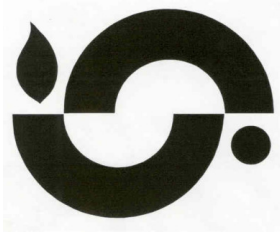
VITAL STATISTICS OF INDIA BASED ON THE CIVIL REGISTRATION SYSTEM 2011



OFFICE OF THE REGISTRAR GENERAL, INDIA
MINISTRY OF HOME AFFAIRS
VITAL STATISTICS DIVISION
WEST BLOCK-I, R. K. PURAM
NEW DELHI- 110066

ENSURE REGISTRATION OF EVERY BIRTH AND DEATH

PREFACE

The Civil Registration System (CRS) may be defined as a unified process of continuous, permanent and compulsory recording of the vital events and characteristics thereof, as per legal requirements in the country. In India, the Civil Registration System covers registration of births and deaths only. It provides the best source of information on the vital rates at all levels.

2. This issue of the Report on 'Vital Statistics of India based on the Civil Registration System' for the year 2011 provides an overview of the working of the Civil Registration System (CRS) in the country and presents a compilation of data on registered births, deaths and infant deaths with rural-urban & sex-wise break-up and sex ratio at birth based on Civil Registration Records. Ideally, an Annual Report on vital statistics containing more detailed information should have been brought out. However, due to non-availability of Annual Reports from some of the major States and limited availability of information contained in the Annual Reports of some of other States, the report for the year 2011 containing key information has been brought out for the convenience of users. An attempt has been made to present more detailed analysis as compared to previous Reports.

3. The publication is divided into two parts. Part I provides a brief review of the Civil Registration System and contains a summary analysis of data on registered births, deaths, infant deaths and sex ratio at birth at State level. Part II consist of the main tables which provide State and District-wise data on registered births, deaths, infant deaths and still births with rural-urban & sex-wise break-up and sex ratio at birth.

4. The data source for the report is the statutory Annual Statistical Report prepared by the Chief Registrars of Births & Deaths. In respect of States where these reports have not been prepared, the information provided by the Chief Registrars has been used. I take this opportunity to express my sincere gratitude to all the Chief Registrars of Births & Deaths of various States/UTs for their kind co-operation in providing the requisite information.

5. The report has been prepared by the Vital Statistics Division of this office. I would like to place on record my appreciation for the efforts put in by Smt. P. A. Mini, Deputy Registrar General, Shri R. K. Gautam, Director, Shri Ajay Khanna, Deputy Director, Shri Sandeep Rai, Assistant Director and Shri Vimal Kaul, Sr. Compiler under the overall guidance of Shri Deepak Rastogi, Additional Registrar General, India.

Dr. C. Chandramouli
Registrar General
& Census Commissioner, India

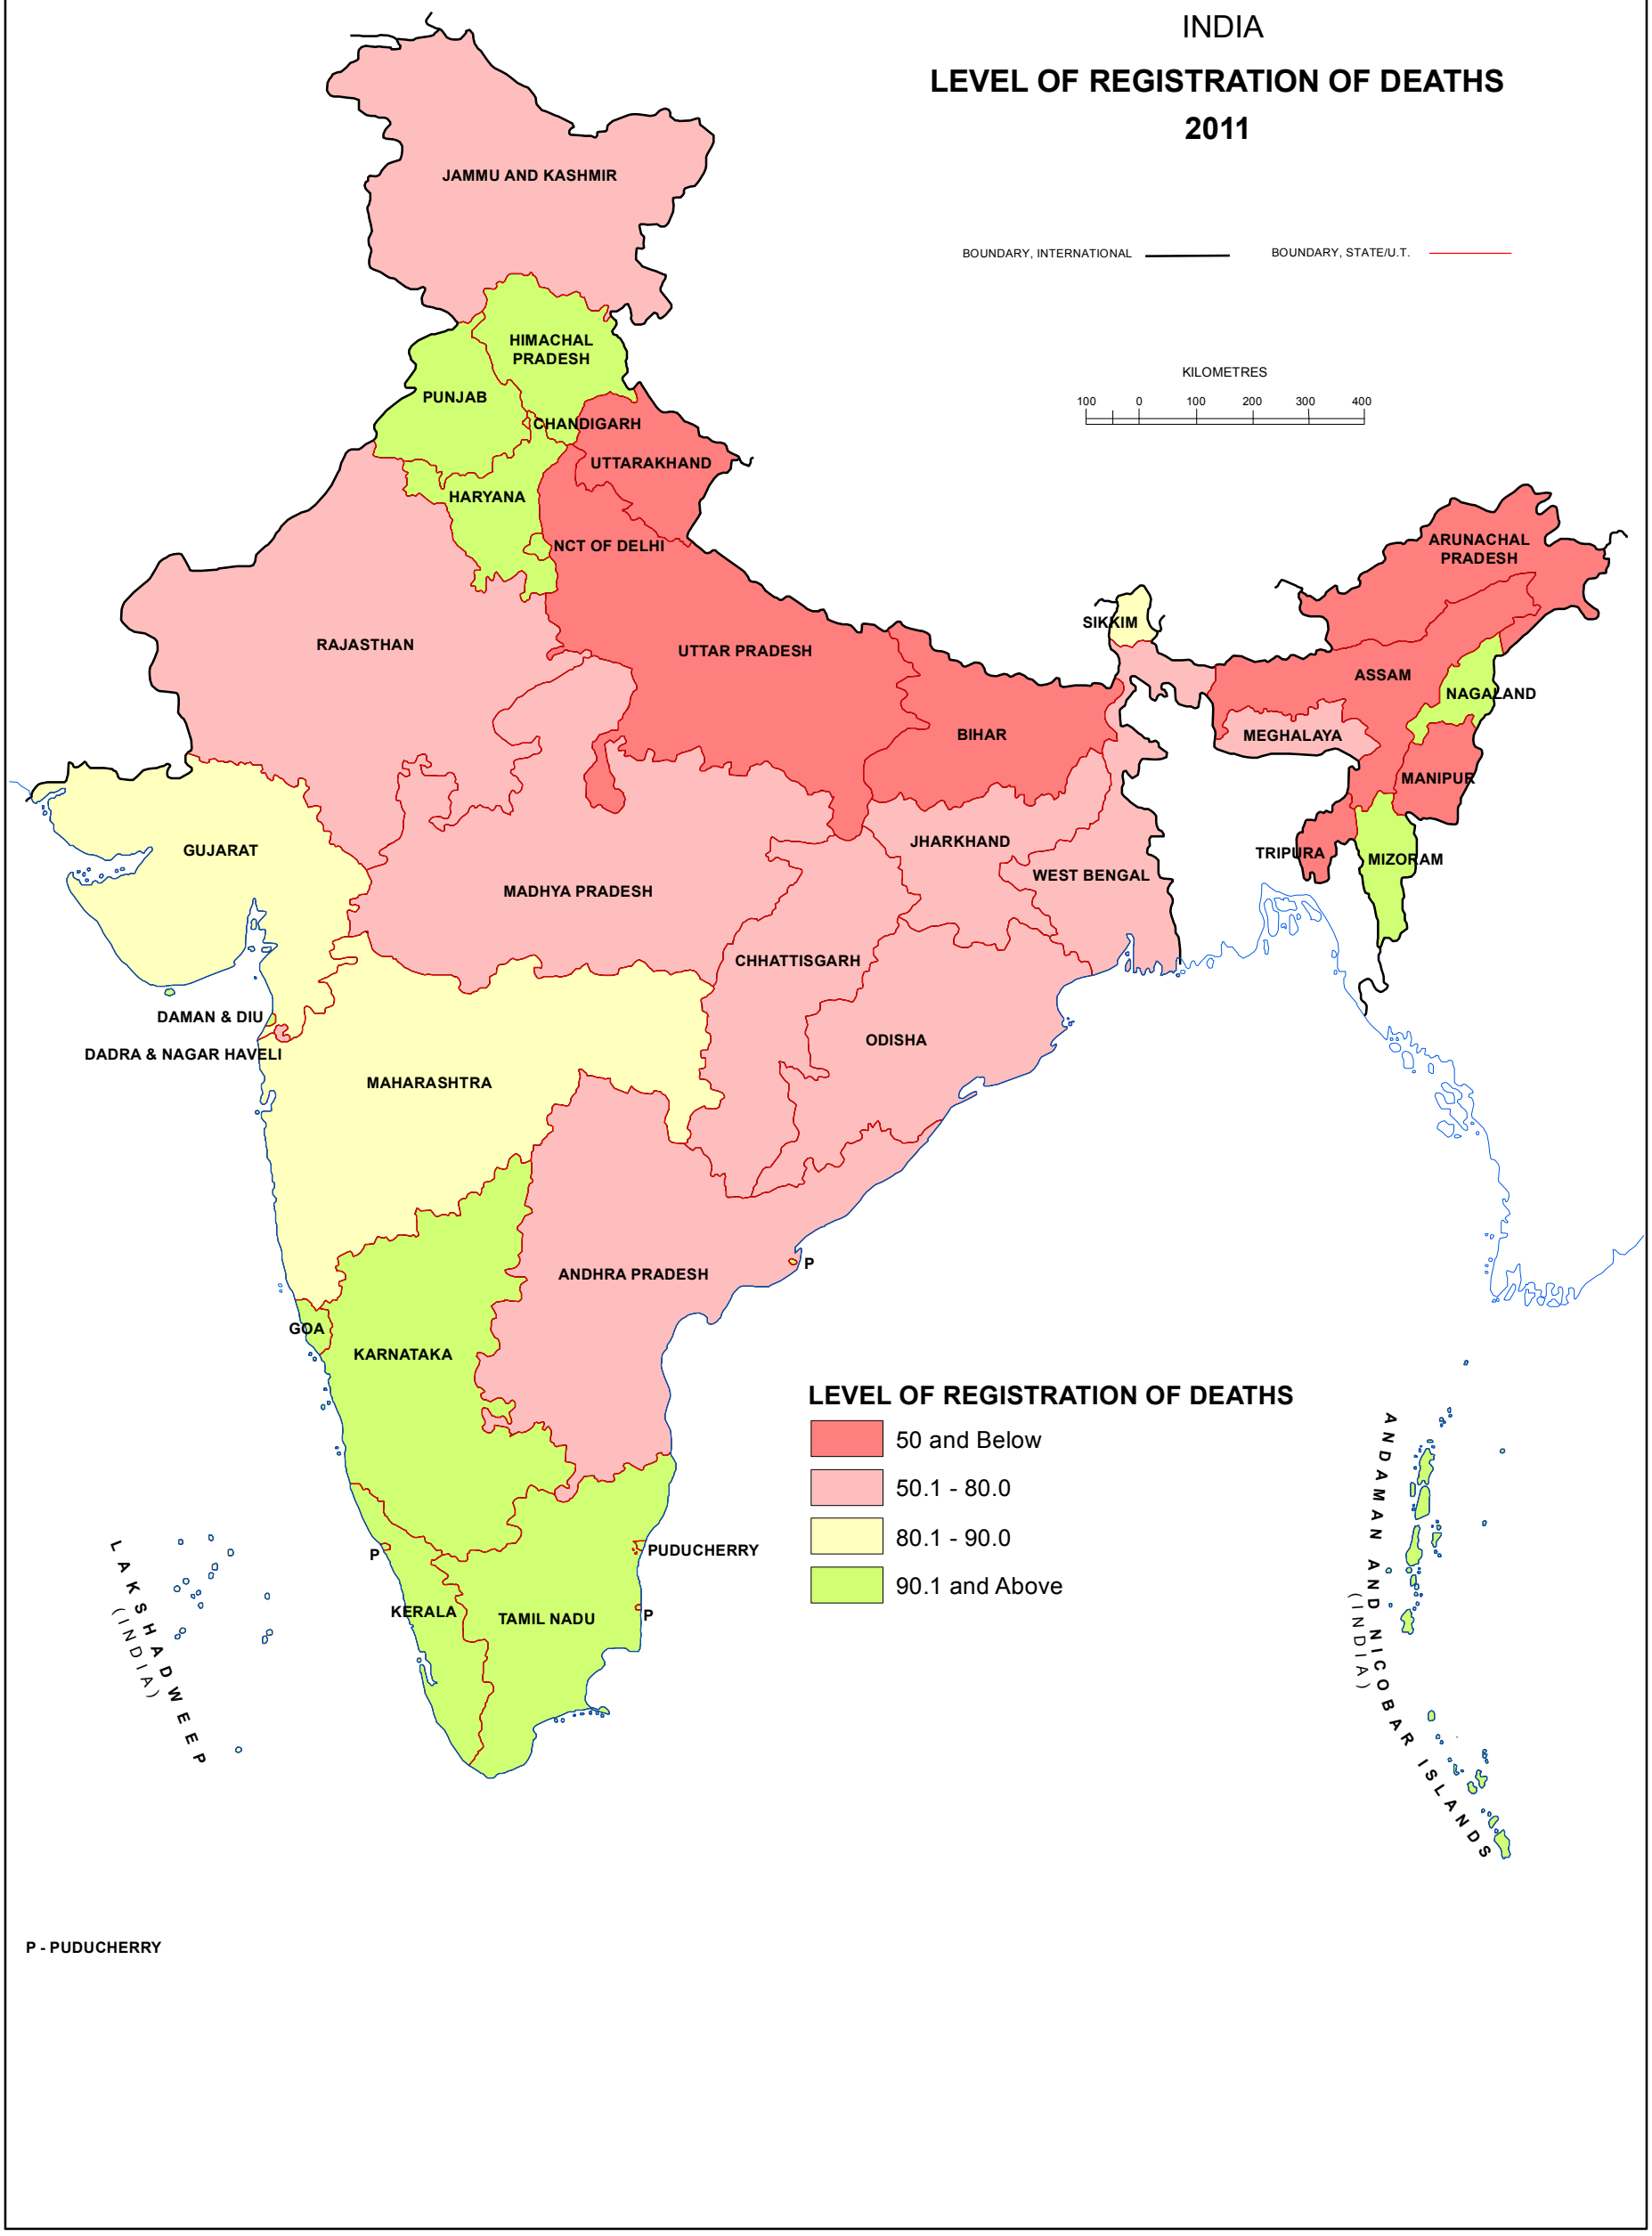
LEVEL OF REGISTRATION OF DEATHS
2011



P - PUDUCHERRY

Overview of Civil Registration System (CRS)

1. Registration of birth is a right of the child and is the first step towards establishing their identity.

2. It is compulsory to report births and deaths to the Registrar of Births and Deaths under the Registration of Births and Deaths Act, 1969.

3. Births and Deaths are registered only at the place of their occurrence.

4. Head of the household is responsible to report births and deaths that occurred in the house to the Registrar of Births and Deaths.

5. It is the responsibility of the officer in charge to report the births and deaths that occur in hospitals, nursing homes, health centres, etc. to the Registrar of Births and Deaths of the concerned area.

6. For reporting of events, prescribed forms are used, Form 1 for live birth, Form 2 for death and Form 3 for still birth.

7. Midwives and other Medical and Para-medical persons who have attended a birth of a child are duty bound to notify the Registrar about the occurrence of the birth.

8. Keepers of crematoria and burial grounds, and persons required to be present at such places by a local authority are required to notify the Registrar about the occurrence of the death.

9. The Registrar of Births and Deaths have the power to obtain information regarding birth/death from those who are in the knowledge.

10. Births and deaths are to be reported within 21 days of occurrence of the event.

11. A Birth/Death certificate is to be issued free of charge for events reported within 21 days.

12. Births and deaths reported after 21 days but within 30 days can be registered on payment of prescribed late fee.

13. Births and death reported after 30 days but within one year can be registered on production of an affidavit, permission of the prescribed authority and payment of a late fee.

14. Births and deaths reported after one year can be registered only with the permission of a First Class Magistrate and payment of prescribed late fee.

15. Births can be registered without name of the child.

16. Name of the child can be reported to the registrar for entering in the Birth Register within one year of registration free of charge.

17. Name of the child can also be entered after one year but within 15 years of registration on payment of prescribed late fee.

18. Persons giving information about births/deaths are required to give it under their signature.

19. Errors in the particulars of births or deaths in the registers can be corrected according to the prescribed procedure.

20. Wrong and fraudulent entries can be cancelled by the Registrar of Births & Deaths.

21. Under Section 17 of the RBD Act, 1969, any person can cause a search in the birth/death registers for any entry and obtain a certified extract (Birth/Death Certificate).

22. Extracts issued under Section 17 of the Registration of Births and Deaths Act shall be admissible as evidence of birth or death to which the entry relates.

23. All Registrars are to send a monthly return to the District Registrar or Chief Registrar.

24. Births that occurred outside the country can also be registered in India within sixty days of return of the family at the place where they settle.

25. There is no provision to register deaths that occurred outside the country.

26. Non-reporting of births and deaths, giving false information for inclusion in the register, refusing to put signature in the reporting form/register and non registration of events reported to the registrar is a punishable offence.

27. Under the RBD Act, 1969, Registrars and Sub-Registrars are the public servants.

28. Registration of births and deaths made prior to implementation of the Registration of Births and Deaths Act, 1969 is deemed to have been done under the same Act.

29. On adoption of a child, the name of the adoptive parents and a new name for the child can be entered in the birth register.

30. Registration of births and deaths is in the interest of the individual and the nation.

EXECUTIVE SUMMARY

A unified process of continuous, permanent and compulsory recording of the vital events and characteristics thereof, as provided through the legal requirements of the country, is called Civil Registration System (CRS). In India, the Registration of Births and Deaths Act, 1969, provides for the compulsory registration of births and deaths. Civil Registration records are the best source of Vital Statistics. The records resulting from Civil Registration System have two main uses. First, as a personal legal document, required by citizens as proof of facts e.g. age, identity etc and second, the data generated through a complete and up to date System of Civil Registration are essential for socio-economic planning and also to evaluate the effectiveness of various public's related programs. They also serve as the cornerstone of public health systems. This Annual Statistical Report on Vital Statistics of India for the year 2011 has been brought out on the basis of data made available by the Chief Executive Authorities i.e. Chief Registrar of Births and Deaths of States/Union Territories. The main findings of the report have been summarized below:

VITAL INDICATORS: Notwithstanding the difference in approach of data collection between CRS and Sample Registration System (SRS), a comparison of vital rates based on these two sources helps in evaluating the performance of CRS over SRS. Level of reporting helps in reviewing the registration system and defining measures that would be necessary to improve registration levels across the country. It is around 92.5% of the registration units at National level during 2011. Such reporting level by rural and urban registration units are about 92.5% and 96.4% respectively.

Birth Registration:

- The number of reported registered births has reached to 21.8 million in 2011 as compared to 8.4 million in 1982.
- The share of registered births to total estimated births under SRS is increasing year by year which in result shows the significant improvement in birth registration.
- The share of male registration is more than the female for registered births.
- Share of Institutional births in total registered births has increased to 93.7% during 2011 as compared to 65% during 2010. Only 10% of the total registered births are non–institutional in the year 2011. It is based on information received from 23 States/UTs.
- The level of registration of births has increased from 59.5 per cent in 2002 to 83.6 per cent in 2011.
- 15 States/UTs have achieved the target of cent per cent level of registration of births during 2011.
- 10 among 19 major States have crossed the level of registration of births of 90 percent. These States are Assam, Gujarat, Haryana, Karnataka, Kerala, Maharashtra, Odisha, Punjab, Rajasthan and Tamil Nadu.
- After excluding 2 most populous and poor performing States namely Bihar and Uttar Pradesh, the level of registration of births comes out to be 93.7%.
- The level of registration of births for other States/UTs is higher than that of Southern as well as EAG States& Assam persistently over the period of 2002-2011.
- The Sex Ratio at Birth for the year 2011 comes out to be 909.

- Highest Sex Ratio has been reported by Karnataka & Andhra Pradesh (983) followed by Tripura (982) & Mizoram (972) during 2011.
- Lowest Sex Ratio has been reported by Manipur (816) followed by Haryana (833).

Death Registration:

- The number of registered deaths has also more than doubled in the year 2011 as compared to 1982 (5.7 million in 2011 from 2.5 million in 1982). There is improvement in total number of registered deaths during 2011 as compared to 2010.
- The share of registered deaths to total estimated deaths under SRS is increasing year by year with fluctuating trend.
- Male shale in total registered deaths is more than the female.
- Share of Institutional deaths in total registered deaths has recorded 42.4% during 2011. 10% of the deceased in total registered deaths did not receive any medical attention before deaths which was 22% during 2010. This information is based on information received from 21 States/UTs.
- The level of registration of deaths has increased from 52.1 per cent in 2002 to 67.4 per cent in 2011.
- 7 States/UTs have achieved the target of cent per cent level of registration of deaths during 2011.
- 5 among 19 major States have crossed the level of registration of deaths of 90 percent. These States are Haryana, Karnataka, Kerala, Punjab and Tamil Nadu. During 2009, only 3 major States were in this category.
- During 2011, there are only 7 States/UTs who have achieved the target of 90% in case of both birth and death registration.
- After excluding 2 most populous and poor performing States namely Bihar and Uttar Pradesh, the level of registration of deaths comes out to be 76.8%.
- More infant deaths have been registered in urban area than the rural area.
- A substantial gap can be seen in the level of registration of births and deaths between three groups, i) Empowered Action Group (EAG) & Assam, ii) Southern States and iii) Other States/UTs over the period 2002-2011.
- Notwithstanding the difference in approach of data collection between CRS and Sample Registration System (SRS), a comparison of vital rates based on these two sources helps in evaluating the performance of CRS over SRS.

GLOSSARY OF TERMS

Birth: Live birth or still birth.

Live birth: Complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such expulsion or extraction, breathes or shows any other evidence of life, and each product of such birth is considered live-born.

Still Birth: Foetal death where a product of conception has attained at least the prescribed period of gestation.

Death: Permanent disappearance of all evidence of the life at any time after live birth has taken place.

Infant Death: Death of a child less than one year old.

Level of Registration: The level of registration, defined as the percentage of registered births/deaths to the births/deaths estimated through SRS, determines the performance level of a State / Union territory with regard to functioning of Civil Registration System.

$$\text{Level of Registration (LOR)} = \frac{\text{Number of events registered during the year}}{\text{Number of estimated events for the year}} \times 100$$

Mid-year Population: Population at the mid-point of the year, i.e., 1st July of the year.

$$\text{Number of estimated events for a year} = \text{Mid} - \text{year population} \times \text{SRS Rate}$$

$$\text{Sex Ratio at birth (SRB)} = \frac{\text{Number of female births registered during the year}}{\text{Number of male births registered during the year}} \times 1000$$

Gross Natural addition to the Population = Total Registered Births – Total Registered Deaths

PART-I
REVIEW AND ANALYSIS

STATEMENT 1: CIVIL REGISTRATION SYSTEM: AT A GLANCE

Demographic features of India as per the Civil Registration System (CRS)				
Registration of Births		**2009**	**2010**	**2011**
i)	Estimated Mid- Year Population (in '000)	**1166228**	**1182108**	**1197658**
ii)	Expected Live Births	**26240130**	**26124587**	**26108944**
iii)	Number of Registered Births	**21292574**	**21430434**	**21836920**
iv)	Level of Registration	**81.3**	**82.0**	**83.6**
v)	Level of Registration after excluding U.P. & Bihar	**89.6**	**91.6**	**93.7**
Registration of Deaths				
i)	Expected Deaths	**8513464**	**8511178**	**8503372**
ii)	Number of Registered Deaths	**5677705**	**5690549**	**5735082**
iii)	Level of Registration	**66.9**	**66.9**	**67.4**
iv)	Level of Registration after excluding U.P. & Bihar	**75.4**	**76.8**	**76.8**
Registration of Infant Deaths				
i)	Number of Registered Infant Deaths	**180865**	**180736**	**178172**
ii)	Percentage of infant death to total deaths	**3.2**	**3.2**	**3.1**
Gross Natural addition to the Population				
i)	Person	**15614869**	**15739885**	**16101838**
Sex Ratio at Birth				
i)	Number of Registered Male Births	**9054521**	**9436361**	**8428698**
ii)	Number of Registered Female Births	**8126390**	**8087068**	**7660839**
iii)	Sex Ratio at Birth	**898**	**857**	**909**

Note: Total registered births do not match with the total of male and female registered births due to non availability of sex-wise details from some of the States.

*SRS BR: Sample Registration System Birth Rate, *SRS DR: Sample Registration System Death Rate

CHAPTER – I

CIVIL REGISTRATION SYSTEM - AN INTRODUCTION

1.1 The requirement for a complete and up to date Vital Statistical System to yield reliable data on vital events hardly needs any emphasis. These data are essential for socio-economic planning and development and also to evaluate the effective implementation of various programs. The chief sources for data on vital events in India are Civil Registration System (CRS), Sample Registration System (SRS) and Population Census. The Population Census remains the main source of information on population and its characteristics; however, being a decennial exercise, it does not provide the measure of population change from year to year. The measures of fertility and mortality derived from the Census are centered on the midpoint of the decade and as such do not provide annual change in the population. Of the other two sources of vital statistics for getting the vital rates on a regular basis, the SRS has been designed to provide reliable estimates at National and State level. Robust estimates of vital rates at District and sub-district level on an annual basis through sample survey are difficult to obtain on account of prohibitively large sample size and variety of resultant factors such as controlling of non-sampling errors etc. CRS is thus the only source for providing vital rates at district and sub-District level. Rather a complete CRS can provide these rates at all administrative levels.

1.2 The Civil Registration System (CRS) may be defined as a unified process of continuous, permanent and compulsory recording of the vital events and characteristics thereof, as per legal requirements in the country. In India, the Civil Registration System cover registration of births and deaths only. Civil registration system provides the best source of information on the vital rates at all levels. Full coverage of vital events by registration machinery only can help in reaching to the high-quality vital rates which may be used for planning or research. Therefore, concentration should be given to the proper monitoring of the activities under the system. Civil registration systems are considered to be complete if they cover 90 per cent or more of all live births and deaths taking place within a country or area. However, in India the coverage of registration system is incomplete and not up to the mark to be utilized for statistical purposes at the National level but there are 21 States/UTs where the coverage of birth registration is more than 90 per cent and 14 States/UTs where the coverage of death registration is more than 90 per cent.

1.3 The registration records are primarily useful for their value as legal documents and secondarily as the source of vital statistics. Civil registration as a source of vital statistics is relatively less expensive, as the statistics generated from the registration records are the by-products of an essential administrative process. The registration records can also generate current and continuous statistics, which can be more accurate than any other method of data collection. However, the reliability of the statistics obtained through the registration system depends much on the completeness and promptness with which events are registered and the accuracy of the information in the registration records. The improvement in the system of registration of births and deaths is critically dependent on how much importance is attached to the data on births and deaths by the respective States and District administrations. Besides, the level of awareness among the public about the utility of birth/death certificate also plays a crucial role.

1.4 Vital statistics generated through registration records enable estimation of the size, structure and geographical distribution of the population for the current year except for migration. Vital statistics also enables the projections for future years on the basis of probable trends of fertility and mortality as derived from a study of these factors and their interactions with social, economic and other demographic factors. The vital statistics data generated through an effective Civil Registration System is of immense use for formulation of various development and welfare programmes/ schemes. Civil

Registration data can act as an objective source for allocation of financial resources at State and District level. The Civil Registration data acquires paramount importance in the wake of 73rd and 74th amendments to the constitution of India, as it can provide data at local level for micro level planning, monitoring and evaluation of schemes. At national level, the vital statistics data generated through Civil Registration is quite useful for medical research and in the study of sex ratio, mortality and morbidity rates and also in the study of causes of deaths.

Registration of births and deaths in India

1.5 In India, the registration of births and deaths is carried out under provisions of the Registration of Births and Deaths (RBD) Act, 1969. The registration is done by the local Registrar appointed by the State Government under whose jurisdiction the event has taken place.

1.6 Provision for registration of births and deaths and the mechanism thereof had been in existence in India for more than a century, however, the work of registration was carried out under various laws and byelaws existing at that time in different parts of the country. The need for improvement in the vital statistics system was felt for long time and, therefore, on recommendations of various committees and conferences, the Registration of Births & Deaths Act, 1969 providing for compulsory registration of births and deaths was enacted. Since then, this Act has been enforced uniformly across all the States and Union territories. This Act provides for registration of births and deaths and publication of statistical reports annually based on the civil registration data. The enactment of the Registration of Births & Deaths Act, 1969 *has* provided a common framework for putting in place a sound system of registration of births and deaths in the country.

1.7 The registration work at various levels in States/Union Territories is performed by involving officers of different Departments. The existing organizational set-up involved in the work of civil registration at various levels in different States/Union Territories is given at **Annexure-A**. A uni-linear hierarchy exists in 7 States/ UTs namely, Assam, Haryana, Meghalaya, Odisha, Punjab, Sikkim and A&N Islands, where Health Department is involved at all levels of registration. Similarly, Panchayats in Kerala, Revenue in Dadra & Nagar Haveli and Local Administration Department in Puducherry are responsible for execution of this work at all levels. At present, Health Department supervises the civil registration work at State level in 19 States/Union Territories, Department of Panchayats in 1 UT namely Lakshadweep and Department of Planning, Economics & Statistics in 12 States/ Union territories.

1.8 In order to simplify and speed up the process of registration and to bring in uniformity in birth and death registration formats, the registration system was revamped in the year 2000. Under the revamped system, the procedure for registration of births and deaths was also modified to some extent and the forms redesigned. Most of the tables to be part of the Annual Report of the Chief Registrars based on registration of births and deaths data under revamped system would be based on the information of place of usual residence of mother in case of births and place of usual residence of the deceased in case of deaths. The revamped system became operational in 2000 in all States/Union Territories except Assam, Arunachal Pradesh, Gujarat, Haryana, Himachal Pradesh, Odisha, Punjab, Uttarakhand and Uttar Pradesh. It was implemented in Assam, Arunachal Pradesh and Odisha in 2001, Haryana in 2002, Himachal Pradesh, Uttarakhand and Uttar Pradesh in 2003 and Gujarat and Punjab in 2004.

Statistical Reports

1.9 System of Registration of Births and Deaths is constantly generating statistical information at the local level. The information contained in the Reporting Forms is consolidated for onward transmission

to the Chief Registrar of a State/UT. Every Chief Registrar is required to submit an Annual Report on the Working of the Act and a Statistical Report to the State Government by the July and December respectively of the following year to which the report relates. The Chief Registrars are also required to send a copy of these Reports to the Registrar General, India, Govt. of India.

1.10 Based on the Annual Statistical Report prepared by the States, the Office of the Registrar General, India, brings out annually a comprehensive statistical report entitled "Vital Statistics of India based on Civil Registration System". This series of reports have been brought out since 1958. However, most of the States are not bringing out their Annual Statistical Reports in time, and this in turn, delays the publication of the corresponding national report. It has also been observed that many of the States do not include all the prescribed tables in their reports making the utility of the national report very limited. However, most of the States have sent the annual information on births and deaths registered up to 2011. This information is available for most of the Districts with rural- urban and sex wise break-up. Therefore, this report has been prepared by compiling this information. Keeping in view the importance and use of the data on registered births and deaths, this report provides the District-wise registered births and deaths along with infant deaths with sex-wise and rural-urban break-up of registered events for the year 2011.

*****

CHAPTER II

Report on working of the RBD Act

1. **Registration Machinery:** Section 3 to 7 of the Registration of Births and Deaths (RBD)Act 1969 provides for the appointment of functionaries at all levels like (i) Registrar General, India at the national level; (ii) Chief Registrar at the state level; (iii) District Registrar at district level; (iv) Registrar for a local area such as a village, panchayat, municipality, municipal corporation or other local bodies; and (v) Sub-Registrar for specified area within the area under the jurisdiction of a Registrar. The work of registration is carried out by a three-tier hierarchy: the Chief Registrar, District Registrar and local Registrar at the periphery level under the State Government/Union territory Administration. The Chief Registrars of Births and Deaths has been declared as the chief executive authority in the respective States/ UTs for implementing the provisions of RBD Act and the Rules and orders made thereunder. The actual work of registration of births and deaths in the field is carried out by the local registrars.

There is wide variation in the registration machinery across the country. The Chief Registrars of births and deaths in 17 States and 2 union territories are from the Health Department, in 10 States and 2 union territories are from Planning, Economics & Statistics Department, in 1 State and 1 UT from Panchyat Department and in remaining 2 UTs it is with other Department viz. Local Administration and Revenue Department. The district level authorities are mainly divided among District Collectors/ District Magistrate (in 9 States and 1 UT), Chief Medical Officers/ District Medical and Health (11States and 2 UT), District Statistical/ Planning Officers (in 4 States and 1 UT) and Deputy Director / Assistant Director (Panchayat) in 1 State and 1 UT and in remaining States/ UT are others. At rural level, the registration work is entrusted to the officials of Panchayat Department in 15 States and 3 UTs, Health Department in 7 States and 3 UTs, Revenue Department in 3 States), Education Department in 2 States and Police Department in 1 State and 1 UT. The registration work of rural areas in the State of Punjab has been transferred from panchayat Department to Health Department w.e.f 01.09.2010.

2. **Inter Departmental Coordination Committees (IDCC**): In order to resolve operational problems and to sort out the issues of mutual coordination among the various departments engaged in registration work and for effective implementation of the provisions of the Act, Inter-Departmental Coordination Committees (IDCC) at State level has been set up in all the States / UTs. The State Governments are required to convene the meeting of such committee, at least once in a year to formulate the strategies for further improvements in civil Registration system in the state. However, it has been observed that most of the States have not convened such meetings on a regular basis. During 2011, such meetings were held only in four States/UTs of Karnataka, Uttarakhand, west Bengal and Delhi. The Inter Departmental Coordination committees have also been set up at District and Sub district level i.e. Mandal and Taluk level. However, the information on regular convening of such meetings has not been received from many States. As per the information provided, the State of Karnataka has convened meetings of 37 District Level Coordination Committees (DLCC) and 415 Taluk level Coordination Committees (TLCC) and Tamil Nadu convened 14 District Level meetings during 2011). The States of Andhra Pradesh, Assam, Rajasthan, Himachal Pradesh, Madhya Pradesh, Punjab and **Tripura** have also convened such meetings during 2011.

3. Penalties: Section 23 of the RBD Act provides for imposing penalties on defaulting institutions, Registrars and the individuals for non-registration, non-reporting and for negligence or refusal without reasonable cause to register any birth or death. However, it has been found that very few States have been reported to resort the penalties, as a means to improve the functioning of the system. As per the information made available, the States of Rajasthan, Kerala, and Punjab have imposed such penalties during 2011.

Statement 3: Penalties imposed on Registration Functionaries

States / UTs	Penalties imposed on	
1. Rajasthan	76 Gram Sevak (Registrar of Births and Deaths)	Rs.3800/ collected
	No. of prosecutions	**No of offences**
2. Kerala	108 (Rs. 4812/-)	70 (Rs. 3880/-)
	Amount collected from defaulter for non / late reporting (in Rs.)	
3. Punjab	Rural	1,94,457/
	Urban	2,08770/
4. Maharashtra	District Registrars has been taken action against Block development officer/ Chief officer for delay in sending the monthly reports.	

In Andhra Pradesh, District Registrars and Municipal commissioners/ Health Officers have already been authorized to launch prosecution and compounding offences against the defaulters, they have been reminded to exercise their powers. The States of Assam Bihar, Gujarat, Jammu & Kashmir, Himachal Pradesh, Jharkhand, Madhya Pradesh, Gujarat, Nagaland, Manipur, **Nagaland, Tripura**, Andaman & Nicobar and Puducherry have furnished the nil information and not imposed any penalties during the year. The other States has not responded on this issue.

6. Registration of Births and Deaths occurring to Indian Citizens abroad: The event of births and deaths of Indian citizens occurring abroad are registered by the respective Indian Consulates under the Citizenship Act 1955. The Consulates are statutorily required under Rule 5 of Citizen's (Registration at Indian Consulates) Rules 1956 to send the annual returns of births and deaths of Indian Citizens to the ORGI. Such returns for the year 2011 have been received from 80 missions, covering 12245 births and 1745 deaths. Out of total birth registered at the various missions during 2011, Kuwait alone accounted for 37%, UAE 21%, Oman 14% and Spain 4.6% births. In case of total registered deaths at various missions, Kuwait accounted for 26% deaths, UAE 21% and Malaysia 12% deaths in 2011. Details are given in the annexure.

7. Annual report on the working of the RBD Act: The Chief Registrars are required to submit an Annual Report on the working of the RBD Act under section 4 (4) of the Act to the respective State Governments as well as to the ORGI. The statutory Annual Reports for the year 2011 have been received from **29** States and UTs except Chhattisgarh, Goa, J &K, Odisha, Uttarakhand and West Bengal.

8. Inspections of registration units- Inspection of registration centers and registration records are essential for improvement of registration system in both qualitative and quantitative terms. Specific provisions under Section 18 of the RBD Act have been made for inspection of registration offices and examine the registers kept therein. Regular inspections are required to be done by the office of the Chief Registrar and District Registrars in each States/ UTs. Such inspections could have been more meaningful, if organized and conducted regularly within a time frame, however, as per the information provided by the States, the inspection of registration centers in the States were intermittent and extremely insufficient in most of the States/UTs during 2011. The actual information in respect of number of units inspected is not provided by the majority of the States /UTs. The following States/ UTs have furnished the desired information, the details of which are given below:

Statement 3: Details of inspection undertaken

Name of State	Number of Districts Covered	No. of Rural units Inspected	No. of Urban units Inspected
1. Bihar	17	36	98
2. Haryana	7	17*	--
3. Karnataka	Not given	2904	--
4. Madhya Pradesh	29	495**	204
5. Punjab	Not given	118	101
6. Rajasthan	Rural & Urban units inspected by DSO's and others but number of units not given.		
7. Manipur	08	54	
8. Puducherry	04	All 40 Units inspected.	
9. Jharkhand	Not given	115	25

* Records of 28 registration units were inspected at Chief Registrar's office.
** Out of 495 units, 114 units of Indore district were inspected during the year.

The other States have furnished the following information:
Andhra Pradesh: District Registrars have been requested to deploy District Level Programme Officers and Statistical Staff to inspect Registration centers regularly every month.

Tamil Nadu: Regular and periodical inspections by the Officers of the State Head Quarter are being carried out and the feedback of the inspection is also communicated to the District Registrars, Municipal Commissioners and Additional District Registrars for follow up.

Sikkim- The routine inspections were done by the Chief Registrar Office.

Nagaland: The District Registrars and Circle Registrars were instructed to carry out inspection to the Registration Units under their jurisdiction. Due to huge number of units, cent percent inspection could not be undertaken.

Delhi: Registration centers, zonal offices and major hospitals were inspected from time to time by the officers/ officials of Chief registrar office.

The inspections have also been made by the Officers/ officials of the ORGI and DCO offices from time to time. The observations found during the inspections were forwarded to the respective States/ UTs for remedial measures. No inspections were performed in Tripura.

9. **Training of Civil Registration Functionaries-** In most of the States/UTs The registration functionaries involved in Civil Registration work i.e. registration of births and deaths work at various levels are from different departments Almost all these functionaries perform registration work as an additional work along with other work assigned to them by the respective department. Further, there is a need to impart training at a regular interval to these officials on registration rules, procedures and practices framed under the provisions of the RBD Act and the corresponding State rules due to frequent transfers of these functionaries. As per the details furnished by the States, number of training programmes have been organized by the various States during the year 2011, viz. Andhra Pradesh 10, Madhya Pradesh 228, Mizoram 9, Haryana 4, Punjab 123, Jharkhand 112 (22 district level & 90 block

level), Rajasthan 1219 33 district level & 88 block level) and Tamilnadu conducted 12 training programmes during the year. Reorientation training for the local Registrars was also arranged in Himachal Pradesh and Sikkim. In Kerala, the subject of registration of births and deaths has been included in the various Training Programmes conducted by the Kerala Institute of Local Administration (KILA).

10. **Computerization of Civil registration record/ work-** The information on computerization of Civil registration record and online registration have been furnished by the following States/ UTs-

- **Kerala**- Civil Registration works in Kerala have been computerized in all Municipal corporations and Municipalities and 976 Rural Registration Units (Gram Panchayats) up to the end of 2011, Using "Sevana" Civil Registration Software developed by Information Kerala Mission (IKM). The Civil Registration records prior to date of computerization are being digitized. The certificates in respect of the registers maintained under the traditional system are also issued using the software in computerized units. The legal part of the reporting forms is preserved as Statutory Register in addition to the electronic data.

- **Punjab:** The State has initiated the procedure of computerization of record of births and deaths. In first phase, the record of rural area has been taken up for digitization, the record of birth and death for the year 2009 has already been digitized and 2010 is in progress. For this purpose, 31 Civil Registration Assistants were appointed at district headquarter under NRHM and two computer systems were provided for each 20 districts. Software for CRS in Gurumukhi language is developed by Centre for Computational Engineering, Punjab Engineering Chandigarh which is basically being used for issuance of certificates.

- **Daman & Diu**: Records of birth and deaths have been computerized in all registration centers. Computerized certificates are being issued by them.

- **Delhi**: All local bodies have computerized their operations resulting in improvement in the quality of service rendered to the public. All major Government / Private hospitals (about 500) have been provided the facility of online reporting of birth/ death events.

- **Puducherry**: All the local bodies are issuing computerized birth and death certificates for the event registered under the Act. In order to cater the needs of the public who requires birth and death certificates of their ancestors, computerization of birth and death record prior to 1979 in Puducherry and Oulgaret Municipalities has been taken up.

- **Gujarat**- At state level Summary reports are being compiled through From No. 11, 12 and 13and entered in BADEA (Birth And Death Entry Application) for validation of data entry of Births & Deaths registered at District/Taluka level under BADEA. All tables of RBD Act 1969 (B1 TO B23) are being generated through BADEA. Out of 8 Municipal Corporation, three Municipal Corporation have computerized Civil Registration System and issue Computerized Birth & Death Certificate. Some of the Municipalities/Nagarpalika and Gram Panchayats also initiated issue of Computerized Birth & Death Certificate.

- **Tamil Nadu**: All District offices have been equipped with computers. Computerization of Birth and Death data is done in all corporations, Municipalities and at Taluks. Computerization of Birth and Death data is also done in Town Panchayats. Computerized Birth and Death certificates are issued from all the urban local bodies. In rural areas, computerization of birth and death records have been started from 2008 onwards, using web-based software developed with the support of

NIC. The computerizations of birth and death records are done at taluk level and at Primary Health Centre level in the rural areas.

- Other States have also taken various measures on computerization of civil registration record but details have not been given in their annual reports

11. **Publicity efforts for improving Registration of Births and Deaths:**

(i) **Publicity measures taken by ORGI:** One of the reasons for low levels of registration in the country is the lack of awareness among the general public about the need and importance of registration and lack of procedural knowledge among the registration functionaries. In order to make the public aware about the need and importance of registration, Registrar General's Office undertook wide spread publicity campaigns through various media such as telecasting video spot through National Network of Doordarshan Kendra's & Private T.V. Channels, Broadcasting the messages on importance of births and deaths through various stations of AIR, advertisement through leading newspapers at the time of school admission, Printing of message on postal stationary, distribution of posters/wall hangers etc on the importance of registration of births and deaths.

(ii) **Publicity measures taken by State Governments:** The state governments had also undertaken publicity measures through their own funds by printing of posters, cloth banners, pamphlets, leaflets on the importance of registration of births and deaths. Radio talks were arranged on the importance of registration of births and deaths, advertisements were published in leading newspapers. Arrangements were also made by the state governments for showing the cinema slides and documentary films. As per the details given by the States following publicity measures has been taken during the year -

- ✓ **Andhra Pradesh**: The Commissioner, Family welfare requested to include the Civil Registration of Births and Deaths in the IEC activities in the Family welfare. Necessary instructions issued by the Women and Child Welfare Department to all Project Directors to arrange distribution and display of posters at Aganwadi centers. They have also been directed to ensure regular monthly reporting from them to village Secretaries. Instructions also issued to all Mandal Revenue Officers/Municipal Commissioner to ensure the display of posters at all public places.

- ✓ **Bihar:** published an advertisement on importance of registration of births and deaths in Hindi, Urdu and English Newspaper during the year.

- ✓ The State Government from its own funds broadcasted the message on the importance of registration of births and deaths for 120 days from Akashvani, Patna and also telecasted the message from Doordarshan Kendra, Patna for 118 days during the year 2011 in order to attract the attention of rural and urban people towards registration.

- ✓ Carried out wide publicity on the importance of registration of births and deaths by putting Stalls, posters, wall hangers etc. in "Melas" like Soanpur Mela and Shravani Mela and others in various part of the State.

- ✓ **Rajasthan**: Released an appeal on the importance of registration of births and deaths through Newspapers. Stickers were distributed among children. Publicity also made through "Akashvani and Doordarshan Kendra's on the importance of registration of births and deaths.

- ✓ **Karnataka:** The state Government taken publicity advertisements through hoardings etc. for improving registration system.

- ✓ **Haryana:** In order to strengthen the civil registration system, financial assistance of Rs. 8.04 Lakhs under NRHM (PIP) has been taken during 2011-12 for the activities like-appointment of Civil Registration Officer/ Assistants/Field Investigators etc., Purchase of Computer system and for Field visits.

- ✓ **Kerala**: Permanent notice boards were exhibited in front of all registration units. Slides were exhibited in almost all cinema Theaters. Messages on Civil Registration System were printed in Panchayat department publication 'Panchayat Raj', a monthly magazine of the state. The details of services given and the duties of the public under civil registration System is included in the 'Citizen Charter'.

- ✓ **Madhya Pradesh**: The Department of Health, Panchayat & Rural Development and Department of Women & Child Development included a slogan on the importance of registration of births and deaths in their other publicity programmes.

- ✓ **Maharashtra:** A column has been included in immunization card "as to whether the event has been recorded in gram Panchayat record or not" if yes, then date and registration number should entered in the Immunization card. To bridge the gap of registration in tribal and inaccessible area, ASHA's are appointed as notifier under NRHM. Tin plates showing important provisions of RBD Act were distributed in districts.

- ✓ **Manipur:** Distributed 620 numbers of wall hanging posters and 500 pamphlets on the importance of registration of births and deaths to registration centers during 2011.

- ✓ **Mizoram**: Advertisements on importance of registration of births and death were published in daily Newspapers and Periodicals in local language. A NGO 'Young Mizo Association' and Village Council took up the responsibility of informing the public on the importance of reporting the birth and deaths events to the local Registrars.

- ✓ **Nagaland:** The Department has been taking various steps for publicizing on the importance of registration of births and deaths, these were exhibited to the public in the form of posters, pamphlets, wall hangers, bill board etc.

- ✓ **Punjab:** The following measures were taken by the State:

    - A slogan on timely registration of birth has been incorporated in the immunization cards printed by the Health Department.
    - Regular announcements on the importance of registration of births and deaths have been made through public address system of Village Gurdwaras. Paramedical staff also spread awareness in immunization camps during their routine visits.
    - Advertisement was published in leading Newspaper apprising the general public about the special permission of registration of name of the child in the time barred cases.
    - The subject of birth and death registration was also discussed in live Programmes telecast by Doordarshan (PB) on Quarterly basis. The queries of general public were also answered in these programmes.

- ✓ **Mizoram:** Adequate publicity was made on the importance of civil registration. Advertisements on importance of registration of births and death were displayed in the daily Newspapers and Periodicals in local language. A NGO 'Young Mize Association' and Village Council took the responsible role of informing the public on the importance of reporting the birth and deaths events.

- ✓ **Sikkim**: Displayed video telecast through local television all over Sikkim. Verbal communication methods were also applied for creating awareness among public.

- ✓ **Tamil Nadu**: Hoardings containing the message on registration of births and deaths erected in 150 Municipalities. The state government has declared the month of April / May as "Birth certificate issuing Months" to ensure all children less than 5 years of age possess the birth certificate.

- ✓ **Tripura:** Publicity and other promotional activities were made in Health Fair and different Health Camps.

- ✓ **Uttarakhand:** Slogans on the importance of registration of births and deaths pasted on roadways buses. Advertisement on importance of registration of births and deaths also released in local leading Newspapers.

- ✓ **Andaman & Nicobar Islands**: Audio spots on registration of births and deaths broadcasted over All India Radio (AIR); posters also displayed at registration centers, Panchayat Ghars and schools.

- ✓ **Chandigarh**: The Department has started Help Desk to guide the visiting public and help them for filling the application form. The Department also participated in various Health Camp (Mela) organized by the Health department in order to increase the public awareness.

- ✓ **Delhi**. Advertisement on the importance of registration of births and deaths are being released in leading Newspapers on the important occasions like World Population Day & Children's day. NGO's and other voluntary organizations were involved in the propagation of benefits of registration and identification of unregistered cases if any in slum areas. A Citizen's Charter for registration of births and deaths has been implemented and issuance of birth/ death certificate has been covered under e-service Level agreement (SLA) to facilitate the public.

- ✓ **Daman & Diu**: Awareness regarding compulsion of registration of births and deaths was created among public by way of posters and advertisements.

- ✓ **Puducherry**: Adequate publicity was made on the importance of Civil Registration. Advertisements were released on the importance of registration of births and deaths in leading dailies on National Days.

12. **Issuance of birth and death extracts / certificates:**

Under the provision of Section 12 of the RBD Act, 1969 the Registrar are required to give an extract of prescribed particulars from the register relating to such birth or death to the person free of charge to the informant, who gives information under Section 8 and 9 of the Act. In addition to that, under Section 17 of the Act, the extract relating to birth or death has also been issued to the person asking for it on the payment of prescribed fee.

Most of the States / UTs are not furnishing the desired information on issuance of extract/ certificate under Section 12 and 17 of the Act. For the year 2011, only Six States/ UTs namely Haryana, Kerala, Chandigarh, Madhya Pradesh, Uttar Pradesh and UT of Puducherry have furnished the requisite information. The State of Madhya Pradesh has furnished the combined information on issuance of births and deaths certificates / extracts. The State of Kerala has not furnished the breakup of birth & death certificate under Section 12 of the Act, although breakup is given under Section 17 of the Act. The UT of Puducherry has not provided the details separately for Section 12 & 17 of Act. The information in respect of issuance of extract / certificate is given below:

Statement 4: Details of issuance of birth/death certificates

State/UT	Total Certificates/Extract			Under Section 12		Under Section 17	
	Birth	Death	Total	Birth	Death	Birth	Death
Haryana	886515	418574	1305089	441409	133320	445106	285254

Chandigarh	NA	NA	NA	22817	5450	NA	NA
Puducherry	522198	65546	587744	NA	NA	NA	NA

CHAPTER – III

A BRIEF ANALYSIS OF DATA ON REGISTERED BIRTHS, DEATHS AND INFANT DEATHS

3.1 Births and deaths are the two most important vital events in the life of an individual and for the society as a whole. Based on the data collected under the Civil Registration System on registered births and deaths, this Chapter presents the trend in the level of registration, vital rates and other related indicators, at the State and National level. To get an idea as to the coverage of Civil Registration in the country, the data generated from the Civil Registration System has been compared with corresponding estimates thrown up by the Sample Registration System. However, while interpreting the two statistics it should be borne in mind that data under Civil Registration is based on place of occurrence and Sample Registration System is by the place of usual residence of mother. It will not be out of place to mention that although the registration data continues to be deficient due to not reporting of the events for registration or not being registered, and also due to non-reporting of the registered events to the Districts Registrar's office in time by the local registration units, the silver lining is that the overall level of registration across the States / Union Territories (UTs) largely show an upward trend.

3.2 Statement 5 gives the number of registration units along with the level of reporting at the national level and across the States and Union Territories by rural and urban place of occurrence of the event in 2011. Level of reporting indicates how many registration units from those within a State / UT submitted monthly returns of registered births and deaths to the District Registrar's Office during the year. Expressed as percentage, it helps in reviewing the registration system and defining measures that would be necessary to improve registration levels across the country.

3.3 It may be seen from the Statement that nearly 92.5 per cent of the registration units at national level reported monthly returns of registered births and deaths to the District Registrar's Office during 2011. Such reporting level by rural and urban registration units is about 92.5 and 96.4 percent respectively. These figures exclude information from Bihar, Jharkhand, Odisha and Uttar Pradesh due to non-receipt of returns during the year.

3.4 Among the States, cent-per-cent level of reporting from both rural and urban areas has been reported from 8 States viz. Goa, Gujarat, Haryana, Himachal Pradesh, Kerala, Punjab, Sikkim and Tripura. It is interesting and heartening to note that all Union Territories have had cent-per-cent level of reporting during the year.

Statement 5: Number of registration units and level of reporting by place, India, States and UTs, 2011

Sl. No.	India / State / UT	Registration units (Number)			Level of reporting (%)		
		Total	Rural	Urban	Total	Rural	Urban
	India	**258951**	**254043**	**4908**	**92.5**	**92.5**	**96.4**
States

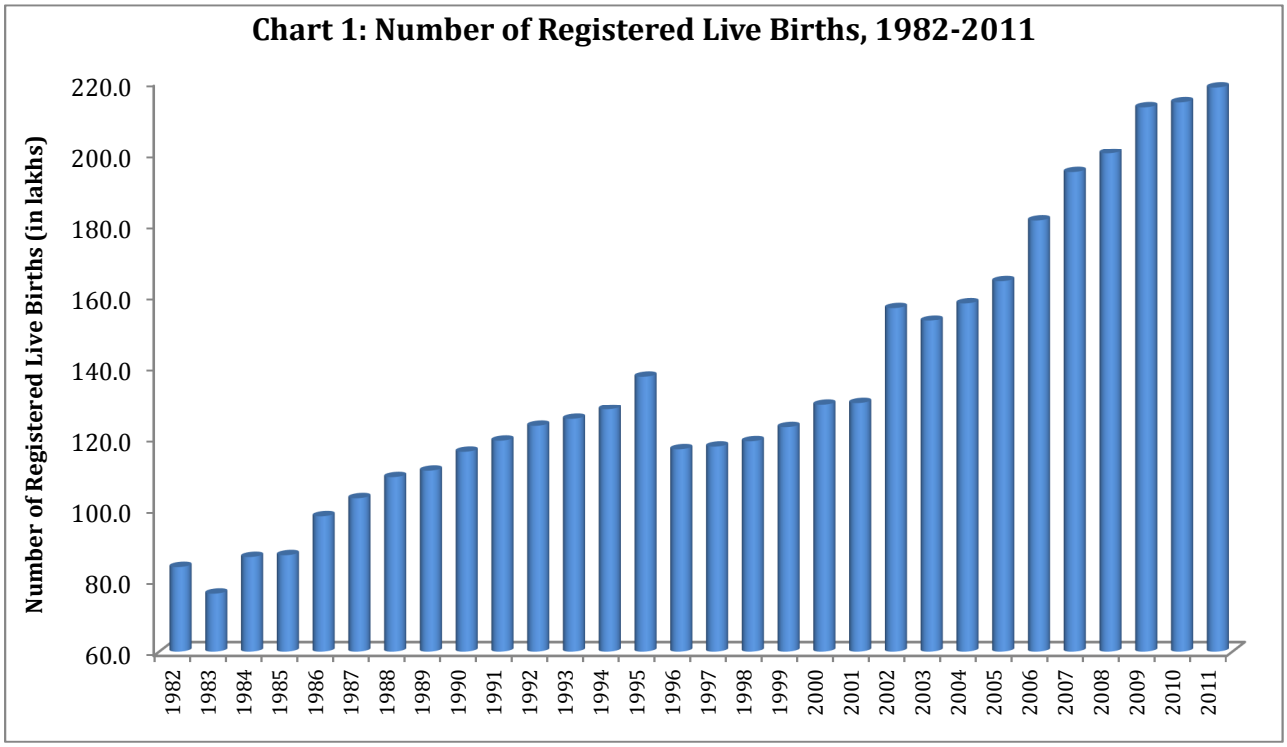
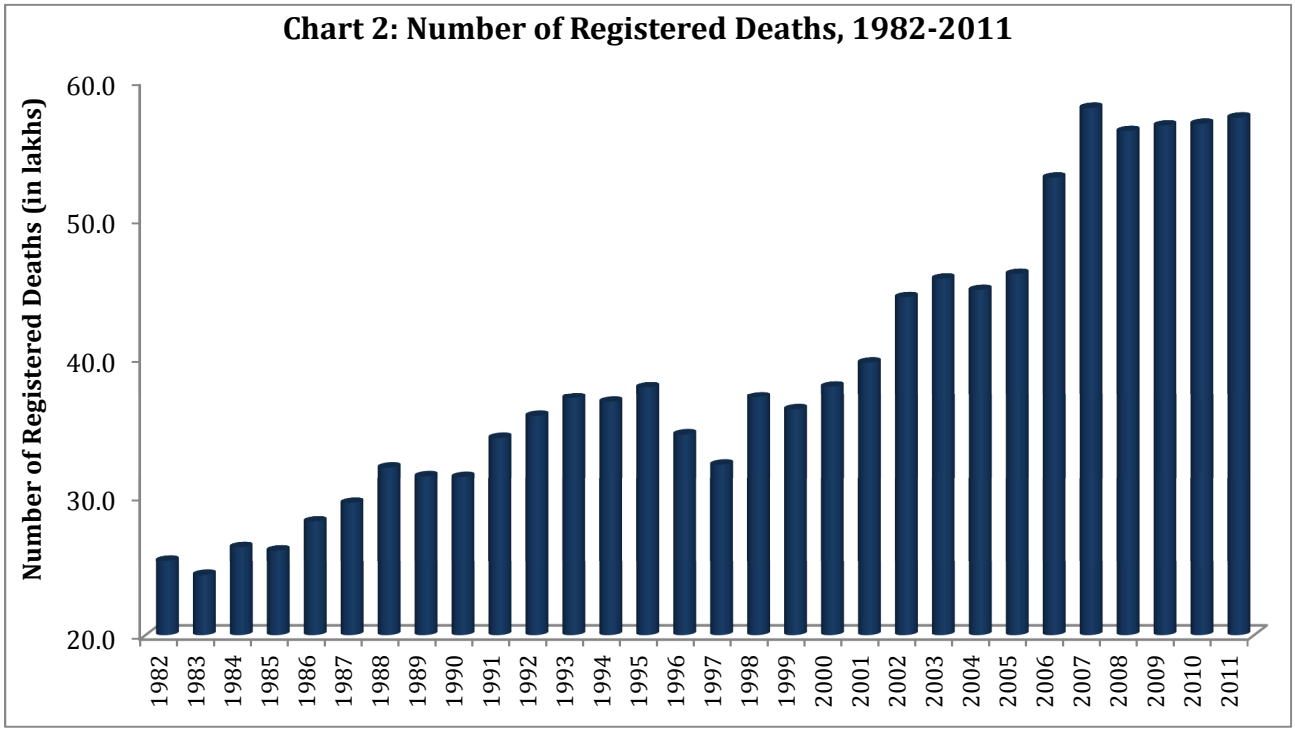
Notes:

1. *The figures are based on the data made available by the States/UTs.*
2. *For the period 1981 to 2000, total registered births/deaths of States/Union Territories exclude data for Assam from 1981 to 1987 & 1990 to 1994, for Bihar from 1997 to 1999, for Kerala of 1983, for Meghalaya from 1984 to 1994, for Sikkim from 1982 to 1987 and of 1989, for Uttar Pradesh of 1983 and from 1996 to 2000, for Uttarakhand of 2000, for West Bengal of 1982 & 1985, for A&N Islands 1981 to 1982, from 1987 to 1988 and from 1991 to 1992 and for Lakshadweep of 1982.*
3. *In 2001, total registered births/deaths of States/Union Territories exclude data from Assam, Uttar Pradesh and Uttarakhand.*
4. *Total registered births and deaths of States/Union Territories do not include data for Uttarakhand from 2002 to 2003, Tripura for 2005 and 2007-2009.*
5. *The registered births/deaths have been taken from the Annual Reports of the Chief Registrars and in its absence from the data provided by the Chief Registrar's office.*

3.6 Statement 6 reveals that there is an absolute increase in the number of registered births and deaths over the period 1982 - 2011. The number of registered births has gone up from 8.38 million in 1982 to 21.83 million in 2011 - an increase of 160%. Such increase in the number of registered deaths, from 2.54 million in 1982 to 5.73 million in 2011, is to the tune of 126%. However, disaggregated to reveal year to year change in the registered births and death, the pattern does not reveal a continuous increasing trend. Whereas, sizable decline in the number of registered births and deaths between two consecutive years is largely due to incomplete reporting by the local registration units of all registered events to the Districts Registrar's office, such increase may be due to special registration campaigns undertaken by the States / UTs. The decline in absolute number of registered deaths at the national level – from 5.80 million in 2007 to 5.64 million in 2008, was due to incomplete reporting from some of the major States namely, Andhra Pradesh, Bihar, Chhattisgarh, Jammu & Kashmir and Uttar Pradesh. Chart 1 and 2 present the number of registered births and deaths from 1982 to 2011.





3.7 The number of registered births, deaths and infant deaths for States and Union Territories for the period from 2002-2011 are presented in Statement 7, 8 and 9 respectively.

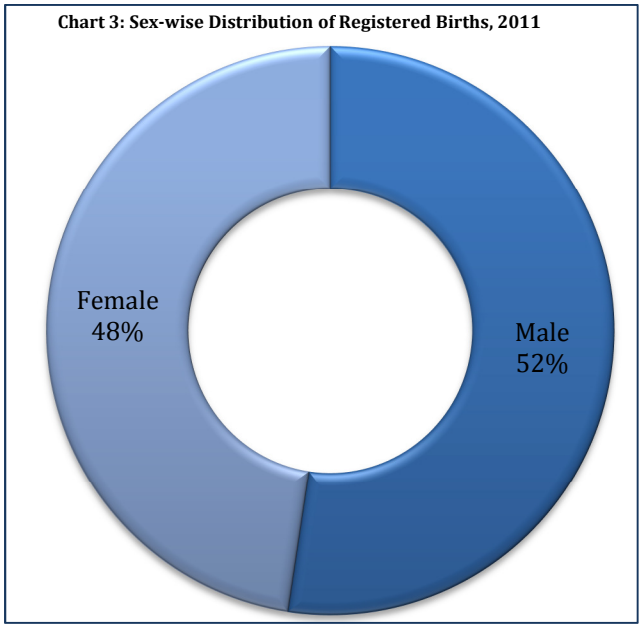
3.8 Sex-wise Distribution of Registered Vital Events

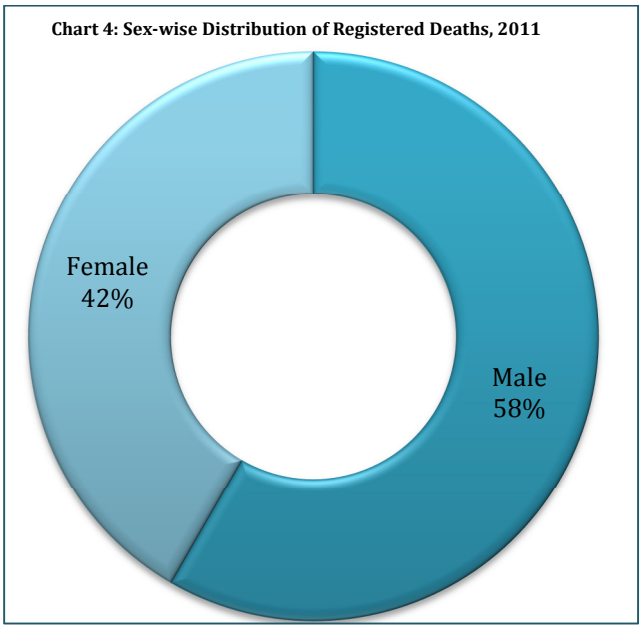
Sex	No. of Registered Births	%	No. of Registered Deaths	%
Male	8428698	52.4	2748274	58.3
Female	7660839	47.6	1963386	41.7
Person*	16089537	100.0	4711660	100.0

*: Does not include the cases of sex not reported, so does not match with total registered deaths.

3.8.1 Chart 3 on sex wise distribution of registered births reveal that share of female registered births is about 4 per cent short of registered male births. The figures exclude Bihar, Jharkhand and Uttar Pradesh due to non-receipt of information on gender wise registered births during 2011.

3.8.2 On the other hand, in case of death registration, the chart 4 shows the share of male registration is about 16 per cent more than female. These figures have been arrived after excluding the incomplete figure of Bihar, Jharkhand and Uttar Pradesh.





3.9 Sex-wise Distribution of Registered Vital Events of Major States

3.9.1 Chart 5 and 6 respectively shows the sex-wise distribution of registered births and deaths for the major States. Sex-wise distribution of birth reveals that the share of male registration is more than the female in almost all of these major States. This gap is much wider for Maharashtra and Madhya Pradesh. Similar pattern can also be seen in case of death registration, Assam is the only exception in case of death registration. State-wise figures have been appended in Statement 10 below.

Statement 10: Sex-wise Registered Births and Deaths of Major States (in'000), 2011

Sl. No.	States	Registered Births		Registered Deaths	
		Male	Female	Male	Female
1.	Andhra Pradesh	598.5	588.4	237.8	182.8
2.	Assam	312.8	287.9	54.0	57.0
3.	Chhattisgarh	174.6	159.7	67.7	47.2
4.	Gujarat	673.5	606.9	200.1	124.0
5.	Haryana	307.4	256.1	97.6	56.0
6.	Jammu & Kashmir	76.5	69.9	19.0	16.5
7.	Karnataka	559.0	549.6	232.1	152.6
8.	Kerala	288.8	271.0	140.3	104.0

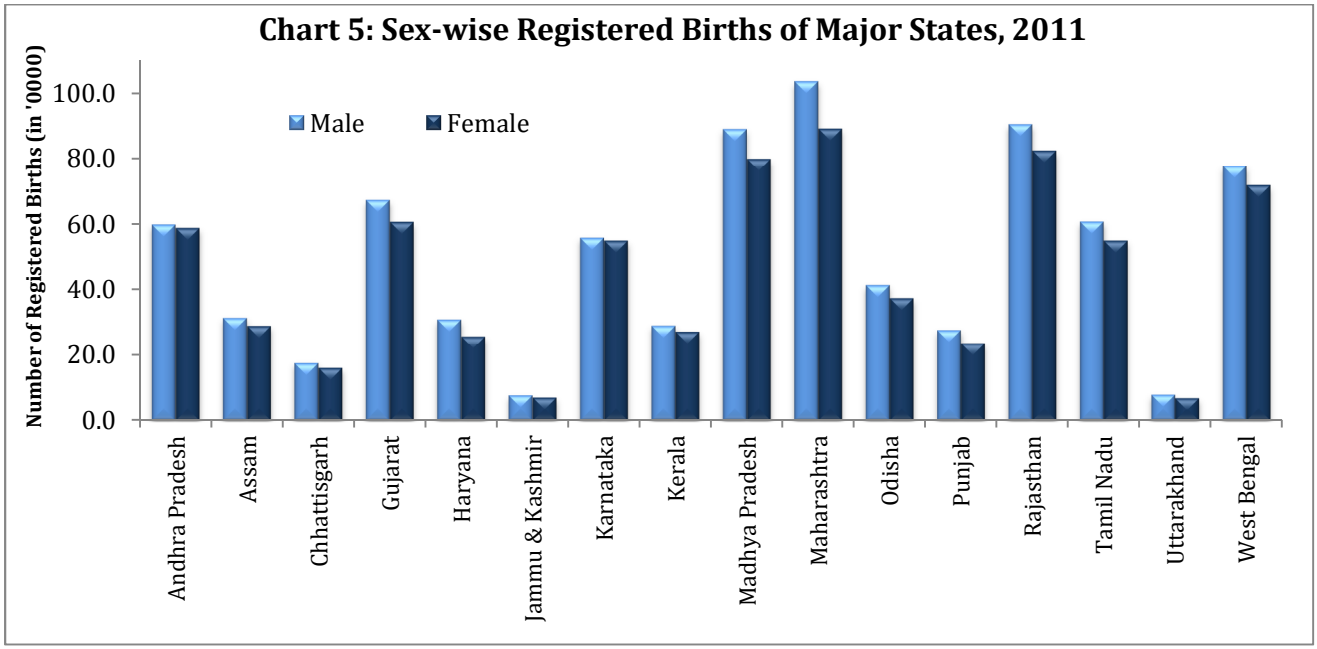
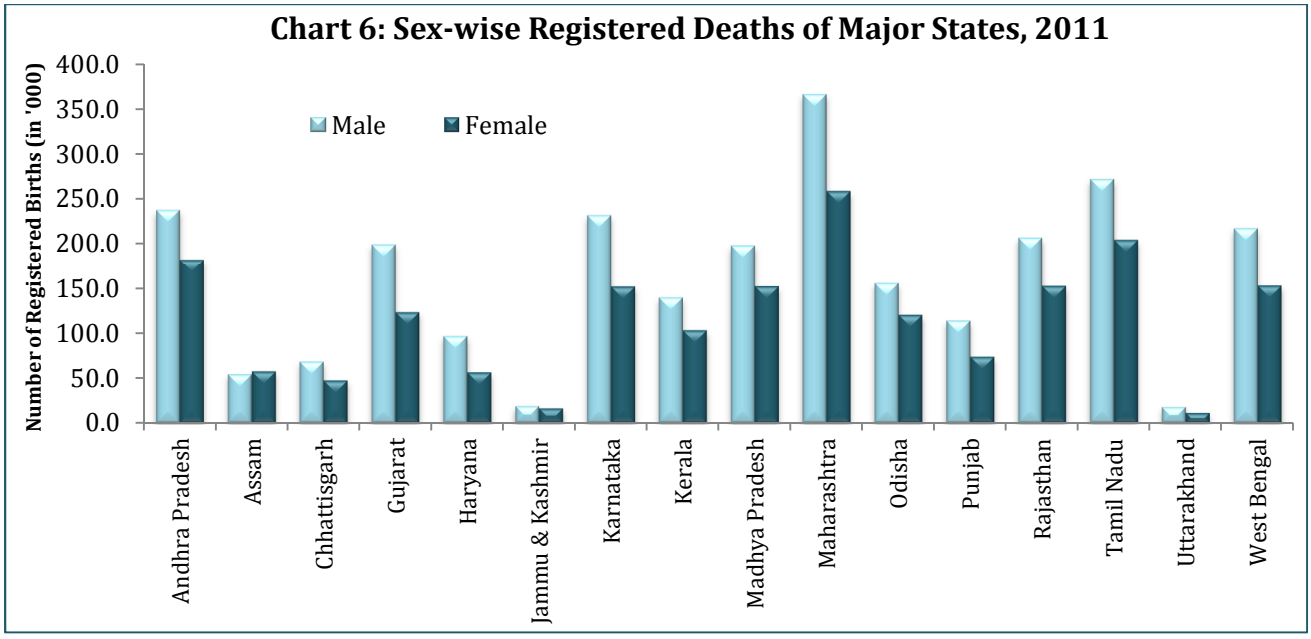
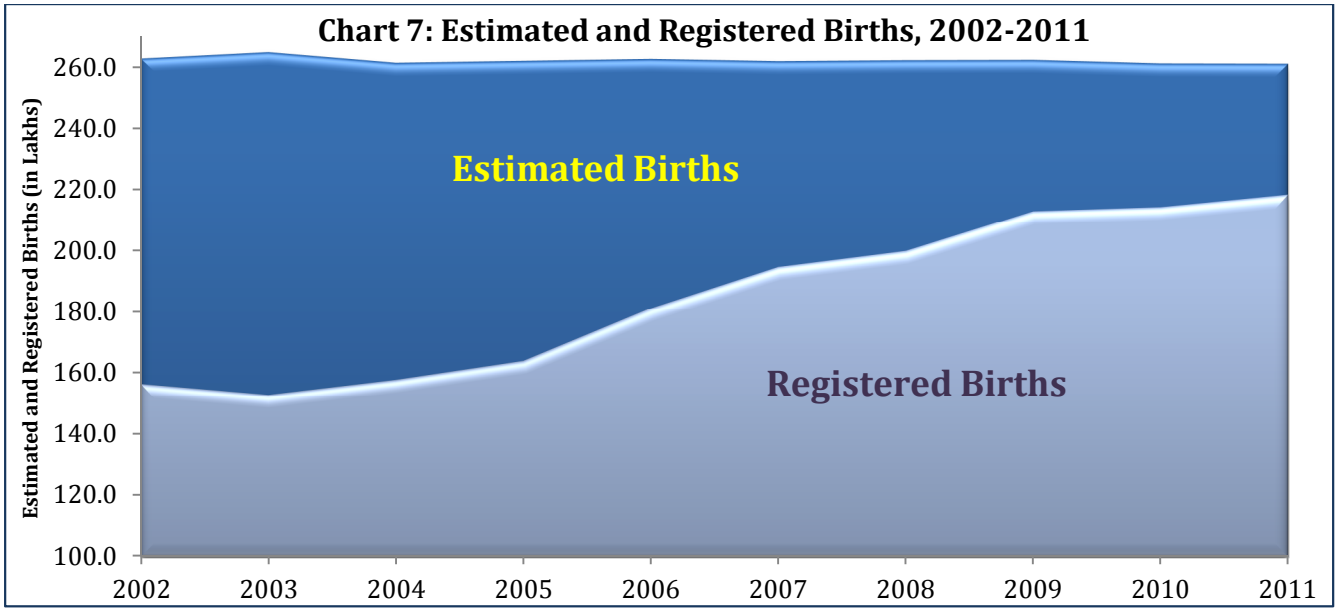
11.	Odisha	413.0	372.5	156.6	120.9
12.	Punjab	275.9	235.2	114.6	73.1
13.	Rajasthan	904.3	824.0	207.4	153.2
14.	Tamil Nadu	607.8	550.2	271.8	205.0
15.	Uttarakhand	78.3	68.0	17.9	11.4
16.	West Bengal	777.5	718.4	217.7	153.4

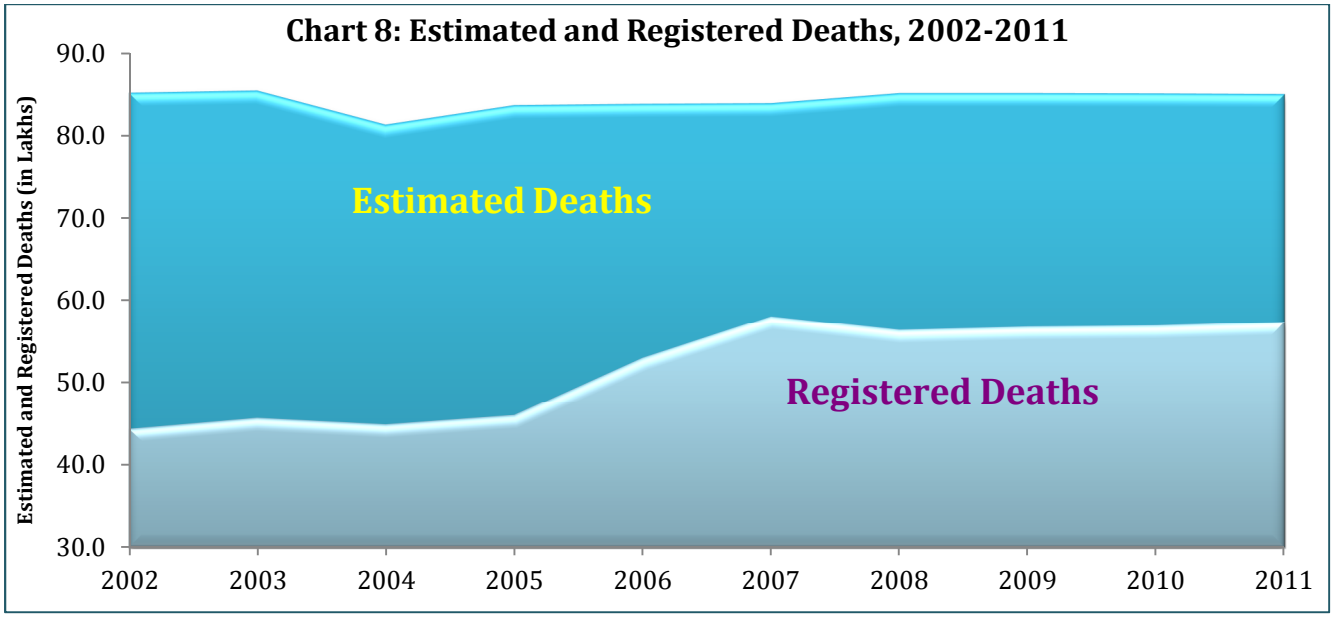




4.0 Distribution of registered births and deaths vis-à-vis estimated births and deaths for the period 2002-2011

4.1 The time series data on registered births and deaths for the years 2002 to 2011 reveals a significant long-term growth in the area covered by the registered events as compared to estimated events. Share of birth registration has crossed the level of 80 percent and has reached to 83.6 percent during 2011 which is good indication for the system of Civil Registration. In case of death registration, this share has been reduced during 2008-2009 as compared to 2007 due to less reporting of registered death events from some of the major States. During 2011, out of the total 26.1 and 8.5 million estimated births and deaths, 21.8 and 5.7 million births and deaths respectively have got registered during 2011.



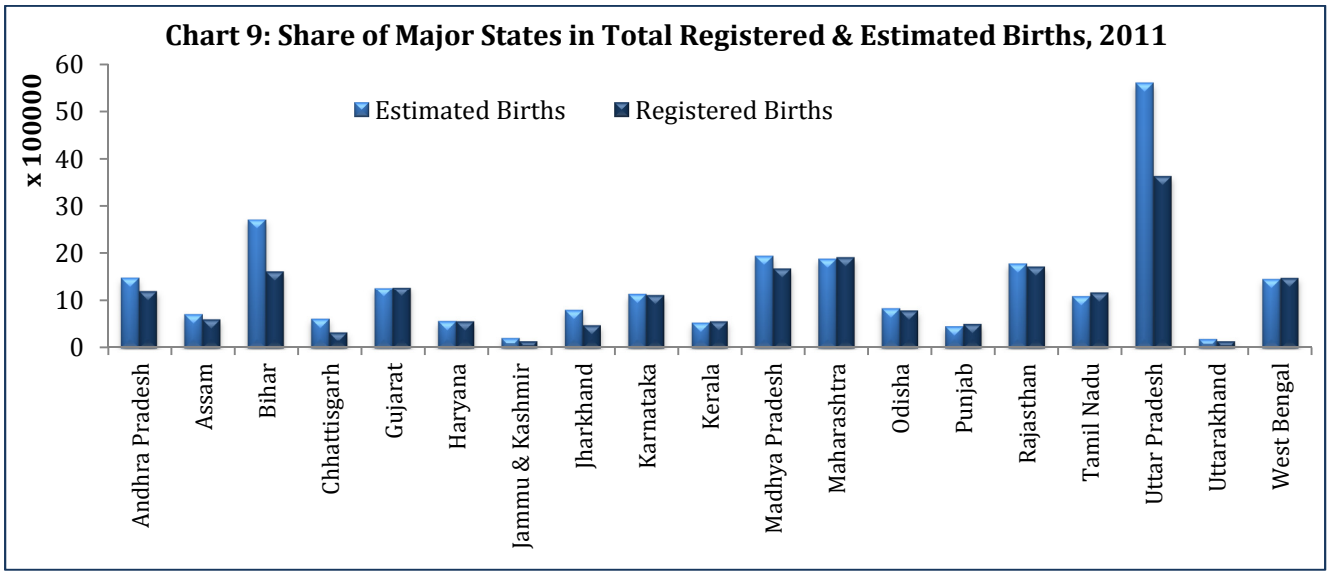


5.0 Distribution of estimated and registered events in Major States

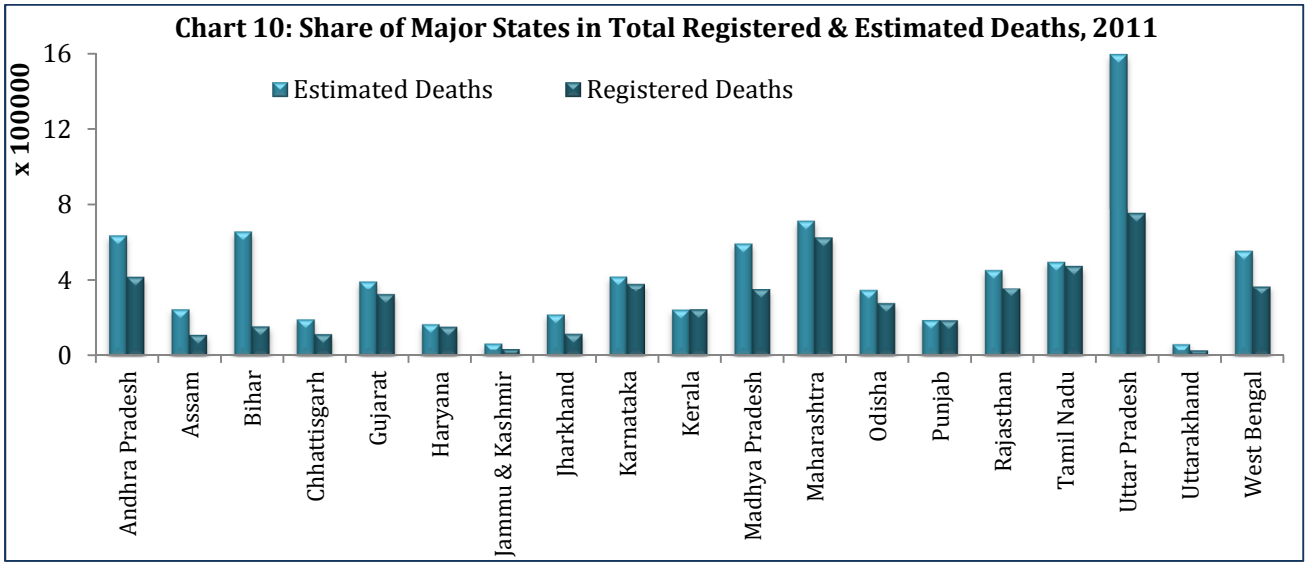
Statement 11: Total Registered and Estimated Births & Deaths of Major States, 2011

Sl. No.	States	Estimated Births	Registered Births	Estimated Deaths	Registered Deaths
1.	Andhra Pradesh	1487395	1186895	637455	420646
2.	Assam	699846	600656	245560	111054
3.	Bihar	2719254	1626655	657726	155176
4.	Chhattisgarh	606788	334288	192515	114842
5.	Gujarat	1262792	1280441	397216	324080
6.	Haryana	557644	563557	166270	153530
7.	Jammu & Kashmir	209470	146370	64724	35425
8.	Jharkhand	790425	479632	218157	116615
9.	Karnataka	1120950	1108562	423338	384745
10.	Kerala	526619	559828	242522	244295
11.	Madhya Pradesh	1952590	1688046	595213	351621
12.	Maharashtra	1890089	1925204	713028	624791
13.	Odisha	821507	785524	347404	277484
14.	Punjab	450068	511058	188918	187675
15.	Rajasthan	1786683	1728321	456900	360560
16.	Tamil Nadu	1074665	1157979	500159	476709
17.	Uttar Pradesh	5613988	3641066	1595342	751596
18.	Uttarakhand	188811	146295	61938	29300
19.	West Bengal	1463365	1495880	556617	371079

5.1 In the analysis, States having population less than a million have not been taken into consideration. On comparison of estimated and registered births, it is found that there is significant gap in estimated and registered births in Andhra Pradesh, Bihar, Chhattisgarh, Jharkhand and Uttar Pradesh. The States of Gujarat, Haryana, Kerala, Maharashtra, Punjab, Tamil Nadu and West Bengal have registered births more than estimated births. This may be partly due to better medical facilities available in these States as compared to neighboring States. Chart 9 shows the distribution of estimated and registered births and deaths respectively in major States.



5.2 On comparison of estimated and registered deaths, it is found that there is significant gap in estimated and registered deaths in Andhra Pradesh, Assam, Bihar, Chhattisgarh, J&K, Jharkhand, Madhya Pradesh, Uttar Pradesh, Uttarakhand and West Bengal. Death registration in major States such as Assam, Bihar, Chhatisgarh, Jammu & kashmir, Jhakhand, Madhya Pradesh, Uttar Pradesh, Uttarakhand and West Bengal need to be improved. Chart 10 shows the distribution of estimated and registered births and deaths respectively in major States.



6.0 Medical attention received at the time of birth and death

6.1 The data on live birth by type of medical attention received at the time of delivery has been reported from 23 States/UTs and the combined distribution of medical attention received at the time of birth of these States/UTs has been presented in Chart 11. Chart 11 shows that majority of live births have been occurred in an institution, either in Government or private hospitals. Institutional births occurred in about 94% of cases and about 6% of registered births were non–institutional in the year 2011. During 2010, this ratio was of 65% and 35% in total registered births. Of the non-institutional births registered during 2011, 1% was attended by Physicians/Nurse/Mid-wife and 3% have been registered as domiciliary event. In spite of having enough better medical facilities about 2% of the events are still attended by untrained Mid-wife/Dai/others.

6.2 Chart 12 represents the distribution of medical attention, received by the deceased at the time of death on the basis of data received from 21 States/UTs. It is evident from Chart 12 that 42% of the total registered deaths have occurred in institutions which is on higher than that of other places from where the deceased had received medical attention. During 2010, this share was about 43% of the total registered deaths. About 10% of the total registered deaths during 2011 have received medical attention from qualified allopathic professionals and 10% of deceased did not receive any medical attention at the time of death.

Chart 11: Medical attention at the time of birth

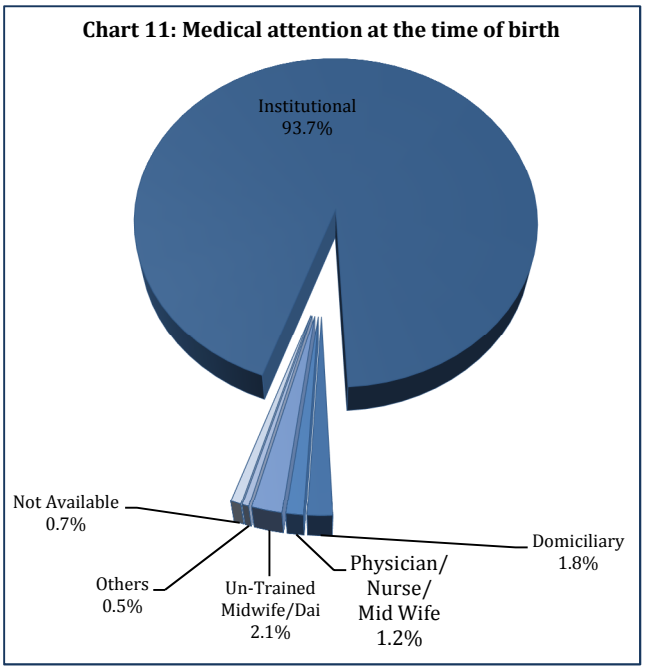


Chart 12: Medical attention at the time of death

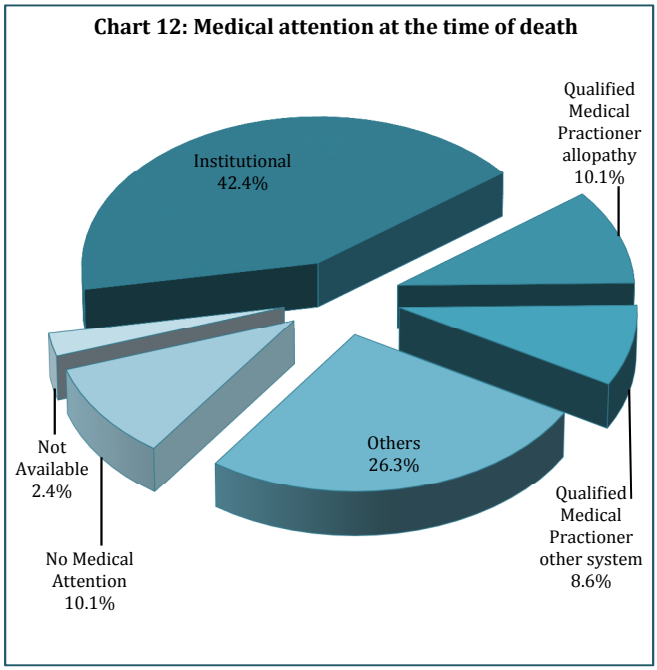


7.0 Infant Deaths

7.1 Statement 12 presents the infant deaths registered by place of occurrence (Rural /Urban) of the event for the year 2011. It may be observed that share of rural area is only 36.3% and urban area is 63.7% in total infant deaths registered during the year. Non registration of infant deaths in rural area is a cause of concern which may be due to non-reporting of infant deaths to the Registrars especially domiciliary events. This figure is exclusive of returns of Bihar, Jharkhand and Tripura because the

information on registered infant deaths for the year 2011 has not been received from these 3 States. Share of infant deaths to total registered deaths is more in urban area as compared to rural area. Statement 13 gives the percentage distribution of sex wise infant deaths which shows that female infant deaths are reported more than male infant deaths.

Statement 12: Percentage distribution of registered infant deaths by place of occurrence, 2011

Place of occurrence	No. of Registered Deaths	No. of Registered Infant Deaths	% share of registered Infant Deaths by place of occurrence	% of Registered Infant deaths to total registered deaths
Rural	3303807	64719	36.3	2.0
Urban	2431275	113453	63.7	4.7
Total	5735082	178172	100.0	3.1

Statement 13: Percentage distribution of infant deaths by sex, 2011

Sex	No. of Registered Deaths	No. of Registered Infant Deaths	% of Infant deaths to total registered deaths
Male	2748274	85445	3.1
Female	1963386	67175	3.4
Person*	5735082	178172	3.1

*: Includes the cases of sex not reported, so does not match with the addition of male and female.

8.0 Still Births

8.1 The birth of an infant that has died in the womb after having survived through at least the first 28 weeks of pregnancy i.e. a still birth occurs when a fetus has died in the uterus. Still birth also known as fetal death which has been defined as *'death prior to the complete expulsion or extraction from its mother of a product of human conception, irrespective of the duration of pregnancy and which is not an induced termination of pregnancy. The death is indicated by the fact that after such expulsion or extraction, the fetus does not breathe or show any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles. Heartbeats are to be distinguished from transient cardiac contractions; respirations are to be distinguished from fleeting respiratory efforts or gasps.'*

8.2 Statement 14 presents still births registered by place of occurrence (Rural /Urban) of the event for the year 2011 and it may be observed that in total registered still births, share of rural registered births is only 28.7% which may be due to poor netting of still births in rural areas. In urban areas, this share is about 71.3% due to better netting of still births from medical institutions. Non registration of still births in rural area is a cause of concern. This total still birth is based on registered events from 27 States/UTs. State-wise registered still births has been depicted in Table 4.

Statement 14: Still Births registered during 2011

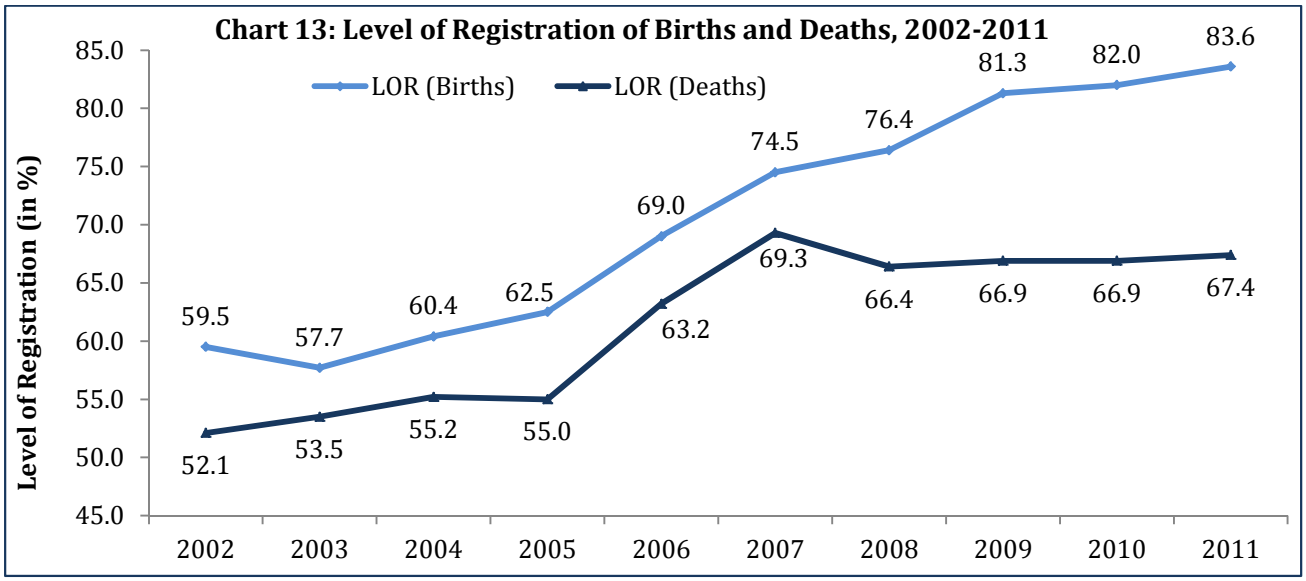
Place of occurrence	No. of Registered Still Births	% share of registered still births by place of occurrence
Rural	28549	28.7
Urban	70978	71.3
Total	99527	100.0

9 Analysis and Findings

9.1 Level of Registration (LOR)

9.1.1 The level of registration, defined as the percentage of registered births/deaths to the births/deaths estimated through SRS, determines the performance level of a State / Union Territory in respect of registration of births and deaths. In the absence of reliable estimates of number of births and deaths on a year to year basis from any other source, the number of events as revealed from SRS is used to calculate the level of registration. The level of registration so calculated is very high for some of the smaller States/Union Territories either due to the lower estimates of vital events than the actual and / or due to the fact that SRS estimates of vital events are based on the place of usual residence while events are registered at the place of occurrence irrespective of the place of residence.

9.1.2 The levels of registration of births and deaths for India and States/UTs for the period 2002 to 2011 are presented in Statements 15 and 16 respectively. The level of registration of births has increased to 83.6 percent in 2011 from 59.5 percent in 2002 i.e. in last 10 years an increase of about 24 per cent has been shown in birth registration. The level of registration of deaths has also increased to 67.4 percent in 2011 from 52.1 percent during the corresponding period. Chart 13 depicts the trend of level of registration of births and deaths from 2002 to 2011. The level of registration for births has recorded sharp exponential increase after 2005 and has shown consistent improvement over the years. However, the existing gap of about 16 percent in case of registration of births and about 33 percent for registration of deaths at all India level remains a cause of concern. In order to universalize the registration of events, a mission mode approach is required especially in the poor performing States.



9.1.3 Statement 15 reveals that the States/UTs continue to function at different levels of registration efficiency during 2002-2011. The level of registration of births in the country is highly erratic even after more than 40 years of enactment of the Registration of Births and Deaths Act, 1969.

Statement 15: Level of Registration of Births, 2002-2011

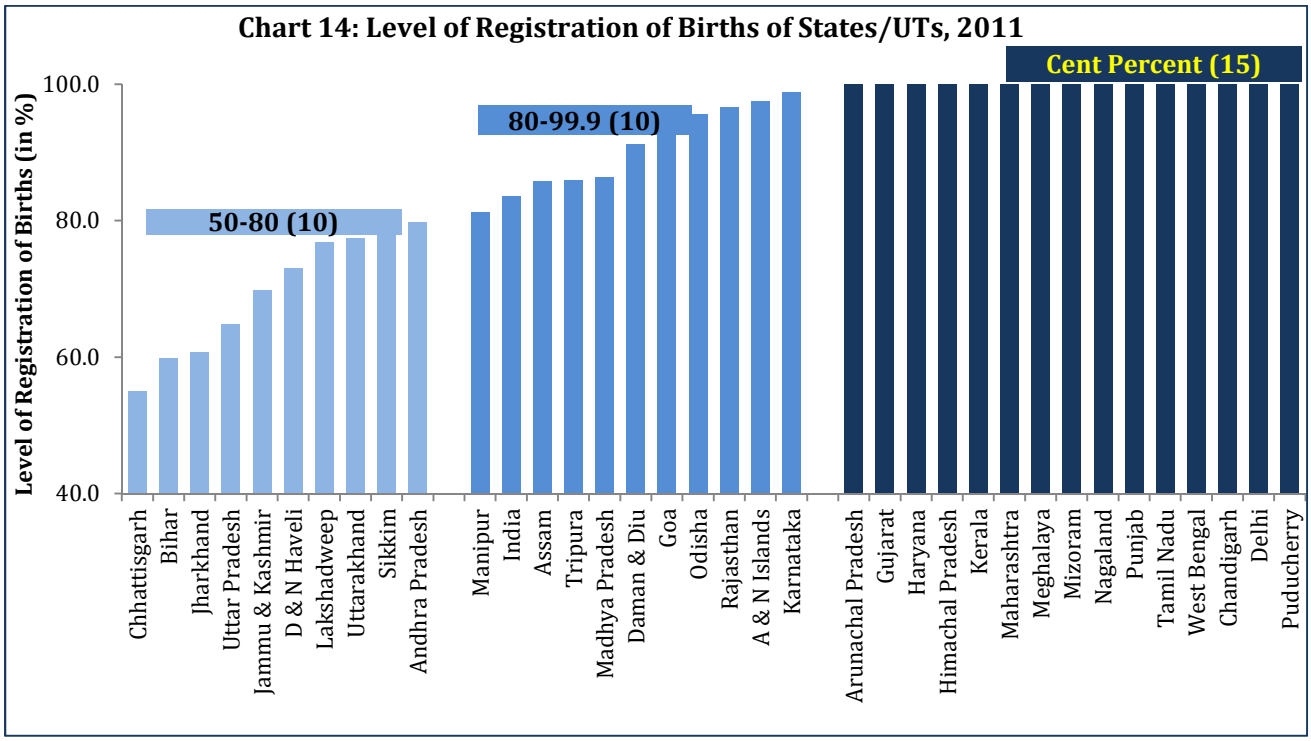
9.1.4. Chart 14 shows that 15 States/UTs namely Arunachal Pradesh, Gujarat, Haryana, Himachal Pradesh, Kerala, Maharashtra, Meghalaya, Mizoram, Nagaland, Punjab, Tamil Nadu, West Bengal, Chandigarh, Delhi and Puducherry have recorded cent percent registration of births in 2011.



9.1.5 7 States/UTs namely, Himachal Pradesh, Kerala, Mizoram, Nagaland, Chandigarh, Delhi and Puducherry have maintained their level of registration of births as cent percent since last 10 years. During 2011, 21 States/UTs have recorded their level of registration of births above the level of 90 per cent. Chart 14 portrays the level of registration of births for India and States/UTs for the year 2011. 24 States/UTs have recorded their level of registration of births higher than the National level and on the other side this number is 11. Statement 5 shows that the States of Goa, Sikkim, Tripura and the UT of A & N Islands, D & N Haveli, Daman & Diu and Lakshadweep where the level of reporting is cent percent, the level of registration of birth has not achieved the target of cent percent which may be due to less registration of birth events/differences in the actual and projected Mid- Year Population.

9.1.6 Statement 16 shows that the level of registration of deaths in the country also continues to be fluctuating. In 2011, Kerala and Mizoram are the only States recording cent percent registration of deaths followed by the States of Punjab, Tamil Nadu, Goa, Nagaland, Himachal Pradesh, Haryana and Karnataka reporting more than 90 percent registration of deaths. Other that D & N Haveli and Lakshadweep all the Union Territories have recorded cent percent level of registration of deaths during the year. The Union Territories of Chandigarh, Delhi and Puducherry have maintained cent percent level of registration of deaths during last 10 years. 22 States/UTs have recorded their level of registration of deaths higher than the National level and on the other side this number is 13. Chart 15 depicts the level of registration of deaths for India and States/UTs for the years 2011.

9.1.7 Statement 15 presents the distribution of major States (with population 10 million and above as per 2011 Census) by their level of registration of births and deaths. The major States have been categorized into 5 groups as per their level of registration of births and deaths for the year 2010 and 2011.

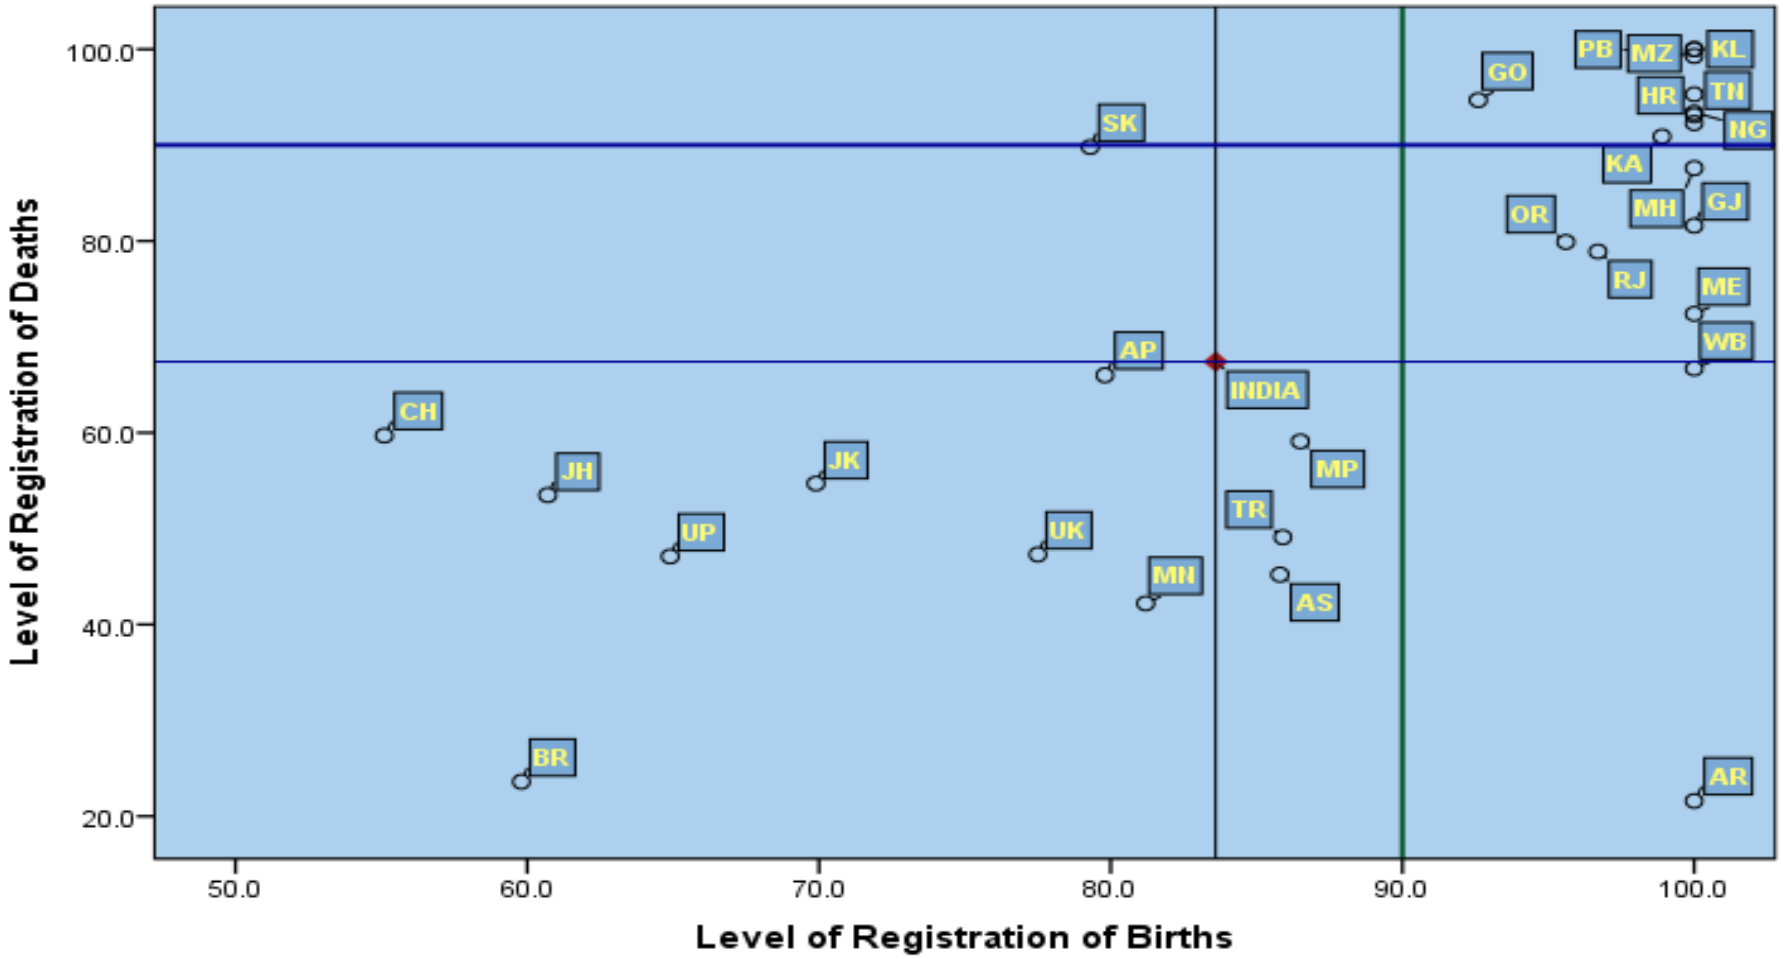
Statement 15: Major States (Population above 10 million as per 2011 Census) classified by their level of registration, 2010 and 2011

Level of Registration	2010		2011	
	Births	Deaths	Births	Deaths
Above 90	10 States (Assam, Gujarat, Haryana, Karnataka, Kerala, Maharashtra, Odisha, Punjab, Rajasthan and Tamil Nadu)	5 States (Karnataka, Kerala, Maharashtra, Punjab and Tamil Nadu)	10 States (Gujarat, Haryana, Karnataka, Kerala, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu and West Bengal)	5 States (Haryana, Karnataka, Kerala, Punjab and Tamil Nadu)
80-90	2 States (Madhya Pradesh and West Bengal)	4 States (Gujarat, Haryana, Odisha and Rajasthan)	2 States (Assam and Madhya Pradesh)	2 States (Gujarat, and Maharashtra)
50-80	6 States (Andhra Pradesh, Chhattisgarh, Jammu & Kashmir, Jharkhand, Uttarakhand and Uttar Pradesh)	6 States (Andhra Pradesh, Chhattisgarh, Jammu & Kashmir, Madhya Pradesh, Uttar Pradesh and West Bengal)	7 States (Andhra Pradesh, Bihar, Chhattisgarh, Jammu & Kashmir, Jharkhand, Uttarakhand and Uttar Pradesh)	8 States (Andhra Pradesh, Chhattisgarh, Jammu & Kashmir, Jharkhand, Madhya Pradesh, Odisha, Rajasthan, and West Bengal)
25-50	1 State (Bihar)	3 States (Assam, Jharkhand and Uttarakhand)	NIL	3 States (Assam, Uttarakhand and Uttar Pradesh)
Below 25	NIL	1 State (Bihar)	NIL	1 State (Bihar)

9.1.8 Karnataka, Kerala, Punjab and Tamil Nadu are the only four major States recording more than 90 percent of registered births as well as deaths both in 2010 and 2011. Bihar is the only State in case of death registration in the lowest category during both the years. No State has fall under the category of less than 50 percent of registration of births during 2011. There is no change in the number of major States during both the years 2010 and 2011 in the category of above 90 per cent of level of registration of birth but the States have jumped from one category to other. Assam is the State which was jumped to above 90 percent of category of birth in 2010 from '80-90' category and again plummeted in the same category during 2011. Bihar and West Bengal have moved one step up in case of birth registration during 2011.The States of Maharashtra and Uttar Pradesh have dropped by one category in case of registration of deaths during 2011 as compared to 2010.

9.1.9 The level of registration of births and deaths for the year 2011 for India and States/UTs has together been mapped in the Chart 16. The rectangle on the top right corner is the expected target towards achieving the cent percent registration and status of each States is depicted in the Chart 16.

Chart 16: Level of Registration of Births and Deaths, 2011

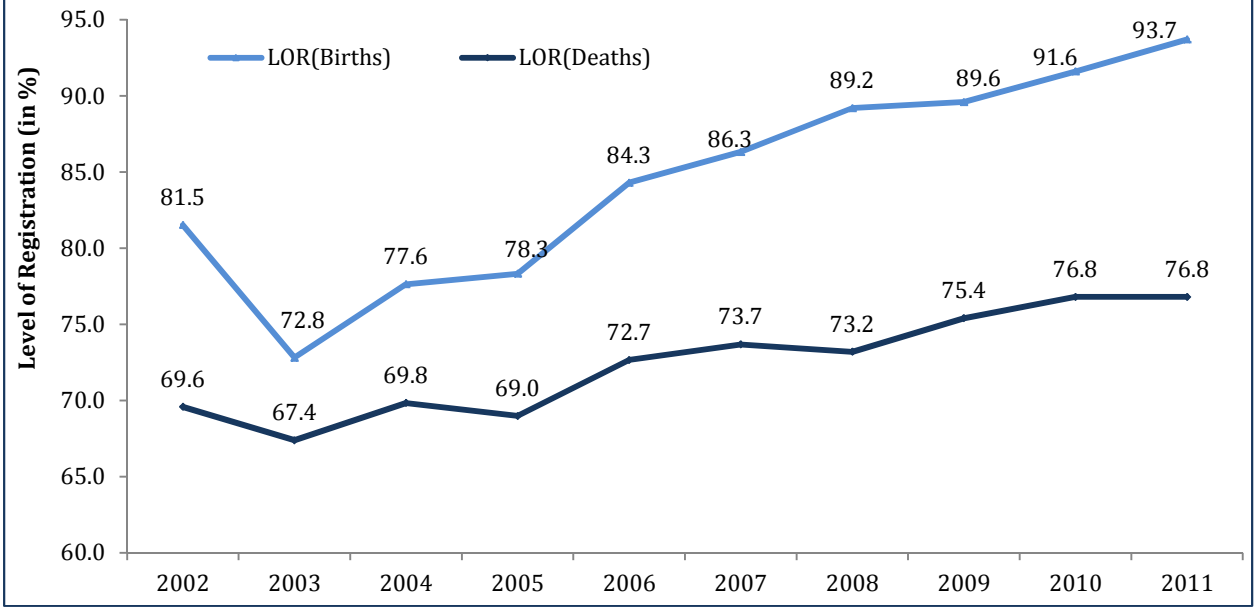


Andhra Pradesh (AP), Arunachal Pradesh (AR), Assam (AS), Bihar (BR), Chhattisgarh (CH), Goa (GO), Gujarat (GJ), Haryana (HR), Himachal Pradesh (HP), Jammu & Kashmir (JK), Jharkhand (JH), Karnataka (KA), Kerala (KL), Madhya Pradesh (MP),Maharashtra (MH), Manipur (MN), Meghalaya (ME), Mizoram (MZ), Nagaland (NG), Orissa (OR), Punjab (PB), Rajasthan (RJ), Sikkim (SK), Tamil Nadu (TN), Tripura (TR), Uttar Pradesh (UP), Uttarakhand (UK), West Bengal (WB)

10.0 Level of Registration after excluding Uttar Pradesh and Bihar

10.1 In order to quantify the impact of Bihar and Uttar Pradesh, which are most populous and performing abysmally poor for last so many years, the level registration for the country excluding these two States have been worked out and mapped in Chart 17 from 2002 onwards. These two States even after showing marginal improvement in functioning of Civil Registration during last several years still suppresses the national figure for registration of both births and deaths by around 10 per cent.

Chart 17: Level of Registration excluding Uttar Pradesh and Bihar, 2002-2011



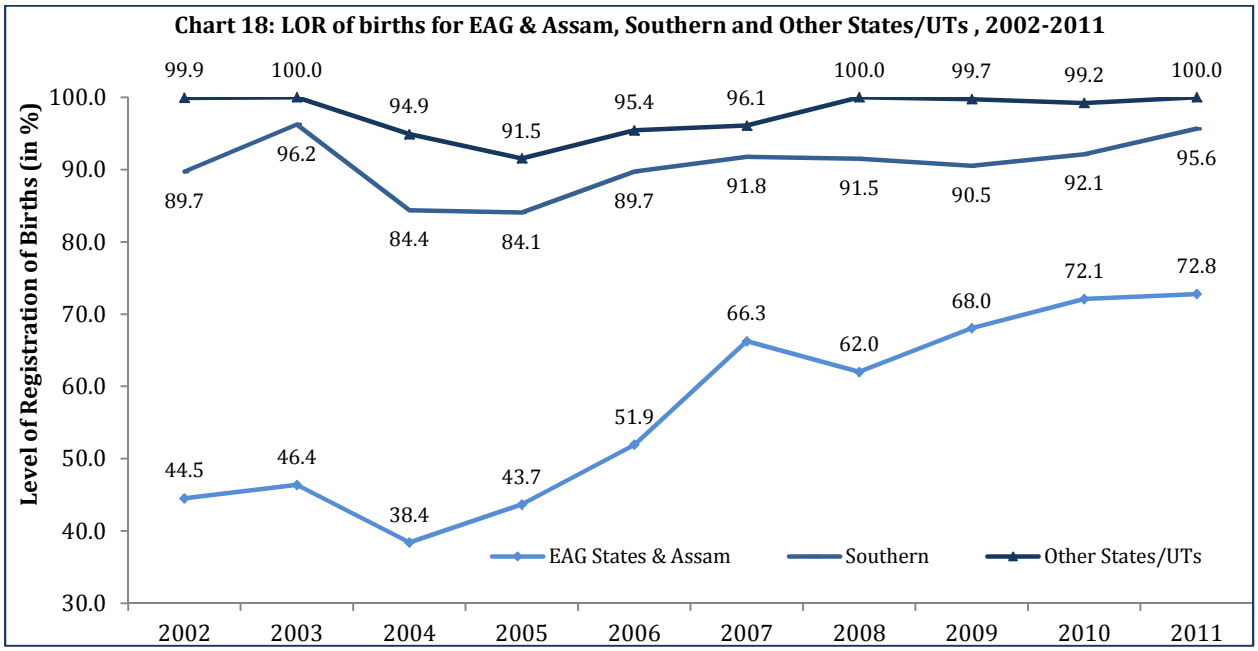
12.0 Comparison of level of registration of births and deaths in EAG & Assam, Southern States and Other States/UTs

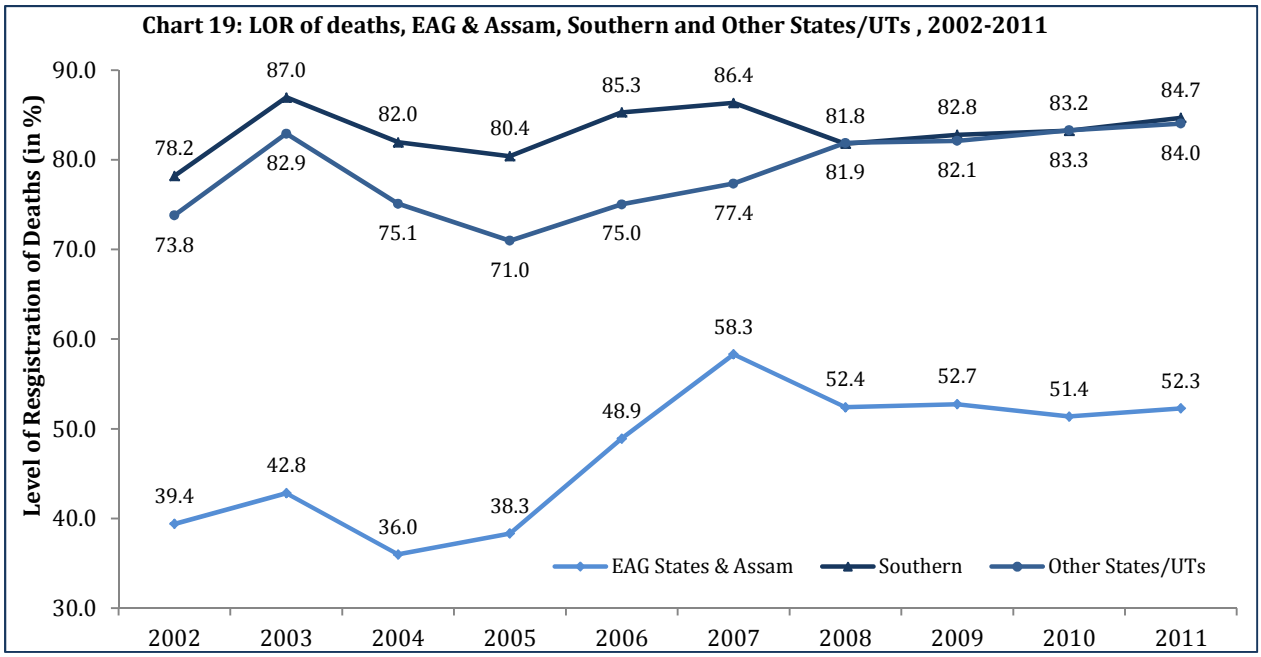
12.1 In order to highlight the gap in the demographic profile of i) Empowered Action Group (EAG) States & Assam, ii) Southern States and iii) other States/UTs, the level of registration for births and deaths (two important indicators describing the demographic progress) has been worked out and shown in the charts 18 and 19 respectively.

12.2 The compositions of these three groups in terms of States/UTs are as under:

a) EAG States: Bihar, Jharkhand, Madhya Pradesh, Chhattisgarh, Odisha, Rajasthan, Uttar Pradesh and Uttarakhand. Assam has also been added to this group.
b) Southern States: Andhra Pradesh, Karnataka, Kerala and Tamil Nadu.
c) Other States/UTs: This category covers all the remaining States and UTs.

12.3 It can be seen that the level of registration of births for other States/UTs is higher than that of Southern as well as EAG States& Assam persistently over the period. This perhaps is due to low level of registration of births in Andhra Pradesh and to some extent in Karnataka. In case of performance of these group differs in case of death registration where the Southern States are better that the other 2 groups.





17.0 Sex Ratio at Birth

17.1 The Sex Ratio (Number of females per thousand males) at birth is an important indicator to map the sex differential of the population at the beginning of their life. The sex ratio at birth has been calculated for different States/UTs for the year 2002 to 2011 and shown in the Statement 16.

Statement 16: Sex Ratio at Birth based on registered events, 2002-2011

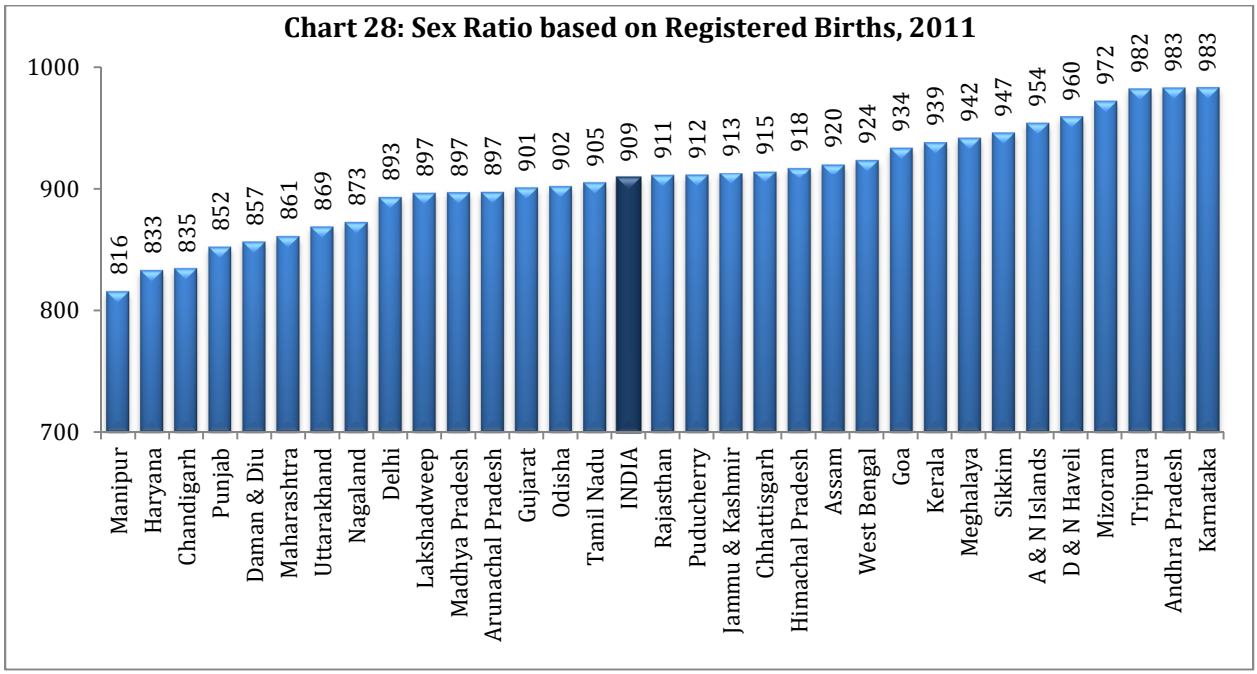
Note: n.a. – not available; n.r. – not reported.

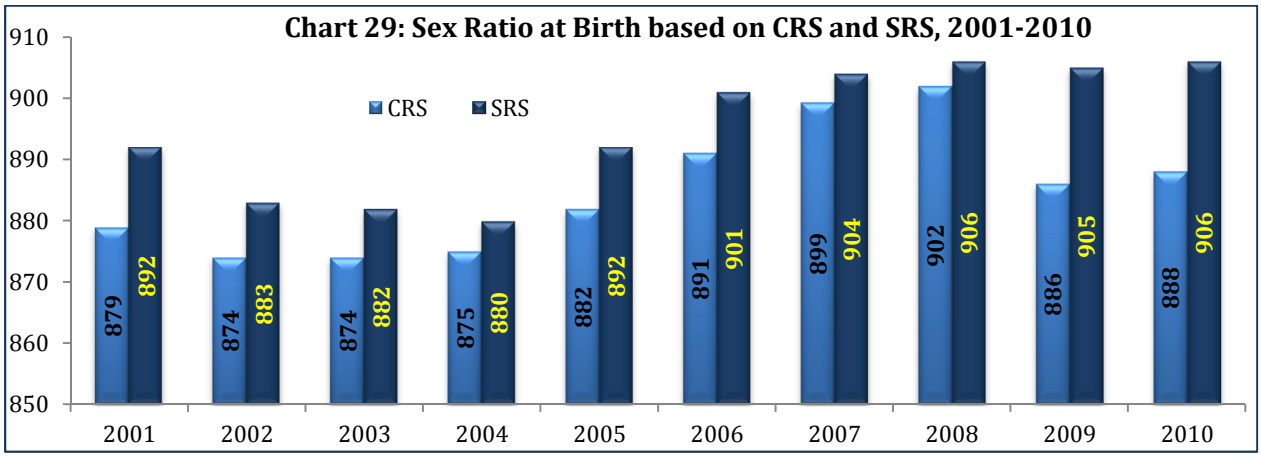
17.2 It can be seen from the Chart 28 that the Sex Ratio at Birth based on registered events of Karnataka and Andhra Pradesh have shown the highest sex ratio which is due to better netting of female birth during 2011 and Manipur has shown the lowest sex ratio at birth for the same year. The sex ratio at birth at national level is 909 during 2011. The Sex Ratio at birth for the country

ranges from 857 to 909 over the years 2002-2011. In 2011, the sex ratio at birth has shown improvements due to better netting of female births. Downfall in the sex ratio at birth were observed during 2010 which is due to less reporting of female registered births from some of the major the States namely Bihar, Punjab, Haryana, Rajasthan and Maharashtra where Sex Ratio at Birth based on CRS is less than the National. The sex ratio at birth has shown noticeable improvements in the States of Arunachal Pradesh and Rajasthan in 2011 as compared to 2010. Karnataka and Andhra Pradesh have the distinction of being the only major states reporting favorable sex ratio at birth in last so many years.

17.3 The sex ratio at birth could not be worked out for Bihar, Jharkhand and Uttar Pradesh for want of sex-wise disaggregated data on registered births for the year 2011. The sex ratio at birth for India is exclusive of returns from these 3 States. Non-reporting of gender-wise break up of registered events is another area where urgent attention is required.



17.4 In order to evaluate the performance of Civil Registration System on this front also, a comparison of sex ratio at birth based on registered births with that of from SRS by taking three years simple moving average for the years 2002-2010 has been done and the same is shown in Chart 29.



17.5 It can be seen from the above graph that the gap at the national level was narrowing down till 2009 but due to poor registration of females in majority of the bigger States, this has gone down during 2010 and 2011. However, it may take few more years under the Civil Registration System to bridge the gap in Sex Ratio.

18.0 Registered Births & Deaths of Indian Nationals in Indian Missions/Post abroad

18.1 Statement 17 presents the number of registered births and deaths during 2011 of Indian Nationals in Indian Mission/Post abroad. These events of Indian citizens occurring abroad are registered by the respective Indian Consulates under the Citizenship Act, 1955.

Statement 17: Registered Births & Deaths of Indian Nationals in Indian Missions/Post Abroad, 2011
