendra Kumar Sinha, Senior Compilers, Shri Mrigendra Bahadur Singh, Compiler of this Census Directorate. I express my appreciation for their untiring work.

Renu G Pillay

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.:(i)-Status and Growth History of towns,(ii)-Physical Aspects and Location of Towns,(iii)-Civic and other Amenities,(iv)-Medical Facilities,(v)-Educational, Recreational & Cultural Facilities,(vi)-Industry & Banking, and (vii)-Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

BRIEF HISTORY OF THE DISTRICT

Kabeerdham is the new name given to Kawardha district which was constituted by the then Madhya Pradesh State Government on 2nd July, 1998 vide the State Gazette Notification No. 1241-F-20-8-92-7-Govt.-8 dated 2.7.1998. Kawardha district was formed by taking Kawardha tahsil from Rajnandgaon district and Pandariya tahsil from Bilaspur district. Its name was changed to Kabeerdham on the occasion of 6th birth centenary of Dhani Dharm Das, the founder of Kabirpanth in Chhattisgarh. The popularity of Kabir Sahib in the region generated by the descendents of one of the disciples of Kabir (named Dharmdas) was the sole reason for such a name being given to the place which was the seat of Kabir Panthis prior to Damakheda, presently situated in Raipur district. It is believed that the 8th Guru of Kabirpanth- Haq Nam Saheb established Guru Gaddi (or seat) in Kawardha in 1806. The 9th Guru – Pak Nam Saheb, the 10th Guru- Phakat Nam Saheb and the 11th Guru Dhiraj Nam Saheb lived in this place. The 12th Guru- Ugr Nam Saheb shifted the seat (Guru Gaddi) from Kawardha to Damakheda.

Kawardha, now a tahsil of Kabeerdham district was a Princely State, formed in the year 1751 by Mahabali Singh and existed till the first half of 18th Century. The origin of Kawardha in political map of India can be traced to the period between 1895 ad 1902 A.D. At that time Kawardha belonged to the district of Mandla. Between 1903 and 1911, Kawardha was a part of Bilaspur district while the period between 1912 and 1948 saw Kawardha as a part of Raipur district. Kawardha was included in the district of Durg from 1948 to 1973. Finally 1973 to 1998, Kawardha was a part of Rajnandgaon district before it became a separate district of its own in 1998. Likewise another tah sil Pandariya, which was taken out from Bilaspur and included in the district was known as Pandariya Zamindari before 1952. In 1952, Pandariya become the Community Development Block Headquarters in Bilaspur district. It got the status of tahsil in 1986 and from then it remained part of Bilaspur district till 5th July, 1998. Both Kawardha and Pandariya are important from the historical point of view too. Besides Kawardha, the place Chaura and Chhapri located at about 17 kms from Kawardha which is known as Bhoramdev, is a very important place historically and archaeologically. This place was the capital of Nagvanshi Kings from about 9th century to 14th century. Thereafter this came under possession of Haihayvanshi kings who were related to the State of Ratanpur. The archaeological remains of the temple and old fort constructed by these kings are still available.

ADMINISTRATIVE SETUP

Kawardha is a small town situated in the region around the Maikal Ranges and lies to the south east of the Kanha National Park and to the south of River Sakri. The presence of tribal inhabitants like the Gond and the Baiga tribes further enrich the charm of the place. Kawardha town is the administrative headquarter of the district. Presently there are four tahsils in the district, namely Kawardha, Bodla, Sahaspur Lohara and Pandariya. Each tahsil has a single Community Development Block of same name.

Kawardha tahsil has 182 villages, Bodla tahsil has 343 villages (including 9 forest villages), Sahaspur Lohara tahsil has 197 villages and Pandariya tahsil has 284 villages. Thus in all there are 1006 villages in the district. The district has 6 statutory towns namely, Kawardha(M), Pipariya (NP), Bodla(NP), Sahaspur Lohara(NP), Pandariya(NP) and Pandatarai(NP). From administration point of view, the district is divided in 9 R.I. circles and 124 Patwari Halka. The tahsil wise breakup of R.I. Circle and Patwari Halka are given below:

District /Tahsils	R.I. Circle	Patwari Halka
District- Kabeerdham	09	124
Tahsil- Kawardha	03	23
Tahsil- Bodla	02	25
Tahsil- Sahaspur Lohara	02	17
Tahsil- Pandaryia	02	59

The Collector, as the head of district administration is the key-functionary of the Government, having vast powers and wide responsibilities, He is the link between the State Government and the people. The Collector is assisted by the Sub-Divisional Magistrates in the Sub-Division and Tahsildars, Naib Tahsildars, Revenue Inspectors and Patwaris in Tahsils. In the Collectorate, the Collector is assisted by Additional Collectors/Joint Collectors/Deputy Collectors.

The Collector is also associated with a number of other committees in the district. The most important among them is the District Advisory Committee. The Collector is also vested with statutory powers under excise act, so as to enable him to implement the excise and prohibition policy of the

Government. Superintendent of Police is the head of police department at the district headquarters. In order to facilitate maintenance of law and order there are 9 police-stations and 1 police out-posts in the district.

The narrative on the organisational set-up of the collectorate may be divided into three main, viz.(i) land revenue, land-records including consolidation of land and other allied matters. (ii) law and order and (iii) Development.

The Judiciary is independent. At the district level, there is District Court headed by District and Session Judge. District and Session Judge is assisted by Civil Judges who are posted at tahsil level.

District Highlights-2011 Census

- Kabeerdham is new name given to Kawardha district which was carved out from excluding Kawardha tahsil from Rajnandgaon district and Pandariya tahsil from Bilaspur district vide the then Madhya Pradesh State government Notification no. 1241 dated 02-07-1998. Kabeerdham name was given vide the State Government Notification no. F-10-4/2003/1/5 dated 10/03/2003.
- The district registered highest population growth rate of 40.7% in the state.
- The district occupies 12th place in the state according to the population.
- The district occupies 16th rank in the state in terms of area having 4235 sq.kms which is 3.1 percent of the total area of state.
- Literacy rate of Kabeerdham district is 60.9 and it occupies 13th position in the State. The male literacy rate is 73 and female literacy rate is 48.7.
- Density wise the rank of the district is 8th in the state.
- Ranking of the district according to the sex-ratio is 8th in the state.
- Sex ratio in 0-6 age group increased in the district from 970 in 2001 to 983 in 2011.
- Female Work Participation of the district is 45.6 percent of total female population. Rank of district according to female work participation is 8th.
- Population-wise largest village is Indori of Kawardha tahsil L.C. No. 439126 with 5649 population and smallest village is Jangal Plot Kanpa of Bodla tahsil L.C.No. 439276 with population of 1 person.
- Population wise largest town is Kawardha(M) having population 46,657 and smallest is Pipariya(NP) with population of 4,859 persons.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March,

2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

-4-

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District

Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
