INTRODUCTORY NOTE

INTRODUCTORY NOTE

Religion is one of the basic cultural characteristics of the population. In a secular state like India, several religions have thrived and every decennial Census has attempted to provide an interesting picture of the religious persuasions of the people of the country. The data on religion yielded by the Census are of great interest to the anthropologists, sociologists, demographers, administrators, planners and also laymen.

In the 1991 Census, in question number 8 of the Individual Slip, the religion of the person enumerated was recorded as returned. The instructions to the enumerators for filling up question 8 on religion are given below:

"In answering this question, use the following abbreviations:

H for Hindus
M for Muslims
C for Christians
S for Sikhs
B for Buddhists
J for Jains

For others, record the actual religion as returned fully. If the person says that he has no religion the answer may be recorded accordingly. Do not mistake religion for caste which will not be recorded here. You should also not try to establish any relationship between religion and mother tongue. Do not write anything in the dotted boxes, but write on the line."

The enumerators were also instructed to copy the returns regarding religion of an individual from question 8 of Individual Slip to column 9 of Household Schedule. The instructions in this regard were as follows:

"For the person entered in column 2 of the Household Schedule, check if H, M, C, S, B and J or actual religion returned by the person has been recorded in question 8 of the Individual Slip. If so, copy the same in column 9 of the Household Schedule".

Editing of the returns obtained through question 8 of the Individual Slip and editing and matching of the entry in column 9 of the Household Schedule was done in the 163 Regional Tabulation Offices established all over the country to manually process and compile the census data. The editing and matching instructions for question 8 of Individual slip (Religion) are reproduced below:

"Question 8. Religion

Match the entry in column 9 of the Household schedule for each member of the household with the corresponding entry against question 8 of the Individual Slip. Please note that this check will be made for all types of households whether normal or institutional or houseless. If these are not the same for any member of the household, correct the entry in Column 9 of the Household Schedule on the basis of entry in question 8 of the Individual Slip. If the entry in either the Individual Slip or the Household Schedule is missing for any member of the household copy the entry from the schedule in which it has been written into the schedule in which it has been missed. If by chance the entry is blank in both the Individual Slip and the Household Schedule for any member of the household, look into the entries of religion in respect of other related members of the household and write the religion indicated therein in both the schedules".

The religion-wise data was compiled from household schedules in Regional Tabulation Offices.

C-9 - Religion

NOTE ON RELIGION TABLE

This table corresponds to table C-VII-Religion of 1961 and 1971 and table HH-15 of 1981. The only difference is that the figures of religion for 1961, 1971 and 1991 are based on the religion of the Individual whereas the figures presented in 1981 were based on religion of head of the household.

The C-9 religion table gives data for persons, males and females separately for each of the six major religious communities, viz., Hindus, Muslims, Christians, Sikhs, Buddhists and Jains and the combined figures for 'other religions and persuasions' and 'religion not stated' by total, rural and urban for India, States and Union Territories. This table is followed by two appendices and an annexure. The figures of other religions have been grouped together in the column 'other religions and persuasions'. Details of other religions and persuasions, the strength of which at the country level is 100 and above each, appear in Appendix A accompanying the table. In case of each of the remaining faiths the strength of which is less than 100, the total population of each State and Union Territory is given in Appendix B. The annexure which follows this table gives the details of sects, beliefs or religions clubbed with another religion which is shown at the head of the table in block letters.
