MOTIF

The Ancient Temple of Pandva's Bhimeshwari Goddess.

India has been the land of saints, fakir's and Mahatmas from the ancient time. The ruins of temples of Mahabharta time are found in the whole country. In Beri a huge fair is held at the occasion of Navratra's twice in a year. In the famous temple of Bhimeshwari Devi lakhs of devotees from all over the country come and worship the goddess. According to the well-known story, it is named, Bhimeshwari due to the installation of the idol of the goddess by Bhima.

According to the saying before the beginning of the battle of the Mahabharta period Shri Krishna told mahabali Bhima to bring his kuldevi to the battlefield of the Kurukshetra and take the blessing from her. The goddess accepted the request of Bhima but laid down a condition, she said that she was ready to go with him but if he dropped me down on the way from the lap then she would not proceed further. In the way Bhima felt the desire to go to toilet so he placed the idol of the goddess under a tree of Beri from his lap. After that when he tried to lift the goddess than he remained her condition, under compulsion, Bhima placed the goddess near the bank of the pond and went to Kurukshetra after seeking the blessing for victory.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Smt. Neerja Sekhar, IAS, Director of Census Operation, Haryana. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

(C.Chandramouli)
Registrar General &
Census Commissioner, India

New Delhi.

Dated:- 16-06-2014

Preface

The District Census Handbook (DCHB) is one of the important and most valuable publications of Census Organisation which is brought out for each district. It contains several demographic and socio-economic characteristics village-wise and town-wise of the district along with the status of availability of civic amenities, infrastructural facilities etc.

DCHB reflects an overview of the district and is widely used by administrators, planners, academicians, researchers, various departments and general public. For DCHB publication, population data was taken from Census 2011, whereas non-census data was collected with the active collaboration of State Govt.

The Census 2011 was conducted under the able guidance of Dr. C. Chandramouli, IAS, Registrar General & Census Commissioner, India. The credit of the successful accomplishment of this huge task goes to him for his tremendous and spontaneous work. On behalf of this Directorate I am highly grateful to him and also extend my thanks to Sh. Deepak Rastogi, Additional Registrar General for timely guidance. I extend my thanks to Dr. Pratibha Kumari, Assistant Registrar General (Social Studies), under whose guidance this publication was finalised. Further I extend my special thanks to Sh. A. P. Singh, Deputy Registrar General (MAP) and Sh. A.K. Arora, Joint Director, EDP, who took great pains in bringing out this publication.

I am very grateful on behalf of this Directorate to Smt. Neerja Sekhar, IAS, the then Director under whose able guidance the specified task was mostly completed and I would like to acknowledge all the staff members of DCO Haryana, particularly the team headed by Sh. Vinod Kumar Babbar, DDCO, Sh. B.V.L. Sai Sekhar, the then ADCO and the entire team of DCO Haryana. Lastly I record my appreciation for the best efforts put in by the staff of DCHB, Map and Census Sections.

I hope this publication will provide more useful information for all the data users.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the District

The history of the district from the Rigveda period to Budha era is shrouded in mystery. The later historical researches showed that the area remained under the influence of Indo-Greeks, Saka and Kushan Empire. The above fact is corroborated with the discovery of coins of Gondophernes. The archaeological excavations in the area were undertaken for the first time in 1879 by Mr. Wood, the then Administrative Officer. Antiquity of the present areas of the Jhajjar district remained obscure. A systematic and extensive excavation undertaken by Silak Ram proved that the area was inhabited by a variety of cultures.

During the Delhi Sultnate and the Mughal period, the Jhajjar area hogged the limelight. Some historians call Jhajjar city a town of medieval age. According to a legend, the town of Jhajjar was founded by Chajju Jat about 1300 years ago.

The Tomara Rajputs ruled over 'Haryana' from Delhi when the Ghazanavids invaded India from the north-west. Ghazanavids annexed kingdom of Lahore by 1020. The Tomaras of Delhi and Ghazanavids of Lahore made no attempt to outst each other. In this way, for about a century and a half, the Muslims and the Rajputs co-existed. The position, however, changed with the fall of Lahore into the hands of the Ghuris and the Tomaras of Delhi were overpowered by the Chahamanas of Ajmer.

Muhammad Ghuri came in 1192 to defeat Prithviraja Chauhan, he destroyed the most important town of Maham in conquering this part of Haryana. At that time, Jhajjar area was a deserted forest of Delhi and most adjoining area and villages were devastated in war. The Sultanate of Delhi was established in 1206 which depended on the support of Muslim nobles. Rohtak and Jhajjar areas on account of nearness to Delhi influenced struggles among the aspirants for the throne of Delhi.

Firoz Shah Tughlaq (1351-88) is said to have dug a canal from Sutlej to Jhajjar Town. During the Mughal period, territories in the Jhajjar area often changed hands as a consequence of constant fighting between the Sikhs, the Jats, the Marathas and the Rajputs. During the rule of Akbar, this area was part of Delhi province.

After the fall of the Mughal empire, there was again an atmosphere of turmoil. Farrukh-Siyar handed over this area to his minister Rukn-Ud-din in 1718. Even he could not handle and a few years later handed over the area to the Nawab of Farruknagar. Maratha chieftains Holkar and Scindhia were also engaged vigoursly in extending their territories in this area. During this period Raghu Nath Rao and Malhar Rao Holkar with the help of Maratha military attacked on Nawab and charged heavy tax. Under the leadership of Maharaja Suraj Mal, jats defeated the Nawab of Farrukhnagar and established their rule. After that from 1785 to 1803, the area was again under instability.

George Thomas, an Irish adventurer was an extremely courageous personality and was a remarkable character in the history of Jhajjar area.

Coming to India in 1780-81, he remained for a short time in the service of Begum Samru before being adopted by Appa Kandi Rao as his son. This Maratha Chieftain operating under the overlordship of Mahadaji Scindhia, gave parganas of Jhajjar, Beri, Mandothi and Pataudah to George Thomas in return for the forces which he was required to maintain. It was a gift only in name. In the beginning George Thomas succeeded only in obtaining possession of Beri, eventually he asserted his authority over the adjacent territory, made Jhajjar his headquarters and in view of security, constructed a fort at some distance and named it Georgy garh (modern Jahazgarh). After consolidating his position at Jhajjar, he thought of establishing an independent principality for himself in the tract known as Hariyana. Accordingly he established himself at Hansi. He had to campaign against Rajputs, Sikhs and Marathas to retain his territories. Thomas was outmatched in numbers when the siege of Georgegarh began, betrayed by several of his chief officers he fled to Hansi and abandoned his claims to power.

Within a period of two years after desertion of George Thomas, the increasing power of Scindhias was destroyed by the British army under General Lake. As a result of treaty in 1803, the area came under the control of East India Company but General Lake decided to establish small feudatories in the middle of area between the Sikhs and East India Company ruled area which would safeguard the area of the Company.

In this distribution, the area of Beri was given to the nawab of Dujanas, the area of Jhajjar to Nawab Nijabat Alikhan and the area of Bahadurgarh was given to his brother Nawab Ismail Khan. Patoda and Kheri Village were given to Faiz Muhammad Khan, the son of Ali Khan.

Nawab Nijabat Ali Khan lived in Delhi. He handed over the responsibility of the administration of Jhajjar to his son Faiz Muhammad Khan in 1813. Faiz took keen interest in the progress of Jhajjar. He got constructed many buildings, the work of salt-making was started, many deserted villages were rehabilitated and a dam was constructed near Badli Village. The last Nawab of Jhajjar Abdur Rahman sat on throne in 1845. Ranghars and Jats who had been serving in the regular regiments of the East India Company were discontented in large numbers with their British Masters. In 1857, Collector of Rohtak requested the Nawab for military help to crush the revolutionists. But the request of the Collector was declined as Emperor Bahadur Shah also wanted the Nawab to participate in the revolution, the Nawab supported revolutionists and sent his military in their support. But the Britishers captured Delhi again. The Nawab had to surrender before colonel Lawrence on 18th October, 1857 in Chhuchhakwas, later on tried and sentenced to death in front of Red Fort in Delhi.

After the struggle of 1857, Jhajjar came direct under the British Rule and was constituted as a new district but was abolished in 1860 and it was made a tahsil in Rohtak district. Apart from the Jagirdars who were punished for their anti-British activities during the uprising of 1857, the Rohtak district (including Jhajjar) itself suffered a set-back. It was not included in any of the developmental programmes. Thus it remained a backward district. The resources of peasants were crippled because of many years of draught and famine after 1895.

Arya Samaj movement accelerated the desire for reform. The movement spread soon to Jhajjar, Sanghi, Maham and Mahra after Rohtak. At this stage, a local leader, Chhotu Ram appeared on the scene whose dynamic personality exercised a deep influence on public life. Born in Jat family in Garhi Sampla, he shifted to Rohtak and practised as a lawyer in 1912. He founded Jat Sabha and published 'The Jat Gazette' in 1916 publishing interests of rural masses.

In response to the call given by Mahatma Gandhi in 1919, hartals were observed and demonstration held in March-April at Rohtak, Sonipat, Jhajjar and Bahadurgarh as a protest against Rowlette Act. As an all India Programme, Jhajjar Congress Committee in 1921 responded to the efforts by hoisting Congress flag at Town Hall.

India became Independent on 15th August, 1947. Jhajjar areas remained tagged with Rohtak till the appearance of Jhajjar as an independent district for the second time on 15th July, 1997.

Administrative set up

The area comprising present Jhajjar district underwent great reshuffle of areas in the past before it came in its present form. It was part of Delhi Subah and fell within Sarkars of Delhi and Hisar Firuza during the Mughal rule. With the decline of Mughal empire, the region went under the control of Marathas. But in 1803 the whole area west of Yamuna passed onto the British. Jhajjar territory was given to Nawab Nijabat Ali Khan and the old Baluch possessions at Bahadurgarh to his brother, Nawab Ismail Khan. The villages of Luhari, Patoda and Kheri in the south east corner of Jhajjar tahsil and some estates in Sampla area were given to the son of Nawab Nijabat Ali Khan. Rohtak-Beri and Maham tahsils were given to nawab of Dujana who resigned the major portion of gift in 1809A.D. because it was beyond his control. Rohtak-Beri was part of Rohtak district which was formed in 1824, Bahadurgarh territory formed its eastern and Jhajjar its southern boundary. In April 1858, two districts, namely, Rohtak and Jhajjar with Delhi and Hisar divisions were made part of Punjab after detaching these from Northwestern Provinces. In 1860, Jhajjar district was abolished and was added as a tahsil to Rohtak. In 1884, Rohtak district as part of Delhi division comprised Rohtak, Gohana, Jhajjar and Sampla tahsils. But Sampla tahsil was abolished in 1910. In 1948, Dujana State was merged in Jhajjar tahsil.

The State has been experiencing inter-district and inter-tahsil jurisdictional transfers ever since its formation on 1st November, 1966. There were 7 districts at the 1971 Census which increased to 12 in 1981, 16 in 1991, 19 in 2001 and 21 in 2011. Likewise the number of tahsils has increased from 32 to 74 and towns from 65 to 154 in 1971 and 2011 respectively.

Haryana State is divided into four administrative Divisions, namely Ambala, Rohtak, Hisar and Gurgaon, each headed by Divisional Commissioner. Ambala Division covered Panchkula, Ambala, Yamunanagar, Kurukshetra and Kaithal districts; Rohtak Division extended over Karnal, Panipat, Sonapat, Rohtak and Jhajjar districts; Hisar Division is spread over Jind, Bhiwani, Hisar, Fatehabad and Sirsa districts; Gurgaon Division is spread over Mahendragarh, Rewari, Gurgaon, Mewat, Faridabad and Palwal districts. During 2011 Census two newly created districts, namely, Mewat (17th December 2004) out of district Gurgaon and Palwal (13th August, 2008) out of district Faridabad have been added in Gurgaon Division.

The district is part of Rohtak Division having two sub-divisional offices located at Bahadurgarh and Jhajjar. It is comprised of tahsils of Beri, Bahadurgarh and Jhajjar. Five Community Development Blocks of Beri, Bahadurgarh, Jhajjar, Sahlawas and Matanhail have been set up in the district for the development of rural areas.

Jhajjar district was created out of Rohtak district by carving out Jhajjar and Bahadurgarh tahsils on 25th June 1997. During 1991-2001 intercensal period, following jurisdictional changes were observed. Bahadurgarh tahsil contained 62 villages and Bahadurgarh Town. Jhajjar tahsil contained 199 villages and two towns, namely, Jhajjar and Beri and these were part of Rohtak district. Beri tahsil was newly created on 27th July, 1995 by transferring 39 villages and Beri Town from Jhajjar tahsil. Bahadurgarh tahsil gained 9 villages from Jhajjar tahsil and lost 2 villages to Rohtak tahsil (Rohtak district). Two Census Towns of Ladrawan

and Sankhol were newly formed and three villages, namely, Parnala (Hadbast No. 36), Bahadurgarh Rural (Hadbast No. 38) and Hassanpur (Hadbast No. 37) were treated as outgrowths of Bahadurgarh Town. Jhajjar tahsil lost 39 villages to newly created Beri tahsil and 9 villages to Bahadurgarh tahsil. But it gained 6 villages from Kosli tahsil (Rewari district).

During 2001 Census, the district comprised three tahsils, namely, tahsil Beri (39 villages and Beri town), tahsil Bahadurgh (64 villages and three towns Bahadurgarh and two Census Towns Sankhol and Ladrawan) and tahsil Jhajjar (157 villages and Jhajjar town). During 2001-11 only one major change of creating a new tahsil of Matenhail in 2008 out of Jhajjar tahsil has been recorded. At present there are four tahsils i.e. tahsil Beri (42 villages and Beri town), tahsil Bahadurgarh (64 villages and Bahadurgarh MCL and Ladrawan C.T.), tahsil Jhajjar (101 villages and Jhajjar MC and Faizabad C.T.) and tahsil Matenhail (53 villages and no urban area).

Administratively, the Deputy Commissioner is the overall incharge of the general administration in the district and performs the duties of the District Magistrate and the District Collector. Below the Deputy Commissioner is the Additional Deputy Commissioner who assists the Deputy Commissioner in the work relating to general administration, rural development, etc. The Deputy Commissioner along with ADC, Chief Executive Officer of Zila Parishad, Superintendent of Police and other senior officers of the district looks after the development and regulatory functions in the district.

JURISDICTIONAL CHANGES 2001- 2011, DISTRICT JHAJJAR

Name of District / Tahsil	Number of villages		Number of Villages Newly Created	Number of Towns		Changes since 2001 and Government Notification Number*
	2001	2011		2001	2011

*Source: Financial Commissioner, Revenue Deptt. Haryana.

To decentralize the authority in the administrative set up, the district is divided into two sub-divisions, Jhajjar and Bahadurgarh. Sub-divisions are not necessarily co-terminus with the name of their respective tahsils. Beri and Jhajjar tahsils are under the administrative control of Jhajjar Sub-Division. Zila Parishad and Panchayat Samitis correspond to the district and C.D. Block boundaries except that the municipal areas are not covered by them.

The Zila Parishad, elects its President and Vice-President from amongst the elected members. The term of office of members is five years. An officer in the senior scale of I.A.S. is deputed by the State government as the Chief Executive Officer to the Zila Parishad. The Parishad is also assisted by various departments of the district. At the community Development Block level, each Panchayat Samiti has an elected Chairman and Vice Chairman. The Block Development and Panchayat Officer works as Executive Officer of the Panchayat Samiti. The executive authority for the purpose of carrying out the provisions of the Haryana Zila Parishad and Panchayat Samitis (C.D. Blocks) Act vests in the Chief Executive Officer and the Block Development and Panchayat Officer respectively.

The statutory urban local bodies are municipal councils, municipal committees, etc. The urban local bodies elect councilors from each of the ward and their term is five years.

Process of governance at the lowest level is Gram Panchayat which makes adequate arrangements for development in various fields in rural areas.

District Highlights – 2011 Census

- Jhajjar district occupies 17th position in population size during 2011.
- In terms of density Jhajjar ranks at 14th position with a density of 523. Whereas during 2001 the density was 480.
- The general Sex Ratio of the district which was 847 in 2001 has increased to 862 in 2011. The district stands at 19th place amongst the 21 districts of the State. The Sex Ratio in rural is 861 and it is little lower than the urban Sex Ratio which is 865 during 2011 Census.
- In terms of Child Sex Ratio (0-6 years age group) the district stands at 20th place with a Child Sex Ratio of 782. In 2001 the district Child Sex Ratio was 801.
- The proportion of Child Population (0-6 years) is 12.53 per cent in Jhajjar district.
- The percentage of Scheduled Caste Population to Total Population in the district is 17.8 per cent and it ranks at 16th position whereas during 2001 it was 17.8 per cent.
- In terms of literacy Jhajjar stands at 6th place. The literacy rate in 2011 is 80.6 per cent whereas it was 72.4 per cent during 2001 Census.
- The literacy rate amongst Male population which was 83.3 per cent during 2001 has increased to 89.3 per cent and in urban area it is 90.4 per cent.
- The literacy rate has also shown an increase amongst female population. During 2001 it was 59.7 per cent and it reached 70.7 per cent during 2011.
- The Work Participation Rate (WPR) of Jhajjar district is 34.1 per cent in comparison to 35.2 per cent of the State.
- The Work Participation Rate of Males in Jhajjar is 48.6 per cent, whereas the Female work Participation Rate is 17.2 per cent.
- The percentage of Cultivators to Total Workers in 2011 in the district is 34.4 per cent whereas during 2001 it was 45.6 per cent.
- The percentage of Agricultural labourers to Total Workers in 2011 in the district is 13.7 per cent whereas during 2001 it was 11.5 per cent.
- The percentage of Household Industry Workers to Total Workers in Jhajjar district is 2.8 per cent in comparison to 2.9 per cent of Haryana.
- The percentage of other Workers to Total Workers in the district is 49 per cent in comparison to 52.1 per cent of Haryana.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was

enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 alongwith a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing& Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing& Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their States/UTs. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the

existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is an important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract - District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes - District/C.D. Block/Town.
4. Village Primary Census Abstract - C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
